

BUCKZVIZ®

BIGGER BETTER BRIGHTER

Stay in sight on site.

The spring and summer seasons bring longer days and more dusk and night time working.

Vehicle and personnel movements at builders' yards, farm yards, and construction and maintenance locations increase - and so does the risk to life and limb.

Day time and night time every life is safer with Buckz Viz.

See pages 10 and 11 inside.

USER BROCHURE**

BUCKBOOTZ®
ADVANCING SAFETY FOOTWEAR SINCE 1998

WE ARE THE WORK WE DO

WELCOME

to your copy of the Buckbootz Spring/Summer 2023 brochure

SAFETY KEY

SAFETY STANDARDS SHOWN BELOW AND ON FOLLOWING PAGES MEET BOTH CE AND UKCA REQUIREMENTS FOR CERTIFICATION

EN ISO 20345:2011

Toe protection tested with 200J impact and 15kN compression force. Fuel Oil resistant outsole. (SB)

A Antistatic Electrical resistance between 100kΩ and 1000MΩ

P Penetration resistant outsole of 1100 Newtons

E Heel energy absorption 20 Joules

HRO Heat Resistant to 300°C for 60 seconds

SRC Anti slip tested on ceramic tile wetted with dilute soap

WRU solution and smooth steel with glycerol

WRU Water resistant leather uppers

CI Cold Insulation Certified to -17°C for 30 minutes

AN 10J ankle impact protection

HI Heat Insulation Certified to +150°C for 30 minutes

Short code combinations:

S1 SB + A + E + Closed seat region

S2 As S1 + WRU

S3 As S2 + P + Cleated outsole

S5 As S3 except uppers are in rubber or all polymeric material

ESD Electrostatic discharge Class 2 – Dissipative

EN388 covering protective glove construction, abrasion and blade cut resistance, tear strength and puncture resistance.

IMPORTANT! UKCA/CE STANDARDS CODING

CHANGES. There are testing standards and coding changes in the pipeline. On pages 10, 11 and 21 we show new products with the new codes. The new coding format will become standard over the Buckbootz product range. We will keep you updated on timetable for this.

TWENTY FIVE YEARS OF BUCKBOOTZ. GONE IN A FLASH.

I received an unsolicited business services offer recently which began: "Hi Andrew, it's great to see that you started your company in 1998 with a blank piece of paper." When that line was penned back then I didn't realise the extent to which it would strike a chord with so many merchants and end users.

When the company's business model was still on the drawing board I asked my co-founder, Sam Connor to list all the gremlins which he reckoned bedevilled safety footwear as a product sector and compared them with my own thoughts. All gremlins were then listed on a blank piece of paper. That piece of paper proved to be the inspiration for making Buckler Boots/Buckbootz one of the most respected independent safety footwear brands in the UK and parts of Northern Europe.

The journey has been powered by component innovation, design breakthrough, product quality, attention to detail, durability, customer service and a receptive audience. The most satisfying aspect of all has been the enthusiasm of merchants and end users alike for what we do and just like them **we are the work we do.**

MORE PIONEERING. MORE LEADING.

Where Buckbootz dares to tread others try to follow in our pioneering footsteps. A quick glance through this brochure will remind you of how Buckbootz grasped the challenge of building strength and durability into hi-vis safety footwear by cleverly combining leather with Cordura®. This formula is now extended to take in high leg lace and rigger boot styles with ankle protection. Go to pages 10 and 11 inside to see two of the most visibly powerful safety footwear designs ever created.

B1180 on pages 21, **BBZ8000 GY GR** on pages 27 and **Walkerz®** on pages 31 further illustrate how thinking outside of the box is in Buckbootz DNA.

Go forward into Spring/Summer 2023 confident that Buckbootz offers you the most exciting safety product offering on the market. We've spent the past 25 years honing our skills to design them and the pioneering flame burns on.

Kind regards,

Andrew Duncan
Chairman and Co-founder, Buckler Boots Ltd

VAT/Safety Footwear

Safety footwear styles with the exception of shoe styles are exempt from UK VAT. Safety shoe styles and non-safety work boots are subject to VAT at the UK standard rate. If you are purchasing safety footwear on behalf of your employer then VAT should apply at the point of purchase.

ANOTHER BUCKBOOTZ DESIGN BREAKTHROUGH!

THEY SAID IT COULDN'T BE DONE!

After two years of constant design development and wear testing Buckbootz announces a major breakthrough in dealer boot design: **bANG guardz®**.

Like many good ideas the solution to providing ankle protection on a dealer style is a simple one: build the stretch area into the top part of the front of the boot to enable the ankle protection to be built into the sides. However, that is only the beginning of the story. The real test is in perfecting the boot upper design and components combination so that all the wearer convenience of a normal dealer boot design is not compromised. Getting that right has brought an impressive bonus: you would not believe how comfortable the **bANG guardz®** dealer boot style is, nor its lace style stable mate. The EN/UKCA standard ankle protection (standard code: AN) built into these styles provides the extra benefit of unsurpassed snug fit, comfort and support.

