IMPORTANT MESSAGE REGARDING YOUR MAINTENANCE BOOK AND WARRANTY COVERAGE

Your New Vehicle Limited Warranty requires that you perform the scheduled maintenance at the time or metrage shown in your Owner's Manual. If you do not do so, and your vehicle fails as a result of your failure to maintain it properly, repairs may not be covered under your warranty.

DaimlerChrysler recommends that you use this Maintenance Service Schedule Book to keep a written record of maintenance performed on your vehicle.

For 24-hour Roadside Assistance Dial 1-800-363-4869

- Give us your Vehicle Identification Number, licence plate number and odometer reading.
- Tell us where you are and the number from which you are calling.

See page 20 for details.

TO OUR CUSTOMERS:

This booklet explains the maintenance schedule, the limited warranties and optional service contracts that apply to your new vehicle. It explains exactly what's covered, how long each warranty lasts, and what you must do to keep the warranties in force. Please read the warranties and other information in this booklet carefully.

This booklet should be kept in your vehicle.

In this booklet, "DaimlerChrysler Retailer" means any authorized retailer who sells and services Chrysler, Jeep®, or Dodge vehicles.

"DaimlerChrysler" and "DaimlerChrysler Canada" mean DaimlerChrysler Canada Inc.

"DaimlerChrysler parts" mean Mopar®, or Autopar®, brand parts designed for Chrysler, Jeep and Dodge vehicles by DaimlerChrysler Motors Corporation.

Chrysler and Dodge are registered trademarks of DaimlerChrysler Canada Inc., a wholly owned subsidiary of DaimlerChrysler Corporation. Jeep is a registered trademark of DaimlerChrysler Corporation, used under licence by DaimlerChrysler Canada Inc. Mopar is a registered trademark of DaimlerChrysler Corporation. Autopar is a registered trademark of DaimlerChrysler Canada Inc.

WARRANTY INFORMATION

YOUR RIGHTS AND RESPONSIBILITIES

All of the warranties in this booklet are limited warranties and they give you specific legal rights. You may also have other rights which vary from province to province. Some provinces do not allow the exclusion or limitation of incidental or consequential damages, or limitation of how long an implied warranty lasts or who is eligible for coverage, so the stated limitations or exclusions may not apply to you.

The limited warranties in this booklet are the only express warranties made by DaimlerChrysler Canada Inc. applicable to this vehicle. Any implied warranty or condition of merchantability or fitness for a particular purpose applicable to this vehicle is limited in duration to the duration of these limited warranties.

DaimlerChrysler Canada Inc. shall not be liable for commercial loss, special or consequential damages resulting from breach of these written warranties or of any implied warranty or condition.

OPERATION AND MAINTENANCE

It is your responsibility under the terms of these warranties to operate and maintain your vehicle as recommended in the Owner's Manual. Regular scheduled maintenance, described in your Owner's Manual and herein, is essential to trouble-free operation.

We strongly recommend that you return to your selling retailer for all service, both during and after the warranty periods. DaimlerChrysler Canada Retailers are best equipped and trained to provide all levels of service and maintenance for your vehicle.

High-tech diagnostic equipment is sometimes needed to service a vehicle efficiently and accurately. DaimlerChrysler Canada Retailers have unique diagnostic computers and electronic and mechanical tools, specially designed to service our cars and trucks, and we provide special technical training so their technicians can render the skilled care your vehicle needs.

WARRANTY SERVICE

Warranty service must be done by an authorized Sprinter Retailer. We recommend that you return to your selling retailer for this service; however, you may request warranty service for your vehicle from any authorized Sprinter Retailer. See “How to get service” on page 15.

NAME AND ADDRESS CHANGES

The Canadian Motor Vehicle Safety Act requires vehicle manufacturers to notify owners if the correction of a safety-related defect becomes necessary. If you change your name or address, or if you are a subsequent owner of this vehicle, please use the yellow Name or Address Change Card, found in the glovebox packet, to report the change to DaimlerChrysler Canada. If the card is missing, ask your retailer for one or “Update Your Personal Information” in the “Owner’s Section” at www.dodge.ca.

ABOUT YOUR WARRANTIES

WARRANTY START DATE

Time and distance limitations for all warranty coverage are measured from the vehicle's "warranty start date," which is the date when the vehicle was originally delivered or first used, whichever occurred first.

VEHICLES COVERED

The warranties in this booklet cover new 2007 Dodge Sprinter Trucks only, that are built for sale in Canada and are registered and normally operated in Canada. The warranties apply to all owners of the vehicle.

COVERED REPAIRS

The warranties in this booklet cover repairs to factory-installed DaimlerChrysler parts and equipment (that is, DaimlerChrysler parts or equipment installed by DaimlerChrysler or by the selling retailer before the vehicle was delivered to the first owner), if the repairs

were necessary because of a defect in material or workmanship. Covered repairs will be done without charge, using new or remanufactured DaimlerChrysler parts (see page 16).

TOWING IS COVERED

If your vehicle has to be towed because a part covered by warranty failed, towing to the nearest authorized Sprinter Retailer will be covered by the Roadside Assistance Program (for details, see page 20).

Important: Some vehicles have special towing requirements.

See your Owner's Manual for towing instructions.

3/60 BASIC WARRANTY

If required because of a defect in material or workmanship, the 3/60 Basic Warranty will cover the adjustment, repair or replacement of any factory-installed part of your vehicle except tires for *3 years or 60,000 kilometres*, whichever occurs first. The following items are exceptions; they are only covered (if defective) for *1 year or 20,000 kilometres*, whichever occurs first:

- light bulbs and fuses
- wiper blades
- clutch discs and linings
- brakes (rotors, pads, linings and drums)
- windshield and rear window
- wheel alignment and wheel balancing
- receiver-drier filter

Tires are warranted by the tire manufacturers, not by DaimlerChrysler. For details, see the tire manufacturer's warranty booklet in your glovebox. Your Sprinter Retailer may be able to assist you if you experience a problem with a factory-installed tire.

