

 **CITROËN C5**

C5

A WHOLE NEW DESIGN

CITROËN

C5

LIGHT IN ALL THE RIGHT PLACES

Xenon dual function directional headlamps.[◊]

With its auto-adaptive Hydractive 3 suspension, Citroën C5 benefits from exceptional road-holding in all circumstances. On bends the dynamic new generation Electronic Stability Programme (ESP) monitors the car's progress and, if oversteer or understeer is detected, automatically modifies the engine's torque and applies one or more of the brakes to maintain stability and control.

At night the Xenon dual function directional headlamps[◊] allow you to clearly see the curve of a bend for optimum safety. The headlamps are active both in "dipped" and "full beam" mode, adapting themselves to the direction of travel, thus ensuring powerful and ultra-effective illumination.

Automatic illumination of headlamps.[◊]

Lane-Departure Warning System (LDWS).[◊]

Automatic illumination of hazard warning lights on rapid deceleration (Model shown does not feature a rear wash wiper which is standard on UK models).

ALWAYS ON ALERT. On the motorway or other major roads at speeds above 50mph, the LDWS[◊] detects any crossing of a white line by means of infrared sensors built into the front of the vehicle and directed towards the ground. If the vehicle drifts outside its lane without an indicator being on, the driver is warned by one of the vibrating devices built into the left and right sides of the seat. The vibrations are set off on the side corresponding to the direction of drift. In this way the driver can immediately take the necessary corrective action.

READY FOR ANYTHING. When braking, the combination of the ABS and the Electronic Brakeforce Distribution regulates the braking pressure to prevent the wheels locking and to maintain the ability to steer the vehicle in all circumstances. At the same time the Emergency Braking Assistance ensures that maximum braking power is used when needed. A tyre pressure monitor[◊] prevents any risk of under-inflation of the tyres.

Anti-Lock Braking System.

To avoid any risk of being dazzled an electrochromic rear view mirror[◊] becomes tinted if the light level decreases.

Automatic rain sensitive windscreen wipers.[◊]

Electronic Stability Programme is standard across the range.

MAXIMUM PROTECTION. Citroën C5 is designed down to the very last detail to guarantee maximum protection for all its passengers, with a whole host of safety features fitted as standard.

The long list starts with a reinforced passenger compartment, plus 'ring-of-steel' roll-over protection. Citroën's energy absorbing side impact protection system, front and rear impact-absorbers and high tensile steel beams, all help to transfer the force of an impact from any direction, safely away from the car's occupants. Citroën C5 is fitted with 7 airbags to protect the front and rear passengers in the event of an impact. The driver's and front passenger's airbags are adaptive: the amount of their deployment depends on the severity of the impact. A new extra airbag under the steering wheel protects the driver's knees and shins. Side airbags built into the front seats protect the front passengers in the event of a side impact. At the same time curtain airbags built into the curve of the roof are deployed downwards to protect the heads of the front and rear passengers.

7 airbags to protect driver and passengers.

INDIVIDUAL PROTECTION. All seats are fitted with 3-point inertia reel seat belts. In the front pyrotechnical pre-tensioners with force-limiters are fitted which guarantee maximum effectiveness while limiting the risk of injury.

For better safety a warning light flags up any non-fastened seat belts

Above 6 mph the doors are locked automatically.

The HF Plip activates a "Guide-me-home" function. This provides temporary illumination of the headlamps to allow you, for example, to light up the door of your house at night.

INTERIOR PROTECTION. As soon as Citroën C5 is travelling at more than 6mph all doors automatically lock to prevent any risk of intrusion when the car has to stop, e.g. at traffic lights. The 'one-touch' electric windows have an anti-pinch safety feature and can also be closed from outside by means of the high-frequency hand-held Plip. And if the vehicle is accidentally unlocked by the Plip, Citroën C5 re-locks itself automatically after 30 seconds, provided none of the doors have been opened.

C5 *MORE THAN JUST SUSPENSION - THIS IS INTELLIGENT SUSPENSION*

INTELLIGENT. Auto-adaptive Hydractive 3 suspension is unique to Citroën. Combining digital technology with re-designed, simplified hydraulics, it is probably the most advanced suspension system available on any mainstream production car in the world.

IN RESPONSE TO THE ROAD AND TO YOUR DRIVING STYLE.

Citroën C5 is fitted with a Built-in Hydroelectronic Interface (BHI), which reacts to adjust the suspension's spring rate and damping. The system uses a number of electronic sensors to continually monitor the state of the road and to analyse driver input, such as braking, steering and acceleration. With the suspension matched to the road conditions and your driving style, Citroën C5 smoothes out a rough road, gives a poised, balanced ride, superb handling and rock-solid road-holding.

