Thrilling and luxurious, our all-inclusive expeditions are in a class all their own.

Exclusively Chartered to Bring You the Best

Every Luxury Expedition Cruise is exclusively chartered by Abercrombie & Kent, enabling our experts to deliver a truly unique itinerary. We choose luxurious and innovative small expedition ships, and then limit the number of guests to approximately 80 percent of what each vessel can accommodate. No voyage exceeds 199 guests, allowing us to offer a most intimate personnel-to-guest ratio of 1 to 1.3. This is reflected in our excursions as well, with no more than 10 guests on board our Zodiacs at a time and no more than 25 guests per group on cultural shore excursions.

Luxurious, All-Inclusive Cruising the A&K Way

From prearranged arrival and departure transfers and gratuities for staff and crew to complimentary Wi-Fi and onboard meals and drinks, we take care of everything so that you can fully enjoy every awe-inspiring moment. Depending on your journey, you may also enjoy visits to cities like Kyoto and Buenos Aires, complete with signature A&K guided tours and pre and/or post stays in ideally located, luxury hotels.

A Long-Standing Reputation in Extraordinary Exploration

In 1991, Abercrombie & Kent launched its first voyage to Antarctica. In 2021, we celebrated three decades of unmatched authenticity and expertise in expedition cruising. From the beginning, it's been our mission to show you epic frontiers and unspoiled lands under the wing of the most accomplished Expedition Team. Today and more than 400 voyages later, innovation, exploration and expertise still define every voyage we lead.

Health and Safety Protocols Evolve to Protect You as You Travel

Everyone involved in your A&K travel experience observes a strict, round-the-clock health and safety regimen. Along with our ship owner partner, our team closely monitors both external guidelines and local conditions to ensure that these procedures are up to date. Additionally, any changing protocols involving vaccinations, masking, testing and other safety practices are clearly communicated, both before and during your journey.

In these same destinations, choose from active pursuits that range from walks on snowy beaches with penguins and scenic hilltop treks to snorkeling and scuba diving in spectacular marine ecosystems, now offered on our new voyage to the South Pacific.

“What I felt came through was their passion and commitment. This isn’t a job. [This team] is committed to what’s going on and I love that. You have a very happy couple here and we’ll be back with A&K for sure.”

Sail on intimate small ships, designed for adventure and elevated to our exacting standards.

We Select the Ideal Ship for Every Destination

Our experts zero in on the most advanced small expedition ships, each with a private-yacht-like ambiance, selecting only those ideally suited for the regions we explore. This includes sleek ‘Le Bougainville’ in the Mediterranean and commanding ‘Le Lyrial’ for ice-cloaked Antarctica. Defined by strength and style, these purpose-built ships feature everything you’d expect on a luxury A&K cruise, including a convenient marina, ample deck space, a panoramic fitness room, elegant spa and cutting-edge technology.

A Private Balcony with Every Stateroom and Suite

Limiting guest capacity on our voyages enables us to offer premium accommodations for every guest, either a stateroom or suite that is always outfitted with a private balcony, a feature available exclusively on A&K charters. Smart design and elegant comforts define these accommodations, which feature a choice of a king-size bed, two single beds or two-room suites that can sleep up to four — perfect for a family. Limiting guest capacity to 80 percent of the ships’ maximum capacity also affords even more attentive service, as well as ample space and room to comfortably spread out and enjoy the onboard restaurants, lounges, theater and outside decks.

Prioritizing the Latest Health and Safety Guidelines

On board, the staff and crew undertake strict health and safety protocols that reflect best practices for cleanliness and disinfection. These include guidelines established by the World Health Organization (WHO), Cruise Lines International Association (CLIA) and other organizations promoting higher standards. In addition to rigorous cleaning on board — as well as stringent management of air circulation — lounge areas and dining rooms have been reconfigured to increase physical distancing.

“One thing I think is really wonderful with A&K is how smooth everything runs. There’s no waiting in lines, no confusion, and just being on a smaller boat where you get to talk to the Captain, these wonderful naturalists and everyone else — I just can’t imagine the staff being any better.”

— Peggy; Delray Beach, FL; December 2019

En Suite Butlers and Five-Star Shipboard Service

Guests who reserve any category of suite also enjoy another A&K exclusive: complimentary butler service throughout their cruise. Regardless of your accommodations, your experienced, English-speaking staff is well versed in tending to every need with grace and style.

International Cuisine and Unlimited Beverages

Luxury cruising with A&K includes every meal and unlimited house drinks aboard your ship. With gourmet culinary fare at your fingertips, savor a fresh and innovative menu on board that includes:

- ▶ Fresh entrées at the Grill
- ▶ Lavishly coursed meals at the Restaurant
- ▶ Captain's Dinner
- ▶ 24-hour room service and breakfast in bed
- ▶ An open bar, including all house wines, beer, spirits, sodas, tea and coffee

We value sustainable exploration and the protection of every place we visit.

