BRITPART

The quality parts for Land Rovers

Welcome to the third edition of the Britpart Accessory Catalogue!

We've added plenty more pages to accommodate all the extra new products we can now offer Land Rover owners. You may notice there is also a brand new section - **Vehicle Enhancements!** In this new section you'll find accessories for the newer Land Rover models to give your vehicle a bit of a facelift. Remember to look out for all the **NEW** products we've added.

	Pages
1 Exterior Protection	5-18
Going off-road? Then here's where to find all the protection your Land Rover will need.	
2 Chassis Protection	19-22
Offering protection against the unexpected.	
3 Side & Rear Steps	23-26
Get in and out of your Land Rover with some smart new steps.	
4 Racks & Luggage Boxes	27-32
Got a load to carry? We've got racks and luggage boxes to suit all.	
5 Wheels	33-36
Freshen up your Land Rover with a new set of wheels.	
6 Lighting Equipment	37-42
Light the way with a decent set of driving lamps.	
7 Towing Equipment	43-48
Haul that load - towing equipment for your Land Rover.	
8 Interior Protection	49-60
Dog guards, loadspace liners, mats - all that you need to protect your vehicle trim.	
9 Seats & Trim	61-70
Saggy old seats? Get some new ones and we've plenty to choose from.	
10 Off-Road Equipment	71-82
Be prepared for the worst.	
11 Winching Equipment	83-94
Never get stuck again with a Britpart winch and winching accessories.	
12 Performance Equipment	95-104
Upgrade your Land Rover from its standard spec.	
13 Suspension Equipment	105-116
Firm up your ride with some new shockers and springs.	
14 Exhausts	117-120
An exhaust that'll last a life time? We've got them here.	
15 Engines & Transmission	121-124
A wide range of new and reconditioned engines and gearboxes.	
16 Repair & Service Parts	125-142
From a new complete chassis to a jubilee clip - we've got the lot.	
17 Service Kits & Filters	143-146
Don't forget that filter again with a Britpart service kit - all you'll need to complete the job.	
18 Vehicle Enhancements	147-152
Give your Land Rover that extra special look.	
19 Miscellaneous	153-162
Land Rover gear, workshop books and much more...	

innovation, quality & style on demand

The quality parts for Land Rovers

the marque

Britpart is the leading independent wholesaler of parts and accessories for Land Rover vehicles, supplying in excess of 800 customers worldwide from government agencies to trade outlets.

The name 'Britpart' is synonymous with quality parts for Land Rovers and the company has earned a truly enviable reputation around the globe. Over the past 25 years, Land Rover enthusiasts the world over have come to identify Britpart as a brand to be trusted.

The Britpart logo has become a widely recognised and highly respected marque; it embodies excellence in the field, both in quality and commitment to meeting the needs of the customer.

products

Britpart has always reacted swiftly to the demands of the parts market for all Land Rover vehicles, aiming to provide customers with exactly what they want, when they want it. Parts have long been the mainstay of Britpart's business, with many parts simply being unavailable from other sources; however, accessories are now becoming a major part of the business as owners of Land Rovers, old and new, are customising their vehicles to suit their individual tastes and lifestyles; everything they need is now available from Britpart.

The vast array of Britpart accessories ensures that no two Land Rovers are ever identical!

Land Rover appointed Britpart as an 'Approved European Parts Distributor' for all Land Rover Genuine Parts; this, together with Britpart's own vast range of parts and accessories, along with their extensive inventory of O.E.M. product, has resulted in Britpart becoming the ultimate 'One-Stop-Shop' providing everything its customers could possibly require, all ordered and delivered from one dedicated source.

quality

Britpart is approved by Lloyd's Register Quality Assurance to BS EN ISO 9001:2000.

Britpart is renowned for quality parts at very competitive prices and takes pride in its excellent customer service, maintaining high stock levels with the aim of fulfilling orders promptly.

distribution

Parts and accessories for Land Rover vehicles continually flow in and out of the massive state-of-the-art warehouse. Britpart's fleet of vans and trucks all sport the undeniably eye-catching Britpart blue and white livery. Between them they cover the length and breadth of the United Kingdom, including Northern Ireland, delivering directly to Britpart customers on a regular basis, adding to the personal touch that customers have come to associate with Britpart.

service

Britpart has an enthusiastic and highly knowledgeable team so that you deal with people who have in-depth knowledge of the business. In addition to major government contracts, we successfully support individual parts retailers, supplying spares for Land Rover models old and new including Series, Defender, Range Rover, Discovery and Freelander.

The lively Sales operation boasts three highly trained teams; one each for Home Sales, European Sales and Export Sales with technical experts and sales advisors in each, eager to answer the telephone and organise despatch of goods to their customers within the shortest possible time.

handmade

The highly skilled team in the Trim Shop make a wide range of seats, seat covers, bases, backs and benches etc for Land Rover vehicles by hand.

Equally skilled is the team in the Lock Shop where a wide range of light engineering work is carried out.

In keeping with the Britpart philosophy, all products leaving the Trim Shop and the Lock Shop are produced to the highest standards and meet with the strictest safety regulations.

global

When Land Rover finally severed its association with Santana Motor SA it was Britpart who bought up all the existing stock from the factory in Spain and shipped it to their UK headquarters in Shropshire. The shipment included everything from small components to body panels and new engines, along with all the original drawings and tooling. Some of the stock was found to be interchangeable with Land Rover parts and a proportion of the rest is gradually making the journey back home with the assistance of our partner in Spain, Britpart España, Estanfi Automoción.

Britpart's other partners around the globe include: Britpart Belgium, Britpart Brazil, Britpart USA, Britpart Norway, Britpart Poland.

Britpart is seeking to further expand its comprehensive customer base overseas and is continually looking for well established independent stockists of Land Rover parts to work closely with.

quality parts

Britpart holds over 15,000 stock items from o-rings and oil seals to engines and exhaust systems. Customers can choose from Britpart quality parts, O.E.M. products and Land Rover Genuine Parts; all delivered promptly at competitive prices.

Everything required for servicing, repairing, restoring or even rebuilding any Land Rover can be supplied by Britpart, thus enabling customers to order all they need on just one order sheet making it easy to keep track of stock and take delivery.

quality accessories

Britpart have all the latest accessories you need to customise your Land Rover, whatever the model, to look great on the road and work better off it! From wheels to roof racks, Britpart have everything to ensure that no two Land Rovers need ever look identical.

Unbreakable Mirrors for Defenders

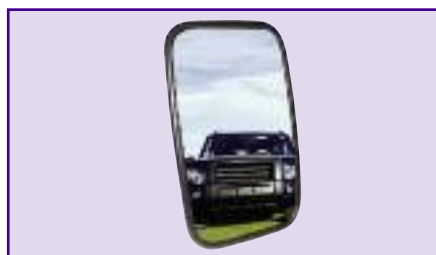

- > Optical quality polycarbonate lens - will not shatter like glass or discolour in sunlight
- > Strong, flexible polypropylene casing - will absorb hard blows without breaking
- > Universal - can be fitted to either left or right of vehicle
- > Lightweight - puts less strain on body fixings
- > Hard lacquer coating on lens - will repel condensation and surface water
- > Excellent reflectivity - superb daylight and night time vision

Good visibility is imperative on today's highways and byways so these new high impact resistant mirror heads are essential stock items.

WHEEL ARCH KITS - OFF-ROAD

DA2366

DA2364

DA2364 Discovery 1 & Range Rover Classic 3-door
DA2365 Discovery 1 & Range Rover Classic 5-door
DA2366 Defender - suitable for Defender 90 from 1984 to present and from 90 to 130 wheelbase and Hi-Cabs. 2" wider than standard enabling tyres up to 14" wide and/or wheel spacers to be fitted while being legal for MOT testing. Made from an unbreakable plastic - ideal for extreme off-road use.

DA1960 Discovery 2 50mm

DA1961 Discovery 2 75mm

These two Discovery 2 wheel arches enable larger tyres to be fitted while still being legal as these arches cover the tyres when wider tyres are fitted. The 50mm ones are required for large off set wheels while the 75mm arches will cover the tyres when wheel spacers are used. They are virtually indestructible and all fixings are supplied with the kit. Up to 35" diameter tyres are ok with a 2" lift and these arches as just over 40mm is cut out of the wings when fitting them.

DA2365

Everything required for **servicing, repairing, restoring** or even **rebuilding** any Land Rover can be supplied by Britpart, thus enabling customers to order all they need on just one order sheet making it easy to keep track of stock and take delivery.

- > Manufactured to DIN standard 75302/15011154

Carriers

DA4315 Discovery - cycle carrier

- Roof mounted with stylish aluminium profile • Wheels fit into moulded profile which holds the cycle upright leaving both hands free to secure the frame and wheels • Locking the cycle into frame holder secures carrier to load carrier • Black-painted frame holder tube in special steel • Base unit made of aluminium and UV-resistant composite material • Takes frame diameters from 20 up to 80mm • Max. tyre width 2.2 inches • Manufactured in accordance with DIN75302 • Will fit to both standard and aluminium bars • Weight: 4.2 kg

DA4316 Scott - cycle carrier

- Stable easy-to-use roof mounted cycle holder • Frame holder with quick attachment for easy fitting without tools • Takes frame diameters from 25 up to 80mm • Wheels rest in adjustable wheel holders and are fastened with strong securing straps • Lockable to roof rack as well as bicycle • Can be fitted on all standard load bars and aluminium profiles.

