Welcome to our Land Rover & Range Rover Accessory Catalogue

This is our very first, dedicated, Land Rover & Range Rover accessory catalogue, offering the most comprehensive range of Genuine, OEM & Aftermarket products available to enhance your vehicle - all at competitive prices!

Over 200 pages filled with quality accessories, carefully selected by us from manufacturers and distributors around the world. All models are covered, from Series 1 to the latest All New Discovery, Range Rover Classic to Evoque, 1948 to 2017 and beyond.

Featuring a vast array of products from the latest LED conversions, to garage workshop products, exterior mods including chequer plate, bumpers and light guards. Interior upgrades, stainless steel exhausts, wheels, performance enhancements and more. Additionally, we have not forgotten the very essence of Land Rovers - there are many off-road protection & performance enhancing products too. And take a look at our detailed application data by model on oils, transmission fluids & touch-up paints - all available from stock.

Make your Land Rover stand out from the crowd - there is something in here for everyone!

POPULAR PARTS CATALOGUE

In addition to our Accessory Catalogue, our Popular Parts Catalogue features those other parts you may need. We also have more detailed parts catalogues for Range Rover Classic & P38, Range Rover Sport, Discovery 1, 2 and 3, Defender and Freelander 1 - please request your free copy. Details of all our other catalogues can be found on the inside rear cover.

We pride ourselves in being able to offer from stock, a vast array of genuine, OEM and Aftermarket parts at competitive prices and deliver them fast - worldwide. We have sophisticated systems to handle, process and track your order - delivering the service you expect from a name that has been in the parts business for over 35 years.

PARTS IDENTIFICATION - USING OUR ACCESSORY CATALOGUE

We identify parts so that you know what you are buying. When there are alternatives to the original Land Rover part, where options are available, we use a simple numbering system so that you can select the part that best suits your needs and budget. This avoids any confusion when comparing quality and price:

- Genuine (Land Rover boxed) part - will have a plain number
- Aftermarket (reproduction) part - will have a P suffix
- OEM (original equipment manufacturer) part - will have a P1 suffix

Technical Help

We are also able to offer a full technical sales and customer service back-up to help select the parts you need and to ensure that everything you order meets expectations.

Can't find what you're looking for?

Rimmer Bros is an authorised Land Rover Parts Distributor. We have access to the full range of genuine Land Rover parts - for every model direct from Land Rover. For parts not listed in this catalogue, please contact us quoting your full VIN number.

Our bank details for US Dollar are:- NAT WEST Bank, Account Prefix 140/00/
Account No. 15012506 IBAN No GB16NWBK60730115012506 IBAN BIC NWBKGB2L

PRICING

The prices in this Catalogue were correct at the time of printing but are subject to change without prior notice. Please confirm all prices when ordering.

Our website gives up-to-the minute information regarding availability and the price of any item. We show two prices in GBP, one excluding VAT (for worldwide, outside EU countries) and one including UK VAT at 20%. Orders shipped to certain EU countries will be charged EU VAT at that country's prevailing rate - please see 'VAT' below.

All orders will be invoiced and charged in GBP. All goods are sold subject to the price ruling at the time of invoicing.

VAT

Residents of the UK and certain EU countries pay 20% UK VAT (Sales Tax) on parts and delivery. Due to EU legislation, where we exceed the export threshold to a country, we must VAT register and charge VAT at that country's prevailing rate. UK VAT is charged at 20% on EU shipped orders except in the following countries; Austria 20%, Belgium 21%, Denmark 25%, Finland 24%, France 20%, Germany 19%, Ireland 23%, Italy 22%, Netherlands 21%, Portugal 23%, Portugal Azores 18%, Portugal Madeira 22%, Spain 21%, Sweden 25%. Our EU VAT number will be shown on the invoice.

Note that books and manuals are generally zero rated for VAT purposes.

For EU businesses who are VAT registered, we require your VAT number and official order to export at VAT exempt prices.

For Worldwide (outside the EU) orders sent direct from our premises, VAT is not charged however, any local import duty, taxes or customs clearance are not included in our prices and must be paid for by you, usually at the time of delivery by the Carrier.

Visitors to our shop & sales counter from outside the EU can reclaim the VAT (when leaving the country) using a VAT407 Reclaim Form which we can provide upon request. This form cannot be used for Mail Order transactions.

QUOTATIONS

If you require a written quotation for the part(s) and/or delivery charge(s) before ordering, please contact us.

BACK ORDERS

Back-ordered parts are not charged for until despatch. Upon despatch we will charge the price (in GBP) quoted at the time of ordering. Prices will be unaffected by any subsequent price alterations unless advised in writing to you.

Please notify us in writing (letter, fax or email) if you wish to cancel any back ordered items. Back orders are automatically cancelled after 3 months. Back Ordered parts will be sent carriage free (some exclusions apply for export overseas). If you would prefer that your order is sent complete, please request this at the time of ordering.

SPECIAL ORDERS

Certain items (coloured trim, carpets, one-off type parts, etc) are sometimes only available by special order. This means we have to order them for you specially from the manufacturer. For this reason, we require a 20% non-refundable deposit upon taking your order. The balance is payable when the goods are despatched.

Please note that special order items can take several weeks to be supplied and are non returnable.

At Rimmer Bros, we opt to use the best carriers in the business to ensure your order is delivered safely, securely, and on time.

Orders are despatched as soon as practically possible. If your parts are required urgently and you want an express delivery service, please tell us.

We use Royal Mail's first class post service or international standard (formerly air mail) service for small packages and DPD, UPS and Fedex for most of our domestic and the majority of our overseas parcels. Larger domestic orders are sent via DX Freight, and for customers in Europe we also utilise DPD (as an alternative to UPS) for a cost effective, economy delivery service by road.

These options provide our customers with a choice of the best services available.

Guide prices for shipping (including packaging and handling), are shown below.

Shipping charges for export of oversize parcels outside the UK may need to be quoted once the order is picked and packed. Please also see below for further details.

Once your order is shipped and providing we have your email address, we will email confirmation to you, including tracking information if applicable.

Please note that as a security measure, your first order with us must be delivered to the credit card holders registered address.

United Kingdom

We utilise Royal Mail's first class post service, DPD or UPS Standard Service, depending upon size, weight and urgency. Larger domestic orders are sent via DX Freight or Pallet couriers.

We aim to despatch all UK orders within 24hrs, subject to stock availability and payment being received. Orders containing items which are advertised as "available to order", or are temporarily out of stock will take longer, depending on stock availability from our suppliers.

The majority of UK orders are delivered within 1-3 working days. Certain off-shore, remote, Scottish Highland and Northern Ireland destinations may take longer. Bulky and very heavy items may also take longer. If you require your parts urgently, a UK Mainland next working day express option is available for orders placed by 3pm except for oversize parcels where the order must be placed by 10am. You can also choose to have your order sent to an alternative work address or direct to your garage. A nominated delivery day option is also available, as is a same day service for very urgent items. All orders sent by carrier or Royal Mail Special Delivery / DPD pre Noon will require a signature on delivery. We will send you an order despatch confirmation email and tracking number providing we have your email address. Order tracking is not available for Royal Mail first class post deliveries, so please wait a full 3-5 working days for your order to arrive. Royal Mail will only accept claims for loss after 10 working days from due date on first class post and 5 working days on Special Delivery.

Shipping charges (including packaging & handling) are calculated on the weight of the consignment and the desired shipping method.

Please note that our minimum postage charge reflects our cost of processing, picking, packing and despatching your order and may sometimes appear disproportionate with an order of very low value. An order of £10 or less will usually attract the minimum postage charge, so we recommend you add some other items to increase the order value to make the postage charge more cost effective.

The UK chart on the opposite page is a guide to our shipping charges and transit times.

Supplements apply to out of area rural destinations including Highlands, Scottish Islands, Northern Ireland, Isle of Man, Isle of Wight, and the Channel Islands and for certain 'hazardous' products, such as aerosols, paints, fluids and chemicals. Please enquire for shipping to BFPO addresses. Any quoted delivery times are for 'working days' from despatch and exclude weekends and bank holidays. All delivery times are guides. Certain large or bulky items may incur an additional packing charge. Please note that the delivery driver may need assistance to unload large/heavy items - Please advise if special delivery arrangements are required.

EU Countries

We utilise Royal Mail Airmail for small parcels and DPD Classic for an economy, larger parcel delivery service by road for most European destinations at a low, fixed price box rate up to 31.5Kg (not exceeding 175cm length and 300cm girth which is length cm + 2 x width cm + 2 x height cm) - meaning that it costs no more to include extra parts! We also use UPS Road and Air services. Large European orders are sent by air or road freight by alternate carriers, depending upon destination and speed of service required.

We aim to despatch all export orders within 48 hours of receipt, subject to stock availability and payment for goods and shipping charges being received. Orders containing items which are advertised as "available to order", or are temporarily out of stock will take longer depending on stock availability from our suppliers. To keep shipping charges as low as possible, we may hold orders until all stock is available to ship as one consignment.

Delivery times will be dependent on location and delivery method selected. See guide below for estimated times. Bulky and very heavy items may take longer. If you require your parts urgently, an Express option is available. A Next Day service is available for very urgent orders to certain European locations. All orders sent by Carrier will require a signature on delivery. You can choose to have your order sent to an alternative work address or direct to your garage. We will send you an order despatch confirmation email and tracking number providing we have your email address. Order tracking is not available for Royal Mail Air Mail deliveries and we cannot accept a claim for loss unless at least 20 working days have passed from the due delivery date.

Shipping charges (including packaging & handling) are based on weight and volume. Our order system automatically calculates the shipping charge based only on the weight of the goods.

For orders that include oversize, large / bulky parts (e.g. body panels), an additional shipping charge may be incurred, which may not be reflected at the time of ordering. This is because the charge is calculated on physical weight, rather than volumetric weight. This can not be calculated until the order is packed, measured and weighed. If the volumetric weight exceeds the physical weight, we will notify you by email prior to despatch if the estimated shipping charge is insufficient and inform you of the new shipping total, seeking your authorisation to proceed.

Certain large or bulky items may also incur an additional packing charge.

The EU chart on opposite page is a guide to our shipping charges and transit times for EU destinations

Any quoted delivery times are for 'working days' from despatch and exclude weekends and bank holidays. All delivery times are guides. Small orders are sent via Royal Mail Air Mail service and will usually arrive within 5-15 days depending on location. Large and bulky or heavy items and orders, will be sent using international freight services. We will contact you to advise on prices and service speeds available to your destination.

VAT at the ruling rate will be applied to the order if shipped within the EU. Please note that there may be shipping restrictions for overseas destinations for certain 'hazardous' products, such as aerosols, paints, fluids and chemicals. Please enquire for shipping to BFPO addresses. Orders cannot be sent to American Forces Post Offices (APO's).

OTHER THINGS TO NOTE

Please check your parcels

When you sign for a parcel being delivered, please inspect it carefully. If it has suffered in transit, you can mark the delivery note 'Parcel Damaged', before signing, or even refuse delivery in serious cases. We do of course pack carefully to help avoid these problems! Some deliveries involve more than one parcel - please check that all have been received. We must be advised within 48 hours of delivery of any shortages or damaged goods.

Loss In Transit

If your parcel does not arrive, we have to establish our claim with the carriers concerned before we can send a replacement consignment. This can sometimes be a lengthy process, and if your part is needed urgently, a second order can be paid for to save time. We refund one of your orders as soon as the carriers clear our claim.

Worldwide (Non EC Countries)

We utilise Royal Mail Airmail and a combination of UPS and Fedex services. Larger overseas orders are sent by air or sea freight by alternate carriers, depending upon destination and speed of service required.

We aim to despatch all export orders within 48 hours of receipt, subject to stock availability and payment for goods and shipping charges being received. Orders containing items which are advertised as "available to order", or are temporarily out of stock will take longer depending on stock availability from our suppliers. To keep shipping charges as low as possible, we may hold orders until all stock is available to ship as one consignment.

Delivery times will be dependent on location and delivery method selected. See guide below for estimated times. Bulky and very heavy items may take longer. If you require your parts urgently, an Express option is available. All orders sent by Carrier will require a signature on delivery. You can choose to have your order sent to an alternative work address or direct to your garage. We will send you an order despatch confirmation email and tracking number providing we have your email address. Order tracking is not available for Royal Mail Air Mail deliveries and we cannot accept a claim for loss unless at least 25 working days have passed from the due delivery date.

Shipping charges (including packaging & handling) are based on weight and volume.

Our order system automatically calculates the shipping charge based only on the weight of the goods.

For orders that include oversize, large / bulky parts (e.g. body panels), an additional shipping charge may be incurred, which may not be reflected at the time of ordering. This is because the charge is calculated on physical weight, rather than volumetric weight. This can not be calculated until the order is packed, measured and weighed. If the volumetric weight exceeds the physical weight, we will notify you by email prior to despatch if the estimated shipping charge is insufficient and inform you of the new shipping total, seeking your authorisation to proceed.

Certain large or bulky items may also incur an additional packing charge.

The Worldwide chart opposite is a guide to our shipping charges and transit times for Worldwide (Non UK/EU) destinations

Any quoted delivery times are for 'working days' from despatch and exclude weekends and bank holidays. All delivery times are guides. Small orders are sent via Royal Mail Airmail service and will usually arrive within 5-15 days depending on location. Large and bulky or heavy items and orders, will be sent using international freight services. We will contact you to advise on prices and service speeds available to your destination.

We do not charge VAT on orders despatched directly outside the EU however, any local import duty, taxes or customs clearance are not included in our prices and must be paid for by you, usually at the time of delivery by the Carrier. Please note that there may be shipping restrictions for overseas destinations for certain 'hazardous' products, such as aerosols, paints, fluids and chemicals. Please enquire for shipping to BFPO addresses. Orders cannot be sent to American Forces Post Offices (APO's)

RETURNS & EXCHANGE OLD UNITS

All returns must be pre-authorized with a returns authorisation (RA) number. Returned products without an RA number will be subject to delay and possible return to sender. All returns are subject to a physical inspection.

We must have received and inspected the product before an exchange or credit can be issued (see also Warranty & Legal Info). Defective items are backed 100% and after 30 days can be returned for exchange only.

Returns of Parts Not Required - within 14 days

All goods sold by Mail Order are covered by the Consumer Contracts Regulations, which allow for a fourteen day 'cooling off' period during which you may cancel your order (in writing) by sending us a letter, fax or e-mail at any time up to and including the fourteenth working day after the day on which you received your purchase.

