PART OF A PREMIER GLOBAL COMPANY

Precor is a proud member of **Amer Sports Corporation**, one of the leading sporting goods companies in the world, with 2017 net sales of €2.7 billion. Through continuous research and development, Amer Sports seeks to develop new and better sporting goods that appeal to consumers and its trade customers. Its portfolio of internationally recognised brands includes Salomon®, Wilson®, Suunto®, Atomic®, Arc'teryx® and Mavic®.

All the products of Amer Sports' affiliate brands are designed to improve the performance of all athletes—from beginners to professionals—to help them achieve their goals and provide them with more enjoyment from their activity of choice.

The company's sports equipment, footwear and apparel span a wide range of sports and outdoor activities including tennis, badminton, golf, American football, soccer, baseball, basketball, skiing, snowboarding, fitness training, cycling, running, hiking and diving.

A PROUD HISTORY OF INNOVATION

Take a moment and think how far the fitness industry has come in the past 38 years. Consider all the ways it's grown and truly come into its own. Fitness is a cultural force. It's a movement—one we joined as a proud participant in 1980. We began by launching the first ergonomically-sound rowing machine and we've been moving with the natural motion of the human body ever since. Every breakthrough product and service we've partnered with or brought to the industry has always put fitness first.

1980 Founded as Precision Corporation

1981 Launched first ergonomically-sound rowing machine, the Amerec 610

1982 Launched first fitness equipment with motivational microprocessor-based electronics

1985 Debuted full line of treadmills, rowers and electronic stationary cycles

1987 Launched first home and commercial programmable treadmills

1990 Launched first cushioned treadmills

1994 Precor treadmills patented with the unique Ground Effects® Impact Control

1995 Introduced the world's first Elliptical Fitness Crosstrainer (EFX®)

2000 Precor acquired by Amer Sports Corporation

2003 Acquired Cardio Theater to lead industry entertainment trend

2004 Acquired Icarian® Strength to expand the Precor portfolio

2005 Launched the revolutionary Adaptive Motion Trainer (AMT®)

2007 Launched the revolutionary Adaptive Motion Trainer (AMT®)

2010 Introduced new P80 touch screen console and the Preva operating system

2011 Introduced new P80 touch screen console and the Preva operating system

2013 Launched new Experience Series Treadmill

2014 Launched new Experience Series Treadmill

2014 Introduced education programming with the Precor Coaching Center

2015 Introduced education programming with the Precor Coaching Center

2016 Introduced the world's first Elliptical Fitness Crosstrainer (EFX) with Converging CrossRamp®

2016 Introduced the world's first Elliptical Fitness Crosstrainer (EFX) with Converging CrossRamp®

2017 Launched Experience Series 700 Line cardio with treadmills, ellipticals and AMTs

2017 Launched Experience Series 700 Line cardio with treadmills, ellipticals and AMTs

2020 Introduced the Spinner® Climb bike

2012 Launched the Adaptive Motion Trainer (AMT®) with Open Stride

2012 Debuted the Discovery Series strength lines

2015 Acquired Queenax® Functional Training system, enhancing the portfolio with functional strength

2015 Partnered with Spinning®, the leader in indoor cycling, to launch a new line of Spinner® bikes

2016 Introduced new P82 and P62 touch screen consoles

2017 Introduced Spinner® Chrono Power bike

2017 Began authorised distribution of Assault Fitness products

CARDIO EQUIPMENT

“We were impressed by the 700 line’s technological punching power, so are trialling this kit to gauge member feedback in a live environment. It’s receiving strong, positive reviews so far, particularly with the recent release of Preva 7.0 on the networked consoles, which brings popular audio and video entertainment options, including Netflix and Spotify upgrades.”

*Cameron Ritchie,
Deputy Director of Operations,
University of Edinburgh Sport and Exercise*

A MIX-AND-MATCH PORTFOLIO TO MEET YOUR NEEDS

No matter what kind of fitness facility you run, Precor has a cardio solution that can be tailored to meet your needs. Our Experience Series 800 and 700 lines offer a mix-and-match cardio portfolio with three console options. The Assurance® Series is a cost-effective option for facilities with fewer exercisers and hours of use. Whether your members require a range of unique motions and tech savvy entertainment or just want to get on and go, or anything in between, we have you covered.

Experience Series 800 Line

Meet the most well-appointed cardio equipment that Precor offers, with a reputation for reliable performance and ease of care, supported by outstanding service. In addition to our iconic smooth feel, the treadmill and elliptical include the Active Status Light for at-a-glance monitoring of equipment status. This line also includes our unique Adaptive Motion Trainer with Open Stride, recumbent and upright bikes.

Experience Series 700 Line

Built for high-use environments on our commercial platform and delivering the same reliability, performance and efficiency that Precor is known for, but at a mid-tier price. The 700 Line includes the treadmill, elliptical and Adaptive Motion Trainer with Fixed Stride.

Assurance® Series

The Assurance Series provides a cost-effective option for a broad range of facilities that host fewer exercisers and fewer hours of daily use such as corporate gyms, multi-family housing complexes and fire departments. The Assurance Series treadmills, ellipticals, upright and recumbent bikes deliver exceptional value.

A NEW LOOK FOR EXPERIENCE SERIES

Our new bolder look introducing contemporary cardio colours that complement the aesthetics of any facility. A more neutral colour scheme with black pearl frames to add impact to your cardio floor. Colour options available across the full 800 & 700 lines.

TREADMILLS

Personalised Performance for You and Your Exercisers

Meet the needs of your exercisers with treadmills that are personalised to match their every step. Quiet and efficient, we've streamlined the assembly and included diagnostic tools to increase uptime and to keep operating costs down. Our treadmills make it easier for you to provide a customer-focused environment. Thoughtful design and performance deliver an exerciser experience that feels right and keeps them coming back.

