

**Touareg**

# Designed for the **restless spirit**

## Meet the third-generation Touareg.

This bold new class of SUV was created for those who won't settle even if they're at the top of their game. Because they know there's always more to explore. They are the type of person who constantly asks, "Where to from here?". Well, we've asked ourselves the same question. Which is why we've designed the luxurious and technologically advanced Touareg to take you on every new adventure your restless spirit longs to pursue on this journey of life.

With class-leading features ranging from Night Vision and IQ Light Matrix LED headlights to the only 15" InnoVision Cockpit in its class, the future of luxury exploration has arrived.

# Designed for the **smoothest ride**

**Whether exploring the city streets or untamed territories, the Touareg comes with six modes designed to enhance the overall driving experience.**

Each mode is easily accessible and readily controllable through the on-board computer, giving drivers the ability to tailor their driving based on the road ahead. With the availability of driving models like "Gravel" and "Sand", drivers have great control in the often demanding South African conditions.

No terrain is the same, that's why the Touareg's air suspension and rear-axle steering allows you to enjoy ultimate driving comfort by adapting the height of the car to the path you're on, with a choice of Normal, Comfort, Off-road and Special Off-road driving profiles.

The Touareg can also be raised to give you 70mm more ground clearance or lowered by 40mm to make loading and unloading easier. Air suspension with 4-wheel steering is standard on the Executive model and optional on the Luxury model.

# Designed to **perform**

The Touareg is powered by a 3.0 V6 turbodiesel engine with 190kW and 600Nm, so you can confidently navigate your way through rugged terrain. Volkswagen's new premium offering includes our patented 4MOTION® technology that powers each wheel independently, giving you traction even if all the wheels are not touching the ground.

Ambient Lighting & Climate Control

# Designed for **luxurious comfort**

**The Touareg exudes luxury at every turn, with an interior that offers significantly more room than its predecessor.**

Through its progressive design and exacting craftsmanship, the Touareg sits comfortably in a class of its own.

The Touareg's interior boasts a list of features to impress even the most discerning motoring enthusiasts. Features such as its 14-way ergoComfort seats - standard on the Luxury and Executive - offer electric adjustment for the seat height, length, seat cushion angle, backrest angle and 4-way electrically adjustable lumbar support.

As you explore and adapt to new territories, the Touareg follows suit with an optional Ambient Lighting package that beautifully illuminates the interior of the vehicle in a choice of 30 striking colours and, coupled with Climate Control, creates an environment so comfortable, only the driver's spirit might remain restless.

Alternatively, the standard Active front climate seats offer a choice of three separate ventilation settings for the driver and front passenger. The centre console, in matt black, features silver decorative inlays, while the leather-trimmed multi-function steering wheel and gear knob are finished with a gloss black inlay and aluminium trim, giving the cabin a sporty elegance.

# Designed to **be seen**

**The Touareg raises the standard of the SUV category with a number of striking design features that come standard.**

Like a black-painted radiator grille with distinctive chrome strips on the individual louvres.

The stainless-steel loading-sill protector on the luggage compartment marries beauty and practicality, while two rectangular chrome tailpipes complete the picture, creating a graceful and elegant overall impression. The panoramic sunroof, leather seats and gear paddles elevate the Touareg to a level of class that imbues both style and substance.

# Innovision Cockpit

The Innovision Cockpit allows the driver to control the Touareg's command centre through touch, gesture and voice. This pioneering touchscreen technology lives beautifully in its crystal-clear screen, merging seamlessly into a digital dashboard. Standard on the Executive, this is a feature to complement the drive wherever life may take you.

The Innovision screen sits alongside a 12" digital instrument cluster, angled towards the driver, giving an ergonomically optimised display that can be customised with the driver's favourite apps and photos.

# Designed to **turn heads**

There's no mistaking the Touareg, with its distinctive contours and assertive lines working in tandem to direct you towards its extended bonnet. Its tail light clusters create an attractive rear design of chrome trapezoid tailpipes on either side, while the roof rails offer more versatility when required.

# Designed to **advance**

When it comes to progressive technology, the Touareg really raises the bar. Whether in the city or off-road, the Touareg has the answer, thanks to its wide range of customisable systems and programmes, connected and controlled by a digital interface and multi-function steering wheel.

Designed to allow the driver to tailor a unique experience, the Touareg comes with an impressive list of standard and optional features that ensures comfort and convenience. The standard Easy Open/Easy Close keyless access allows you to open and close the electric tailgate by pressing and holding a button. There is also a time delay and convenient power latching function.

For further convenience, provided you have the key on you, there are sensors under the rear of the vehicle, and with a flick of your foot, you can open the electric tailgate – standard on both models. The standard Discover Pro Navigation touchscreen infotainment system features a glass-covered 9.2" colour touchscreen for navigation and radio functions. It responds to spoken voice commands for navigation and telephone functions.

It also features Gesture Control, for use with various menus, that can be activated or de-activated as required.

Adaptive Cruise Control (ACC). \*International model shown, local specification may differ

# Designed for **peace of mind**

**The Touareg has a host of innovative tech features that focus on maximising the safety of the driver and occupants.**

Features like IQ Light Matrix LED headlights with intelligent light modes and dynamic Light Assist (only available on the Executive model), all minimise the chances of a collision, by providing greater illumination without dazzling other road users, whilst blending seamlessly into the wide front grille to give an unmistakable look.

