General Information

Important Note

The information presented in this guide is based on the most current information available and is intended for internal use only. Mercedes-Benz reserves the right to make changes at any time, without notice, to colors, materials, equipment, special specifications and models.

Pricing may not yet be finalized for some models or options.

Due to variances among monitors and printers the colors that appear on your screen and printouts may not be exact.

For illustrative purposes, some images may show vehicles with European Specification.

What's New

Paints

- **Metallic Paints now Standard**

Models

CLS450C4 (257.359)

- MSRP: TBD
- Transmission: 9G-TRONIC 9-Speed
Transmission Automatic
- Transmission Speeds: 9
- Acceleration 0-60 mph (sec): 4.5
- Engine Configuration: 3.0L inline-6 turbo Mild-Hybrid engine
- ICE Power (hp): 362 hp
- Torque (lb-ft): 369 lb-ft
- Launch Date: Late 2022

Standard Equipment

CLS450C4

Performance & Handling

- 9G-TRONIC 9-Speed Automatic Transmission
- Mild-Hybrid Drive output of 21 hp
- AMG Body Styling
- Lowered suspension with selective damping
- 3.0L inline-6 turbo engine with Mild-Hybrid Drive: 362 hp & 369 lb-ft
- 19" MB wheels
- DYNAMIC SELECT driving programs
- Sport Exhaust System

Safety & Security

- Active Brake Assist
- Blind Spot Assist
- Crosswind Assist
- Parking Damage Detector
- PRE-SAFE Sound
- ATTENTION ASSIST®
- Car-to-X Communication
- LED headlamps/taillamps
- PRE-SAFE®
- Tire pressure monitoring system

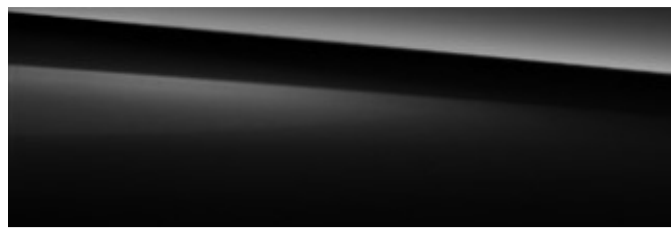

Comfort & Convenience

- 12.3" Central Display w/ Touchscreen
- 64-Color Ambient Lighting
- 12.3" Digital Instrument Cluster
- Dual-Zone Automatic Climate Control
- MBUX Infotainment System with Navigation and "Hey Mercedes" functionality
- KEYLESS-GO® w/ HANDS-FREE ACCESS & Electronic Trunk Closer
- Leather upholstery with MB-Tex dashboard w/ stitching
- Power front seats with 3-position memory and 4-way lumbar support
- Power Tilt/Sliding Sunroof
- Smartphone integration with Apple CarPlay™ & Android Auto
- Steering wheel with Touch Control Buttons
- New Generation Touchpad
- Mercedes me connect
- Auto-Dimming Driver-Side and Rearview Mirrors
- Bluetooth® Connectivity
- HomeLink® Garage door opener
- Heated Front Seats
- KEYLESS-START
- Memory package (Driver & Passenger Seat)
- Power Folding Mirrors
- Rearview camera
- Split folding rear seats (40/20/40)
- Storage Package
- USB-C Adapter Cable

Options In Detail

Steering Wheels

Multifunction steering wheel (L2B)

Standard

- Newly redesigned 3-spoke multifunction steering wheel in nappa leather
- Touch Control Buttons for direct control of the instrument cluster and to control the functions of the multimedia system
- Steering wheel shift paddles in the steering wheel color
- Optional Active Distance Assist DISTRONIC® or standard cruise control is controlled via steering wheel-mounted controls

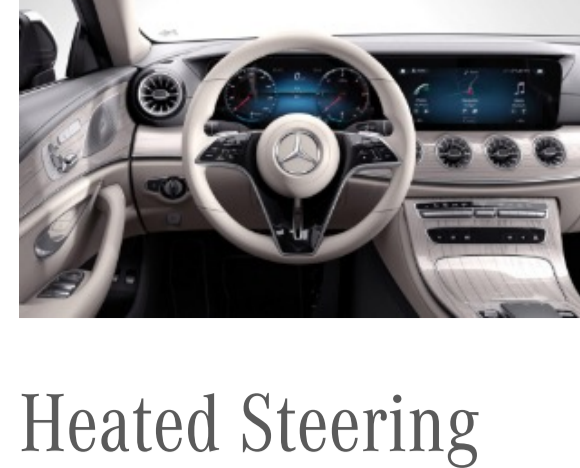

Multifunctional sports steering wheel (L5C)

Optional

Requires AMG Line (DG3)
N/A with heated steering wheel (443) or Warmth and Comfort Package (DB0)

- Elegant 3-spoke multifunction steering wheel design, flattened bottom section with a particularly compact, and extremely sporty look/feel
- Shift paddles in a fine electroplated finish

Heated Steering Wheel (443)

