No compromises. The Audi TT.

//// Shaped as if cast from a single mould. Pared down to the bare essentials to create an icon. The design idiom of the Audi TT knows no compromise. Every line, every detail has a function. Pure design that embodies "Vorsprung durch Technik" at its best. Exuding confidence and strength of character all along the line.

Pure attraction.

//////////////////// The genes of Audi Sport models and the first Audi TT are clearly reflected in the Audi TT Coupé. Not only in the four rings on the bonnet, but also thanks to the uprated TFSI engines beneath it. Audi drive select is included as standard to deliver the performance you want – be that comfort on long journeys or masterful control of corners. For even more on-road dynamics, the 7-speed S tronic is available as an option. A sharper look has been achieved with design details that make you yearn to get started – details such as the striking radiator protective grille, the sporty front and rear aprons, the shaped side sills and the air inlets. This is what attraction looks like today.

The figures for fuel consumption and CO₂ emissions can be found on page 60.
Some of the equipment illustrated or described is optional equipment for which an extra charge is made.
Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

Great clarity.

//////////////////// The standard Audi virtual cockpit in the Audi TT Coupé is resolutely driver-focussed, displaying all relevant information on a 12.3-inch LCD screen directly in your field of view. The selector buttons on the multifunction steering wheel plus enable you to switch between various views. Or, if the optional sport displays are installed, to call up the output and torque display, the G meter and sport mode with central rev counter.

The figures for fuel consumption and CO₂ emissions can be found on page 60.

Unique character.

//////////////////// The timeless aesthetics of a roadster. The distinctive appeal of a sports car. Can there be anything that promises pure driving pleasure more convincingly? Experience the thrill of open-top driving in an exceptional car – the Audi TT Roadster.

The figures for fuel consumption and CO₂ emissions can be found on page 60.

Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

Self-assured presence.

////////// For a genuine sports car to set store by understatement is a brave move. But it's absolutely typical of every Audi TT. And the Audi TT Roadster is no exception, with technology and purity of design that speak for themselves. As is clear, for example, at the front end, which radiates sportiness and stylistic confidence in equal measure.

The figures for fuel consumption and CO₂ emissions can be found on page 60.
Some of the equipment illustrated or described is optional equipment for which an extra charge is made.
Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

Exceptional interior.

//////////////////// Make an exceptional vehicle even more exceptional. For the interior, the Audi design selection offers you a very exclusive range of materials and colours to choose from.

Fascinating *sportiness.*

//////////////////// The optional S line exterior package allows you to accentuate the true sports car character of your Audi TT – with impressive results. The characteristic radiator protective grille in titanium black, the specific bumpers – with distinctive air inlets at the front and side air outlets at the rear – together with the diffuser insert and sill trims all combine to create a strikingly sporty look.

Captivating details.

Take a deep breath and allow yourself to be captivated by equipment that takes the sports car feeling to the extreme. With the Audi TT S line competition, your adrenalin levels will soar into the red zone. This is assured by gloss black highlights such as the Audi Singleframe, exterior mirror housings, side air inlets and outlets, the fixed rear wing spoiler, the diffuser insert and sill trims, as well as by the Audi Sport cast aluminium wheels in 5-arm polygon design in gloss anthracite black with gloss turned finish^{1, 2}. Not forgetting the black chrome-plated exhaust tailpipes. Red painted brake callipers add the finishing touches at the rear, creating a look that sets pulses racing.

The figures for fuel consumption and CO₂ emissions can be found on page 60.

Some of the equipment illustrated or described is optional equipment for which an extra charge is made. Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment. Illustration shows Audi Sport forged aluminium wheels in 10-Y-spoke design in gloss black, gloss turned finish.

¹From Audi Sport GmbH. ²Please note the special information relating to wheels on page 61.

A blue Audi TTS Coupé is parked in a large, empty industrial garage. The garage has a high ceiling with a complex network of concrete beams and red-painted steel supports. Large windows on the upper level allow natural light to filter in, creating a dramatic atmosphere. The car is positioned in the middle ground, facing right. The floor is polished and reflects the surrounding environment.

Just
**breathe and
take it all in.**

You dare or you don't.

