PRESIDENT CHUCK STABEN

Chuck Staben took office as the 18th president of the University of Idaho March 1, 2014. During his presidency, he has led new initiatives to meet Idaho's needs in education and innovation while maintaining excellence in graduate and professional education, research and outreach. Staben believes public research universities keep our nation strong, and that as the state's land-grant institution, U of I plays a unique role in making Idaho and the world a better place to live. In recognition of his service and leadership, Staben has been selected to the prestigious Council on Competitiveness.

The university is guided in its mission by a Strategic Plan through 2025. The plan's key areas of focus include enrollment growth and access to higher education, innovative research and scholarship, engagement across the state, and the cultivation of an inclusive and dynamic campus environment. The university is well-positioned for long-term growth.

Staben has guided enrollment initiatives that facilitate access and affordability as well as promote improvement in Idaho's college-going culture. Student success, from retention through graduation and careers, has been emphasized through the adoption of new technology and university-wide approaches. U of I's WWAMI Medical Education Program has doubled in size, with students spending more time in Moscow at new and renovated facilities. The university's College of Law has expanded to include an additional full three-year location in Boise.

U of I's research enterprise recently reached more than \$109.5 million in annual expenditures, with strong emphases in agriculture, natural resources and clean energy, as well as emerging areas such

as disease and cybersecurity. Dynamic scholarship and creative activity remain high priorities.

In Fiscal Year 2018, U of I completed its most successful fundraising year to date in support of scholarships, programs and facilities. A \$10 million gift supports a planned basketball arena. Medical education facilities, a renovated education building and a proposed research dairy highlight facilities projects Staben has helped develop and guide.

Prior to his service at U of I, Staben was provost of the University of South Dakota from 2008-14.

From 1989-2008, at the University of Kentucky, he was a professor of biology, a department chair, and associate vice president for research. Other experience includes postdoctoral research at Stanford University from 1987-89 and at Chiron Research Laboratories from 1985-86. He conducted graduate research and teaching at the University of California, Berkeley from 1978-84, receiving a Ph.D. in biochemistry in 1984.

Staben's research focused on fungal developmental biology, bioinformatics and fungal genomics. He received grants from the National Science Foundation, the National Institutes of Health and other agencies. Staben taught microbiology, genetics, bioinformatics, and introductory biology and he received numerous awards for teaching. He received a Bachelor of Science from the University of Illinois, Urbana-Champaign, in 1978.

Originally from Waukegan, Illinois, Staben and his wife, Dr. Mary Beth Staben, have three children. Mary Beth is a practicing physician of internal medicine.

GUEST SPEAKERS

Idaho Governor Brad Little

The people of Idaho elected **Brad Little** as the state's 33rd governor in November 2018. He became Governor on Jan. 7, 2019.

Little is an Emmett native who was raised on his family's sheep and cattle ranching operation. He graduated from the University of Idaho in 1977 with a Bachelor of Science in agribusiness and has worked in the ranching industry for his entire professional life. In 1978, Little had the good fortune to marry Teresa Soulen of Weiser.

Teresa and Brad Little are the proud parents of two sons who have wonderful wives – Adam and Angela, and David and Kelsey. They have five beautiful grandchildren.

Little has a heart for public service. He first served in public office in 2001 when he was selected to fill a vacancy in the state senate. He was then elected to four consecutive terms in the Idaho Senate. During his service as a senator, Little was elected by his Republican peers during his first full term to serve in party leadership as majority caucus chair. He then served as

Idaho's 37th lieutenant governor starting on Jan. 6, 2009.

Little is committed to making decisions through one lens: the lens of ensuring Idaho's children and grandchildren have the best opportunities to stay in Idaho and for the ones who have left to return.

Little has advocated his whole life for limited government. He works to ensure the lightest possible hand of government in the lives of Idaho's citizens, and he seeks to build the public's confidence in state government.

Emma Sawyer Atchley

Emma Sawyer Atchley is a native of Boise. She attended school there and graduated from Borah High in 1964. She graduated cum laude from the University of Idaho in 1968 and earned a master's degree from Claremont Graduate University in 1970. While attending U of I, Atchley was chosen to receive the Outstanding Senior Award and was elected to Phi Beta Kappa and Phi Kappa Phi. After marrying her husband, Glen, she moved to Ashton where she taught high school for a short time. Her husband's family had farmed in the Ashton area since 1901, and participating in the farming operation and raising two daughters were her major occupations.

During that time, Atchley was elected to the Fremont County School Board of Trustees. She also became involved with the U of I Alumni Association, where she served as treasurer, vice president and president. That experience led her to joining the U of I Foundation board of directors, where she served as president and is a lifetime member.

Throughout their marriage, the Atchleys' farming operation concentrated on growing seed potatoes, wheat, canola and cattle. Atchley learned bookkeeping, truck-driving and fence mending, among other skills, and filled in as needed. The farming operation expanded over the years to 5,000 irrigated acres, 3,000 dryland acres and significant rangeland. It now consists of three operating entities, including a greenhouse for early generation seed potato production, which Atchley manages. Her experience on the business side of farming led to her becoming a director of the Bank of Idaho, an expanding community bank based in Idaho Falls.