By means of its specific sensors the Hydractive 3 Suspension decodes the state of the road and reacts to it in real time.

HYDRO-ELECTRONIC. As the real brain of Citroën C5, the Built-in Hydroelectronic Interface (BHI) constantly regulates and monitors the pressure of the hydraulic system and controls the suspension. In addition, the high-resistance suspension spheres and the synthetic hydraulic fluid developed by Citroën research guarantee exceptional longevity for the suspension system which needs absolutely no maintenance before 5 years or 125,000 miles.

VARIABLE GROUND CLEARANCE.

The ride height automatically varies according to the car's speed and the condition of the road. On a good road surface, at motorway speeds, Citroën C5 lowers its ride height by up to 15mm at the front and 11 mm at the rear to improve fuel consumption and further enhance stability. On a poor road surface, travelling more slowly, Citroën C5 raises its ride height by up to 13mm to improve road-holding and comfort, and to prevent damage to the underbody of the car.

COMFORT OR SPORT?

For drivers who favour a more assertive driving style, a 'Sport' setting^o puts the suspension into performance mode more often and for longer.

With a touch of a button, Hydractive 3 can be switched to a 'Sport' setting^o to promote the suspension's more dynamic driving characteristics.

20 GB

21 GB

CONNECTED. Citroën C5 uses an advanced Multiplex system, which reduces the amount of electrical cabling in the car, increases reliability and delivers a wealth of innovative functions that can respond instantly to changing external conditions.

At any time the NaviDrive system^o allows you to optimise your journey step-by-step, keeping you calm and in control until you reach your final destination. By continuously pinpointing your car's exact position, the system guides you on your way. It provides audible directions via a voice synthesiser and uses a large format colour screen that displays a digital road map on which the car is shown in real-time.

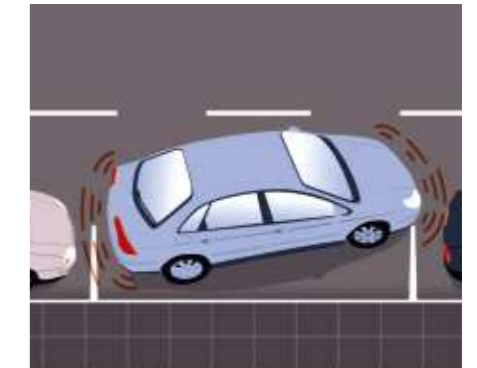

AUTO-ADAPTIVE. The Citroën C5's sequentially controlled automatic gearbox constantly analyses all the different driving parameters in order to select the most appropriate gear. The sequential mode of the gearbox makes it possible to go up and down the gears by simple finger-tip pressure on the control lever.

The new 6-speed automatic gearbox^o offers tremendous acceleration and allows precise use of the exceptional power of the engine.

ERGONOMIC. The driving position has been designed to promote maximum comfort and to minimise fatigue. The four-spoke steering wheel adjusts for height and reach; the driver's seat adjusts for height; the front seat belts are height adjustable; and the front head restraints are height and tilt adjustable. Even the folding armrests^o are fully adjustable, to help you find the driving position that is most comfortable for you.

The wide colour screen of the optional NaviDrive system pinpoints the position of the car on a detailed road map.

The front and rear electronic parking sensors, part of the Parking Assistance Pack^o have both an audible and visual directional alert feature.

A speed limiter coupled with the cruise control^o prevents you from going beyond your set speed unless you deliberately "kick-down" the throttle.

The audio volume adjusts itself automatically, to provide you with a consistent level of sound, irrespective of the speed at which you are driving.

When reverse gear is engaged, the passenger door mirror automatically tilts towards the ground to help you park safely.^o

24 GB

25 GB

CONSIDERATE. Citroën C5 is available with seven different sophisticated engines, three petrol and four Diesel, which can reconcile inspirational performance with improved fuel economy and reduce environmental impact.

1.8i 16V 125HP

Remarkably well-balanced, the 1.8i 16V 125hp petrol engine offers all the qualities of power and acceleration necessary for a pleasant and safe drive, as flexible as it is comfortable.

2.0i 16V 143HP MANUAL AND AUTOMATIC

With its injection system, this new petrol engine is characterised by remarkable power, spirited acceleration and excellent fuel-efficiency on both the manual and automatic 4-speed versions.

3.0 V6 6-SPEED 210HP AUTOMATIC

With the flexibility and precision of its 6-speed automatic gearbox, the 3.0 V6 210hp engine provides you with an exceptional driving experience.

1.6Hdi 110HP DPFS "OVERBOOST"

This 16V engine which gives a high degree of flexibility and good acceleration at low revs, provides a maximum torque of 177lb.ft at 1750 rpm and an 'overboost' function for optimum acceleration when needed (for example when overtaking). This 'overboost' function gives an additional 8% engine torque.