- **Active Status Light*** — To increase uptime, an external status light lets you and your staff know at a glance the operating condition of your treadmill and when to perform life-extending maintenance.
- **Ground Effects® Impact Control System (GFX)** — Our patented system combines ideal cushioning, support and stability for exercisers. Our treadmill decks are designed to provide more absorption in the front where exercisers' feet hit the belt and add rigidity at the back for a firm push-off.
- **Integrated Footplant Technology (IFT)** — Our unique, patented system recognises exercisers' natural foot speeds and matches every stride for an ultra-smooth feel that enhances the workout experience.

**Available on Experience Series 800 and 700 Lines only.*

TRM 885 with Decline Function

Speed Range: 0.5-16 mph / 0.8-25.5 kph
Decline / Incline: -3 - 15%
Side Handrail Length: 61 cm / 24 in
Console Options: P82, P62, P30

TRM 781

Speed Range: 0.5 - 12 mph / 0.8 - 19.3 kph
Decline / Incline: 0 - 15%
Side Handrail Length: 46 cm / 18 in
Console Options: P82, P62, P30 and P30i*
*Only available with the TRM 731 interval treadmill.

ELLIPTICAL FITNESS CROSSTRAINERS

Natural Movement, a Low-Impact Stride Motion and Proven Reliability

Give your members the ability to get more out of every workout while you enjoy exceptional reliability and performance. Our next-generation Elliptical Fitness Crosstrainers (EFX[®]) with a proprietary elliptical motion path provide a perfectly natural, low-impact stride, so exercisers can work out longer and harder. As it did in 1995, when we first introduced the elliptical to the world, the EFX still sets a standard.

- **CrossRamp*** — Users can isolate or cross-train specific lower body muscle groups simply by adjusting the angle of the ramp from 10 to 35 degrees, making it easier for them to focus on their individual fitness goals.
- **Proprietary Converging Ramp Design*** — The new converging ramp design better mimics an exerciser's natural converging path of motion as they walk and run.
- **Easy to Maintain** — Carrying on the tradition of Precor reliability and service, the EFX is easy to clean and maintain.
- **Active Status Light** — To increase uptime, an external status light lets you and your staff know at a glance the operating condition of your elliptical and when to perform life-extending maintenance.

**Available on Experience Series 800 Line only.*

EFX[®] 885 with Converging CrossRamp[®]

Adjustable CrossRamp from 10-35 degrees
Covered ramp and rear drive housing
Arm Models: Moving and Fixed
Console Options: P82, P62, P30

EFX[®] 781

Fixed CrossRamp at 20 degree incline
Open ramp and covered rear drive housing
Arm Models: Moving
Console Options: P82, P62, P30

ADAPTIVE MOTION TRAINER

One Machine. Multiple Workouts.

The Precor Adaptive Motion Trainer (AMT) can provide your exercisers with a variety of cardio experiences in one piece of equipment. It will take the pressure off your other equipment by delivering a range of motions similar to what's offered by your treadmills, ellipticals, bikes and climbers. With low energy consumption, the AMT also provides a low cost of ownership.

- **Open Stride*** — The proprietary Open Stride feature allows exercisers to adjust their stride height from 6.8 to 10 inches (17.3 to 25.4 cm) to mimic running stairs or climbing a hill. Users can go from short strides to long strides, walking to running.
- **Dynamic Adjustable Stride Length** — Exercisers can spontaneously change their stride length from zero to 36 inches (0 to 91.4 cm) similar to the motions of running or cross country skiing.
- **A total body workout in one piece of equipment** — Pushing and pulling the moving handlebars will engage the upper body, resulting in a total body workout.
- **Better results** — Research proves the AMT elicits high levels of oxygen consumption and energy expenditure, allowing exercisers to take their cardio fitness to a higher level.¹

Climber: Similar to stair climbing, this exercises all leg muscles, especially the glutes, hip flexors and calves.

Elliptical: Similar to a jogging motion, this engages the hamstrings and glutes.

Bike: Similar to a motion of cycling and great for working calves and quads.

Treadmill: Similar to running, this stride provides total body engagement, but without the impact.

AMT® 885 with Open Stride

Stride height: Five levels of adjustable stride height from 6.8 - 10 in (17 - 25 cm)

AMT® 783

Stride height: Fixed stride height at 7.6 in (19 cm)

¹Exercise Modality Comparison of Seven Exercise Modes, 2007. Len Kravitz, Ph.D., University of New Mexico, USA.
*Available on Experience Series 800 Line only.

BIKES

Delivering a Comfortable Ride

Our upright and recumbent bikes are designed to allow exercisers to enjoy efficient, smooth pedalling with biomechanically correct Knee Over Pedal Spindle (KOPS) geometry and extra-wide, dual-sided pedals. They will also appreciate the simple, one-handed seat adjustment and the accessibility of the console and accessories holder, allowing them to maintain form and stay focused on their workout.

Both styles of bike allow for convenient access to the belt-drive system with an easily removable shroud that comes off with the cranks and pedals still in place. A two-stage system** enables a very low start resistance and smooth, consistent changes of resistance levels.

CLIMBER

Natural Motion with Superior Feel

Our ergonomically-designed climber encourages proper posture and technique to keep motion fluid and comfort. 31 climbing speed levels range from 30 to 180 steps-per-minute in five steps-per-minute increments to allow the exerciser to tailor workouts to their fitness level.

**Available on Experience Series 800 Line only.

UBK 885
Upright Bike

Ergonomic Upright Handlebars

Over-molded style handlebars add comfort and durability while offering dual heart rate contacts and three ergonomic riding positions: upright, cruising and road.

RBK 885
Recumbent Bike

Ultra Comfortable Seat Back

Custom-designed air flex seat back, featuring a ventilated panel and unique suspension system for a cool, cushioned ride.

CLM 835
Climber

Designed for Durability

The durable six-phase generator system has no contacting parts, providing smooth, quiet and durable operation.