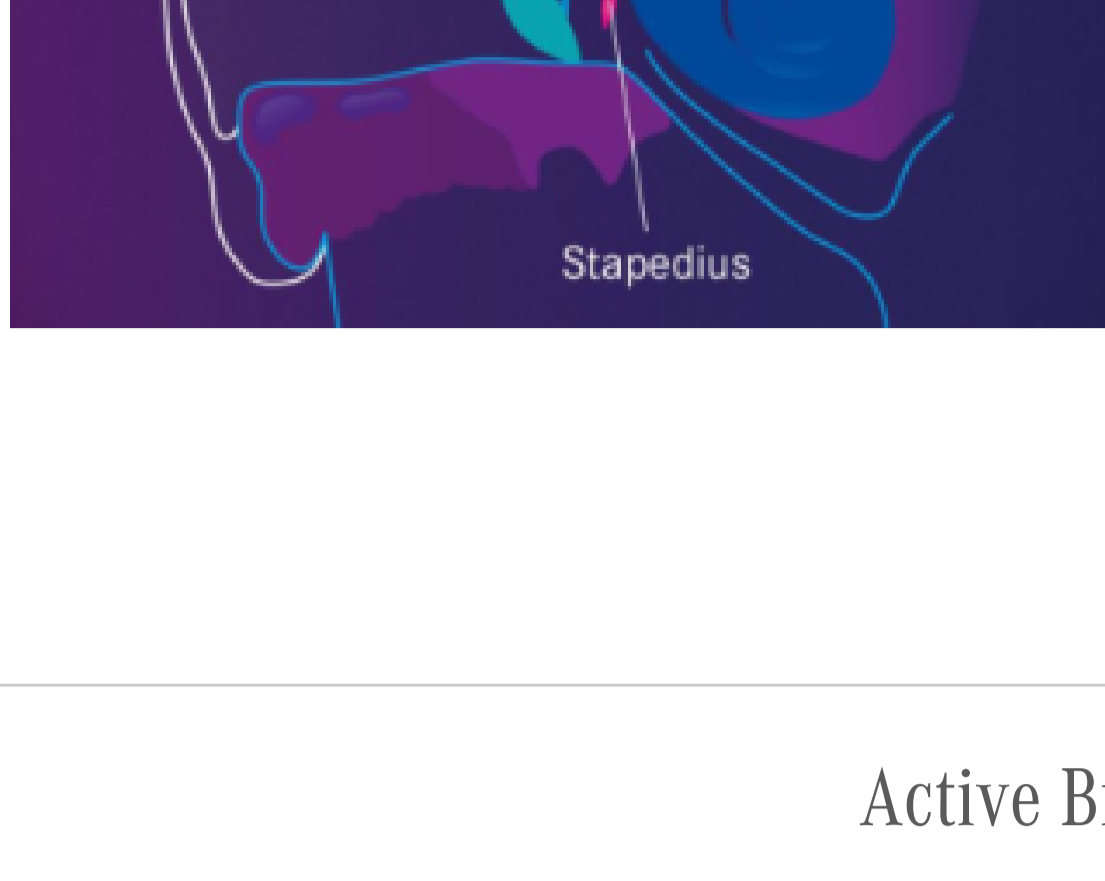

Option Price: \$250

Requires L3B

Not available with multifunction sports steering wheel (L5C)

- On cold days, the heated 3-spoke steering wheel rim very quickly warms the grip area of the steering wheel to around 95°F to ensure pleasantly warm hands.
- The function is switched on and off by turning the control lever for adjusting the multifunction steering wheel.

PRE-SAFE® Sound

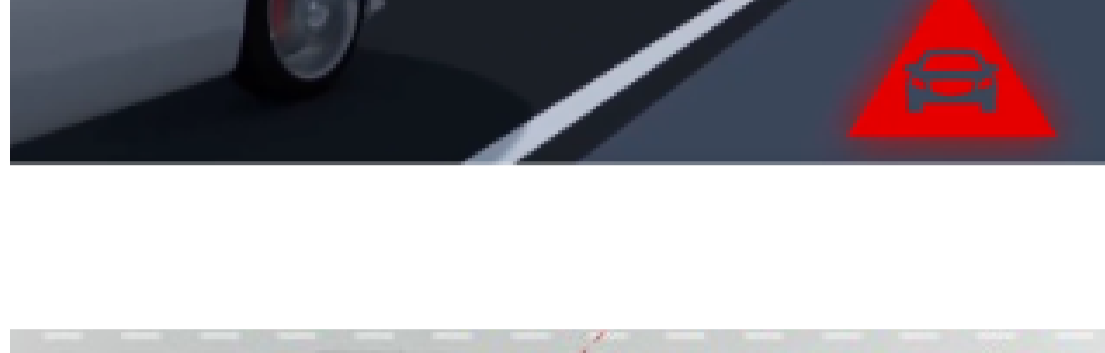

PRE-SAFE® Sound

Standard on all CLS models

Part of PRE-SAFE, PRE-SAFE Sound is an acoustic occupant preconditioning system which can reduce the effects of the noise from an accident on the occupants hearing.

