

SIMPLY CLEVER

ŠKODA

# ŠKODA Yeti

Discover an extraordinary world full of new experiences with the ŠKODA Yeti.

Unmatched vistas that you won't find on a map.

Those little adventures that begin right outside your front door.

Perfect for street canyons, shopping terrains and the urban jungle.

The secret to the distinct **design** of the Yeti model lies in the combination of a robust appearance with functional details. The characteristic **front grille** clearly evokes the ŠKODA brand while other elements of the front of the car lend the Yeti an original and striking expression. The main **headlamps** sweep to the sides of the body. On the side of them are located **round lamps with integrated daytime running lights** and **fog lamps**. The Yeti can also be equipped with **Bi-Xenon headlamps with rotary modules** and **front fog lamps with the Corner function** (see picture).

The **rear lights** also extend all the way to the wings and when activated the traditional letter **C** lights up.

Your driving will gain a whole new dimension thanks to the **electrically-adjustable panoramic roof window** which allows you to create a large open space above the front seats.

If you want to reveal his real skills you'll need to go off the common trails. Do not fear the gravel and snow. The **Yeti model with a 4x4 drive**, backed by the **4th generation Haldex clutch** as well as an **off-road mode**, can easily negotiate even difficult terrain. The off-road term represents a number of functions such as the **hill descent assistant** or **start-up assistant**, the adaptation of the **ABS, ASR and EDS** electronic systems to the driving conditions and a more sensitive accelerator configuration.

The Yeti represents a perfect mix of comfort and practicality as well as sports style and elegance. This is demonstrated for example by the **noble steel foot pedal covers** or the **integrated telescopic headlamp washers**.

You will discover state-of-the-art **technologies** behind the pleasant drive. The Yeti offers a wide choice of **radios, navigation systems, multifunctional steering wheels** as well as **phone preparations**, which are available in both GSM II version (see photo) designed for Bluetooth enabled devices and GSM III version further supporting phones with rSAP (remote SIM Access Profile). It can also be equipped with **MDI** (Mobile Device Interface), which is a connector located in front of the gear stick enabling control of an external device through buttons on a radio, navigation system or multifunctional steering wheel. The high **technology** is further represented by the engines, some of which are available with front-wheel drive. The 1.2 TSI/77kW engine will also be available with an **automatic 7-speed DSG** (Direct Shift Gearbox). A complete overview of engine versions and technical specifications is included in the catalogue.

The **Bolero radio** is a modern audio system featuring many functions, including an integrated 6-CD changer. An excellent listening experience will be ensured by the **Sound System** with 12 speakers plus a digital equaliser.

**Recommended gear shift** function is displayed in the top right corner of Maxi DOT or on the on-board computer display.

The **Columbus navigation system** offers, amongst others, off-road navigation. This feature enables you to record and save a route taken by the vehicle off the digitised road network, for example on unpaved roads.

If there is an area that must be clear from the outset it is **safety**. No room for secrets or surprises. You should know that the Yeti was designed with the highest regard to the driver's and passengers' protection as well as consideration for pedestrians.

The **front side airbags** protect the pelvis and chest of the driver and passenger in the event of a side collision. The **height-adjustable WOKS front headrests** are designed to protect the cervical spine in case of a rear impact.

The **double sun shield** protects the driver and front passenger from blinding rays entering from the front as well as the side.

The **head airbags**, which create a wall along the side windows when activated, protect passengers' heads in the front and rear.

The **third headrest in the rear** is height adjustable and increases the safety of the passenger in the middle seat.

The **rear side airbags**, which are activated by a side impact, protect the pelvis and chest of passengers on the rear side seats.

The **Boarding Spots**, designed to illuminate the entry area, are integrated in the external mirrors and enable you to avoid puddles and stones and so get in the car safely, even in complete darkness.

While the **driver airbag** is hidden in the steering wheel, the **passenger airbag** is located in the dashboard. It can be deactivated so that you can fit a child seat in the front.