//// Four rings on the bonnet. A symbol of true sports car genes. And a promise to deliver phenomenal sporty performance. Call it up. At the press of a button. Awaken the pure power. And buckle up for the ride. 225 kilowatts of power propel the Audi TTS Coupé with S tronic from 0 to 100 km/h in 4.5 seconds. Acceleration that thrills.

Driven by all four wheels. **Fuelled by adrenaline**

//// Superlative performance even on tight corners. Controlled by TT-specific software, which manages the power distribution in the quattro permanent all-wheel drive with Haldex clutch, sending more of it to the rear. For even more driving stability. And for dynamic cornering that is the reserve of genuine sports cars.

The figures for fuel consumption and CO₂ emissions can be found on page 60.
Some of the equipment illustrated or described is optional equipment for which an extra charge is made.
Please contact your Audi partner or visit www.audi.com for detailed information about standard and optional equipment.

Pole position.

//// Dynamics that push you into your seat. Impressive. And comfortable. Thanks to the standard-fitted S sport seats with integrally moulded head restraint and S emblem. For the perfect seating position. And with electric and pneumatic adjustment as an option. Supportive side bolsters on the seat cushion and backrest provide excellent lateral hold. So that you can concentrate on what's important. The TTS sport contour leather steering wheel with multifunction plus and S contrasting stitching gives you confident control. And all the information you need is clearly displayed. In the innovative Audi virtual cockpit with TTS-specific design, central rev counter, output and torque display and G meter.

A faster thrill.

//// Sets your pulse racing. Right from first sight. The Audi TTS Roadster. With the top up or down – it's designed for pure driving pleasure. With the TT-specific quattro permanent all-wheel drive, you don't just drive along a route. You master it. What's more, Audi drive select and its dynamic mode let you adopt a very sporty driving style while doing so. Confidently. And with a poise that quickly inspires you to seek new horizons.

The adrenalin control centre.

//// Welcome to the cockpit. Awaiting you is the highly contoured S sport seat. With optionally adjustable seat side bolsters for personalised seating comfort. TTS sport contour leather steering wheel with multifunction plus and S contrasting stitching. Including shift paddles for quick gear changes with the standard 7-speed S tronic. Not to mention the innovative Audi virtual cockpit with TTS-specific looks and central rev counter and sport displays. The ultimate in high tech meets sports car ambience at its purest. The heart begins to race. Pause again for a moment. The calm before the storm. The Audi TTS Roadster is ready. Are you?

The figures for fuel consumption and CO₂ emissions can be found on page 60.

0 to 100 in 4.8 seconds.
Top down in 10.

//// Out in the open. In just 10 seconds. Driven by an unwillingness to compromise. The 2.0 litre, 225 kW TFSI engine accelerates from 0 to 100 km/h in 4.8 seconds. Thanks also to the standard S tronic 7-speed dual-clutch transmission. Switchable flaps in the exhaust system provide for an even richer, fuller sound. And for open-top driving as it should be.

More exhilarating.
With TTS competition.

//// The sport equipment for the Audi TTS Coupé and TTS Roadster. Featuring gloss black highlights including the Singleframe, exterior mirror housings, side air inlets and outlets, diffuser insert and fixed rear wing spoiler, plus Audi Sport forged aluminium wheels in 10-Y-spoke design in gloss black with gloss turned finish^{1,2}. Not forgetting the Alcantara leather steering wheel with 12 o'clock marker, privacy glazing and red painted brake callipers.

[] Figures in square brackets refer to S tronic.

