2018 MAZDA6 FACT SHEET

Re-engineered and refined for 2018, Mazda6 features many newly available technologies and premium features, including an available turbocharged SKYACTIV-G 2.5T engine and authentic materials like Deep Chestnut Nappa leather, UltraSuede® NU and Japanese Sen wood in its top-tier Signature trim level. Its all-new interior also include fully redesigned seats with high-density, vibration-absorbing urethane foam that help improve comfort and reduce fatigue. Underneath its sheet metal, Mazda6 has been rethought, using thicker steel in the floor for sound abatement, and its suspension has been completely re-engineered for better driving experience and greater refinement.

Starting MSRP: \$21,950¹

EPA - Estimated Fuel Economy (mpg)

	M/T - City / Hwy / Combined	A/T - City / Hwy / Combined
2.5 L Turbo		23 / 31 / 26
2.5 L	24 / 33 / 27	26 / 35 / 29

Quick Specs:

- New turbocharged SKYACTIV-G 2.5T engine**
 - 310 lb-ft torque at 2,000 rpm
 - 250 horsepower at 5,000 rpm (93 AKI)
 - 227 horsepower at 6,000 rpm (87 AKI)
- 2.5-liter four-cylinder SKYACTIV-G engine
 - 186 lb-ft torque at 4,000 rpm
 - 187 horsepower at 6,000 rpm
- Standard SKYACTIV-MT six-speed manual transmission (Mazda6 Sport only)
- Available SKYACTIV-DRIVE six-speed automatic transmission
- Standard G-Vectoring Control vehicle dynamics enhancements
- Standard cylinder-deactivation on SKYACTIV-G 2.5 with SKYACTIV-DRIVE six-speed automatic transmission
- New Grand Touring Reserve and Signature top trim levels

New Design Features for 2018:

- Standard LED headlights with integrated fog lamps
- Standard front and rear LED turn lamps
- New authentic interior materials: Nappa leather****, UltraSuede® NU****, Japanese Sen Wood****
- Newly available Soul Red Crystal exterior paint color
- New front grille design
- New 17-inch and 19-inch alloy wheel design

New Technology Highlights for 2018:

- Fully redesigned seats with high-density, vibration absorbing urethane foam
- New ventilated front seats***
- Standard dual automatic climate control (formerly Mazda6 Touring trim level and above)
- Standard MAZDA CONNECT™ infotainment system with 8-inch full-color touchscreen display
- New reconfigurable 7.0-inch TFT gauge display****
- New 360° View Monitor with front and rear parking sensors****
- Windshield-projected, full-color Active Driving Display***

Available i-ACTIVSENSE Safety Features:

- Smart City Brake Support, Mazda Radar Cruise Control with Stop & Go function, Lane Departure Warning with Lane-Keep Assist, Adaptive Front-lighting System

* Touring trim level and above

** Grand Touring trim level and above

*** Grand Touring Reserve trim level and above

**** Signature trim level

¹MSRP does not include \$890 for destination and delivery (\$935 in Alaska) or additional taxes or fees. Dealers set actual sale prices.

2018 MAZDA6 EXTERIOR

1	New front grille design (gunmetal shown****)
2	Newly available Soul Red Crystal exterior paint color
3	Power moonroof*
4	New 19-inch alloy wheel design* (silver finish shown***)
5	Standard LED headlights with integrated fog lamps
6	Heated side mirrors**
7	New front and rear parking sensors****

* Touring trim level and above
 ** Grand Touring trim level and above
 *** Grand Touring Reserve trim level and above
 **** Signature trim level

2018 MAZDA6 INTERIOR

1	Fully redesigned seats with high-density, vibration absorbing urethane foam
2	Heated and ventilated front seats***
3	Heated rear seats (not shown)***
4	Authentic interior materials:**** a - Nappa leather b - UltraSuede® NU c - Japanese Sen Wood
5	Standard MAZDA CONNECT™ infotainment system with 8-inch full-color touchscreen display
6	BOSE® 11-speaker surround sound system**
7	Heated steering wheel***

* Touring trim level and above
 ** Grand Touring trim level and above
 *** Grand Touring Reserve trim level and above
 **** Signature trim level

2018 MAZDA6 TECHNOLOGY

1	Newly available turbocharged SKYACTIV-G 2.5T engine**
2	New reconfigurable 7.0-inch TFT gauge display****
3	New 360° View Monitor****
4	Two rear USB inputs* (not shown)
5	Standard Smart City Brake Support automatic emergency braking
6	Full-speed Mazda Radar Cruise Control with Stop & Go function* (Option on Mazda6 Sport)
7	Windshield-projected, full-color Active Driving Display***

* Touring trim level and above

** Grand Touring trim level and above

*** Grand Touring Reserve trim level and above

**** Signature trim level

RE-ENGINEERED, REFINED 2018 MAZDA6

Cosmo. Luce. Millenia. CX-9 Signature. Mazda6.

