SL

Mercedes-Benz

FIRST LOVE FOREVER

*FEW CARS INSPIRE LOVE AT FIRST SIGHT LIKE A ROADSTER.
NO ROADSTER MAKES THE PASSION ENDURE LIKE AN SL.*

ENDLESS DEVOTION TO INSTANT DESIRE

Remember when you saw your first SL? Maybe you admired it in a photograph in a magazine, or glimmering on the auto show carpet. Perhaps you witnessed it capturing a checkered flag in Italy, or caught a glimpse as your neighbor whisked off to work. Wherever it was, it didn't just stay in your mind. It got into your heart that someday it would be you behind the wheel—the sound of each rev carried off by the wind. The feel of each corner hugging you back. And the idea that, just out of view, someone is catching a glimpse of you driving your SL—and thinking “someday that will be me.”

FUTURE HERITAGE

*THE SL HAS A HISTORY OF MAKING HISTORY, PRECISELY
BECAUSE IT'S ALWAYS FOCUSED ON WHAT COMES NEXT.*

IN THE MOMENT, AHEAD OF ITS TIME

What makes every SL an icon comes from the fact that it's always reached for the stars rather than resting on its laurels. The legacy evident in its design is always one of leaping ahead. Its body is made from aluminum—much like the original SL—for exceptional strength with light weight. The all-year, all-day, all-night enjoyment of its convertible top has been advanced by every SL generation. Today's fully automatic power hardtop, Panorama glass roof and MAGIC SKY CONTROL® electrically variable tint are all SL firsts. Its ongoing legacy of innovation is why driving one never gets old.

ALL FOR THE TWO OF YOU

*THE ESSENCE OF A SPORTS CAR IS FOUND IN
ITS PERFECT PAIRINGS: A COCKPIT TAILORED
FOR TWO, THE SKY ABOVE AND ROAD BELOW,
AND THE BOND BETWEEN YOU AND YOUR SL.*

STAR TREATMENT

The perfect roadster experience is more than a drive—it's a romance with the road. And while some sun-worshipping is sure to be enjoyed, the SL shares its virtues at other times as well. The twin power seats can offer cooling ventilation in summer, and soothing heat in winter. On those in-between evenings, AIRSCARF® can envelop your neck and shoulders in warm air—a virtual scarf that extends the top-down driving season. Even with the power hardtop up, the standard Panorama roof's tinted skylight lets you bask in sunshine, ride in shade, or drive with the stars.

SOLAR FLAIR

Precisely tailored leather, fitted by hand to each seat, is a treasured SL tradition. The seamless integration of advanced technology is another. Case in point: An advanced treatment of the SL's leather—even the extra-smooth and supple Nappa leather—helps it reflect sunlight. Not only do the seats stay appreciably cooler on summer days, it also enhances their enduring beauty. The contrasting-color topstitching that details each seat continues to the dash and console. You can also opt for exquisitely crafted, hand-selected *designo* Nappa leather in eight dramatic color schemes. Cabin accents include your choice of three hand-finished woods, sleek aluminum, or genuine carbon fiber. And beneath the surface, steam-expanded foams—a process pioneered by Mercedes-Benz—eliminate harmful chemicals, while products from flax, coconut and olives support the seats and many trim components. The SL puts you at one with the outside world.

UNBRIDLED PRECISION

*WITH TWIN TURBOS AND A WIND-SLICING BODY, YOU CAN ALWAYS
FEEL THE RUSH OF THE AIR IN AN SL. EVEN WHEN THE TOP IS UP.*

TAKING THE REINS IS A TOTAL RELEASE

The true test of a roadster is not a breezy cruise in the countryside. It's a tight corner on a racetrack. A sudden twist in an unfamiliar road. The need to merge this instant. Or to stop even sooner. An SL turns extreme pressure into composed confidence. Any of four biturbo engines—V-6, two V-8s, or a V-12—will rapidly demonstrate that. So will either of two suspensions: One can adapt in 10 milliseconds. The other is fully active. With every torque vectoring, paddle-shifting, adaptive braking move, you'll feel it: An SL is a rush. And a breeze.