Both Atchleys have been directors of the Teton Regional Land Trust, and their farm and family have been recognized for their efforts in conservation, including the Idaho Association of Commerce and Industry's environmental stewardship award and the Governor's Lifetime Achievement in Agriculture award. In addition, the National Agricultural Alumni and Development Association recognized the Atchleys for outstanding support of agricultural education. They have also received the U of I President's Medallion and Jim Lyle Alumni Service award.

Atchley became a member of the Idaho State Board of Education in 2009 and is now serving her second term. She was twice elected as president of the board and currently acts a committee chair.

UNIVERSITY OF IDAHO, IDAHO FALLS

Roger Evans

Roger Evans is the regional technology coordinator for the Idaho State Department of Education and owner of Definitive Solutions LLC, a private web development and graphic design company. An experienced technology professional with more than three decades serving the public sector, Evans is also a champion of the performing arts and a highly involved member of several regional arts organizations.

Evans grew up in Idaho Falls in what is now a four-generation University of Idaho family. Both of his parents were teachers and his father performed regularly in the Idaho Falls Symphony. Evans participated in theater both on stage and in the pit orchestra through high school, finding and nurturing a love for the performing arts.

As a student at U of I, Evans studied computer engineering, music and information systems, finally balancing a love for the arts and interests in technology. He received a Bachelor of General Studies in information systems and music in 2000.

Evans' career includes six years as a systems integration analyst at U of I. Moving back to Idaho Falls in 2003, he spent nearly four years as an information systems administrator with the Idaho Falls Public Library. He joined an information systems consultancy in 2007 before starting Definitive Solutions in 2008. In 2010, he joined the Idaho State Department of Education where he assists schools throughout the state with technology challenges and innovation to deliver instructional resources and curricula.

The performing arts remain a central part of Evans' life. He is the music director for the Idaho Falls Opera Theatre and the Idaho Falls Youth Arts Centre and performs with the Idaho Falls Symphony, Teton Chamber Orchestra, Idaho Brass and many other groups. He is a member of the American Society of Composers and Arrangers and is a published composer and avid arranger. He has orchestrated Puccini and Leoncavallo operas for performances in Idaho Falls as well as many other arranging projects. One of his first original compositions was a wind ensemble fanfare that was used as the tribute to the "100 Years of Graduates" in 1993 at U of I. His most recent composition, "Persephone," was performed by the Idaho Falls Opera Theatre with a 100-person choir and full orchestra. He dedicates his time to providing opportunities for youth in the arts in the Idaho Falls area.

Evans and his wife, Robin, live in Idaho Falls. Robin is a 2003 U of I graduate, earning a Master of Education in counseling and human services and an education specialist degree in school psychology. They have two daughters, including a current U of I student.

Sholeh Patrick

Sholeh Patrick is an award-winning columnist and correspondent for the Coeur d'Alene Press. For nearly two decades, her writing has offered thoughtful and challenging commentary on issues such as human and civil rights. She also dedicates her time and talent to numerous nonprofit and community organizations.

Born in New York, Patrick graduated from the University of St. Thomas in Houston, Texas, in 1988 with a bachelor's degree in international relations. She went on to earn a 1997 Juris Doctor from South Texas College of Law, focusing on international law and trade, with membership in the Phi Delta Phi legal academic honor society. She also served as managing editor of *Currents: Journal of International Trade Law*, editing, soliciting contributions, researching and writing scholarly articles for the peer-reviewed journal.

An associate attorney at a private law firm in Texas from 1995-99, Patrick moved to Idaho in 1999. She worked as a legislative affairs manager, lobbyist and board member for the Coeur d'Alene Area Chamber of Commerce from 1999-2001. She was also the North Idaho field representative for then-Rep. C.L. "Butch" Otter from 2000-01, offering congressional staff and constituent services and representing the congressman in public meetings and on key issues.

In 2001, Patrick became vice president of external relations for North Idaho College. She supervised the communications office, advised the institution on policy and advocated for college and student interests to the Legislature. She helped spur tuition legislation that more clearly defined tuition for community college students and capped annual increases.

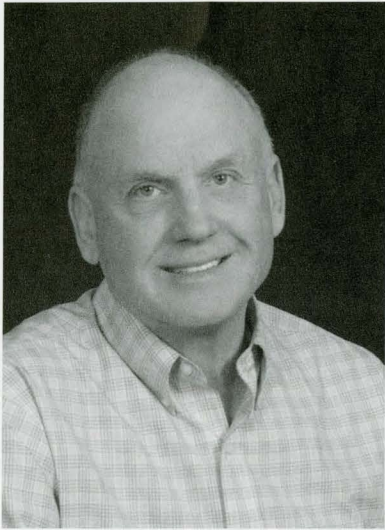

After establishing her private legal practice in 2002, Patrick began contributing to the Coeur d'Alene Press, also taking on the role of columns editor and correspondent. She writes research-based columns and features on a broad array of topics. She won a 2004 Associated Press award and a 2006 Media Award from the State of Idaho Planning Council on Mental Health. Patrick is also an editor and writer for the Northwest Mining and Timber quarterly publication, focusing on the timber and mining industries of Idaho and Washington.