Tires and spare tire should be replaced after six years, regardless of the remaining tread. Failure to follow this warning can result in sudden tire failure. You could lose control and have an accident resulting in serious injury or death.

5/100 POWERTRAIN WARRANTY

The following powertrain components are covered for 5 years or 100,000 kilometres, whichever occurs first, measured from the vehicle's original warranty start date.

Vehicles placed in police, taxi, limousine, postal or ambulance service and all SRT vehicles are excluded from the *5-year or 100,000-kilometre* Powertrain Warranty and are covered only under the *3-year or 60,000-kilometre* Basic Warranty.

- **Transmission** – Transmission case and all internal parts; torque converter; drive/flex plate; transmission range switch; transmission control module; bell housing; oil pan; seals and gaskets for listed components only.

Note: Manual transmission clutch parts are not covered at any time.

- **Rear-Wheel Drive** – Rear axle housing and all internal parts; axle shafts; axle shaft bearings; driveshaft assemblies; driveshaft centre bearings; universal joints and yokes; seals and gaskets for listed components only.

5/160 DIESEL ENGINE WARRANTY

These diesel engine parts are covered for 5 years or 160,000 kilometres, whichever occurs first.

- **Diesel Engine** – Cylinder block and all internal parts; cylinder head assemblies; core plugs; fuel injection pump and injectors; intake and exhaust manifolds; oil pan; oil pump; timing gear drive belts and/or chains and cover; turbocharger housing and internal parts; valve covers; water pump and housing; seals and gaskets for listed components.

CORROSION WARRANTY

For *3 years, regardless of distance driven*, your Corrosion Warranty covers any body sheet metal panel which develops a hole caused by corrosion.

In addition, outer body panels are covered against holes caused by corrosion up to *5 years or 160,000 kilometres*, whichever occurs first. An outer body panel is a sheet metal panel which can be seen while walking around the vehicle, and which is painted body colour.

This warranty applies only to holes caused by corrosion. Cosmetic or surface corrosion (resulting from stone chips or scratches in the paint, for example) will not be repaired under this warranty.

If collision damage is obviously neglected and allowed to worsen until a hole develops, this warranty will not cover the repair.

COLLISION DAMAGE

If your vehicle is damaged in an accident and needs sheet metal repair or replacement, be sure the body shop uses only genuine DaimlerChrysler parts and applies anti-corrosion materials to the parts repaired or replaced. Your Corrosion Warranty does not cover replacement parts not supplied by DaimlerChrysler, or any damage which is caused by the use of non-DaimlerChrysler replacement parts.

See also *What Is Not Covered* on page 12.

EMISSION WARRANTY

DaimlerChrysler Canada warrants that your new vehicle was designed, built and equipped to conform at the time of sale with applicable federal and provincial emissions standards, and that the vehicle is, at the time of sale, free from defects in material and workmanship which would cause it to fail to conform to the applicable emission standards within the warranty periods specified. A covered defect is one which causes your vehicle to fail to meet applicable emission control regulations.

To keep your vehicle operating properly and in conformance with emission regulations, see the “Scheduled Maintenance” instructions in your Owner’s Manual and herein. Only DaimlerChrysler parts should be used for maintenance and repair of your vehicle’s emission control systems.

You should keep any receipts for maintenance service and pass them on to the next owner of your vehicle, in case questions arise concerning maintenance. DaimlerChrysler Canada has the right to deny warranty coverage if your vehicle has not been properly maintained, or if repairs are needed because parts other than DaimlerChrysler parts were used; however, denial will not be based on the lack of maintenance records alone.

Warranty service must be performed by an authorized Sprinter Retailer.

If emergency warranty service is required and an authorized retailer is not available, contact DaimlerChrysler Canada Customer Assistance (page 18) and request emission warranty service help.

EMISSION DEFECT WARRANTY

The 3/60 Basic Warranty covers all emission control components for 3 years or 60,000 kilometres, whichever occurs first. The Emission Defect Warranty provides longer coverage for specified components.

For heavy-duty trucks equipped with a diesel engine, the Emissions Warranty covers the following components for *5 years or 160,000 kilometres*, whichever occurs first:

- I. **Air Intake System:** intake air ducts; intake manifold; intercooler; vacuum transducer
- II. **Fuel Metering System:** electronic accelerator valve sensor; fuel injector; fuel pump; fuel-rail pressure sensor; low-pressure sensor
- III. **Exhaust Gas Recirculation System:** EGR valve with integrated switching valve
- IV. **Exhaust:** exhaust manifold; oxidation catalyst; turbocharger
- V. **Engine Emission Control System Sensor:** camshaft position sensor; crankshaft position sensor/RPM sensor; engine control module; engine coolant temperature sensor; manifold air pressure sensor; mass air flow sensor; oil level and temperature sensors
- VI. **Onboard Diagnostics:** data link connector (OBD); flexible service system; malfunction indicator lamp

WHAT IS NOT COVERED

DAMAGE FROM MISUSE OR ACCIDENT

The warranties in this booklet do not cover repairs required due to fire, accidents, abuse, negligence, objects striking your vehicle, carrying corrosive materials (such as chemicals, acids and fertilizers), misuse (such as driving over curbs, overloading, spinning wheels, etc.), racing or participating in a racing event, improper disconnection of components, modifying the exhaust system, tampering or making adjustments which do not comply with DaimlerChrysler specifications.

Disconnecting, tampering with or changing the reading of the odometer will void your warranties.