DA4317 Barracuda - cycle carrier

- Wheels locate in a moulded profile, which holds the cycle in an upright position - you can use both hands when securing the wheels and the frame • When the cycle is attached to the frame holder, the cycle holder is secured to the load carrier • Cycle is secured in the frame holder • Chromium-plated frame holder tube in special steel • Base unit made of UV-resistant composite material • Takes frame diameters from 20 up to 80mm • Max tyre width 2.2 inches • Manufactured in accordance with DIN 75302 • Max weight capacity 17kg

DA4318 Tahiti 6 - surfboard and canoe carrier

- Stable and gentle holder for surfboards, canoes, kayaks, etc. • Holder comes complete with cradles, straps and a holder for a mast or paddle • Rubber-covered cradles are kind to the hull and allow the boat/surfboard to lie steadily during transport

ROOF RACKS & BOXES - THULE

CAR RACK SYSTEMS

Carrier

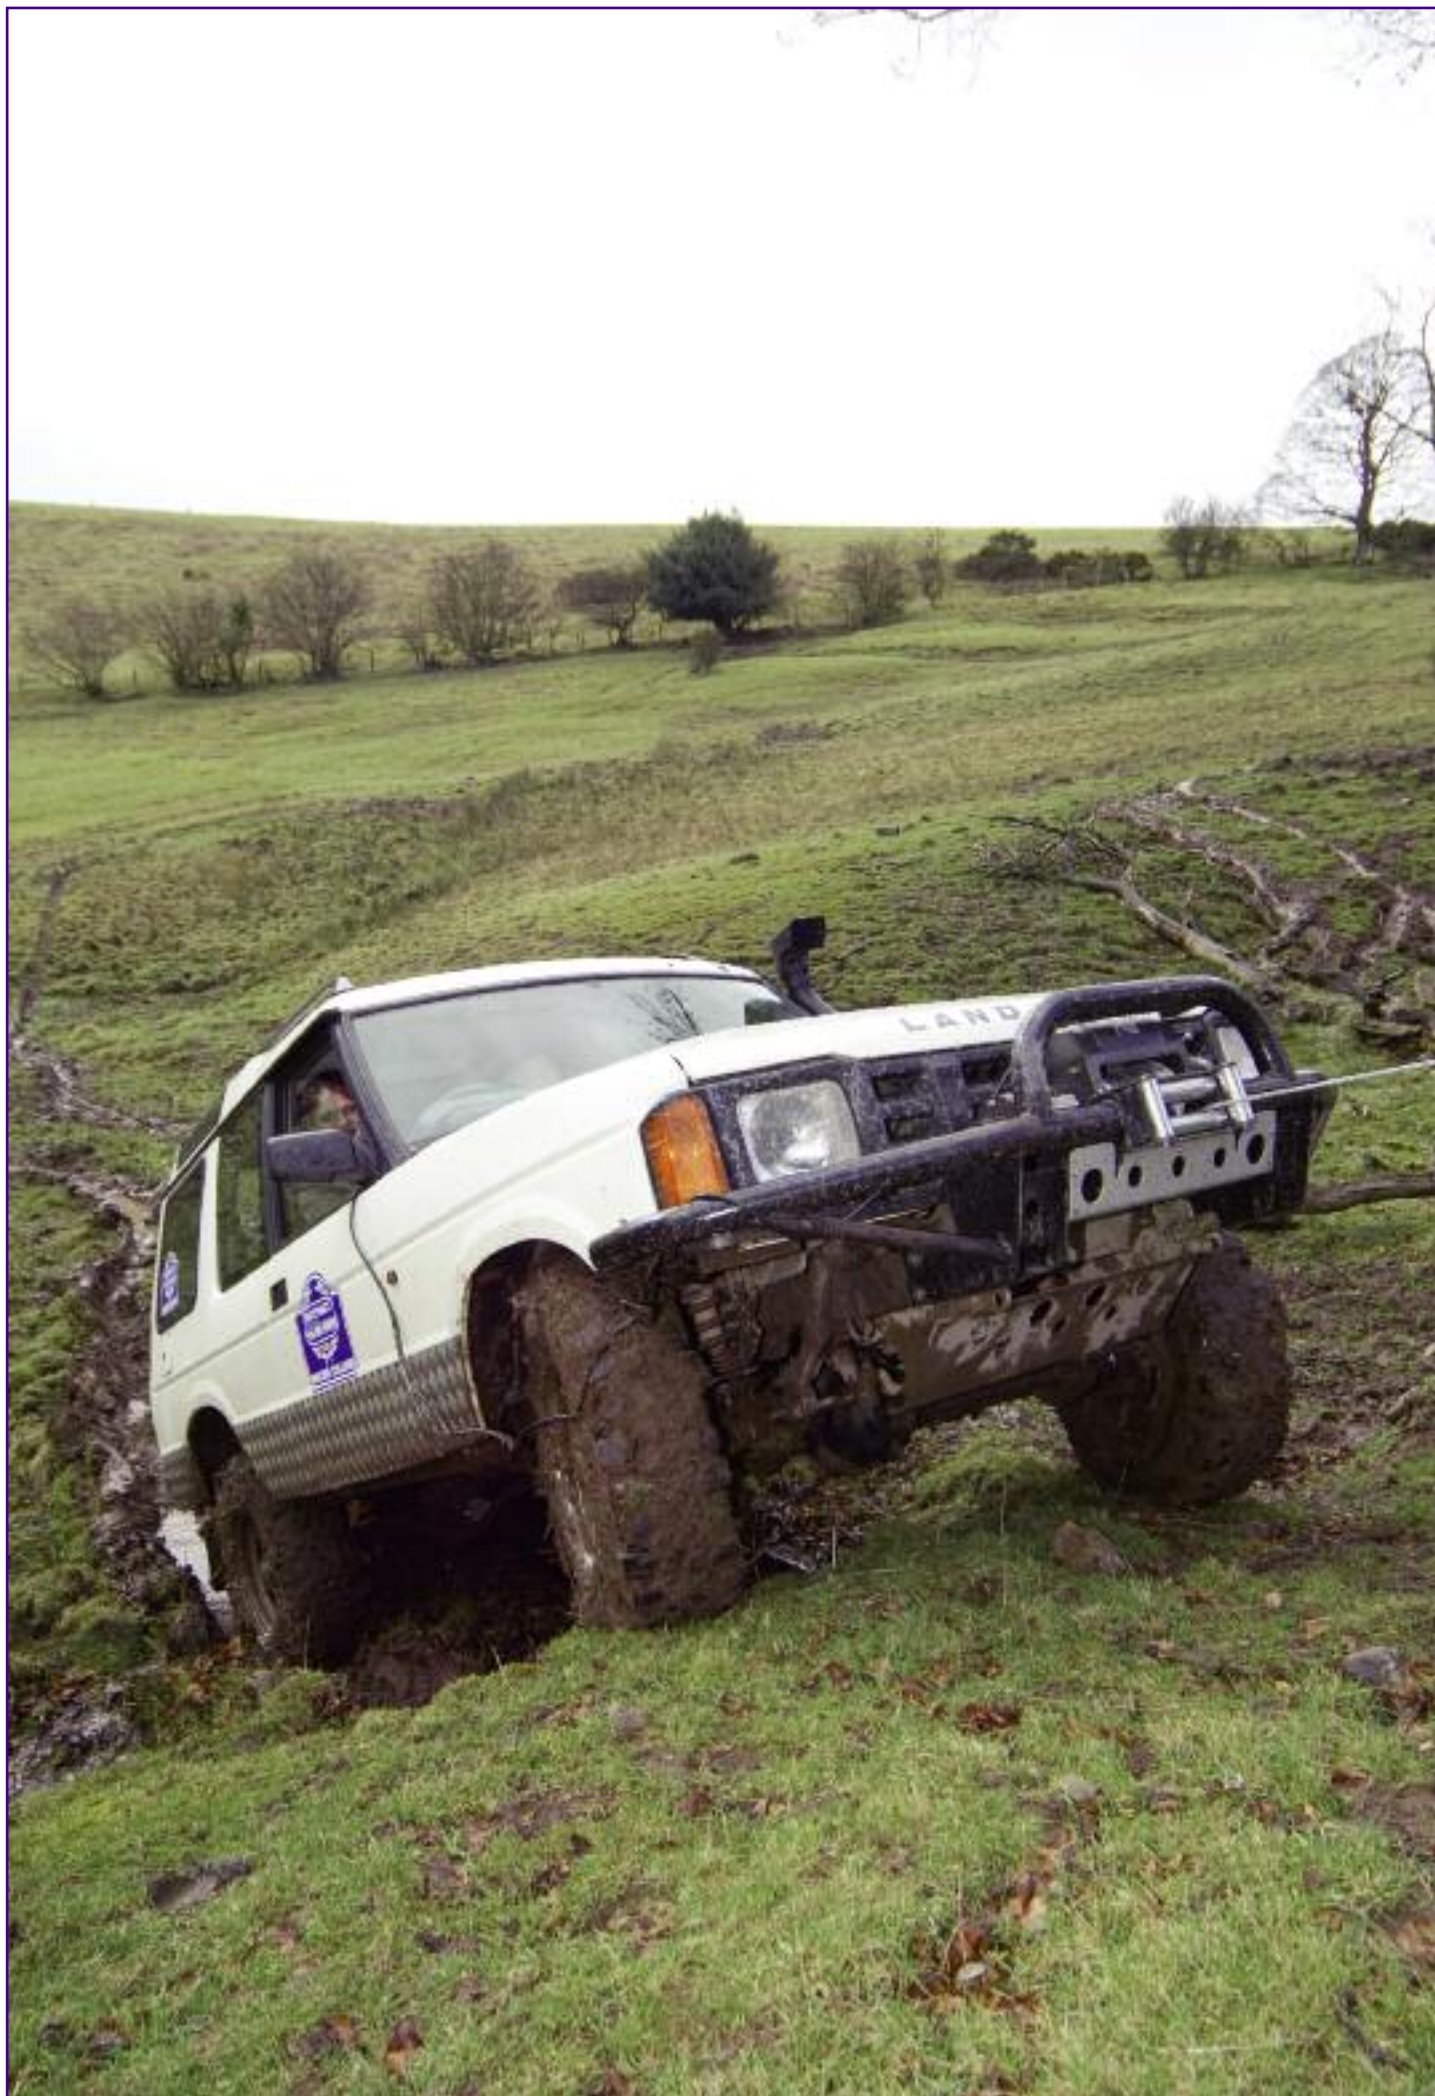

STC7969 Cycle carrier

The smartest, most elegant solution for loading and transporting a bike on the roof.

