WELCOME TO HOGUE INC.

Welcome to Hogue, Inc., a family owned and operated manufacturer of fine firearm and knife products. For over fifty years, we have proudly remained true to the ideals of quality manufacturing that Guy Hogue founded back in 1968.

Fit, function, superior performance and old-world craftsmanship coupled with world-class design are hallmarks of the Hogue name. Every Hogue product is produced under the direct supervision of the Hogue family. When you purchase a Hogue product, you are assured the finest materials and the world's best manufacturing practices are used to create products that will improve your shooting experience whether in sporting or duty use.

The full range of Hogue products give the tactical advantage to perform at your absolute best and are the first choice of law enforcement, competitive shooters, hunters and firearm manufacturers worldwide.

A FAMILY OWNED & OPERATED BUSINESS

The Hogue Companies are owned and operated by Aaron Hogue, Patrick Hogue, Jim Bruhns and Neil Hogue. We are a family business and treat our customers as such. Our business philosophy is one of perfection and customer satisfaction. For this reason, we promise to do our utmost to provide you with the finest products possible and guarantee to stand behind each and every one of them. We will do everything within reason to ensure a happy customer. We have an excellent reputation and we intend to keep it.

PATRICK HOGUE

NEIL HOGUE

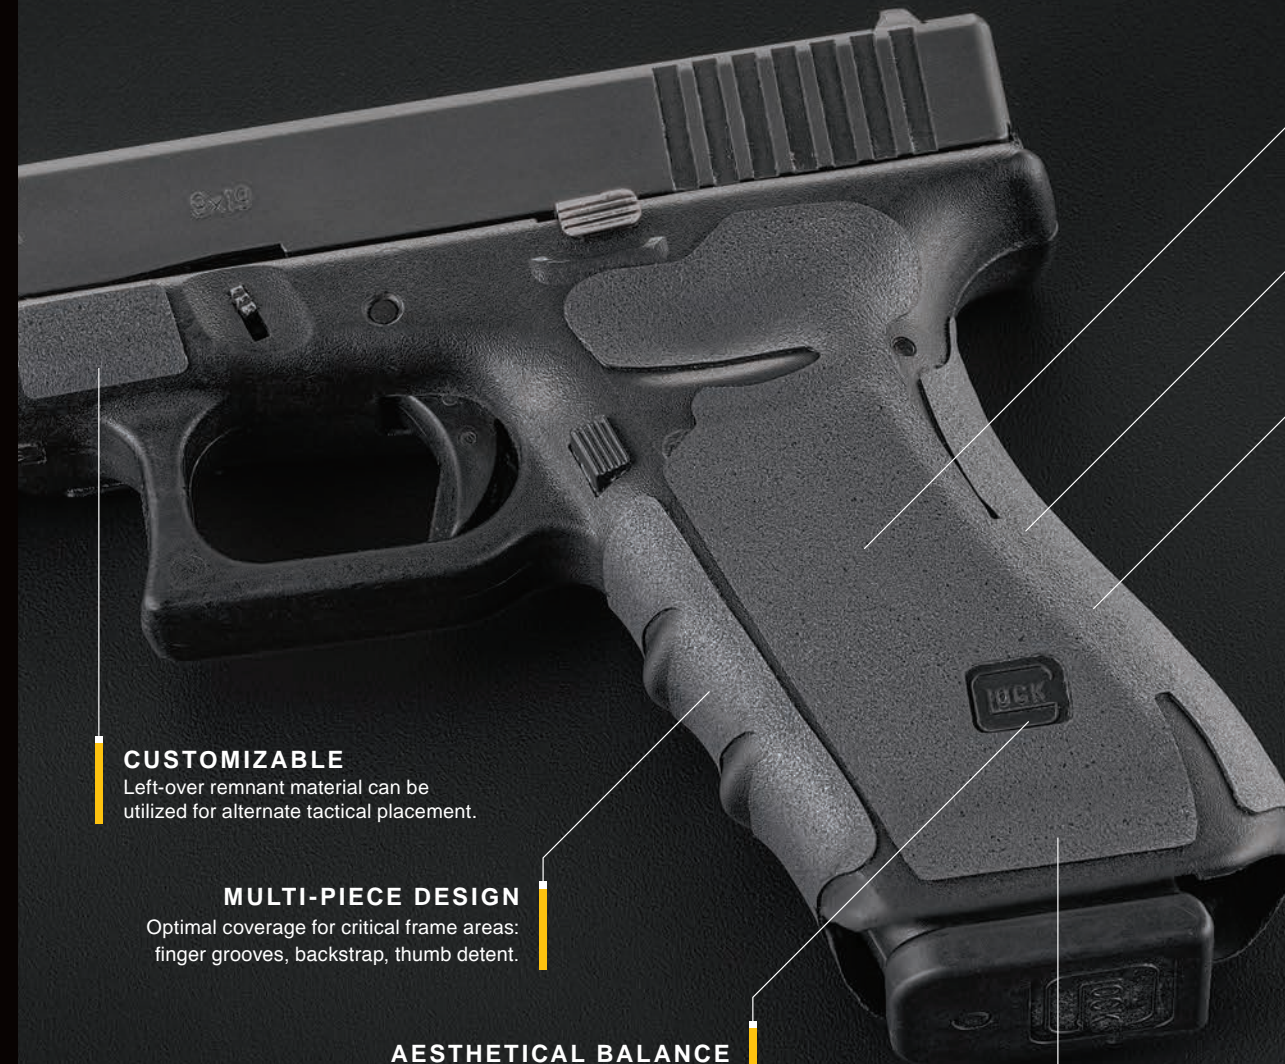

AARON HOGUE

JIM BRUHNS

WE PROUDLY THANK OUR CUSTOMERS FOR MAKING HOGUE THE TOP CHOICE FOR QUALITY PRODUCTS FOR OVER 50 YEARS.

WRAPTER

ADHESIVE FIREARM GRIPS