DAMAGE FROM THE ENVIRONMENT

The warranties in this booklet do not cover fading or deterioration caused by exposure to the elements, or repairs required due to airborne fallout, acid rain, chemicals, tree sap, insects, bird or insect droppings, salt, sand, gravel, road hazards, hail, windstorms, lightning, floods or any other event of nature.

Road salt, car washes, scuffs and scratches, and everyday abrasion from sand and dirt can affect the appearance of a vehicle's wheels (steel, chrome and aluminum) and other undercarriage parts. Some surface corrosion with use is normal; it is not a defect and is not covered by any warranty.

NORMAL MAINTENANCE AND WEAR

The warranties in this booklet do not cover normal maintenance services, such as oil and filter changes, general lubrication, tire rotation, engine tune-ups and replacing spark plugs. Required maintenance services are described in detail in your Owner's Manual and herein. The warranties also do not cover light bulbs and fuses, worn wiper blades, clutch discs, brake rotors, pads, linings or drums, windshield and rear window, receiver-drier filter, wheel alignment and wheel balancing (unless they are defective, see page 7).

DAMAGE FROM IMPROPER MAINTENANCE

The warranties in this booklet do not cover repairs required due to improper maintenance, lack of maintenance, use of contaminated or dirty fuels or failure to use the proper fuels and lubricants recommended in the Owner's Manual and herein.

EXTRA EXPENSES

The warranties in this booklet do not cover incidental or consequential damages such as loss of use of your vehicle, loss of time, inconvenience, expense for fuel, telephone, travel, rental car, overnight accommodation, loss or damage to your personal property, commercial loss, loss of income, etc.

NON-DAIMLERCHRYSLER MODIFICATIONS

The warranties in this booklet do not cover repairs required because of non-DaimlerChrysler modifications, installation of special equipment or accessories, or use of special materials, fuels or additives. This includes special bodies, body conversions, fuel system conversions, trailer hitches, window tints, sunroofs, theft alarms, etc. Non-DaimlerChrysler modifications do not by themselves void your warranty, but they are not covered by your warranty.

NON-DAIMLERCHRYSLER PARTS

The warranties in this booklet do not cover parts, equipment, materials or additives not supplied by DaimlerChrysler or not certified for use on your vehicle. Performance and racing parts are considered to be non-DaimlerChrysler parts.

EXPORTED VEHICLES

EXCEPT WHERE SPECIFICALLY REQUIRED BY LAW, THERE IS NO WARRANTY COVERAGE ON THIS VEHICLE IF IT IS SOLD IN OR REGISTERED IN COUNTRIES OTHER THAN CANADA.

This policy does not apply to vehicles that have received authorization for export from DaimlerChrysler Canada. Retailers may not give authorization for export. You should consult an authorized retailer to determine this vehicle's warranty coverage if you have any questions.

This policy does not apply to vehicles registered to Canadian Government officials or military personnel on assignment outside of Canada.

(See also page 15.)

TOTAL LOSS AND SALVAGE VEHICLES

Any vehicle that is declared to be a total loss by any insurance company, or is rebuilt after being declared to be a total loss, or is otherwise designated as "salvage," "scrap," "rebuilt" or words of similar impact will no longer have any warranty coverage.

DaimlerChrysler Canada will deny warranty coverage without notice if it learns that a vehicle is ineligible for coverage for any of these reasons.

RESTRICTED WARRANTY

DaimlerChrysler Canada may restrict the warranty on your vehicle if the vehicle is not properly maintained, or if it is abused or neglected and the abuse or neglect interferes with the proper functioning of the vehicle. If the warranty is restricted, coverage may be denied or subject to approval by DaimlerChrysler Canada before repairs are performed.

HOW TO GET SERVICE

IN CANADA:

Warranty service must be done by an authorized Sprinter Retailer. If you move or are travelling in Canada, warranty service may be requested from any authorized Sprinter Retailer.

IN THE UNITED STATES (INCLUDING U.S. POSSESSIONS AND TERRITORIES) AND MEXICO:

If you are travelling temporarily in the United States or Mexico, and your vehicle remains registered in Canada, your DaimlerChrysler Canada Warranty will still apply. Service may be requested from any authorized Sprinter Retailer.

IN A FOREIGN COUNTRY OUTSIDE OF NORTH AMERICA:

If you are travelling temporarily outside of North America, and your vehicle remains registered in Canada, you should take your vehicle to an authorized Sprinter Retailer. If the authorized retailer charges you for repairs which you feel should be covered under your warranty, please get a detailed receipt for the work done. When your vehicle returns to Canada, contact the DaimlerChrysler

Canada Customer Assistance Centre (page 18) for reimbursement consideration. Reimbursement will not be considered if the vehicle does not return to Canada.

IF YOU MOVE:

If you are moving to another country, be sure to contact the customs department of the destination country before you move. Vehicle importation rules vary considerably from country to country.

If you are moving to the United States, be sure to also contact the DaimlerChrysler Motors Customer Assistance office at **1-800-992-1997** to obtain the necessary documentation to register your vehicle and to determine warranty eligibility in the U.S.

NOTICE:

If your vehicle is registered outside of Canada, and you have not followed the procedure set out above, your vehicle will no longer be eligible for warranty coverage of any kind. (Vehicles registered to Canadian Government officials or military personnel on assignment outside of Canada will continue to be covered by the Basic Warranty.)

OTHER THINGS YOU SHOULD KNOW

APPEARANCE ITEMS

Defects or damage to sheet metal, paint, trim and other appearance items are normally found and corrected during new vehicle inspection. For your protection, if you find any such defect or damage, you should tell your selling retailer immediately, because if the problem worsens due to use and exposure, repairs will not be covered by any warranty.