If you exercise your statutory right to cancel you must immediately return to us (at your own cost), the item(s) that you do not wish to keep. Return carriage charges are non-refundable. We will acknowledge receipt of your written cancellation by issuing a 'Returns Authorisation Number' which should be quoted and accompanied by a proof of purchase or invoice when returning the goods.

Please ensure all goods are adequately packed to avoid damage, that you insure them accordingly with the carrier used and obtain a proof of shipment. Please note that all goods must be in the condition supplied at the point of sale and with their original, undamaged packaging. Returns are not permitted on parts specially ordered by Rimmer Bros on customer's behalf.

Returns of parts not required - within 14 - 28 days

As an added benefit to Rimmer Bros customers and in addition to your statutory cancellation right (as detailed above), returns may be considered outside the 14 day cooling off period up to and including 28 days after you receive your purchase, subject to the following criteria. Please note that any offset, credit or refund will be at the sole discretion of Rimmer Bros Ltd.

A 'Returns Authorisation Number' must be applied for within the 14 to 28 day period. Where goods have been correctly supplied, it may be possible to offset the full value of the return against another order of the same or higher value. Alternatively, a credit note (for the full value) could be offered. Please note that any cash refund will be subject to a handling charge (typically 15% min £5) to cover administration and re-stocking costs. Return carriage charges are non-refundable.

All goods returned for a credit or exchange must be accompanied by our invoice quoting the 'Return Authorisation Number'. Please complete the form on the reverse side of the invoice. Goods must be adequately packed to avoid damage. You should insure them accordingly with the carrier and obtain a proof of shipment. No responsibility can be accepted for goods received by us, damaged. Goods must be in the condition supplied at the point of sale and with their original, undamaged packaging. Returns are not permitted on parts specially ordered by Rimmer Bros on customer's behalf.

Returns of Parts Not Required - Outside 28 days

No returns will be considered after 28 days unless covered by the terms and conditions of our Warranty.

Returns of Exchange 'Old Units'

There is no specific time limit for the return of exchange old units except for Genuine Land Rover parts, where old core must be returned within 80 days. Please contact us prior to returning the old unit for a 'Return Authorisation Number'. This speeds up the process of returning the surcharge refund. See reverse of invoice for full details of returns procedure.

Please note that old core must be complete and serviceable and drained of fluids where applicable. We reserve the right to retain all or part of the surcharge if the unit is irreparable, damaged or not identical to the type supplied.

Old core parts should NOT be disassembled for inspection purposes.

The core parts returned MUST be the same as the original part supplied and MUST be returned in the packaging used for the supply of the original part, AND must be safely fixed/fastened in that packaging – failure to comply may result in a charge being levied for any resulting or consequential costs incurred.

Returned core parts should NOT be cleaned by abrasive methods such as sandblasting or glass beading. If such cleaning methods have been used and damage has occurred the return core will be rejected and no credit will be issued.

Other Returns

Other returns will be dealt with in accordance with your statutory rights, if applicable, or our warranty.

Returns Processing

Please note that returns are processed as quickly as possible. During busy periods, especially in the Spring and Summer, returns may take up to 14 days to process. Your statutory rights remain unaffected.

WARRANTY & LEGAL INFO

Parts Warranty

All new and reconditioned parts are covered by a 12 month manufacturer's warranty unless specifically stated. You should notify us immediately if a potential warranty situation arises. We will then advise a course of action. Any suspected faulty part must be returned to us together with the original invoice or proof of purchase and with as much information relating to the problem as possible. **Please note that a defective part must be returned and received by us before it can be exchanged.** All warranty parts are subject to a physical inspection. This may involve returning the part to our supplier to verify the fault before it can be exchanged. Defective items are backed 100% and after 30 days can be returned for exchange only. For warranty claims please state vehicle chassis number, date fitted & mileage, date failed & mileage and exact nature of fault.

The warranty period commences from our invoice date not from the date of installation or first use. This warranty covers defects to the part when fitted and used correctly for normal, everyday vehicle use but does not apply to parts used for any extraordinary or unusual uses such as competition, racing, rallying or parts subsequently stripped down, altered, modified or adapted etc. in any way from their original design or intended use.

Although we are, by law, liable for death or personal injury caused by our proven negligence and by the Consumer Rights Act 2015, our warranty only covers the parts in question and not to any consequential loss or cost, eg garage labour, recovery, car hire, re-delivery, parking fines etc. No claim will be validated if the failure is caused by misuse, neglect, overheating, incorrect installation or failure of a related component.

Any part replaced or repaired under warranty, will only benefit from the balance of the cover remaining from the original purchase date. Warranties are not transferable. Acceptance of goods is deemed as acceptance of these terms. The warranties are in addition to, and do not affect your statutory consumer rights.

Legal Info

Errors & Omissions Excepted. Please tell us if you think something is wrong in this Catalogue. All parts offered subject to availability.

All part numbers, illustrations and photographs used are intended for reference and identification purposes only and are not necessarily an exact representation of the goods supplied. Photographs of parts should be considered indicative of what we supply rather than an exact representation as sources of supply and manufacture can change.

Whilst we make every effort to ensure the accuracy of product descriptions, illustrations and photographs, they are based upon information supplied by the manufacturer or distributor at the time.

There may be occasions - due to circumstances beyond our control - when specifications are changed, or when goods become temporarily unavailable.

Certain part numbers may have been superseded to an alternative number when a later version or updated specification is offered.

Rear Tow Bar & Step

Defender 90 - All models

This NAS rear step is also a tow bar and is securely bolted to the rear cross member & chassis on all Defender 90 models. Made from black powder coated steel tube and stylishly fabricated to include an alloy tread plate step. The position of the towing bracket also allows for easier hitching when towing as it is less obscured by the door mounted spare wheel.

WINCH BUMPERS

Terrafirma Pro Taper Bumper

When strength, functionality and good looks are the ultimate goal the Terrafirma Pro Taper bumper range will be your choice. With these bumpers the winch is raised above the chassis rails and, with the tapered and swept back wings, approach angle and styling are optimised even with air conditioned models. With large, high capacity winches becoming more and more popular for commercial and recreational use these bumpers for big and powerful winches are unmatched in the market place. Air cooling slots, built in recovery and jacking points complete these superb winch bumpers.

Defender - All models without air conditioning

Winch Bumper with Bash Plate

Manufactured in heavy gauge tubular and plate steel and black powder coated, these bumpers offer superb value for money. Manufactured in the UK they all feature integral bash plate and jacking points to take standard hi-lift jacks. The mounting plate will take the majority of modern winches with no further drilling, however some cutting of the grille may be required. Includes interal A bar.

Complete (Fits vehicles with drilled hinges)	LL1141BM	14.17	17.00

Heated Mirror Kit

These heated mirror elements are unlike any other heated mirror elements. They use the same carbon impregnated Glasscloth technology found in underfloor heating. This results in a larger 'heated' surface area and avoids the striping effect of traditional elements. Simply peel off the self-adhesive backing from the heating elements & apply to the back of the mirror glass. Comes complete with cable, terminals and a relay. Wiring can be concealed within the arm of the mirror. Switch not included (enables you to match existing switches for seamless installation).

Puma GRP Bonnet

Defender 90 (1984 on)
 Defender 110 (1983 on)

This Puma GRP Bonnet is half the weight of the original Land Rover Bonnet.

Fits Defender 90 (1984 on) and Defender 110 (1983 on).

The bonnet has return edges on all four sides underneath for strength and to make it more rigid. It also has strengthened hinge points and is supplied with stainless steel hinge bolts and screws.

Dirt D-Fenders

Defender 90, 110 & 130

Dirt D-Fenders are a great solution to the annoying problem of mud which splashes through the gap which exists between the bottom of the wheel arch and the mudflap of your Defender.

They are an especially useful addition if you have wider tyres fitted.

The Dirt D-Fenders attach with rivets into the underside of the sill and wheel arch flare.

Supplied in pairs with fitting kit.

Wheel Spacers

30mm Alloy wheel spacers give an additional 60mm track width to all Land Rovers. The benefits are improved handling, cornering and stability as well as increased steering lock. The opportunity to fit larger tyres due to the increased steering lock is a bonus not to mention the improved 'planted' look to the vehicle.

**Kit of 4 Spacers
in Alloy
30mm wide
(includes all nuts & studs)**

**Defender, Discovery 1

LOCKING WHEEL NUTS

TRILOCK

PRECISION ENGINEERING

The original locking wheel nut system that has been used by 20 different car companies during the course of its life.

- Hardened Lock Body
- Stainless Steel 360 degree Rotary Ring
- Hardened Pins
- Stainless Steel Cap

evo^{Mk5}

This lock was developed to combat the ever increasing determination of wheel and tyre thieves. It is an evolution of the original Trilock and offers the highest level of wheel and tyre security that money can buy!

ENGINEERED TO CAR MANUFACTURER QUALITY STANDARDS

SUMP GUARDS

Sump Guards

These sump guards are manufactured from high quality, hard wearing & corrosion resistant materials. All fixings are supplied and the guards fit into the vehicle's pre-existing holes. Each guard has holes at the front to allow for water drainage & to help with ventilation for the cooling system.

Defender - 1985 on

LL1182BPALLY

PRICE EX VAT (OUTSIDE EU) **£120.00** PRICE INC VAT (UK @ 20%) **£144.00**

Discovery 1, Range Rover Classic, RHD & LHD

RA1225ABP

PRICE EX VAT (OUTSIDE EU) **£112.00** PRICE INC VAT (UK @ 20%) **£134.40**

An essential purchase for any off road use as they prevent damage to the underside of the engine & intercooler at the front of the vehicle. Manufactured from 8mm 5083 aluminium supplied completely machined & drilled ready to bolt directly to the 4 pre-drilled holes in the chassis with supplied galvanised fixings. The guard requires no additional drilling just unscrewing & unclipping of the plastic OEM parts. Fitting should take 5 minutes shorter than it takes to decide on Black or Silver finish!

Discovery 3 - all models

Silver - LR007483BPALI

PRICE EX VAT (OUTSIDE EU) **£260.00** PRICE INC VAT (UK @ 20%) **£312.00**

Silver - VPLAP0094BPALI

PRICE EX VAT (OUTSIDE EU) **£270.83** PRICE INC VAT (UK @ 20%) **£325.00**

UJ Silicone Sleeves

Suitable for Series, Defender, Discovery 1, Discovery 2 & Range Rover Classic. By adding one of these silicone sleeves you will reduce debris from building up in the universal joint which, in time, will increase the life span of the joint.

51mm dia propshaft - LL1600BP

PRICE EX VAT (OUTSIDE EU) **£24.58** PRICE INC VAT (UK @ 20%) **£29.50**

63mm dia propshaft - LL1599BP

PRICE EX VAT (OUTSIDE EU) **£27.08** PRICE INC VAT (UK @ 20%) **£32.50**

Made from heavy duty 7mm aluminium plate & with 6mm fixing brackets which are zinc coated for extra corrosion resistance. The aluminium plate has 9 vent holes (38mm diameter) to allow for ventilation & excess water to drain. Complies with EU regulation.

Defender - 1983 to 2006 RHD & LHD

LR008247P

PRICE EX VAT (OUTSIDE EU) **£117.50** PRICE INC VAT (UK @ 20%) **£141.00**

As well as protecting the sump this guard will also look after your front steering & drag links. Manufactured from 6mm, very high grade aluminium, it is easy to fit with no drilling required. Compatible if the vehicle has Nudge Bars or Winch Plate fitted too.

Discovery 2 - all models

RD1265P

PRICE EX VAT (OUTSIDE EU) **£85.83** PRICE INC VAT (UK @ 20%) **£103.00**

Sump Plate

This sump plate protects the underside of the engine & allows the car to slide over objects, forward & backwards due to the rear lip. With a natural finish the plate is made from 6mm 5083 grade aluminium & has been water jet cut to a precise finish. The plate bolts directly into existing holes & bulkheads already in the chassis, using the standard Land Rover fixings.

Discovery 3 & 4 - all models

ROLL CAGES

Safety Devices

Defender 90 - Soft Top 2 Door (1983 on)

8 Point, Multi-Point, Bolt-In, Full Roll Cage

Safety Devices offer design excellence and unrivalled quality.

Safety Devices are the UK's original designers and manufacturers of roll cages and roof racks for Land Rover. Originally designed for the British Army and the Camel Trophy, today an extensive range of designs are available. The quality is exceptional - cold drawn seamless steel, grit blasted, zinc primed and black powder coated roll cages will stand up to the sort of challenges you expect your Land Rover to cope with.

NOTE: - Utilises existing hood which will need modification, front legs are NAS style.

CUBBY BOXES

The Defender cubby box will fit all models unless they have been fitted at the factory with a box mounted subwoofer.

The Exmoor Trim box has been the subject of a facelift & has been updated after many years of production.

4 x ABS plastic moulding feet & alternate internal mounting points for either Series or Defender (including Puma) that bring the box away from the high/low gear shift position. The inside of the box is lined and features the original black hinges & a check strap for the lid stop.

All boxes are supplied with nut & bolt fixings rather than self-tapping screws & the hole positions correspond to the Defender & Puma mounting points without the need for any drilling (if factory installed) – this will hold the box firmly in place.

The cubby box also includes a new ABS plastic twin cup holder that has been designed to allow for easy removal of hot or cold drinks without any suction occurring – so no spills!

Defender & Series (All Models)

Material	Part Number	Price Ex VAT	Price Inc VAT*
Cubby Box			
Black Leather	EXT015-BL	69.34	83.21
Black Vinyl	EXT015-BV	59.95	71.94
Dark Grey Vinyl	EXT015-DGV	61.90	74.28

The Premium Cubby will fit all Defenders & Series vehicles.

The Premium Cubby box is part of the Exmoor Trim premium range of seating & has been designed for those looking to make their Defender more luxurious.

It has a 50mm padded lid which is at the correct height for improved comfort & arm support. 4 x ABS plastic moulding feet will fit straight into the pre-drilled Land Rover fixings on most Defender models, the inside of the box is fully carpet lined for a luxury look & has a clip catch to help prevent lifting & rattling. Supplied complete with ABS plastic twin cup holder & all fixings required.

Defender & Series (All Models)

Material	Part Number	Price Ex VAT	Price Inc VAT*
Cubby Box			
Black Leather black stitching	EXT015PREM-BL	166.63	199.96

The Cubby Boxes are available in many other trim options, if your preferred option is not shown please call 01522 568000.

The LocBox will fit all Defenders & Series vehicles.

This box is incredibly secure with a heavy-duty locking bolt that neatly locks when the lid closes shut.