These are but a small sample of the Mazda vehicles from the past 50 years that have embodied “Mazda Premium,” a set of guiding principles that complements the automaker’s human-centric design and engineering. Mazda uses these principles to build cars and crossover SUVs that compete in a class above, offering a depth of engagement with its owner that satisfies at every touch point. With vehicles like these, it is Mazda’s goal to enrich people’s lives through a car ownership experience that celebrates driving, and to become a brand with which customers feel a strong emotional connection.

“MAZDA’S GOAL TO ENRICH PEOPLE’S LIVES”

The re-engineered Mazda6 certainly delivers all of the above, elevating Mazda6 from its traditional competitive set into a higher class, with unparalleled craftsmanship, design and technologies for the driver who savors every moment behind the wheel. Yet, Mazda6 is also serene, thoroughly reworked underneath its sheet metal to deliver a refined experience befitting of a far more expensive car.

WHAT'S NEW?

The 2018 Mazda6 focuses its efforts on a revitalized elegance, passion and maturity. Mazda's design and engineering team has kept busy this year, refining the Mazda6 midsize sedan. The goal in crafting the new 2018 Mazda6 was to enhance Mazda's renowned driving performance with a quieter, more comfortable ride. The result is a compelling midsize sedan that can compete with others in its segment often found at much higher prices.

Here's an at-a-glance list of what's new about the 2018 Mazda6 (for a full list of changes, please see the spec deck on page 17):

- New Grand Touring Reserve and Signature top trim levels
- Newly available turbocharged SKYACTIV-G 2.5T engine on Grand Touring models and above
- Standard cylinder-deactivation on SKYACTIV-G 2.5 in Mazda6 Sport and Touring models with the automatic transmission
- Newly available Soul Red Crystal exterior paint color
- New interior with authentic interior materials on Signature models: Nappa leather, UltraSuede® NU and Japanese Sen Wood
- Fully redesigned seats with high-density, vibration absorbing urethane foam
- New ventilated front seats on Mazda6 Grand Touring Reserve models and above
- New reconfigurable 7.0-inch TFT gauge display on Signature models
- New 360° View Monitor with front and rear parking sensors on Signature models
- New front grille design on all models
- New 17- and 19-inch wheel designs
- Standard MAZDA CONNECT™ infotainment system with 8-inch full-color touchscreen display on all models
- Standard LED headlights with integrated fog lamps on all models
- Standard front and rear LED turn lamps on all models
- Frameless rearview mirror and overhead console LED courtesy lamps on Signature models
- Windshield wiper de-icer on Grand Touring Reserve models and above
- Smart City Brake Support is now standard on all models
- Smart Brake Support, Full-speed Mazda Radar Cruise Control with Stop & Go function and High Beam Control on Touring models and above
- Windshield-projected, full-color Active Driving Display on Grand Touring Reserve models and above
- Retuned suspension and chassis for improved performance and ride comfort

A SIGNATURE PATH FORWARD

The 2016 Mazda CX-9 three-row crossover SUV was a remarkable step for Mazda. It once again elevated Mazda, showing if Mazda built an SUV with superior driving dynamics, class-above refinement, an abundance of amenities, technology and a strong engine, customers would come. Approximately 55 percent of all Mazda CX-9 crossover SUVs sold in the U.S. from its launch in mid-2016 through the beginning of 2018 have been either high-level Grand Touring models or top-trim Signature models—an unusually high number. The Signature trim level has been well received, selling more than twice as well as expected, and attracting customers who are trading up from traditional luxury brands.

It was natural, then, that Mazda would follow this plan with its flagship sedan. Mazda6 has received improvements every year it has been on sale. Updates for the previous model year added more sound insulation throughout its cabin and available Nappa leather interior appointments. Mazda6 also received standard G-Vectoring Control, a Mazda-exclusive technology that makes steering response more direct and linear by using a minute reduction of engine torque at turn-in to put extra weight on the front tires. But simply adding Nappa leather and some new technologies does not a Signature model make.