Our Dedicated Partnerships

The ships we charter in the polar regions boast clean-ship certifications by Bureau Veritas and exceed every environmental protocol, including those set by the International Association of Antarctica Tour Operators (IAATO) and the Antarctic Treaty, the Association of Arctic Expedition Cruise Operators (AECO), the National Science Foundation, and the Environmental Protection Agency. A&K has been a fully vested member of IAATO since 1992 and AECO since 2012, and proactively supports efforts made by both organizations in each polar region.

The International Association of Antarctica Tour Operators

IAATO has established best practices to ensure that ship-based tourism has minimal impact on the Antarctic environment. Bob Simpson, who leads A&K's Expedition Cruising program, served as Chair of IAATO's Executive Committee for several years. Like many members of the A&K Expedition Team, Bob remains actively involved in committee work and serves as a constant advocate for preserving Antarctica's delicate ecosystems.

The Association of Arctic Expedition Cruise Operators

Like IAATO, AECO is dedicated to managing safe, responsible and environmentally friendly travel throughout the Arctic regions. The association's core mission is preserving and protecting the endangered wildlife, delicate landscapes and remote villages of Svalbard, Jan Mayen, Greenland, Arctic Canada, the Russian Arctic and Iceland. A&K's Arctic experts help educate and enlighten guests on the fragility of the Arctic by leading thought-provoking lectures and offshore excursions.

It Starts with the Right Ships

Our commitment to sustainability has been a top priority since our first voyage in 1991, and we exclusively charter ships that mirror our passion for the environment. Each vessel is equipped with the latest eco-friendly technology, including energy-efficient engines; reduced fuel consumption using only environmentally compliant fuel types; and computerized dynamic positioning systems that minimize the need to anchor in fragile marine reserves. Our chartered ships also maintain 100% traceability of all waste, ensuring nothing ends up in the waters or on land.

“We have all been working together for many years. I am proud to be part of the A&K Expedition Team because they’re the most professional and the most capable out there. I know there is no expedition team in the world that has as much experience as we do.”

— Dr. Marco Favero, A&K Expedition Leader

Sustainability Where It Matters

On a Luxury Expedition Cruise, we don’t just take care of our guests — we strive to care for the wildlife habitats, landscapes and communities we visit. Single-use plastics such as straws, water bottles, laundry bags, cups and food portion containers are being significantly reduced on board, and A&K includes a complimentary reusable water bottle in every stateroom. Most importantly, our guests can sail with the assurance that they’re visiting these destinations in an ecologically responsible way, and that we are working diligently to preserve these places for future generations.

Our Connection to Your Destination

We work closely with local communities when planning our itineraries, taking special note to leave every beautiful village, glacier, Old Town and wildlife habitat just as we found it. Guests on our annual climate-focused Antarctica voyage may also have the opportunity to visit Palmer Station (weather permitting), meet the scientists there and learn about the important research they’re doing to conserve this fragile ecosystem.

Join A&K Philanthropy and support our unwavering commitment to conservation and lasting change.

Building on a Legacy of Partnership

Established in 1982, A&K Philanthropy (AKP) is dedicated to giving back to the vibrant environments and communities we are so privileged to explore. As part of our ongoing mission, AKP partners with local communities to improve education, conservation, health care and enterprise, leading more than 40 projects across seven continents — a philanthropic commitment unequaled in the travel industry.

Experience an AKP Project Firsthand in Antarctica

Committed to serving as stewards for the world's wildest places, AKP is proud to support numerous projects in the polar regions, some of which you may experience on an A&K Luxury Expedition Cruise.

Join us on our **December 9–21, 2022**, voyage, **Antarctic Cruise Adventure: A Changing Landscape**, for special programming and an AKP focus on our changing planet. Travel with Dr. James McClintock, an endowed university professor and noted Antarctic research scientist, who offers a fascinating lecture series on climate change as well as a rare look at marine life along the Antarctic Peninsula. Guests may also enjoy an exclusive A&K visit to Palmer Station (weather permitting).

“In Antarctica, you do not have to be a scientist to see that climate change is happening. The glaciers on the peninsula are under rapid recession, and nearly 80 percent of the breeding pairs of Adélie penguins have disappeared. The most important role I have with A&K is to demonstrate these changes in real time, which often has guests leaving as advocates for preserving this delicate ecosystem.”

— Dr. James McClintock, A&K Climate Ecology Lecturer

A&K Philanthropy is proud to support these vital projects in Antarctica and the Arctic.

Antarctica Climate Change Project

AKP supports the pioneering research of Dr. James McClintock on the effects of climate change on the marine life of the Southern Ocean by contributing to the purchase of essential supplies and equipment.

The Agreement on the Conservation of Albatrosses and Petrels

Through AKP-supported arts workshops, renowned harmonica player Mike Stevens and his team bring musical instruments, art supplies and arts education to at-risk youth in the Canadian Arctic.

