MDX  
MDX  
**MDX**  
MDX  
MDX  
MDX

Whether we're building a supercar or an SUV, our approach has always been the same: put the driver first. Always. That's why we've gathered designers and dreamers, optimists and engineers, to push the limits of technology and enhance the relationship between driver and machine, building vehicles without compromise.

It's what Precision Crafted Performance is all about. So when we set out to build the MDX, we built it the only way we know how.

DIFFERENT BY

**DESIGN**

From the beginning, it's been our goal to create performance vehicles with an unrivaled level of precision. Every detail is meticulously crafted down to where the tire meets the road, and it's all with the single-minded goal of designing the world's most cutting-edge, experience-boosting, driver-first performance vehicles.

## EXTERIOR DESIGN

Commanding front styling announces the face of Acura—the bold Diamond Pentagon grille. Strong lines are accentuated by front all-LED lighting, which provides a sleek and sophisticated design detail as well as helping to increase safety. Along with an exposed dual-exhaust and available attention-grabbing 20" alloy wheels, the striking exterior of the MDX announces Precision Crafted Performance.

### JEWEL EYE™ LED HEADLIGHTS

Whether you're on the racetrack or on a road trip, how far ahead you can see affects everything. Jewel Eye™ LED headlights are standard on every Acura and help to provide impressive down-road visibility with an intense, wide beam of light designed to mimic natural sunlight—the light our eyes are designed to see in. The intended result? Less fatigued driving, more clarity and vivid colours.

# A-SPEC

## THE ULTIMATE PACKAGE

Designed to take the MDX to the next level, the available A-SPEC package goes far beyond a premium badge. Sport-inspired details elevate the MDX exterior, from the striking 20-inch wheels, to larger and bolder exhaust finishers, to an aggressive new front fascia. Gloss-black and dark chrome accents adorn the headlights, grille, window surround and rear tailgate spoiler to create an aesthetic that is equal parts aggressive and elegant.

## INTERIOR DESIGN

### EVERY DETAIL COUNTS

The cabin of the MDX is shaped by intelligent design, refined style, and human-centered technology. Drivers and passengers will be welcomed on board by soft leather-trimmed seating with available elegant contrast stitching and seat piping as well as natural handcrafted wood accents, along with ample legroom and advanced noise reduction. The result is a spacious, elegant and comfortable environment for an engaging trip.

The more athletic stance of the MDX A-SPEC houses an equally bold interior. Red or ebony leather-trimmed sport seats, eye-catching metal sports pedals, red ambient lighting, and race-inspired paddle shifters round out the sporty, stylish cockpit.

## AGILITY REDEFINED

The lightest vehicle in its class,\* the MDX is crafted from ultra high-strength steel, aluminum and magnesium to reduce weight and increase rigidity. And less weight equals more performance, which is why we cut every unnecessary ounce.

### AGILE HANDLING ASSIST

Agile Handling Assist uses active braking to aid in the accurate tracing of your desired line through a turn. The system can brake individual wheels as needed, effectively using brake torque-vectoring to directly control the vehicle's rotation. Working jointly with the Adaptive Damper System and Super Handling All-Wheel Drive™<sup>2</sup>, the highly precise handling of the MDX was designed to feel more like that of a sports sedan than a luxury SUV for seven.

### ACTIVE DAMPER SYSTEM

Drive assured with the available Active Damper System, which is designed to allow the MDX to remain soft and comfortable during highway cruising, yet firm when the road requires high-performance handling. By acclimating suspension responsiveness in a matter of milliseconds, the Active Damper System strengthens the bond between driver and vehicle.

\*Based on information available to Acura Canada as of May 2018.

MDX Elite Package shown in Lunar Silver Metallic.

# IDS

### INTEGRATED DYNAMICS SYSTEM (IDS)

With Comfort, Normal and Sport driving options, our Integrated Dynamics System (IDS) delivers three modes of Precision Crafted Performance, designed to complement the personality of the driver. Choose between the three modes and the IDS will adjust the steering effort, throttle response, Super Handling All-Wheel Drive™<sup>2</sup> (SH-AWD®), even the sound of the engine, to match the mood you want to set for the drive ahead.