The activation/deactivation buttons of some functions are located on the lower part of the centre panel. Depending on the equipment version, you can find here for example: **ASR, parking sensors, off-road mode, TPM and parking assistant.**

Your safety, especially on long motorway journeys, is contributed to by the **rest assistant**, which, at speeds above 65 km/h, evaluates data from the power steering sensors. When the system detects behaviour indicating that the driver might be tired, it suggests to take a break.

The **alarm** with interior monitoring, horn with back-up power and inclination sensor play an important role in the security of the car as such.

The **driver knee airbag** prevents contact with the lower part of the dashboard in the event of a collision.

At a closer look at the Yeti, you discover his exceptional **practicality**. In addition to the variable luggage compartment, the vehicle offers a lot of storage spaces and compartments in the passengers' area.

**VarioFlex** (rear seating system) - 3 separate rear seats, which can be folded or removed independently of each other.

**Storage compartments** on the sides of the luggage compartment and **sliding hooks**.

**Mid-level luggage compartment floor.**

The **set of nets** offering several arrangement options.

**Foldable table** in the rear seat backrest.

**Centre console** with a drinks holder, storage compartment and pen holder.

**Storage compartment** in the middle of the top of the dashboard.

**1-litre bottle holder** in the front door compartments.

**Sunglasses compartment** located in the roof panel.

**Function package** for the Jumbo Box armrest (ashtray and 1.5-litre bottle holder).

**Roof railing**, silver (the standard equipment version is equipped with a black roof railing).

**Foldable tables with drink holders** in the backrests of the front seats.

The effortlessly **foldable backrest of the front passenger seat**, enhancing the utility value of the car.

**Unibag** removable sack.

**Extendable dividing net** separating the passenger space from the luggage compartment.

**SunSet** – windows with a higher tint density in the rear of the car.

**Automatically-retractable external mirrors** upon locking the car.

**Climatronic** dual-zone air conditioning with electronic regulation, odour filter, automatic air circulation and remotely-controlled independent heating.

**Heated front windscreen** will quickly clear frost or steam.

**Electrically-adjustable driver seat** with memory.

**Cruise control** for automatic maintenance of constant speed.

**Parking assistant** instructions are shown on a **Maxi DOT** display.

If you have high expectations of **comfort**, it is Yeti, in the SUV category, that will fulfil them. Discover unexpected **spaciousness** as well as an exceptional **variability**. Then there is of course the pleasant experience of controlling the vehicle. The **dashboard** was designed exclusively for the Yeti model and you'll intuitively find all controls exactly where you'd expect them. The driving comfort of all passengers is catered for by a range of comfort products, available as standard or extra equipment.

With consideration for the future. The environmentally-friendly ŠKODA Yeti GreenLine.

The **Yeti GreenLine** is available with the **1.6 TDI CR DPF/77kW** diesel engine, which on its own is already a guarantee of an economical operation yet a dynamic drive. With specific equipment and modifications to the car it achieves a combined consumption of **4.6 l/100 km** at a CO<sub>2</sub> emission level of a mere **119 g/km**. The GreenLine model is offered in the same three equipment levels as the standard model (see equipment versions).

The **Yeti Green tec** model is noted for economical operation leading to reduced CO<sub>2</sub> emission levels. It has features, such as the **Start-Stop system**, **energy recovery functionality** and **special tyres**. The Green tec version is available with front-wheel drive and the 1.4 TSI/90kW petrol or 2.0 TDI CR DPF/103kW diesel engine and in all three equipment levels: Active, Ambition and Elegance (see equipment versions).

The original **GreenLine badge** can be found on the front grille as well as on the 5th door.

The **Start-Stop system** automatically switches off the engine, for example while waiting at the traffic lights or when moving slowly in a queue of cars. By pressing the clutch pedal the engine automatically restarts. The driver can deactivate the Start-Stop system with a button located on the central console. Engine load reduction and more economical running are further assisted by the **energy recovery functionality**, which enables an effective use of the car's kinetic energy for battery recharging.

