MAZDA CX-3

DRIVING MATTERS: IT ALWAYS HAS AND IT ALWAYS WILL

Mazda builds vehicles that inspire, excite and—most of all—bring people joy. Every Mazda is beautiful, functional and has advanced safety technology to help give the driver more confidence behind the wheel. Meticulously engineered and artfully crafted, Mazda's lineup of award-winning cars and crossover SUVs are a study in what happens when an automaker obsesses over the minute details, constantly seeking to redefine the industry's standard of excellence.

Mazda was founded in 1920 as Toyo Kogyo Cork Ltd., manufacturing cork and later heavy machinery. Mazda's challenger spirit is a representation of its home city of Hiroshima, Japan, whose people rebuilt their beloved city after 1945. That spirit inspired Mazda to prevail against all odds, ultimately leading its spirit of innovation, from the three-wheeled Mazda Go pickup truck that helped rebuild the city to the mass-production of the rotary engine starting in 1967 to SKYACTIV Technology and beyond.

Mazda's "Never Stop Challenging" spirit led to the automaker entering the U.S. in 1970, building world-challenging sports cars, creating innovative, unrivaled technologies and reaching the pinnacle of motorsports achievements in 1991 with the Mazda 787B that won the 24 Hours of Le Mans, becoming the first and only Asian car to do so. The achievement wasn't a matter of luck or overnight success; it was the result of experience gained through 16 previous attempts to capture the podium.

Today, the goal of every Mazda is to instill it with a sense of *Jinba Ittai*—"horse and rider are one"—a philosophy in which cars and crossover SUVs are engineered to be intuitive, driver-centric and instill a sense of harmony and confidence. Mazda uses a holistic approach to shape the driving experience.

From body construction and engine technology, to the chassis and transmission, Mazda's innovative, lightweight SKYACTIV Technology provides more performance with more efficiency, deriving greater enjoyment from driving. Chassis dynamics are aided by Mazda's exclusive G-Vectoring Control, which uses the throttle provide smoother, more confident steering. Truth is, Mazda has always built cars around finesse rather than brute strength; innovation to do what's best rather than simply what's easy.

Complementing Mazda's driving dynamics are looks that thrill. Mazda's KODO—Soul of Motion design creates a sense of motion in every vehicle, even at a standstill. Mazda designers breathe life into sheet metal through craftsmanship. As a result, every Mazda is made to appeal to the senses and design is the language used to communicate that.

But Mazda cars and crossovers are more than pretty faces and excellent driving dynamics. Mazda's i-ACTIVSENSE safety suite complements the driving experience with tools like Smart City Brake Support autonomous low-speed emergency braking, Blind Spot Monitoring with Rear Cross-Traffic Alert and numerous other features. Because of these and Mazda's ultra-rigid SKYACTIV-BODY ring structure, every 2017 Mazda tested earned an Insurance Institute for Highway Safety's "Top Safety Pick+" recommendation when equipped with specific headlights and equipment.

In all, Mazda's designers and engineers have worked and continue to work tirelessly with the goal of creating the most eye-catching, exhilarating and safe vehicles on the road. They work to make the best cars and crossover SUVs in the world because driving matters.

2018 MAZDA CX-3 FACT SHEET

The 2018 Mazda CX-3 is a capable subcompact crossover SUV, designed to navigate the urban jungle with confidence. Mazda CX-3 returns for the 2018 model year having earned numerous accolades, including earning “Top Safety Pick+” recognition from the Insurance Institute for Highway Safety and being named as a World Car Design of the Year Finalist. From its proud grille and available LED headlights to its premium technologies, flexible seating and agile driving dynamics, it’s easy to fall in love with the gateway into Mazda’s award-winning crossover SUV lineup.