Finished in tough powder coat, a padded lid, neat rear map pocket & twin cup holders.

Also includes a front pocket tray for pens, mobile phone etc.

4 x ABS plastic moulding feet will fit straight into the pre-drilled Land Rover fixings on most Defender (including Puma) & Series models.

X-Trouser Catch

Defender

Lost a pair of trousers getting in & out of your Defender?

Here is the simple solution. Not only does it protect your trousers, in many cases it makes the door close more reliably & helps (though it does not entirely stop) the seat belt getting caught in the latch. If the seat belt does become caught as you close the door, it suffers less damage due to the smooth profile, if your belt loop or pocket runs over it, it will slide off freely. The X-trouser catch is reversible so it will fit both driver & passenger doors, left & right hand drive. It will also fit the rear side doors of 110 Station

Heated Steering Wheel

Range Rover L322 (2002 to 2012)

Heated Leather Steering Wheel

Many of the early L322 Range Rovers still look as good as new but steering wheels on some models have gone all shiny & have lost the leather appearance & started to sag. Range Rover improved the specification of the wheel on later models and this wheel has the grained leather surface (not the smooth finish) which was used on later models & is much more durable.

Spoke covers are not supplied with this wheel, you need to retain your original airbag/switch assembly.

Door Stays

Does your Defender's rear door sometimes close on you unexpectedly?

This neat & easily installed gas strut kit will solve that problem & replaces the original door stopper. The gas strut will hold the door in place when open, even with a spare wheel in place, and will assist in the opening of the rear door too with a smoother & more controlled movement. Complete with all fittings and instructions.

Extended Seat Rails

Defender (including 2007 onwards)

Ideal for the taller driver

Give your Defender (including 2007 onwards model) seats 3" (75mm) of extra slide with a pair of these seat rails. Ideal for the taller driver to give a more practical & comfortable driving position. One pair of rails is suitable for one seat.

LL1402BP PRICE EX VAT (OUTSIDE EU) £43.33 PRICE INC VAT (UK @ 20%) £52.00

Bulkhead Bars

Defender

Need more leg room & seat adjustment in your Defender?

These bulkhead bars alleviate that problem without compromising strength.

The bulkhead bars allow for extra seat recline & travel on the seat base – giving you a more comfortable seating position & more space in the front foot wells.

The bars create a rigid bracing for the front of the Defender tub as well as the added benefit of extra room in the vehicle due to the seats being more manoeuvrable, access to the rear of the Defender is now not compromised by a higher bulkhead.

Black powder coated & supplied complete with all the necessary fixings & instructions.

Roof Console

Defender 1983 on (not truck cab)

Storage in the cabin area of a Defender is minimal with very few places to put things. Any additional space that can be created is a real bonus especially if it does not cramp the driving space. This roof console is the perfect solution for tucking away maps, pens, glasses etc., even small binoculars & a folding saw can be stashed away in the reversible trap door storage tray.

NOTE – Truck cab versions are available please call 01522 568000 for details

LL1770TF

PRICE EX VAT (OUTSIDE EU) **£115.83** PRICE INC VAT (UK @ 20%) **£139.00**

Front Parcel Shelf

Defender 1983 on

Another great idea to maximise storage space in your Defender, this full width shelf secures into the door openings & spans the width of all Defenders & includes provision to add another or relocate the original interior light. The sun visors fit neatly & tidily into recesses.

LL1769TF

PRICE EX VAT (OUTSIDE EU) **£83.50** PRICE INC VAT (UK @ 20%) **£100.20**

Rear Parcel Shelf Kits

Remanufactured in GRP and covered in original materials. Comprises 2 side trim panels and centre shelf.

Replacement Front Outer Base or Seat Back Covers

Easy to fit. Using an Exmoor Trim cover is a perfect opportunity to upgrade your seats from vinyl to cloth or even XS, half leather, with the twin white stitching. It is also an opportune time to fit the seat heater & lumbar support kits.

Outer Base Defender

Front Headrest Internal Foam			
RH or LH up to (VIN) 6A999999	EXT321-3	11.55	13.86

Front Outer Seat Base - Assembly

Exmoor Trim manufacture a high-quality base to last as long as possible for this type of base. The welded covers always crack & give along the seams first, therefore Exmoor sew all of the joins. The seat base will fit both sides of the vehicle & is simply removed by lifting the front & releasing the retention bar from the plastic front clips. The rear of the seat base fits within locating pins at the back of the seat frame.

Defender from 1985 on

Discovery 1 Trim Kits

Many Discovery 1 seats have seen better days, with the drivers & passenger base foams collapsed & the cloth trim covers badly worn or split & the rear seat carpet panels hanging off.

This kit is available as a 2 seat or 5 seat kit & has been clearly thought out to make what could be a very difficult job quite easy for the average person to complete. All the front covers have rear pockets & the 60/40 seat covers are carpet backed & bound on the rear boot panels.

Trim Kits Discovery 1

BRITPART

NYLON WATERPROOF SEAT COVERS

Nylon waterproof seat covers from Exmoor Trim are manufactured from an exclusive waterproof material that is totally non slip.

This means that you won't slide off the seat and the cover won't slide on the seating fabric.

All Exmoor waterproof seat covers are specifically tailored to fit each seat. This guarantees they will enhance the interior unlike a baggy seat cover.

The seat cover for the base fits separately from the seat back so you can remove the seat base for storage/ battery access without taking the protective covers off.

- Accurate colour matching to the original archived canvas samples
- Vat dyed ensuring the colour has penetrated all the way through the cotton canvas
- Improved colour fastness rating, ensuring that the natural UV fading is prolonged especially in hot climates
- Cold water shrinkage of the natural cotton fibre is greatly reduced.

This is just a selection of hoods that are available, with over 300 different options to choose from we will have something that suits your vehicle, call 01522 568000 for details.

ROOF RACKS

Specially sourced for Rimmer Bros, these roof racks are a sleek, slimline design manufactured from lightweight but strong aluminium with a tough high quality satin black powder coat finish. They weigh in at just 25kg.

Rimmer Bros have created a design - the extrusion is more rounded to give a better aerodynamic look and feel to cause less drag. These Racks cause little wind resistance..... at over 70mph it is very quiet!!

Easy fitting using a robust clamping system for Land Rover Defender 90. This rack will also fit a Discovery 2.

These roof racks are made from heat treated aluminium extrusions to ensure the optimum degree of flexibility and rigidity.

They have a modular construction with an anodised powder coated aluminium frame mounted on powder coated feet.

The modular construction, with horizontal slats, allows the slats to be removed for sunroof access etc.

The bars have a T slot system allowing a host of available accessories to be securely fitted to them, such as tents, lights, O-rings and a host of other items.

Sleek slimline construction makes them ideal for expeditions, overlanding, roof tents, camping etc not forgetting they look spot on!

They arrive flat packed for easy & cost effective delivery and have all holes drilled for easy assembly (normally less than an hour).

Defender 90 & 110 Discovery 1 & 2

Defender 90 & 110

Aluminium Curved Luggage Roof Rack for Land Rover Defender.

Masai have designed and developed a wide range of robust Defender roof racks manufactured from high grade, light-weight, aluminium profiles using stainless steel fittings. Masai aluminium Defender roof racks are a practical, stylish and lighter-weight alternative to steel roof racks. Manufactured in three lengths.

Roof Racks

Discovery 3 & 4

This roof rack is manufactured from aluminium with a smart black powder coated finish.

Fully welded, they are extremely strong, versatile & easy to use. The floor planks are orientated longitudinally which results in a reduction of wind noise. There are nut channels on all the extrusions to allow for easy fitment of accessories.

NOTE: May need roof rail kit (CAB500120PVJ or CAP500090) to be fitted to vehicle prior to roof rack installation.

TOW BARS

TOW BARS – there is a vast array of tow bars on the market for Land Rover & Range Rover vehicles.

Here we have selected the most popular applications and tried to make it as clear as possible as to what is included within each kit.

The range is selected from specialists in the towing industry such as Witter, Bosal, Thule and, of course, Genuine products from Land Rover themselves.

If you cannot find what you are looking for, or are in any doubt about the fitment to your vehicle please give us a call on 01522 568000 and we will be able to help you with the correct application.

PUDDLE LAMP KIT

LED Logo Puddle Lamp Kit

LED puddle lamps, with Land Rover logo embedded in the beam, ideal for adding that personal touch to your Land Rover vehicle. The lamps are designed to operate when you open the door of your vehicle to illuminate the floor below. These lamps may also be installed internally to illuminate the interior footwell of the vehicle. Flush fitting, for discreet installation.

Kit includes two puddle lamps with wiring, plus core cutter to make mounting holes.

Tyre Pressure Monitor System

New generation system for cars and vans

TB99 is for cars and vans with a small dashboard mounted monitor that displays the pressure of four tyres up to 99psi simultaneously and can be set up to monitor the spare tyre as well.

- Neat system, reliable and very easy to install
- Clear visible and audible alerts
- User set alert levels for low pressure, high pressure and high temperature
- Automatic back light
- Rechargeable monitor battery

The TB99 monitor continuously displays the pressure of four tyres. If there is a fifth sensor, it alternately displays the four tyres and then the spare. Tyre temperatures are shown at the press of a button.

New generation sensors simply screw on to the tyre valves in place of the normal dust caps, and they have an integral anti-theft design. They are smaller and lighter than previous models and improved electronics give up to 2 year life from the replaceable CR1632 batteries

Box contents

- 1 Monitor
- 1 Charging lead
- 4 Locking screws
- 1 Pair sensor tools
- 1 Monitor mounting pad
- 4 Sensors with batteries fitted
- 2 Locking keys

Vehicle Number Plates

Number plates can only be sold directly to the owner of the vehicle together with proof of ownership and personal identification.

We will need sight of the following three original documents:-

- Vehicle registration document (V5)
- Driving Licence or utility bill.
- Passport or credit card (with photo ID), or travel/works pass (with photo ID).

Number plates are made to special order.

Please note that it is also now mandatory in the UK for all new number plates to bear the originating suppliers name, postcode and telephone number (i.e. Rimmer Bros).

Outdoor Covers

Freelander, Discovery, Range Rover etc

Galaxy Outdoor Car Cover

The Galaxy premium outdoor car cover is manufactured from heavy duty polyester with a superior satin finish. The resultant material has a very high tear strength combined with excellent water repellency and UV protection. This is enhanced by a waterproof membrane and heat sealed seams. The excellent waterproofing and breathability of the outer shell is combined with a soft moisture resistant fleece lining to provide the ultimate protection.

Eclipse Outdoor Car Cover

The Eclipse outdoor car cover is made from polypropylene with a breathable membrane. The four-layer construction consists of two non-woven top layers which gives good UV protection and water repellency. The third layer is a breathable/ waterproof film, and the fourth is a non-woven soft inner lining for scratch resistance.

Battery Conditioner

The battery conditioner is a battery charger that turns on and off automatically.

This superb product is suitable for all 12 volt batteries (from 5ah to 100ah) and constantly revitalises the battery cells - helping to extend cell life, without the danger of overcharging.

Look at these benefits:

- Designed to be left connected for long periods.
- Use without disconnecting vehicle electrics.
- L.E.D. battery condition display.
- Thermal cut-out facility.
- 12 month guarantee.

It can also be used for the following applications, providing they use a 12 volt battery: caravans, lawn mowers, motorbikes, motor boats, wheel chairs and general leisure use. The kit is supplied complete with all fittings and operating instructions.

Reversing Camera Kit

Rear Facing Camera Kit - includes Monitor

Seeing exactly what is behind a Land Rover is not easy using conventional mirrors.

This kit is a practical driver assistance device with the primary objective of helping the driver to see things that they may not otherwise see when reversing.

Features of the kit with monitor:

- Waterproof rear view or reverse camera.
- Small, discreet, MicroBlock™ colour camera.
- Slimline 3½ LCD monitor.
- Typically installed above number plate to include the rear bumper in the field of view.
- Outstanding image quality both day & night.
- Panoramic view.
- Instant image on.
- Single cable installation technology - easy to install. IP68 rated so 100% water and dust proof.

Reversing Camera Kit

RX1710 PRICE EX VAT (OUTSIDE EU) **£100.00** PRICE INC VAT (UK @ 20%) **£120.00** See below to add a forward facing camera

Additional Forward Facing Camera Kit

Front Facing Camera Kit - no Monitor

An additional camera to add to RX1710 above.

Easy to install camera kit.

The camera is the only external part and much like the vehicle it will be installed on it can be submerged in water, it can be blasted by a jet wash, sprayed with mud.

Effectively there is very little that can be done to damage the camera, short of hitting it with a solid object. But even then it can withstand some abuse.

Forward Facing Camera Kit (to add to RX1710)

RX1710FFCAM PRICE EX VAT (OUTSIDE EU) **£49.58** PRICE INC VAT (UK @ 20%) **£59.50**

Automatic Reversing Camera Kit

This is a high performance, fully automatic, practical driver assistance device.

The primary objective is very simple: to help a driver to see things that they may not otherwise see when reversing.

With the patented cable technology, installation should take around 30 - 45 minutes. No other system in the market is as quick and easy to install.

Features of the kit with monitor:

- Small, discreet, camera.
- Typically installed above number plate to include the rear bumper in the field of view.
- Outstanding image quality both day and night.
- Panoramic view.
- Instant image on.
- Single cable installation technology.
- IP68 rated (100% water and dust proof).
- Works seamlessly with supplied LCD monitor.

Reversing Camera Kit (Fully Automatic)

RX1710AUTO PRICE EX VAT (OUTSIDE EU) **£170.00** PRICE INC VAT (UK @ 20%) **£204.00**

Compact Dashboard Camera

Record your off-road adventures.

- Complete with 2.7 dash cam screen and a 120° lens
- Camera automatically turns on when you start the vehicle and will switch off once the engines turned off
- Installation is easy, just plug in and you are ready to go.
- Continuous loop recording
- If you need to keep footage, lock the file
- 12/14 volt
- H 55mm, W 86mm, D 37mm
- Rechargeable batteries included

Compact Dashboard Camera

RX1784 PRICE EX VAT (OUTSIDE EU) **£43.25** PRICE INC VAT (UK @ 20%) **£51.90**

Parking Distance Control Kit

- Sensors neatly integrate into the vehicle's bumper and will detect obstacles behind or in front of your vehicle whilst manoeuvring into position.
- As an obstacle is approached, the sensors trigger the acoustic alarm which rises in frequency the closer the vehicle gets.
- Quick and easy to install - fits any vehicle including all Land Rover models.
- 3 level buzzer alarm to indicate obstacles.
- 12 or 24v power supply.
- Sensors can be painted to match vehicle.