- > The self-adjusting and upright frame holder into which the bike automatically slides, makes bike loading easy
- > Adjusting and securing is done comfortably and quickly, with a turning knob, at roof height
- > Quick-release straps, adjustable for different wheel sizes, hold the wheels securely in place
- > Light and convenient aluminium design
- > Can easily be fitted on either side of the car roof
- > Lockable - bike to bike carrier, bike carrier to load carrier
- > Best in test
- > Fits frame dimensions up to 100mm

TYRE REPAIR KIT & AIR COMPRESSORS

DA2390

Don't get caught out with a flat tyre or two!
Pack and leave an easy to use Britpart tyre repair kit in your vehicle.*

DA2390 - Tyre repair kit in travel case

How It Works

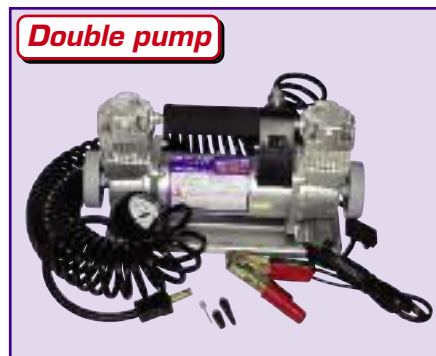

1. Find and remove the item that caused the puncture.
2. Apply rubber solution to the reamer tool then push the reamer into the puncture and work up and down until the reamer moves easily in the hole.
3. Thread one rubber tyre plug in the hook tool.
4. Push the rubber tyre plug into the hole until 1/2" of the tyre plug remains outside the tyre then turn the hook tool a quarter turn and pull out slowly.
5. Cut off the excess tyre plug as close to the tyre as possible.
6. If the puncture is too big have the tyre fixed by a professional.

*Recommended for off-road use only.

It's no good being able to repair your tyre if you can't inflate it!

DA2392 Double-pump air compressor
> Air flow - 150ltr/min

DA2354 Single-pump air compressor
> Air flow - 72ltr/min

DA2392

DA2354

See the off-road section for more details on the portable air compressors from Britpart.

TYRE PRESSURE MONITORING SYSTEM

Are your tyres at the right pressure?

DA4512

This system is an advanced monitoring & alert system of tyre conditions. It monitors tyre pressure and temperature then relays the state of each tyre to a display unit. When any abnormalities are detected, the system will display the status of the affected tyre and sound an alarm to ensure you take action to remedy the problem. Keeping your tyres in good condition at the right pressure can extend the life of your tyres, reduce fuel consumption and improve handling.

Tyres that are at the right pressure will -

- > Improve fuel consumption
- > Increase the tyre life span
- > Help enhance vehicle handling & braking
- > Reduce susceptibility to hydroplaning

System contents -

1 x Display, 1 x Receiver, 4 x Tyre sensors, 3 x Display brackets, 2 x 3M stickers, 1 x Instruction manual

- > As OE fitment, no drilling required
- > Once fitted the system is indistinguishable from factory fitted units
- > Plugs straight into the existing Land Rover wiring loom and fuse board
- > Easy to install as components are pre-assembled
- > Kit uses high performance condenser which eliminates need for an extended nose cone
- > Parts interchangeable with Land Rover parts

EXTENDED SLIDE SEAT RAILS & BULKHEAD BARS

DA2148

Give your Defender seats 3" of extra slide with a pair of these seat rails. Ideal for the taller driver to give a more practical and comfortable driving position. One pair of rails is suitable for one seat.

> Ideal for the taller driver

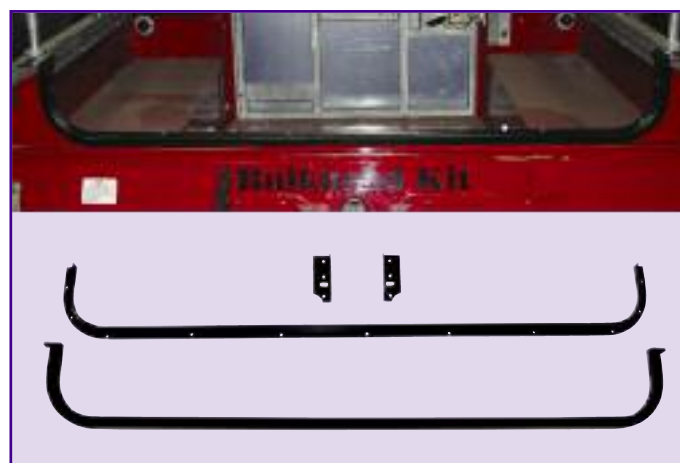

> A more practical and comfortable driving position

DA2148

DA2351

Up until recently, Land Rover hasn't catered (in the Defender) for the people with stature. The bulk head removal bar alleviates the problem without compromising strength. The bulk head removal bar allows an extra 105mm of seat rake at the top and 50mm of travel on the seat base. The tubular bar creates a rigid bracing for the front of the Defender tub. As well as the added benefits of extra room in the vehicle due to the seats been more manoeuvrable, access to the rear of the Defender is now not compromised by a higher bulk head. Powder coated and supplied complete with all the necessary fixings.

HOODS

331110AG - SIDE VIEW

Got a Land Rover with a hood that has seen better days? Tears? Frayed fixings? Scratched windows? Well give your vehicle a quick facelift with a new canvass hood from Britpart.

- > Hoods are made from the original 18oz canvas made by the original manufacturer for Land Rover.
- > All fittings are brass made by the original manufacturer.
- > Webbing is made the same way as the original.
- > Polypropylene rope is the same construction as the original rope.
- > Ropes are all inserted into the hood to help customers.
- > Care instruction are included.

All products leaving the Trim Shop are produced to the highest standards!

The skilled team in the Trim Shop make a wide range of seats and seat covers for Land Rover vehicles by hand. The material arrives in vast reams and has to be cut with great precision before being stitched together and then assembled into seat bases, seat backs, seat benches etc. In keeping with the Britpart philosophy, all products leaving the Trim Shop are produced to the highest standards and meet with the strictest safety regulations.

DIFF LOCKERS - UPDATED - ARB

Air Locker locking differentials allow you to tackle the toughest terrain. As the world's premier traction aid, ARB Air Lockers keep you moving in all conditions.

- > Provides 100% traction on demand without affecting on road driveability or driveline wear
- > Vastly improved traction means less reliance on momentum, thus reducing the likelihood of vehicle damage and environmental impact
- > Easy, convenient operation allows the driver to concentrate on the terrain without leaving the comfort and safety of their seat
- > Ultra durable and extremely strong - only the highest quality materials used in construction
- > Incredibly simple yet effective design that employs minimal moving parts, thereby ensuring maximum reliability
- > Thoroughly tested and proven design - trusted and used in over 80 countries around the world
- > Easy installation and maintenance - no special tools, skills or additives required
- > Two year warranty guarantees the Air Locker will be free of defects in materials

Ultra durable and extremely strong - only the highest quality materials used in construction

Notes: 1 If vehicle was manufactured during 1993, check spline count. 2 Air Locker not available for vehicles equipped with high load option. 3 Ring gear spacer required. Longer ring gear bolts (not supplied) are also necessary - (Land Rover part no. 576521). 4 When an DA4191 Air Locker is to be installed in Range Rovers manufactured prior to 1980 (approx.), special carrier bearings (No. K11300/K11162) may also be necessary - Land Rover part no. RTC3426. 5 Some vehicles have crown wheel bolts which cannot be reused and must be replaced. Consult service manual. 6 P38A is most commonly found in traction control equipped vehicles. Identify P38A type diff by large 205mm [8.07"] flange diameter. P38A was not used on North American delivered Discoverys - use DA4193.

- > Designed for Air Locker use
- > High flow, compact 12v compressor
- > Sealed for moisture and dust resistance
- > Hard anodised cylinder bore and Teflon impregnated carbon fibre piston seal for reduced friction and maximum trouble free life
- > Heavy-duty maxi-fuse equipped for professional in-line circuit protection
- > Quality components for quiet operation and extra long life
- > Anodised mounting brackets dissipates motor heat and allows compressor to be repositioned 180°
- > Constructed entirely of lightweight, high strength engineering grade materials
- > Over-pressure safety valve equipped
- > Motor is internally thermal protected against extreme temperature damage

DIFF LOCKERS - UPDATED - DETROIT

Detroit Locker

- > 100% locking differential
- > Legendary traction
- > Ultimate performance

The legendary Detroit Locker began the revolution in performance differentials and still leads the industry today as an Eaton brand. The Detroit Locker is the most durable and dependable locking differential available. The Detroit Locker maximises traction by delivering 100% of the torque to both drive wheels. It is engineered to keep both wheels in a constant drive mode, and has the ability to automatically allow wheel speed differentiation when required. No other performance differential has the reputation for delivering traction in mud, snow, rocks and on the track. The choice of professional racers and off-road enthusiasts around the world! The durability of the Detroit Locker is unmatched!