Explanatory notes

- ¹ The figure given was calculated using the specified measuring procedure (current version of UN-R 85).
- ² Unladen vehicle weight includes driver (75 kg) and fuel tank 90 % full, calculated in accordance with the current version of Reg. (EU) 1230/2012. Optional equipment may increase the vehicle's unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.
- ³ Regulated.
- ⁴ We recommend using sulphur-free super unleaded RON 95 fuel complying with DIN EN 228. If this is not available, use sulphur-free regular unleaded RON 91 fuel complying with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10 % (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/EC.
- ⁵ We recommend using sulphur-free SuperPlus unleaded RON 98 fuel complying with DIN EN 228. If this is not available, use sulphur-free super unleaded RON 95 fuel complying with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10 % (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel complying with 692/2008/EC.
- ⁶ The specified fuel consumption and emission data have been determined according to the measurement procedures prescribed by law. Since 1 September 2017, certain new vehicles are already being type-approved according to the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test procedure for measuring fuel consumption and CO₂ emissions. Starting on 1 September 2018, the New European Driving Cycle (NEDC) will be replaced by the WLTP in stages. Owing to the more realistic test conditions, the fuel consumption and CO₂ emissions measured according to the WLTP will, in many cases, be higher than those measured according to the NEDC. For further information on the differences between the WLTP and NEDC, please visit our website. We are currently still required by law to state the NEDC figures. In the case of new vehicles which have been type-approved according to the WLTP, the NEDC figures are derived from the WLTP data. It is possible to specify the WLTP figures voluntarily in addition until such time as this is required by law. In cases where the NEDC figures are specified as value ranges, these do not refer to a particular individual vehicle and do not constitute part of the sales offering. They are intended exclusively as a means of comparison between different vehicle types. Additional equipment and accessories (e.g. attachments, different tyre formats, etc.) may change the relevant vehicle parameters, such as weight, rolling resistance and aerodynamics, and, in conjunction with weather and traffic conditions and individual driving style, may affect fuel consumption, electrical power consumption, CO₂ emissions and the performance figures for the vehicle.

Classifications of tyre parameters

The table shows the ranges of fuel efficiency, wet grip and exterior noise emission classes for the different tyre sizes of the Audi TT Coupé, TT Roadster, TTS Coupé and TTS Roadster.

	Tyre size	Fuel efficiency class	Wet grip class	Exterior noise emission class
Summer tyres	225/50 R 17	E–C	B–A	71 
	245/40 R 18	E	B–A	71–70 
	245/35 R 19	E	B–A	72–70 
Winter tyres	255/30 R 20	E	A	73 
	225/50 R 17	C	C	72 
	245/40 R 18	E	C	72 
All-season tyres	225/50 R 17	C	C	72 

It is not possible to order a specific tyre.

Ask your Audi partner about the range of tyres available in your country.

Important note

Special information about the wheels: Wheels with gloss turned or gloss milled finish as well as polished or partly polished aluminium wheels must not be used in wintry road conditions. For manufacturing reasons, the rim surface does not have sufficient corrosion protection for such use and can be damaged permanently by road salt or similar.

Legal notice about Audi Genuine Accessories

Audi Genuine Accessories are available from AUDI AG for an extra charge. Accessories are not factored in when calculating the vehicle's fuel consumption and emission figures. As such, accessories can be fitted only after initial registration.

Legal notice about Audi connect navigation & infotainment with customer's own SIM card

Use of the services supported by Audi connect is possible only in conjunction with an optional navigation system and Audi connect (including car phone – depending on the vehicle model). In addition, depending on the vehicle model, you will require a SIM card with data option and with LTE option to use LTE¹ – with car phone, a SIM card with telephone and data option or a Bluetooth-capable smartphone with remote SIM Access Profile (rSAP)². The services are available only with an existing or separate mobile phone contract and only within the range of the respective mobile phone network. Depending on the terms of your mobile phone contract, additional costs may be incurred when receiving data packets from the internet – particularly when used abroad. Due to the high data volumes involved, a data flat rate is strongly recommended.

The availability of the services supported by Audi connect navigation & infotainment varies from country to country. The services are generally provided for at least 1 year from vehicle delivery. If Audi connect services are based on services from third-party providers, permanent availability cannot be guaranteed as this is the responsibility of the third-party provider.

Following a period of 24 months from vehicle delivery, the Audi connect services will be extended once free of charge for 12 months. If you do not require this extension, please write to:

AUDI AG
Audi International Customer Care Services
85045 Ingolstadt, Germany
Email: kundenbetreuung@audi.de
Tel.: +49 800 28347378423

Ask your Audi partner about a subsequent extension of the Audi connect services. Depending on the vehicle model, Audi connect provides access to Google and Twitter services. Permanent availability cannot be guaranteed as this is the responsibility of Google and Twitter. Please visit www.audi.com/connect or contact your Audi partner for more detailed information about Audi connect; contact your mobile services provider for information about contract conditions.

Equipment for the Audi TT Coupé illustrated (p. 4–7):

Paint finish: floret silver, metallic
Wheels: 19-inch forged aluminium wheels in 5-arm star design, contrasting grey, partly polished³
Seats/seat upholstery: S sport seats, front in fine Nappa leather, black, with stitching in anthracite