Parking Distance Control Kit

RX1559 PRICE EX VAT (OUTSIDE EU) **£60.00** PRICE INC VAT (UK @ 20%) **£72.00**

Jackall

Built with a patented 'Safety Link' the Maasdam Jackall is the 'Jack with More'!

Larger base for greater stability.

'Safety Link' mechanism that prevents abuse, misuse & makes operations safer.

Jacks come with a lifetime warranty & are built to current ANSI/ASME specifications.

When safety & dependability matter most, continue to rely on Jackall.

- Patented 'Safety Link' mechanism which prevents abuse & misuse
- Heavy ribbed, extra large base which provides strength & greater load stability
- Cast components assures long life, trouble free operation
- Hot roll-formed, alloy steel beam which is strong & reliable
- Steel handle locks against beam for convenient storage
- Powder coated through & through resisting corrosion.

WINCH BUMPERS

WINCH ACCESSORIES - WINCH BUMPERS

Terrafirma Pro Taper Bumper

When strength, functionality and good looks are the ultimate goal the Terrafirma Pro Taper bumper range will be your choice. With these bumpers the winch is raised above the chassis rails and, with the tapered and swept back wings, approach angle and styling are optimised even with air conditioned models. With large, high capacity winches becoming more and more popular for commercial and recreational use these bumpers for big and powerful winches are unmatched in the market place. Air cooling slots, built in recovery and jacking points complete these superb winch bumpers.

Battery Conditioner

The battery conditioner is a battery charger that turns on and off automatically.
This superb product is suitable for all 12 volt batteries (from 5ah to 100ah) and constantly revitalises the battery cells - helping to extend cell life, without the danger of overcharging.

- Look at these benefits:**
- Designed to be left connected for long periods.
 - Use without disconnecting vehicle electrics.
 - L.E.D. battery condition display.
 - Thermal cut-out facility.
 - 12 month guarantee.

All models
It can also be used for the following applications, providing they use a 12 volt battery: caravans, lawn mowers, motorbikes, motor boats, wheel chairs and general leisure use. The kit is supplied complete with all fittings and operating instructions.

- Application: Land Rover Defender, 90, 110, 130 1987-2006
- Over time the steering drop arm and the steering box splines corrode together making it difficult to remove the drop arm
- Always grease threaded bar.

RX1974 PRICE EX VAT (OUTSIDE EU) £42.50 PRICE INC VAT (UK @ 20%) £51.00

Heat Torch Kit with Heat Shrink Tube (162 piece)

- Assorted coloured tubing and sizes: 1 x 15mm x 500mm Black Tube, Tubes supplied in Red, Green, Blue, Yellow, White and Clear: 1.5mm x 60pc, 2.5mm x 35pc, 3mm x 25pc, 5mm x 20pc, 6mm x 10pc, 10mm x 10pc
- Heat Shrink Tubing meet ROHS directive.
- Operating temperature range: -55°C to +125°C,
- Manufactured from G5 general purpose, polyolefin tubing
- Characteristics: shrinkage ratio 2:1, very flexible, highly flame retardant, resistant to common fluids and solvents
- Mini Butane gas torch supplied with full instructions. Capacity 6ml, Operating time 20mins, Approximate temperature <1300°C, GS/TUV certificated

Heat shrink tubing is the ideal way to repair and refurbish worn and cracked insulation of vehicle wiring or to insulate new wiring connections when adding accessories. This new kit from Laser Tools includes a butane gas powered heat torch as well as a useful and generous selection of heat shrink tubing.

It can be tempting to use a flame on heat shrink tubing, but this heat is uncontrolled and unless great care is taken the tubing can burn and become damaged. The butane powered gas torch in the kit provides a very soft, even heat that is ideal for heat shrink work. The heat shrink tubing supplied has a shrinkage ratio of 2:1 and remains very flexible after shrinkage. A selection of tube sizes and colours is supplied from 1.5 mm diameter up to 15 mm. All you need for quick and professional repairs with everything required in one convenient box.

RX1968 PRICE EX VAT (OUTSIDE EU) £22.90 PRICE INC VAT (UK @ 20%) £27.48

Alignment Tool for Automatic Gearboxes

- Alignment tool for JLR Auto gearbox selector
- Applications include Land Rover V8 Defender, Land Rover Discovery 1 and 2(1990 to 2005), Range Rover Classic and P38 (1994 to 2002) where fitted with ZF4HP22, ZF4HP24, ZF4HP44 automatic gearboxes
- An essential tool for the correct setting and alignment of the XYZ switch (gear selector position and starter inhibitor switch) on the automatic gear boxes
- Equivalent to OEM 307-498 and LRT-44-011
- Made in Sheffield

RX1972 PRICE EX VAT (OUTSIDE EU) £31.50 PRICE INC VAT (UK @ 20%) £37.80

Polarity Circuit Tester - Cordless

This tool tests the polarity instantly, locating short circuits without wasting fuses and finds bad ground/earth contacts. Test polarity without connecting jumper wires. Tests include: Cooling fans, window regulator motors, electronic fuel pumps, relays, lamps etc. Computer safe for use around sensitive engine management systems

- Locates short circuits.
- Finds bad ground/earth contacts.
- Test polarity without connecting the jumper wires.
- Instant testing saving time.
- CE and RoHS compliant.

The Gunson Polarity Tester is suitable for 6, 12, 24 volts.

RX1959 PRICE EX VAT (OUTSIDE EU) £1.95 PRICE INC VAT (UK @ 20%) £2.34

Temperature Sensor Socket

Modern Land Rover Diesel engines are equipped with exhaust particulate filtration systems (DPF). In order for the systems to perform correctly the engine control system must know the exhaust temperature. This makes the EGT sensor an important and integral part of the system

- Applications: Range Rover L322-2011-2012, Range Rover L405-2013-2014, 2015, 2016, 2017, Range Rover Sport L494 -2014, 2015, 2016 ,2017
- Required to remove/install the exhaust gas temperature sensor
- Equivalent to OEM No: 303-1573
- 13mm Bi Hex x 6mm deep. Socket equipped with a 13mm hex to use with appropriate spanner or wrench
- Manufactured in Sheffield

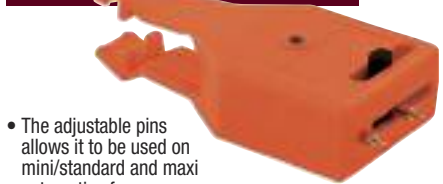

RX1976 PRICE EX VAT (OUTSIDE EU) £20.95 PRICE INC VAT (UK @ 20%) £25.14

Crankshaft Trigger Wheel Installer

- Required to install the crankshaft position Sensor Ring on Discovery 3/4, Range Rover Sport when fitted with TDV6 engine (3 Powertrain)
- Equivalent to OEM 303-1130
- Overall dimension: 125mm
- Specifically requested to repair sensor wheel dropping off or cracking

RX1975 PRICE EX VAT (OUTSIDE EU) £59.95 PRICE INC VAT (UK @ 20%) £71.94

Automotive Fuse Tester 4in1

- The adjustable pins allows it to be used on mini/standard and maxi automotive fuses.
- The battery is DC15V and can last more than 100,000hrs with LED bulb.
- Ideal glove box tool.
- Space saver.

Ideal for both the toolbox and the glovebox, this handy automotive fuse tester from Gunson quickly and conveniently checks for blown fuses. The adjustable pins allow it to be used on mini, standard and maxi sized automotive fuses. If the fuse is 'good' the LED illuminates. If the fuse needs replacing then the reverse of the tester is used to unclip and remove the fuse.

RX1967 PRICE EX VAT (OUTSIDE EU) £7.90 PRICE INC VAT (UK @ 20%) £9.48

Hog Ring Pliers (Auto Feed Type)

- Complete with automatic feed.
- Ideal for continuous connections.
- Single handed operation.
- Ideal for seating on classic cars, fencing, bird pens, sealing bags and particularly car upholstery restoration
- Compatible with C Ring G616 and 16G.

The preformed strips of 50 Hog Rings (Size 07) feed easily into the tool.

RX1964 PRICE EX VAT (OUTSIDE EU) £31.50 PRICE INC VAT (UK @ 20%) £37.80

Hog Rings (Box of 500) for RX1964 above

Galvanised Hog Rings suitable for use with the Laser Hog Ring Pliers 500 per pack 17.4mm>7mm closed Compatible with C Ring G616 and 16G

RX1965 PRICE EX VAT (OUTSIDE EU) £4.95 PRICE INC VAT (UK @ 20%) £5.94

Brake Fluid Tester

A simple and effective tester shows the condition of the brake fluid with a coloured response.

- Test percentage of water in the brake fluid
- Immerse the probe end of the tester into the brake fluid - use regularly for brake maintenance
- Green indicates <1.5%water = ok
- Yellow indicates 1.5>3%water = marginal
- Red indicates 3%

RX1960 PRICE EX VAT (OUTSIDE EU) **£19.50** PRICE INC VAT (UK @ 20%) **£23.40**

Adjustable Thread Restorer M4-M45

- Quick-adjustable Thread Restorer - 55-60 angle blade
- Adjustable cuts: M4-M45, Capacity: 5/32" to 1-3/4"(4-45mm)
- Angled blades manufactured from HSS steel to 55-60 hardness (HSS blade, HRc62(+/-2))
- Zinc body, Chrome plated
- Quick and easy to use

RX1969 PRICE EX VAT (OUTSIDE EU) **£25.50** PRICE INC VAT (UK @ 20%) **£30.60**

Hose Clamp (set of 3)

- Ideal for use on flexible hose lines on brakes / fuel / heater and radiators.
- Lightweight, non-conductive material.
- High viz colour for easy location.
- Single handed use.
- With jaws of 1/2" to 3/4" diameter.
- Plastic construction reduces risk of shorting electrical systems.

RX1961 PRICE EX VAT (OUTSIDE EU) **£13.25** PRICE INC VAT (UK @ 20%) **£15.90**

Hose Clamp Tool (Bar type)

- Clamps any hose simply and effectively.
- Chrome plated bars.
- Use on brake, fuel and heater hoses.
- No sharp edges.
- Ensures complete clamp.

RX1962 PRICE EX VAT (OUTSIDE EU) **£7.95** PRICE INC VAT (UK @ 20%) **£9.54**

Oil Change Kit (5 Piece)

- Contents include: 6L oil drain pan - 370mm dia x 115mm deep
- Plus: Funnel 140mm dia x 130mm long
- Plus: oil absorption mat 400mm x 500mm (will soak up oil only)
- Blue bag for disposing of hazardous waste 500mm x 600mm and 2x cable ties 200mm long
- Oil waste should be disposed of responsibly in line with local regulations

If you're planning on changing the engine oil on your pride and joy over the weekend, then make the job easier on yourself by picking up one of these Oil Drain Kits.

RX1955 PRICE EX VAT (OUTSIDE EU) **£9.50** PRICE INC VAT (UK @ 20%) **£11.40**

Drip Tray - Plastic

- Size: 24" x 18" x 3/4" (609mm x 457mm x 19mm)
- Manufactured from Plastic
- Pouring spout in corner
- Protect your drive and garage floors from oil drips
- Also useful when transferring fluids to avoid workshop floor contamination

RX1956 PRICE EX VAT (OUTSIDE EU) **£4.29** PRICE INC VAT (UK @ 20%) **£5.15**

Canvas Tool Rolls

A great bit of kit with plenty of storage slots and a large front pocket for nuts and bolts, spare spark plugs etc. Keeps those essential maintenance tools to hand whilst stopping them from rattling around behind the seats. With handy carry strap and heavy duty traditional roll up straps, made from very hard wearing Land Rover canvas.

In keeping with earlier Land Rovers and Defenders with traditional straps and buckles. Available to match your hood colour in Khaki, Sand or Blue canvas.

Please note, tools not included.

DIAGNOSTIC TOOLS

HawkEye Total

A powerful diagnostic tool for Land Rovers

Benefits:

- Ready to use out of the box
- No batteries required
- Unlocked for Land Rover vehicles
- Comes with handy carry pouch
- Simple to use
- Identifies faults quickly and accurately
- Fits in glove compartment or cubby box
- No laptop required

Est. UK1958
Bearthmach
PARTS FOR LAND ROVERS

Bearthmach's HawkEye Total diagnostic tool is truly portable and simple to use by the home mechanic and professionals alike. The HawkEye Total will assist you in fixing the problem and getting your Land Rover back on the road as soon as possible. It has the complete Land Rover package installed, and all models (year dependent) are unlocked and ready to use on this unit.

The diagnostic tool is robust and comes with its own storage pouch. The keypad has well defined buttons and is powered directly from the vehicle. The clear graphical display is easy to read and features on-screen prompts.

The specific applications will allow you to access information from your vehicle. Functionality includes READ and CLEAR fault codes, LIVE DATA, ACTUATORS, Electronic Control Module data.

Lynx Evo - Ideal for the workshop & home user*

What is Lynx Evo?

Lynx Evo is the next generation diagnostic tool for Land Rover vehicles. Offering market leading diagnostics from a powerful and mobile design. Lynx Evo provides full vehicle servicing and in depth diagnostic capability for all Land Rover models from 1990 through to current day. Ideal for the workshop and home user.

Live data can also be displayed using numerics and graphics making it easier to read time based events on your Land Rover. This small but powerful Dongle requires no batteries as it uses the vehicles power. For the enthusiast home user, using Lynx Evo will mean no more trips to your local main dealer to clear any faults on your Land Rover.

Lynx Evo is compatible with iOS and Android mobile devices with apps available for download from the Apple App Store and Android Play Store. As the software is App Store based and is loaded onto your mobile device, updates are as easy to do as any other mobile app, simply click the update icon. Lynx Evo is manufactured by the company who supply Land Rover with their T4H Legacy diagnostic product.

*Not suitable for USA, Australia or New Zealand.

Key Features:

- Read & display live data
- Mobile device based
- Easy to use
- Unlocked ready to cover an entire Land Rover model family
- Upgrade software over app store
- Quickly checks your Land Rover for faults
- Small enough to store in glove box

What does Lynx Evo do?

- Read fault codes
- Clear fault codes
- Read & display live data
- Test actuators
- Programming - such as alarm settings, key fobs etc. on selected models
- Service reset

LAND ROVER ACCESSORIES

FLUIDS - ANTIFREEZE, SCREENWASH & WINTER ACCESSORIES

Anti-Freeze

The inclusion of a glycol based Anti-Freeze in winter helps prevent the engine coolant from freezing up and blowing a hose or radiator core (or worse!).