DETROIT LOCKER

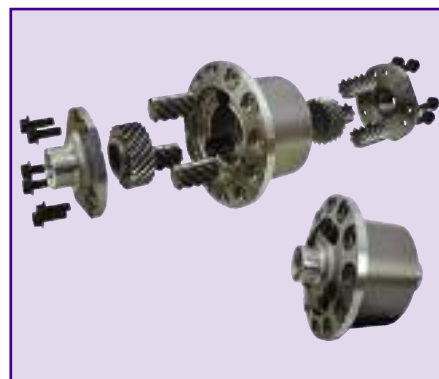

DA5700	Series 3/Defender/Discovery 1/Range Rover	Detroit Locker	24 spline	Rear
DA5701	Series 3/Defender/Discovery 1/Range Rover	Detroit Locker	10 spline	Rear
DA5704	Defender - Salisbury axle	Detroit Locker	24 spline	Rear

Detroit Truetrac

- > Smooth operation
- > Performs open until needed
- > Fully automatic limited slip

Note - when fitting to non-metric diff casings 2 x RTC3095 bearings are required.

The Detroit Truetrac was the first helical gear differential ever introduced into the automotive aftermarket as an Eaton brand. It remains the leading helical gear-type limited slip differential in the industry. Detroit Truetrac's proven helical gear design eliminates the need for wearable parts, resulting in maintenance free traction. Recognised not only for its toughness but also its smooth and quiet operation. Engineered to work efficiently in front and rear axles, semi-floating (C-clip axles) and transfer cases. Power transfer is so smooth, it literally goes unnoticed by the driver - even in front wheel drive axles. Proven design, low cost and effective performance, all make the Detroit Truetrac limited slip differential the ideal choice for a wide variety of vehicle applications. No maintenance - Just Traction!

DA5521	Rear solenoid locking diff kit including heavy-duty 4 pinion carrier and shafts including LSD kit	24 spline
DA5522	Front solenoid locking diff kit including heavy-duty 4 pinion carrier and shafts including LSD kit	24 spline

KAM diff lockers -

- > double vehicle traction
- > improved strengthened parts
- > improved towing ability
- > LSD - diff locker combination
- > push button operation
- > replaces most internal parts
- > ideal for reconditioning

With a KAM system installed to both front and rear axles, drive can be instantly be doubled and applied evenly to all 4 wheels when the system is engaged.

CV Parts + Conversions

DA4450	CV conversions 32 to 23 with 24-23 shafts plus 3 x stubs
DA4451	CV conversions 32 to 23 without shafts plus 3 x stubs
DA4452	CV stub shafts 26.5 - 27 - 27.5 - 28mm

KAM produce a range of CV's that are an uprated version of the standard part.

Heavy-duty Shafts

DA4461	Range Rover/90-Pre 300	Rear	No oil seal	Short - 705mm	24/24 splines
DA4462	Range Rover/90-Pre 300	Rear	No oil seal	Long - 979mm	24/24 splines
DA4463	Tdi 300/Td5	Rear	With oil seal	Short - 683mm	24/24 splines
DA4464	Tdi 300/Td5	Rear	With oil seal	Long - 953mm	24/24 splines
DA4465	Tdi 200/300/Td5 110 - 1994>	Front		Short - 456mm	32/24 splines
DA4466	Tdi 200/300/Td5 110 - 1994>	Front		Long - 843mm	32/24 splines
DA4467	Range Rover/90-Pre 300 Tdi>	Front		Short - 452mm	23/24 splines
DA4468	Range Rover/90-Pre 300 Tdi>	Front		Long - 837mm	23/24 splines

KAM shafts have greater flexibility and are approximately 40% stronger than standard shafts. The KAM shafts have been used for the last 16 years in many trail and competition vehicles world wide.

Optional Upgrades For Locker

DA4453	Aluminum 8mm diff cover - replaces ABS plastic cover
DA4454	Spacer for 10-hole hub to fit wide conversions
DA5523	KAM heavy-duty bling 10 hole hub - narrow

Note - All locking diff kits are available to suit Defender (excluding Salisbury Axle), Discovery 1 & 2 and also Range Rover Classic. The locking diff kits we supply for stock are always metric. The metric to imperial change was in 1998. These kits will fit any application <1998.

FIRE EXTINGUISHERS

STC8529AA

JACKS - JACKALL

DA3121	48" Jack (4ft)
DA3122	60" Jack (5ft)
DA3130	Top clamp
DA3132	Tow hitch adaptor
DA4058	Maintenance kit
DA4059	Jacking point adaptor
DA4061	Mounting kit jack rack

8,000lbs capacity Jacks - Versatile! Rugged! Pow'R-ful!

Built with a patented 'Safety Link', the Maasdam Jackall is the 'Jack with More!' Larger base for greater stability. 'Safety Link' mechanism that prevents abuse, misuse and makes operations safer. Jacks come with a lifetime warranty and are built to current ANSI/ASME specifications. When safety and dependability matter most, continue to rely on Jackall.

DA3121 & DA3122

DA3130

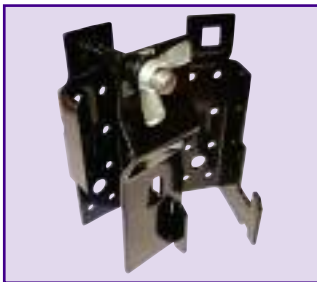

DA3132

DA4058

DA4059

DA4061

Features

- > Patented "safety link" mechanism
- > Heavy ribbed, extra large base
- > Cast components
- > Hot roll-formed, alloy steel beam
- > Steel handle locks against beam
- > Powder coated through and through

Benefits:

- > Prevents abuse and misuse
- > Provides strength and greater load stability
- > Assures long life, trouble free operation
- > Strong and reliable
- > For convenient storage
- > Reduces scratching, greater corrosive resistance

Patented "Safety Link" pitman mechanism prevents abuse and misuse. "Safety Link" yields when capacity exceeded — load can no longer be lifted. Operational safety at its best.

JACKS - HI-LIFT

rugged, highly versatile jack

DA3120

DA2243

DA2243 - 48" Jack (4ft)
DA3120 - 60" Jack (5ft)

The Hi-Lift jack is a rugged, highly versatile jack that puts you in command of situations requiring lifting, pushing, pulling, winching, and clamping. Although light in weight and easy to manoeuvre, the Hi-Lift jack offers a rated lifting capacity of 2 1/3 tons (2,114kgs).

Specifications

- > Approximate weight: 30lbs (14 kg)
- > 4,660lbs (2,113kgs) rated capacity
- > Climbing pins of specially processed steel with 125,000psi tensile strength and 100,000psi yield
- > Steel bar is manufactured of specially rolled extra high carbon steel with 80,000lbs minimum tensile and carbon 0.69 to 0.82
- > Steel handle of 14-gauge high-yield structural tubing with minimum yield of 55,000psi 1 5/16" diameter x 30" long

Features

- > Every jack comes complete with an adjustable top clam clevis for use in clamping and winching
- > For speedy disengaging, lifting unity automatically drops away when load is removed
- > 4 1/2" (11cm) long lifting nose for positive contact with load
- > Safety bolt is designed to shear at 7,000lbs. (3,175 kg)
- > Steel bar can be reversed for extra long life
- > Low pickup of 4 1/2" (11cm)
- > 28" square base plate

accessories

- DA2174** *Off-road base*
Alleviates jack sinkage on soft surfaces. Suits all models.
- DA2243EYE** *Jacking eye*
Spare jacking eye.
- DA2248** *Fix-it-kit*
The maintenance kit contains all the key components for servicing all Hi-Lift jacks.
- DA4350** *4XRAC*
Heavy-duty mounting system for the serious off-roader.
- DA4351** *Loc-Rac*
Conveniently mounts and locks your Hi-Lift jack. Includes lock and suits all models.
- DA4352** *Jack protector*
The jack protector vinyl bag protects your jack from the elements. One size fits all.
- DA4353** *Lift mate*
Designed to provide a lift point from most wheels for quick and easy lifting. The lifting capacity is 5,000lbs/2,273kgs.
- DA4354** *Off-road kit*
The Hi-Lift winching kit includes a winch attachment, winch tensioner, tree strap, d-ring shackle, Hi-Lift gloves and gear bag. Winch time is reduced significantly using the winch attachment and tensioner together.
- DA4355** *Bumper lift*
Designed to fit curved steel bumpers. The rugged design of the bumper lift has a lifting capacity of 3,000lbs/1,361kgs.
- DA4356** *Neoprene jack cover*
This jack cover offers a level of mud and dirt protection for the main lifting mechanism of the jack when not in use. It zips on easily over the foot of the jack and provides a tight fit.
- Adjustable tube jack mount**
Designed for mounting a Hi-Lift® jack to round and square tube bumpers, bull bars, roll cages and roof racks, this accessory allows for easy and adjustable mounting on tubes from 1" to 3" in diameter.
- DA4357** *Small set* is for use on round tubes from 1-2" in diameter, which works on many roof racks. It can also be used on ATV/UTV bars, bumpers and roll cages
- DA4358** *Large set* is intended for round tubes from 2-3" in diameter that will work on most vehicle bull bars and roll cages

