TREK

SAFARI

Intuitive dash layout

RELISH THE ROAD

This year's Trek features an all-new cockpit and front-end design. That translates to added comfort and space with a flat floor that makes it easy to get in and out of the comfortable cockpit chairs. Visibility is better than ever. And of course, this coach is really fun to drive.

Trek's full-size kitchen touts all the high-quality touches

standard in all other Safari models. Cooking's a breeze with the large double-door refrigerator with ice maker, high-output three-burner range and microwave. Our open floorplans give you plenty of space to maneuver — the slide-out option delivers even more room.

OPTIONAL
EXTERIORS
WITH FULL-BODY PAINT

As if Trek weren't special enough, our designers have achieved perfection with the coach's exterior graphics. You'll find it tough to choose from the four color schemes – all created in warm colors. No matter which you decide on, you'll be pleased to know that the finish is protected by top-quality automotive paint finish with a resilient clear coat. Of course, full-body paint is available as an option.

NOTE: While the color of the coach's exterior and the interior fabrics shown in this sales brochure are fair and reasonable depictions, they may not be an exact match of the actual colors. Due to product improvements, changes during the model year and/or transcription errors that may occur, information presented within this brochure may not be accurate at the time of your purchase. If certain information is significant to your purchasing decision, please confirm the information with your dealer prior to submitting your order.

FABRICS & WOOD

Safari's interior designers travel the world to select handsome but durable fabrics, wood and flooring. The combinations are carefully created to provide you with an attractive,

likable and warm coach interior. Each Trek palette is designed to achieve the perfect combination of beauty and functionality.

TREK FLOORPLANS

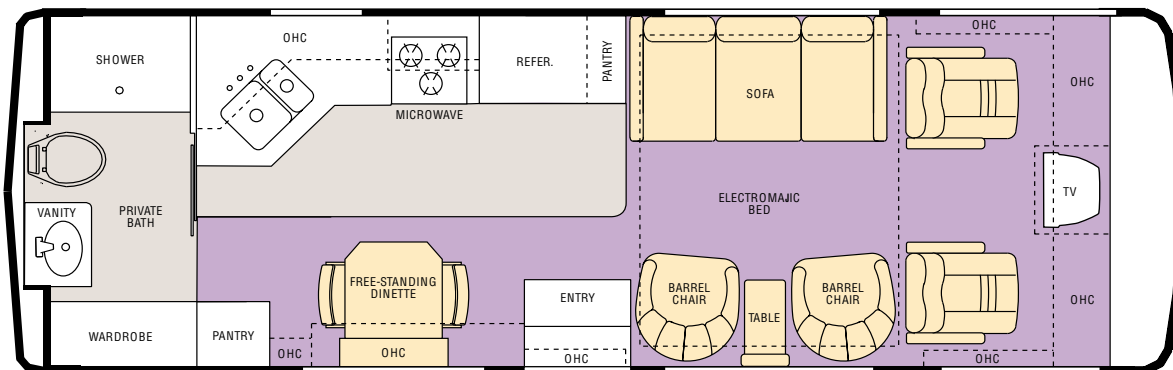

The Trek represents pure genius. Nowhere else will you find so much living space in such a maneuverable and fun-to-drive coach. The famous Electromajic™ bed and smart thinking by Safari's designers create more practical and usable space per square foot than any other coach in its class.

Fuel Tank	60	60	60	60	60	75	75	75	75	75	75	75

* Actual filled LP capacity is 80% of listing due to safety shut-off required on tank.

Due to the large variety of options and floorplan arrangements available to our customers, actual weights for each unit can differ significantly. Safari provides a weight sticker on each unit we produce which includes that unit's tank capacities and approximate weight. Consult your local Safari dealer for unit availability and further information. The information printed in this brochure reflects product design, fabrication, and component parts at the date of printing. The manufacturer reserves the right, at any time, to make changes in product

design, material or component specifications as its sole option, without notice. This includes the substitution of components of a different brand or trade name, which will result in comparable performance. All information printed in this brochure is subject to change after the date of printing. Some features shown or mentioned in this brochure are optional and may only be available in selected floorplans. Photographs may show props or decorations that are not standard equipment on

Safari models. Safari, the Safari logo and its design, are registered trademarks. All other products and company names are trademarks and/or registered trademarks of their respective holders.