However, it's not just during the winter that you need protection for your engine and radiator. Using anti-freeze during the summer improves the effectiveness of the coolant by helping to remove the heat from the block and dispersing it more efficiently, even in the worst traffic jam! It also protects from corrosion damage.

GENUINE LAND ROVER

Anti-Freeze

Description	Part Number	Price ex VAT (Outside EU)	Price inc VAT (UK @ 20%)

Waterless Coolants

Life Time Cooling

No Water - No Overheating

Classic Cool 180° has a boiling point of 180°C and will not boil over.

No Water - No Corrosion

Water contains oxygen, oxygen allows corrosion. Classic Cool 180° eliminates corrosion.

No Water - No Pressure

Classic Cool 180° allows your cooling system to run at a lower pressure, reducing the strain on engine components.

No Water - No Liner Pitting

Classic Cool 180° generates significantly less pitting when compared with all water based coolants.

No Water - More BHP

Classic Cool 180° eliminates premature detonation associated with overheating.

Radiator Relief

Cooling System Additive

Radiator relief allows your radiator to transfer heat more efficiently, reducing your engines operating temperature (which is obviously controlled by the thermostat) by up to 30°F. You therefore have 'a little bit in hand' for those hot days stuck in traffic. This proven coolant additive will also cut engine warm-up time in half which will reduce engine wear which is most extreme when the engine is cold. Fully compatible with water and anti-freeze and is safe with cast iron and all alloys.

- 30°F lower operating temperature
- 50% quicker warm up time
- Safe with water/anti-freeze mixture
- Safe with cast iron, alloy engines and heads
- Increased engine life!
- 100% biodegradable, non corrosive, non toxic
- For use in all water cooled engines

Castrol Classic XL 20W/50

For Pre-1980 classic cars and motorcycles. A conventional multigrade engine oil of good all round performance, formulated with high quality mineral oils plus selected additives ideally suited to older technology engines. Castrol Classic XL 20W/50 offers excellent oil consumption and very high level of engine wear protection.

Wheel Cleaning

MWS WHEEL
CLEANING AND
PROTECTION SYSTEM

This specialist wheel cleaning system will help you care for your wheels.

Suitable for all Steel, Alloy and Wire wheels (including painted & chromed), this wheel cleaning system uses a unique 2-stage process that not only cleans, but gives wheels a superb lasting finish that helps to protect them, making them easier to care for and clean in the future.

Kit includes;

- Special cleaning solution (580ml).
- Wooden handled cleaning brush & dispenser.
- Finishing/protection solution (180ml)
- 2 pair of disposable gloves.

Cleaning solution breaks down brake dust & road grime. Brush & dispenser gets into all those awkward places. Finishing/protection solution leaves wheels like new.

QuikTape Silicone Rubber Tape
 A self-adhering and fusing, curing into a solid rubber insulator in less than 24 hours. Resists moisture and temperatures up to 260°C. Gives a tough, permanent insulation seal around electrical connections, hoses, pipes (including exhaust) etc.
 Roll is 25mm x 3m long approx.

608591A

Fuel Tank Slushing Compound
 This tacky fluid sticks to the inner walls of the fuel tank and prevents rusting problems which normally lead to leaks. It is even efficient at filling minor rust holes and leaking seams. Easy to use and long lasting. Ideal for renovating older tanks, or prior to installing replacements.

Waxoyl Body Care

Anti-Corrosion Waxoyl

Protective Coatings

- Easy to use, simply fill-shake-shoot
- Easy to clean
- Provides excellent UV protection
- Waterproof – provides a water tight seal, keeping water out & protects new surfaces against rust
- Sound deadener – reduces noise & vibrations
- Abrasion & stain resistant
- Dries rapidly, is flexible

Suggested application areas:-

- Chequer plate & grilles
- Loading area
- Underbody protection
- Bumpers & bull bars
- Sills. Side rails & steps
- Wheels & wheel arches
- Etc, etc.

Raptor is a highly durable protective coating that ensures protection against mechanical damage, fuels, hydraulic oils, rust, corrosion, salt water, damp, extreme temperatures & off-road muddy good fun!

Raptor is available in black & tintable versions. The tintable version can be altered to suit the colour of your vehicle by adding a small amount of automotive solvent paint.

Raptor can be applied as a smooth finish through to a very coarse finish.

GENUINE LAND ROVER

Land Rover Original Technical Publications DVDs or USBs

Carefully reproduced from extensive historical archives in the U.K. and the U.S.A., the original Land Rover and Range Rover publications help you to run and maintain your classic Land Rover or Range Rover, including parts catalogues, service manuals, technical information and owners literature. (Depending upon model please refer to our website for detailed contents of each DVD).

What's more, you can find information and links to Land Rover, Land Rover Heritage and Original Technical Publications. Discover more about the history of Land Rover, Land Rover and Range Rover Models and get the latest Heritage News and Information. From here you can also find Genuine Classic Parts and links to local Land Rover and Range Rover Clubs.

Product Features:

- Printable - Print only the pages you need. (Windows Only)
- Searchable - Search the entire section in seconds.
- Zoom - Zoom in to see the exact details.
- Bookmarked - Manuals are bookmarked to quickly locate sections
- USB requires Windows 2000 or later, USB port and Safeguard Windows PDC viewer

UPDATED BRAKE KITS

These kits will improve the braking ability of your Discovery 1 or Range Rover Classic.

All of the kits contain slotted & grooved brake discs (matched pair), the discs for the front brakes are also ventilated. EBC Green Stuff brake pads compliment the discs and, where required, pin fitting kits are also included. The front kits also include a pair of 4-pot brake calipers

Discovery 1 - Updated Brake Kits

Discovery 1 (1989 to 1998)			
Converts Solid discs to vented (inc calipers, pads, discs & retaining kit)			
Front	RA1357	166.67	200.00
Upgrades existing vented discs (inc calipers, pads, discs & retaining kit)			
Front	RA1358	82.50	99.00
All models (inc discs & pads)			
Rear	RA1359	77.50	93.00

Range Rover Classic - Updated Brake Kits

Range Rover Classic (1970 to 1996)			
Converts Solid discs to vented up to Oct 1989 3.5V8 & 2.4TD (inc calipers, pads, discs & retaining kit)			
Front	RA1357	166.67	200.00
Upgrades existing vented discs from Oct 1989 on 3.9V8 & 2.5TD (inc calipers, pads, discs & retaining kit)			
Front	RA1358	82.50	99.00
All models (inc discs & pads)			
Rear	RA1359	77.50	93.00

Terrafirma

SHOCK ABSORBER & SPRING KITS

Most of these kits are available with TUV Approval - please call for details

Terrafirma shock absorber & spring kits have been created for convenience, ensuring that the correct parts are matched.

The kits on this page have been specially selected to produce the ideal upgrade options.

All Terrain Shocks

- 35mm internal bore & piston
- 16mm double chromed shaft
- Nitrogen charged
- High temperature fluid
- 1.2mm outer shock tube wall
- 14mm mounting pins

Terrafirma

Pro-Sport Shocks

- Up to 3" (75mm) longer than standard
- 40mm internal bore & piston
- 20mm double chromed shaft
- Velocity sensitive valving
- Nitrogen charged
- High temperature fluid
- 1.5mm outer shock tube wall
- 14mm mounting pins

Shock Absorber & Spring Kits

All kits include 2 front & 2 rear shock absorbers and 4 coil springs

BILSTEIN

GAS SHOCK ABSORBERS

BILSTEIN®

SUSPENSION UPGRADES

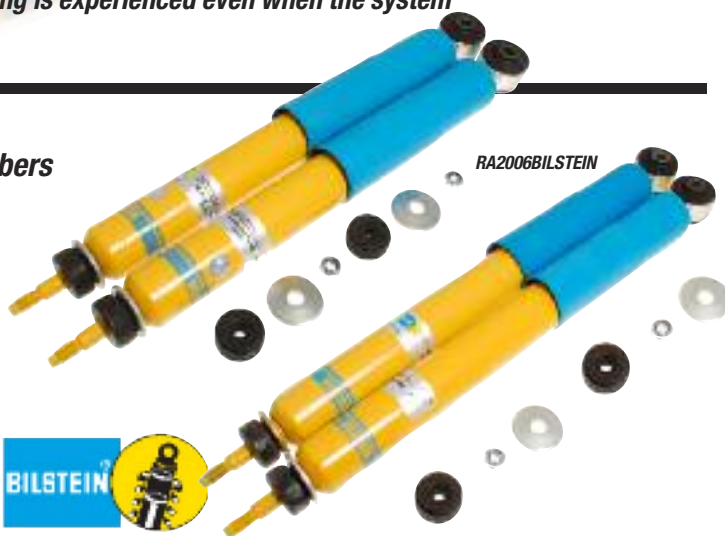

Driving a vehicle equipped with Bilstein Gas shock absorbers is an exhilarating experience. There is, quite literally, nothing like it. Superb control & stability, precise handling and incredible comfort.

The mono-tube gas shock absorber developed by Bilstein has become the norm for automotive construction. The oil is kept in the shock absorber under pressure and the use of nitrogen ensures that the oil is permanently under pressure. This means that full damping is experienced even when the system is placed under extreme stress.

Shock Absorber Kits

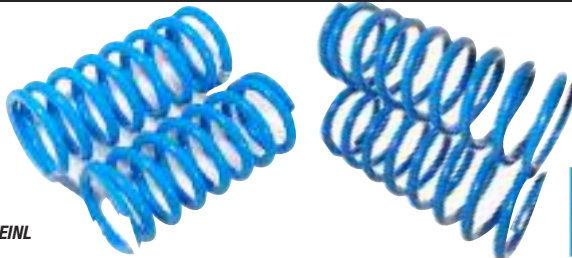

Includes 2 front & 2 rear heavy duty gas shock absorbers

*Prices include UK VAT @ 20%.

The Electronic Air Suspension systems fitted to Range Rover P38A and the rear of the Discovery 2 can be expensive to repair and are considered to be not that reliable.

The following kits offer a cost effective solution to these issues by eliminating the costly electronic components (air springs & Compressor) by offering replacement coil spring conversions that are reliable and economical to maintain. Significant increased load carrying capacity is also achieved.

Air to Coil Spring Conversion Kits

Bearthmach
LAND ROVER PARTS

The legendary Beearthmach Blue Springs are designed as a superior performance replacement part for OEM coil springs.

They exceed original ratings by 10% to 15% (depending on the application) - the bi-product of this? A dramatically improved ride!

Made to the highest standard in micro alloy steel each spring is individually hot coiled on a variable speed coiling machine.

The springs are then shot peened ready for protective surface finishing, prior to powder coating.

COIL SPRING UPGRADES

Terrafirma coil springs are made from the highest quality steel, formed on accurate computer controlled mandrels and precisely heat treated to ensure consistent manufacture.

All springs are shot peened to relieve stress and 'scragged' to ensure long spring life and prevent sagging.

Finally they are powder coated silver for long lasting good looks.

Panhard Rods

Terraforma Adjustable Panhard Rods

Lateral stability on the front end of coil sprung Land Rovers fitted with live axles is controlled by a tie rod called a Panhard Rod which is fitted between the front axle & the chassis, typically mounted in parallel with the drag link connecting the steering box to the axle. When these vehicles are lifted (raised suspension) the axle is pulled off-centre due to the fixed length of the Panhard Rod. Terraforma Adjustable Panhard Rods allow the axle to be adjusted back to centre restoring the steering geometry. They are manufactured from 30mm diameter, 5mm wall thickness high tensile steel tube with a 20mm precision machined threaded adjuster, also included is a lock nut part way along its length. Supplied complete with polyurethane bushes they are ready to fit

Dislocation Cones

When longer than standard rear shock absorbers are fitted the coil spring can part company with the chassis becoming dislodged on full suspension drop out, sometimes failing to relocate correctly when the suspension compresses again. Fitting dislocation cones in conjunction with coil spring retaining plates (see chart below) will ensure the spring re-seats correctly every time.

PERFORMANCE FILTERS

THE WORLDS BEST AIR FILTERS

K&N Air Filters

Designed to increase horsepower, this original high-flow air filter invented by K&N is made with layers of woven cotton for a washable filter that offers high airflow that can increase your vehicles horsepower & acceleration.

Economical - by using the washable air filter you will save money in the long run, one K&N direct replacement air filter costs far less than replacing disposable air filters over & over again. K&N air filters only require cleaning every 50,000 miles under normal driving conditions.

- Thousands of microscopic cotton gauze fibres naturally hold specially designed oil in suspension to create a powerful filtering medium
- Easy to fit just directly replaces your original air filter
- Washable & re-usable
- Multiple layers of premium cotton gauze help maintain high airflow
- Made in the USA

K&N Induction Kit

Specifically designed for Range Rover Classic 3.5 litre V8 EFI 1985-1990 & V8 EFI with flap type air flow meter & will free your vehicle from the size restriction that comes with the factory air box.

These economical kits will provide extra power throughout the RPM range & the larger air filter will capture & hold more dirt increasing the service life before cleaning is required.

PERFORMANCE FILTERS

PERFORMANCE FILTERS

Britpart Peak Performance Air Filters

These filters, tailored to fit your Land Rover, will give maximum breathing efficiency for your engine meaning increased power or better fuel mileage. The engine will get more air and the dirt particles are trapped by quality filters.

- Easy fit, directly replaces standard air filter
- Ideal for use in hot, dusty conditions
- Compatible with snorkels
- Does not require pre-oiling
- Clean using air, water or detergent

Britpart Filter Guard

The filter guard removes potential engine damaging metal particles from your oil. Britpart's filter guard is a cost effective way of removing the harmful contaminants that conventional oil filters can miss. The contaminants are fine metal particles which act like an abrasive on the fast moving parts in your vehicles engine - dramatically shortening engine life. The filter guard will never clog or restrict the all important oil flow. **NOTE** - filter not included with filter guard, please ensure that there is sufficient room for the addition of the filter guard.

- Extends engine life
- No vehicle modification required
- Added protection for stop & go driving & towing
- Improves fuel economy
- Cleans engine oil for 50,000 miles

Britpart Filter Guard

LL1174

If you are likely to be driving your Land Rover in circumstances which could mean wading deep water or driving in very dusty conditions then you should consider fitting a raised air intake to your vehicle. Our aftermarket versions are a great cost effective solution!