The GreenLine version may be equipped with the 7.0J x 16" **Nevis alloy wheels**. The Active equipment version comes with the 7.0J x 16" steel wheels with **Rif hub covers** and the Ambition and Elegance versions come with the 7.0J x 16" **Moon alloy wheels**. All wheels for Yeti GreenLine come with 205/55 R16 tyres with low rolling resistance.

A **green element** in the engine version badge, placed on the left side of the 5th door, is a unique feature of the Yeti Green tec.

The vehicles are equipped with the 16" **Moon alloy wheels** (Ambition and Elegance) or 16" steel wheels with **Rif hub covers** (Active). All wheels come with tyres with low rolling resistance. (The photo shows Moon wheels.)

Outdoor and city. At home in both. The ŠKODA Yeti Adventure.

When you are in the mood and have the courage to head out for some exciting experience, you will appreciate a partner who shares your passion: The **ŠKODA Yeti Adventure**. You can rely on it in the city traffic as well as in challenging outdoor conditions. And after a long day conquering wild rivers or climbing rocks it will take you home in maximum comfort. The distinctive exterior elements include, among others, the **17" Matterhorn alloy wheels, silver roof railings and SunSet**. In addition, it can feature a **black roof and black rear-view mirrors**. It's available as both a 4-wheel and 2-wheel drive in selected body paint colours.

The **Adventure interior** comes in the Onyx colour, with Techno décor, and sports seats with exclusive upholstery with a tyre tread pattern and silver stitching.

**Decorative door sill strips** with stainless steel inserts with the Adventure inscription are simultaneously a practical feature, because they protect the sills from damage when entering and exiting the car.

Your enjoyment of driving the Yeti Adventure will be enhanced by its leather features: the **multifunctional steering wheel** with controls for the radio and telephone, **gear stick knob** and **handbrake handle**.

An original detail is the name of the limited edition **Adventure** on the window of the 5th door.

Prepare to meet exceptionality. The ŠKODA Yeti Laurin & Klement.

The stylish **interior of the Laurin & Klement** version comes with leather seats with silver stitching. It's lined either with a black Piano Lack décor or an imitation wood décor. The 3-spoke multifunctional steering wheel, enabling control of the radio and phone, gear stick knob and sleeve, handbrake handle and the Jumbo Box, are also in leather. All the leather features, as well as the removable woven carpets, fashion silver stitching. Both front and rear seat backrests and the dashboard strip are decorated with the Laurin & Klement logo.

Original details, exclusive accessories and exceptional comfort - all this is brought to you by the highest **Laurin & Klement** equipment version. In addition to features uniquely available for this version, you can look forward to other excellent standard equipment, such as the **Bi-Xenon headlamps with AFS** (Adaptive Frontlight System), **silver roof railing**, **SunSet**, **Bolero radio** and **Net Programme**. The model is available with selected engines with both 4-wheel and 2-wheel drive, in all metallic body paint colours or in white.

**Protective side door strips** with a decorative chrome strip not only prevent damage to the doors but also underscore the exclusivity of the car.

The **Laurin & Klement plaquette**, which helps you instantly identify the model, decorates both front mudguards.

**Decorative door sill strips** with stainless steel inserts feature the Laurin & Klement inscription. They are not only an original but also a practical accessory, which protects the sills from scratches.

The **17" Annapurna alloy wheels** in a two-colour combination, which are a distinctive feature of the version, will invite you with their attractive design.

The **Elegance** equipment version has been designed for those who are seeking a high level of comfort, exceptional practicality and maximum safety. The Dune interior with fabric upholstery is available in 2 colour combinations: black or Gobi Sand. The dashboard, in black/black or black/Gobi Sand, is lined with the Cosmic décor. The standard equipment for the Elegance version further includes the small leather package (4-spoke steering wheel, gear stick knob and handbrake handle), height-adjustable front seats with lumbar support, the Jumbo Box with an adjustable armrest between the front seats, electrically-adjustable front and rear windows, a Maxi DOT display, Climatronic dual-zone air conditioning, off-road mode (for 4x4 vehicles) and 7.0J x 17" Dolomite alloy wheels. By special request, the Elegance version may be ordered with the exclusive Antilope (Alcantara) or Lynx (leather) interior and Boreal Wood décor (imitation wood).