Patrick's community involvement is extensive. A dedicated volunteer, she serves on the Kootenai County Airport Advisory Board and previously served on the Coeur d'Alene Chamber of Commerce Board and the U.S. Bank Community Advisory Board. Other board membership and volunteer positions include North Idaho Court Appointed Special Advocates (CASA), Hospice of North Idaho, Safe Passage Violence Prevention Center and local schools. In recognition of her contributions, Patrick received the 2015 Civil Rights Award from the Kootenai County Task Force on Human Rights, as well as the 2010 Peace Award from Diakonia and Peace Coeur d'Alene.

Patrick lives in Hayden with her husband, Mike. Their son, Conor, graduated from the University of Idaho in 2008.

UNIVERSITY OF IDAHO PRESIDENT'S MEDALLION

The President's Medallion is presented at University of Idaho Commencement ceremonies in May and December. Recipients are individuals who have made significant contributions to the cultural, economic, scientific and/or social advancement of Idaho and its people, and have provided exceptional service to the state or nation that has influenced the well-being of humankind.

Doug Gross

Doug Gross '75 is the CEO of Gross Farms Inc., a vertically integrated potato farm near Wilder. He has been an exceptional potato grower and a leader in the development of Idaho agribusiness for more than four decades. Gross is a passionate and engaged alumnus. Earning his bachelor's degree in agricultural systems management from the University of Idaho in 1975, Gross has a long legacy of service to his alma mater, to the state and to the agricultural industry.

Gross assumed responsibilities on his family's farm in Wilder as a young boy, driving his first tractor at 5 and first large farm truck at 7. He purchased and began expanding his own operation while still in college. In 1983, he started Gross Seed Co. to support Gross Farms Inc. with potato seed and to distribute to other growers. On the 1,500-acre farm in Wilder he now runs with wife, Mary Hasenoehrl (also a former U of I employee), Gross produces potatoes for

processing and the fresh market. He also rotates his potatoes with mint, corn, wheat and seed beans.

Gross has been an active leader in Idaho agriculture in many ways. He served on the Idaho Potato Commission from 1997-2003 and remains involved in outreach and education efforts.

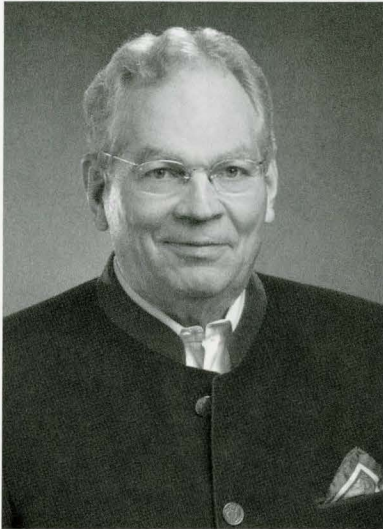

His spirit of service also extends to his alma mater. Gross is a member of the U of I Foundation board of directors. In 2017, Gross received a Silver and Gold Award from the U of I Alumni Association and the Office of Alumni Relations. The award recognizes his distinguished record of achievement in agribusiness and his service to industry and on behalf of the university.

Gross has been highly engaged in connecting U of I research and students with industry and in promoting Extension work. A member of the President's Circle, his generosity for many university programs and initiatives includes 30 years of support for the Vandal Scholarship Fund, an endowment for potato education, and an endowment to support the Vandal Marching Band, established in memoriam for his late wife, Judy '75.

HONORARY DEGREES

An honorary degree is awarded to a person deserving of honor by virtue of scholarly distinction, noteworthy public service or significant contributions to the state of Idaho. In the selection of candidates for honorary degrees, preference is given to those who are Idaho residents or University of Idaho graduates.

UNIVERSITY OF IDAHO – MOSCOW - HONORARY DOCTORATE

Marc Brinkmeyer

Marc Brinkmeyer is owner and chairman of the board of Idaho Forest Group (IFG), one of America's largest lumber producers. Across Idaho and Montana, IFG owns six sawmills and a finger-joint facility with capacity for over 1 billion board feet per year. Brinkmeyer is an accomplished business leader, a champion of education and innovation, and a longtime philanthropist.

Born and raised in Iowa, Brinkmeyer graduated from Buena Vista University with a bachelor's degree in finance in 1968. He began his career in Portland, Oregon, as a certified public accountant with Arthur Anderson and Company before becoming chief financial officer and a member of the board of directors for the Brand S Corporation forest products company.