Set out into the Drake Passage, a 600-mile-wide swath of water where the Southern Ocean currents are squeezed between South America's southern tip and Antarctica's northernmost reaches. An important trade route in the 19th and early 20th centuries, its stormy waters and icy conditions once made the journey a difficult one, though the stabilizer-equipped 'Le Lyrial' handles it with ease. DEC 14-18: **Antarctica** | The White Continent

As the Antarctic Peninsula and its offshore islands appear on the horizon, a sense of excitement begins to build. Dependent on weather, sea, ice and wildlife conditions, Antarctic expeditions demand spontaneity and no two are ever the same. With that in mind, your Captain and Expedition Team carefully plan your active, curated itinerary and daily excursions that may include the following areas:

Antarctic Sound: At the northernmost tip of the Antarctic mainland, this body of water features some of the best

The Best of the White Continent with A&K

A profoundly moving place, Antarctica is the only continent on earth governed by peace and science. Travellers to this epic wilderness may discover these inspiring highlights.

Entertaining Penguins

Observe penguins nesting, pebble pilfering and swimming throughout the journey.

The Blue Ice

One of the most beautiful landmarks of Antarctica is its blue ice – which covers just 1% of the continent.

Wondrous Whales

Humpback, minke, blue and fin – these are among the 10 species of whales found in the waters surrounding Antarctica.

Research on the White Continent

Dr. James McClintock explains the vitally important climate research conducted at Palmer Station off the Antarctic coast.

Mesmerizing Geology

More than glaciers, Antarctica's dramatically diverse landscapes also include volcanic islands with geothermal black sands.

Observe chinstrap penguin colonies on wildlife-abundant Antarctic shores

sightseeing on the peninsula and a proliferation of giant icebergs. Noted for its vast numbers of bird species, the sound is home to the largest breeding colonies of Adélie penguins in Antarctica. Look forward to opportunities to land on remote, wildlife-laden islands as well as possible opportunities to experience a continental landing on the northwest tip of the Antarctic Peninsula.

South Shetland Islands: Antarctic research stations, remarkable history, amazing geological features and abundant wildlife define these islands off the shore of the Antarctic Peninsula. Your Expedition Team looks for opportunities to visit a wide range of sites: working research stations, volcanic islands and historic sites as well as gentoo, Adélie and chinstrap penguin rookeries.

Danco Coast: Bordering the South Shetland Islands along the Antarctic continent, the Danco Coast is famed for its scenic, jaw-dropping waterways. From the comfort of 'Le Lyrial,' you may sail through some of its most stunning and photogenic channels, straits and bays.

Each cruise day begins with an early breakfast followed by a morning excursion on swift Zodiacs (sturdy inflatable boats). Piloted by expert A&K drivers, each excursion is accompanied by lecturers and joined by groups of no more than 10 guests. After mornings discovering native species and striking terrain, return to 'Le Lyrial' for lunch and time to relax. Or observe the wildlife-rich waters that surround you, searching for everything from fin whales, humpback whales and orcas to Antarctic and imperial shags.

By afternoon, set out for the day's second planned excursion, which may include visiting a scientific research station, hiking on a sheltered beach packed with basking southern

elephant seals or circumnavigating colossal icebergs that serve as floating homes to seals and penguins.

After full days of adventure, evenings aboard your luxury cruiser invite you to unwind over cocktails in the cozy lounge before dinner in the elegant dining room. At night, choose to recap the day's discoveries with your naturalist guides, chat on deck with fellow guests or seize the opportunity to capture photos in the stunning low light characteristic of Antarctica's long, ethereal twilight.

Spend time on board with newfound friends in the comfortable common spaces of 'Le Lyrial,' enjoy quiet relaxation on your own private balcony or absorb more fascinating lectures by your captivating Expedition Team.

While cruising through this historic passage, you may spot various species of whales and seabirds, including the elusive albatross and the giant petrel, an opportunistic predator and scavenger nicknamed the "stinker." The immense

albatross is an especially stunning sight to behold — these wandering birds boast a wingspan approaching 12 feet and are capable of gliding through the air for hours at a time in search of food. ‘Le Lyrial’ | Meals: B L D

JAN 20: **Ushuaia** | Gateway to Antarctica

Fly to the southernmost city in the world, the charming port town of Ushuaia on Tierra del Fuego (Land of Fire). On arrival, enjoy a night walk (time permitting) and a gourmet lunch. This afternoon, transfer to your ship and settle in for your first night on board. Wander the decks to become acquainted with the ship, relax in the lounge and mingle with fellow guests in anticipation of your voyage. From your private balcony or the outside decks, take in views as you cruise the beautiful Beagle Channel before heading out to sea. 'Le Lyrial' | Meals: B L D

