Re: Amendment to National Milk Producers Federation's request for a national hearing to amend the uniform pricing provisions of all federal milk marketing orders

Dear Administrator Summers:

The National Milk Producers Federation (NMPF) herby submits its amendment and addendum ("Addendum") to its initial request for hearing submitted May 2, 2023 ("Initial Petition"). This Addendum reincorporates the Initial Petition by reference, and provides the following modifications to the initial request for hearing as well as incorporates the attached Pricing Surface Map dated June 14, 2023 and the Final Pricing Surface County Values dated June 2023.

As with NMPF's Initial Petition, these proposed amendments to the Initial Petition have been considered and unanimously approved by the NMPF Board of Directors and reflect the comprehensive approach NMPF undertook with its members to approve this proposal.

NMPF is requesting the Secretary to call a hearing pursuant to 7 C.F.R. § 900.1, et seq., to amend 7 C.F.R. § 1000.50-52, applicable to all federal milk marketing orders, to provide:

§ 1000.50 Class prices, component prices, and advanced pricing factors.

* * * * *

(b) ***Class I skim milk price.*** The Class I skim milk price per hundredweight shall be the adjusted Class I differential specified in § 1000.52, ~~plus the adjustment to Class I prices specified in §§ 1005.51(b), 1006.51(b) and 1007.51(b) of this~~

~~chapter~~, plus the ~~simple average~~ **higher** of the advanced pricing factors computed in paragraph (q)(1) and (2) of this section ~~rounded to the nearest cent~~, plus \$0.74 per hundredweight.

(c) ***Class I butterfat price.*** The Class I butterfat price per pound shall be the adjusted Class I differential specified in § 1000.52 divided by 100, ~~plus the adjustments to Class I prices specified in §§ 1005.51(b), 1006.51(b) and 1007.51(b) divided by 100~~, plus the ...

* * * * *

(f) ***Class II nonfat solids price.*** The Class II nonfat solids price per pound, rounded to the nearest one-hundredth cent, shall be the Class II skim milk price divided by 9 **the applicable nonfat solids component factor described in § 1000.51.**

* * * * *

(i) ***Class III skim milk price.*** The Class III skim milk price per hundredweight, rounded to the nearest cent, shall be the protein price per pound times 3.4 **the applicable protein component factor described in § 1000.51** plus the other solids price per pound times 5.9 **the applicable other solids component factor described in § 1000.51.**

* * * * *

(k) ***Class IV skim milk price.*** The Class IV skim milk price per hundredweight, rounded to the nearest cent, shall be the nonfat solids price per pound times 9 **the applicable nonfat solids component factor described in § 1000.51.**

(l) ***Butterfat price.*** The butterfat price per pound, rounded to the nearest one-hundredth cent, shall be the U.S. average ~~NASS~~ **AMS** AA Butter survey price reported by the Department for the month, less ~~17.15~~ **21.00** cents, with the result multiplied by 1.211.

(m) ***Nonfat solids price.*** The nonfat solids price per pound, rounded to the nearest one-hundredth cent, shall be the U.S. average ~~NASS~~ **AMS** nonfat dry milk survey price reported by the Department for the month, less ~~16.78~~ **21.00** cents and multiplying the result **with the result multiplied** by 0.99.

(n) ***Protein price.*** **The protein price per pound, rounded to the nearest one-hundredth cent, shall be computed as follows:**

Strike all subsequent parts of this paragraph and insert in lieu thereof:

(1) Subtract 24.00 cents from the from the U.S. average AMS survey price for 40-lb. block cheese reported by the Department for the month and multiply the result by 1.383;

(2) Add to the amount computed pursuant to paragraph (n)(1) of this section an amount computed as follows:

(i) Subtract 24.00 cents from the U.S. average AMS survey price for 40-lb. block cheese reported by the Department for the month and multiply the result by 1.572; and

(ii) Subtract 0.9 times the butterfat price computed pursuant to paragraph (l) of this section from the amount computed pursuant to paragraph (n)(2)(i) of this section; and

(iii) Multiply the amount computed pursuant to paragraph (n)(2)(ii) of this section by 1.17.

(o) *Other solids price.* The other solids price per pound, rounded to the nearest one-hundredth cent, shall be the U.S. average ~~NASS~~ **AMS** dry whey survey price reported by the Department for the month minus ~~19.91~~ **23.00** cents, with the result multiplied by 1.03.

* * * * *

(q) *Advanced pricing factors.* ...

(1) ...

(i) ...

(ii) Multiply the protein price computed in paragraph (q)(1)(i) of this section by ~~3.1~~ **the applicable protein component factor described in § 1000.51;**

(iii) Multiply the other solids price per pound computed in paragraph (q)(1)(i) of this section by ~~5.9~~ **the applicable other solids component factor described in § 1000.51;** and

(iv) ...

(2) ...

(i) ...

(ii) Multiply the nonfat solids price computed in paragraph (q)(2)(i) of this section by ~~9~~ **the applicable nonfat solids component factor described in § 1000.51.**

(3) An advanced butterfat price per pound rounded to the nearest one-hundredth cent, shall be calculated by computing a weighted average of the 2 most recent U.S. average ~~NASS~~ **AMS** AA Butter survey prices announced before the 24th day of the month, subtracting ~~17.15~~ **21.00** cents from this average, and multiplying the result by 1.211.

§ 1000.51 [~~Reserved~~] Milk Component Factors

(1) Upon the implementation of this Order, the component factors for protein, other solids and nonfat solids shall be the following:

(i) Protein 3.1;

(ii) Other solids 5.9; and

(iii) Nonfat solids 9.0.

(2) Beginning the first day of the 12th month after implementation of this Order, the component factors for protein, other solids and nonfat solids shall be the following:

(i) Protein ~~3.35~~ 3.39;

(ii) Other solids ~~6.01~~ 6.02; and

(iii) Nonfat solids ~~9.36~~ 9.41.

(3) By February 28th of each the third year ~~beginning one year after the implementation of paragraph 2 of~~ following the announcement of any change in the protein, other solids and nonfat solids component factors of producer skim milk under this section, ~~the those~~ **component factors in paragraph (2) of this section will shall each be updated to the simple averages of their respective three most recent three-year calendar year weighted-average component tests of producer skim milk in all Orders, rounded to two decimal places, as calculated by AMS, if any one the resulting nonfat solids factor is differs by at least**

Mr. Bruce Summers, Administrator
May 1, 2023
Page 5

~~0.7~~ **0.07 percentage points higher than those from that currently in effect.**

- (i) Implementation of the updated component factors under this ~~section-paragraph~~ shall be announced no later than 5 days after the calculation that triggers a change and shall become effective the first day of March of the following year.**
- (ii) If a change in the component factors is not indicated by the calculation described in this paragraph, then the calculation shall be repeated the following year, and any change in the existing skim milk component factors shall be announced and implemented as described in this paragraph.**

§ 1000.52 Adjusted Class I differentials.

The Class I differentials adjusted for location to be used in § 1000.50(b) and (c) shall be as follows:

*Delete all that follows and insert in lieu thereof **the list specified in the accompanying ExCel spreadsheet.***

As before, the proponents wish to thank Secretary Vilsack and the Department for its diligence and consideration of NMPF's request.

Very truly yours,