If you're looking to raise your pulse, Sport mode dials up throttle response and weights the steering for a sports car-like feel while inciting a more aggressive response from the SH-AWD® system. And for an even more engaging experience, put full manual control of the 9-speed automatic transmission at your fingertips with our race-inspired Sequential SportShift® paddle shifters.

Comfort

Normal

Sport

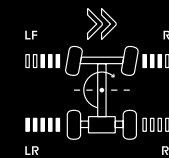

## SH-AWD®

### SUPER HANDLING ALL-WHEEL DRIVE™<sup>2</sup>

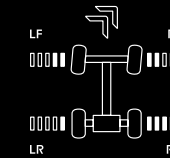

Super Handling All-Wheel Drive™ was designed to adapt to the driver for superb handling under virtually any condition, and is standard on every MDX.

This innovative torque-vectoring system sends power to the wheels that need it most, distributing power from front to back, or side to side on the rear wheels, helping to match driver input, weight distribution and available traction. In a corner, the system sends up to 100 percent of the rear power to the outside wheel, effectively rotating the vehicle and significantly enhancing manoeuvrability and control. This performance technology helps to provide seamless power transitions and remarkable control—control that goes beyond traction and forms a direct connection between driver and vehicle.

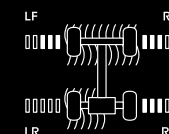

#### Cornering

When cornering on dry surfaces, up to 70 percent of the torque is distributed to the rear. Torque vectoring allows up to 100 percent of that power to be distributed to the outside rear wheel, improving control and helping to rotate the MDX through the turn.

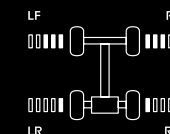

#### Lane Change

For increased stability during lane changes, the SH-AWD® system is designed to transfer power to the inside rear wheel.

#### Slippery Road

Under slick conditions, SH-AWD® is designed to actively send power to the wheel with the most traction.

#### Highway Cruise

To help with fuel efficiency, up to 90 percent of the power is sent to the front wheels when cruising in a straight line.

# SH-AWD

DESIGNED TO

# PROTECT

LIKE IT PERFORMS

MDX drivers and passengers are surrounded by an extensive number of both standard safety features and available innovative Acura safety technologies, further enhancing the driving experience through greater peace of mind.

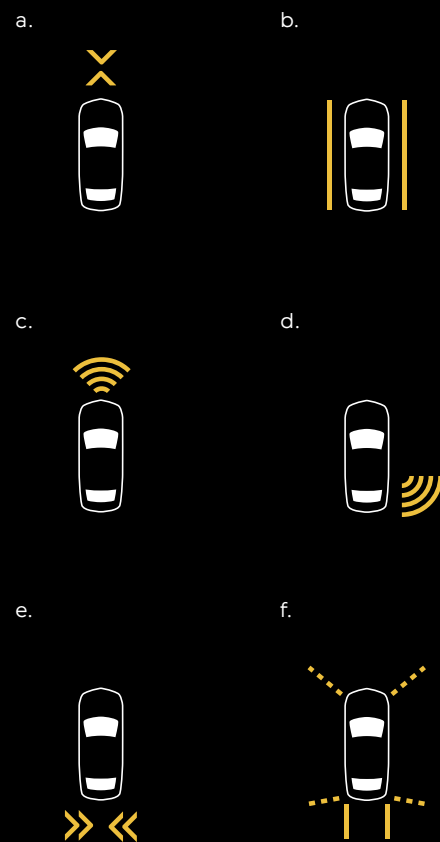

## AcuraWatch™

AcuraWatch™ combines a network of next-level sensing technologies designed to increase awareness and support the driver, working to help mitigate and in some cases even avoid impacts. Sensors are designed to continuously monitor the vehicle's surroundings and can recognize not only vehicles, but also the shapes of motorcyclists and pedestrians—even certain-shaped shrubbery and mailboxes. AcuraWatch™ can warn of potential threats, provide steering input to help keep you in the centre of a detected lane, apply brake pressure to help maintain a set interval from the vehicle detected directly ahead, and emergency-brake in some cases to help avoid or mitigate the risks of frontal collisions.