PRODUCTION CHANGES

DaimlerChrysler Canada and its retailers reserve the right to make changes in vehicles built and/or sold at any time without incurring any obligations to make the same or similar changes on vehicles which were built and/or sold previously.

EXCHANGE PARTS

To reduce the amount of time your vehicle is out of service due to repairs, DaimlerChrysler may offer exchange service on some parts. Mopar® or Autopar® brand exchange parts may be new, remanufactured, reconditioned or repaired, but all meet DaimlerChrysler standards and are warranted the same as new parts. Examples of parts that may be serviced by exchange include engines, transmissions, instrument clusters, radios, tape and CD players, speedometers and various electronic modules.

RECLAIMED REFRIGERANT

To help control suspected ozone-depleting agents, regulations require the capture, purification and reuse of automotive refrigerant gases. As a result, any repairs to the sealed portion of your air conditioning system, if so equipped, may involve the installation of purified reclaimed refrigerant.

CASSETTE TAPES AND CDS

There are some things you should know about cassette tapes and non-commercial CDs. Labels applied to tape cassettes and home-recorded CDs may curl, buckle or peel off. This can result in ejection failure, and repairs required to remove a “stuck” CD or cassette are not covered by warranty. In addition, some home-recorded CDs of the CD-R and CD-RW formats may not be compatible with automotive CD players and may skip or produce error messages. If you encounter this, check your CD player by using a commercial CD which is known to be playable. If a CD is not compatible with the player, replacing or servicing the player will not solve the problem.

CUSTOMER ASSISTANCE

We want you to be completely satisfied with your DaimlerChrysler vehicle. If you have a warranty or service problem that has not been resolved to your complete satisfaction, please follow these steps:

1. Discuss the matter with the Service Manager of your DaimlerChrysler Retailer; then with the General Manager or owner, if necessary.
2. Give your retailer a reasonable length of time or number of opportunities to satisfy you. In fact, your retailer may contact DaimlerChrysler on your behalf.
3. If the problem still has not been resolved, please contact us at the address or toll-free number shown and give us an opportunity to review your situation. When you contact us, please provide the following information:

- Your name, address and phone number
- The name of your retailer
- Your Vehicle Identification Number (VIN)
- Your vehicle's odometer reading (kilometres)

**Customer Assistance Centre
DaimlerChrysler Canada Inc.
P.O. Box 1621
Windsor, Ontario N9A 4H6
1-800-465-2001**

ARBITRATION

If you are still not satisfied after following the three steps on the previous page, you have yet another option.

DaimlerChrysler Canada participates in an arbitration program administered by the Canadian Motor Vehicle Arbitration Plan (CAMVAP). CAMVAP will advise you about how your complaint may be reviewed and resolved by an independent third party through binding arbitration.

Our goal and that of our retailers is your complete satisfaction. DaimlerChrysler Canada's participation in CAMVAP makes a valuable contribution to our achievement of that goal. There is no charge for using CAMVAP. CAMVAP results are fast, fair and final, as the award is binding on both you and DaimlerChrysler Canada.

CAMVAP has been implemented in all provinces and territories. For more information, you can call CAMVAP directly or call our Customer Assistance Centre. Please provide your Vehicle Identification Number (VIN).

CAMVAP
1-800-207-0685

ROADSIDE ASSISTANCE

5/100 ROADSIDE ASSISTANCE PROGRAM

We are pleased to provide this 24-hour Roadside Assistance Program for all new 2007 Dodge Sprinter vehicles which have a **3-year or 60,000-kilometre** Basic Warranty and a **5-year or 100,000-kilometre** Powertrain Warranty. Eligible vehicles must be registered in Canada and are covered for **5 years or 100,000 kilometres**, whichever occurs first, from the vehicle's warranty start date.

Vehicles placed in police, taxi, limousine, postal or ambulance service and all SRT vehicles, are covered for roadside assistance for **3 years or 60,000 kilometres** only (whichever occurs first). Roadside Assistance service will be provided to the owner or driver of an eligible vehicle.

- **NEED A TOW?** If your vehicle cannot be driven because of a mechanical breakdown, it will be towed to the nearest authorized Sprinter Retailer (or to the Sprinter Retailer of your choice, provided it is within a 35-kilometre distance of the point of breakdown).
- **STUCK?** If your vehicle is stuck in a ditch or snow on or adjacent to a public roadway and appears to be undamaged, it will be winched to the nearest road surface. If your vehicle is unable to proceed under its own power and a tow is required once the winch is performed, you will be responsible for paying the service facility for the winch and the tow.
- **DEAD BATTERY?** If your battery is dead, jump-start assistance will be dispatched to your location. In the event that your vehicle fails to start, your vehicle will be towed to the nearest Sprinter Retailer (or to the Sprinter Retailer of your choice provided it is within a 35-kilometre distance of the point of breakdown).
- **LOCKED OUT?** If your keys are locked in your vehicle or your locks are frozen, help will be sent to your location. (Service is limited to providing access to the seating area only and does not include the cost of replacing keys.)

- **FLAT TIRE?** If you have a flat tire, the service facility will remove it and install your spare tire. The spare tire must be inflated and in sound operating condition. Tire repairs are not covered.
- **OUT OF FUEL?** Diesel trucks will be towed to a Servicing Sprinter Retailer (the cost of the service at the retailer is not covered).

Please read "About Roadside Assistance" (page 22) because there are some limitations that may affect the service available to you.

TO REQUEST ASSISTANCE (SEE ALSO INSIDE FRONT COVER)

If your vehicle requires any of the services provided by the program, call this toll-free number anytime, from any location in Canada or the United States: 1-800-363-4869 (this number does not ring at DaimlerChrysler Canada). Please identify yourself as a DaimlerChrysler vehicle owner and be ready to provide:

- Your Vehicle Identification Number
- Your licence plate number
- Your odometer reading (kilometres)
- The location of your vehicle and the phone number where you can be reached
- Type of service needed (tow, flat tire, battery boost, etc.)