- When the PRE-SAFE system recognizes a certain dangerous situation, the onboard sound system plays a brief rushing sound, also known as 'Pink Noise', to precondition the hearing
- The natural reflex mechanism of the stapedius muscle enables the inner ear to rapidly prepare for the accident-induced high pressure sound
- Up to 40% reduction of noise exposure impact

Active Brake Assist

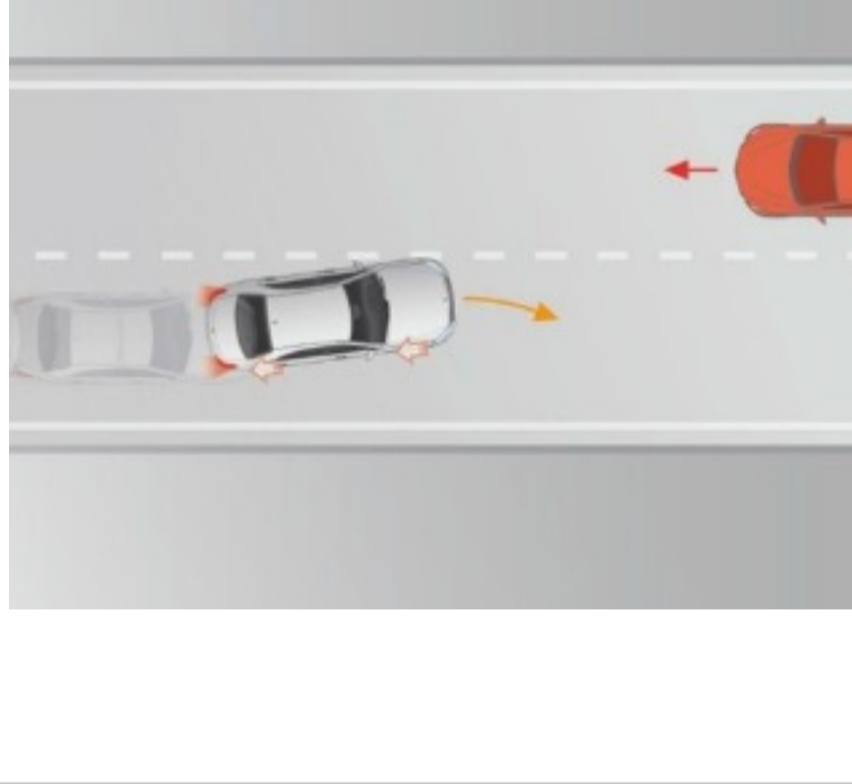

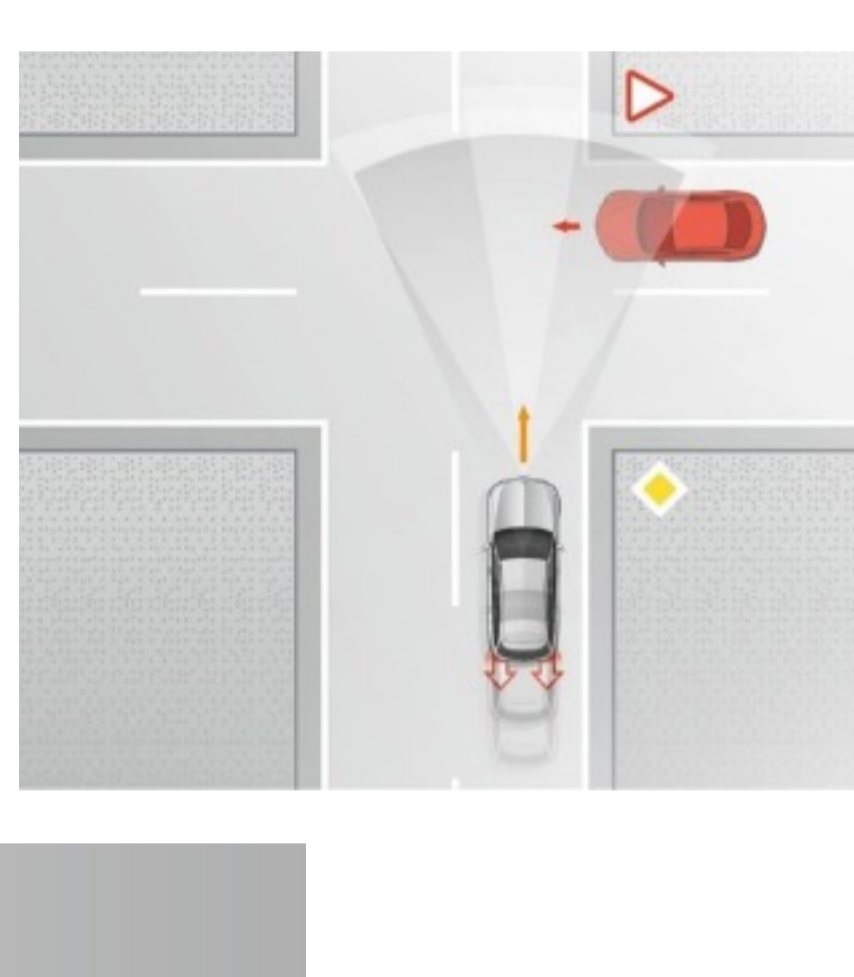

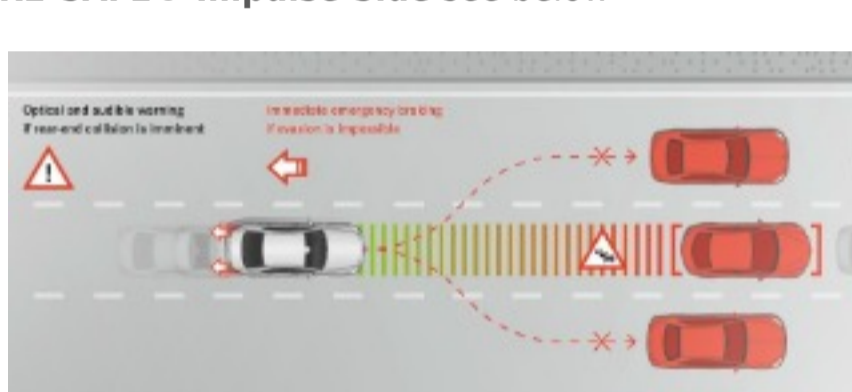

Active Brake Assist (258)

Standard on all models

- Radar-based driving assistance system that can help prevent accidents with vehicles ahead and with crossing pedestrians or mitigate the consequences of accidents
- Combination of proximity warning, collision warning, on-demand braking assistance and autonomous braking function
- Additional audible warning if the distance diminishes rapidly
- If the driver initiates emergency braking - if necessary - increase in braking pressure by the on-demand braking assistance
- Initiation of autonomous braking if the driver fails to react
- Visual and audible warning plus almost simultaneous emergency braking if an impending collision with a crossing pedestrian is detected

Driver Assistance Package (DA2)

- **Active Distance Assist DISTRONIC®** is able to follow a vehicle in front at a pre-selected distance at wider range of speeds.
- **Active Steering Assist** functions at a wider range of speeds and can now actively intervene even if road lines are unclear or non-existent at certain speeds; can now function in curves with a tighter radius.