In 1981, Brinkmeyer purchased the Laclede sawmill from Brand S and formed Riley Creek Lumber Co. In 2003, Riley Creek purchased two additional mills from Louisiana-Pacific Corp. in Chilco and Moyie Springs, becoming the largest lumber producer in the Intermountain West. In 2008,

Riley Creek Lumber merged with Bennett Forest Industries to form Idaho Forest Group.

Based in Coeur d'Alene, IFG grows, harvests, manufactures and distributes lumber and other wood by-products to customers in the United States and abroad. The company emphasizes a talented workforce of more than 1,000 employees and 2,000 partner contractors, as well as state-of-the-art technology in its operations. IFG's mission is to "enhance the lives and livelihoods of our employees, customers, and partners and the communities in which we operate by providing the Earth's best renewable building products."

Brinkmeyer has decades of involvement in industry organizations. He is a former chair and current member of the executive committee of the Softwood Lumber Association, a past chairman of the Western Wood Products Association and the former board president of the Intermountain Forest Association. He has been a member of the Lakes Commission, a member of the Negotiating Committee for the Coalition for Fair Trade Lumber Imports and a U.S. delegate to the European Softwood Conferences.

Brinkmeyer's commitment to education has included service as an advisor to the U of I College of Natural Resources' forest products program (now the renewable materials program) and as a director at Buena Vista University. He contributes generously to U of I academic programs and initiatives, recently supporting a lecture series in the College of Natural Resources. His community and cultural leadership includes sponsorship of the Festival at Sandpoint and the Idaho Humanities Council lecture series. He and his wife, Vicki, live in northern Idaho. He has two sons.

In recognition of Brinkmeyer's contributions to the forestry and wood products industry, his lifetime of service in support of economic development that impacts Idaho and the United States, and his exemplary commitment to higher education, U of I is proud to bestow on him the Doctor of Natural Resources degree with all its rights, honors, privileges and responsibilities.

UNIVERSITY OF IDAHO – MOSCOW - HONORARY DOCTORATE

Don Burnett

Don Burnett is professor emeritus and past dean at the University of Idaho College of Law. He served as interim president of the University of Idaho in 2013-14. His career has encompassed service as an appellate judge, practicing lawyer, U.S. Army Judge Advocate General (JAG) officer, state bar president, law professor and dean of two law schools.

Born in 1946 at Pocatello, Burnett received his bachelor's degree magna cum laude in economics from Harvard, his Juris Doctor from the University of Chicago and a Master of Laws from the University of Virginia. He also graduated on the "Commandant's List" from the Command and General Staff College of the U.S. Army. As a reserve officer in the Army JAG Corps, Burnett was a reserve deputy commandant and academic director of The Judge Advocate General's School. A recipient of the U.S. Armed Forces Legion of Merit award, he retired in 2000 with the rank of colonel.

Burnett's concurrent civilian career began as a law clerk to the chief justice of the Idaho Supreme Court and as an assistant attorney general for the state of Idaho. He entered private practice in Pocatello, became president of the Idaho State Bar, chaired the bar's professional conduct standards committee, served as a judge of the Shoshone-Bannock Tribal Court and was executive director of the Idaho Judicial Council. In 1982, he was appointed to the newly formed Idaho Court of Appeals and in 1986 was retained in office by statewide election.

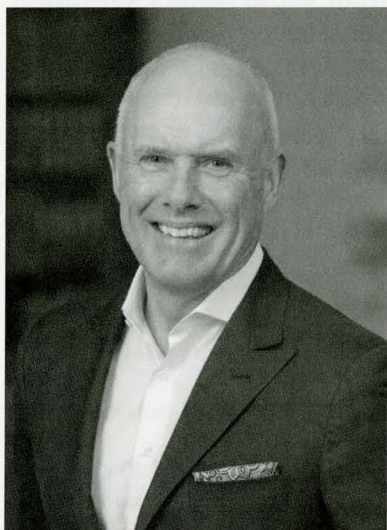

In 1990, Burnett became dean of the University of Louisville's Louis D. Brandeis School of Law, serving 12 years on the Brandeis faculty, including 10 years as dean. He chaired the Professionalism Committee of the American Bar Association's Section on Legal Education and Admissions to the Bar. In 2002, he became dean of the University of Idaho College of Law and served in that capacity for 11 years. As dean, Burnett led initiatives such as the establishing a pro bono service program encompassing all students, expanding legal education in Boise, and embarking with the Idaho Supreme Court on development of the Idaho Law and Justice Learning Center in Boise.

Named interim president in 2013, Burnett worked to broaden participation by staff and faculty in university decision-making, to protect student health and safety, to advance the university's successful capital campaign and to build pride in U of I's distinctive heritage. His writings and speeches often described the university as "Idaho's national land-grant, founding, comprehensive, constitutionally established and, therefore, flagship institution." He emphasized collaboration with sister institutions in promoting all of higher education in Idaho.