Note: • *In severe weather, some delays may be expected*

- *You will have to personally authorize the service provided by the tow company*
- *If your vehicle is towed to a retailer, you are responsible for contacting the retailer to authorize the service*

TOWING AFTER THE PROGRAM EXPIRES

Coverage under the Roadside Assistance Program expires at **5 years or 100,000 kilometres**, (or at **3 years or 60,000 kilometres**, if applicable), whichever occurs first. If you call the toll-free number for assistance after the program expires, you will have to pay for the service provided.

Some emissions coverage lasts longer than the Roadside Assistance program.* For warranted emission system repairs after the program expires, towing (only) will be provided on a reimbursement basis. Call the toll-free number and service will be dispatched, but you will have to pay for the tow. For reimbursement consideration, see your authorized Sprinter Retailer for further details.

*See page 10.

ABOUT ROADSIDE ASSISTANCE

The DaimlerChrysler Canada Roadside Assistance Program is not a warranty, but the coverage is concurrent with the Basic and Powertrain Warranties.

Covered service must be provided in Canada or the Continental United States and is limited to plated and insured vehicles that use public roadways.

Service will not be provided free if you have driven into an area that is inaccessible to the service vehicle or is not a regularly travelled and maintained public road (such as beaches, recreational areas, construction sites, open fields, private and seasonal roads). Cross-country, logging, autocross and any other form of off-road use is not covered.

The program does not cover winching or towing for vehicles that become stuck while plowing snow.

The program does not cover repeat calls for the same problem (if avoidance of the problem is within the control of the driver or owner), or towing from one retailer to another, or service if the driver appears to be under the influence of alcohol or drugs.

The program does not pay for parts, tires, repairs, labour or vehicle storage. Parts, repairs, or labour covered under a vehicle warranty will be provided by your Sprinter Retailer.

The program does not pay for towing required because of an accident. For example, if a vehicle is winched from a ditch or snowbank and is then determined to need a tow because of damage suffered when it left the road, the tow will not be covered.

The program does not cover any “incidental or consequential damages” connected with the failure of your vehicle or providing services to you. Such damages include lost time, inconvenience, loss of use of your vehicle, rental cars, fuel, telephone, travel or lodging, loss of personal or commercial property, loss of revenue, etc.

All service providers are independent contractors and are not employees or agents of DaimlerChrysler Canada. Any loss or damage to your vehicle or personal property resulting from providing roadside service is the responsibility of the roadside service provider (the towing company, for example).

Report any damage or loss to the manager of the service provider and to your own insurance company within 24 hours and before any repairs are performed.

DaimlerChrysler Canada reserves the right to limit services or reimbursement claims for any vehicle, if in our opinion there is abuse of the services or requests for service become unreasonable or too frequent.

The program may be amended or cancelled at any time without refund.

IN REMOTE LOCATIONS

If your vehicle suffers a warrantable mechanical breakdown at a considerable distance from an authorized Sprinter Retailer, we reserve the right to engage a nearby non-DaimlerChrysler service facility to repair your vehicle, to minimize inconvenience to you.

In very remote areas, if your vehicle cannot be taken by road to the servicing retailer, transportation by rail or water may be necessary. The program will cover a tow to the dock or rail terminal and also to the retailer at the end of the trip, but special transportation by rail or water must be arranged for and paid by you. We will reimburse you for special transportation costs, up to \$300 per incident.

IF YOU HAVE TO PAY

If you have to pay for a service that is normally covered by the program, you may claim reimbursement under the following conditions:

- You must have called the toll-free number first for assistance
- Towing claims must be accompanied by the original detailed repair bill and towing invoice
- Reimbursement will be limited to the local Roadside Assistance contractor rates, to a maximum of \$100 per incident, unless otherwise noted
- Only original receipts, bills and/or charge card copies submitted by you will be accepted for consideration for reimbursement. Originals will be returned upon request

- Mail your claims to:

DaimlerChrysler Canada Roadside Assistance
248 Pall Mall, P.O. Box 5845
London, Ontario N6A 4T4

DaimlerChrysler Canada reserves the right to decline any claim presented for payment later than 30 days from the date the service was performed, or if service was provided by an unlicensed garage or individual.

OPTIONAL DAIMLERCHRYSLER CANADA SERVICE CONTRACTS

As complete as our new warranty is, it may not give you total protection for your ownership period, nor does it provide the regular maintenance which is required to keep your new vehicle at its optimal operating condition. If you lease a vehicle, you should be aware of your obligation to maintain and repair the vehicle.

DaimlerChrysler Canada Service Contracts can enhance your new vehicle's factory warranty from the day of delivery and provide mechanical coverage on most major components[†] when your factory warranty expires. There are 3 types of plans available for purchase to suit most needs and the average length of ownership.

Vehicles placed in police, taxi, limousine, postal or ambulance service and all SRT vehicles may qualify for a service contract. Please see your selling retailer for "Special Use" Service Contract availability.

[†]Subject to limitations. Details available at your selling retailer.

1. POWERTRAIN PLANS*

Powertrain plans complement the factory powertrain warranty by providing enhanced roadside coverage and car rental allowance if your vehicle is not drivable and must be kept overnight. Certain plans also provide additional distance coverage.

Major components covered are:

- engine • transmission • front-wheel drive • rear-wheel drive
- 4-wheel drive (4x4) • all-wheel-drive vehicles

2. "GOLD" PLANS*

Each plan provides full mechanical repair protection to non-powertrain (Gold) components. Certain plans also provide full mechanical protection against powertrain component repairs beyond your vehicle's powertrain warranty coverage. Contracts are available with or without a deductible.