The **Ambition** equipment version is the perfect choice for those who desire a sports style yet a high level of comfort and safety. The Spirit interior with fabric upholstery is available in 2 colour combinations, black/blue or black/silver, and the door panelling comes in 4 different colour designs. The dashboard, in black/black or black/grey, is lined with the Quartz décor. The standard equipment for the Ambition version further includes chrome interior door handles, a steering wheel with a chrome strip, an instrument panel with a multifunctional indicator, a third headrest in the rear, a foldable table in the rear seat backrest, a fixing system with sliding hooks in the luggage compartment and 7.0J x 16" Moon alloy wheels. By special request, the Ambition version may be ordered with the exclusive Antilope (Alcantara) or Lynx (leather) interior.

The **Active** equipment version completely reflects the character of the Yeti. It offers a level of comfort which exceeds the standard for the compact SUV class and at the same time will attract you with its simple elegance. The Reflex interior with fabric upholstery is available in black. The dashboard, in black/black, is lined with the Graphit décor. The standard equipment for the Active version further includes height-adjustable front seats, electrically-adjustable external mirrors and front windows, 1-litre bottle holders in the front door compartments, a centre console with a drinks holder, a storage compartment and a pen holder, the VarioFlex rear seating system and 7.0J x 16" steel wheels with Rif hub covers.

7.0J x 17" **Annapurna** alloy wheels with a polished surface for 225/50 R17 tyres.

7.0J x 17" **Annapurna** alloy wheels with a polished surface for 225/50 R17 tyres; 2-colour design.\*

7.0J x 17" **Spitzberg** alloy wheels for 225/50 R17 tyres.

7.0J x 17" **Dolomite** alloy wheels for 225/50 R17 tyres.

7.0J x 17" **Erebus** alloy wheels for 225/50 R17 tyres.

7.0J x 16" **Nevis** alloy wheels for 215/60 R16 tyres.

7.0J x 16" **Moon** alloy wheels for 215/60 R16 tyres.

7.0J x 16" steel wheels for 215/60 R16 tyres with **Rif** hub covers.

\* Available exclusively for the L&K version.

The **roof transportation systems** will especially be appreciated when carrying various sports equipment. A genuine ŠKODA box with 380-litre capacity, which successfully passed the City Crash test, is also available.

**ŠKODA Genuine Accessories** add style to your car while enhancing its utility. In our range, which is essentially an extended range of the extra equipment, you will find various products including decorative strips, alloy wheels, leather products, foot mats, radios and navigation systems, roof racks, child safety seats and even a cuddly Yeti toy. To further stress the character of the car, you can go for one of our decorative packages: the **off-road package** includes bonnet foil, roof strips, alloy wheels, wheel arch extensions etc.; the **ALU package** offers covers of side mirrors, lateral strips, slats of the front bumper etc. To get a full overview of our range of products, ask any authorised ŠKODA partner for our special accessories catalogue.

**ISOFIX G 0/1 child seat** to ensure safe journeys for smaller passengers.

A **towing device** for a trailer of up to 2,000 kg.

**Plastic boot dish** with an increased 15cm edge and a Yeti inscription.

## General information

### ŠKODA Service

Put your car in good hands. We give you good reasons to choose an authorised ŠKODA service partner.

#### We offer you first-class quality

Your car requires advanced technology. For this reason, all the ŠKODA authorised service partners have special tools and quality diagnostic systems at their disposal, which, in combination with the technological procedures prescribed by the manufacturer, ensure the perfect functionality and reliability of your car.

#### Professionally trained staff by the manufacturer

The ever-rising standard of the technology used in the car requires corresponding professional qualifications on the part of the staff. To meet this requirement, the manufacturer organises regular training for the staff of the authorised service partners in order to provide them with up-to-date information important for their activities.