In addition, the available surround view camera system<sup>2</sup> gives you a 360-degree view of the space around the MDX.<sup>1</sup> With six unique camera views, parking sensor information and dynamic guidelines that show your expected path, you'll feel even more connected to your surroundings.

- a. Forward Collision Warning (FCW) system<sup>2</sup>  
Collision Mitigation Braking System™<sup>2</sup> (CMBS®)
- b. Lane Departure Warning (LDW) system<sup>2</sup>  
Lane Keeping Assist System<sup>2</sup> (LKAS)  
Road Departure Mitigation (RDM™) system<sup>2</sup>
- c. Adaptive Cruise Control (ACC) with Low-Speed Follow<sup>2</sup> (LSF)
- d. Available Blind Spot Information (BSI) system<sup>2</sup>
- e. Available Cross Traffic Monitor system<sup>2</sup>
- f. Multi-angle rearview camera<sup>2</sup> with dynamic guidelines  
Available surround view camera system<sup>2</sup>

<sup>1</sup>When travelling at speeds of 12 km/h or less.

AT OUR  
BEST  
WHEN IT  
MATTERS  
MOST

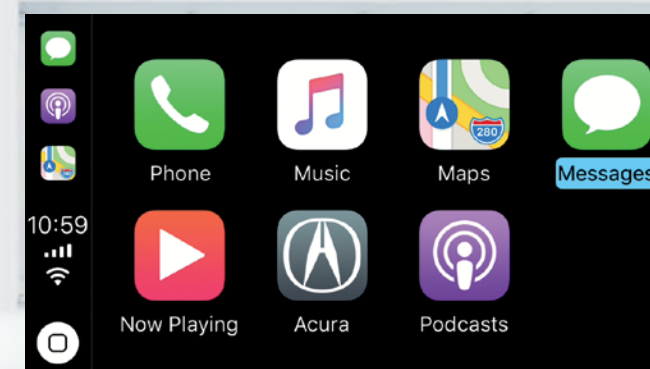

#### ADVANCED COMPATIBILITY ENGINEERING™

The safest collision is the one you avoid. That's reason enough to consider the high-performance MDX with standard AcuraWatch™ advanced safety and driver-assistance technology. However, some accidents are unavoidable. That's why Acura's next-generation Advanced Compatibility Engineering™ (ACE™) body structure was designed to absorb and disperse frontal impact energy more evenly around the vehicle, so less of it transfers to what really matters: the vehicle's occupants. Moreover, frontal crash compatibility is designed into the structure, so in the event of a collision with a smaller or larger vehicle, the occupants of both vehicles, not just those in the Acura, are better protected. But we didn't stop there. We innovated the structure around the doors, making them four to five times stronger than traditional-grade automotive steel, through laser welding, hot stamping, and the use of ultra-high-strength steel, all to improve cabin strength and help to reduce the effects of an impact.

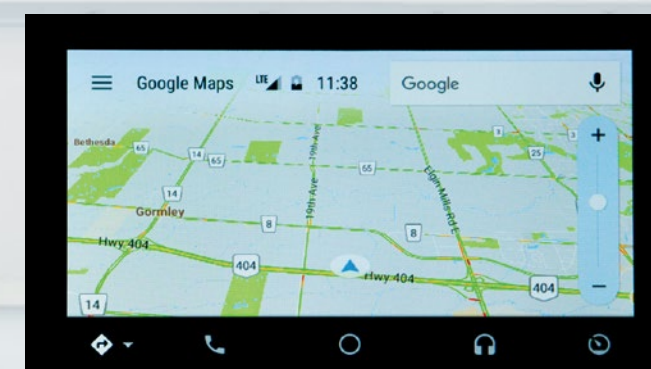

The MDX supports both Apple CarPlay™<sup>2,4</sup> and Android Auto™<sup>2,4</sup> helping to keep you connected to your compatible smartphone, including maps, texts, emails, music and more, all seamlessly integrated into your MDX's touchscreen display, so you can stay focused on the road.

#### APPLE CARPLAY™

Place the power of your iPhone® in your dash with Apple CarPlay.™ A redesigned OS seamlessly integrates your compatible iPhone with the car's built-in display and controls, so you can make calls, access your music, send and receive messages, get directions or seamlessly tap into the power of Siri® with the press of a button.