Burnett returned to the faculty of the College of Law in 2014 and was named professor emeritus of law in 2016, continuing to be highly engaged in service. His spouse, Karen Trujillo Burnett, is another Pocatello native. An author, she holds degrees from U of I, the University of Chicago, Idaho State University and Boise State University.

In recognition of his contributions as a leader in the U.S. military, as an exponent of professionalism in American legal education, and in service to the University of Idaho, U of I is proud to bestow on him the Doctor of Laws degree with all its rights, honors, privileges and responsibilities.

UNIVERSITY OF IDAHO – MOSCOW - HONORARY DOCTORATE

Matthew Espe

Matthew J. Espe '80 is a retired executive whose extensive career included top roles in global manufacturing businesses. His experience includes sales, marketing, distribution and management for enterprises across North America, Asia and Europe. His accomplishments as a business leader are matched by his commitment to service as a volunteer and University of Idaho alumnus.

Espe earned a Bachelor of Science in marketing from the University of Idaho College of Business and Economics in 1980. He went on to earn a Master of Business Administration from Whittier College. He began his career with GE in 1980 as a technical marketing trainee and rose rapidly through leadership ranks to manage multi-billion dollar revenues as president of GE Plastics, first in Asia and then in Europe. In 1999, Espe became the president and CEO of GE Lighting and senior vice president at GE, with profit and loss leadership for \$3 billion in the global GE lighting business and oversight of 35,000 employees and 55 manufacturing plants.

Espe's leadership took him to the chairman and CEO position at IKON Office Solutions, a \$4 billion office equipment distributor and services provider with 24,000 employees. When IKON merged with Ricoh Americas Corporation, Espe was chairman and CEO for the \$6 billion Americas division – the highest-ranking non-Japanese member of the company's senior leadership team. In 2010, Espe became president and CEO of Armstrong World Industries, a global building products company, retiring in 2016. He has also served as president and CEO of Radial, leading the company through a sale to a Belgian company.

Currently residing in the Philadelphia, Pennsylvania, area, Espe is a respected and active volunteer, board member and advisor to public companies, private equity firms and nonprofit organizations. He has also stayed involved with U of I, volunteering his time as a speaker in academic programs, serving on the College of Business and Economics Advisory Board and with the college's Executive MBA program, and contributing in support of faculty scholarship and university initiatives such as the Idaho Central Credit Union Arena project.

In 2006, Espe received the Silver and Gold Award from the U of I Alumni Association (UIAA) and the Office of Alumni Relations. He was inducted into the UIAA Hall of Fame in 2013. His wife, Lori, graduated from U of I in 1981 with a bachelor's in accounting. The Espes have four children.

In recognition of his decades-long excellence in corporate leadership, his lifetime of service and philanthropy, and his enduring commitment to student success and academic excellence, the University of Idaho is proud to bestow on him the Doctor of Business Administration degree with all its rights, honors, privileges and responsibilities.

ALUMNI ASSOCIATION BOARD OF DIRECTORS

About the University of Idaho Alumni Association, Inc.

The University of Idaho Alumni Association, Inc. (UIAA, Inc.) is a non-dues-paying group, founded in 1898, that supports University of Idaho alumni to connect them with their alma mater. UNIVERSITY OF IDAHO FOUNDATION 2019

About the University of Idaho Foundation, Inc.

The University of Idaho Foundation was established in 1970 to attract private financial support to aid in the achievement of institutional goals and to manage assets for the benefit of the University of Idaho. The Foundation is governed by a board of directors of up to 25 volunteer voting members.

The Foundation receives gifts in a variety of forms that include cash contributions, marketable securities and real estate, and through planned giving opportunities such as bequests, gift annuities, charitable remainder trusts and others.

More than 1,560 individual endowments have been funded through charitable contributions. The endowed funds are managed in the Consolidated Investment Trust (CIT), the Foundation's pooled endowment fund. The principal is non-expendable; distributions support scholarships, faculty development, research and other programs in accordance with our donors' wishes.

With more than \$350 million in assets, the University of Idaho Foundation is the largest public foundation in the state of Idaho.

Idaho's WWAMI Medical Education Program is a partnership with the University of Washington School of Medicine and the states of Washington, Wyoming, Alaska, Montana and Idaho. Started in 1972, WWAMI is currently in its 47th year of successfully educating Idaho's physicians. The WWAMI program is nationally accredited through its partnership with the UW School of Medicine, allowing 40 Idaho medical students to complete their first 18 months of medical training at the University of Idaho, Moscow campus. Idaho's medical students will complete the remainder of their clinical training in Idaho through the WWAMI clinical site in Boise and throughout the five-state WWAMI region.