LR008383EARLY

LL1174MET

LL1174M2

Established in 1989 the Mantec name has become synonymous with a quality & safety 'built for the job' reputation. All Mantec products are conceived, designed & engineered specifically for the off road work that Land Rovers are built for and all products are manufactured in Warwickshire, England.

RD1241

Pioneered in Australia in the early 1980's, Safari snorkels were born out of a need to protect 4WD engines from the hazards of dust & water.

Manufactured to the highest standards in durable, UV stable polyethylene material, using stainless steel

hardware where appropriate, you can be sure that a Safari snorkel will deliver a continuous & cooler supply of air for maximum engine performance.

Wading Kits

If fitting a snorkel is high up on your 'must have' list then a breather kit should be higher.

The likelihood of water being deep enough to require a snorkel is far less than the 18" of water that could do serious damage to the differential. Plunging a hot axle into cold water will cause it to contract & it will suck in air, if the axle is submerged it will suck water past the seals (designed to keep oil in not water out) which will mix with the oil, dirty water will quickly wear seals, bearings & gears.

RD1122

Kits consist of breather pipes for axles, gearbox & timing cover.

Silicone Turbo Hose Kits

Direct replacement hoses, ideal to replace standard perished items and essential with a tuned engine running higher boost pressure.

- Will not rot
- Withstand higher temperatures
- Oil resistant

All hoses are guaranteed for 2 years (will last much longer!) and are TS16949 approved.

They are manufactured from the highest quality silicones & reinforcement fabrics and will operate at temperatures from -50°C up to +180°C & at operating pressures of 2.5 to 4 bar. Hoses are constructed using 3, 4 or 5 ply fabric (depending on diameter) and have a minimum wall thickness of 4.5mm.

Performance Intercoolers

These high performance & robust units are constructed from polished aluminium & are 30% larger than the standard intercooler. As a result air has a chance to cool before entering the engine. This cooler air can increase engine power by up to 25bhp (subject to application).

Other benefits include better throttle response & reduction in fuel consumption depending on driving conditions.

Ideal for on or off road use all units are FULLY PRESSURE TESTED, CAPPED & SEALED.

Discovery 3 & Range Rover Sport
2.7 TDV6 engines

PML500011UR
PRICE EX VAT (OUTSIDE EU) £475.00 PRICE INC VAT (UK @ 20%) £570.00

The original Land Rover intercooler design can have problems due to the blocking up of the core with mud when the vehicles are used off road, as the intercooler is mounted at the lowest point in the front of the vehicle. This uprated oil cooler is designed to be easier to clean & less prone to blockage due to coarser, less dense fin design whilst dramatically improving flow, performance & economy, even without any further tuning. Tests have shown a minimum improvement of 12-15%. Power & throttle response in the lower & mid-range engine revs particularly are noticeably improved.

The intercooler is designed to be simple to install without major modifications to the vehicle. The performance intercooler makes full use of the space available behind the bumper. It is designed with an integral fan cowl extension to ensure no loss of cooling efficiency & is supplied with mounting brackets & fitting guide.

ELECTRONIC FAN CONVERSION KITS

Long Range Fuel Tank - Plastic

The best way of getting more fuel into your Defender without compromising valuable space!

30 litre Plastic Tank

- Lightweight
- Supplied as a kit
- Easy to install
- Requires no pumps or added filters
- Does not interfere with storage or clearance
- Compatible with standard Defender fuel filler cap.

Programmable Wiper Relay

Fed up with your Defender's intermittent wipers not being intermittent enough?

Does it drive you mad when you give the screen a quick spray and it wipes for ages?

Fit this new relay in place of the standard LR057366 to your vehicle to solve this problem. Once fitted you press the stalk down so that the wiper wipes & then back off again, now count/wait until you want another swipe, switch the stalk down & leave it on, this timing will now remain constant until you set another timing the same way or turn off the ignition at which point the relay returns to the standard 6 second wipe interval. Another bonus is that the wipers will now only wipe once following a short burst of washer fluid or 3 times after a long burst.

This will work on all Defenders with the latching intermittent wiper stalk PRC7370 or AMR6106 (VIN) HA onwards (stays down when pressed) but it will also work on 300TDi & TD5 although on post 2002 TD5's the relay LR057366 is located behind the speedo. Will not work with early stalk PRC3900 up to (VIN) GA models.

How Does 'Dis-Car-Nect' Work?

When leaving your car, simply remove the knob to isolate the starter circuit. The 16 amp fuse will maintain current supply to all other electrical circuits (central locking, stereo memory, alarm etc.). Because the starter motor draws over 150 amps, any attempt to connect (hot-wire) the starter motor will instantly cause the fuse to blow. This immobilises the car until the knob is replaced. If this should happen, simply replace the 16 amp fuse at a convenient time.

As an added advantage, the 'Dis-Car-Nect' will also prevent battery drain if you intend to store your car: simply unscrew the knob and remove the fuse. For extra security, unscrew and remove the immobiliser knob completely.

'Dis-Car-Nect' fits all vehicles and is easily fitted to any battery terminal. Full installation instructions are supplied with the kit.

Heavy Duty Driving Members

These heavy-duty drive flange kits have been engineered to out perform many of the inferior products on the market – they are much stronger than an OE drive flange.

The Britpart product is profiled to follow the shape of the standard part rather than the simple pentagon design, this does mean that wheels such as Rostyle and some alloy's will fit without issue.

Also the cap on the Britpart design is sealed at the base of the thread preventing water ingress into the thread.

Handbrake Conversion Kits

Driving off-road you will know how easy it is for the standard Land Rover handbrake to get bunged up with dirt & once the mechanism gets clogged up it does not work as efficiently as it should.

Britpart now offer a solution to that problem – a drum to disc conversion kit.

These kits use powerful calipers whose mechanism is sealed to prevent the ingress of mud.

Parts are supplied coated with a tough corrosion resistant coating of gold zinc passivate to ensure a long life.

Fitting is easy requiring only simple tools. Full fitting instructions are included as well as advice on adjustment & use.

Series I, II & III

This will fit any Land Rover fitted with a standard Series transfer box, including those fitted with PTO's under or overdrive units. The new brake replaces the original transmission brake drum. It is supplied with a new adjustable actuator rod which connects from your original handbrake lever, direct to the caliper, reducing the amount of slack in the linkages.

The disc transmission brake uses an industrial open-frame caliper with simple adjustment & easy cleaning. The new caliper is mounted on a laser cut steel back-plate with a folded gusset for added strength & incorporates a built-in skid plate to protect the disc.

The disc is manufactured from robust 10mm thick mild steel plate which bolts directly to your original gearbox output flange with 6 new bolts (supplied).

The system is very light weight, offering a saving of almost 10kg compared to the original drum brake.

Replacement Pads			
for LL1472 & RD1247	LL1472PAD	48.33	58.00

Defender/Discovery/Range Rover Classic

The disc transmission brake uses a state of the art monster sized mechanical caliper designed for agricultural vehicles & earth moving equipment – so using it on a Land Rover is easy work for it.

The mechanism is sealed so it will not seize up due to the ingress of mud or water & it uses special 'sintered' pads which are resistant to abrasion from mud as well as providing greater friction against the disc than a standard pad.

The disc has been specially designed for Land Rovers & manufactured from tough 10mm thick steel. It has a smaller diameter than a standard drum & so does not dangle below the transfer box which helps to protect it from whatever you are driving over. The caliper mechanism sits in a well protected area at the top, away from most of the mud & water.

ARB DIFF AIR LOCKERS

Air Locker Locking Differentials allow you to tackle the toughest terrain.

As the world's premier traction aid, ARB Air Lockers keep you moving in all conditions.

- Provides 100% traction on demand without affecting on road driveability or driveline wear
- Vastly improved traction means less reliance on momentum, thus reducing the likelihood of vehicle damage & environmental impact
- Easy, convenient operation allows the driver to concentrate on the terrain without leaving the comfort & safety of their seat
- Ultra durable & extremely strong – only the highest quality materials are used in construction
- Incredibly simple yet effective design that employs minimal moving parts, thereby ensuring maximum reliability
- Thoroughly tested & proven design – trusted & used in over 80 countries around the world
- Easy installation & maintenance – no special tools, skills or additives required
- Two year warranty guarantees the Air Locker will be free of defects in materials

Notes Key	
1	If vehicle was manufactured during 1993, check spline count
2	Air Locker not available for vehicles equipped with high load option
3	Ring gear spacer required. Longer ring gear bolts (not supplied) are also necessary 3/8 BSF x 1.1/2" (no longer available from LR)
4	When an LL1159 Air Locker is to be installed in Range Rovers manufactured prior to 1980 (approx.), special carrier bearings may also be necessary. RTC3426P (aftermarket) RTC3426 (Genuine)
5	Some vehicles have crown wheel bolts which cannot be reused & must be replaced. Consult service manual
6	Type P38A is most commonly found in traction control equipped vehicles. Identify P38A type diff by large 205mm (8.07") flange diameter. P38A was not used on North American delivered Discoverys – use LL1160
7	Check diff ratio before ordering this part

Detroit Locker

The legendary Detroit Locker began the revolution in performance differentials & still leads the industry today as an Eaton brand. The Detroit Locker is the most durable & dependable locking differential available. The Detroit Locker maximises traction by delivering 100% of the torque to both drive wheels. It is engineered to keep both wheels in a constant drive mode & has the ability to automatically allow wheel speed differentiation when required.

No other performance differential has the reputation for delivering traction in mud, snow, rocks & on the track. The choice of professional racers & off-road enthusiasts around the world! The durability of Detroit Locker is unmatched!

- 100% locking differential
- Legendary traction
- Ultimate performance

Detroit Truetrac

The Detroit Truetrac was the first helical gear differential ever introduced into the automotive aftermarket as an Eaton brand. It remains the leading helical gear-type limited slip differential in the industry. Detroit Truetrac's proven helical gear design eliminates the need for wearable parts, resulting in maintenance free traction.

Recognised not only for its toughness but also its smooth & quiet operation. Engineered to work efficiently in front & rear axles, semi-floating (C-clip axles) & transfer cases. Power transfer is so smooth, it literally goes unnoticed by the driver – even in front wheel drive axles.

Proven design, low cost & effective performance, all make the Detroit Truetrac limited slip differential the ideal choice for a wide variety of vehicle applications.

- No maintenance – just traction!
- Smooth operation
- Performs open until needed
- Fully automatic limited slip

4 Barrel Carb Conversion

The simple, cost effective, bolt-on performance upgrade that is a direct replacement for the twin Stromberg or SU carbs, offering easy starting, smooth running, transformed drive-ability and enhanced fuel economy. A 4 barrel conversion will work well on its own, or in conjunction with an uprated cam or cylinder heads and can be re-jetted to suit if required.

We offer several conversion kits for just about all applications and engine sizes, utilising either the Holley 390 or Edelbrock 500 carb paired with an inlet manifold and air cleaner to suit your requirements. Our conversion kits also include accelerator / choke cable kits and thermostat housing, please see below. To decide on what suits, select a carb, inlet manifold and air cleaner from the options below, then refer to the list of kits on the opposite page. Also, refer to the list of optional parts below, to include fuel pump, heater hose connector etc.

4 Barrel Carb Conversion Options

Choose a Carb:

Holley 390 cfm - RB7254

The legendary Holley is an ideal choice for all engines up to 4.6 litres. Supplied jetted to suit the standard 3.5 litre engine (primary jet 51, secondary equivalent to 53 jet), it can be re-jetted to suit modified engines (cam and/or heads) or larger capacities (see options under Holley carb components). Supplied with manual choke, vacuum secondary, power valve blow-out protection and polished body finish. Adaptor plate kit also available for enlarging secondary jets. Accelerator and choke cable kits available separately (supplied if purchasing conversion kit). Recommended: Facet 'Red Top' fuel pump kit RB7259.

Edelbrock 500 cfm - RA1335

Previously marketed as Weber, this increased capacity 4 barrel carb is best suited to larger capacity engines (4.6 litres +) but can be fitted to any Rover V8. Supplied jetted to suit the standard 3.5 / 3.9 litre engine (primary jet .086, secondary .095, metering rods .065x.052 jet), a tuning / calibration kit is also available for larger capacity and / or modified engines, which includes assorted jets and metering rods (see options under Edelbrock carb components). Supplied with manual choke and polished body finish. Accelerator / choke cable kits and fuel feed banjo / bolt available separately (supplied if purchasing conversion kit). Recommended: Facet 'Red Top' fuel pump kit RB7259.

Choose an Inlet Manifold:

Both the Holley and Edelbrock carbs will fit any of the inlet manifolds listed below, as they have the same footprint. However, the height of the manifold affects the performance proportionally, and this will be dictated by the available clearance under the bonnet.

Edelbrock Performer Dual Plane Inlet Manifold - RA1337

Due to its design, this manifold offers up to 10 BHP over other 4 barrel manifold options at high mid-range, with increased torque over a wide RPM range, especially from idle to to mid-range. It also offers excellent throttle response. Due to its height, it may not offer sufficient under bonnet clearance where space is tight. Select the correct air cleaner to ensure sufficient under bonnet clearance when suitable. A spacer may also be required to allow clearance for the pancake filter and carb throttle linkages. A thermostat housing, air cleaner and carb levelling plate (for 4x4 and certain other applications), are all available separately (supplied if purchasing conversion kit).

Offenhauser 360 Dual Plane Inlet Manifold - RB7314

Sitting slightly lower than the Edelbrock manifold, this unit is a compromise between the Offenhauser JWR manifold (which offers the lowest profile) and the Edelbrock. Select the correct air cleaner to ensure under bonnet clearance. A thermostat housing, air cleaner and carb levelling plate (for 4x4 and certain other applications), are all available separately (supplied if purchasing conversion kit).

Offenhauser JWR Dual Port Inlet Manifold - RA1336

This manifold offers the lowest profile where under bonnet clearance is restricted. The dual ports design offers increased efficiency due to the primaries using the lower port (increasing gas speed) and since the secondaries use the upper port (which is shielded by the primaries), the gas is cooler, meaning a better fuel burn. These benefits help to offset the efficiency lost due to the low profile design. Select the correct air cleaner to ensure under bonnet clearance. A thermostat housing, air cleaner and carb levelling plate (for 4x4 and certain other applications), are all available separately (supplied if purchasing conversion kit).

Choose an Air Cleaner:

Dependent on the height available under the bonnet, select the most suitable air cleaner for your application. If clearance is not an issue, the 3" deep filter will offer the best performance, as will the K&N (at extra cost) air cleaner and X-Stream air flow lid - see listings for details.