Starting MSRP: \$20,110

EPA - Estimated Fuel Economy (mpg)

FWD - City / Hwy / Combined	AWD - City / Hwy / Combined
29 / 34 / 31	27 / 32 / 29

Quick Specs:

- SKYACTIV-G 2.0L engine with a 6-speed automatic transmission, manual-shift mode and Sport mode
- 146 horsepower at 6,000 rpm
- 146 lb-ft torque at 2,800 rpm
- Front-wheel drive or available predictive i-ACTIV all-wheel drive

New Equipment for 2018:

- Smart City Brake Support is now standard on all CX-3 model
- G-Vectoring Control is now standard on all CX-3 models
- Automatic on/off headlights*
- Rain-sensing windshield wipers*
- Automatic climate control*
- New colors available: Eternal Blue Mica, Machine Gray Metallic, Snowflake White Pearl Mica
- New GT Premium Package includes a 6-way power driver’s seat, power driver’s lumbar support, power driver’s seat memory, heated steering wheel and Traffic Sign Recognition**

Technology Highlights:

- Standard MAZDA CONNECT™ infotainment system with 7-inch full-color touchscreen display with voice command, SMS text message audio delivery and replay, E911 automatic emergency notification and optional navigation system
- Available BOSE® audio system, SiriusXM satellite radio and HD radio
- Standard multi-function Commander control
- Standard Bluetooth hand free phone & audio

Safety and Security Highlights:

- Newly standard Smart City Brake Support
- Standard rearview camera
- Blind Spot Monitoring with Rear Cross-Traffic Alert*
- Adaptive Front-lighting System**
- Available Mazda Radar Cruise Control, Smart Brake Support, Lane Departure Warning and High Beam Control
- Engine immobilizer anti-theft system

2018 MAZDA CX-3 OVERVIEW

The 2018 Mazda CX-3 is a capable subcompact crossover SUV, designed to navigate the urban jungle with confidence. Not only is CX-3 one of the most fuel-efficient subcompact crossover SUVs, but what's underneath its sheetmetal also provides assurance as an Insurance Institute for Highway Safety "Top Safety Pick+," the non-profit's highest recommendation.

And if efficiency and safety weren't enough, CX-3's looks earned it a top-three finalist spot for World Car Design of the Year.

CX-3 was developed to "Create the standard for the next era." It's a vehicle designed to meet the needs of a new generation of car buyers, supporting creative, adventurous lifestyles.

CX-3 is shorter and lower than Mazda's best-selling CX-5 but delivers a similarly upmarket experience with its available predictive i-ACTIV all-wheel drive, a punchy 146-horsepower, 2.0-liter SKYACTIV-G engine, standard backup camera, newly standard Smart City Brake Support and the rest of Mazda's full suite of i-ACTIVSENSE safety features available, including Lane Departure Warning, Rear Cross-Traffic Alert, Smart Brake Support and Mazda Radar Cruise Control.

Impressive inside and out, CX-3 is tailored to deliver a rich, inviting experience not just for its driver, but also for its passengers, with rear seats set slightly inboard to ease conversation between front and rear passengers. It is a vehicle with interior details that look and feel as elegant as they are forward-thinking, from the dark red seat stitching to the soft touch materials. And it is a vehicle that carries itself with style, with a long hood, short overhangs, large wheels and a slim cabin, presenting proportions that lend themselves to a sense of strength and vitality, conveying a sense of motion even when standing still.

CHANGES AT A GLANCE

Despite still being early in its model cycle, the 2018 Mazda CX-3's engineers, designers and product managers weren't going to spend another model year without meaningful improvements to benefit customers. They added Smart City Brake Support as a standard feature for all trim levels and improved much of what the driver and passengers will never see but will certainly feel and hear.

Other new features and changes include (for full list of changes, see Spec Deck on page 15):

- Standard G-Vectoring Control on all models
- Standard Smart City Brake Support on all models
- Automatic on/off headlights standard on CX-3 Touring and Grand Touring
- Rain-sensing windshield wipers standard on CX-3 Touring and Grand Touring
- Automatic climate control standard on CX-3 Touring
- GT Premium Package now includes 6-way power driver's seat, power driver lumbar support, driver seat memory, heated steering wheel, and Traffic Sign Recognition
- New paint color options:
 - Eternal Blue Mica
 - Machine Gray Metallic
 - Snowflake White Pearl Mica
- Recalibrated suspension, transmission and steering for improved performance, ride comfort and NVH
- Additional sound insulation and thicker rear glass
- New steering wheel design for easier grip
- Revised, full-color Active Driving Display
- Available heated steering wheel