JAN 21-22: **Drake Passage** | Epic Passage

The first part of your adventure at sea and toward extraordinary Antarctica begins with a voyage across the storied Drake Passage, which functioned as an important trade route in the 19th and 20th centuries. Spanning 600 miles of open ocean, this passage is also the place where the humid, subpolar conditions of Tierra del Fuego meet with the frigid, polar reaches of Antarctica — and where the voluminous Antarctic Circumpolar Current presses from west to east. Notorious for its squalls, the Drake Passage once made for an unpredictable voyage; today, the stabilizer-equipped 'Le Lyrial' commands these waters comfortably. As you travel on your remarkable luxury cruiser, enjoy life on board as well as several university-caliber lectures every day — all part of the intriguing, ongoing conversations you have throughout your cruise with A&K's Expedition Team and enrichment experts. Topics span marine biology, photography and history. After lunch, join your naturalists on deck to spot pelagic seabirds, which may include the wandering albatross and

smaller storm petrels in their element. Later in the evening, look forward to a briefing in the theater on the next day's itinerary followed by dinner at your choice of restaurants. 'Le Lyrial' | Meals: B L D

JAN 23-29: **Antarctica** | The Incomparable White Continent

As Antarctica's offshore islands appear on the horizon, first sightings of the Antarctic Peninsula become that much more moving, surreal and unforgettable. Your lecture program matches the excitement with poignant talks led by your captivating team of A&K experts and guest lecturers. Look forward to inspiring daily landings along the Peninsula, all of which are carefully designed by your Captain and Expedition Team.

This expedition has been designed with two additional days in Antarctica, specifically to allow for discovery beyond the Antarctic Circle and to areas rarely explored in Antarctica. Excursions via Zodiacs (sturdy inflatable boats) are also piloted by expert naturalist guides, joined by groups of no more than 10 guests and often accompanied by your lecturers.

Your Captain and Expedition Team carefully plan your active, curated itinerary, which is dependent on weather, sea, ice and wildlife conditions. With that in mind, daily excursions may include exploration of the following areas:

South Shetland Islands: Remarkable history, amazing geological features and abundant wildlife define these islands offshore of the Antarctic Peninsula. Island visits may include Livingston, Half-Moon and Deception; the last of which is a flooded, historic caldera that you may cruise into for the chance to explore its geothermal black sand beaches and abandoned whaling stations.

Top Moments from an Expedition Unlike Any Other

Your once-in-a-lifetime Antarctica voyage is brimming with highlights, from epic wildlife sightings to landings claimed by early polar explorers to the chance to sail inside the Antarctic Circle.

Inside the Antarctic Circle

Sail beyond the 66th parallel south for rarely experienced Antarctic exploration, where you may visit legendary Marguerite Bay.

Mesmerizing Antarctica

Discover the otherworldly blue ice of the Antarctic Peninsula up close on expert-led Zodiac excursions.

Wildlife Galore

Watch lively rookeries of penguins congregate on Antarctica's shoreline, or witness a ferocious leopard seal chase its prey from a floating iceberg.

Expert Photo Coaching

All levels of photographers enjoy hands-on tips in the field and lectures led by A&K's photo coach.

Legendary Exploration

Follow in the footsteps of the world's greatest polar explorers, discovering famed islands and thrilling stories shared by your A&K history lecturer.

Discover Antarctica's vast landscapes on naturalist-led Zodiac excursions

Danco Coast: Bordering the South Shetland Islands along the Antarctic continent, the Danco Coast is famed for its scenic, jaw-dropping waterways. From the comfort of 'Le Lyrial,' you may sail through the Gerlache Strait, Paradise Bay and photogenic Lemaire Channel. Landings you may experience include Neko Harbour, Cuverville Island and Wilhelmina Bay.

The Antarctic Circle: The most southerly of the five primary circles of latitude, the Antarctic Circle was first crossed by Captain James Cook on January 17, 1773. On any given date, the lengths of day and night here are the exact opposite of those at the Arctic Circle. Conditions permitting, you may cruise beyond the Antarctic Circle at 66°34'S 65°44'W, sailing along the west coast of the Antarctic Peninsula.

Marguerite Bay: You may also sail to the protected waters of mountainous Marguerite Bay and experience landings on Adelaide Island, which was discovered by British Explorer John Biscoe. You may also visit the British Antarctic Survey (BAS) station at Rothera.

Mornings spent discovering the White Continent's rare and remarkable treasures from the shore to terra firma are followed by lunch aboard 'Le Lyrial.' Enjoy time to relax and observe the surrounding abundance of wildlife, searching for everything from humpback whales and porpoising penguins to Antarctic and imperial shags.

By afternoon, set out for the day's second planned excursion, which may include hiking on spectacular beaches teeming with braying gentoo penguins, or circumnavigating colossal icebergs that serve as floating homes to seals.

On each of these seven adventurous days, look forward to comfortable evenings aboard your luxury cruiser, sipping cocktails in the Panoramic Lounge before dinner. At night, recap the day's discoveries with your Expedition Team, enjoy entertainment in the theater, and chat with fellow guests in one of 'Le Lyrial's' lounges, ever on the lookout for late-night wildlife appearances just off deck.