RAISED AIR INTAKES - SAFARI

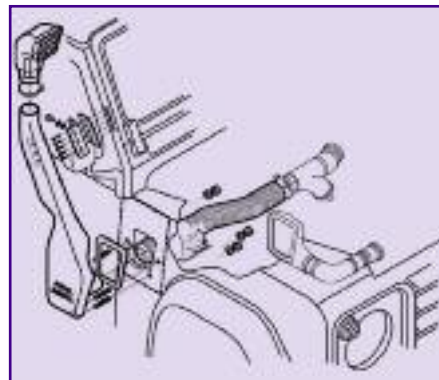

Pioneered in Australia in the early 1980's, Safari Snorkels were born out of a need to protect 4WD engines from the hazards of dust and water commonly encountered in touring and off road applications. Safari snorkels are manufactured to the highest standards in durable, UV stable, cross linked polyethylene material, using stainless steel hardware where appropriate. Each system includes quality fixtures and fittings, which offer superior sealing, presentation and long-term durability. In arguably the best, if not toughest environment, Safari Snorkel Systems are thoroughly researched, tested and tooled for each model of Land Rover. The Safari Snorkel delivers a continuous and cooler supply of air for maximum engine performance. It is positively sealed as well to ensure the best protection against deep water crossings and dust.

ROOF TENTS

Britpart are proud to be the sole European distributor for Echo roof top tents. They are the only heavy-duty tents available with convenient one-piece pitching and self-support.

Roof Top Tents

- > Manufactured from washable UV-varnished PVC canvas with welded seams.
- > 100% waterproof and they have been tested to withstand extreme weather conditions.
- > Ample ventilation is provided by having windows and doors on each side and each is covered with insect netting.
- > Maintenance-free floor - constructed from lightweight aluminium.
- > Comfort is ensured with a 60mm two-layer laminated foam mattress.
- > Removable two-section ladder provides easy access.
- > Quick and easy to store with the fold-up bungee system with dust cover.

'T' Top Tents

The same superior quality design as the above Roof Top Tents but with a unique designed versatile tent that allows access into the main rooftop from inside the tent. The bottom tent has 4 roll-up side panels which could be used as awnings and as doors to access your vehicle from inside the tent. Easy to open and close, no maintenance.

Yellow Top

Demand more from your vehicle? Then get more from your battery. Optima Yellow Top batteries are made for the extremes. If your vehicle is designed to take the abuse of off-road driving, you need increased performance and reliability from your battery. Optima batteries combine patented Spiralcell® Technology to deliver that performance. The deep cycle characteristics of this technology coupled with its extreme resistance to vibration provides performance vehicles with the repetitive power they need, packaged in a spill-proof compact design.

If your vehicle is fitted with high drain accessories such as additional lighting, tracking devices, ICE systems, winches, hydraulics etc, then this ultimately demands more from your battery. Optima Yellow Top batteries provide the extra performance and deep cycling capability that your vehicle demands.

DB1018

DB1020

With its patented Spiralcell® Technology, Optima batteries offer 15 times the vibration resistance and up to twice the life of ordinary batteries. The Optima is like no other battery found in today's market. Optima's unique patented Spiralcell® design offers the best technology by providing a strong and clean power source that far surpasses any of today's traditional lead acid batteries. With Optima as your choice, you can count on a longer lasting battery.

> Twice the life of ordinary batteries

> 15 times the vibration resistance

DB1019

DB1021

Red Top

Optima Red Top batteries are built to withstand the abuse 4x4's experience on and off-road. Spiralcell® Technology immobilises the internal components of the battery, enabling Optima batteries to withstand incredible amounts of vibration.

Vehicles modified for improved engine performance demand more from a battery. Optima batteries withstand the high engine bay temperatures associated with these performance vehicles. The sealed construction makes the battery spill-proof, even if you install it on its side! This prevents external gassing and leaking which can damage engine components and reduce battery performance.

If your battery is used in applications that demand extra reliability endurance and performance, or if you just take pride in getting the best performance out of your vehicle, Optima Red Top batteries deliver the performance you demand.

BRITPART WINCH - DB6000

DB6000

Features

- > 2.7Kw (3.6Hp) permanent magnet motor
- > Dustproof contactor controls for longer life and improved amperage draw
- > Planetary gear system for fast line speed
- > Free spooling
- > Low electric current
- > Automatic load-holding brake
- > Power in and power out

Specification

- > Rated line pull - single line 2,724kgs 6,000lbs
- > Gear reduction ratio 210:1
- > Motor (permanent magnet) 2.7Kw 3.6Hp
- > Drum size (D x L) 63 x 140mm 2.5 x 5.51"
- > Cable supplied 7.94mm x 26m 5/16" x 85'
(Aircraft cable with minimum break force 10,000lbs)
- > Dimensions (L x W x H) 438 x 158 x 185mm 17.24 x 6.22 x 7.28"

DA3138

- > A range of performance filters tailored to fit your Land Rover
- > Maximum breathing efficiency for your engine means more power or better fuel mileage

- > No compromise on quality - the engine gets more air but the dirt particles are trapped by the quality filters
- > No need to replace as easy cleaning means maximum performance guaranteed
- > Easy fit, directly replaces standard air filter
- > Ideal for use in hot dusty conditions to reduce engine wear
- > Compatible with snorkels, ideal for use in conjunction with other performance modifications
- > Filters don't need pre-oiling and if the filter gets dirty there is no need to use a cleaner to clear the dirt on the filter - just use air, water or detergent

AIR FILTERS - K&N

K&N's lifetime replacement air filters are designed to increase horsepower and acceleration while providing excellent filtration. These filters are custom designed to fit into the existing factory air box. Their drop-in design means adding performance is simple. Simply remove the disposable air filter and replace it with a K&N; there is NEVER any cutting or fitting required.

BRITPART PERFORMANCE DISCS

DA4600

DA4600 - FITTED

- > Slotted design to increase braking efficiency by reducing dust, debris, water and gas on the disc.
- > To improve brake cooling, reduce weight and to offer an escape route for dirt and gasses these performance discs are drilled with rows of holes.
- > Excellent upgrade for your Land Rover to aid braking, especially under a heavy load.

BRITPART

- > Ideal for off-road use.
- > Manufactured to British Standard BS1452 Grade 220 and DIN1691 GG20.
- > Supplied in pairs.

Quality manufactured slotted brake discs!

EBC BRAKES

- > Wide aperture slots that draw cool air under the pad surface.
- > Slots that expel all dirt dust and debris from the braking area.
- > Blind drilled dimples that eliminate cracking common with through drilled sport rotors whilst helping maintain perfect pad contact.
- > Gold zinc corrosion resistant coating.

EBC DISCS

EBC BRAKE PARTS - continued

- > New AF42/66 friction material which completely eliminates brake judder and produces a high friction long lasting brake pad.
- > Unique powder coat finish to both pad and back plate gives lifetime resistance to corrosion and prevents moisture ingress.
- > Unique Brake-In surface coating provides instant brake efficiency on installation and conditions the brake rotor removing glaze, black spotting etc from disc surface.
- > All pads feature centre line slot which prevents heat expansion cracks and reduces brake noise.
- > All pads feature edge chamfers which have major technical benefits;
 - Significant reduction in brake noise
 - Prevents 'edge lifting' under left and right extremities of pad which can cause corrosion ingress and eventual pad de-bond
 - Can extend pad life by virtue of improved pad efficiency
- > Most pads in the Ultimax range features factory fitted noise reduction shims.

*pad sets excludes shims

IMPORTANT BRAKE INFORMATION For exact change over points with vehicle applications please contact your local Britpart distributor with the full chassis number for the correct application. These references are intended as a guide only!

- > 100% British design and manufacture.
- > Superb gloss powder coat paint finish to reduce corrosion.
- > Unique engineering finish with noise reduction slots and edge chamfers.
- > Extra high friction compounds for better stops, these pads will improve your stopping power by up to three vehicle lengths.
- > Special compound ingredients that prevent "Outline Etching" eliminating brake stiction onto the rotor in damp conditions.
- > Unique "Brake-In" surface coating to accelerate pad bed in after installing new pads which also guarantees brake efficiency from install.
- > Super quiet braking with rubber-steel-rubber noise reduction shims on the reverse, this dampens all possible noise.
- > Extra heavy duty compound lasts longer than low cost standard pads
- > Fully ECE R 90 approved and legal for road and off road use.

EBC BRAKE PARTS - continued

EBC Yellowstuff brake pads are British made with Aramid fibres such as Kevlar and Twaron and are one of the highest friction brake pad compounds on today's market. Not only high in friction from first application when brakes are cold but extremely effective at higher brake temperatures as encountered in faster driving and towing/trailing. These pads are a favourite with the military and are used on armoured vehicles in several countries to handle the higher loads and heat and offer a good brake upgrade. Fitted with shims chamfers, centre slots and the unique EBC Brake in coating for fast bedding in of new brakes these pads are also long lasting and silent in operation.

- > High friction compound
- > Effective from cold up to high heat
- > Effective brake upgrade for heavy duty braking
- > Long lasting powerful brakes
- > Shims, edge chamfers and slots for silent braking

HANDBRAKE CONVERSION KIT

DA5513

DA5513 Defender 1987-2006

DA5526

DA5526 Discovery 1 & 2
Range Rover Classic

The standard Land Rover hand brake can easily get bunged up with dirt if you drive off-road a lot and once the mechanism gets clogged up it doesn't work as efficiently as it should. Britpart now offer a solution to that problem - a drum to disc conversion kit.