RENOWNED RUBBER FEEL

Engineered to emulate Hogue's classic soft rubber consistency. (Heavy grit alternative available for all models)

STREAMLINED FIT

Designed to conform to the exact contours of your firearm's frame.

DURABLE ADHESIVE

Heat activated adhesive delivers reliable bond with polymer, wood and metals.

DO IT YOURSELF OPTION

D.I.Y. adhesive sheet also available for custom applications.

CUSTOMIZABLE

Left-over remnant material can be utilized for alternate tactical placement.

MULTI-PIECE DESIGN

Optimal coverage for critical frame areas: finger grooves, backstrap, thumb detent.

AESTHETICAL BALANCE

Accommodates logos and frame features.

ULTRA THIN PROFILE

30% thinner than a credit card.

HOGUEINC.COM/GRIPS/WRAPTER

Find your connection with our expansive range of unique colors and materials, engineered for precision fitments.

OVERMOLDED® RUBBER

- + Hogue's famed orthopedic hand-shape with compound palm swells and proportioned finger grooves position the hand naturally
- + Reinforcing insert directly engages with the firearm frame for a rock-solid grip-to-frame fit
- + Cobblestone™ texture provides an efficient non-slip, non-irritating stippling pattern
- + Molded from durable rubber which is virtually impervious to all oils and solvents found around firearms

EXOTIC HARDWOOD

- + One-of-a-kind, heirloom quality pieces of Hogue family history
- + Ergonomically designed to achieve the firearm's optimum finger to trigger reach
- + Hand-finished to checkered or smooth polished finish using 100% Carnauba wax
- + Nine varieties of hardwoods to choose from, each with their own unique grain and coloring