ECOLOGICAL. On petrol versions the optimal efficiency of the multi-valve engines (16V or 24V) brings a reduction in fuel consumption and therefore in discharges into the atmosphere. On Diesel versions, the electronically controlled direct high-pressure Diesel injection technology guarantees remarkable balance and cleanliness, with a reduction in the emission of greenhouse gases (CO₂) which is reinforced still further by the presence of a Diesel Particulate Filter System (DPFS) which eliminates "black smoke" by means of a second combustion.

2.0Hdi 138HP DPFS "OVERBOOST"

Powerful, quiet and at all times operating at its maximum efficiency thanks to the performance of the direct high-pressure Diesel injection system coupled with the flexibility of its 6-speed manual gearbox, this new Diesel engine, which also features an "overboost function", rivals even the best of petrol engines.

2.0Hdi 138HP AUTOMATIC DPFS

With a torque of 236lb.ft at 2000rpm, the 2.0Hdi 138hp gives remarkable performance, both in terms of flexibility and power even in the lowest gears and in terms of its cleanliness, thanks to its Particulate Filter which eliminates "black smoke" emissions in the exhaust.

2.2Hdi 173HP DPFS "OVERBOOST"

This new engine tops the range of C5 hatchback and estate HDi. Featuring several innovations (parallel sequential dual turbo and new combustion and injection systems), the 2.2Hdi sets high standards in power and, above all, driveability. It also stands out for its environmental performance (Euro IV + DPFS) and Fuel economy.

A state-of-the-art Diesel Particulate Filter System periodically burns off the particles that remain, virtually eliminating Diesel smoke, far exceeding current EU environmental standards.

WELCOMING. As soon as you open the door, the Citroën C5 gives you an extraordinary impression of interior space, indicative of its exceptional capacity. And once you are seated, the overriding sensation is one of absolute comfort down to the smallest detail.

With its huge front seats with folding armrests^o and its wide rear seats which folds down 2/3 - 1/3, the interior of the Citroën C5 is just like a contemporary living room. Thanks to advanced engineering, which significantly reduces engine noise at source, coupled with impressive sound and vibration insulation, the Citroën C5's cabin is whisper quiet, even at high speeds.

Cool. Automatic air-conditioning is standard on all versions and features a sun sensor which enables the air-conditioning system to compensate in real time for the heating effect of the sun's rays in the passenger cell. Thus, the temperature remains constant at all times, as does everyone's comfort.

Multiple storage units and spaces help keep everything to hand: pictured above is the rear central armrest^o...

The laminated acoustic side windows^o give excellent sound insulation along with added safety.

The heat-reflecting windscreen limits the effects of the sun's rays and helps the automatic air conditioning maintain a comfortable cabin temperature.

Citroën C5 has a truly luxurious and comfortable cabin that can easily be transformed into a music room with its standard RDS Stereo radio/CD player or its optional MP3 player^o that automatically adjust the volume setting according to the speed of the car.

C5 *SEE FAR AND WIDE*

With a totally flat floor and an opening tailgate window, this Estate is hugely practical. With 5 passengers onboard the Citroën C5 Estate offers a large boot volume of 563 litres and an impressive 1658L with the rear seats folded down.

A clever control in the boot allows you to raise or lower the boot sill. This makes loading your luggage or attaching a trailer much easier.

Once the back seats have been folded down, its flat floor and straight sides mean Citroën C5 Estate encompasses an impressive load space of 1658 litres.

Thanks to its rear seats being foldable 2/3 - 1/3, the space at the rear can be changed at will to adapt to the load and the number of passengers to be carried.

'Bourbon' Velour
- A sophisticated and luxurious perforated grey velour fitted as standard on LX.

'Malinal' Perforated Alcantara® with part velour
- standard on Exclusive.

Woven 'Show' Cloth
- A dynamic and sporty black cloth fitted as standard on VTR, VTX & VTX+.

'Tramontane' Leather
- Optional on Exclusive, this dark grey leather is part of the Leather Pack which also comprises heated front seats.

'Narbonnais' Perforated Alcantara® with part velour
- standard on Exclusive.

'Malinal' Leather
- Optional on Exclusive, this beige leather is part of the Leather Pack which also comprises heated front seats.

CITROËN CARE FOR CAR AND DRIVER

A network of Citroën New Car Dealers, Authorised Repairers and Parts Distributors are equipped and trained to meet the needs of today's Citroën customer.

Dealers can offer advice on vehicle funding; via Citroën Contract Motoring with packages such as Contract Hire, Finance Lease or Lease Purchase for Business Users, or via Citroën Financial Services with Hire Purchase or Elect 3 Personal Contract Purchase for Retail buyers.