HANDCRAFTED BY RACERS

MERCEDES-AMG IS NO MERE SPONSOR OF RACING. AMG IS PEOPLE WHO DEVELOP, BUILD AND RACE RACECARS. AND THEY WIN. THEN THEY DEVELOP AND CRAFT HIGH-PERFORMANCE STREET CARS. AND YOU WIN.

“One man, one engine” is more than a motto for AMG. It’s a guiding philosophy and a process rooted in racing, where precision and endurance are proven in record time. The heart of a Mercedes-AMG SL 63 or SL 65 is its biturbo engine. Each one is crafted by the hands of its own master engine builder, who visually inspects and records every component, and computer-verifies each torque spec. Only after the engine is individually bench-tested does it earn his signature—on a metal plaque that he affixes atop its cover. This degree of detail-obsession is evident throughout the car—from its mighty brake hardware to its range of driver-selected modes to its finely stitched, hand-fitted Nappa leather upholstery.

The AMG SL 63’s biturbo V-8 outpours 577 hp and 664 lb-ft of torque. With a 7-speed multiclutch AMG SPEEDSHIFT® transmission and staggered-width 19" AMG® wheels,¹ it can catapult you to 60 mph in 4.1 seconds.² In the AMG SL 65, a biturbo V-12 generates a dominating 621 hp, 738 lb-ft of torque, and 0–60 in 3.9 seconds. Along with a 7-speed AMG SPEEDSHIFT® PLUS transmission, its AMG wheels and tires are staggered in both width and diameter: 19" front/20" rear. In either model, AMG-calibrated Active Body Control (ABC®) teams up with a limited-slip differential, multistage ESP® and Torque Vectoring Brake, all to deliver the agility that AMG drivers have cherished—on road and track—for decades.

AMG
DRIVING PERFORMANCE

DEFENDING CHAMPION

ON THE RACETRACK OR THE ROAD, SAFETY IS AN INTEGRAL PART OF PERFORMANCE. THE SL HAS LONG SET THE PACE FOR SPORTS-CAR SAFETY. ITS POP-UP ROLL BARS ARE A BENCHMARK OF OPEN-ROADSTER OCCUPANT PROTECTION. ITS PIONEERING ADAPTIVE BRAKING TECHNOLOGY SET AN INDUSTRY STANDARD – NOT JUST FOR SPORTS CARS, BUT FOR ALL CARS. WHEN IT COMES TO DEFENDING YOUR SAFETY, IT'S FAST AND STEADY THAT WINS THE RACE.

NIGHT VIEW ASSIST PLUS

When you're driving in darkness, available Night View Assist® PLUS projects invisible infrared beams and reads them with a special camera. A supplement to what the standard active Bi-Xenon headlamps reveal through the windshield, the system can display a clearer, additional real-time view of the road ahead on the central in-dash screen. Its advanced technology can also help it identify pedestrians and animals along a dark roadway, and point them out on-screen.³

ATTENTION ASSIST

By continuously monitoring as many as 70 parameters of driving behavior, ATTENTION ASSIST® can alert you both visually and audibly if it detects signs of driver-drowsiness on long trips. Its enhanced sensitivity helps the system detect drivers who begin their trip drowsy. A display in the gauge cluster can help you track your own attention level and driving time along your journey.⁴

ACTIVE LANE KEEPING ASSIST

By monitoring visible road markings at speeds above 37 mph, Active Lane Keeping Assist helps detect unintended drifting off-course, and alerts you by vibrating the steering wheel. If you continue to drift, it can selectively brake individual wheels to help guide the car back into its lane. It can also help detect and alert you to overtaking vehicles, vehicles you'll need to overtake if you change lanes, and even oncoming traffic in the adjacent lane.⁴

ACTIVE BLIND SPOT ASSIST

When driving above 20 mph, radar technology helps sense when a vehicle enters the blind-spot area on either side of you, and alerts you by illuminating an icon in the side mirror. A warning tone sounds if you activate a turn signal while a vehicle is detected. And if you begin to change lanes, advanced active technology can help guide the car back by applying the brakes on one side.⁵