ASSISTANT EXPEDITION LEADER

Born in Costa Rica, JJ's fascination with nature called him to a career as a naturalist guide and expedition leader. He brings his expertise of natural history as well as polar bears and their native habitat to the Arctic.

Explore the Arctic on an all-encompassing expedition in search of the mighty polar bear. Travel alongside A&K's unmatched Expedition Team and knowledgeable experts intimately familiar with the region, seeking out the bear in the Svalbard Islands and discovering the starkly beautiful lava fields and ice caves of Iceland's Westfjords. Experience this thrilling destination through daily guided shore landings, as well as active excursions.

JUN 30: Arrive Oslo, Norway

Arrive in Oslo, your gateway to the Arctic. On arrival, you are met and escorted to your hotel. This evening, meet fellow guests for a welcome dinner and cocktail reception. **Radisson Blu Airport Hotel, Oslo Gardermoen | Meals: D**

JUL 1: Norway | Oslo to Longyearbyen

Board an early morning charter flight to Longyearbyen, the capital of Svalbard, also known as Spitsbergen, the sovereign Arctic archipelago of Norway. It is one of the most remote groups of islands on the planet, with nearly two-thirds of its surface covered in luminous glaciers. Tour the tiny town and its Arctic Museum. This afternoon, board your luxury expedition cruiser. **'L'Austral' | Meals: B L D**

JUL 2-6: Norway | The Svalbard Archipelago

Very few people have the opportunity to view the remote wilderness of the Svalbard Islands. In the archipelago, polar bears, walruses, Svalbard reindeer and an incredibly rich variety of birds are abundant, as are cathedrals of

Trek along the snow-flecked slopes of Spitsbergen

ice, glaciers and craggy mountain peaks. An exquisite assortment of flora also peppers this barren landscape.

The primary objective of your voyage is to spot polar bears as they roam in their natural habitat. Cruising on A&K's exclusive charter limited to just 199 guests grants you unrestricted access to every navigable area within the Svalbard archipelago — something ships with larger capacities cannot provide — allowing the ship to visit any locale favored by the bears. Your Captain and Expedition Leader determine the day's best sightseeing opportunities, which may include:

Ny-Alesund: Home to a polar research station and the northernmost post office in the world.

Alkefjellet, or “auk cliffs”: Staggering cliffs that drop directly into the water and provide a home to vast colonies of auks, diving birds entirely dependent on the sea for their food.

Monacobreen: Formerly known as Monaco Bay, this glacier reaches down into Spitsbergen and is frequented by polar bears, harbor and bearded seals, walruses and a multitude of seabirds.

The Austfonna Icecap: One of the world's largest icecaps spanning over 5,000 square miles.

Liefdefjorden (The Love Fjord): Named after a Dutch ship with the same name, this fjord is another excellent area for spotting polar bears and wildlife.

Sjuoyane (“Seven Islands”): The most northerly region of the Svalbard archipelago.

In every region, enjoy endless moments of discovery alongside A&K's seasoned Expedition Team, who know intuitively where and when you're most likely to see polar bears and

wildlife — which you observe from the safety and comfort of your luxury expedition cruiser. These same experts also scout every landing site in advance of your arrival, assuring your safety and maximizing your experience ashore.

In 1906, Roald Amundsen became the first polar explorer to successfully cross the entire Northwest Passage. Begin as he did, venturing along Greenland's stunning West Coast and north into Baffin Bay for the next five days. Your Captain and Expedition Team determine the day's best excursions, which may include the following areas:

Sisimiut: North of the Arctic Circle, Sisimiut is the northernmost city in Greenland able to maintain a year-round, ice-free port as well as sufficient snow for dogsledding in winter and spring. Visit the local museum and enjoy an Inuit sea kayak demonstration.

Disko Bay & Ilulissat: Cruise into the wide inlet of Disko Bay, first explored by Erik the Red in 985. AUG 31-SEP 7: Nunavut | Vast Canadian Arctic Archipelago Cruise into the Canadian Arctic Archipelago of Nunavut and enter the heart of the Northwest Passage. As your luxury expedition cruiser winds through legendary channels and inlets, A&K's enrichment specialists continue to spark captivating discussions that enhance your discovery. Your crew and Expedition Team determine your itinerary, which is dependent on weather, sea, ice and wildlife conditions. Exciting excursions may include:

Pond Inlet: "Place of Mittima's Grave," Pond Inlet is the gateway to the Northwest Passage and a rich archaeological site. After clearing customs formalities, embark on a shore excursion to an area once inhabited by the ancient Thule. Visit the Nattinnak Visitor's Center or Toonoonik Sahoonek Co-op, where you may shop for handcrafted goods.

Lancaster Sound: Situated between Devon Island and Baffin Island, this body of water is home to an abundance of Arctic cod and seasonal populations of Beluga and bowhead whales, black guillemots, Arctic terns and other wildlife.

Beechey Island: Historic moments in Arctic exploration define this island. Beechey is best known for providing a safe haven to British explorer Sir John Franklin in 1845, who took shelter for two years before his ill-fated attempt to conquer the Northwest Passage. See the grave markers for three of his men and visit the Franklin's cenotaph.