- **Active Emergency Stop Assist** brakes the vehicle to a standstill in its lane if it detects that the driver is no longer actively driving the vehicle while it is on the move with Active Distance Assist DISTRONIC and Active Steering Assist engaged. Can now unlock the doors when the vehicle is stationary to allow first aid responders immediate access to the vehicle's interior.
- **Active Lane Change Assist** is a radar-and-camera-based system that aids the driver when changing lanes. When a turn is indicated, this feature will aid with steering into the adjacent lane if it detects the lane is empty.
- **Active Speed Limit Assist** can adapt vehicle speed to identified speed limits and can now adjust preemptively when speed limits are going to change.
- **Route-Based Speed Adaptation** the vehicle is now able to reduce the speed in anticipatory mode by referencing the COMAND map data ahead of bends, junctions, roundabouts, toll booths and exit roads.
- **Active Brake Assist with Cross-Traffic Function**
- **Evasive Steering Assist** this system assists by adding calculated steering torque to aid in steering wheel movement when a driver deliberately or instinctively performs an evasive maneuver around a pedestrian.
- **Active Blind Spot Assist** is active at a wider range of speeds and informs the driver to help avoid an imminent side impact by single-sided braking. This feature now includes "Vehicle Exit Warning," which offers enhanced protection when getting out of the car. A visual warning for passengers is displayed in the exterior mirror if a car or bicycle is driving past the vehicle. If the driver tries to open the door, an additional audible warning sound and ambient door lighting will start to flash red.
- **Active Lane Keeping Assist** is active now at a wider range of speeds.
- **PRE-SAFE® Impulse Side** see below

