A6

Introduction

The new Audi A6. Highly Evolved.

As well as striking exterior features like 17" alloy wheels and sharply contoured Xenon headlights, the Audi A6 also incorporates interior features such as SD card based Satellite Navigation, heated leather seats and front and rear acoustic parking.

The A6 also includes a range of new, optional technologies designed to help you behind the wheel. These include Audi Matrix LED headlights, which adapt automatically to the car's surroundings, Audi Connect - that lets you and your passengers access the internet on the move and our top of the range MMI Satellite Navigation Plus, which includes picture book navigation and MMI touchpad.

Read on to see everything the Audi A6 has to offer.

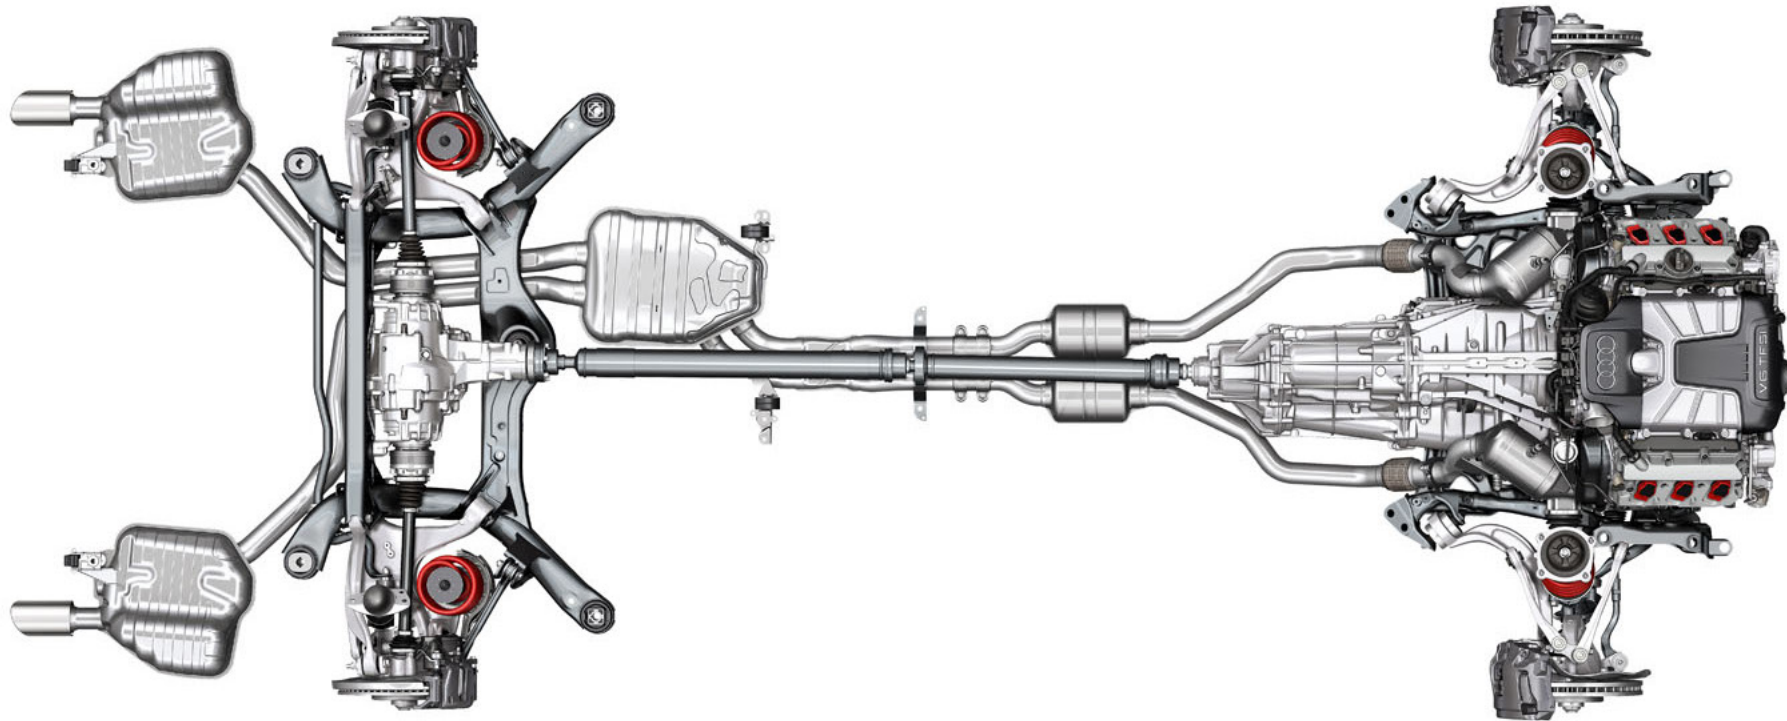

This guide has been designed to help you tailor and price your Audi A6 quickly and logically.