Gjoa Haven: During his attempt on to cross the passage on 'Gjoa', Roald Amundsen took respite in this natural harbor as he waited for ice conditions to improve. For two years, he lived with the Netsilik Inuits and learned survival skills that later proved invaluable on his South Pole expedition.

Victoria Island: Cruise the south coast of Victoria and through Queen Maud Gulf, Dease Strait and Coronation Gulf. Expedition stops may include bird sanctuary Jenny Lind Island and Johansen Bay. 'LAustral' | Meals: B L D

MAY 9-13: Kimberley's Wild Coast | Extraordinary Tides

For the next five days, enjoy privileged access to one of the most rarely visited regions in Australia. Each day, inspiring lectures, briefings and stimulating conversations with your Expedition Team elevate your discoveries in the Kimberley, bringing this vast wonderland into focus in a most enriching way. Your Captain and Expedition Team determine the best daily excursions, which may include:

Lacepede Islands: Set atop a coral reef, these four low-lying cay islands are separated from mainland Australia by the Lacepede Channel. The Lacepedes, as they are often called, are an important nesting site for green sea turtles and several species of seabirds, including brown boobies, red-chested frigate birds, crested terns and speckled ruddy turnstones.

Horizontal Falls: An exciting visit awaits at Horizontal Falls, described by Sir David Attenborough as "one of the greatest natural wonders of the world." Set within Talbot Bay, the horizontally flowing waterfalls are created when massive tidal currents squeeze through two narrow gorges. Experience this captivating phenomenon on a boat excursion.

Montgomery Reef: The Kimberley's theme of extreme tides continues at Montgomery Reef, Australia's largest inshore reef. Board Zodiacs to explore the reef system's lagoons, islets and rushing channels. The climax comes at low tide, when water dramatically cascades off the reef's emerging sandstone platform covered in coralline algae, often revealing astonishing sea life.

Freshwater Cove: Enjoy a guided bushwalk that leads to a cave depicting indigenous rock art. A magnificent display of sacred Wandjina figures, these ancient paintings reveal the ways, myths and traditions of the Worrorra people.

"The Kimberley region is like no other place on the continent; it is its own unique space – unspoiled and ancient. Every day leaves you with the knowledge that you are truly in a special place."

– Brad Climpson; A&K Expedition Leader

Mitchell Falls: Take off on an included thrilling helicopter flight over the vast Mitchell Plateau to sandstone-carved Mitchell Falls. Explore the area on foot and perhaps enjoy a refreshing swim in the emerald-colored freshwater pools formed by the falls.

Hunter River: Join your naturalist guides and navigate by Zodiac through the river's small tributaries, fringed by mangroves and tidal mud flats. Search for crocodiles, mud skippers and fiddler crabs, as well as the many bird species that nest in the dense vegetation.

Bigge Island: Sacred to the indigenous Wunambal people for more than 20,000 years, Bigge Island is home to an incredible array of indigenous rock art. Move beyond its shallow bays to discover its well-preserved Wandjina paintings and visual recordings of the European entrance into this ancient way of life. 'Le Laperouse' | Meals: B L D

MAY 14: **Vansittart Bay** | Mysterious Ancient Rock Art
During one of his many survey expeditions, Admiral Phillip Parker King named Vansittart Bay after the pre-1788 Indonesian pottery found there. Conditions permitting,

Your first port of call lures you beyond the borders of Italy for a not-to-be-missed chance to experience Corsica. Set out on an excursion that introduces you to the city of Bastia, a place of Baroque churches and a charming harbor front. Gather for one of the day's highlights, an awe-inspiring Corsican choir performance presented just for A&K guests. Visit the Mattei distillery shop to sample the city's signature

aperitif, Cap Corse, a wine with a uniquely bittersweet profile. Join your fellow guests for lunch at a local restaurant and a true taste of Corsican life. Alternately, explore the mountainous heights of Bastia on a hike, taking in superb views of the city and shoreline. 'Le Bougainville' | Meals: B L D

HOTEL CHECK-IN

Most hotels allow check-in to take place during the mid-afternoon. Should you wish to have a guaranteed room ready for your immediate check-in upon arrival, it requires an additional room night to be confirmed. Please ask A&K for details and prices.

Requests for early check-in based on hotel availability cannot be guaranteed and are at the sole discretion of the hotel.

ROOM UPGRADES/SPECIAL REQUESTS

Upgrades are typically available on request at individual hotels for an additional cost. Please ask A&K for details and prices. Specific requests such as adjacent or connecting rooms, bedding requests, smoking rooms and special dietary needs should be advised at time of booking. Please note that reasonable efforts will be made to secure special requests; however, they cannot be guaranteed.