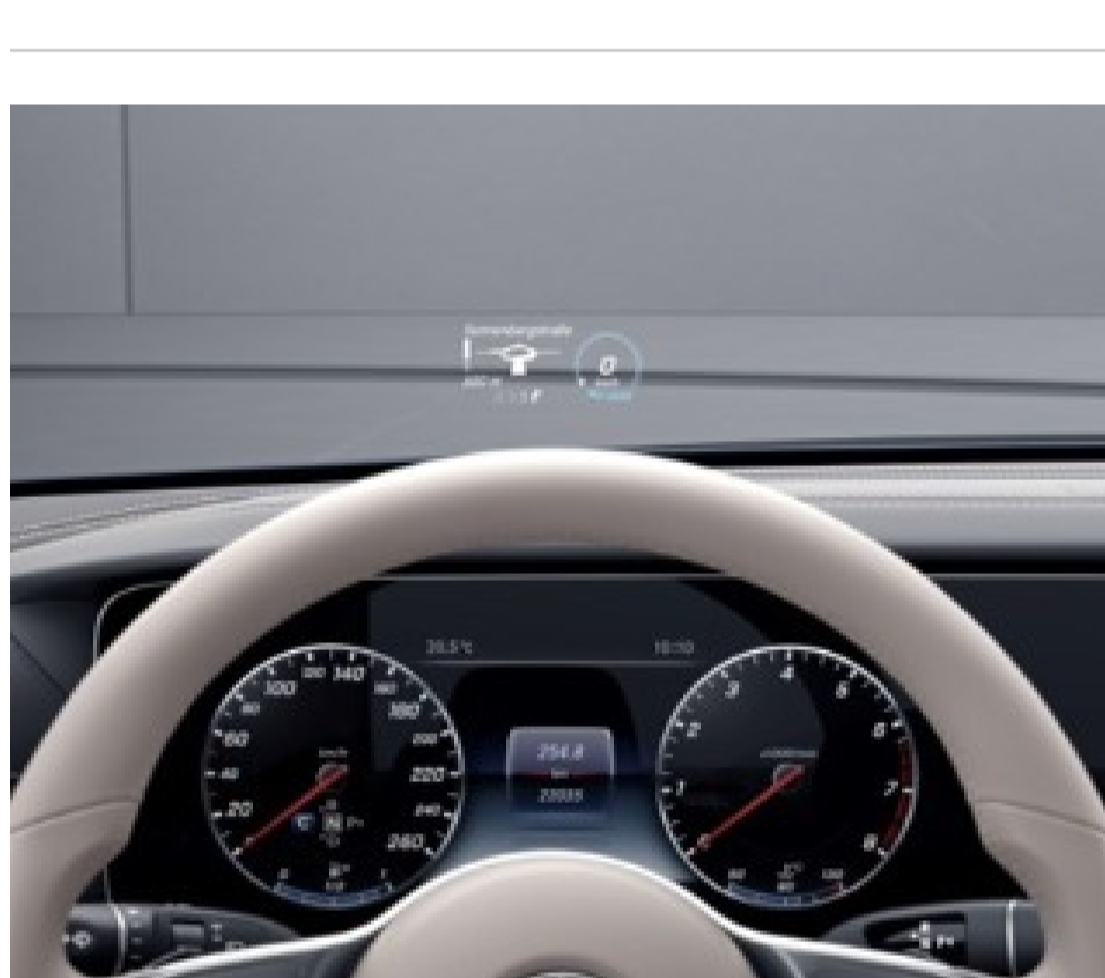

Mercedes-Benz Intelligent Drive – PRE-SAFE® Impulse Side

Mercedes-Benz Intelligent Drive – PRE-SAFE® Impulse Side

Included in Driver Assistance Package (DA2)