Thus, Mazda6's chassis has also been thoroughly revised to provide a more supple ride, greater agility and dramatically improved NVH. Mazda6's Signature interior features authentic materials—Deep Chestnut Nappa leather whose color is inspired by the aged wood in ancient Japanese temples; UltraSuede® NU that is adorned with a subtle gold tint, using a similar technique to that which is used to make ornate kimonos; and Sen wood accents, a type of wood often used in taiko drums and Japanese furniture.

Perhaps the greatest upgrade of Mazda6 Signature is its source of motivation. Mazda's award-winning, SKYACTIV-G 2.5T gasoline turbo engine returns for its second application. The SKYACTIV-G 2.5T is an engine renowned for its nearly instantaneous, ample torque, courtesy of its Dynamic Pressure Turbo, which accelerates exhaust gasses through a tiny inlet to quickly spool up its turbocharger at low RPM before opening a larger secondary passage to use throughout the engine's operational range. The engine produces torque on par with a 4.0-liter V-8. Mazda6 was already a class favorite among discerning drivers. These latest upgrades launch Mazda6 above the mainstream sedan fray, changing the idea of what a midsize family sedan can and should be.

'MATURE ELEGANCE': A DESIGN VISION

Mazda's striking VISION COUPE concept that debuted at the 2017 Tokyo Motor Show portended a revitalized focus on elegance. Mazda6 carries a similar theme, called "Mature Elegance," creating an added level of sophistication to Mazda's KODO—Soul of Motion design language that complements its aspirational ambitions.

"A SENSE OF SUBTLE SOPHISTICATION"

Upfront is Mazda6's new grille, which accentuates a look of depth, with a strong framework, low center of gravity and wide stance. Its standard LED headlights integrate fog lamps and carry a crisp, wide lighting signature. Painted surfaces extend lower on the body, and new 17- and 19-inch wheel designs complement the upgraded appearance. Finally, Soul Red Crystal paint makes its debut on Mazda's sedan, joining Machine Gray Metallic and a full palette of available paint colors.

Inside, the interior is all-new, with only the steering wheel and small trim pieces carried over from its predecessor. Most noticeable is its horizontally stretched dashboard that accentuates Mazda6's width and belies a sense of subtle sophistication. On Mazda6 Signature models, Sen Wood, Nappa leather and UltraSuede® NU adorn the doors, seats and dashboard, providing an atmosphere that can coddle on Rodeo Drive just as easily as it can enliven spirited drives on Mulholland.

TECHNOLOGY APLENTY

Lest one thinks the new Mazda6 hasn't received the technology to match its upscale interior, there's more in store.

Mazda6's front seats have been fully redesigned. They are wider, with high-density, vibration-absorbing urethane foam that creates a firm, supportive seating surface. Yet, they're supple enough to keep the driver and passengers comfortable for long trips. Introducing next-generation seat materials and concepts, first seen at August 2017's Mazda Frankfurt Technology Forum, Mazda6's seats are designed to help keep front passengers' spines in the natural S-shape humans use when standing.

Available ventilated front seats in Mazda6 are a first for the brand, and wick away warm air from the front passenger and driver's backs to keep them cool. Rear seats have also been redesigned with high-density urethane foam, enabling greater comfort.

In addition to the seats, new technology comes by way of available features:

- 360° View Monitor in Mazda6 Signature
- A reconfigurable 7.0-inch TFT gauge display in Mazda6 Signature
- A new, standard 8.0-inch MAZDA CONNECT™ infotainment display with sharper color contrast
- Available full-speed Mazda Radar Cruise Control with Stop & Go
- Windshield wiper de-icer
- Windshield-projected Active Driving Display head-up unit

ENGINES TO SUIT CUSTOMERS' TASTES

Mazda6 offers two powertrain options in the U.S., starting with the torquey, fuel-efficient SKYACTIV-G 2.5 naturally aspirated engine. Mazda6's 2.5-liter, four-cylinder engine comes with a host of upgrades to reduce internal friction and improve efficiency across all RPM, and it adds a greater level of refinement.

A new Mazda-unique technology in North America is cylinder deactivation for the SKYACTIV-G 2.5 when equipped with the SKYACTIV-DRIVE six-speed automatic transmission. With cylinder-deactivation, the outside two cylinders can shut down when the vehicle is operated at steady speeds between 25 and 50 mph, but all four cylinders work instantaneously when needed for maximum performance. A centrifugal pendulum has been adopted in the torque converter of the six-speed SKYACTIV-DRIVE automatic transmission, counterbalancing any vibration that might otherwise be felt when running on two cylinders. The result is an imperceptible switchover between two- and four-cylinder modes, yet with very tangible real-world efficiency benefits.