#### ANDROID AUTO™

Android Auto™ brings the Android experience to your car by projecting some of your favourite apps and services right into the MDX's touchscreen display, and it's highlighted by an intuitive interface that populates suggested directions, upcoming appointments and weather conditions, to name a few. The powerful new Talk to Google voice feature allows you to access directions via Google Maps, send and receive text messages and access your favourite music, providing an easier way to get the information you need, when you need it.

# CONNECTED

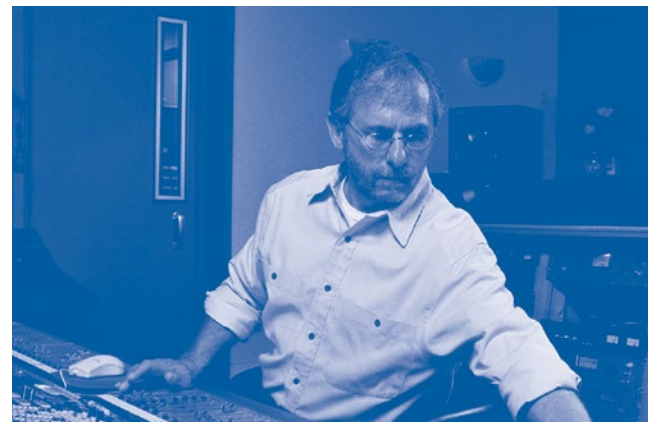

## ELS STUDIO® PREMIUM AUDIO SYSTEM

To build something truly remarkable, you need to work with the best, which is why we collaborated with eight-time Grammy award®-winner Elliot Scheiner to create the critically acclaimed available ELS Studio® Premium Audio System. Whether you're listening over the airwaves, streaming digitally, or enjoying your own music library, ELS Studio® was designed to produce music as it's meant to be heard, so even the most familiar tunes will become a whole new listening experience. The result is an exceptional combination of engineering and artistry, and it's totally unique to Acura.

"Acura cares, unlike some other providers that put systems in automobiles. Others come from a scientific background, meaning they tune using numbers and charts. Not ears. That's not what music is about, and it is the key to why the ELS Studio systems are so highly regarded."  
—Elliot Scheiner

## AcuraLink

It's not enough to simply be connected anymore; we need tools that work harder for us. Available AcuraLink™<sup>2,4,8</sup> is designed to seamlessly connect you to the information and assistance you demand. Find nearby restaurants and points of interest while driving with the assurance of AcuraLink™ Assist services. Concierge Link puts personal assistants at your fingertips, so you can purchase airline tickets, book a hotel, or make dinner reservations, helping to ensure that all your journeys go off stress-free.

If traffic backs up, AcuraLink™ Real-Time Traffic™ with Traffic Rerouting™<sup>2</sup> helps to pull available highway and surface-street information, including traffic flow, incidents and construction, and can thoughtfully reroute you for a faster commute.

## ACCESSORIES

Choose from an array of Acura Genuine Accessories that give you the practical luxuries and advanced styling that will bring you together with your machine.

### PACKAGES

#### CANADIAN ULTIMATE PACKAGE

All-season floor mats, high wall (Includes 1st, 2nd and 3rd row mats)  
Cargo tray, folding  
Cargo cover  
20" Alloy Wheel – Black  
Illuminated door sill trim  
Trailer hitch  
Trailer hitch harness  
Roof rack rails  
Roof rack crossbars

#### PROTECTION PACKAGE – ADVANCE

All-season floor mats, high wall (Includes 1st, 2nd and 3rd row mats)  
Cargo tray, folding

#### UTILITY PACKAGE

Running boards, advance  
Roof rack rails

#### SPORT LUXURY PACKAGE

Roof rack rails  
Running boards, advance  
LED fog lights

#### PLATINUM PACKAGE

20" Alloy wheel – SBC  
Running boards, advance  
Roof rack rails  
Roof rack crossbars