In addition Authorised Repairers have a team of technicians skilled in the care and maintenance of Citroën products.

CITROËN ELECT 3

With the Elect 3 Personal Contract Purchase Scheme, you decide on the model which best suits your motoring needs, then set your preferred contract period and anticipated annual mileage. At the end of the contract period you have the added flexibility of part exchanging the car for another new Citroën, purchasing the vehicle or simply returning it.

CITROËN DRIVENOW PERSONAL LEASE

DRIVENOW Personal Lease is an innovative new way to enjoy a new Citroën without the cost of ownership. With Citroën Assistance, Replacement of Wear & Tear Parts and Extended Warranty, (Not Applicable on the C6), as standard for the full term of the agreement, most unforeseen costs that can prove difficult to budget for are taken care of. With leasing which can be arranged for a period of up to 4 years, DRIVENOW Personal Lease offers you a hassle free motoring solution.

CITROËN FLEET AND BUSINESS SALES

All Citroën New Car Dealers are dedicated to meeting the specialist needs of both the fleet and business buyer. Their comprehensive service can include advice on important business vehicle decisions, such as alternative acquisition methods, disposal of existing cars and vans, priority servicing and much more. In short, their expertise aims to provide a 'total transport solution' for all your fleet or business vehicle needs. If you would like to contact Citroën direct for further information, please call Citroën Fleet Connect on 08457 940 940. Or look us up at: <http://www.citroen.co.uk/fleet>

CITROËN ADVANTAGE EXTENDED WARRANTIES

Whether you intend to keep your new Citroën for more than 3 years or simply plan to drive more than 60,000 miles during its first three years, Citroën ADVANTAGE is an extended warranty which offers a similar level of cover to Citroën's new vehicle warranty. For more information, please contact your Citroën Dealer or call 0800 587 9808.

Citroën ADVANTAGE is underwritten by Pinnacle Insurance plc. Conditions apply.

CITROËN MAINTENANCE

What if you could relax, safe in the knowledge that for a small one off fee or a low monthly payment, you could benefit from routine servicing, replacement of wear & tear items and roadside assistance? With Citroën MAINTENANCE you can. Simply choose the period & select the mileage and you too could benefit from peace of mind motoring on your terms. For information, contact your Citroën New Vehicle Dealer or Citroën Authorised Repairer.

CITROËN ASSISTANCE

For all models except C6: In response to a free telephone call, Citroën ASSISTANCE brings rapid expert roadside assistance to you in an emergency. It comes free of charge for a full year and operates 24 hours a day in all parts of the UK and Europe. Services include nationwide recovery for both car and passengers, a home call service, replacement vehicle, hotel accommodation and vehicle storage if required. Please note, Citroën ASSISTANCE only

applies to incidents covered by the new vehicle warranty, and excludes non-vehicle faults, such as running out of fuel, mis-fueling, loss of keys, lock-ins, road traffic accidents and punctures/wheel changes.

C6: Citroën Assistance covers all incidents and for a period of 3 years. Full details are available on request from Citroën UK via cukcustomer_relations@citroen.com

COMPREHENSIVE WARRANTY

Every new Citroën car offers the benefit of a 3 year* warranty package, plus a 12 year anti-corrosion** warranty and a 3 year paint warranty.

CITROËN INSURANCE

Citroën INSURANCE*** is the only motor insurance designed exclusively for Citroën drivers and offers tailored cover at a competitive price.

When the time comes to renew your insurance cover, call Citroën Insurance on 0870 024 2725.

Lines open 8am – 8pm weekdays, 9am-5pm Saturdays. Calls may be recorded.

INTERNET

The Citroën Website contains full information on all Citroën products and offers available in the UK, together with details of our environmental and recycling policies.

The site address is: <http://www.citroen.co.uk>

You can contact Citroën directly via cukcustomer_relations@citroen.com

* 2 years' manufacturer's warranty. No-fee customer option of 1 year's Dealer provided extended warranty, only on cars sourced from Citroën UK Limited.

Note: dealer provided warranty is limited to 60,000 miles for cars and 100,000 miles for light commercial vehicles.

** Against all internal to external perforation to bodywork or underbody on condition the car undergoes an inspection by a Citroën franchised Dealer every two years from its fourth anniversary.

*** Citroën Insurance is arranged by Banque PSA Finance and underwritten by UK Insurance Limited. Conditions apply.

Full details available on request.

Credit subject to status and to over 18's only.

A guarantee may be required. Written quotations available on request from Citroën Financial Services, Quadrant House, Princess Way, Redhill, Surrey RH1 1QA. Citroën Financial Services is a trading name of Banque PSA Finance. Telephone calls may be recorded or monitored for training or quality purposes.