EXPERIENCE® SERIES 800 LINE

AMT® 885 with Open Stride Adaptive Motion Trainer

- Dynamic, adjustable stride length from 0 to 36 in (0 to 91 cm)
- Adjustable stride height of 6.8 to 10 in (17 to 25 cm)
- 20 resistance levels
- LxWxH: 80 x 35 x 73 in (203 x 89 x 186 cm)
- Weight: 191 kg (422 lb)

EFX® 885 with Converging CrossRamp Elliptical Fitness Crosstrainer

- Converging CrossRamp®: adjustable ramp between 10 and 35°
- Moving handlebars for upper and lower body workout
- Active Status Light for maintenance status at a glance
- 20 resistance levels

CONSOLES & NETWORKED FITNESS

“We looked at various brands but Precor offered the whole package: high quality, affordable equipment. The new P82 console is great for us as a business – its online maintenance updates mean there’s minimal disruption to the usage. We can also modify and personalise the screens with information, adverts and promotions as and when we need to, keeping members up to date with what’s going on at the centre.”

*Andy Smith, General Manager,
Mark Hall Sports Centre, Harlow, Essex, England*

IT'S ALL IN THE DETAIL

Add another highlight to the facility tour — your cardio floor — featuring the Experience Series consoles from Precor. From first glance to deeper inspection, the P82 and P62 consoles make quite an impression. With a brilliant touch screen and a simple, intuitive interface, they will draw members deeper into their workout.

The clean and proven design of these consoles makes it easy for exercisers, whether new to Precor or familiar, to locate controls, inputs and adjustments.

The Preva® operating system, available exclusively on the P82 and P62 consoles and in operation in nearly 6,000 networked sites globally, allows exercisers to display workout metrics and entertainment simultaneously.

Capacitive Touch Screen

Exercisers can control their workout via screen gestures on a robust, responsive and intuitive industrial-grade capacitive touch screen.

Mobile Device Charger

Experience Series consoles all feature a mobile device charger for electronic book readers, small MP3 players and mobile phones.

Motion Controls

Large and responsive controls are independent of the touch screen, enabling exercisers to alter the motion and the resistance of their workout with ease.

Reading Rack

Sturdy enough for books, magazines, tablets and e-book readers, the rack has a hole to feed charging cables through to the Mobile Device Charger.

Heads-up Viewing Angle

The upright screen position encourages proper biomechanics and posture while working out.

Featured Workout

Exercisers are encouraged to try more variety in their workouts, as the touch screen consoles promote new workouts on a daily basis.

CONSOLE AND ENTERTAINMENT OPTIONS

The Experience® and Assurance® Series feature innovative and reliable cardio equipment with consoles backed by tens of thousands of hours of testing in the field to ensure proven performance that facilities can count on. The “heads up” positioning of all the consoles encourages proper biomechanics and posture during the workout.

P82 Console

The P82 is a 15 in (38.1 cm) capacitive touch screen console with a quad core processor that seamlessly combines a fitness, television and internet experience into one simple design.

P62 Console

The P62, is a 10 in (25.7 cm) capacitive touch screen console with a dual core processor that injects contemporary design and a premium networked fitness experience to the cardio floor.

P30 Console

The P30 console features a large LED display and motion controls along with mobile device charging for most mobile phones and small MP3 players.

P30i Console

Designed for interval training with one-touch speed and incline keys. Available only on the TRM 731 Interval Treadmill.

Standard Console

The Standard console complements the Assurance Series Line of cardio equipment, to deliver exceptional value along with a commercially-proven mechanical design and durability.

ENTERTAINMENT OPTIONS

Personal Viewing System (PVS)

Provides individual television viewing, channel and volume control in a 15.6 in (39.6 cm) screen for the P30 and Standard consoles. The PVS has an energy saving “Auto Power Save” feature which shuts down the screen when not in use.

Entertainment Cap (800/900 MHz)

Conveniently integrating with the console panel, these receivers provide access to a selection of audio channels from wall or ceiling-mounted displays. Available for P30 and Standard consoles.

Cable Management

With this complete system, you can easily protect cables from damage and keep your facility organised and attractive.

TOOLS FOR YOUR BUSINESS

Incorporating technology and digital services into your gym can help you to build your brand, engage with your members and strengthen your gym community. We make it simple. When you connect the Precor P82 and P62 touch screen consoles, featuring the Preva® operating system, to the internet, you've got networked fitness. Leverage the MyUI suite of tools to customise the console experience and directly communicate with your exercisers to increase attraction, improve retention, drive revenue and optimise your cardio equipment management.

Customisable Walk-up Screen

Extend the presence of your brand to the cardio floor with a high impact, customisable screen. Add a button that leads to content about your facility to keep in touch with your exercisers.

Automatic Software Updates

All networked Precor touch screen consoles receive automatic software updates, refreshed content and new features—at no expense and without any action required by you.

Asset Management Alerts

Choose from an immediate alert to a weekly summary to keep in touch with your Precor cardio equipment. Our system continually watches the alerts, preventing duplicates and an overflow of repeats.

Welcome Screen Messages

Greet your exercisers with a short text message on the console before they start their workout. Consider promoting your services, special offers or operational information, such as a change in opening hours.

Exerciser Activity Report

See the cardio activity of your Preva account holders with this simple online report. Great for supporting member challenges and contests, driving targeted communications and measuring cardio preferences.

Manage Apps

Setting the vibe in your facility is an important component of your brand, indicating you know what your exercisers prefer. Exerciser access to entertainment and media apps can be controlled by you with a simple click.

In-workout Messages

In-workout messages are a great way to stay connected to your cardio exercisers. Use them to promote your facility, events, specials, services and schedules.

