# KCA Committees

## Environmental Control and Safety Committee

The purpose of the Environmental Control and Safety Committee is to: Work with governmental agencies so that the Association will be consulted before any governmental regulations concerning air, water or noise pollution are modified or changed, which will affect the ready-mixed concrete industry in the areas of environmental quality and control. Act as a liaison between governmental agencies and the ready-mixed concrete industry in the areas of environmental quality and control.

## Executive Committee

The Officers and such other Directors appointed by the President shall serve as an Executive Committee and be authorized to conduct the affairs of the Association between sessions of the Board of Directors. The President and Vice President are members ex officio of all committees.

## Promotion Committee

The purpose of the Promotion Committee is to plan and coordinate the promotion of ready-mixed concrete in Kentucky. Work with regional promotion committees and support their activities.

## Quality & Specification Committee

The purpose of the Quality & Specifications Committee is to: Study methods, gather data, and promote techniques for a better quality of ready-mixed concrete; plan and coordinate the association's pre-certification school and work with the Department of Transportation and other specifying agencies developing concrete specifications.

**MORE SUSTAINABLE MATERIALS.  
MORE PERFORMANCE. MORE MULTISOURCE®**

Tired of waiting for fly ash from a single source? Get the responsive, reliable supply of fly ash and other advanced materials from the Charah® Solutions MultiSource® materials network. Our MultiSource distribution system has over 80 nationwide locations and it is constantly expanding to provide you with continuous supply of our new high-quality MultiCem™ slag cement plus Class C and Class F fly ash and other sustainable materials for concrete products. MultiSource provides a nationwide network of barge, rail and truck services for on-time delivery and a more sustainable process for you and the environment. For more information, contact us at 877-314-7784 or visit [charah.com/flyash](http://charah.com/flyash).

## *A WORD FROM THE PRESIDENT*

### **Kentucky Concrete Association Members:**

Amid the challenges of 2020, I find myself grateful and honored for the opportunity to serve the Kentucky Concrete Association as President. This has been an incredible learning experience for me as we navigate through some unique changes. I appreciate the help and diligence of our staff - Susan, John, Greg and Finley are vital in our efforts to serve our concrete construction community.

I would also like to give a special word of thanks to Finley for the outstanding job he has done during his tenure as KCA Executive Director. Finley, you will be missed and I hope you have a wonderful and fulfilling retirement. Enjoy some quality time with your friends and family! With Finley's departure, I want to welcome Brett Ruffing as our new Executive Director. I know he will do an outstanding job and I'm looking forward to his partnership.

This year, like every year, has its unique challenges. We have been fighting labor shortages, government funding issues and now changes brought on by the pandemic. While it would be easy to allow uncertainty to discourage us, the KCA has always thrived through challenging times and will continue to be the guiding force for concrete knowledge and excellence for our industry.

My hope is we will work together to maintain our mission of "improving the overall quality of concrete construction and to educate Kentuckians about new and existing ways ready mixed concrete can help them build better and smarter."

Sincerely,

Jay A. Moore, CCPf

A special thanks to the

# KCA GOLD CLUB

Every year, Gold Club sponsor funding goes toward making each event of the Kentucky Concrete Association a huge success. We greatly appreciate all that our Gold Club members have done to support the membership by making annual KCA events possible!

**Award Qualifications**

**KCA Safety Awards** are presented to Ready Mixed Concrete Plants with zero lost time accidents for the 2019 operating year.

KCA Plants are divided into three categories based on the size of the operation.

**Category A** includes all plants operating in Kentucky with an annual average number of trucks stationed at the plant equal to or less than nine.

**Category B** includes those plants operating in Kentucky with more than nine trucks but less than twenty on an annual average.

**Category C** represents all plants operating with twenty or more trucks stationed at the plant on an annual average. This year, no plants submitted within Category C.

**Overall Category Winners** are those plants which had the lowest Accident Frequency Rate (AFR) per 100,000 yards produced among those plants submitted to their specific size category.

**Commitment**  
is in everything we do

At Lafarge, our commitment goes far beyond the raw materials we produce. We bring together the best solutions and materials to build more durable, compact and connected cities. And when you build better cities you get buildings, roads and infrastructure that truly reflect the changing needs of today's communities.

It's this kind of ongoing dedication that's an integral part of the Lafarge culture. And it shows. Whether it's our focus on safety, the well-being of our employees, or the satisfaction of our customers— it's all about ensuring a better quality of life for everyone involved.

To learn more about Lafarge solutions and products, including cement and aggregates, contact:

# LEHIGH

HEIDELBERGCEMENT Group

Working together to build our communities.™

Lehigh is a leading North American producer of cement.

Portland Cements – Type III, III

Masonry Cements – M, N, S

White Portland Cements – Type I, III

White Waterproofed Cement

White Masonry Cements – M, N, S

Custom Colored Masonry Cements – M, N, S

Custom Colored Portland

Custom Colored Portland/Lime

Lehigh's sales offices, manufacturing facilities and distribution terminals are poised to respond in strategic locations throughout the U.S. and Canada.

Build with a leader. LEHIGH.
