**OPRAVNÉ LAKOVACIE
TYČINKY**

www.car-rep.fi

**JEDINEČNÉ
RIEŠENIE****2v1**

Na drobné poškodenia od kamienkov a malé škrabance je ideálna malá ihla.

SYSTÉM NA OPRAVU DROBNÝCH POŠKODENÍ

S revolučným systémom na opravu drobných poškodení Car-Rep® získavate dva riešenia v jednom balení. Hladké a metalické farby sú spojené do jedného produktu. Efekt metalických odtieňov sa tvorí pomocou revolučného číreho laku, ktorý obsahuje metalické pigmenty.

Konštrukcia opravnej lakovacej ceruzky Car-Rep® je celkom unikátna. Opravnú lakovaciú ceruzku je možné použiť ku korekcii všetkých drobných poškodení a škrabancov. Ceruzka obsahuje ceruzku (pero) a súčasne štetec. Ceruzka je konštruovaná na drobné opravy a veľmi ľahko sa kontroluje množstvo farby a pohyb nástroja.

Náter je veľmi pevný a poskytuje vynikajúcu ochranu pred opotrebovaním a poškodením.

ZÁKLADNÝ NÁTER

Používajte základný náter pre extra ochranu proti hrdzi. Po aplikácii základného náteru nie je potrebné brúsiť.

ČÍRY LAK

Všetky metalické farby musia byť prelakované čírym lakom, aby sa dosiahol požadovaný lesk a ochrana pred opotrebením. Aj hladké farby je možné následne prelakovať pre zvýšenie odolnosti proti opotrebeniu, ale nie nutne.

METALICKÉ FARBY VYŽADUJÚ ČÍRY LAK

Na metalické farby použite zodpovedajúci číry lak.

Na metalické farby odtieňov 126015-128010 použite lak 120009 CLEAR COAT.

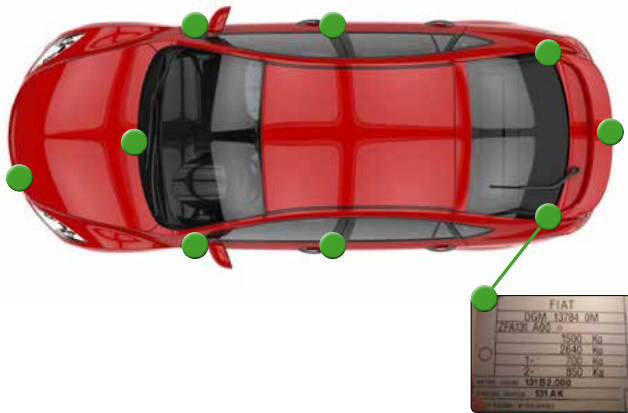

Na ostatné metalické odtiene použite lak 120010 CLEAR COAT METALLIC.

Pred aplikáciou číreho laku nechajte farbu schnúť 15 minút.

CERUZKA (PERO)**ŠTETEC**

NÁJDITE TÚ SPRÁVNU FARBU PRE VAŠE AUTO!