ATTRACT

“As an ex professional footballer, my husband has always been in the fitness industry and with three children, we wanted to start a business that would benefit us all as a family. We intuitively decided we wanted to furnish the gym with Precor equipment due to its high quality. The benefits of Preva networked fitness will motivate our members and enable them to easily gain access to all their data.”

Owner Anytime Fitness Southport.

DELIGHT YOUR EXERCISERS TO DRIVE RETENTION

Technology has changed the world and continues to do so, especially in the delivery of entertainment and information. Investing in a fully connected experience for your gym will give you powerful tools for creating an engaging fitness environment. With the Preva operating system, exercisers can personalise their cardio experience to instantly access the apps, entertainment and information they want. Whether its interactive workouts, popular music or pro tips, content is always kept fresh to increase engagement.

Preva® Personal Accounts

With a Preva personal account, exercisers can set and track weekly workout goals, receive fun achievement badges, save favourite workouts to do another time and control the layout of their apps and entertainment so their favourites come first.

Media & Entertainment Apps

Access personal audio and video entertainment apps, like Netflix® and Spotify® through the Precor touch screen consoles. Workout finishes before the movie does? Exercisers can pick up right where they left off on their next workout or from any other personal device.

Single Sign-On

Once your exercisers enter their account logins and password for their personal audio and video entertainment accounts, they won't have to do so again during future workouts. A single sign-on to start their workout is all they'll need.

Virtual RunTV Courses

Your exercisers will 'escape to the gym' with RunTV, where inspiring, fitness-centric media and entertainment delivers an engaging workout every time. Multiple channels offer motivating, human-powered stories, training tips from fitness experts and stunning interactive trails that sync with the cardio lower for challenging, interactive runs, rides and climbs in some of the world's most iconic locations. There's always something new with frequent content refreshes.

Bluetooth® Sign-in

Mobile phones are a common accessory at the gym. Exercisers can use theirs to sign into their Preva personal account on the Precor touch screen console.

Bluetooth® Headphones

Your exercisers can quickly and easily pair their Bluetooth headphones to the cardio console to enjoy tether-free audio.

Video On Demand

A hand-curated selection of music, sports and entertainment video playlists designed for the moving environment. Our curator refreshes 36 playlists weekly with popular content selected from YouTube®. A Precor original.

My Profile

Exercisers can easily manage their logins and passwords through a new feature on the touch screen console called My Profile.

RETAIN

“Precor equipment is high quality and technologically intuitive. That, coupled with the excellent service support, provided the perfect combination. Preva networked fitness is an essential feature for Anytime Fitness Derby as it will not only help members track their progress but will also motivate them.”

Owner Anytime Fitness Derby.

PARTNERSHIPS AND INTEGRATIONS

An open platform and a carefully chosen community of partners helps us integrate with the systems and services you value the most—systems dedicated to meaningful exerciser experiences that improve participation, increase retention and build revenue.

Movescount®

Movescount is an advanced tracking app which allows exercisers to plan routes, track their moves and share these with Movescount. Pair Movescount with a Suunto® watch or simply use a smartphone for tracking. Either way, Movescount is fully integrated with Preva, allowing exercisers to capture and consolidate all their activity inside and outside the fitness facility.

EveryMove®

Precor is proud to partner with EveryMove, the nation's first lifestyle-based rewards programme that enables exercisers to capture their healthy activities for rewards from brands, their employer, and their healthcare provider.

Links Modular Solutions

Links provides fitness facilities with a complete solution to manage staff, members and programmes. Links also allows you to effectively manage the booking of training sessions, classes, and appointments. Links facilities can connect with the Preva operating system so exercisers can share their cardio exercise data with the Link system.

bounts

The Preva® operating system is integrated with bounts, a digital health app that rewards exercisers with prizes from big name brands and local stores. When Preva exercisers get active and earn bounts points, they can spend them in a bounts reward shop on premium brands, prizes and experiences.

PerfectGym

PerfectGym is a comprehensive, high-tech club management solution for fitness clubs, sports facilities and gyms which drives business owners around the world to attain and maintain professional excellence through powerful reporting.

Microsoft® HealthVault®

Precor offers exercisers the ability to automatically add tracked workouts directly into their Microsoft HealthVault account with their Preva personal account and the Preva Mobile app. Users can then view their workout information in Microsoft HealthVault along with their other health and wellness information.

STRENGTH EQUIPMENT

“We have always had one of London’s most extraordinary exercise spaces, with a triple-height ceiling and glass roof, but now we also have the latest in high-quality equipment to complete the experience. The broad range of Discovery Pin Selected and Plate Loaded strength equipment will appeal to first-time users and seasoned strength trainers alike.”

Oliver Deen, Jubilee Hall Club Manager

RAISE THE BAR ON YOUR STRENGTH

Buying strength equipment is not the way it used to be. The available space has changed, the exerciser has changed, the competition has changed, the products have changed. One of the things that hasn't changed is that buying strength equipment is a longer-term ownership commitment than other types of fitness equipment. That's why we offer a variety of strength equipment that will get used by exercisers of all experience levels.

Discovery Series

We discovered that people weren't afraid of strength training, they were afraid of the machines. That's why we launched the Discovery Series, the first serious strength lines designed to be more inviting than intimidating. Discover a full range of products that are approachable and intuitive, perform for exercisers of all ability levels and will withstand the test of time.

Pin Selected

Plate Loaded

Benches & Racks

Vitality Series

The Vitality Series consists of compact, space-efficient pin selected units that can help you provide exercisers with the variety they crave, while working within space and budget requirements.

Single Exercise Pin Selected

Dual Exercise Pin Selected

Icarian® Strength

The Icarian Strength Line includes Cable Machines and Multi-Station units that serve as a solid foundation to support your strength offerings, making it easy for exercisers to begin and progress in strength training.

DISCOVERY SERIES

Pin Selected Line

Instructional Placards

Easy-to-understand, large, text-free illustrations demonstrate correct form at a glance. QR codes link to instructional videos that make getting started easy for all exercisers via their smartphones.