WASHINGTON-IDAHO REGIONAL PROGRAM IN VETERINARY MEDICINE

Established in 1974. Amin Ahmadzadeh, Ph.D., Co-Chair, and Matt Doumit, Ph.D., Co-Chair of Animal and Veterinary Science

The University of Idaho cooperates with Washington State University in a program of veterinary medical education, research and service. In the program, students from Idaho integrate into the four-year professional training program in veterinary medicine at Washington State University, where faculty members from Washington State University and the University of Idaho offer instruction. In the fourth clinical year of the program, students have the opportunity for large animal clinical training experiences administered through the University of Idaho in Moscow, Caldwell, and other allied areas.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Mace

Maces date to the Middle Ages and symbolize strength and authority. Each is unique and reflects the values and characteristics of the institution. The university's chief marshal, who leads all academic processions, carries the mace.

The University of Idaho's mace, used for the first time at the centennial commencement, is 32 inches long, made of walnut and encircled with bands of Idaho gold and silver in which Idaho garnets and opals have been inlaid. The head is embellished with silver and gold representations of camas plants and syringa flowers. The chair of the university's Faculty Senate, the marshal of the academic procession, carries the mace in the American tradition, at a 45-degree angle across the chest, while in England, the bearer carries it over the shoulder.

University of Idaho mace

University of Idaho President's Medallions

The first medallion was created by Idaho artists George and Macky Roberts. The President's Medallion was first used in 1965 at the inauguration of Ernest Hartung, the University of Idaho's 12th president.

The medallion's base is a three-and-a-half-inch disc of pure Idaho silver. Mounted on the base is a disc of native jasper; a sterling silver sunburst is inlaid in the disc. Inside the sunburst is a modification of the Chinese character meaning "mountain," which features three upward-pointing prongs. Over the center prong is a gold inlay, thus symbolizing "Light on the Mountain."

The heavy medallion was worn suspended from a collar woven of Idaho wool, some of which is dyed with dahlia flowers to match the jasper and some of which is from a black sheep.

The second President's Medallion, worn during commencement by then-President Timothy P. White, was commissioned in 2004. This medallion's base is a gold-leafed university seal and is worn suspended by a chain with gold leaf charms, each representing the presidents who have served the university.

The university's second, and current, President's Medallion.

The first President's Medallion, created in 1965.

SIGNIFICANCE OF ACADEMIC APPAREL AND SYMBOLS OF INVESTITURE

University of Idaho Academic Apparel

By observing certain features of the academic apparel, it is possible to learn several things about the academic status of the scholar: the level of the degree attained, the branch of learning in which it was earned, and the college or university conferring the degree.

Gowns

The gowns differ according to the level of the degree. The sleeves are the principal indicator—gowns of bachelor's have pointed sleeves; those of master's have oblong sleeves with an arc cut away at the front; and doctors have round, bell-shaped sleeves. Bachelor's and master's gowns are untrimmed. Doctoral gowns have distinctive velvet facing down the front and three velvet bars on each sleeve.

The University of Idaho adopted a doctoral gown of its own in 1989. The silver gown has a panel and sleeve bars of black velvet outlined in antique gold. The beret-styled soft cap is patterned after the Cambridge version instead of the traditional Oxford-style mortarboard. The cap and gown were designed by Emeritus Professor Edmund Chavez in the University's centennial year and are worn today by officials and university administration.

Honor Cords

Honor Cords, worn around the neck and hanging loosely down the front, identify students who are graduating with honors: gold, summa cum laude (with highest distinction); silver, magna cum laude (with great distinction); and bronze, cum laude (with distinction). The cords are provided by the University of Idaho and are worn on this one occasion only.

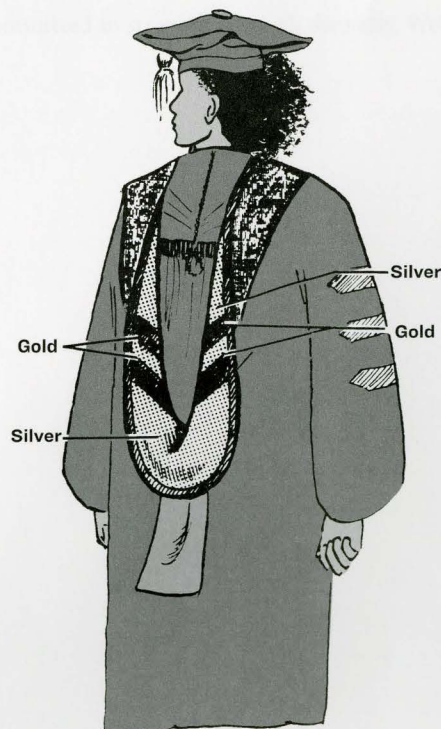

Caps

The color of the tassel worn on the cap varies with the level of degree. The bachelor's tassel represents the color appropriate to the major field of study (see colors at right); the master's and specialist's tassels are black; and the doctoral tassels are old gold.