Both styles also come with Buckbootz Achilles Clasp heel support and S3 HRO AN SRC certification and both are **WATERPROOF** - **even the elastic on the dealer style is waterproof!**

bANG guardz® joins a long list of Buckbootz protected designs which have broken with convention and brought completely new dimensions to safety footwear performance, function and comfort.

WE DON'T DO POWER TOOLS OR EXCAVATORS. WE ONLY DO BOOTS.

The star of our Tradez® range is this super lightweight, high spec, great looking lace boot style: **Blitz**.

Whether our styling is understated, contemporary or a little more cutting edge we like our boots to look good and they don't come any better looking and lighter than Blitz. Like being knocked over by a feather.

See pages 7 to 9 for the complete range of Tradez® styles.

Blitz BK

Buckbootz has been at the forefront of the development of the elastic sided work boot style which we call 'dealer'. Our original dealer style safety boot B1150 has become something of an icon and has been followed by variations of the dealer style in injection moulded construction. So why introduce another variation of the theme? Well, when it comes to Buckbootz dealer style safety boots we believe you can't have too much of a good thing and that is why we introduced **Dealerz®** with plain toe styling to our Nubuckz range with the option of a non-safety specification. See page 32.

STAY DRY STAY SAFE SHED WEIGHT LOOK GREAT

From its unmistakable Buckbootz 'Hard As Nails' profile to its rugged good looking dealer boot styling **B1180** carries its Buckbootz heritage and branding with pride. With its extended whole cut vamp and beefy heel counter this is a waterproof safety boot with gravitas and real substance.

Using construction and components designed to withstand the roughest treatment, **B1180** combines strength with light weight thanks to an aluminium toecap, kevlar midsole and the new Buckbootz K11 dual density sole. K11 lets us retain all the legendary

Buckbootz rubber outsole durability and features which

now include ladder grips, at a weight saving which will win over a new generation of Goodyear welted safety boot wearers. With Buckbootz characteristic attention to detail we have beefed up the outer sole rubber depth at the critical heel/ground contact area.

B1180 also brings three dimensional Buckflex fitting with three flex-strength areas at the boot collar. This makes fitting and removal a stroll in the park and enables the collar to retain its neat look and snug fit at all times.

GO GREEN BE SEEN

BBZ8000 has gone green! Not just any old green but the kind of bright and reflective green which sends a visual alert like no other colour. Set off against dark grey and dazzling silver reflectives, **BBZ8000 Grey/Green** catches attention, turns heads and transmits instant wearer awareness.

It's a sidekick of the other sales record breaking BBZ8000 colourways but it doesn't have to jump up and down to get noticed. See next page for full product specification.

TAKING CARE OF BUCKBOOTZ FOOTWEAR

Buckbootz leather styles

Both our **Beez Wax Leather Spray** and **Leather Gel** bring nourishment to the cowhide leather uppers on Buckbootz footwear.

The gel brings the satisfaction of applying the leather treatment by rubbing goodness into the leather. The spray brings ease of use and some extra water resistance. Both restore the distinctive and unique look you get from quality leathers.

Boots used in tough working environments get rough treatment but their life can be greatly extended by making sure that muck, loose dirt debris and grime are removed from the uppers at least once per week using no more than a brush and a small amount of water. Allow them to dry naturally then apply spray or gel treatment. There's no harm in applying a little spray or gel to boots before their first wearing.

Never harsh dry leather!

Wet boots should be stuffed with dry newspaper and allowed to dry naturally before rubbing Buckbootz Leather Gel into the leather. Care should be taken not to use the gel too liberally. Over exposure to gel and other conditioners can cause the structure of leather to break down irreparably.

Harsh drying will cause the leather to shrink crack and go brittle. This condition cannot be reversed.

BBZ Buckbootz Neoprene/Rubber Boots

Should be hosed down at the end of every day's wear. By virtue of their leg as well as foot protection, wellington type boots tend to be worn in environments where they come into contact with many external agents which can break down and weaken the structure of the rubber if not removed. This can lead to the rubber weakening and cracking.

Wash down with warm water after the boots have had contact with diesel, petrol, lubricants and other petroleum derivatives.

A spray called ReviveX® will help to restore the flexibility and appearance of the rubber areas but regular hosing down after use will go a long way towards extending the effective life of BBZs.

Buckz Viz Hi-Viz Cordura® areas of the uppers

Use warm water with a soft brush, allow to dry then apply Nikwax Tent and Gear spray.

BUCKBOOTZ DEALERZ NON-SAFETY

- Non-Safety dealer boot
- Brown Crazy Horse Leather

OUR HEART AND SOLES

There has never been a Buckbootz style which hasn't featured rubber outsoles

Signature

Signature

Signature

Signature

Signature

Tradez® Blitz

This great looking rubber outsole is a fitting companion for our great looking Tradez® Blitz safety lace boot style. The contemporary chunky wedge cleat design is complemented by sports footwear thermo polyurethane arch and heel inserts. UKCA/CE anti-slip certification, non-marking and Fuel Oil resistant.