This kit uses a powerful caliper whose mechanism is sealed to prevent the access of mud! The special pads provide greater friction than the standard ones and are resistant from abrasion from mud.

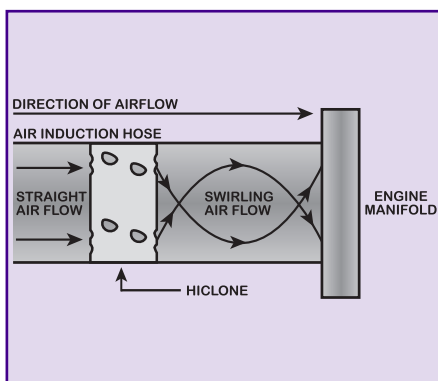

Beef up your handbrake!

**New section added to accessory catalogue -
vehicle enhancement!**

Hiclone is a simple non-moving stainless steel device that sits inside the air induction system of an engine. Like a static mixer, it vigorously swirls the air, improving the fuel/air mixture and atomisation, promoting more complete combustion as more of the available fuel is consumed. More efficient burning of the fuel cuts smoke and other hydrocarbon emissions.

Hiclone also smoothes out the engine torque curve, resulting in a reduction in gear changes and a quieter engine, especially on the motorway. With Hiclone fitted you can corner and go uphill in a higher gear; this makes the vehicle easier to drive, improves the ride and reduces engine wear. Additionally Hiclone improves low down grunt of turbo charged engines making towing and hauling heavy loads more effective.

HOW A HICLONE WORKS

Hiclone makes the power in each cylinder more even, reducing friction, resulting in a more stable performance with less noise and abrasion.

Hiclone will not damage the engine or invalidate the vehicle's warranty. Hiclone itself has a lifetime warranty. Fitting is simple; no special tools or engine modifications are needed and it is maintenance free.

Note - Hiclones are designed to fit snugly into existing pipes. However, if a pipe is old, or, in poor condition, the Hiclone may not fit properly. In this circumstance we recommend fitting a new pipe.

Hiclone smoothes out the engine torque curve, resulting in a reduction in gear changes and a quieter engine!

INTERCOOLERS - PERFORMANCE

DA4630

DA4631

DA4632

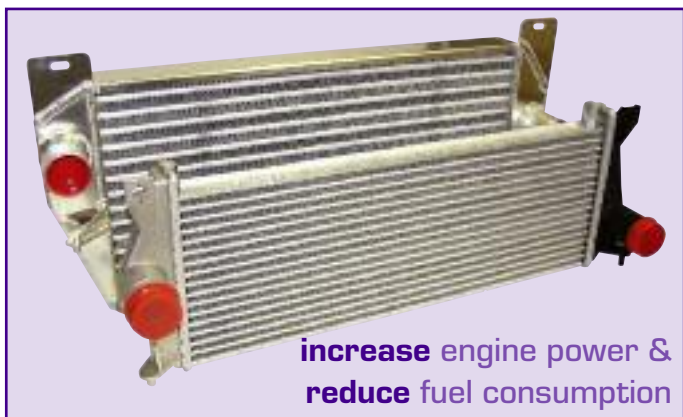

DA4633

DA4634

These high performance and robust units are constructed from polished aluminium and are 30% larger than the standard intercooler. As a result air has a chance to cool before entering the engine. This cooler air can increase engine power by up to 25bhp (subject to application). Other benefits include better throttle response and reduction in fuel consumption depending on driving conditions. Ideal for on or off road use. Fully pressure tested, capped and sealed. Manufactured in the UK.

PSI POWER TUNING PRODUCTS

DA4419

Improves
torque

Performances for Defender Td5:
Standard: 122 HP 90 kW 300 Nm
PSI: 155 HP 114 kW 365 Nm

The Power Box houses a digital microprocessor which intercepts the fuelling signals being transmitted from the ECU to the fuel pump; it then modifies them to ensure the exact amount of diesel required for enhanced performance. Such efficient use of the fuel optimises consumption, reduces smoke emissions and there is less engine stress, enhancing engine life in many cases.

The Power Box improves torque enabling the vehicle to change gears earlier and hold higher gears at lower speeds, making driving more pleasurable.

The unit fits using the original manufacturers plugs; these existing plugs are opened and the Power Box is secured in between. Full fitting instructions are included with every unit.

Features

- > Plug-in unit
- > No intervention with the original ECU
- > 1-year equipment warranty & 1-year engine warranty - subject to terms*
- > TUV approval
- > Compact size
- > Shock resistant & waterproof
- > Competitively priced

*vehicles up to 40,000km and up to 3 years old

Benefits

- > Can be removed prior to sale or used as a selling point
- > Traceless
- > Peace of mind
- > Quality product which is legal & safe
- > Unobtrusive in interior of vehicle
- > No worries off road
- > A good investment

Tunit Diesel Performance - The Diesel Tunit has been forged from many years of experience to bring a world class unbeatable range of diesel performance solutions.

Tunit Features - Tunit possesses many advantageous features not seen in other tuning solutions such as chips, eprom serial reprogramming (flashing) or other types of fixed map devices. It is interchangeable between vehicles and able to be upgraded. External to the ECU or `Plug and play` as it is often called means no interference with the original manufacturers engine equipment. Its option to adjust power and performance provides easy manual adjustment for the novice or finer electronic alterations for the more dedicated tuner. Tunit is backed up by an outstanding after sales service, part exchange program and class beating three year warranty.

Fuel Savings - Tunit has become advantageous in reducing fuel costs for a variety of applications; not just improving performance but now helping with saving fuel costs.

Installation - The tunit is normally connected to original plugs on the vehicle and can either be self-installed or by a professional mechanic.

WEBER CARBURETTORS

Part of the conversion kit

DA3049**DA2126****ERC2886W****DA3049**

V8 4-Barrel conversion kit including manifold

The Webcon 4 barrel replacement carburettor kit is a direct replacement for the twin Stromberg or SU carbs fitted to the Rover V8. Calibrated to work perfectly on the 3.5 and 3.9 engines, the Webcon kit is the most complete on the market and features a Webcon modified Weber 4 barrel 500cfm carburettor; intake manifold, air filter and every single nut, bolt washer, gasket and hose that could possibly be needed. The kit adds up to 20bhp at the wheels and transforms the driveability and economy. Starting becomes instant either hot or cold and with no balance adjustment to worry about with twin carbs, the engine is simply superbly smooth as indeed a V8 should be.

AIR SPRING CONVERSION KIT - BRITPART

DA5136

Discovery 2

Air to coil conversion kit

It is a sad fact that sometimes the air suspension at the rear of a Discovery 2 will fail. You then have a choice to make. Do you replace it with a replacement air spring system which is comfortable but not comfortable on the wallet or replace with an equally comfortable but much more affordable coil suspension system. Well Britpart have the complete kit for air to coil suspension conversion making your decision that bit easier.

Kit -

- 2 x Rear springs
- 2 x Isolators
- 2 x Spring seats
- 4 x Bolts
- 1 x Instructions

DA5136

AIR SPRING CONVERSION KITS - ATLANTIC BRITISH

The EAS (Electronic Air Suspension) System found on Range Rover 4.0 and 4.6 vehicles can present expensive, recurring maintenance problems. If you've had an air spring failure before, you know this first hand.

Atlantic British now has a revolutionary coil spring conversion kit for Range Rover 4.0/4.6 that makes switching to coil springs seamless and error-free. Conversion to coil springs provides a better, maintenance-free ride that will save you significant money over time. This exclusive EAS Override Module suppresses all typical false dashboard display errors and buzzers seen when converting to coil springs.

Kit provides everything needed to complete
a professional installation

Any mechanic or Range Rover owner can install this exclusive coil spring conversion kit without having to go to a Land Rover dealer or Autologic-equipped repair shop to eliminate false dash warning light errors.

The EAS Override Module and Coil Spring Conversion Kit is an Atlantic British exclusive! The exclusive kit features:

- > Detailed step-by-step instructions.
- > The Atlantic British exclusive EAS Override Module overrides all typical computer errors seen when converting to a coil spring system.
- > Eliminates the need for a costly shop visit.
- > Aluminium spring perch adapters, exclusive Atlantic British Ltd. design.
- > Britpart custom made coil springs provide standard ride height and maximum articulation.
- > Affordable alternative to expensive, recurring air suspension failures.
- > Trip computer compatibility - maintains operation of your vehicle's trip computer.
- > Kit provides everything needed to complete a professional installation.

DA2426 Defender - Steering damper bush set

Britpart are proud to present an exclusive range of Yellow and Black polyurethane bushes. Manufactured exclusively for Britpart using the latest Vulkollan™ polyurethane technology.

Machined to exact tolerances once cast to produce the highest finish available.

Produced in both yellow and black they are both the same compound which gives similar ride characteristics to the standard rubber bushes, but they offer improved articulation, vibration damping and last longer.

The black bushes are ideal for replacing individual bushes as they can be fitted without a press.

The DC range of kits include shock absorber and A-frame bushes.

BE PART OF IT!

Note - Part numbers without yellow as a suffix indicate the bush colour is black.

RADIUS ARMS

Wide Angle Propshafts...