14" Chrome Pancake Air Cleaner Kit

Included in conversion kits.

- 3" Deep (standard applications) **RB7438**
- 2" Deep (for extra bonnet clearance) **RB7439**

Conversion Kits also include (where relevant):

Optional Parts:

Camshaft - Performance

Kent Cams

Kent Cams are renown for their range of performance enhancing cams, and have been manufacturing in the UK since the early '60s. No other single modification will result in a greater increase in performance, than by fitting a performance cam.

Rimmer Bros stock a range of Kent hydraulic cams and also offer a selection of cam kits for the Rover V8 engine. Depending on whether you want a straightforward bolt-in cam to improve bottom end power and torque, or are looking for a competition spec set-up which involves modified heads, enhancing the bottom end, fuel and exhaust systems (and perhaps an upgraded distributor), we can help!

Essentially, there are 2 different types of cam for the V8. Non GEMS (to 1995), and GEMS type(1995 on, ie 4.0 & 4.6 litre Range Rover 2, 4.0 Discovery 2 & Defender 4.0 Efi).

GEMS refers to the electronic engine management system, where there is a sensor pick-up on the rear of the block. GEMS engines are distributor-less and have a crank driven (as opposed to distributor driven) oil pump. This then dictates the type of cam installed.

We offer 4 different types of cam / cam kits, ranging from the Sports Torque to Competition.

Our cam kits include the minimum of parts required to install the cam chosen.

Our Kent cam installation kit should also be purchased separately (RB7488KENT), along with a head gasket set (since valve springs will need to be changed) - see our website or contact us.

There are also a few other options to consider depending on your requirements, such as upgraded timing chain set, or upgraded head studs, main and big end stud & bolt kits.

Finally, you may also wish to consider a K+N Filter or even a 4 barrel carb / re-chipped engine management, or performance enhancing extractor manifolds. (Please see relevant sections).

If you have any specialised requirements such as high-end competition/racing (solid lifer) cams or cam kits, please enquire.

Kent Cams & Kits

Model	Part Number	Price Ex VAT	Price Inc VAT*
Kent Sports Torque H180			
Designed using the latest in cam design technology, low overlap and minimal duration to help create a package that is unbeatable when installed in a standard production road car or 4x4. Straight swap for standard cam. Improves low-rev and mid range torque with up to 22 BHP increase in power (1000-4500rpm power band), and retains smooth idle characteristics and fuel economy. Also suitable for automatics. No modifications are necessary to ensure straightforward installation. Upgraded cam followers and upgraded single valve springs are required. A K+N air filter is a worthy and easy upgrade to also enhance performance with this cam. Valve lift: inlet 11.20mm, exhaust 11.20mm. Timing: inlet 23/59, exhaust 59/23			
Cam H180 only;			
Non Gems (to'95)	RB7444	265.00	318.00
Gems type ('95 on)	RB7444GEMS	260.00	312.00
Cam H180 Kit;			
Inc H180 cam, cam lube, upgraded followers & upgraded single type valve springs.			
Non Gems (to'95)	RB7441	555.00	666.00
Gems type ('95 on)	RB7441GEMS	555.00	666.00

Kent Fast Road H218			
Fast road cams are designed specifically for the spirited driver. Utilising maximum valve acceleration technology, this cam will benefit more with other modifications, such as performance exhaust, K+N air filter and/or fuel system / engine management chip. Improves power by up to 26 BHP (1500-5000rpm power band), with further gains available depending on mods. Boosts top end power whilst retaining low end torque and fuel economy. The benefit with this cam, is that it uses upgraded single valve springs, and does not require machining of valve spring platforms. Upgraded cam followers and upgraded single valve springs are required. Valve lift: inlet 11.38mm, exhaust 11.78mm. Timing: inlet 27/71, exhaust 74/30			
Cam H218 only			
Non Gems (to'95)	RB7718	262.33	314.80
Gems type ('95 on)	RB7718GEMS	258.33	310.00
Cam H218 Kit			
Inc H218 cam, cam lube, upgraded followers & upgraded single type valve springs.			
Non Gems (to'95)	RB7719	555.00	666.00
Gems type ('95 on)	RB7719GEMS	555.00	666.00

Kent Fast Road H214			
Fast road cams are designed specifically for the spirited driver. Utilising maximum valve acceleration technology, this cam will benefit more with other modifications, such as performance exhaust, K+N air filter and/or fuel system / engine management chip. Improves power by up to 30 BHP (1500-5000rpm power band), with further gains available depending on mods. This kit requires machining of the valve spring platforms to enable fitting of the double springs, and also the top of the valve guides depending upon application. Upgraded cam followers and upgraded double valve springs and retaining caps are required. Also consider fitting an upgraded timing chain kit (RB7449), upgraded main and big end studs/bolts (RB7456/RB7500) and upgraded head stud kit (RB7680). Valve lift: inlet 11.90mm, exhaust 12.44mm. Timing: inlet 31/73, exhaust 78/40			
Cam H214 only			
Non Gems (to'95)	RB7445	250.00	300.00
Gems type ('95 on)	RB7445GEMS	250.00	300.00

Inc H214 Cam, cam lube, upgraded followers, upgraded double type valve springs & special spring retainers.			
Non Gems (to'95)	RB7442	540.00	648.00
Gems type ('95 on)	RB7442GEMS	540.00	648.00

Kent Competition H224			
Specifically designed for motor sport/competition use, and not generally recommended for road use. This hydraulic cam delivers a power increase dependent upon modifications to heads, fuelling and exhaust (2000-5500rpm power band). This kit requires machining of the valve spring platforms to enable fitting of the double springs, and also the top of the valve guides depending upon application. Upgraded cam followers and upgraded double valve springs and retaining caps are required. An upgraded timing chain kit (RB7449) should also be fitted. Also consider fitting upgraded main and big end studs/bolts (RB7456/RB7500) and upgraded head stud kit (RB7680). Valve lift: inlet 12.49mm, exhaust 13.08mm. Timing: inlet 41/83, exhaust 86/44			
Cam H224 only			
Non Gems (to'95)	RB7446	250.00	300.00

Camshaft Components

Model	Part Number	Price Ex VAT	Price Inc VAT*
Cam Follower , hydraulic,uprated, set of 16, high rev, Kent,	ERC4949KENT	147.50	177.00
Installation Kit - Kent camshaft	RB7488KENT	18.33	22.00
As it is necessary to purchase a head gasket set when installing a Kent cam, this kit includes the additional parts required i.e. standard timing chain, timing cover gasket & oil seal. Includes mix of components to suit all engines.			
Cam Lube , 250ml	RX1358	7.29	8.75
Essential when installing a new cam & followers.			
Timing Disc (Protractor)	RX1359	8.75	10.50
Non-gems only.			

Timing Chains

All parts listed are suitable for saloon, sports and 4x4 applications unless otherwise stated.			
Upgraded Timing Chain Kit	RB7449	172.93	207.52
Non-gems applications. This adjustable kit includes vernier camshaft sprocket, crank sprocket and double roller chain; also includes timing protractor and Allen key. The fully adjustable cam sprocket allows extremely accurate cam timing whilst eliminating stretch common in original parts. Instructions included.			
Upgraded Timing Chain	RB7450	32.50	39.00
Replacement double roller type chain, for use only with upgraded timing chain kit RB7449.			

RB7680-28

Upated Cylinder Head Fixings

	Part Number	Price Ex VAT	Price Inc VAT*
Upated Head Stud Kit, cylinder head: Engine set of ARP cylinder head studs, washers and nuts to replace original bolts. Studs improve cylinder head sealing & prevent damage to block threads.			
20 stud kit	RB7680-20	132.10	158.52
28 stud kit	RB7680-28	212.65	255.18

Upated Valves, Guides & Springs

Various different valves have been used since the Rover V8's introduction, most having the standard "Rover SD1" head diameters: 40mm inlet and 34mm exhaust. However, early engines (pre 1976) were fitted with smaller diameter valves - 38mm inlet and 33mm exhaust - which are less efficient. In order to benefit from the larger valve sizes, it would be more practical to fit a pair of later cylinder heads than to attempt to fit the larger valves to early heads.

The largest valves that can be fitted to the existing valve seats on later heads only, without extensive machining, are our Big Valves (41.4mm inlet and 35.5mm exhaust, with waisted stems). These valves are particularly suited to large capacity engines, but note that some machining is still required to the guides and seats to fit them.

Finally, the latest factory valves, as fitted to 3.9 and 4.2 engines since 1993, as well as the P38 Range Rover (4.0 and 4.6 engines), feature the same head diameter as SD1-type valves.

Note: all parts supplied are suitable for unleaded applications.

	Part Number	Price Ex VAT	Price Inc VAT*
Inlet Valve			
Big Valve (8 required) Head diameter: 41.4mm. With waisted stem. Machining required to valve guide and seat.	RB7460	8.90	10.68
Exhaust Valve			
Big Valve (8 required) Head diameter: 35.5mm. With waisted stem. Machining required to valve guide and seat.	RB7461	10.20	12.24
Valve Guide, performance: Shortened & bulletted, for use with performance cam. Suitable for all valves.			
car set (inlet/exhaust)	RB7453	35.00	42.00

RTC2044AKUR

Oil Pump

	Part Number	Price Ex VAT	Price Inc VAT*
Oil Pump Service Kit (with upated spring). For all engines without crank driven oil pump (pre-1994). Includes pressure relief valve, spring, sealing washers and gasket.			
	RTC2044AKUR	12.29	14.75
Upated Spring relief valve			
	RB7457	5.00	6.00
For all pre crank driven oil pump models (pre-1994). Increases oil pressure by approx. 10 psi.			
Upating Kit, oil pump			
	RB7480	76.67	92.00
Pre-'76 engines with original short oil pump gears only. Kit includes spacer plate and longer gears to upate early pumps to later specification. Increases idle & high RPM pressure. Raises oil volume by 40%.			

RB7480

Rocker Cover Bolt Set

Chrome 'T'-Bolt Set	RB7440	21.04	25.25
American style rocker cover hold-down bolts, supplied as set of 4 (2 sets required per engine).			

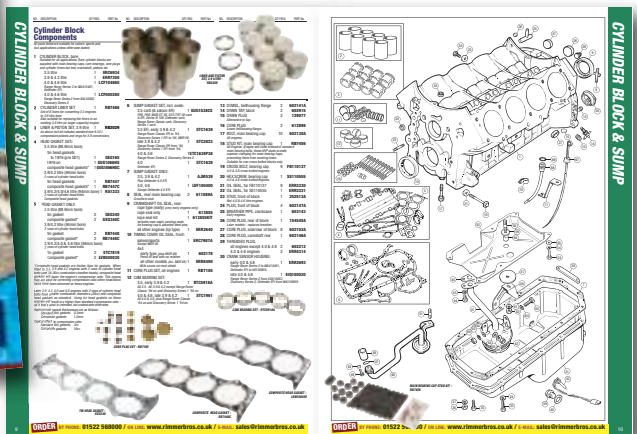

Crankshaft

Upated Stud Kit main bearing caps	RB7456	120.18	144.22
All engines, engine set. Used instead of standard main bearing bolts, these ARP studs provide superior clamping for main bearing caps, preventing them from working loose. Suitable for non cross-bolted blocks only.			

These pages refer to Upgrade Components only, for a full list of all V8 Engine Parts please refer to our Rover V8 Engine Catalogue or our website.

If you are in any doubt of the suitability of these parts please call 01522 568000 for technical assistance.

As above kit but also offers constant maximum spark energy at coil through the whole rev range. Supplied complete with low resistance coil.				
for 35D8 points type distributor	1	RB7270P	241.67	290.00
for 35DE8 electronic distributor	1	RB7323P	241.67	290.00

123ignition.nl Distributors

ignition systems for classic cars

Replacement USB programmable, electronic distributor for the V8, with versions suitable for pre 1976 (Rover P6 type) and 1976 onward applications. Features include selectable fine tune advance curves (enables switching between two advance curves, ideal or example, for alternating between petrol and LPG fuels), automatic Dwell spark balancing, gearshift retard and more. The unit will optimise engine ignition performance once installed correctly (advance curve is selected manually) and are available only in the "Tune" form. Can be used with either a standard or 'sports' coil. Silicone HT leads are recommended. "Tune" software is updated from time to time and can be downloaded from www.123ignition.nl

Also from 123 Ignition...

Programmable wirelessly with Bluetooth 4 technology.

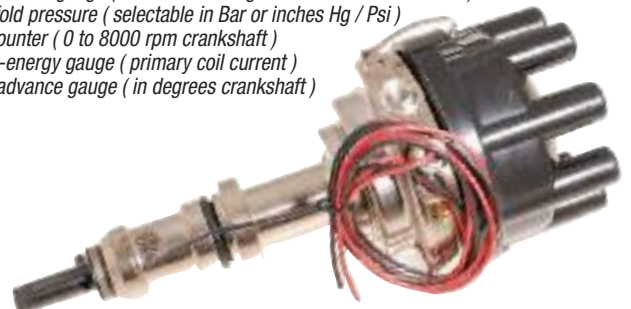

Control your 123\TUNE+ with your iOS/Android smart phone or tablet. The App makes it possible to adjust the ignition curve and shows an electronic dashboard. Main features: REV-counter, Anti-theft system by a PIN code, Bluetooth 4.0, Real time tuning, Vacuum advance, Boost retard, Soft REV-limiter, etc. The TUNE+ will run on all iOS devices with Bluetooth 4.0 and on Android devices with Bluetooth 4.0 in the future. The Android App is under construction.

Here are all the features offered :

- rotation CW and CCW (autodetect)
- for 6 Volt and/or 12 Volt cars (autodetect)
- variable dwell constant current, fully autom. (autodetect)
- coil current protection time-out after 1 second (autodetect)
- for positive and negative earthed cars (123\TUNE-8 is for neg.earth ONLY)
- programmable centrifugal advance curve (500 to 8000 rpm)
- programmable vacuum-advance and boost-retard curve (0 to 200 kPa or 3 0 inHg to +15 psi)
- rev.limiters (advanced random spark stealing)
- real-time tuning (ideal for working on a rolling road)

Electronic "dashboard" with :

- temperature gauge (selectable in degrees Celsius or Fahrenheit)
- manifold pressure (selectable in Bar or inches Hg / Psi)
- rev. counter (0 to 8000 rpm crankshaft)
- spark-energy gauge (primary coil current)
- total-advance gauge (in degrees crankshaft)

Lumenition

Optronic Performance Ignition Kit

The Performance Optronic system is suited to high speed engines and is ideal for all performance drivers, particularly race and rally applications. This system includes all the benefits of the Optronic System and comes with Lumenition's own Constant Energy coil electronically matched to the power module, to give an added kick.