Weight Tower

The open and inviting design allows exercisers to easily access the weight stack selector pin. The add-on weight can be engaged with a simple flip of a lever to increase the load.

Adjustments

Highly visible and durable adjustment points, including ratcheting, gas-assisted seat adjustments with large, over-moulded rubber adjustment handles make it easy and comfortable for exercisers to get the right fit.

Durability

The 11-gauge steel and fully-welded boxed frame provides a rock solid foundation that will not bend, flex or creak under heavy loads or over time.

DISCOVERY SERIES PIN SELECTED LINE

Advanced Movement Design

Advanced Movement Design products challenge muscles through a wider range of motion. This progressive platform works the body in a way that engages more muscles to functionally develop strength and stabilise movement patterns.

Independent movement arms move on a converging/diverging axis to match the body's natural patterns, providing a greater range of motion. The ergonomic design ensures exercisers experience a smoother, more natural and fluid motion during the workout.

DSLO414
Converging Chest Press

- Dimensions (LxWxH):

- Weight: 255 kg (561 lb)
- Weight Stack: 109 kg (240 lb)

DISCOVERY SERIES

Plate Loaded Line

Inviting

Designed to perform for exercisers of all levels, the Discovery Series Plate Loaded Line features optimally-positioned load heights, low starting weights and instructional placards.

Adjustments

Highly-durable, gas-assisted seat adjustments and large, ergonomic rubber adjustment handles make it easy and comfortable for exercisers to get the right fit.

Grips

Oversized grips make pressing exercises more comfortable by distributing the load over a larger area of the exerciser's hand, reducing strain.

Pivots

Cast pivot housing adds strength and provides a polished appearance.

“The feedback on the Precor Plate Loaded stations from both customers and staff has been extremely positive.”

*Dave Somers, General Manager,
Hutton Moor Leisure Centre*

DISCOVERY SERIES

Benches and Racks Line

Functional Excellence

The attention to product design enhances traditional and functional exercise movements, creating a wide range of exercise opportunities.

Sturdy

Heavy-duty, oversized tubing, high-impact polyurethane covers and replaceable, non-slip wear guards optimise product strength and durability.

Storage

Bumper plate accommodating weight plate horns, Olympic Bar storage and functional apparatus storage is built in and conveniently located, increasing accessibility and keeping accessories within reach.

Ergonomically Designed

Low bench height profiles accommodate a wide range of exercisers in a stable position that helps minimise external shoulder rotation and allows for unencumbered lifts.

“The new strength half rack was previously missed by both personal trainers and members and it’s addition is considered a huge improvement.”

*Debbie Warne, Sport and Leisure Manager,

VITALITY SERIES

Compact

The Vitality Series is designed with limited space in mind. All machines have a small footprint and a low profile design.

Add-on Weight

Each station features an add-on weight. Exercisers can easily engage the add-on weight with a simple push of a lever.

Easy to Use

Simple, step-by-step instructional placards help exercisers of all levels get set up and include tips to help maximise workouts.

CORE AND STRETCHING

Ab-X

The unique “floating pivot point” design of the Ab-X creates the ideal “crunch” movement while the contoured pads reduce stress to neck and shoulders.

V-Crunch

Using the body’s own weight as leverage, the V-Crunch allows exercisers to perform leg raises with resistance that’s less than their own body weight.

StretchTrainer 240i

The StretchTrainer 240i enables exercisers to prepare their bodies for a stronger and more satisfying workout.

Ab-X

- Dimensions (LxWxH): 68 x 36 x 38 in (173 x 90 x 97 cm)
- Weight: 68 kg (150 lb)

V-Crunch

- Dimensions (LxWxH): 50 x 28 x 63 in (127 x 71 x 160 cm)
- Weight: 93 kg (205 lb)

StretchTrainer 240i

- Dimensions (LxWxH): 52 x 28 x 36 in (132 x 71 x 91 cm)
- Weight: 68 kg (150 lb)

GROUP TRAINING

Gym members today are demanding, with many looking for small group high intensity interval (HIIT) and functional group training classes. Those engaged in group training are 26% less likely to cancel their membership than exercisers who use only the fitness floor¹.

This trend is on the rise, with the 2018 annual list from the American College of Sports Medicine (ACSM) naming HIIT & Group Training as No. 1 & 2. Our comprehensive portfolio ensures we can provide the solutions your customers want.

Visit go.precor.com/grouptrainingmanual

¹ Harbourne, Emily. "Group X: The Key to Retention." Club Solutions Magazine. August 1, 2017. <http://clubsolutionsmagazine.com/2017/08/group-x-key-retention/> (accessed January 8, 2018).

BUILD YOUR COMMUNITY WITH GROUP TRAINING

Whether you're focused on class, team, HIIT or circuit-style group training, combining Precor products and innovative programming can bring new solutions to invigorate your group training offerings, attract new exercisers and keep them coming back.

Keep Your Open Space

The open architecture of Queenax preserves the open space in your facility, allowing you to use the space beneath the unit for other activities when it is not in use. Integrated transport wheels make the Assault Fitness products and Spinner® bikes quick and easy to move, restoring the open space in your facility for other uses.

Make HIIT Happen

Incorporate equipment designed for short bursts of high-intensity activity, like the TRM 731 Interval Treadmill or the Assault AirRunner or AirBike Elite, into your group training programming. Complement these HIIT cardio options with Queenax functional training, for a powerful cardio and strength training session.

Make It Fun with Adaptable Products

Precor offers products that can be mixed and matched in unexpected ways throughout your group training sessions to create unique workouts that keep exercisers engaged and achieving the results they want.

Add Programming to Increase Value

When your trainers are educated with the knowledge to deliver specific programming or themed workouts in the group training environment, your exercisers will reap the rewards. Precor offers a variety of training classes, delivered at your facility by Precor Master Coaches, in half or full day sessions.