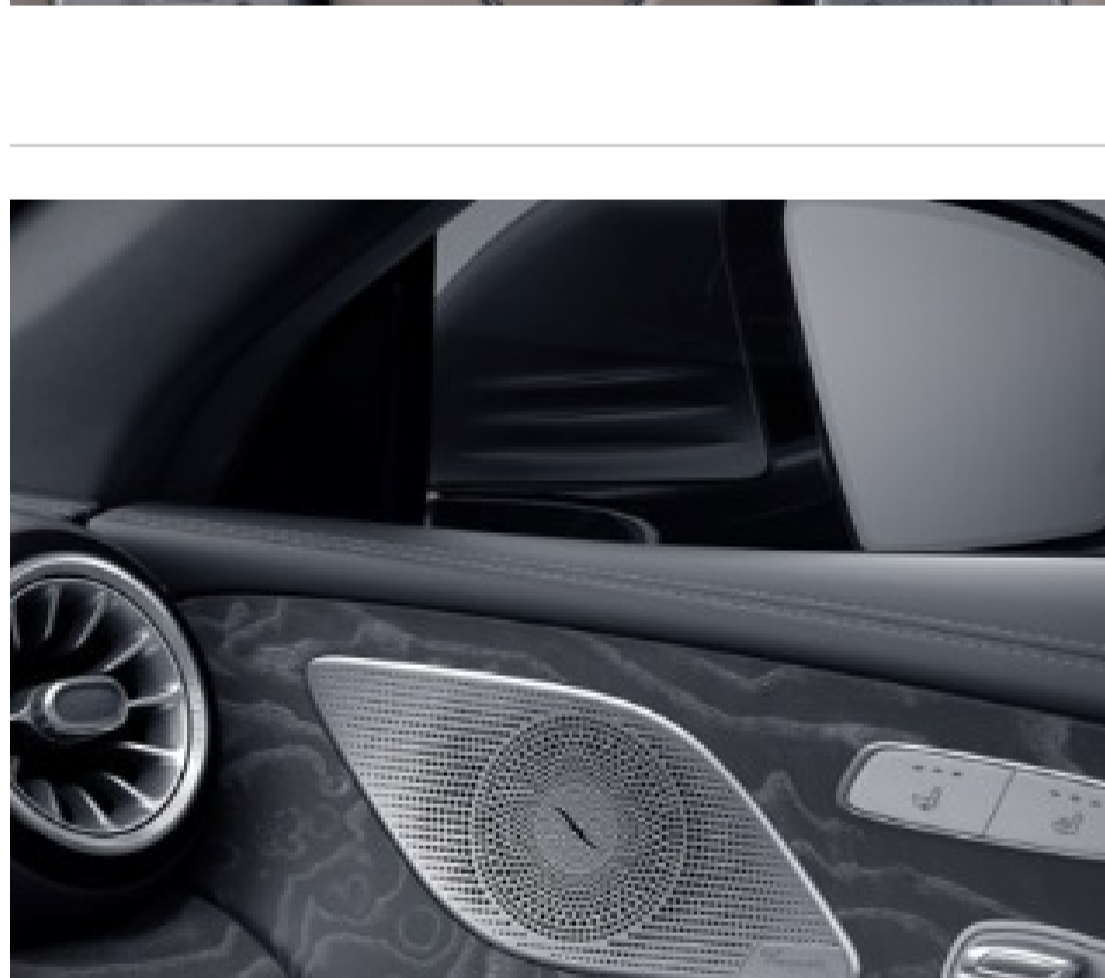

- PRE-SAFE® Impulse Side initiates preventative protective measures against an impending side impact, supplementing the measures taken by PRE-SAFE® and PRE-SAFE® PLUS
- In the event of a side impact, PRE-SAFE® Impulse Side can have a positive effect by increasing the distance between the occupant and the door, and at the same time reducing the relative speeds between the side structure and the occupant's torso
- In the event of a recognized, unavoidable side collision, the system can give the driver or front passenger a slight push towards the center of the vehicle on the side facing the impact
- This lateral impulse is initiated by very rapid inflation of an air chamber in the seat bolster

Head-Up Display (463)

The Head-Up Display at a glance:

- Key driver information at a glance (e.g. navigation tips, incoming calls, speed, settings for cruise control, assistance system messages) without the driver having to take their eyes off the road
- Projection of a virtual image measuring approx. 8.3 x 2.8 inches into the driver's field of vision, which appears to float around 78.7 inches in front
- Presentation of information in high-resolution and in color, making it clearly legible even on sunny days and at night
- Height position of the image, brightness and displayed content can be changed individually via a menu in the instrument cluster

Burmester® Surround Sound System (810)