Features:

- High energy ignition coil electronically matched to power module.
- Microcircuit control of the coil current giving optimum performance across speed and voltage range, ensuring constant maximum spark energy at the coil.
- Variable dwell angle, optimising energy use to prevent low speed coil over heat.
- Automatic switch off, preventing electrical damage in the event of ignition being on.
- Fully compatible with Lumenition Rev Limiters for complete engine protection.

Fits: Land Rover Series with negative earth (originally late Series IIA and Series III only, but earlier Series are ok if converted to negative earth) and Lucas 22D4, 25D4 or DMS2P4 distributors. It will require a fitting kit (FK116 for 22D4 or 25D4 distributors, FK125 for the DMS2P4).

NOTE: It will not fit all Series III - some have Ducellier distributors and later Series III have Lucas 45D distributors - neither will accept this kit.

Terrafirma Wide Angle Propshafts

Lifting a vehicle by raising the suspension alters the propshaft angles which often causes severe vibration. Aggressive mud tyres, noisy engine & transmission & the slower speeds associated with off-roading usually masks this vibration but a more road biased lifted Land Rover owner will likely find the noise & vibration too obtrusive & will be keen to rectify it.

- 20% stronger than standard Land Rover propshafts
- Double seal arrangement on slip coupling
- RILSAN coated 100mm spline slip coupling for smoother operation
- Metal shield greasable universal joints
- 32 degree wide angle yoke & joints
- Gun metal grey finish.

Terrafirma

The most effective way to eliminate vibration is to fit a propshaft with a double cardan joint** at the gearbox end. Even Land Rover found this essential on the Discovery 2. Double cardan propshafts are a successful vibration cure on vehicles lifted to around 2", beyond that even the double cardan joint cannot always accommodate the angle without vibrating.

It is a common misconception that fitting a wide angle propshaft will cure vibrations caused by raised suspension, the vibration is caused by the angle of the shaft in relation to its end flanges, fitting a wide angle shaft does not change the angles. The vibration may seem reduced but this will be coincidental with a new heavier shaft in perfect condition. Wide angle propshafts are necessary for vehicles fitted with very long travel suspension where on full axle drop out the original propshaft yoke will bind up straining the joints and ultimately locking the shaft solid which, in extreme cases, can literally tear the shaft in half.

A 32 degree yoke and joint will accommodate typical long travel suspension set ups on Land Rover based chassis using around 11" travel shocks.

**Double cardan joints have 2 universal joints joined by an intermediate shaft, the joints are phased or synchronised with each other which overcomes the speeding up and slowing down of a single joint thus reducing vibration

Britpart Propshafts

Britpart Wide Angle Propshafts allow drivetrain angles of up to 32 degrees which reduces vibration, universal joint bind up & premature wear on the joints.

All Britpart wide angle propshafts have greaseable universal joints.

STAINLESS STEEL EXHAUSTS

For many years Rimmer Bros have been supplying stainless steel exhaust systems for Land Rover & Range Rover applications. The next 13 pages include all of the detailed applications so you can be sure that you are getting the correct fitment for your vehicle.

Carefully selected from our specialist suppliers, the systems reflect the high quality engineering & manufacturing processes that we demand our suppliers work to and provide a purpose designed product to reduce long term running costs & enhanced vehicle re-sale value.

Why fit a Stainless Steel Exhaust?

All the stainless steel exhausts featured in this catalogue are made from high quality stainless steel. For the technical, this is a generic term for a group of corrosion-resistant steels containing a minimum of 10.5% chromium.

Standard exhausts made from aluminised mild steel are prone to rust, so they are likely to need replacing after several years of service. Corrosion is caused by salt spread on the roads during winter and, if vehicles are used mainly for short journeys, the exhaust gases condense within the system and do not have time to dry out leaving moisture inside the system.

Stainless steel exhaust systems will also help to maximise gas flow – this reduces the effort required by the engine and can save money on fuel costs.

The system will cost a little more than replacing with a standard system but the small additional outlay is far outweighed by the advantages of trouble free motoring. If you are planning to keep your vehicle for any length of time, it is a first class investment:

- **Tough, reliable, long-lasting**
- **Designed to outlast vehicle lifetime**
- **Quiet in operation**
- **Cost-effective choice**
- **Vehicle re-sale value enhanced**

Loadspace Liner Tray

Semi-rigid waterproof loadspace liner tray with a raised lip on three sides to protect loadspace floor and side wall carpets from dirt or wet equipment. Not compatible with luggage retention kit.

VPLRS0386 PRICE EX VAT (OUTSIDE EU) **£158.40** PRICE INC VAT (UK @ 20%) **£190.08**

Loadspace Protection Liner

The loadspace full protection liner covers sides, roof and loadspace floor and provides full protection from wet or muddy items like boots, garden waste, or leisure equipment. When loading, the padded panel drops down and acts as a bumper protector. The liner anchors securely to the lashing eyes to keep it in place and is designed to keep bulky objects hidden from view. A side zip allows easy access to the loadspace area.

iPhone Connect & Charge Dock

The iPhone connect and charge dock has been designed to allow visibility of the phone whilst charging, utilising the cup holder space in the central console. When connected the iPhone media is accessible and has the ability to be controlled via the integrated infotainment/audio system. The 'cut-out' design of the holder is such that the home button is also accessible for use when parked. The iPhone USB charger can be easily disconnected if the USB connection is required for other use. For use with iPhone 5, 5c, 5s, 6, 6s and SE. Not suitable for use with 6 Plus. iPhone® is a registered trademark of Apple Inc., registered in the US and other countries.

For iPad Air **VPLRS0392**

PRICE EX VAT (OUTSIDE EU) **£85.01** PRICE INC VAT (UK @ 20%) **£102.01**

Samsung 10.1" Holder

For Samsung 10.1"

VPLRS0394

PRICE EX VAT (OUTSIDE EU) **£85.01** PRICE INC VAT (UK @ 20%) **£102.01**

Click and Hook

The Click and Hook is part of the Click and Go range. This universal hook creates extra storage space for items to be hung, especially useful for handbags or groceries. Click & Go base required for fitment.

VPLRS0389

PRICE EX VAT (OUTSIDE EU) **£25.08** PRICE INC VAT (UK @ 20%) **£30.10**

Click and Hang

The Click and Hang is part of the Click and Go range. This removable coat hanger allows shirts or jackets to be kept crease-free whilst transporting. Also includes an integral hook for use outside the vehicle.

Not compatible with rear seat entertainment. Click & Go base required for fitment.

VPLRS0390

PRICE EX VAT (OUTSIDE EU) **£43.56** PRICE INC VAT (UK @ 20%) **£52.27**

Click and Work

The Click and Work is part of the Click and Go range. This folding table offers the rear passengers a practical surface from which to work, particularly useful on long journeys. It also has a cup holder and is height and angle adjustable for in-cabin comfort.

Click & Go base required for fitment.

VPLRS0395

PRICE EX VAT (OUTSIDE EU) **£74.25** PRICE INC VAT (UK @ 20%) **£89.10**

This is a selection of Click and Go accessories, if you cannot find what you are looking for call 01522 568000 for help.

Seat Back Stowage Standard

Convenient stowage system for the rear of the front seats provides multiple compartments for stowing small items.

VPLVS0181

PRICE EX VAT (OUTSIDE EU) **£63.62** PRICE INC VAT (UK @ 20%) **£76.34**

Seat Back Stowage Premium

Convenient stowage system manufactured from Windsor leather. For the rear of the front seats provides multiple compartments for stowing small items. The premium seat back stowage also features a soft touch interior lining and magnetic clasps.

VPLVS0182

PRICE EX VAT (OUTSIDE EU) **£162.46** PRICE INC VAT (UK @ 20%) **£194.95**

Security Box

Offered as an accessory for the loadspace rail system, this convenient security box offers sufficient space for laptops up to 15" screen or similar sized items.

VPLVS0183

PRICE EX VAT (OUTSIDE EU) **£364.37** PRICE INC VAT (UK @ 20%) **£437.24**

Cross Bars

Elegant, durable Bright finish aluminium cross bars, with compact design which utilises the full length of the bars, providing space to mount multiple accessories.

The cross bars are easy to attach or remove with a simple clamp down with handle operation and are also lockable for security. Aerodynamic profile minimises drag and wind noise. The combined incremental height of roof rails and cross bars when fitted is up to 110mm. When fitted maximum load capacity is 74kg. Roof rails required for fitment. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio systems, if fitted.

VPLRR0154 PRICE EX VAT (OUTSIDE EU) **£168.30** PRICE INC VAT (UK @ 20%) **£201.96**

Roof Mounted Bike Carrier

Roof mounted cycle carrier provides a simple and secure fitting with the bicycle front wheel removed. Ideally suited to lightweight bikes and 'racing' wheels. A separate carrier is included for the front wheel. Easy to fit, lockable cycle carrier carries one bicycle per holder. Three bike holders can fit on the vehicle.

VPLWR0101 PRICE EX VAT (OUTSIDE EU) **£188.83** PRICE INC VAT (UK @ 20%) **£226.60**

Tow Bar Mounted Bike Carrier

Tow Bar mounted Bicycle carrying modules. Features rear lights and number plate holder. Supplied complete with bike tie-down straps. When fitting either of these cycle carriers it is recommended that you fit heat shield pack – VPLWR0124.

2 bike cycle carrier RHD only

VPLVR0066 PRICE EX VAT (OUTSIDE EU) **£438.42** PRICE INC VAT (UK @ 20%) **£526.10**

VPLVR0068 PRICE EX VAT (OUTSIDE EU) **£506.58** PRICE INC VAT (UK @ 20%) **£607.90**

Luggage Carrier

Flexible rack system to facilitate roof carrying. When fitted maximum load capacity is 61kg. Roof rails and cross bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio systems, if fitted.

VPLRR0159 PRICE EX VAT (OUTSIDE EU) **£346.50** PRICE INC VAT (UK @ 20%) **£415.80**

Roof Storage Accessories

Luggage Partition - Full Height

Designed to prevent luggage from entering the passenger compartment. The design of the luggage partition has been optimised to second row seating featuring tilt functionality. Complies with ECE-17 regulation. Features a useful integral ski hatch which allows longer items such as skis to be carried where a suitable rear seat option is fitted. Can be fitted with loadspace rubber mat and loadspace liner tray, loadspace rail system and parcel shelf roller blind.

VPLRS0374 PRICE EX VAT (OUTSIDE EU) **£237.60** PRICE INC VAT (UK @ 20%) **£285.12**

Luggage Partition - Half Height

Designed to prevent luggage from entering the passenger compartment. The design of the luggage partition has been optimised to second row seating featuring tilt functionality. Can be fitted with loadspace rubber mat and loadspace liner tray, loadspace rail system and parcel shelf roller blind. The half height option is suitable for use when folding second row seats.

VPLRS0375 PRICE EX VAT (OUTSIDE EU) **£188.10** PRICE INC VAT (UK @ 20%) **£225.72**

ORDER

BY PHONE: 01522 568000 / ON LINE: www.rimmerbros.co.uk / E-MAIL: Irsales@rimmerbros.co.uk

*Prices include UK VAT @ 20%.

Loadspace Retention Kit

The loadspace retention kit consists of a pack of attachments that fix into the loadspace rails via a quick lock/quick release system to help provide a comprehensive and flexible solution for retaining luggage and other items within the loadspace. The attachment pack includes a retractable strap with inertia reel and telescopic rod. For 5 seat only. Requires loadspace rails for fitment.

VPLCS0324 PRICE EX VAT (OUTSIDE EU) **£135.19** PRICE INC VAT (UK @ 20%) **£162.23**

Loadspace Mounting Rails

Loadspace mounted rails to help increase the flexibility of loadspace stowage, also allowing the fitment of the luggage retention kit stowage system. For 5 seat only. Required for use with loadspace retention kit.

VPLRS0357 PRICE EX VAT (OUTSIDE EU) **£237.60** PRICE INC VAT (UK @ 20%) **£285.12**

Loadspace Organiser

Convenient loadspace organiser provides segregated compartments to stow wet, dirty or delicate items or separate shopping/luggage. The front and rear compartments also have flexible dividers to create smaller compartments within them. Featuring two lockable lids, it is secured via loadspace 'D' loops. Cannot be used in conjunction with other loadspace accessories and where specified third row seats must be stowed.

VPLRS0355 PRICE EX VAT (OUTSIDE EU) **£222.75** PRICE INC VAT (UK @ 20%) **£267.30**

Loadspace Partition

Loadspace Partition, full height (incorporates luggage net). Convenient loadspace partition net helps protect passengers from stowed items. The net fits to the loadspace D-loops and fixings in roof lining. Easily detachable for when carrying longer loads. Applicable for use with loadspace cover, loadspace mats and loadspace liner.

VPLRS0360 PRICE EX VAT (OUTSIDE EU) **£84.15** PRICE INC VAT (UK @ 20%) **£100.98**

Loadspace Retention Net

Secure small items and luggage within loadspace. Utilises loadspace tie-down points. Includes floor net and two ratchet straps which are approximately two metres long.

VPLMS0302 PRICE EX VAT (OUTSIDE EU) **£92.09** PRICE INC VAT (UK @ 20%) **£110.51**

Side Luggage Net

Keep smaller items safely stowed away - but easy to find - with a loadspace side net. Not available for vehicles with 2 zone air conditioning.

VPLRS0361 PRICE EX VAT (OUTSIDE EU) **£44.55** PRICE INC VAT (UK @ 20%) **£53.46**

Electrically Deployable Tow Bar

The electrically deployable tow bar is operated via a switch in the rear loadspace or by the infotainment system in the cabin. It is sensitive to obstruction encountered during deploying/stowing and will stow automatically if necessary. The electrically deployable tow bar is stowed discreetly behind the rear bumper when not in use providing a clean attractive finish. The towing electrics are included and are also hidden until deployed. Approved for up to 3,500kg* maximum towing capacity and 350kg* nose weight.

*Towing capability varies by powertrain. Towing nose weight dependent upon powertrain and wheels fitted. Requires tow bar module, switch and harness kit VPLRT0192 for fitment.

VPLRT0172 PRICE EX VAT (OUTSIDE EU) **£1584.00** PRICE INC VAT (UK @ 20%) **£1900.80**

A tow eye cover must also be ordered when fitting electrically deployable tow bar.