SPINNING®

“Our philosophy is to provide our members with the best gym experience they can possibly have by insisting on high-quality equipment and high-level, energetic teachers. Precor equipment exceeds expectations and we continue to improve our offering to meet our members’ needs. They love knowing how fast they are going, how far they are riding and how long it’s taking them. It’s one of the key features of the bike, along with the smooth ride, that they comment on.”

*Peter Guy, Director,
Gymworks, Chorley, UK*

Overall	All models measure 48 x 20 in (51 x 122 cm) and have a perimeter-weighted flywheel. They support a maximum rider weight of 350 lb/158.7 kg.			

Spinning® launched global indoor cycling by uniting innovation in indoor stationary bike technology with an unprecedented cycling experience. The Spinning® programme and Spinner® bikes define the indoor cycling category—reaching millions of riders worldwide.

The latest line of Spinner® bikes are engineered to deliver a personalised ride while also improving fit, feel and longevity. Distance your facility from the pack and give your exercisers the riding experience they’ve always dreamed of.

In addition to innovative bikes, Spinning® is the global leader in providing world-class instructor certification and education. High quality bikes and high quality programming means results for your facility. Experience the difference. Experience Spinning®.

ANATOMY OF A SPINNER®

1 Materials

All frame materials are powder-coated for lasting protection from sweat and moisture to deliver a great ride, class after class.

2 Drivetrain and Flywheel

The inertia of our flywheel system smooths out the pedal stroke to eliminate any “dead spots” at the top and bottom, enabling riders to improve their pedalling technique and efficiency.

3 Pedals and Crank Arms

All commercial Spinner® bikes use oversized, forged-steel crank arms that accommodate the push and power of even the strongest rider. Our dual-sided, SPD®-compatible pedals feature threadless Morse taper connections, making them the strongest and most durable crank and pedal system on the market.

4 Saddle and Handlebar Adjustments

On most models, the saddle and handlebars can easily be adjusted both up/down and fore/aft to fit every rider, regardless of their size.

5 Studio Console

Featuring low power consumption and automatic pairing with any ANT+ compatible heart rate monitors, the Spinner® Studio console is optional for the Spinner® Ride, Shift and Climb models.

6 Power Console

Included with the Spinner® Chrono bike, the Power Console features an ultra-bright backlight that is always on and never needs batteries. Designed to fit seamlessly with SPINPower® programming, Bluetooth® compatible to share data with a smartphone and ANT+ compatible for heart rate straps and leaderboard pairing.

5 Studio Console

6 Power Console

DELIVER THE FULL EXPERIENCE

Bring the full Spinning® experience to your facility by combining your purchase of world-class Spinner® bikes with world-class certified Spinning® instructors and programming. A consistent programme experience builds loyalty and community among riders and instructors alike and delivers the optimal experience for your riders.

The Spinning® programme is not just about exercise. Spinning® classes offer a variety of rides, movements, coaching and motivation that keep riders safe, excited and engaged. And the Spinning® programme is specifically designed to work with Spinner® bikes.

Certifying your instructors in the Spinning® programme is easy. The international team of 150+ Master Instructors help deliver the world's most respected and recognised indoor cycling certification and continuing education programmes, which include multiple curriculum levels so your instructors can keep progressing. Your instructors will join over 250,000 people that have been certified worldwide.

With SPINPower® certification, they'll be able to deliver challenging, watt-based classes on the popular Spinner® Chrono bike.

HIGH INTENSITY INTERVAL TRAINING (HIIT)

“Beat Theory Fitness is a unique brand offering heart rate monitored sessions so clients can track their progress every step of the way. We also have Assault AirRunners, supplied by Precor, that are pretty new to the market, which helps us to stand out from our competitors.”

*Leon Chee-a-tow, Owner,
Beat Theory Fitness*

ASSAULT FITNESS
AUTHORIZED DISTRIBUTOR

DESIGNED WITH HIIT IN MIND

Assault AirRunner

The Assault AirRunner is an elite fitness running machine that packs an intense workout into a small package. As an exerciser-powered treadmill with no maximum speed, exercisers can push themselves to their limit and change speeds at their own rate. A built-in handle and transport wheels make it easy to manoeuvre, allowing you to quickly reconfigure your workout space and keep your training offerings adaptable.

Assault AirBike Elite

The exerciser's entire body will be engaged as they push, pedal and pull against the unlimited fan resistance of the Assault AirBike Elite, resulting in a truly dynamic and adaptable workout experience. Individualised and infinite adjustments allow exercisers to keep it mellow and level to target a heart rate, or jump to high intensity interval training for a serious workout.

TRM 731 Interval Treadmill

The TRM 731 Interval Treadmill offers operators the ability to conduct small-group interval training on treadmills. As instructed, the exerciser can change the interval intensity using the one-touch speed and incline keys. Whether instructor-led or on their own, the exerciser can dynamically adapt their interval workout, making it fun and engaging.

** With compatible heart rate transmission strap; chest strap not included.*

Assault AirRunner

- LxWxH: 69.9 x 32.8 x 64 in (177.5 x 83.3 x 162.6 cm)
- Weight: 127 kg (280 lb)
- 8 pre-programmed workouts
- Bluetooth® connectivity*

Assault AirBike Elite

- LxWxH: 55.1 x 26.1 x 58.6 in (140 x 66.3 x 148.8 cm)
- Weight: 56.7 kg (125 lb)
- 8 pre-programmed workouts

TRM 731 Interval Treadmill

- Ground Effects® & Integrated Footplant Technology
- Incline range: 0-15% incline
- Speed: 0.5-12 mph (0.8-19.3 kph)
- 4.0 HP AC Drive System and next generation motor controller
- Active Status Light for maintenance status at a glance
- Exclusively with P30i console
- LxWxH: 83 x 35 x 62 in (211 x 89 x 157.5 cm)
- Weight: 184 kg (405 lb)

QUEENAX[®]

“Having expanded the centre’s group exercise programme, Queenax classes are proving exceptionally popular, with attendance quadrupling since their introduction and over 800 members attending classes each week.”

