A Colorful Mid-20th Century Freight Car Mix

In big cities, railroad yards are the crossroads of commerce. In the 1950s and 1960s, all kinds of cars and commodities congregated in yards while they were being switched into the consists of departing trains. Coal moving from mines to mills and power plants met oil moving from refineries to dealers and distributors, as well as raw materials and merchandise traveling to warehouses and factories across the continent. Roadnames and schemes emblazoned on the car sides evoked distant origins and destinations as switchers moved the cars around the yard.

Whether you're modeling the glory years of steam, the fascinating and colorful transition era or the diesel era, Walther'sProto and Walther'sMainline rolling stock offers a vast selection of prototypes, eras and roadnames.

A Note on Availability

At Walthers, we strive to provide you with the widest variety of product possible. In order to achieve this goal, we maintain significant inventory on site. Despite our best efforts to have every item you could possibly need in house at all times, it is not realistically possible to do so. For your convenience, we do our best to promote items that are in stock and to clearly label other items—those that are new and available for Advance Reservations or items that are low in stock and have Limited Quantities Available when the Flyer goes to press. At times, we experience a quick sell out on a particular item or unexpected demand for an item that we believed to have sufficient stock in house. In many cases, items can be back ordered for future delivery. In other cases, we are unable to secure more of a particular item. For the most up to date availability information, we encourage you to check walthers.com, email us at custserv@walthers.com or call our Customer Service Team at 1-800-4-TRAINS. The 'Find It' feature on our website will help you find a Dealer in your area that may still have stock available for the item you desire.

Please know that we appreciate your support of both Walthers and your Local Hobby Shop. We are committed to making this Flyer a valuable part of your model railroading.

Vehicle Deals

Freight cargo carried by rail may start or end its journey in a truck. Passengers often travel to the train station by car or bus. And, what about those hi-rail vehicles railroads use for construction and maintenance? Those are just a few reasons why you need vehicles on your layout. Trucks, cars, motorcycles, buses and even boats help set time and place. They're also great collectibles. Start building your vehicle pool with these great deals.