ITINERARIES

A&K reserves the right to modify program itineraries, including arranged sightseeing and featured experts, and substitute accommodations, including vessels, aircraft and trains, at any time due to unforeseen circumstances or circumstances beyond A&K's control. Reasonable efforts will be made to operate itineraries as planned, but alterations may occur after the final itinerary has been issued. Due to the nature of Luxury Expedition Cruises, itineraries are for guidance purposes only and may be adjusted due to unforeseen circumstances including weather, wildlife, ice, medical emergencies and other conditions beyond A&K's control at the sole discretion of the Captain on board.

AIR TRANSPORTATION

International airfare (to the journey starting point and from the ending point) is not included in program pricing. A&K has special agreements with many air carriers and can offer quotations from any gateway. Some journeys require internal flights as specified in the itinerary. This airfare is typically not included and must be purchased from A&K in addition to the journey. In the instance where charter flights are used and seating is limited, A&K reserves the right to substitute and confirm air reservations on an available alternative scheduled air flight. All internal air is based on economy class seating and is 100% non-refundable at time of final payment (some exceptions may apply). All international and internal air quotes are subject to change until final payment has been received by A&K. Flight confirmation is based on availability. Air reservations cannot be confirmed until a passport copy is received by A&K.

All air carriers are independent contractors and are not owned, managed, controlled or operated by A&K. Your airline ticket constitutes a contract between yourself and the airlines (and not A&K), even if purchased through A&K. A&K shall not be liable and does not assume responsibility for, or accept claims with regard to, seat assignments, name changes, schedule changes, flight changes and/or cancellations. Should you change or cancel your air transportation arrangements before or after your travel begins, all airline change and cancellation fees will apply.

BAGGAGE

A&K provides portage of up to two (2) pieces of baggage per person. Please note should your journey include internal/domestic or charter flights, your luggage allowance may be less than two (2) pieces of baggage and weight/size restrictions and additional costs may apply.

Details will be provided in your Pre-Travel Documentation. Baggage and personal effects are at the owner's risk throughout the travel program, and A&K assumes no liability for lost or damaged baggage. Please check with your international carrier for other baggage restrictions and fees applicable to your international flights.

PRICES AND ARRANGEMENTS

Quoted journey prices are per person, double occupancy except where indicated. Although not expected, published prices may be modified due to unexpected significant external factors not forecasted at the time of printing. A&K is under no obligation to give a breakdown in costs of any journey. Pre- and Post-Tour Extensions are only available to guests booked on related group journeys. Modification of program content to accommodate a smaller group size will not affect the published program price.

CHILD POLICY

The minimum age is 10 years old unless noted on the itinerary. Minimum age is seven years old for Luxury Expedition Cruise Journeys, 12 years old for Connections European River Cruise Journeys and varies for Family Journeys. All children under age 18 must be accompanied by an adult. A&K reserves the right to marginally exceed the published maximum group size on Family Journeys to accommodate a family. Note that some accommodations require that children below a certain age share a room with an adult.

The parent or guardian travelling alone with a child is recommended to carry documentation that proves their relationship to the child (e.g., birth certificate) and evidence that they have permission to travel with the child (e.g., consent letter). Guests travelling with children who are not related are recommended to carry documentation which provides evidence they have permission to travel with the child. Guests are advised to check with the appropriate government authority to determine the necessary documents required for travel with children. A&K cannot be held responsible should the guest, child or any member of the travelling party be denied entry to a country due to noncompliance with a country's requirements.

ACTIVE ELEMENTS & CONDUCT

The suppliers of some activities on journeys may require a minimum age or minimum/maximum height or weight to participate. Some active elements have been incorporated into select itineraries. To enjoy the journeys as intended, a minimum level of fitness is required. A&K will require prior notice if any participant has any physical or other condition or disability that

would prevent them from participating in active elements of any journey and/or could create a hazard to himself or herself or to other members of the group. Specific journeys have conditions that may require a guest produce a doctor's certificate to A&K prior to travel. A&K will make reasonable efforts to accommodate a disability-related request for accommodation. However, if A&K, in its sole discretion, is unable to properly accommodate the need of the person(s) concerned or believes that health and safety may be compromised, A&K reserves the right to refuse participation. The guest represents that neither he nor she nor anyone travelling with him or her has any physical or other condition or disability that could create a hazard to himself or herself or other members of the tour. A&K also reserves the right to remove from the trip, at the guest's own expense, anyone whose physical condition or conduct negatively impacts the enjoyment of the other guests or disrupts the tour. Due to ship restrictions, women who will be six (6) months or more pregnant at any time during the cruise are not permitted to travel on Expedition Cruises.