G10 & ALUMINUM

- + G10 is comprised of layers of fiberglass and epoxy resin pressed together under enormous pressure and heat, resulting in light-weight, yet incredibly strong material
- + Excellent thermal properties – never too hot or cold to the touch
- + Patented G-Mascus® G10 material mimics the unique characteristics of Damascus steel
- + Aluminum is machined from aerospace grade 6061-T6 aluminum and hard coat anodized
- + Designed for a lifetime of use and impervious to all firearm related oils and chemicals

POLYMER & SCRIMSHAW

- + Enhance your firearm with a unique pearlized look in our black, white or pink variations
- + Our smooth ivory polymer grips offer a classic feel to your firearm, while our scrimshaw ivory panels are laser engraved with traditional designs
- + Hand-finished for a brilliant shine (no sprayed-on finish that cracks or peels off with use)

COWBOY ACTION

- + Traditional two-piece design that follows the frame straps for an authentic look and feel
- + Produced in choice selection of exotic hardwoods, white and black Micarta®, white and black pearlized polymer, ebony, fancy walnut and plain or scrimshaw ivory polymer
- + Hand-finished for a brilliant shine (no sprayed-on finish that cracks or peels off with use)

LASER ENHANCED GRIPS

The combination of our expert history in precision grip manufacturing with modern laser technology has resulted in a superior patented laser enhanced grip with all of the Hogue grip features you have come to expect.

PICTURED:
1911 Government Model
Green Laser Enhanced
G-Mascus® Green G10 Grip

1911 MODELS
1911 Models are wrap-around grips screwed directly onto firearm frame

REVOLVER MODELS
Revolver models utilize frame plates which are fastened to the frame with the grip fitting over the plates

SIGHTING
Hogue LE Grips do not require resighting with battery changes

1911 MAGRIP KITS

Hogue Magrip Kits come with a set of precision matched grip panels and a matching mainspring housing. When mounted on your 1911, the unique design of the grip panels and mainspring housing creates an integrated magwell. Magrip Kits are available in aluminum and G10 materials and in a variety of colors and textures for 1911s.

Techwell™ / S&A® Magwell Grips

We offer 1911 grips to fit both S&A Magwell systems and Techwell magazine funnels. These mag systems have been designed to provide the shooter with swift magazine changes and our Techwell/S&A Magwell Grips are compatible with them both. For the S&A Magwell, our grips have been flat cut at the bottom to sit flush with the Magwell. For the Techwell mag funnels, the inside of the grip has machined inletting to secure the mag funnels in place. Our S&A and Techwell grips are available in our standard lines of G10, wood and aluminum.

SCREWS & BUSHINGS

Hogue grip screws are manufactured from heat treated 416 stainless steel which is much tougher and resistant to damage than conventional screws. Most standard screws twist off or strip out at a much lower torque. Our grip screws are custom machined specialty screws available in either slotted or Allen (hex).

ARS™
Automatic Retention System
Secures firearm when holstered; retention is released by natural thumb depression on release lever with standard shooting grip on firearm

METHODICAL DESIGN
Contoured profile fits closely to the body reducing "firearm printing"

APPLICATION VARIETY
Available to fit many popular semi-automatic and revolver models

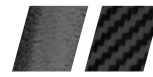

SECURE & DISCREET
Automatic retention lock remains completely concealed behind holster and firearm during wear providing an extra level of security

PICTURED:
GLOCK 19 with
HandALL Universal Grip Sleeve
and Black Polymer Carry Holster

OFFERINGS

- + Solid black or carbon fiber aerospace polymer
- + Automatic Retention System secures firear when holstered
- + Various hip plate and belt plate options
- + Molded to match features of specific firearms for professional, sleek look
- + Contoured profile fits close to the body reducing "firearm printing"

ALUMINUM PILLAR BEDDING

Hogue stocks come with an aluminum pillar bedding. These pillars, inserted at critical action mounting bolt locations, guarantee an accurate, rock-solid action fit that will not shoot loose.