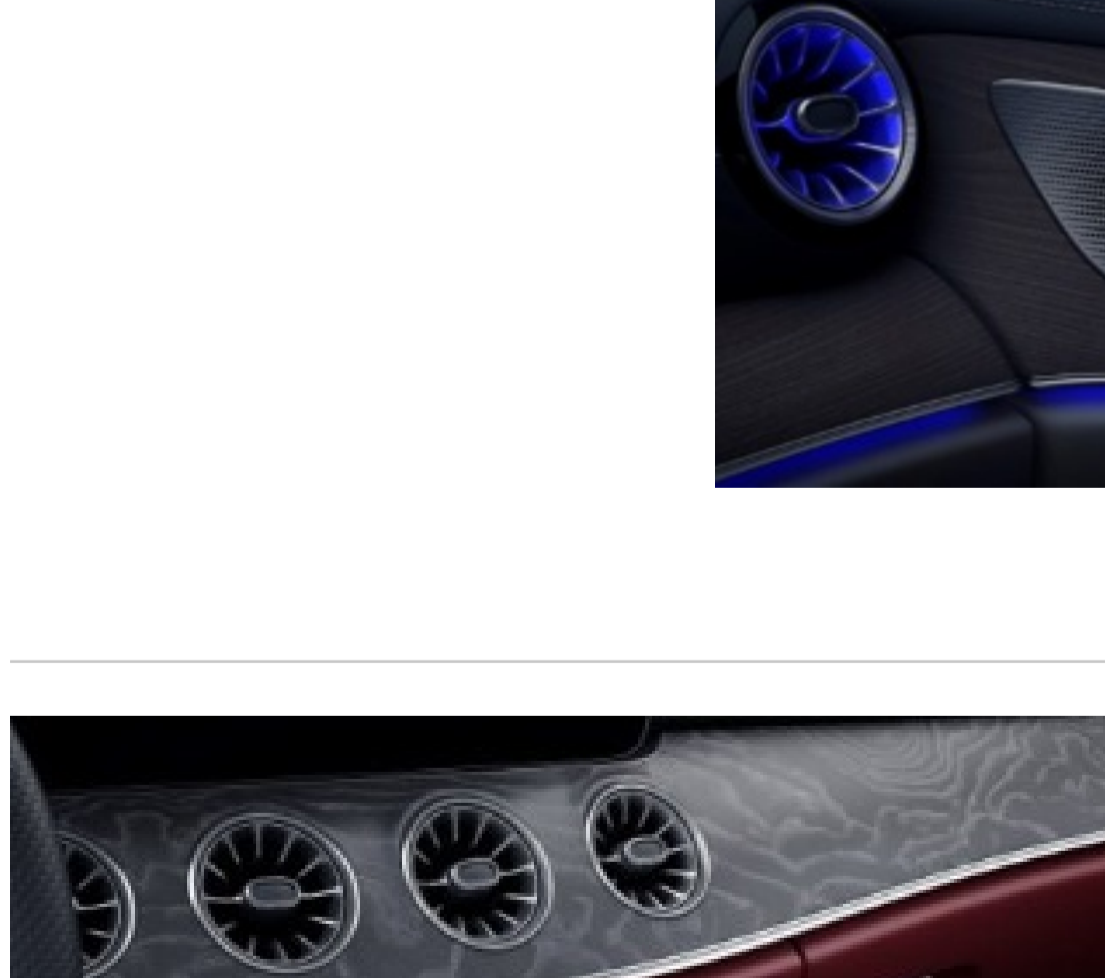

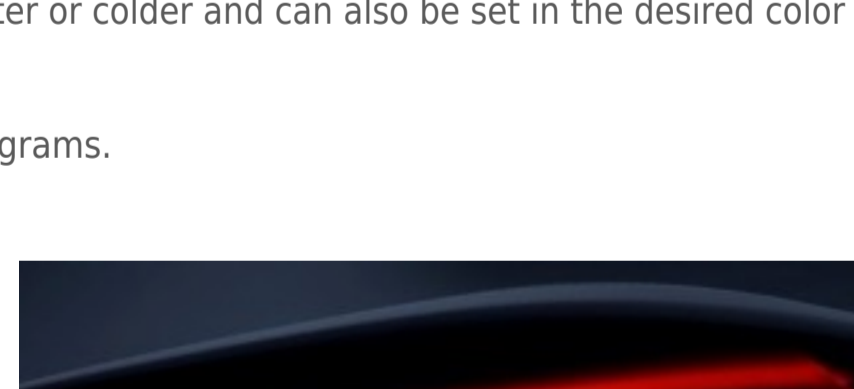

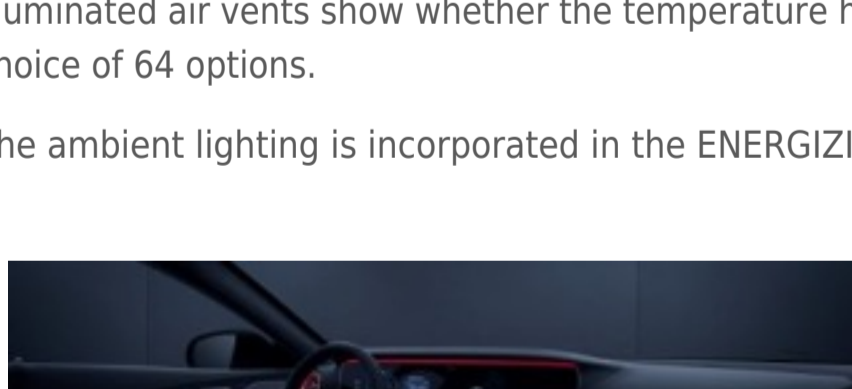

Included in Premium Package (DP1)

- 13 high-performance speakers precisely configured for the vehicle interior to ensure well-balanced and very dynamic music reproduction
- 9-channel DSP amplifier with a total output of 590 watts (7 x 50 W and 2 x 120 W) for maximum sound quality with very high volume reserves
- Frontbass® technology with woofers integrated into the dash for vibrant bass reproduction
- Combination of digital and analogue filter elements for the unique Burmester® "feel-good sound"
- Sound optimization for the front and rear seats
- Noise compensation (VNC)
- Sound preset: surround function to generate virtual all-round sound
- Support for popular multi-channel formats such as Dolby Digital 5.1/DTS for example, for true surround sound

Ambient lighting with 64 colors and 3 color zones (891)

Standard on all CLS models

- The ambient lighting in 64 colors gives the light a uniquely diverse style and showcases the interior like a work of art.
- Every display style of the widescreen cockpit is oriented towards a matching color scheme: "Glacier Blue" for Classic, "Red Moon" for Sport, "Down Blue" for Progressive.
- Eight color schemes consist of two colors respectively –the display and the footwell are in the same color, and the trim level forms a contrast.
- Two further color schemes each contain five colors – these divide the vehicle into the levels "upper display and roofline", "lower display", "feature line (trim)", "center console and cup holder" and also "footwell".
- The colors are either static or slowly replace each other in Dynamic mode, as required, to produce a constant, pleasant change of color.
- All 64 lights can also be individually selected - for maximum individual illumination of the interior.
- Special emotively appealing effects: A "Coming Home" visualization welcomes the driver, and the climate control indicates in color via the ambient lighting whether a warmer or colder temperature is being set.
- Just as variably adjustable is the brightness of the LEDs, with five levels and four zones: widescreen cockpit, area of the front seats, rear plus complete dimming zone.
- Illuminated air vents show whether the temperature has been set hotter or colder and can also be set in the desired color from a choice of 64 options.
- The ambient lighting is incorporated in the ENERGIZING Comfort programs.