A SUBCOMPACT CROSSOVER SUV ON ITS OWN TERMS

Attention to detail, purpose-led ergonomics and amenities help the CX-3 stand out from the quickly growing subcompact crossover segment. Standard in all CX-3s is a push-button start and MAZDA CONNECT™ infotainment system offering Bluetooth phone pairing, audio streaming, USB ports for entertainment connectivity and Commander control knob, as well as a standard 7-inch color touchscreen interface with a built-in backup camera.

MAZDA CONNECT™ also features SMS text message audio delivery and reply, voice command and Aha/Stitcher/Pandora/HD Radio connectivity.

Other available features include:

- BOSE® 7-speaker audio system
- Active Driving Display
- Blind Spot Monitoring with Rear Cross-Traffic Alert
- Heated exterior mirrors
- One-, two- or three-tone premium cloth, leatherette or leather interior seating surfaces

The driver-oriented cockpit comes adorned with thoughtful touches, such as available stitching on the gauge hood, premium textures and rich, soft-touch materials, red accenting throughout the interior and handles and switches that evoke a feeling of tailored craftsmanship.

'MAZDA PREMIUM' IN ALL SHAPES AND SIZES

"Mazda Premium" is a phrase that the brand has used since May 2016 when it unveiled the all-new CX-9 three-row crossover SUV. But it's not just a catchphrase or an ad slogan.

Mazda has made elegantly engineered, designed and executed vehicles to captivate drivers and casual observers through eye-catching design, craftsmanship and beauty through simplicity, with engineers and designers constantly going back to some of their best work to make it better.

Mazda Premium is as much an emotional value as it is a value in the product. It's the feeling a driver and passengers get when they step foot inside a Mazda vehicle, from the smallest MX-5 to the largest CX-9, and feel that the car or crossover SUV exceeds their lofty expectations.

**"CRAFTSMANSHIP
AND BEAUTY
THROUGH
SIMPLICITY"**

EXTERIOR

The front view of the CX-3 is designed to present a bold look that suits the model's clean, yet daring, proportions. The grille stacks seven fins with available silver-painted front edges to create an expression of concentrated energy that flows horizontally. The signature grille is stout and three-dimensional, looking as if machined from solid metal. It forms the starting point for a powerful sense of speed that flows across the entire body.

- The headlamp layout positions the turn signals outside the main headlamp unit to create a narrow, sharp design that looks as if they were eyes gazing forward. The tips of the grille extend into the headlamps with an integrated available LED illumination line. This connects seamlessly with the lighting signature that surrounds the low beams, accentuating CX-3's taut lines.
- CX-3 is newly available in Eternal Blue Mica, Machine Gray Metallic and Snowflake White Pearl Mica. These colors join Ceramic Metallic, a paint color that was first introduced on the fourth-generation Mazda MX-5 Miata. Its expression of a finely honed metallic surface and strong sense of hardness changes in appearance depending on the angle and intensity of light hitting it. Mazda had to develop an entirely new paint process to apply these industry-unique colors, and they further make the CX-3 stand apart from its more pedestrian competition.

INTERIOR

The interior offers a high-quality and sophisticated feel that complements the exterior design. Attention was paid to every detail, including the cohesiveness of designs and quality of materials.

- A new steering wheel design updates the CX-3 in that it both enhances the sporty feel of the drive and the luxurious atmosphere of the interior. Its spokes are thinner and better-shaped for a more comfortable grip.
- The surrounding character line and relatively high beltline, along with the deeply sculpted three-dimensional form of the door trim, create a comforting atmosphere for front-seat passengers.
- All information displays and control systems are positioned in toward the driver based on Mazda's "Head-Up Cockpit" concept.
- Each part has been refined to provide the interior with a polished, high-quality feel. Examples includes the available dark red accent color used on the door trim armrests, the floor console kneepads and the sharp form of the inner door handle bezels.
- Fine piping has been added where the different coordinated seat materials meet, such as the Parchment leather and contrasting Lux Suede offering in Grand Touring trim, producing a sophisticated environment.