Major components covered are:

- steering • air conditioning • engine cooling and fuel • front suspension • rear suspension • electrical • hydraulic brake components • anti-lock brakes

*Maximum terms available on new vehicles registered in Canada only.

3. "GOLD PLUS" PLANS*

The most complete protection available for your new vehicle is a "Gold Plus" Service Contract which combines the benefits of Gold component coverage (see "Gold" Plans), plus, the most important vehicle maintenance functions:

- Engine oil and oil filter changes
- Tire rotation every other service
- "Peace-of-Mind" motoring with Tire Road Hazard Protection which provides full, or pro-rata, replacement of the original four tires, or their repair
- Rental car allowance for same-day warranty repairs – your vehicle need not be kept overnight before eligibility for the rental allowance is met

FEATURES AND BENEFITS

DaimlerChrysler Service Contracts also provide these additional features and benefits:

- **ENHANCED ROADSIDE ASSISTANCE**

- Travel planning
- Trip interruption

- **CAR RENTAL ALLOWANCE**

For the duration of the plan selected, the plan covers up to \$50 per day (five days maximum), any time a covered component fails and repairs take overnight.

- **NORTH AMERICA-WIDE SERVICE**

DaimlerChrysler Retailers are located throughout Canada and the Continental United States.

- **TRANSFERABLE AT NO COST**

The unexpired portion of the plan coverage may be transferred to the subsequent retail purchaser at no cost, within 30 days of the date of sale. (Ask your retailer for details.)

- **POSSIBLE HIGHER RESALE VALUE**

The DaimlerChrysler Service Contract may enhance the resale value of your vehicle.

- **NO COMMITMENT FOR 60 DAYS**

The first 60 days are considered a trial period. Should you decide to cancel within this period, you will receive full reimbursement of your plan purchase price, less any paid claims.

WHEN PLAN COVERAGE STARTS AND ENDS

All new vehicle plans commence from the warranty start date (the original in-service date of the vehicle) and from zero metrage.

Substitute transportation coverage begins on the date the contract is purchased, subject to acceptance by DaimlerChrysler Canada. Plan expiration is specified in your plan provision.

ELIGIBLE VEHICLES

DaimlerChrysler Canada vehicles which have 3/60 Basic and/or 5/100 Powertrain Warranty and are less than three years in service, and have accumulated less than 60,000 kilometres, are eligible for service contracts.

INELIGIBLE VEHICLES

Vehicles involved in an accident to the extent of becoming an insurance write-off; vehicles not registered in Canada; vehicles placed in taxi, limousine or livery services; vehicles used to plow snow or used in postal or dump truck services; vehicles used off-road; cab and chassis trucks; vehicles altered or converted from specified original DaimlerChrysler equipment; vehicles used in emergency services (police, ambulance, towing); and motor homes are not eligible for a DaimlerChrysler Canada Service Contract.

Vehicles used in any competition event, pulling a trailer that exceeds the rated capacity of the vehicle, or failure to adhere to the requirements for vehicles used to pull a trailer as outlined in the Owner's Manual are not eligible.

PERSONALIZED TERMS AND CONDITIONS WELCOME KIT

Upon receipt and acceptance of your application by DaimlerChrysler, as submitted by your selling retailer, you will be mailed a personalized welcome letter confirming your entitlement to the benefits of the contract you purchased, a member's card and the Terms and Conditions outline. This will identify you and your vehicle to any DaimlerChrysler Retailer in Canada, or the United States, as being eligible for plan services for the period of the terms selected. The member's card is to be presented to the retailer when requesting plan services.

OWNER'S RESPONSIBILITY

The owner's responsibility is to properly operate, care for and maintain the vehicle as prescribed in the Owner's Manual supplied by DaimlerChrysler with each new vehicle and herein. Schedule "B" best describes operating conditions in Canada and is the recommended service schedule.

PLAN SERVICE/TOLL-FREE NUMBER

Plan service will be provided by the retailer who sold you the plan. In the event that you cannot return to the selling retailer for service, you may request plan service from any DaimlerChrysler Retailer in the United States or Canada. If you are unable to obtain plan service from an authorized retailer, you can call the toll-free number to receive service instructions.

DaimlerChrysler Canada stands fully behind its service contracts. Be sure that the contract you buy is a genuine DaimlerChrysler Service Contract. We are not responsible for other companies' contracts.

2007 DODGE SPRINTER

MAINTENANCE SERVICE SCHEDULE

MAINTENANCE Scheduled maintenance must be completed to provide the best vehicle performance and reliability. The limited warranties in the warranty booklet DO NOT COVER repairs required due to improper maintenance. DaimlerChrysler Canada Inc. reserves the right to deny warranty coverage if the vehicle has not been properly maintained. We strongly suggest you keep track of scheduled maintenance and keep receipts or other documents. Use only recommended Mopar[®] lubricants and genuine Mopar[®] parts. In the event that a condition arises between maintenance intervals, please contact your retailer. **AVOID PROLONGED PERIODS OF IDLING.**

NOTE: WHERE TIME (MONTHS) AND METRAGE ARE INDICATED, FOLLOW THE INTERVAL THAT OCCURS FIRST.

INTRODUCTION

This is intended as a guide to the service requirements of your vehicle. It contains all necessary instructions concerning service intervals and operations which have to be carried out. Scope and frequency of maintenance work primarily depend on the vehicle's operating conditions. In the interest of maintaining the vehicle's operating safety, the specified work should be performed regularly and in good time. Our vehicles are subject to ongoing development. Technical progress may also affect the scope of service work performed. "Daily vehicle checks" before starting a journey are the responsibility of the driver.