Hoods

The length of the hood also varies according to the level of degree. The bachelor's gown is worn without a hood. A master's hood is three and one-half feet long, and a doctor's hood is four feet in length and has panels at the sides. It is from the colors adorning the hood that one can learn two other facts. Lining: the hood is lined with the official color or colors of the college or university conferring the degree (silver and gold, signifying the University of Idaho). Trimming: the hood is trimmed with velvet of a color appropriate to the wearer's branch of learning. For example, the trimming for the degree of Master of Science in Agriculture is maize, representing agriculture, rather than golden yellow, representing science. (In the case of the Doctor of Philosophy degree, the dark blue color is used, representing the mastery of the discipline of learning and scholarship, regardless of the branch of learning.) Colors associated with the different disciplines are listed below:

Agriculture.....	Maize
Arts, Letters, Humanities.....	White
Commerce, Accountancy, Business.....	Drab
Economics.....	Copper
Education.....	Light Blue
Engineering.....	Orange
Fine Arts, including Architecture.....	Brown
Forestry.....	Russet
Journalism.....	Crimson
Law.....	Purple
Music.....	Pink
Philosophy.....	Dark Blue
Physical Education.....	Sage Green
Public Administration.....	Peacock Blue
Science.....	Golden Yellow

"HERE WE HAVE IDAHO"

1 Alma Mater, the hope of a pioneer race;
You're fashioned of dreams and of toil,
Your walls and your towers by stout-hearted men
Were raised from the rock and the soil.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

2 Now ours is the heritage, rich and so full,
The gain of their toil and their tears;
And ours is the fruit, and the harvest is ours,
Oh, Idaho, gift of the years.

Chorus

And here we have Idaho,
Winning her way to fame;
Silver and Gold in the sunlight blaze,
And romance lies in her name;
Singing, we're singing of you, ah, proudly too;
All our lives through we'll go singing,
Singing of you, Alma Mater, our Idaho.

UNIVERSITY OF IDAHO BOISE

University of Idaho Boise originated in 1910 when an agricultural Extension program was established in Ada County. In 1953, U of I Boise grew with the introduction of teacher education programs, which were expanded in the early 1980s. A cooperative agreement between the university and the Idaho Department of Fish and Game led to the 1963 opening of the Idaho Water Resources Research Institute (IWRRRI) with offices in Boise, Moscow and Idaho Falls. Engineering courses were first delivered in Boise in 1988. Agricultural Extension, regional and state personnel, and several university support offices were located in Boise for greater statewide access and service in the early 1990s. In the late 1990s, Idaho WWAMI opened its doors in Boise and all U of I programmatic, advancement, athletics and other efforts in the community were brought together under the umbrella of U of I Boise. In the early 2000s, the College of Art and Architecture began offering courses in Boise, now including the first two years of its bachelor's degree in architecture. At the same time, the College of Law started offering externship opportunities and is now offering its complete Juris Doctor curriculum in Boise.

Today, students, faculty, researchers and staff work on a variety of topics that include water; natural resources and the environment; education; law; community sustainability and design; family economics; childhood education; nutrition education; pesticide safety and management; food technology, safety and processing; water resources engineering; and public policy.

Excellence at U of I Boise can be measured by the success of the many people we serve across the region and by the quality and achievements of our more than 140 faculty and staff members.

U of I Boise provides southwest Idaho access to all university resources. The center is focused on community impact, regional economic development and supporting university growth.

Strategically located in Boise – the economic and governmental center of Idaho and home to more than 55 percent of the state's population and business entities – U of I Boise supports teaching, learning, research, medical education and outreach. U of I Boise distinguishes itself through:

- Quality programs that accommodate working professionals and full-time students with a focus on professional and workforce development;
- Outreach to southwest Idaho's communities to foster their sustainability, growth and educational access;
- Proactive research for domestic and global solutions;
- Collaborative and interdisciplinary work with the public and private sectors, including other institutions of higher education; and
- Enduring relationships with alumni and friends to carry forward the proud history and traditions of the University of Idaho.

At U of I Boise, we are accessible and responsive to the public. We are committed to strength through diversity. We serve the region, the state, the nation and the world.

UNIVERSITY OF IDAHO COEUR D'ALENE

The University of Idaho Coeur d'Alene shapes the future of North Idaho by bringing university resources into our local communities. The center engages university expertise to transform education, develop innovative research and cultivate a knowledge-based economy.

Students can reach higher education excellence in Coeur d'Alene through live and online bachelor's and graduate programs. Seven U of I colleges are represented by more than 20 local faculty, and video communication allows classroom collaboration statewide. Professional development and certificate programs bring continuing education opportunities to leaders in both the public and private sector.

Coeur d'Alene is the proud host site for the U of I Executive Master of Business Administration program. With a new cohort starting every other year, the class schedule allows students to earn their MBA in 20 months without interrupting careers. The program combines the rigor and depth of a traditional MBA with the integrated curriculum and flexible format of an executive program.