*Simon Kirby, Sport and Leisure Manager,
Salt Ayre Leisure Centre*

QUEENAX[®]
Functional Fitness by Precor

IMAGINE THE POSSIBILITIES

Queenax is a unique functional training system that can multiply the training space within your facility and support small group training. It's offered with comprehensive education to ensure your trainers deliver programming with confidence, consistency and excitement to drive exerciser engagement.

Queenax

The One

A wall oriented or self-standing unit ideal for 1:1 personal training

- **The One Wall:**
1 suspension station, 2 total training stations
- **The One Self-Standing:**
1 suspension station, 3 total training stations

The Corner

Provides space-constrained facilities with the functionality of a much larger structure

- **The Corner:**
2 suspension stations, 6 total training stations

Wall Solution

Takes advantage of a training area that is often underutilised: the space along the walls

- **W175 2D Wall Solution:** 1 suspension station, 3 total training stations
- **W475 2D Wall Solution:** 2 suspension stations, 7 total training stations
- **W500 3D Wall Solution:** 3 suspension stations, 12 total training stations
- **W700 3D Wall Solution:** 4 suspension stations, 15 total training stations

The Open Format

A free-standing system that preserves the open floor space beneath the unit

- **X2 500 Open Format:** 6 suspension stations, 15 total training stations
- **X2 700 Open Format:** 8 suspension stations, 18 total training stations
- **X2 800 Open Format:** 10 suspension stations, 20 total training stations
- **X3 500 Open Format:** 9 suspension stations, 21 total training stations
- **X3 700 Open Format:** 12 suspension stations, 25 total training stations
- **X3 800 Open Format:** 15 suspension stations, 28 total training stations

The Bridge

A wall-to-wall solution that supports a dynamic variety of training opportunities

- **X1 500 Bridge:** 3 suspension stations, 6 total training stations
- **X1 900 Bridge:** 5 suspension stations, 9 total training stations
- **X2 500 Bridge:** 6 suspension stations, 11 total training stations
- **X2 900 Bridge:** 10 suspension stations, 18 total training stations
- **X3 500 Bridge:** 9 suspension stations, 17 total training stations
- **X3 900 Bridge:** 15 suspension stations, 26 total training stations

QUEENAX OPTIONS FOR YOUR SPACE

KEEP IT FUN AND FRESH

Keep your group exercise and personal training offerings fresh and dynamic with a selection of over 100 Training Apps and Optionals for your Queenax. Attach, remove and reconfigure training accessories to convert your Queenax from circuit to group exercise training environments. Carabiner clips, reinforced loops, sliding heavy bags and storage solutions are easy to access and change.

Suspension Fitness

Offer group and circuit-style classes that allow exercisers to support their own body weight in a variety of postures and positions.

Functional

Train for the movements of everyday life with Mobile Parallels, Torso Trainers, Rebounders and more.

Performance & Combat

Capitalise on the popularity of boxing, kickboxing, mixed-martial arts classes and rope training.

Storage

Thoughtful, integrated storage keeps training accessories off the floor, yet easily retrievable.

Elastic

Appeal to exercisers of all ability levels with space-efficient resistance training.

Frame and Beam

Increase the number of training stations and variety of your Queenax, with elements such as Pull Up Bars, additional Training Bars and Boxing Lines.

Learn more about Queenax Training Apps & Optionals at go.precor.com/appsandoptionals

EXPAND YOUR PROGRAMME WITH QUEENAX EDUCATION

Precor offers a variety of onsite training classes, delivered by a Precor Master Coach, to ensure that your trainers and your exercisers get the most out of your Queenax. Master Coaches travel to your facility to deliver half or full day training workshops. Precor provides training manuals and marketing materials to support programme launches in your facility.

Queenax Foundations

Queenax Foundations is a seven-hour, full day training curriculum delivered by a Precor Master Coach. Your trainers will learn a system for building movements and workouts with an array of functional training tools and provide a pathway for developing small-group coaches and leadership skills by leveraging the open architecture of Queenax.

Ultimate Superfunctional: Stacks

Your trainers will learn the building blocks and design strategy to help them deliver energising Superfunctional group training classes.

UFO Trainer Course

Learn how to train and build programmes with the UFO, the first suspension fitness tool that allows exercisers to suspend their whole body weight on a platform while reacting to three-dimensional forces.

Superfunctional Move

Your trainers will learn all about the components of recovery and regeneration work that will help them teach a class that engages, relaxes and re-centres your exercisers.

4D PRO® Bungee Fitness Trainer Course: Speciality Course for Queenax

Learn how to coach with this playful, dynamic and core-intensive suspension fitness tool.

Check out the Precor Coaching Centre for the latest updates on onsite training offerings at go.precor.com/coachingcentre

EDUCATION

“The Queenax training provided to us and the use of the Movement Library have been great support tools to help us deliver unique classes to our customers within the weekly timetable. It has been very successful.”

*David Fitzpatrick, Xcite Livingston,
West Lothian Leisure, UK*

GET TIPS FROM THE PROS

Our mission at the Precor Coaching Centre is to help your training staff and exercisers get the most out of your Precor equipment. Whether your trainers have five minutes between clients to catch up on the latest training trends applied to Precor equipment, or you are looking for in-depth onsite training workshops to teach your staff how to drive programming on the equipment, we offer a solution.

The Precor Coaching Centre is your one-stop shop online for the latest Precor education and training resources. Content is optimised for different audiences so you can quickly access the material that is most relevant to your training and your business. We invite you to explore our education channels that are uniquely designed to provide best-in-class content.