PURPOSE AND COMFORT

CX-3's small size makes it easy to handle, even when driving in town or parking. Its long wheelbase lends to its strength in its proportions and also helps provide comfortable seating inside the cabin.

- The front seats provide excellent shoulder room, distance between the two front seats and legroom to comfortably seat occupants of any size.
- The seating position of the rear seats is set closer to the center of the cabin than the front seats, and the hip-point is set taller than on the front seats. The resulting layout makes it easier for rear seat occupants to see out of the front and to enjoy conversation with people sitting in the front seats.
- Positioning the front wheels far forward and optimizing the shape of the pedals and the distance between them provides a comfortable driving position that enables the driver to sit comfortably, extend his or her legs and reach the pedals more naturally. A floor-hinged accelerator pedal is used because the arc it travels as the driver presses down on it is more natural feeling than that of a top-hinged pedal.

CONFIDENCE-INSPIRING i-ACTIV ALL-WHEEL DRIVE

All-wheel-drive systems aren't created equally. Case in-point is Mazda's predictive i-ACTIV all-wheel drive, which literally climbs mountains above the competition. The assurance of i-ACTIV all-wheel drive comes through its sensors, which take into account factors like steering angle, throttle inputs and wheel-spin along with temperature and use of wipers to paint a clear picture of the outside conditions. i-ACTIV all-wheel drive can adjust power output more than 200 times per second, using 27 different variables, to "predict" what the road conditions look like.

The benefit is rather than the driver or passengers feeling slip before the rear wheels deliver power, often causing momentary panic, i-ACTIV all-wheel drive system seamlessly drives all four wheels, adjusting quicker than humans can detect any loss in traction. i-ACTIV all-wheel-drive's benefits can also be felt on dry roads with driving dynamics that are far better than a crossover SUV has any right to be—a nod to Mazda's unwavering commitment to making vehicles that thrill and delight. With beauty and brawn, CX-3 is a tough combination to beat.

HUMAN-MACHINE INTERFACE (HMI) AND CONNECTIVITY SYSTEM

Even the most typical daily commute involves the driver interacting with large amounts of information on the road or in the vehicle, which is why CX-3's dashboard layout is purposely designed for true ease of use in mind. The "Head-Up Cockpit" concept allows the driver to process all of the information while maintaining the correct driving position and concentrating on driving safely.

MAZDA CONNECT™ is an in-car infotainment system that makes it safer and easier to take advantage of functions such as music streaming and communications on the move. It provides convenience by enabling hands-free phone operation and internet radio including Aha by HARMAN via Bluetooth connectivity, Pandora and Stitcher.

Information the driver requires and the devices for controlling its display are optimally positioned with safety in mind. This includes the Active Driving Display, 7-inch full-color touchscreen display and Commander control that come as part of MAZDA CONNECT™.

CHASIS AND BODY

CX-3 features Mazda's unique SKYACTIV-CHASSIS, which is lightweight and relies on application of high-tensile-strength steel in selected locations to deliver refinement befitting a considerably more expensive vehicle. Engineers fine-tuned every related component to optimize natural response, ease of control and reassuring confidence, along with a sharp, progressive steering feel.

CX-3 also implements Mazda's SKYACTIV-BODY, which achieves high levels of performance in three areas: collision safety, weight reduction and rigidity. It combines effective positioning of high-tensile steel and optimized cross section shapes to produce a body that features high rigidity, which translates to excellent road feel. For 2018, much of the suspension and steering systems were revised for greater comfort, refinement and improved handling dynamics in what is already a crossover SUV lauded for its chassis dynamics.

PACKAGING AND PRICING

The 2018 Mazda CX-3 subcompact crossover SUV has undergone its first round of thoughtful updates, improving the driving experience and treating customers to an impressive value with available features they might not find in vehicles costing twice as much.