A&K'S GUEST PROTECTION PROGRAM

Travel insurance is not included in the price of the journey and is recommended. You may purchase A&K's Guest Protection Program administered by AON (which provides cancellation coverage, medical coverage and protection against lost or stolen or damaged luggage) or A&K's Guest Protection Program with Cancel for Any Reason Coverage for an additional fee. Coverage takes effect the day A&K receives payment for the plan. The Guest Protection Program is available up to final payment for your journey; however, the plan must be purchased within 14 days of the date your initial trip deposit is received by A&K in order to waive the pre-existing medical condition exclusion. Additional terms apply. The Cancel for Any Reason Program is only available for purchase within 14 days of the date your initial trip deposit is received by A&K (additional terms apply). CFAR provides reimbursement of up to 75% of non-refundable cancellation charges but is not available on select journeys or to New York residents. The cost of coverage is calculated based on the total cost of your travel arrangements. For more information, visit affinitytravelcert.com/abk. Insurance coverages are subject to the terms, limitations and exclusions in the plan, including an exclusion for pre-existing conditions.

Special Requirement for Select Luxury Expedition Cruises:

Due to the remote locations, A&K requires proof of a minimum of \$100,000 per person in emergency evacuation/repatriation insurance for all Antarctica, Arctic and Kimberley and other select Luxury Expedition Cruises as specified at time of booking. This minimum amount is included in A&K's Guest Protection Program; upgrades can be purchased for higher coverage on request. If you do not purchase A&K's Guest Protection Program, we require proof of alternative coverage. Please note emergency evacuation insurance provides for covering the cost associated with emergency evacuation and repatriation up to the limits of the respective policy; however, it does not guarantee the timing, method or mode of such evacuation and repatriation, which is subject to weather, location and other conditions or variables outside of A&K's control.

PASSPORTS AND VISAS

It is the guest's sole responsibility to obtain and have available when necessary the appropriate valid travel documents. All guests are advised to check with the appropriate government authority to determine the necessary documents required for their travel. A valid passport is required for U.S. and Canadian citizens travelling to all international destinations. Passports must be valid for six (6) months after completion of your journey and should also have sufficient blank visa pages for entry and exit stamps. Many destinations also require a visa for U.S. and Canadian citizens; this will be indicated in your Pre-Travel Documentation. Citizens of other countries should contact the appropriate consular office for entry requirements pertaining to their journey. You may be refused boarding or disembarked from a plane, vessel or train without liability for refund, payment, compensation, or credit of any kind if you do not have proper documentation, and you will be subject to any fine or other costs incurred by A&K which result from improper documentation or noncompliance with applicable regulations. A&K shall not be responsible should any guest be denied entry to a country due to noncompliance with these requirements.

A&K purchases transportation (by aircraft, coach, train, vessel or otherwise), hotel and other lodging accommodations, restaurant, ground handling and other services from various independent suppliers (including from time to time other affiliated A&K companies). All such persons and entities are independent contractors. As a result, the A&K Parties are not liable for any negligent or willful act of any such person or entity or of any third person.

In addition and without limitation, the A&K Parties are not responsible for any injury, financial or physical loss, death, inconvenience, delay or damage to personal property in connection with the provision of any goods or services whether resulting from but not limited to acts of God or force majeure, illness, disease, acts of war, civil unrest, insurrection or revolt, animals, strikes or other labor activities, criminal or terrorist activities of any kind, overbooking or downgrading of services, food poisoning, mechanical or other failure of aircraft or other means of transportation or for failure of any transportation mechanism to arrive or depart on time.

There are many inherent risks in adventure travel of the type involved here, which can lead to illness, injury, or even death. These risks are increased by the fact that these trips take place in remote locations, far from medical facilities. Guest assumes all such risks associated with participating in these trips.

If you decide to participate in any activities including, but not limited to, any excursions involving animals, riding on animals, scuba diving, snorkeling, boating, hot air ballooning, helicopter flights, ziplining, high altitude treks, climbing, quad biking, parasailing, parachuting, kayaking, whitewater rafting, jet boat rides, snowmobiling, primate tracking and any other activity which A&K considers to carry inherent risk of serious illness, injury or death ("Activities"), then you fully understand and acknowledge that Activities carry with them various inherent risks, including serious illness, injury or death and you take complete responsibility for your own health and safety and agree to assume all risks of injury, illness or death, whether foreseen or unforeseen, that may befall you as a result of participating in any Activities and agree to release the A&K Parties from any liability whatsoever related thereto.

Further, as consideration for being permitted to participate in the Activities; you release the A&K Parties, whether known or unknown, from, and agree not to sue or make claim against the A&K Parties for, property damage, cancellation of any Activities for any reason, illness, negligent rescue operations or procedures, personal injury, or death arising out of your participation in the Activities, and any activity related thereto, including transportation to and from the site of the Activities, regardless of whether such property damage, illness, personal injury, or death results from the negligence of the A&K Parties and/or from any defect in equipment. You further agree to indemnify and hold the A&K Parties harmless with respect to any claim made against the A&K Parties by anyone else which (a) related to your participation in any trip or any Activities, or (b) which would be subject to the above release and covenant not to sue if you had made the claim directly yourself. Upon receipt of notice of the assertion of a claim, the A&K Parties reserve the right to approve, or withdraw approval of, counsel, in its sole discretion.

TRAVEL ADVISORIES/WARNINGS