Technological innovation is carving a prominent place in the future of North Idaho. The University of Idaho Coeur d'Alene elevates this emerging sector with tech opportunities for all. Nearly 1,000 middle and high school students have attended a Dig'nIT tech camp since the program's inception in 2013. In the heart of downtown, a growing robotics laboratory is home to the latest U of I Computer Science degree program. This department piloted Co-op Education in 2018, allowing students to spend six to 12 months during their junior and senior years working full time for near-market pay in the regional tech industry. For learners of all ages, the center spearheads InspireIdaho, which provides free app development training statewide.

Building a pipeline of engaged early learners is a key tenet of the U of I Coeur d'Alene mission. In partnership with local schools, industry partners and foundations, the university supports childhood literacy through Opening Books, Opening Doors. Local Confucius Institute instructors deliver Chinese language and culture classes across Kootenai County. As a founding partner of community makerspace Gizmo-CDA, U of I grows opportunities for innovation through the Emerging Media Arts Lab.

Surrounded by lakes, rivers and mountains, U of I Coeur d'Alene is uniquely positioned to build programming connected to the rich natural environment. Through the Confluence Project, the U of I Community Water Resource Center and regional partners give hundreds of high school students hands-on water science experience from the shores of Lake Coeur d'Alene to the slopes of Lookout Pass. The Lake Social Ecological Systems Lab and the Idaho Water Resources Research Institute conduct research on the health of our vast water systems.

U of I Coeur d'Alene strategically plans for the future of the Lake City as an active participant with the North Idaho Higher Education consortium, CDA 2030, chambers of commerce and economic development corporations. The DeArmond Higher Education Center will open in the summer of 2019, bringing state-of-the-art student services from five higher education institutions under one roof. In Post Falls, the Jacklin Science and Technology Center supports startup companies. In the near future, U of I plans to bring a Tech and Innovation Center to Coeur d'Alene where additional degree programs and entrepreneurship will flourish.

Through its degree programs, technology and research centers, and collaborative philosophy, U of I Coeur d'Alene provides outreach and opportunity for all people of North Idaho.

UNIVERSITY OF IDAHO, IDAHO FALLS

In Idaho Falls, our core mission is engineering, science and technology. Our campus at University Place features high-tech classrooms, excellence in the curriculum offered and renowned faculty who are actively engaged in research. The Center for Advanced Energy Studies research facility is a partnership between the three Idaho universities, University of Wyoming and the Idaho National Laboratory, the Department of Energy's lead nuclear research laboratory.

University of Idaho has offered degree programs in Idaho Falls for over 60 years. Since our first graduating class in 1955, more than 2000 students have earned degrees. Many more have completed certificates and courses for professional and personal development.

Students, faculty and staff at the Idaho Falls Center are part of a community that extends throughout the entire state of Idaho. University of Idaho has extension offices located in 42 counties and academic centers in Idaho Falls, Boise, Twin Falls, Coeur d'Alene and the main campus in Moscow. Students can take courses offered by faculty at multiple locations and interact with students from other disciplines.

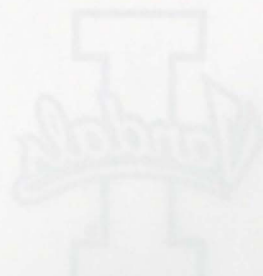

The University of Idaho, Idaho Falls staff and faculty extend congratulations to the graduating class of 2018-19 for their achievements.

UNIVERSITY OF IDAHO FIGHT SONG

“GO, VANDALS, GO”

*Came a tribe from the North, brave and bold,
Bearing banners of Silver and Gold;
Tried and true to subdue all their foes
Go Vandals, go mighty Vandals!*

*Go, Vandals, Go,
Fight on with hearts true and bold,
Foes will fall before your Silver and your Gold,
The victory cannot be withheld from thee,
So all bear down for Idaho,
Come on old Vandals, go!*

*I-D-A-H-O
Idaho, Idaho, Go! Go! Go!*

*The victory cannot be withheld from thee,
So all bear down for Idaho,
Come on old Vandals, go!*

HISTORY

First sung at an Idaho football game in 1931, “Go, Vandals, Go” was adopted as Idaho’s only fight song. It was composed by J.M. “Morey” O’Donnell, a longtime Moscow attorney, when he was a freshman at the university. A native of Granite, Idaho (north of Coeur d’Alene), Morey was a child prodigy who began playing the piano at age six, was in an orchestra by 13, and was traveling the world with a dance orchestra by the time he entered the university in 1930.

At that time, Idaho’s fight song was “On Idaho” which was sung to the tune of “On Wisconsin.” The ASUI sponsored an annual songfest competition among the classes, and one of its purposes was to find a new fight song. “Go, Vandals, Go” won the competition in 1930 and immediately became the Vandals’ only mantra. It was copyrighted by the university in 1931.

The chorus was written as whole notes and half notes so that it could be easily sung by a large crowd. Many school songs are difficult to sing because of the fast beat used to make them spirited. “Go, Vandals, Go” instead relies on a heavy drum beat and the nature of the words to carry the spirit. As a result, it is continually cited as one of the top college fight songs in America.