#### Our motto: be fair and open with our customers

Careful, professional and friendly counselling for the customers upon acceptance of orders is of great importance to us in the same manner as diligence and completeness with respect to repairs and maintenance work. All this is continuously monitored by internal quality control of the provided services.

#### Comprehensive range of services:

##### › Service inspections

For your car to remain in top condition and functional for a long time it is essential to conduct all regular service inspections in accordance with the manufacturer's instructions, which can only be guaranteed if performed by an authorised ŠKODA service partner. The service schedule informs you when the service inspection must be done.

##### › Body and paintwork service

Damage to the body and painted areas following an accident will be fixed by your authorised ŠKODA service partner in an expert manner, in accordance with information from the manufacturer, using ŠKODA Genuine Parts. This is important not only for your safety, but also for functionality and maintaining your car's value.

##### › Courtesy car

The authorised ŠKODA service partner can provide you with a courtesy car for the period of repair or service inspection.

##### › Pick-up and delivery service

If you are unable to take your vehicle to the ŠKODA Service, an authorised ŠKODA service partner will arrange a date with you to pick up the car. The car will be delivered back after the service work has been completed.

The listed services represent only a part of the wide range of ŠKODA Service offers, which may vary from country to country. Please contact your authorised ŠKODA service partner for further details and information on the range and specific conditions of services they offer.

### ŠKODA Genuine Accessories

ŠKODA Genuine Accessories offer you child safety seats, roof rails, alloy wheels, sunblinds and more. For more detailed information on the complete ŠKODA Genuine Accessories range see the individual ŠKODA model catalogues.

### ŠKODA Genuine Parts

#### Safety

ŠKODA Genuine Parts are identical to those used during the assembly of ŠKODA vehicles. The use of first-class materials and technologies guarantees safe and worry-free driving.

#### Availability

ŠKODA AUTO offers a complete range of parts and equipment items that are used in the vehicle's batch production and does not merely focus on high-turnover parts. ŠKODA ensures the provision of genuine parts even after the relevant model is discontinued, and not only for the duration of the statutory period but for at least 15 years for the essential operational parts.

#### Long service life

The use of first-rate materials and production technologies in the manufacture of ŠKODA Genuine Parts ensure their maximum reliability and long life. As proof, we have extended the genuine batteries warranty to three years.

#### Environment protection

The ŠKODA Genuine Parts range includes exchange parts whose production has a low environmental impact in terms of waste, excess heat and water contamination.

### Information on the internet

Information is available at [www.skoda-auto.com](http://www.skoda-auto.com) to assist you in deciding which vehicle suits your needs, thanks to the detailed descriptions and photographs of all our models. Visit [www.facebook.com/skoda](http://www.facebook.com/skoda) and become a fan of ŠKODA to receive the latest updates and get in touch with our community.

### ŠKODA Finance

ŠkoFIN offers solutions for both individuals and businesses. You can learn about the current offer through any authorised ŠKODA partner. The credit or lease contract can also be concluded directly with the car dealer.

### Global fleet

The ŠKODA AUTO Global Fleet Services offer B2B fleet solutions to customers with all kinds of requirements. A fleet made up of ŠKODA cars offers unmatched roominess, long-lasting quality, safety, low total costs of ownership and, as a result, excellent value for money. You can find more information about our products and services at [www.skoda-auto.com/fleet](http://www.skoda-auto.com/fleet).

One of the most important goals of ŠKODA AUTO is the development and manufacture of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our ŠKODA cars are produced using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cathodolysis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines we offer meet the current emission regulations. All ŠKODA products are made using manufacturing processes that adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, ŠKODA cars meet technical, safety, quality and environmental requirements. ŠKODA AUTO contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses ŠKODA AUTO's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature. 

Some models in this catalogue are shown fitted with optional or extra equipment not necessarily included in the standard equipment. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes without prior notice. The information included in this catalogue is for guidance only. Due to printing technology limitations, the colours of paints or other materials shown in this catalogue may differ from reality. For up-to-date information and further details on standard and optional equipment, current prices and delivery terms and conditions contact your authorised ŠKODA partner. This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.