The Sprinter Retailer network is at your disposal for maintenance work. Each of these workshops

has the equipment and tools, the specially trained, skilled and experienced personnel and receives regular technical instruction from DaimlerChrysler Canada Inc. to ensure that your vehicle is inspected and maintained thoroughly and in accordance with the latest procedures.

Please follow the instructions given in this Maintenance Service Manual and ensure that they are observed, even if you hand the vehicle over to a third party for use or care. By not observing these instructions, you may void your warranty rights. If the specified oil and maintenance services are not carried out regularly or at the time intervals specified, a decision as to the validity of a warranty claim can only be made after DaimlerChrysler Canada Inc. has investigated your claim.

The use of special lubricant additives is not recommended. The use of such additives may affect your warranty rights. With regard to legal stipulations concerning emissions control, please note that engines have to be serviced and adjusted in accordance with special instructions and using special measuring equipment. Modifications to, or interference with, the emissions control systems are not permissible. All Sprinter Retailers are familiar with the relevant and applicable regulations.

REGULAR CHECK-UPS

To maintain the safe operation of your vehicle, it is recommended that you perform the following tasks on a regular basis (e.g. weekly or whenever the vehicle is refueled). Check:

- Engine oil level
- Brake system, clutch mechanism – fluid level
- Battery – acid level
- Windshield washer system and headlamp cleaning system – fluid level
- Mechanical assemblies (e.g. engine, transmission, etc.) – check for leaks
- Condition of tires and tire pressures
- All exterior lights

Introduction

This Maintenance Booklet is intended to serve as a guide to the maintenance requirements of your vehicle.

1

In order to ensure that your vehicle continues to operate reliably, please ensure that the work we have specified is carried out regularly and in good time.

Risk of accident and injury

Always have maintenance work carried out in good time. Failure to do this can lead to malfunctions or faults in systems that may be vital to safety. This could cause an accident, thereby endangering yourself or others.

Always have maintenance work carried out at an authorized Sprinter dealer which has the necessary specialist knowledge and tools to carry out the work required. DaimlerChrysler recommends that you use an authorized Sprinter dealer for this purpose.

All work relevant to safety or on safety-related systems must be carried out at an authorized Sprinter dealer.

Risk of injury

Please make sure that you read the technical documentation, such as the Owner's Manual and Service Information, before carrying out any maintenance work.

Maintenance work does not include repair work. Repair work must be invoiced separately.

Maintenance work will be confirmed in this booklet an authorized Sprinter dealer which does the work.

DaimlerChrysler vehicles undergo continuous development. We therefore ask you to appreciate that technical progress can also affect the scope of maintenance work.

Introduction

Your vehicle is equipped with the **ASSYST “Active Service System”**. This means that the different loads to which the vehicle is subjected during operation, are determined individually. Sensors detect the actual load on the engine oil according to the

- Engine oil level
- Oil temperature
- Coolant temperature
- Engine speed
- Road speed
- Engine load, etc.

Use this as a basis for calculating the service scope required for your vehicle.

About a month before the service is due, the multifunction display indicates whether

Service A: oil service plus

Or

Service B: maintenance service

should be carried out. The display appears for approximately 10 seconds after you have switched on the ignition. The remaining distance in kilometres or the remaining period in days is also shown at the same time. When the remaining period in days is displayed, the symbol  is also shown.

If the service due date has been exceeded:

- The service display will flash for 10 seconds in the multifunction display after the ignition has been switched on
- A minus sign appears before the service due date

An authorized Sprinter dealer will reset the service display after every service (oil service plus or maintenance service).

Further information about the ASSYST service indicator can be found in the Owner's Manual.

1

Warranty

1

The Sprinter Dealer is at your disposal for maintenance work. Each of these dealers has the equipment and tools, the specially trained, skilled and experienced personnel and receives regular technical instruction from DaimlerChrysler Vans LLC to ensure that your vehicle is inspected and maintained thoroughly and in accordance with the latest procedures.

Please follow the instructions given in the service booklet and ensure that they are observed, even if you hand the vehicle over to a third party for use or care. By not observing these instructions you may void your warranty rights.

If the specified oil and maintenance services are not carried out regularly or at the time intervals specified, a decision as to the validity of a warranty claim can only be made after DaimlerChrysler Vans LLC has investigated your claim.

The use of special lubricant additives is not recommended.

The use of such additives may affect your warranty rights.

With regard to legal stipulations concerning emission control, please note that engines have to be serviced and adjusted in accordance with special instructions and using special measuring equipment. Modifications to or interference with the emissions control systems are not permissible.

All authorized Sprinter Dealers are familiar with the relevant and applicable regulations.

Service products

Service products are:

- Fuel
- Lubricants (e.g. engine oil, transmission oil, hydraulic fluid, grease)
- Antifreeze, coolant
- Brake fluid

Approved service products are listed in the **Owner's Manual Chapter: Service Products and Capacities**. Information on these specifications can be obtained from an authorized Sprinter dealer.

For notes on capacities, see the **Technical data** section of the Owner's Manual.

Environmental note

Dispose of service products in an environmentally responsible manner.

Risk of injury

Service products constitute a health hazard. They contain toxic and caustic ingredients.

Service products are highly flammable.

Please follow the instructions below to avoid injuries to yourself and others:

Avoid inhaling vapours. In enclosed spaces, always ensure there is sufficient ventilation to avoid poisoning.

Service products must not come into contact with the skin, eyes or clothing. In the event of contact with the skin, clean the affected area with soap and water to prevent acid burns or any other injuries.

In the event of contact with the eyes, rinse them thoroughly with plenty of clean water. If any service product is swallowed, consult a doctor immediately.

If a service product should get on your clothes, change them immediately to avoid the risk of them catching fire or any other injuries.