DISTRONIC PLUS WITH PRE-SAFE BRAKE

Radar-based cruise control adapts your set speed to the flow of traffic ahead, automatically slowing until your path is clear again. If the vehicle ahead slows to a stop, DISTRONIC PLUS[®] can brake to a full halt. When traffic starts to go, you can resume with just a tap.⁶ And whether you're using the cruise control or not, PRE-SAFE[®] Brake can help detect an impending collision and automatically apply up to 100% braking force to help reduce the severity of impact.⁷

POP-UP ROLL BARS

In 1989, the Mercedes-Benz SL introduced the industry's first pop-up roll bar, a significant advancement in convertible safety that continues to enhance protection today. If sensors in the SL detect that a rollover is about to occur, a pair of high-strength roll bars deploy from beneath the rear cabin trim in less than a third of a second, to help preserve and protect the occupant space.⁸

PARKTRONIC WITH ACTIVE PARKING ASSIST

As you drive by parallel parking spaces, sensors help you size them up. When you decide to back into one, Active Parking Assist can park your SL virtually hands-free—expertly steering the car while you operate the pedals. In any low-speed maneuver, PARKTRONIC uses ultrasonic sensors in the bumpers to help detect nearby objects within the system's field of view. Audible and visual indicators in the SL's cabin help you negotiate tight spaces with confidence.

NECK-PRO ACTIVE HEAD RESTRAINTS

In the event of a rear impact exceeding a preset threshold, NECK-PRO[®] active head restraints instantly move forward and slightly upward, to help reduce the distance between each head restraint and the seated occupant's head. This action helps to reduce the likelihood or severity of whiplash-type neck injuries.

INSIGHTFUL OUTLOOK

THE MOST REWARDING VIEW FROM AN SL IS CONTAINED WITHIN ITS COCKPIT.

NO DETAIL OVERLOOKED, NOR OVERDONE

Even amid the most picturesque landscape, the scenery you'll likely enjoy most in your SL is literally inside your SL. Its driving controls are elegantly rendered in satin aluminum and hand-stitched leather. Circular air vents would look perfectly at home in a private jet. The central display stays vivid, even in sunshine. And the SL pays equal attention to how you feel, seamlessly adjusting its climate control to sunlight, humidity, and even if the power top and windows are open.

ACCELERATING PROGRESS

No other roadster wraps cutting-edge innovation in time-honored craftsmanship like the SL has for generations. Its power hardtop flips and folds into the trunk in seconds, leaving room for two golf bags. Its elegant electronic shifter and classic dashtop analog clock let you keep time with the SL's performance. With in-car Internet and Cloud-based apps,⁹ the SL's user-friendly technologies keep you feeling fully connected.

Its innovative entertainment systems let you freely escape. Choose from two surround sound systems—from industry leader harman/kardon® or audiophile favorite Bang & Olufsen.® Both team up with the clever FrontBass® system, in which the front body structure doubles as bass enclosures. And with SPLITVIEW, your passenger can watch a DVD movie¹⁰ on the in-dash color display while you continue to see its navigation or audio screens from behind the wheel.

*AN SL HAS ALWAYS BEEN MORE THAN A WORK OF ART.
IT'S CONTINUALLY REDEFINED THE STATE OF THE ART.*

ADVANCED BY TRADITION

TOGETHER WHEREVER

IT'S PERFECTLY NATURAL TO DEVELOP AN EMOTIONAL ATTACHMENT TO YOUR MERCEDES-BENZ. WITH MBRACE, ENJOYING A TECHNOLOGICAL CONNECTION IS JUST AS EASY.