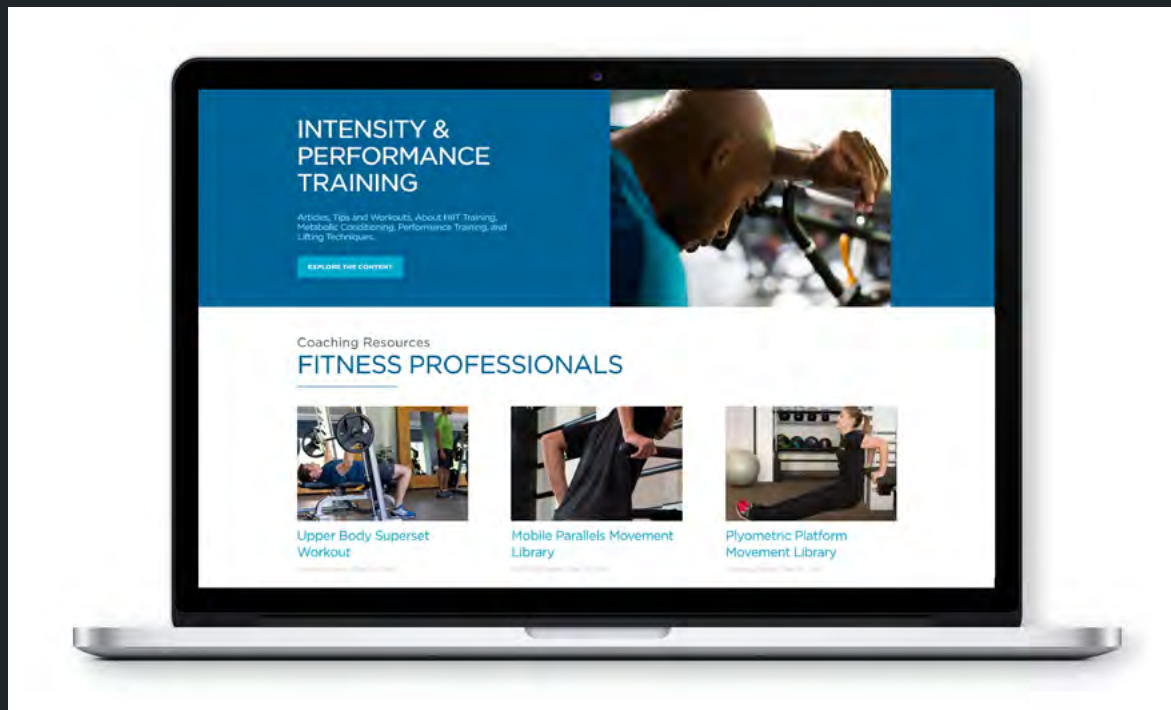

[precor.com/coaching-centre](https://www.precor.com/coaching-centre)

Top Features

- Available in six languages and accessible 24/7
- Free of charge, open-access content
- Regular content updates from the Precor coaching team and leading industry educators
- Content is driven by industry trends and fundamental exercise principles
- Video and written content is designed for the time-sensitive fitness educator

SERVICES

“Precor continues to offer a world-class service to the University and our community by offering high quality products at competitive prices. From the sales team to installation and ongoing servicing, Precor have proven their level of professionalism and commitment time and time again and this partnership for our first satellite roll out has been no exception. This facility will prove to be much more than just a gym—offering us a base to engage with the entire Easter Bush community.”

*Cameron Ritchie,
Deputy Director of Operations,
University of Edinburgh Sport
and Excellence*

PLANNING AND DESIGN

Creating Great Workout Environments

Our complete, customised approach to design enables you to create a totally unique fitness environment that reflects your membership profile and represents the aspirations of your business.

We offer a comprehensive design service including:

- Complete design and project management
- Visualisation using 2D and 3D graphics
- Inspirational use of space and natural light
- Custom design tailored to individual requirements
- Access and accessibility as defined by ADA
- Audio/visual planning

FINANCING AND LEASING

The Smart Way to a Better Deal

We realise that every business is unique, which is why we have dedicated, experienced professionals work with you. In strategic partnership with many financial institutions, they'll help assemble financing and leasing packages that meet the needs of your business.

- We have highly knowledgeable and experienced staff to help you make the right decisions for your business
- We can offer a variety of financing solutions
- We are committed to providing you with a fast, efficient and enjoyable financing experience

For more information, please contact your Precor sales representative or one of the team of Precor finance/leasing professionals.

DELIVERY AND INSTALLATION

Professional Attention to Detail

The moment you place your order, we begin the process of making sure you're completely satisfied. From pre-installation site surveys to equipment training and documentation at installation, our team provides first-class communication and attention to detail.

Our extensive network of equipment and AV installers spans the world. We provide them with ongoing service and technical training, so you can be assured of our high standards for quality installation.

SERVICE AND SUPPORT

Adding Predictability to Your Equipment Ownership Experience

Helping you keep your business running smoothly is a top priority for us. Our warranties and extended warranties provide comprehensive coverage from the start. Adding preventative maintenance keeps your equipment running in top shape and when your warranty expires, we offer service agreement options that keep your equipment going. Our payment programmes take the surprises and guesswork out of your equipment maintenance and repair.

About our service:

- We guarantee the work performed by our certified technicians
- 97% of service requests are dispatched within 24 hours
- Over 90% of our customers rated their service experience as good, very good, or excellent¹
- Our off-the-shelf parts availability is 97%

Intellectual Property Notice

Precor is widely recognised for its innovative, award-winning designs of exercise equipment. Precor aggressively seeks U.S. and foreign patents for both the mechanical construction and the visual aspects of its product design. Any party contemplating the use of Precor product designs is hereby forewarned that Precor considers the unauthorised appropriation of its proprietary rights to be a very serious matter. Precor will aggressively pursue all unauthorised appropriation of its proprietary rights.