Inductive Wireless Charging w/ NFC Pairing (897)

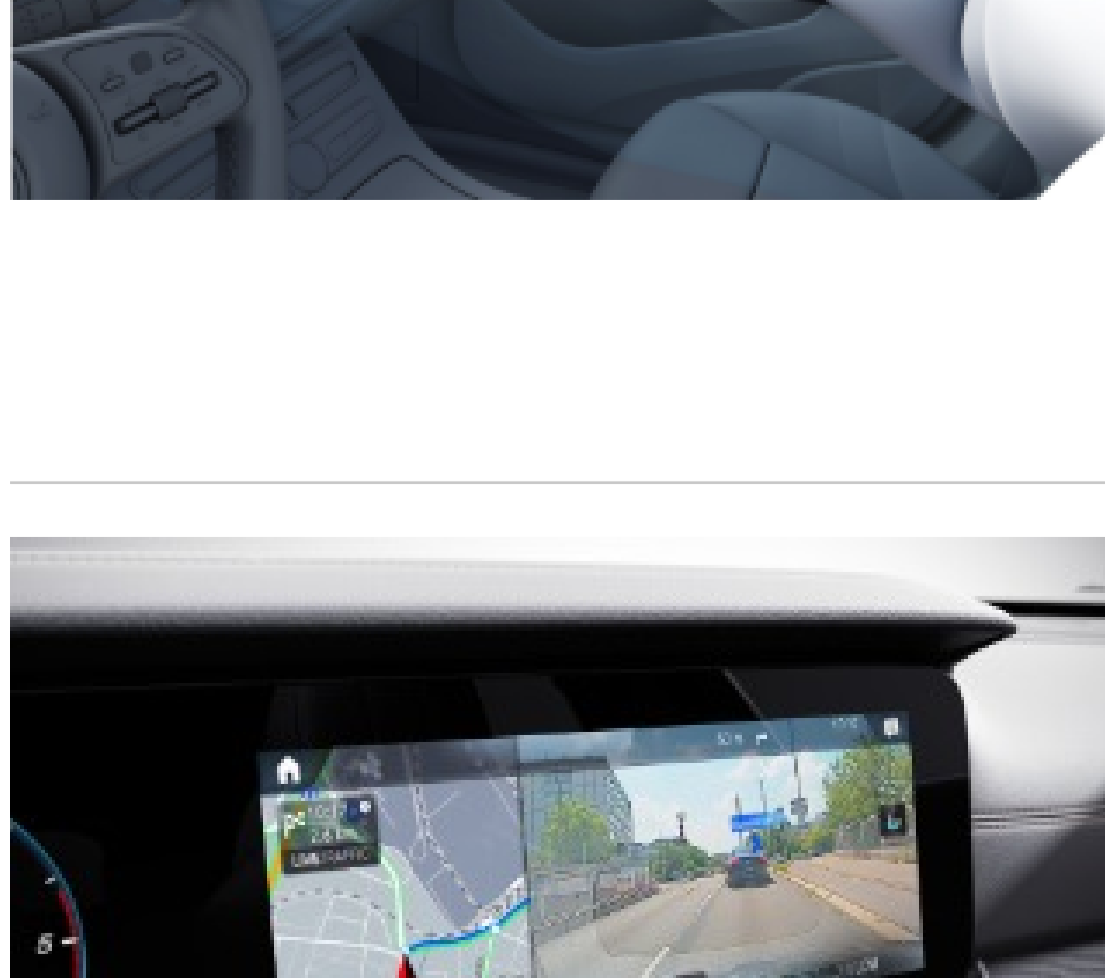

Now Stand-Alone Option Only

- Pairing to the headunit via NFC
- Wireless charging of smartphones that support the Qi wireless charging standard
- For charging, place smartphone in the front storage compartment in the center console.
- Storage compartment designed for mobile phones with a screen diagonal of up to 6 inches

MBUX Interior Assistant (77B)

Enjoy contactless ease of operation: this innovative system detects and interprets your hand and arm movements. As such you can activate selected functions in a matter of seconds. As part of this, the system is able to differentiate between driver and front passenger - so that you reach precisely the menus you wish to use.

- 3D camera in the overhead control panel, proximity sensors near the media display and touchpad
- The system detects and interprets hand movements and as part of this differentiates between the driver and front passenger
- Specifically highlights certain elements in the media display or enlarges them (media/radio, seat adjustment, navigation or Active Parking Assist)
- Activate reading lamp - by moving hand up and down beneath rear-view mirror
- Activate search light - stretch hand out towards the unoccupied front passenger seat
- Call up the personal favorites menu - defined gestures, form a "V" using index and middle fingers. This feature is customizable for both driver and passenger

MBUX Augmented Video for Navigation (U19)

To enable you to find your way in complex traffic situations, MBUX connects augmented reality for navigation with the real world. The technology incorporates graphical navigation instructions and traffic information into live images. You can get to your destination quickly, safely and stress-free. A camera in the windscreen films the area in front of the vehicle and this recording runs in the media display. Highlighted, superimposed information such as house numbers and street names facilitate orientation to the destination.