With Mercedes-Benz mbrace[®], your car is only a click away. Five years of mbrace Connect benefits and services⁹ come standard with every new 2016 Mercedes-Benz, providing you with remote access to your vehicle from your smartphone or computer. With the mbrace Mobile App,¹¹ you can lock, unlock and locate your car—and more—from your phone. You can access Google and Yelp from your car with an ever-evolving variety of in-vehicle apps. You can send destinations to your car's standard COMAND[®] navigation system from your computer or phone. Even your car can reach out, with remote diagnostics and a direct connection to Mercedes-Benz Roadside Assistance.¹² Three additional packages bring you even more connections—from added safety to a personal concierge to streaming music from all around the globe. With mbrace, your Mercedes-Benz helps you stay connected not just to your car, but to your world—from anywhere you are, and wherever tomorrow takes you.

mbrace Connect

5 years included

State-of-the-art convenience with remote vehicle access, in-vehicle apps and over-the-air updates

Package includes:

- mbrace Mobile App for Android or iPhone
- Remote lock/unlock and other vehicle features via Mobile App
- Access to mbrace Web services at mbrace.MBUSA.com
- Remote diagnostics with direct dealer connection
- Over-the-air updates of many mbrace features and apps
- An evolving selection of Mercedes-Benz Apps, such as:
 - Google[™] Local Search
 - Yelp
 - Fuel station finder with prices
 - Weather reports locally and around the world
 - Airport flight status
 - Local movie theater showtimes
- Valet Protect
- Viewable traffic cams in many metro markets

mbrace Secure

6-month trial included

Requires mbrace Connect

Added peace of mind from safety and security features for you, your family, and your vehicle

Package includes:

- Automatic Collision Notification
- Emergency calling from your car's SOS button or the Mobile App
- Automatic Alarm Notification
- Stolen vehicle location assistance
- Agent-assisted remote locking and unlocking
- Dealer connect

mbrace Concierge

3-month trial included

Requires mbrace Secure

Personal assistance from highly knowledgeable professionals with access to a world of resources

Package includes:

- Personal concierges to help you stay more productive on the road, or from the Mobile App on your smartphone
- Expert recommendations and reservations for dining out, and for tickets to events
- Turn-by-turn directions from a live assistant or sent to your car
- Travel assistance, including reservations and changes for hotels, airlines and car rentals
- Answers to most any question, help with most any request

mbrace Entertain

3-month trial included

Requires mbrace Secure

Online, on-the-road enjoyment from streaming entertainment to online maps

Package includes:

- Streaming audio and data via widely available 3G coverage
- Online maps, powered by Google
- A selection of streaming audio apps, including:
 - TuneIn[®] radio
 - iHeart Radio[®] Available starting Fall 2015
 - Mercedes-Benz Radio

CAR IN YOUR POCKET

The mbrace Mobile App on your iPhone or Android phone includes a number of remote vehicle controls among its many useful features. You can lock and unlock the doors from any distance. Locate your car on a map. Or flash its lights and sound the horn. You can even look up an address, and send it directly to your car's COMAND navigation system.

OUR WORLD IS YOURS

The online world of Mercedes-Benz is one of many ways you can enjoy being part of the family. You can keep up to date with news and events, or take in an entertaining film. You can get more from your vehicle with helpful tutorial videos and downloadable manuals. And you can check out photos from other Mercedes-Benz drivers and fans, and best of all, share yours as well.