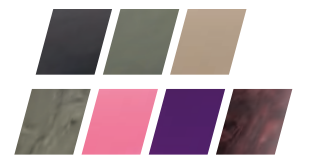

FULL LENGTH ALUMINUM BED BLOCK

For the absolute in accuracy, Hogue stocks are optionally available with a precision machined, full length bedding block molded into the stock. This aluminum block completely surrounds the action and extends full-length into the forend, guaranteeing the ultimate in accuracy potential.

RECOIL PADS

Hogue EZG™ and pre-sized recoil pads are made with an exclusive recoil reducing cushioned elastomer bonded to a super rigid polymer alloy base plate. They feature computer designed internal cushion construction combined with a soft elastomer for the ultimate in recoil cushioning and control.

Our pre-sized pads are molded and pre-ground to fit most common rifles and shotguns within .05 inch for easy do-it-yourself installation, eliminating the need for custom grinding to fit.

EZ Grind pads are available in three sizes and are designed to be ground to fit using standard disk or belt sanders. The sizing chart for our EZ Grind pads is available on our website.

TACTICAL RIFLE CATALOG
Hogue AR components are featured in their own catalog which can be requested or viewed at Hogueinc.com.

MADE IN THE USA

PICTURED:
AR-15 3-Piece Kit
Includes: Ghillie® Green Beavertail Grip, Collapsible Buttstock and Rifle Length Forend with Accessory Attachments

BUTTSTOCKS
Anti-rattle OverMolded® collapsible buttstocks are manufactured to either Mil-Spec or commercial sized tolerances (features beard-safe cheek rest)

COLOR OPTIONS
Available in nine popular OverMolded rubber selections

FORENDS & EXTENSION TUBES
Complete line of OverMolded and knurled aluminum forends, as well as extension tubes, designed to free float on barrel providing maximum accuracy and comfort

FREEDOM FIGHTER
Fixed magazine solution that blocks the magazine release until the rear pin is removed and the upper receiver is lifted away from the lower receiver

TRIGGER GUARDS
G10 and polymer trigger guards with straight and contoured variations

TACTICAL GRIPS
Rubber, G10 and polymer grips designed to retain the important lines and aesthetics of tactical rifles

Strategic upgrades to your rifle featuring Hogue's renowned grip textures and ergonomics coupled with versatility in design.

HOGUE GEAR
A full line of rifle bags have been thoughtfully constructed to protect and transport your tactical rifle and components (see page 42)

TACTICAL

AR-15 / M16 KITS

For ease in customizing your AR rifle with Hogue OverMolded® rubber tactical components, we have assembled our popular pieces into cost-saving 2-piece and 3-piece kit offerings. The 2-piece kit is available for Mil-Spec and Commercial sized buffer tubes. The 3-piece kit includes everything needed for a Mil-Spec build, including our custom designed Black Gun Wrench for assembly.

2-PIECE KIT

- 1: A finger grooved beavertail rubber grip
- 2: Either a Mil-Spec or commercial sized OverMolded collapsible buttstock (does not include buffer tube)

3-PIECE KIT

- 1: A finger grooved beavertail rubber grip
- 2: A collapsible buttstock including a Mil-Spec buffer tube and hardware
- 3: An OverMolded rubber rifle-length forend with accessory attachments (see right)

AR-15 / M16 BUTTSTOCKS

Hogue OverMolded® collapsible buttstocks are manufactured to either Mil-Spec tolerances or a Commercial sized fit. The fixed buttstock fits standard A2 non-collapsible buffer tubes. Our patented OverMolded technology has resulted in buttstock models that provide the best beard-safe rubber friction fit protection against rattle movement. All of our buttstocks feature reinforced lightweight polymer construction and a rubber/polymer hybrid butt pad for snag-free shouldering.