Mazda6 Grand Touring and higher models come with Mazda's award-winning turbocharged SKYACTIV-G 2.5T engine. First available in the current-generation Mazda CX-9 midsize crossover SUV, the SKYACTIV-G 2.5T is a technological tour de force that produces 310 lb-ft of torque from just 2,000 RPM and 250 horsepower on 93-octane fuel (227 horsepower with 87-octane gasoline).

Mazda's industry-first Dynamic Pressure Turbo builds boost nearly instantaneously by using a small inlet port to force air into its turbocharger, akin to how water velocity increases when one holds his or her thumb over a hose. From there, a secondary valve can open up at higher RPM for increased airflow and maximum horsepower. A pulse-scavenging 4-3-1 manifold that prevents exhaust backpressure and helps the engine breathe freely.

Cooled exhaust gas recirculation (EGR) is used to reduce combustion temperatures, preventing knocking and therefore reducing the need for fuel-enrichment

ENGINES TO SUIT CUSTOMERS' TASTES - CONTINUED

(when extra fuel is dumped into the cylinders as a means to cool the engine). Many times when turbocharged engines fail to achieve EPA-estimated fuel-efficiency numbers in the real world, it is because laboratory tests don't replicate the higher-load driving styles that necessitate fuel-enrichment.

In too many instances, turbocharged engines are mated to continuously variable automatic transmissions (CVT), operating in a narrow band of efficiency, sacrificing a connectedness between driver and car—a valued characteristic of all Mazda vehicles called *Jinba Ittai*. Mazda's six-speed SKYACTIV-DRIVE automatic transmission, paired as standard to the SKYACTIV-G 2.5T engine, keeps its torque converter locked through

most of its operation, giving a more connected sense of controllability than many other automatic transmissions.

Both engines complement Mazda6, with the naturally aspirated engine serving as an all-around efficient, responsive powertrain and its turbocharged sibling amplifying the driving performance for which Mazdas are known.

Finally, as a champion of the manual transmission, Mazda6 will continue to offer the SKYACTIV-MT in entry Mazda6 Sport models, paired with the SKYACTIV-G 2.5 engine.

BUT WHAT'S AN ENGINE WITHOUT A CHASSIS?

In this latest round of thoughtful improvements, engineers have revisited every aspect of Mazda6's chassis, with its suspension offering a smoother, more linear ride quality and greater NVH refinement similar to the ultra-quiet CX-9. Its steering rack is now rigid-mounted to the chassis, offering greater steering response and feel, and its SKYACTIV-CHASSIS has been stiffened in complement with the revised suspension to offer both a smoother ride and to improve outright dynamic performance.

Enabling this more comfortable ride without compromising the Mazda6's handling, the suspension geometry has been revised, with roll-steer changes that promote more neutral handling.

Additionally, body reinforcements, thicker sheet metal in the rear wheel-wells, reinforced chassis bracing and even thicker suspension trailing link mounts help improve interior conversation sound quality, putting Mazda6 into rarified air when it comes to quietness, refinement and capabilities.

PACKAGING AND PRICING

Thoroughly re-engineered for 2018, Mazda6 is quieter, more comfortable, carries more standard and available features and even comes with a newly available engine option, the torquey, turbocharged SKYACTIV-G 2.5T.

Every detail has been rethought to polish and elevate Mazda6. Yet, Mazda6 doesn't betray its roots, still available with its six-speed SKYACTIV-MT manual transmission in the entry Mazda6 Sport model as well as an available, quick-shifting SKYACTIV-DRIVE six-speed automatic transmission with Sport Mode that recalibrates the transmission for more spirited driving.

Mazda6 Sport comes with an efficient SKYACTIV-G 2.5 engine, which enjoys a number of refinement upgrades for 2018. Smoother and quieter, the engine now produces 187 horsepower and 186 lb-ft of torque. When paired with its available automatic transmission, Mazda6's 2.5-liter engine comes standard with cylinder-deactivation technology, which shuts off its two outside cylinders in cruising conditions for even more efficiency. Mazda is the only automaker to employ this technology in a four-cylinder engine in North America.