ENDNOTES

- Lower aspect ratio tires and accompanying wheels provide substantially increased treadwear, increased tire noise and reduced ride comfort. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces or upon encountering road debris or obstacles. These tires are not designed for use on snow and ice. Winter tires mounted on appropriately sized and approved wheels are recommended for driving in those conditions. Models equipped with Extended Mobility tires are not provided with a spare tire. AMG models are provided with TIREFIT sealant and a portable air pump.
- Stated rates of acceleration are estimated based upon manufacturer's track results and may vary depending on model, environmental and road surface conditions, driving style, elevation and vehicle load.
- Night View Assist® PLUS does not replace the use of headlamps and must not be used as the primary visual source for the driver.
- Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® and/or Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury. Lane Keeping Assist operates at speeds above approximately 37 mph.
- Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It must not be used as a sole substitute for driver awareness and checking of surrounding traffic conditions. Blind Spot Assist operates at speeds above approximately 20 mph.
- DISTRONIC PLUS® adaptive cruise control is no substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the DISTRONIC Proximity Warning System before braking, as that may not afford sufficient time and distance to brake safely.
- Braking effectiveness also depends on proper brake maintenance, and tire and road conditions.
- The roll bar system is designed to enhance the level of rollover protection compared to a vehicle without one. No system, regardless of how advanced, can eliminate the chance of injury in an accident. Please always wear your seat belt.
- All Mercedes-Benz mbrace® services operate only where cellular and Global Positioning System satellite signals are available, which are provided by third parties and not within the control of Mercedes-Benz USA, LLC. Five years of the mbrace Connect package are included, starting on the original retail sale or lease date from an authorized Mercedes-Benz dealer. Subscriber Agreement is required for service to be active. Some services are only available on select vehicles. Your PIN is required in order to use certain services. Some services may be limited or restricted in some areas. Apps may be introduced, updated or removed at varying dates, and may also require a vehicle software update. Driver is responsible for complying with traffic and other laws. See your dealer or MBUSA.com/mbrace for details, including a list of compatible smartphones. Streaming Internet-based features require an active subscription to the mbrace Entertain Package. Connection may be limited by cellular signal.
- System availability and use are not yet approved in some states. See your dealer for the latest information, and check local laws regarding the use of front-seat video displays in your area. Driver can also view the entertainment features while the gear selector is in Park.
- The mbrace Mobile App is compatible with Apple iPhone® models running iOS 7.0 or later, and Android-based phones running OS 2.3 or later. Please visit MBUSA.com/mbrace for more information.
- Roadside Assistance repairs may involve charges for parts, service and towing. Vehicle must be accessible from main roads. Depending on the circumstance, these services may be provided by an outside provider, courtesy of Mercedes-Benz Roadside Assistance. Restricted roadways, acts of nature and vehicle accessibility may limit our ability to provide services to you. For full details, eligibility requirements, and limitations/exclusions of Sign and Drive services, as well as the Roadside Assistance Program, please see your dealer.
- Rearview camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions and the presence of dirt, ice or snow on the cameras.
- The purchase or lease of a new, satellite radio-enabled vehicle includes a 6-month introductory subscription to the Sirius All Access package, as well as a 5-year introductory subscription to SiriusXM Traffic and SiriusXM Weather. SiriusXM Traffic and Weather services are available for select markets. SiriusXM Satellite Radio, SiriusXM Traffic and SiriusXM Weather subscriptions are sold separately or as a package after trial period. If you decide to continue your subscription after your trial, the plan you choose will automatically renew and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at siriusxm.com. All fees and programming subject to change.
- AMG High-contrast Styling Package is available with Black, Magnetite Black (with matching roof), Obsidian Black (with matching roof), Selenite Grey, Shadow Grey, Iridium Silver, *designo* Diamond White, or *designo* Magno Cashmere White paint. Roof is painted Black with all colors except when noted as matching. Package is not available in combination with other color and trim choices, wheel options, or AMG Exterior Carbon Fiber Package.
- The carbon-ceramic brakes are designed expressly for high-performance braking. It is a characteristic of their materials and design that brake noise/squeal may result, along with differing brake pedal feel at lower brake temperatures compared to higher operating temperatures.
- Extra-cost option. Some *designo* paint and leather options may require additional production time. Please see your dealer.
- Introduction dates vary. Please see your dealer.
- Extra-cost option.

The personal rewards of striving to be the best are even more meaningful in the development of young people than they are for automobiles. Instilling the values of leadership, goal-setting, discipline and teamwork in youth is an investment in everyone's future. It's why Mercedes-Benz USA is collaborating with the Laureus Sport for Good Foundation, with an ongoing commitment to train and place hundreds of coaches for after-school and in-school sports programs in communities around the country. Sports offer kids more than the chance to be physically active and have fun. It's also an opportunity to have a mentor who can guide them, help them learn how to deal with major life issues, and help them grow stronger not just physically but in their character. As a Mercedes-Benz driver, you become a part of this effort to give hundreds of thousands of kids a better life today, and all of us a brighter tomorrow.