AR-15 / M16 FORENDS & EXTENSIONS

Our free floating forends and forend extensions are constructed with 6061-T6 aluminum, and are hard type III anodized according to military specifications. Free floating the forend tube enhances accuracy by allowing the barrel to whip freely and consistently.

Most models have a non-slip OverMolded® rubber gripping area that insulates your hand from the heat and shock generated by rapid fire. Select models come with a complete collection of mounting accessories making our forends the perfect comfortable alternative to bulky quad-rail systems.

Combined length 10". 16" barrel.

4.5" Extension (2) on Carbine Length Forend (5)
Combined length 11.5". 16" barrel.

8" Extension (3) on Carbine Length Forend (5)
Combined length 15". 18" barrel.

9.5" Extension (4) on Carbine Length Forend (5)
Combined length 16.5". 20" barrel.

RIFLE LENGTH FOREND

Rifle Length Forend with Accessories (7)
Length 12.5". 16" barrel.

Rifle Length Forend (8)
Length 12.5". 18" barrel.

All builds covering the gas block will require installation of a low-profile gas block to fit beneath the forend.

- 1: 3" Extension
- 2: 4.5" Extension
- 3: 8" Extension
- 4: 9.5" Extension
- 5: Carbine Length Forend
- 6: Mid-Length Forend
- 7: Rifle Length Forend
- 8: Rifle Length Forend with Accessories
- 9: Extended Length Forend with Accessories

MID-LENGTH FOREND

Mid-Length Forend (6)
Length 9". 16" barrel.

3" Extension (1) on Mid-Length Forend (6)
Combined length 12". 16" barrel.

4.5" Extension (2) on Mid-Length Forend (6)
Combined length 13.5". 16" barrel.

8" Extension (3) on Mid-Length Forend (6)
Combined length 17". 20" barrel.

EXTENDED LENGTH FOREND

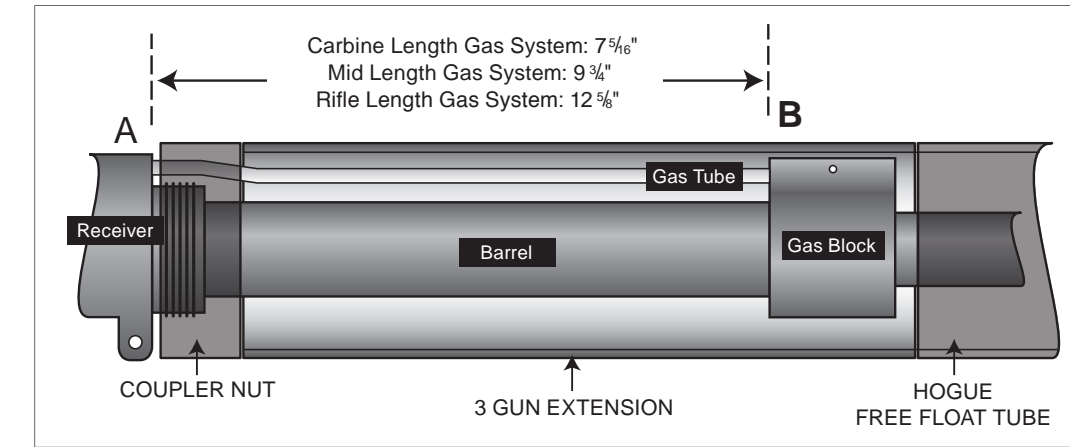

Extended Length Forend with Accessories (9)
Length 15". 18" barrel.

AR-10 COMPATIBILITY

AR-10 Free Float Forend Couplers:
To fit Hogue forends on AR-10 rifles, simply remove the AR-15 coupler from your Hogue forend and replace with a Hogue AR-10 coupler.