The Touareg's impressive features include Front Assist and Adaptive Cruise Control which automatically adjust your speed to that of the vehicle ahead, ensuring you keep a safe distance.

Using ultrasonic sensors, the intelligent Touareg detects and determines whether a space is large enough for either bay or parallel parking, which not only makes parallel parking easier, but also helps you reverse park into a space at 90 degrees to the kerb.

Once the vehicle is in reverse, all the driver has to do is operate the accelerator, brake and keep a lookout, while Touareg steers itself into its chosen space.

## The rear-view camera displays the area behind the vehicle on the infotainment system screen, helping you manoeuvre into tight spaces quickly and easily.

Auxiliary lines help you navigate safely into parking spaces, and with the high-resolution display, even small obstacles such as kerbs are visible.

The Touareg uses revolutionary technology to ensure that you'll always be one step ahead. Innovation like Night Vision (part of the Advanced Safety package) uses infrared beams to scan an area up to 130m ahead, detecting thermal radiation and projecting an image onto the digital cockpit. If the situation is critical, the system will warn you and precondition the brake assistance systems, helping to maximise safety at night.

This is especially effective if visibility is impaired by fog or rain, enabling you to see a person or animal ahead. Optional on both models.

The optional Advanced Safety package on the Touareg comes with Lane Assist and Side Assist which helps prevent accidents by using a camera-controlled warning system to monitor the vehicle's position in relation to road markings and other cars, notifying the driver if it senses any danger.

To complete this impressive array of safety features, Head-up Display is included in the Advanced Safety package, so you can keep your eye on the road with peace of mind that you will be alerted to dangers around you.

### Side Assist

# R-Line package

The R-Line package – standard on the Executive model – is exquisitely stylised, with specially designed front bumpers, body-coloured wheel arch protection, side skirts, and R-Line badging on the front panels and front grille.

The exterior styling is completed with 80% tinted heat-insulating glass from the B-pillar backwards and silver anodised roof rails.

**The R-Line styling creates a dynamic exterior that demonstrates once again that the Touareg is here to impress.**

# Designed to **innovate**

## Luxury

---

- Drive Profile Selection
- 9.2" Discover Pro Navigation
- 19" alloy wheels
- App-Connect and Volkswagen Media Control
- Adaptive Cruise Control and Front Assist
- Panoramic sunroof

- InnoVision Cockpit

# Designed **for you**

The Touareg is a premium vehicle designed to give those who possess the pioneering spirit, the means to go forth and explore the vast unknown. Stylish and sophisticated, intelligent and powerful, the luxurious Touareg proudly demonstrates Volkswagen's vision for the future.

**For drivers who long for the next river to pass or city to explore, there is only one SUV – the Touareg.**

# Designed to enhance **on-road presence**

## **Introducing the Touareg with Black Style package.**

The Touareg was designed for those who know there's always more to gain when you refuse to settle. It's this restless spirit that drove us to create the Black Style package. Exclusive to the Executive Model, the Black Style package includes black mirror housings, black 21" Suzuka alloy wheels, black roof rails, black radiator grille and chrome elements, to achieve a luxury SUV that matches the presence and power of those who live in the black.

The Black Style package is an option on the Executive model and is available in combination with selected colours only.

# Colours

# Volkswagen SUVs

Volkswagen's T-SUV family is adaptable, adventurous, and everything in between. And yet, each member brings their own flair to the table.

## T-Cross

The T-Cross is versatile and practical and spares no expense when it comes to comfort and style. It's designed for people who believe that the journey should be just as thrilling as getting to the destination. For people who aren't afraid to reroute the course – play by your rules with an SUV that can keep up with it all.

## Taigo

For those who have a spirited independence and who are in constant search of liberation, there is the Taigo. Designed to resemble the shape of freedom, the Taigo is characterised by its sporty coupé-like form and its sharp lines that guide your eyes from the front to the back. The search for freedom awaits, and starts in the Taigo.

## T-Roc

Stand out from the crowd with the new T-Roc: a car that's as confident as you are, challenges the status quo, leads the pack, and refuses to follow. From its bold design to its sophisticated 4MOTION® technology, it's all you need for pure, unrivalled performance and for a drive to defy.

## Tiguan

Build so that you can take command of the road, while taking care of your family. Reimagined to do most of the thinking for you, it's as smart as it is stylish. Embracing all the most sophisticated technologies, the Tiguan is here to never give your safety a second thought so that you can put family first.

## Tiguan Allspace

The Tiguan Allspace is more than just a car. It's more than just technology and beauty; it's a vehicle that's ready for adventure. From its eye-catching design to its exceptional versatility, this 7-seater has been designed in the mould of your family and assure ultimate functionality when it comes to your lifestyle demands. Explore more with an SUV that has more.

## Touareg

This bold SUV was created for those who won't settle at the top of their game because they know there's always more to explore in this journey of life. Built for the people who ask, "Where to from here?", we've designed the luxurious and technically advanced Touareg to take you on every new venture your restless spirit longs to pursue.