Additionally, Mazda6 Sport comes standard with an electronic parking brake, cloth seats, a six-way manual driver's seat with lumbar support, dual-zone climate control, remote keyless entry, push-button start, a 60/40 split-folding rear seat, cruise control, 17-inch alloy wheels,

a six-speaker audio system, Bluetooth phone and audio pairing, MAZDA CONNECT™ infotainment system with Commander control knob and touchscreen control, rearview camera, a new eight-inch display screen, Blind Spot Monitoring and Rear Cross-Traffic Alert. Other newly standard features include LED headlights and tail lights and Smart City Brake Support, which automatically applies the brakes in emergency stops below 19 mph.

When paired with its available six-speed automatic transmission, Mazda6 Sport can be had with the i-ACTIVSENSE package, further adding Smart Brake Support, Lane-Departure Warning, adaptive Mazda Radar Cruise Control, Lane-Keep Assist, High Beam Control, automatic on/off headlights and rain-sensing windshield wipers.

Mazda6 Touring includes all of the convenience and safety features available in Mazda6 Sport but upgrades to leatherette seating surfaces, standard SKYACTIV-DRIVE six-speed automatic transmission, 19-inch alloy wheels, Advanced Keyless Entry and a six-way power driver's seat. Rear HVAC vents, heated front seats and a power moonroof complement the package.

Turbocharged motivation catapults Mazda6 Grand Touring, equipped with Mazda's SKYACTIV-G 2.5T, which can generate a robust 310 lb-ft of torque from just 2,000 RPM. It offers effortless performance, with power sent through

PACKAGING AND PRICING - CONTINUED

a SKYACTIV-DRIVE six-speed automatic that was developed specifically for high-torque applications. Power comes on nearly instantaneously, courtesy of its innovative Dynamic Pressure Turbocharger, which uses a small valve to create high boost pressure, akin to holding your thumb over the end of a garden hose. Once the engine is up to speed, a secondary valve opens up to allow more airflow through the turbocharger.

Mazda6 Grand Touring also adds an 11-speaker BOSE® Premium audio system, SiriusXM satellite radio with a four-month trial subscription, Mazda Navigation, an auto-dimming interior mirror, auto-dimming driver-side mirror, heated side mirrors and paddle shifters mounted on the steering wheel.

Further upping the ante, Mazda6 Grand Touring Reserve comes with black or Parchment leather-trimmed seats, a windshield-projected Active Driving Display with Traffic Sign Recognition, an eight-way power driver's seat, six-way power front passenger's seat, Adaptive Front-lighting System (AFS), bright silver alloy wheels, rear lip spoiler, windshield wipers de-icer, heated rear seats and a heated steering wheel. Mazda6 Grand Touring Reserve is also the entry point for Mazda's first-ever ventilated front seats, which wick hot air away from the driver and front passenger's backs to keep them cool.

The lineup is bookended with the new Mazda6 Signature, becoming the second Mazda model behind Mazda CX-9 to offer this aspirational trim level, replete with premium amenities. Mazda6 Signature is available with either Parchment or Deep Chestnut Nappa leather seating surfaces, Japanese Sen wood interior accents, gilded UltraSuede® NU whose coloring was inspired by Japanese kimonos, a new 360° View Monitor, front and rear parking sensors, a seven-inch TFT reconfigurable gauge display, frameless rearview mirror and a gunmetal-colored grille.

Thoroughly reworked underneath the sheet metal, Mazda6 integrates many of the learnings introduced in the CX-5 and CX-9 crossover SUVs and goes a step further to build an engaging, confident sedan that only Mazda could build, with as ample a presence at a valet on Rodeo Drive as the snaking roads of Mulholland Drive.

MSRP² for all 2018 Mazda6 models is as follows:

Model / Package	6MT	6AT
Sport	\$21,950	\$23,000
Sport i-ACTIVSENSE Package		\$625
Touring		\$25,700
Grand Touring		\$29,200
Grand Touring Reserve		\$31,270
Signature		\$34,750

Available Premium Paint Colors:

Soul Red Crystal	\$595
Machine Gray Metallic	\$300
Snowflake White Pearl Mica	\$200

IN PURSUIT OF PREMIUM

In pursuit of premium, an engine isn't enough. A chassis isn't enough. An elegant interior and world-renowned design aren't enough. Refinement and technology aren't enough.

But together, they complete what Mazda expects to be yet another step to elevate the brand beyond the realm of mainstream vehicles, offering a "Mazda Premium" experience that will delight customers. As with its predecessor, the new Mazda6 will land among the world's best cars, for those who love to drive. But it will aim higher, moving Mazda's consideration with customers to a new, class-above place, because Mazda never stops challenging.