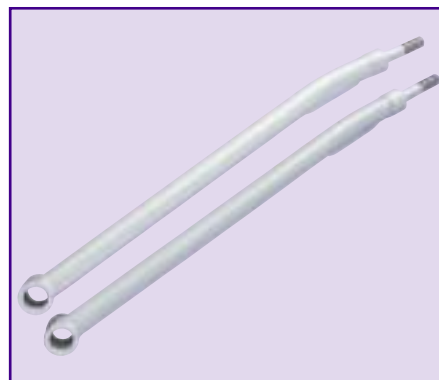

...now available.

See the end of this section for full details

DA5505 & DA5506

- > Designed for vehicles with an extended 1 to 3" lift.
- > Front radius arms correct castor alignment which in turn ensure safe driving.
- > Rear radius arms provide full rear axle articulation.
- > Fitting the radius arms will contribute to a much better off-road capability for your vehicle by fully utilising your spring and shock absorber set.
- > Zinc passivated with a heavy-duty powder coating finish to complement each component.

BRITPART

CELLULAR DYNAMIC

2 year
WARRANTY
50,000
miles

- > cellular technology tube
- > sintered 18mm rod
- > piston diameter 41mm
- > polyurethane bush
- > teflon piston with multi-lip seal
- > single piece eye ring

The Britpart Cellular Dynamic Shock Absorber represents a significant advance in Land Rover suspension systems. It features a cellular foam insert instead of a normal nitrogen gas or air; this is to stop the oil from boiling. The foam takes up less room which means more room for oil, 50% more, which offers maximum heat dispersion.

This heat dispersion translates to a very subtle but controlled ride that will not fade no matter how hard you push them. They are ideal for a driver who needs more control to complement performance improvements or to enhance a standard vehicle.

The unique design ensures ride comfort and cornering ability is maximised and of course they are superb off-road.

Super Gaz Shock Absorbers

Britpart Super Gaz Shock Absorbers offer a 35mm bore tube filled with Fuchs shock absorber fluid, using the best seal available, single piece eye rings, polyurethane bush mounts and a very durable powder coated finish. These offer a vast improvement in ride quality and damping performance. They are ideal for use with either of the Britpart Yellow Spring range or standard Land Rover Springs. Please ask for a CD of the shock absorbers in use or see the suspension section on the Britpart website!

SPRINGS - COIL

PERFORMANCE SPRINGS

Britpart Performance - Lifted Springs

Our yellow performance springs are high quality, versatile and competitively priced - the right choice when replacing the old sagging original springs.

Developed by one of the world's top spring manufacturers these high quality, powder coated springs have been designed with the needs of today's Land Rover owners in mind.

As Land Rovers are often working vehicles as well as the family car, uprated springs must offer the ability to carry loads, handle off-road terrain and provide a good ride on road. The progressive front springs offer a compliant ride when lightly loaded, but firm up as the load increases.

Note - Spring quantity 1 = 1 pair

The right choice when replacing the old sagging original springs!

Britpart Performance - Standard Height Springs

Our yellow springs are designed for the enthusiast who wants a performance spring without having to raise the vehicle. They offer a firmer ride with less body roll, ideal for a vehicle with uprated performance or one used for carrying heavy loads.

The springs are designed to offer full articulation off road with a compliant ride. They also look stunning in the Britpart yellow powder coating.

Note - Spring quantity 1 = 1 pair

WIDE ANGLE PROPSHAFTS

DA6353

If your Land Rover has raised suspension or been modified for extreme axle articulation then the joints on the existing prop shaft will become strained. This will cause the prop shaft to lock up or vibrate and wear the universal joints prematurely.

reduces vibration, universal joint 'bind-up' and premature wear

Dropping the axle further away from the chassis is great for looks, articulation and off-road performance - a neat solution is to fit a wide angle prop shaft. This allows drivetrain angles of up to 32 degrees which reduces vibration, universal joint 'bind-up' and premature wear on the joints. These wide angle shafts have greasable universal joints which are more desirable where longer life is required.

EXHAUSTS - STAINLESS STEEL

All Double 'S' exhaust systems carry a lifetime guarantee.

Double 'S' is recognised as one of Europe's leading manufacturers of stainless steel automotive components with a wide selection of systems for off-road.

Using only the finest austenitic and ferritic stainless steels and employing the latest in CNC mandrel and empty tube bending, measuring and inspection equipment, means increasingly high levels of product quality.

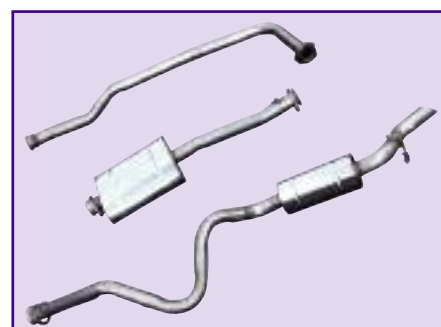

All Double 'S' exhaust systems carry a lifetime guarantee. Double 'S' will replace or repair any part of their Stainless Steel Exhaust Systems found defective through corrosion during the period that the system remains the property of the original owner. Provided that the system is inspected by a garage or exhaust fitting centre annually to ensure that the rubber and other mountings are in good condition.

UTILITY LINK PIPES

These are 304 stainless steel exhaust silencer replacement pipes. They are designed to directly replace the front silencer in your Td5 and Tdi exhaust system.

Quick and easy to install with more power.

Once replaced the pipe will give your vehicle more power or reduced fuel consumption with only a small increase in cabin noise.

Reduced fuel consumption

CNC mandrel formed for a perfect fit with laser cut flanges, the pipes have a sateen finish, deep luster appearance. Quick and easy to install.

ENGINES & TRANSMISSION

Engines - new	122
Engines - reconditioned	122
Gear boxes - new	123
Gear boxes - reconditioned	123
Transfer boxes - new	123

ENGINES

Complete Engines

Include fuel pump, injectors, injector pipes, timing assembly and bell housing. Complete engines are tested prior to despatch. Once tested the flywheel and manifolds are removed and the engine is packed without these parts. Outer timing covers, pulleys, manifolds, flywheel and turbo charger are not included.

Stripped Engines

Include sump, block, cylinder head, rocker cover, inner timing cover, camshaft and crankshaft gear.

Short Engines

Consist of block, crank, con-rods and pistons only.

Re-conditioned Engines

These engines have been through the following rigorous processes:

- > Complete strip down
- > Removal of all core plugs
- > Thorough cleaning in environmentally-friendly, solvent-free washing machines
- > Removal of all parts subject to wear
- > Inspection of casings for signs of damage and corrosion
- > Crack-testing of camshafts before and after re-grinding
- > Re-boring of blocks and machining of decks to the correct surface finishes
- > Fitting of perfectly-balanced, machined con-rods in accordance with manufacturers recommended piston protrusions
- > Meticulous re-building of engines in individual, contaminant-free workstations
- > Renewal of all bearings and gaskets throughout the engine
- > Renewal/overhaul of oil pumps
- > Replacement of all core plugs
- > Dyno-testing of complete engines
- > Final inspection
- > Wrapping in cellophane and fitting into rigid, steel transportation frames

CV JOINT KITS - BRITPART

Britpart has put together these boxed kits to help the fitter have all the necessary parts to do the job in one hit, saving time and money trying to find the necessary parts to do the job.

These kits are also helpful to pass over the trade counter instead of having to hunt for the individual parts.

One kit does one CV joint.

**LCJ000050LKIT**

BRITPART

The quality parts for Land Rovers

BE PART OF IT!

DAMPER KIT**DA2352**

Freelander pre-2006 4-cylinder

Why pay for a new and expensive viscous coupling on your Freelander when all you need to replace, to remedy the fault, is the damper?

**DA2352**

BE PART OF IT!

DIFF COUPLING SHAFT**DA2355****DA2355**

The Range Rover L322 - 2002 onwards, suffer from a common problem with the coupling shaft spline wearing between the front propshaft and front differential, thus losing drive to the differential. The problem purely relates to the coupling shaft and the differential itself is not affected. Currently the only solution offered by Land Rover is to replace the propshaft and the whole complete front differential assembly - a very expensive option!

We are now able to offer a cheaper alternative!

Using this new coupling shaft will enable you to replace just the propshaft and coupling shaft and leave the differential in place, therefore reducing both time (the differential need not be removed from the vehicle) and cost.

DIFF REPAIR PANS**DA1043****DA1044****DA1045****DA1043**

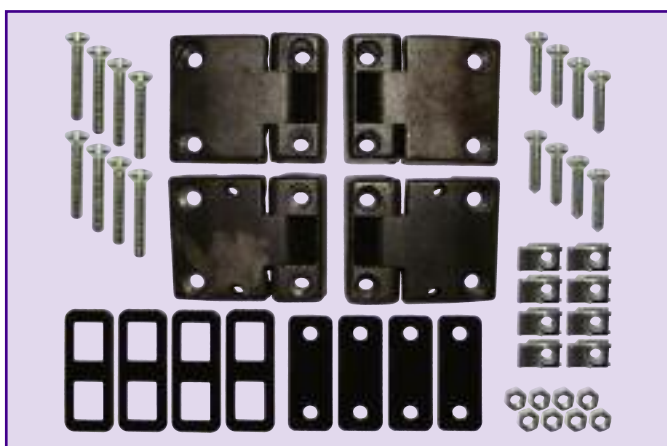

Front - includes filler plug

DA1044

EGR BLANKING KIT**DA1108****DA1108**

300Tdi EGR blanking kit

ELECTRONIC CONVERSION KITS**ERC4536K****ERC4536K**

This electronic conversion kit is for V8 points and has built in dwell adjustment with rpm protection when not running

**ETC5835K**

Dodgy points and condenser?