#### TOWING PACKAGE

Trailer hitch  
Trailer hitch harness

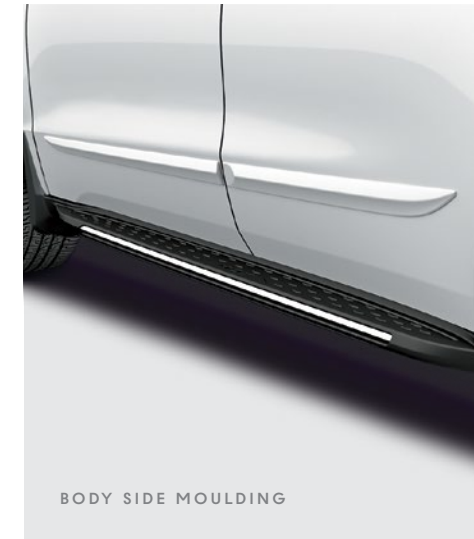

### ADDITIONAL ACCESSORIES AVAILABLE

Ashtray, cup-holder style  
Cargo liner  
Cargo net  
Door edge film  
Door edge guards  
Engine block heater  
Moonroof visor  
Paint pen  
Parking sensors  
Rear bumper appliqué  
Rear bumper protector, metal  
Rear seat cover, 2nd-row  
Roof rack, bike attachment  
Roof rack, box short  
Roof rack, ski attachment  
Roof rack, snowboard attachment

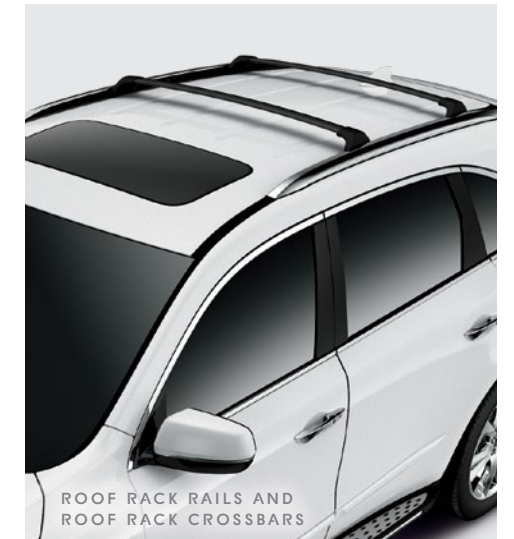

Running boards, advance  
Running boards, rear step  
Trailer hitch ball, 1 7/8" or 2"  
Trailer hitch bike attachment  
Trailer hitch locking pin  
Wheel locks

**MDX Sport Hybrid specifications will be available online at [acura.ca/MDX](http://acura.ca/MDX) in Fall 2018.**

- Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.
- None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For more comprehensive product and feature information, limitations and restrictions, please visit [www.acura.ca/disclaimers](http://www.acura.ca/disclaimers) and refer to your vehicle's Owner's Manual.
- For optimal tire wear and performance, the pressure should be checked regularly with a tire gauge. Do not rely solely on the monitor system.
- Only compatible with certain devices and operating systems. Operation may be dependent upon: 1. GPS satellite signal reception and available cellular data and/or voice connection; or 2. connection to vehicle's built-in Wi-Fi hotspot, if applicable. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.
- Map Database of the Acura Navigation System covers major metropolitan areas in Canada and the 48 contiguous U.S. states. For a list of current, detailed coverage areas, refer to the Acura website, [www.acura.ca](http://www.acura.ca).
- HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).
- New vehicles are equipped with a complimentary time or data trial period, whichever comes first. After the trial period, contact AT&T to purchase available data plans. 4G LTE connection speeds may vary by region.
- Subscription required. Complimentary trial – 4 years for Security, 90 days for Remote, 90 days for Concierge – included, after which fees, taxes and other charges will apply in order to continue subscription. The availability of certain cellular networks is required for AcuraLink to operate properly. Service interruptions may occur and/or vehicle system upgrades may be required if cellular network availability is compromised. Ask your dealer for full terms and conditions.
- Only available in certain areas. Includes a no-charge trial of three months.
- Estimated fuel consumption based on Government of Canada's 5-cycle testing method. Your actual fuel consumption will vary based on driving habits and other factors – use for comparison only. For more information on 5-cycle testing, visit <http://vehicles.nrcan.gc.ca>.
- Based on SAE J1100 cargo volume measurement standard.
- Based on SAE J1100 cargo volume measurement standard, plus rear footwell space and front seats moved forward.