Audi Ireland has made every effort to ensure the accuracy of this information but does not accept any liability for errors. You can also configure your Audi A6 online at audi.ie

The advantage of quattro®

It's the technology that has given Audi the edge on the racetrack ever since it was first introduced over 30 years ago – a technology that delivers ultimate control whilst enhancing the sporty characteristics which make the A6 so thrilling to drive.

Click the target below for more information on quattro

It's called quattro® permanent all-wheel drive. The principle is simple: in the same way that four brakes ensure better deceleration, four permanently-driven wheels deliver better acceleration and road-holding, pushing or pulling the car as needed, for a driving experience that's both dynamic and safe. In the A6, asymmetric dynamic torque distribution continuously distributes drive power between the front and rear axles, depending on weather conditions, road surface and gradient. This leads to greater flexibility and an enhanced, sportier drive.

quattro® with Sports differential

The optional electronically regulated Sports differential distributes variable amounts of drive force to each rear wheel, ensuring outstanding acceleration performance in corners and stabilising the vehicle's response to load change. It also brings better direct steering characteristics and, as it requires less steering effort, more agile handling.

Audi Exclusive

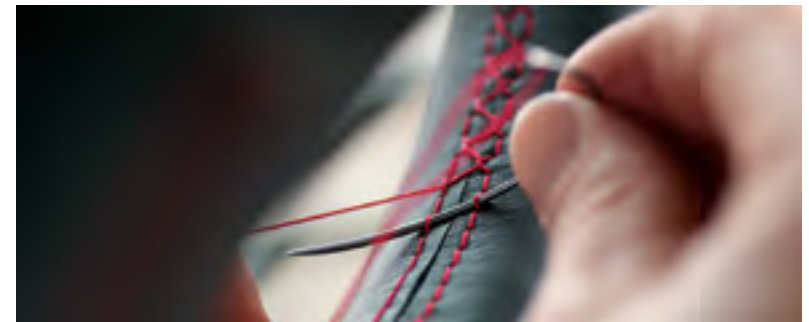

Comfort seats in Audi exclusive leather (Package 2) in Alabaster white and Chesnut brown. Audi exclusive inlays shown in oak sepia

Audi Exclusive

Every Audi is intrinsically exclusive. It's the breathtaking design, the exceptional engineering, the Vorsprung durch Technik. But for that special touch you can specify your new A6 with options from Audi exclusive. Whether you want a unique, custom-mixed paint colour or seats in a combination of complementary shades, Audi exclusive will enable you to drive the car you've always imagined. Both the exclusive and standard options can be found in this Product Guide

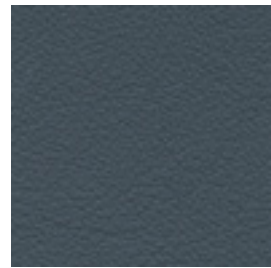

Audi Exclusive

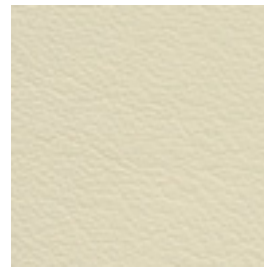

Upholstery

With Audi exclusive, you can specify your seats in Valcona, Fine Nappa leather or a leather/Alcantara combination, in an array of different colours shown to the right.

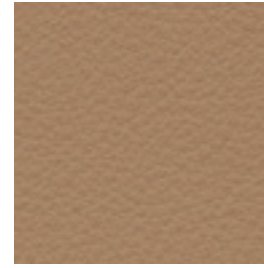

Select just one all-over shade for each seat, or customise each panel in two or more complementary colours from the distinctive Audi exclusive palette. You can even choose the colour of the decorative stitching – to match or contrast with your chosen upholstery – from this varied collection. Whatever combination you decide upon, we think you'll be extremely comfortable with the result.