ETC5835K

The Britpart electronic conversion kit replaces the existing points and condenser with a new reliable electronic module. For 4-cylinder petrol engines the Britpart electronic ignition module has been developed to work with the standard ignition coil and provides service free and accurate ignition timing. The kit can be easily fitted to standard points type 45D4 distributors without having to fit a new electronic ignition coil.

We'd recommend fitting a new coil at the same time - PRC9858. Also available a new distributor with points to which this kit can be fitted - ETC5835.

HEATER BLOWER MOTOR KIT & RESISTOR KIT

DA4178

Range Rover Classic 1990 - 1994 & Discovery 200 Tdi with air con

Atlantic British has developed this all inclusive kit designed and engineered to replace failed heater motors. The kit includes heater blower motor, blower wheel, motor mounting bracket and mounting screws, heater assembly seals, nylon ties, solder, shrink tubing (for soldered connections) and complete instructions.

Note - When replacing the heater blower motor the vehicle's resistor must be upgraded to DA4178RESISTOR

DA4178

DA4178RESISTOR

The air con blower motor resistor controls the speed of the blower motor and the force of the airflow out of the dash vents, it features a thermal-sink aluminium mounting plate that dissipates circuit heat effectively.

HYLOMAR SEALANTS & COMPOUNDS

RTC3347

Hylomar Universal Blue - gasket & jointing compound - 100g tube

- > Non setting universal jointing compound
- > Resistant to fuels, coolants and lubricants
- > Use on gaskets and machined metal surfaces
- > High temperature capability up to 250°C
- > Unlimited assembly time
- > Easy disassembly for service maintenance
- > Allows for differential thermal expansion of components
- > Excellent vibration resistance

RTC3347

RTC3254

RTC3254

Hylomar 101 Silicone Sealant - gasketing, sealing & bonding compound - 85g tube

- > Engineering grade
- > Forms any size or shape of gasket instantly
- > Remains flexible, will not shrink
- > Bonds to metal, glass, ceramics, plastics, fibres and wood
- > Resists most solvents
- > Electrical insulator
- > Maximum constant operating temperature 250°C
- > Neutral curing
- > Ensure surfaces are free from oil and grease

STC4404

STC4600

STC4404

Hylomar 607 Silicone Sealant - 300ml cartridge

- > Excellent gap filling properties
- > Engineering grade
- > Forms any size or shape of gasket instantly
- > Remains flexible, will not shrink
- > Bonds to metal, glass, ceramics, plastics, fibres and wood
- > Resists most solvents
- > Good fluid resistance - not petrol or diesel
- > Electrical insulator
- > Maximum constant operating temperature 250°C
- > Neutral curing
- > Tolerant of some oil and grease, ensure surfaces are clean

STC4600

Hylomar 3400 Anaerobic Gasket Compound - 300ml cartridge

- > Excellent resistance to automotive fluids including fuels
- > Operating temperature -40°C to 150°C
- > Machined metal to metal surface only, not suitable for pressed steel
- > No gap filling
- > Latest generation anaerobic gasket compound
- > Single part product
- > Suitable for K-series engines
- > Ensure surfaces are free of oil and grease

**Super Glue**

3g tube

High performance instant adhesive with thousands of applications

DA6300

**Super Glue Brushable**

5g bottle

Brushable version for extra accuracy and greater coverage

DA6301

**Spray Adhesive**

500ml aerosol

Rapid bonding spray adhesive for bonding various materials

DA6302

**Repair Express Power Putty**

Blister pack

Fills, sticks, seals and re-builds thousands of items without tools

DA6303

**Rear View Mirror Bonder**

1 shot tube

Unique bonding system for rear view mirrors, car telephone aerials and all window mounted material

DA6304

**Lock 'N Seal**

24ml bottle

Fast acting thread lock and sealant

Replaces traditional locking methods

DA6305

**Stud 'N Bearing Fit**

24ml bottle

Locks and seals studs into position

Seals against leaks and vibration

DA6306

**Lock 'N Seal 243**

50ml bottle

Fast-acting thread lock and sealant

Prevents bolts, screws and nuts from vibrating loose

DA6307

**Stud 'N Bearing Fit 2701**

50ml bottle

Retains bearings into new and used housings

DA6308

**Instant Adhesive 401**

20g tube

Surface insensitive formulation creates a permanent bond with virtually any material

DA6309

**Freeze and Release**

400ml aerosol

Shock freezing (-43°C) is a quick and convenient method for releasing seized and corroded parts

DA6310

**Quick Gasket**

200ml aerosol

Permanently flexible flange sealant for non-rigid flanges and for plastic-to-plastic and metal-to-metal assemblies

DA6311

**Chemical Metal**

Mini blister pack

The original rock-hard multi-purpose repair paste

DA6312

**Leak Fix**

Mini blister pack

Seals and repairs leaks in petrol tanks, radiators and sumps

DA6313

**Super Steel Epoxy-Weld**

2 x 25g tube

Sets like steel

Seals, repairs, bonds, fixes and replaces

DA6314

**Terodicht Elastic Window Sealant**

310ml cartridge

Ideal for re-sealing rubber mounted windscreens

DA6316

**Terolan Special Sealant**

1.4kg can and brush

Vehicle body sealant for application with special brush

DA6317

**Fast Set Epoxy 3430**

24ml syringe

Two part general purpose epoxy adhesive

DA6318

**Teroson Etch Primer**

500ml aerosol

Provides excellent adhesion to steel, galvanised steel and aluminium

DA6319

**Glass Adhesive**

3ml tube

Glass to glass or glass to metal. Adhesive is triggered by UV rays in normal daylight. Clear bond line, water and detergent resistant

SWIVEL HOUSING GREASE

STC3435

STC3435S

STC3435 370gm bottle

STC3435S 370ml sachet

- > Formulated for all leaf & coil spring Land Rover, Discovery and Range Rover models - 1951 - to date.
- > Lubricates swivel pins and housing seals, protects spheres.
- > A semi-fluid grease designed to withstand shock loading in oscillating joints.
- > Reinforced with solid lubricants, highly resistant to water and salt corrosion.
- > Better lubrication while driving, less leaks while standing.
- > One shot gives 'filled for life' protection.

TOOLS

Specialist socket for prop shaft fasteners on most Land Rovers. The $\frac{9}{16}$ " socket end is a perfect hexagon with rounded tip profiles to ensure the whole turning power is transferred onto the flanks of the nuts instead of on the corners. The socket's slim wall construction and wine glass profile, coupled to an integral slimline extension means it fits perfectly between the UJ yokes and over the prop shaft nuts without fouling. The $\frac{9}{16}$ " AF nuts are common to Series Land Rovers, Defenders (90 & 110 up to latest vehicles), Discoverys (up to and including Discovery 2 model) and Range Rovers (up to and including P38 model).

- > Size: $\frac{9}{16}$ " 6 point (Hexagon)
- > Total Length: 150mm
- > Outside diameter: 20mm

TOUCH UP PAINT PENS

**Exclusive to Britpart
in the UK!!**

These superior touch up pens are made in the US and are as easy to use as a fine felt tip marker. They use a quality urethane paint for a superior colour match.

**The best you can get
without repainting!**

The AutoSharp Pen has many unique features not otherwise available:

The Pen - Paint is held in a barrel and automatically dispensed through a fine felt tip, providing the user unparalleled control over their painting instrument.

The Paint - High quality urethane paint is used which is the same as your vehicles manufacturer. This paint provides the user with a much closer colour match than other companies which primarily use lacquer (old technology) paints.

The Results - The best you can get without refinishing the damaged areas.

More details and FAQs can be found at www.britpart.com/paintpens

Note - If your colour is not listed then please contact us.

BRITPART SERVICE KITS

Ever started servicing a Land Rover and then suddenly realised you haven't ordered a filter or forgot the sump plug washers?

Well now thanks to Britpart with one simple part number you can order your Land Rover kit safe in the knowledge that all the parts you need will be there for you to complete the job. No more half finished services!

The Britpart service kits contain quality products which are -

- > Manufactured to O.E. specification
- > Competitively priced
- > Available from stock

These are an exciting new range of original technical publications on CD-Rom. On the CD you'll get original parts books, workshop manuals and handbooks. Each CD-Rom focuses on one model as shown above and each has the same format: the original parts catalogues (from parts book and/or microfiche, as appropriate) are followed by the workshop manuals and driver's handbooks, all reproduced in an easy-to-use and easy-to-print PDF format.

We'd like to see your pictures!

If you have a great picture of your Land Rover and would like to see it featured in the next Britpart catalogue, then please send it to marketing@britpart.co.uk with all your details. We look forward to seeing them and for each one we feature we'll send you a small prize!

Picture courtesy of Craig Grey - Australia

THE SMALL PRINT

- > Part numbers used for identification purposes only and do not imply or indicate the identity of a manufacturer.
- > Parts are subject to stock and supply.
- > Pictures are for reference only and specifications may alter without notice.
- > Colour swatches are for reference only - samples are available on request
- > All products available at time of printing and we reserve the right to withdraw any product at any time.
- > Land Rover logos and trade names are for reference only.
- > No part of this catalogue may be used or reproduced by any means without the express permission of Britpart.
- > Product specifications are given but it is up to the end user to ensure that the product is fit for that purpose.
- > E&OE

A Bars	5-6	Coil springs	112	Head bolt sets	135