Newly standard for every trim level is Smart City Brake Support, which can automatically apply the brakes in emergency situations below 19 mph. CX-3 joins several other vehicles in Mazda's lineup as carrying this critical piece of safety equipment as standard.

It is complemented by Mazda's exclusive G-Vectoring Control, which uses the engine in conjunction with steering and throttle inputs to minutely reduce engine torque, putting more weight on the front wheels and making the steering feel more linear and direct. As a result, the driver is able to gain more confidence and control behind the wheel.

Entry-level CX-3 Sport trim comes with standard cloth seats, power windows, power remote door locks, power mirrors, two USB ports, rearview camera, Bluetooth hands-free calling and audio pairing and MAZDA CONNECT™, among a long list of other features. MAZDA CONNECT™ features a standard 7-inch, full-color touchscreen display that combines infotainment and diagnostic functions in one place, controlled through voice commands, a touchscreen while at standstill or the Commander control knob when the vehicle is in motion.

The mid-level CX-3 Touring replaces CX-3 Sport's standard 16-inch alloy wheels with 18-inch wheels and replaces cloth seats with leatherette and Lux Suede upholstery. CX-3 Touring also comes with Blind Spot Monitoring with Rear Cross-Traffic Alert, Mazda Advanced Keyless Entry, heated front seats and heated side mirrors with integrated turn signals. New standard features for CX-3 Touring also include automatic on/off headlights, rain-sensing windshield wipers and automatic climate control.

PACKAGING AND PRICING - CONTINUED

The Touring Preferred Equipment Package escalates Mazda's mid-trim model with a BOSE® Premium audio system with seven speakers, power glass moonroof, SiriusXM satellite radio with a 4-month subscription, HD Radio and a cargo cover.

Finally, CX-3 Grand Touring builds upon the Preferred Equipment Package and includes Parchment or black leather with red accents and Lux Suede upholstery, adaptive LED headlights, LED fog lights, LED daytime running lights, Mazda Navigation, a full-color Active Driving Display head-up unit and paddle shifters.

The GT Premium Package tops off CX-3 with Mazda Radar Cruise Control, Smart Brake Support for highway speeds, Lane Departure Warning, High Beam Control and all-new features that include a 6-way power driver's seat, power driver's lumbar support, 2-position driver memory seat, heated steering wheel and Traffic Sign Recognition.

While many improvements can be seen in the cabin, some of CX-3's greatest changes can only be felt from behind the wheel such as revised suspension bushings, new front lower control arms, recalibrated dampers and new engine mounts, all designed to benefit CX-3's already class-leading chassis dynamics and further add to its class-above ambience. Further, CX-3 benefits from improved door seals, thicker rear glass and sound suppression mats added underneath the floor and dashboard for a more refined, "Mazda Premium" experience.

And, because Mazda's engineering team doesn't believe in waiting for major redesigns to implement changes that benefit consumers, throttle and transmission responsiveness have also been improved, complementing Mazda's *Jinba Ittai*—horse and rider as one—driving dynamics.

MSRP³ for all models is as follows:

	Front-Wheel Drive	i-ACTIV All-Wheel Drive
CX-3 Sport	\$20,110	\$21,360
CX-3 Touring	\$22,195	\$23,445
Touring Preferred Equipment Package	\$1,410	\$1,410
CX-3 Grand Touring	\$25,165	\$26,415
GT Premium Package	\$1,435	\$1,435

Premium Paint Colors

Machine Gray Metallic	\$300
Soul Red Crystal	\$300
Snowflake White Pearl Mica	\$200

BIG IDEAS IN A SUBCOMPACT PACKAGE

Mazda CX-3 might be the smallest iteration of Mazda's SKYACTIV-generation crossover SUV lineup, but it is definitely packaged with some of the biggest premium features. Part of an award-winning family of vehicles, CX-3 shares all of the qualities of Mazda's other cars and crossover SUVs but in a package better-suited for city-dwellers, those with active lifestyles or simply those looking to downsize without downgrading.