Keep away from fire and open flames and refrain from smoking when handling service products due to their highly flammable nature.

Keep service products out of the reach of children.

Observe the safety notices on the service product containers regarding toxicity, risk of acid burns and risk of fire.

Service products

Engine oil

1 The maximum time between changing the oil will only be achieved if a particularly high grade engine oil is used (e.g. in accordance with sheet no. 229.5/.51 or 228.5/.51 of the **Owner's Manual Chapter: Service Products and Capacities**).

The SAE class (viscosity) of the engine oil must be selected in accordance with the average air temperature for the time of year.

The use of unapproved engine oils may limit your warranty entitlement.

On vehicles which operate in strenuous conditions, e.g. extremely short distances with frequent engine stops, the oil change interval can be reduced with ASSYST. The intervals for the other maintenance positions are not affected by this.

In the case of low mileages, change the engine oil and replace the filter on diesel engines **after no more than 2 years** and on gasoline engines **after no more than 1 year**.

Information is available from any authorized Sprinter dealer.

Coolant

Risk of poisoning

Coolant contains toxic components. Should coolant be swallowed, consult a doctor immediately.

Coolant must not come into contact with the skin, eyes or clothing. Clean any affected areas with soap and water. In the event of contact with the eyes, rinse them thoroughly with copious amounts of clean water. Change out of contaminated clothing immediately.

Service products

A coolant is added at the factory, which ensures adequate antifreeze and anti-corrosion protection.

The coolant is a mixture of water and a corrosion inhibitor/antifreeze. Within the cooling system, the coolant ensures:

- Anti-corrosion protection
- Antifreeze protection
- A higher boiling point

For reasons of anti-corrosion protection and to increase the boiling point, the coolant is added to the cooling system all year round – even in countries with high temperatures.

Check the antifreeze/corrosion inhibitor concentration in the coolant twice a year.

Have the coolant renewed **every 15 years/ after a maximum of 288,000 km.**

For information concerning capacities, see the **Technical data** section of the Owner's Manual.

To avoid damage to the cooling system, only use an approved corrosion inhibitor/antifreeze additive.

Whenever the coolant is renewed, a concentration of 50% by volume of corrosion inhibitor/antifreeze should be maintained. This provides antifreeze protection down to -34°F (-37°C).

Do not exceed a concentration of 55% by volume (antifreeze protection down to approximately -49°F [-45°C]), since the heat dissipation properties deteriorate at higher concentrations.

In the event of coolant loss, do not add water alone, but sufficient antifreeze/corrosion inhibitor to maintain the correct concentration.

The water in the coolant must satisfy certain requirements. These are often met by tap supply drinking water. The water must be specially treated if the water quality does not come up to the required standards.

Any authorized Sprinter dealer will gladly advise and assist you if you require further information about operating safety and road safety when driving your vehicle.

1

7

Service products

Brake fluid

Risk of poisoning

1 Brake fluid contains toxic components. Should brake fluid be swallowed, consult a doctor immediately.

Brake fluid must not come into contact with the skin, eyes or clothing. Clean any affected areas with soap and water. In the event of contact with the eyes, rinse them thoroughly with clean water. Change out of contaminated clothing immediately.

Only used brands which have been tested and approved – observe the correct boiling point.

In the course of its service life, the boiling point of the brake fluid will fall due to the continuous absorption of moisture from the atmosphere. If the brakes are placed under extreme stress (for example on a long, steep downhill stretch) vapour bubbles can then form in the brake system, thus impairing the braking effect.

Have the brake fluid changed **every 2 years**, if possible in the spring.

Intervals at a glance

Maintenance Item	Perform Maintenance Every (Where time and mileage are listed, follow the interval that occurs first.)	
	kilometres	or months
Change the engine oil and engine oil filter (diesel engines).	16,000	24
Change the engine oil and engine oil filter (gasoline engines).	16,000	12
Rotate Tires	16,000	12
Replace fuel filter.	16,000	12
Replace brake fluid every 2 years		24
Replace vehicle interior dust (air conditioning) filter.	48,000	36
Inspect the brake linings, replace if necessary.	48,000	36
Inspect the battery fluid level for the additional battery in the engine compartment.	48,000	36

General

Intervals at a glance

Maintenance Item	Perform Maintenance Every (Where time and mileage are listed, follow the interval that occurs first.)	
	kilometres	or months
1 Inspect chassis and body U-bolt for proper torque. (Only necessary at 1st maintenance service).	48,000	36
Replace the engine air cleaner filter.	96,000	48
Replace spark plugs.	96,000	72
Replace automatic transmission fluid and filter.	96,000	72
Replace V-belt on gasoline engines.		72
Inspect poly-V-belt for wear and signs of damage. Replace as necessary.	96,000	72
Change rear axle fluid.	288,000	120
Flush and replace engine coolant.	288,000	120

Intervals and engine oil grades	
Gasoline engine	
Oil Service Plus	every 16,000 kilometres
Replace vehicle interior dust (air conditioning) filter.	every 48,000 kilometres

1

Special maintenance requirements

Dust filter/Combination filter

1 The dust filter for heating/ventilation, rear-compartment air conditioning or the air conditioning combination filter is replaced during the maintenance service. These will also be replaced before a service is due if a lot of dust has accumulated or if air recirculation mode is frequently used.

Diesel particle filter

The loading of the diesel particle filter has to be checked for the first time at 144,000 kilometres.

If the loading is still under the threshold at 144,000 kilometres, the loading of the diesel particle filter must be rechecked at every Oil service Plus/Maintenance service.

If the loading exceeds the threshold, then the diesel particle filter must be replaced.

Once the new diesel particle filter has been fitted, the test cycle begins again after 144,000 kilometres.