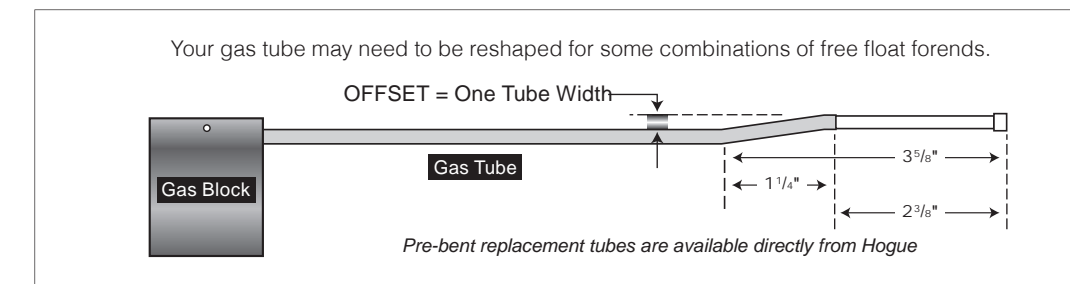

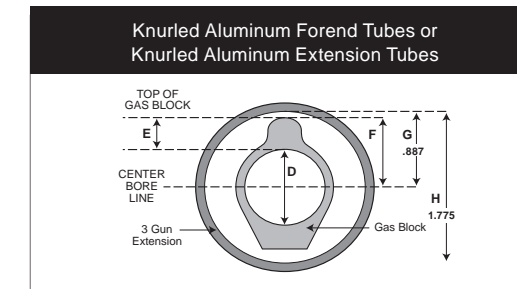

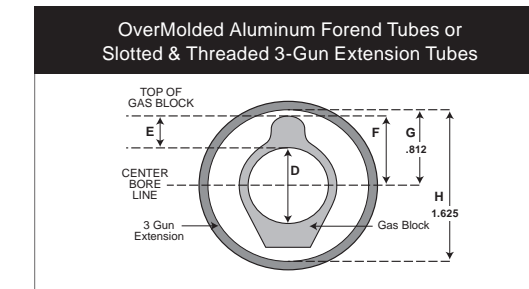

DPMS Thread: 16 threads per 1-7/16".
Armalite Thread: 18 threads per 1-7/16".

FOREND FIT GUIDE

Measure the distance between the Receiver (A) and the Gas Block (B). The listed dimensions are approximate due to differences in manufacturers' tolerances. Use the appropriate tube and extension combo for your rifle. Many other combinations are possible but may require gun-smithing. We recommend the DPMS Micro-Low Profile Gas Block available from Hogue.

D Barrel Diameter	F Center of Bore to Top of Gas Block	E Top of BBL to Top of Gas Block
.750 DPMS LOW PRO GAS BLOCK	.805	.430
.936 DPMS LOW PRO GAS BLOCK	.840	.380

GEAR

Pistol and rifle bags designed to safely transport your firearms, while withstanding the rigors of the field and range.

- PADDED HANDLES**
Reinforced and padded for extra comfort and durability during carry
- SHOULDER STRAPS**
Conveniently padded and adjustable, non-slip shoulder straps
- YKK ZIPPERS**
Large heavy-duty YKK zippers can lock to D-rings
- PARACORD**
Added to ends of zippers for ease of opening and closing
- REINFORCEMENTS**
Front and rear vinyl patches provide heavy duty muzzle and firearm protection
- D-RINGS**
Multiple locations across Hogue gear line enable a wide range of transport modes
- VELCRO POCKETS**
Expandable exterior Velcro pockets with pleated sides and large internal magazine pouches
- COLOR OPTIONS**
Available in Black, Olive Drab Green and Flat Dark Earth
- SINGLE & DOUBLE**
Rifle and pistol bags available in both single and double firearm options
- INTERNAL COMPOSITION**
Quilted non-tear brown suede lining and dense foam inside padding create the ultimate cushion during transport
- MAGAZINE POUCH**
Pistol bags available with optional removable magazine pouch
- INTEGRAL STITCHING**
Bar-tack and cross-stitched at critical stress points