Tradez® - Baz/Kez

Street look with workplace performance. Unmistakeable sneaker side profile gives way to a sneaker sole re-modelled for tough working environments. UKCA/CE anti-slip certification and non-marking. Heat (300°C) and Fuel Oil resistant.

K11

A brand new non-marking dual density sole complete with certified ladder grips and UKCA/CE anti-slip certification. Amazing weight saving whilst retaining Buckbootz reputation for creating tough and durable rubber outsoles. Extra rubber at heel/ground contact area. Heat (300°C) and Fuel Oil resistant. Lock stitching at toe.

K12/BBZ8000/WALKERZ®

BBZ8000 is a great product from the soles upwards so it is vital that the soles incorporate the very latest tread design techniques to maximise grip, extend life and reduce weight. K12 does all of these plus it comes with UKCA/CE anti-slip certification and is non-marking. Heat (300°C) and Fuel Oil resistant.

Buckshot®

The Buckshot® sole is featured on our injection moulded Buckshot boot range. It has some of the best anti-abrasion test results achievable. A great looking sole with wave effect sipes, deep cleats and all the outsole benefits which come with rubber plus UKCA/CE anti-slip certification and is non-marking. Heat (300°C) and Fuel Oil resistant.

Nubuckz/Buckz Viz®/Dealerz®

For our injection moulded Nubuckz, Buckz Viz® and Dealerz® styles we use a deep cleated rubber outsole specially designed to interact with the polyurethane top sole in which the anti scuff toe is incorporated and defining feature. Heat (300°C) and Fuel Oil resistant with UKCA/CE anti-slip certification and non-marking.

K3

The renowned Buckbootz sole for most Buckbootz Goodyear welted leather styles and BBZ6000 and BBZ5020 neoprene/rubber footwear. Features weight saving wave effect sipes and inherits the rugged long life characteristics for which Buckbootz is renowned. UKCA/CE anti-slip certification. Heat (300°C) and Fuel Oil resistant. Lock stitching at toe.

A STROLL IN THE DARK

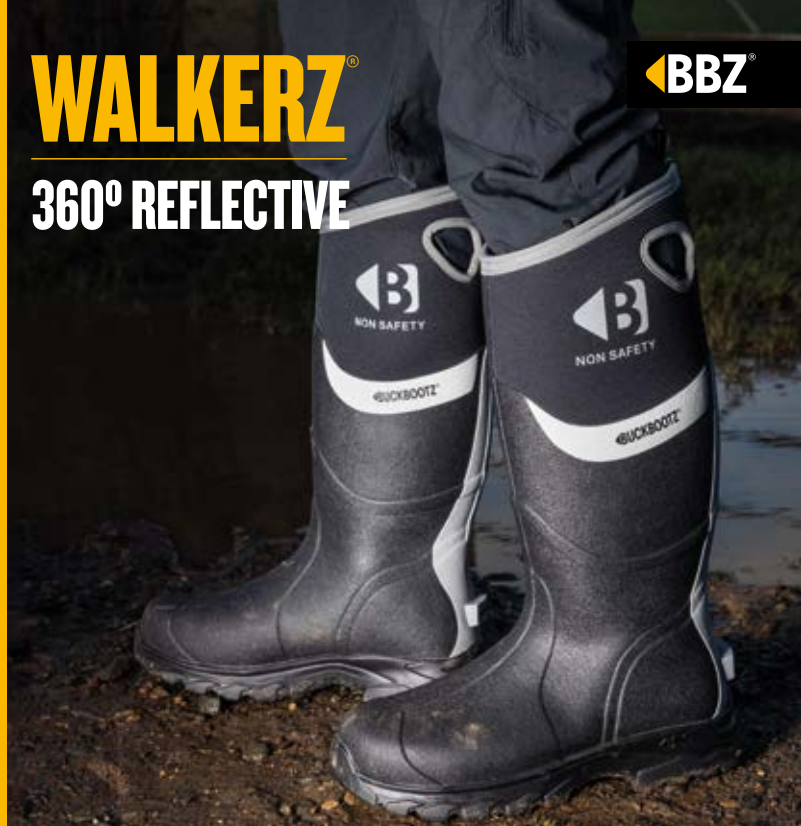

Our dealer network tells us and we believe it, our tried and tested BBZ 5020 non-safety knee boot has the lowest rate of return of any similar product on the market. And now a new dawn beckons. We bring Buckbootz latest sole/upper construction and renowned expertise in designing high spec, high performance, super comfort neoprene/rubber safety footwear to those whose requirement is no more than taking the dog for a walk or going for an evening stroll - safely.

Walkerz® are walking wellies like no other on the market. With reflective detailing and trim enhancement they provide 360° visibility - night and day. But that's not all. Walkerz® provide total ease of fitting and removal. Collar roll down is eliminated at fitting thanks to the sloped design which accommodates two pull on levers.

Removal is made easy with heel kick-off spurs. Like most good ideas, simple. They look great too!

WALKERZ®
