A racer's edge

500 Abarth shown in Vesuvio Black Pearl

ABARTH®

HISTORY

This is the story of the Scorpion. It originates from the piercing vision of Karl Abarth, formed almost a century ago: "Go faster than yesterday." This philosophy served as the cornerstone upon which a well-crafted empire of finely tuned performance was built.

1929

Shortly after Karl Abarth gets his start racing motorcycles, he builds the first motorcycle to bear the Abarth name. As a competitor, Abarth was a five-time European Champion.

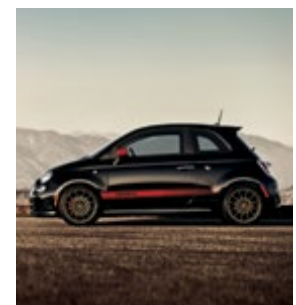

2019

The latest generation of the FIAT® 124 Spider Abarth, introduced at the Los Angeles International Auto Show in late 2015, carries on in the tracks of its iconic predecessors.

FIAT 500 ABARTH

Revel in that "small but wicked" Karl Abarth rush.

TRACK-WORTHY PERFORMANCE

True to the extraordinary vision of its namesake, Karl Abarth, this 500 demonstrates its extreme performance talents both on the track and the street. A short wheelbase and performance-tuned suspension work with a tight chassis to produce wonderfully aggressive handling. Every part of the 500 Abarth framework melds with the road and shrugs off all air resistance as it harnesses its turbo power. It's the latest generation of the race-ready Abarth vehicles that have established a roguish reputation and formidable marque ... behold the Scorpion.

Special Edition
FIAT® 500 Urbana

Edgy wheels

Get style points with this collection of Urbana-specific accents:

- Black-trimmed headlamps, fog lamps, turn signals and taillamps
- 16-inch Hyper Black aluminum wheels
- Black Sport cloth seats with Silver accent stitching
- Black instrument-panel bezel
- Hatchback and Cabrio Pop models
- Pompei Silver, Granito Grey, Perla White Tri-Coat and Bianco White Ice paint options.

5" Touchscreen

Uconnect®

Uconnect® is an advanced multimedia centre that gives drivers and passengers essential links to keep up with their changing-by-the-minute day — right from the seat of their FIAT® 500.

The Uconnect 3 multimedia centre — with a 5-inch touchscreen, Integrated Voice Command² with Bluetooth® for streaming audio — is standard on all models. The available SiriusXM satellite radio³ gives you music, talk, sports, weather and traffic stations with a one-year subscription.

Superior sound options are generated either by the standard 6-speaker audio system or the available BeatsAudio™ Premium Sound System, which features an 8-channel, 368-watt amplifier with BeatsAudio Digital Sound Processing (DSP), 1-inch tweeters in the A-pillars, two 6.5-inch woofers located in the doors and two 3.5-inch speakers in the rear quarter, and an 8-inch Dual-Voice Coil (DVC) subwoofer mounted in the trunk.

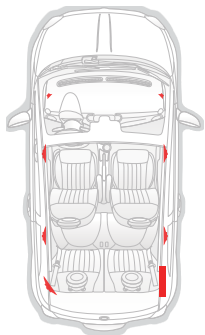

FUN TO D R I V E

FIAT® 500 is a vehicle that delivers a ride that matches the happy persona it projects: beyond its unique colour palette and expressive grille, engineers have equipped the 500 with turbo power and advanced handling systems that combine to make riders say, "I hope we're not there yet!"

The standard Uconnect® 3 multimedia centre has a 5-inch touchscreen display and Integrated Voice Command² with Bluetooth® for streaming audio.

The available SiriusXM satellite radio³ offers music, talk, weather, sports and local traffic stations with a one-year trial subscription.

The available BeatsAudio™ Premium Sound System features an 8-channel, 368-watt amplifier with BeatsAudio Digital Sound Processing (DSP).

 beatsaudio.

turbo

The new standard

The entire FIAT 500 lineup features, as standard, the innovative 1.4L I6V MultiAir® Turbo engine.

For FIAT 500 Pop, Lounge and Urbana editions, this eyebrow-raiser produces 135 horsepower, 150 lb-ft of torque and heart-stopping bursts of acceleration — all while delivering fuel economy as good as 8.4 L/100 km (city) and 7.0 L/100 km (hwy).⁷

500 Abarth® has the 1.4L I6V MultiAir Turbo, engineered to kick out 160 or 157 horsepower (along with 170 lb-ft or 183 lb-ft of torque) when mated with a manual or automatic transmission, respectively.

Cool and collected over 50

STANDARD AND AVAILABLE
SAFETY AND SECURITY FEATURES

Focus:

Safety

Security

Electronic Stability Control (ESC)¹

This feature assists drivers in maintaining control of their vehicles during extreme steering manoeuvres. Standard.

Park-Sense[®] Rear Park Assist⁴

When the vehicle is in Reverse, these sensors help detect objects in the rear pathway, providing an audible and visual warning. Available.

7 Air Bags⁶

Front-seat-mounted side, front and rear side, knee and advanced multistage front air bags all work together, providing protection. Standard.

Hill Start Assist

Maintains brake pressure during uphill stop/start moments to help prevent rollback — for a smooth start every time. Standard.

High-strength Steel

This innovative safety-cage body structure is made with high-strength steel to create energy-absorbing crumple zones. Standard.

ParkView[®] Rear Back-Up Camera⁴

Provides a wide-angle view with dynamic grid lines on a colour touchscreen, aiding the driver when the vehicle is in Reverse. Standard.

Bi-function Halogen Projector Headlamps

Provide more controlled illumination for increased visibility. Standard.

Front-seat Reactive Head Restraints⁸

In the event of a rear collision, these restraints⁸ activate to help reduce injuries by minimizing the gap between the driver and front-passenger head restraints⁸ and the occupants' heads. Standard.

Tire Pressure Monitoring System

Gives crucial, pinpointed information on the Electronic Vehicle Information Centre (EVIC) at the moment any tire pressure falls below safe driving criteria. Standard.

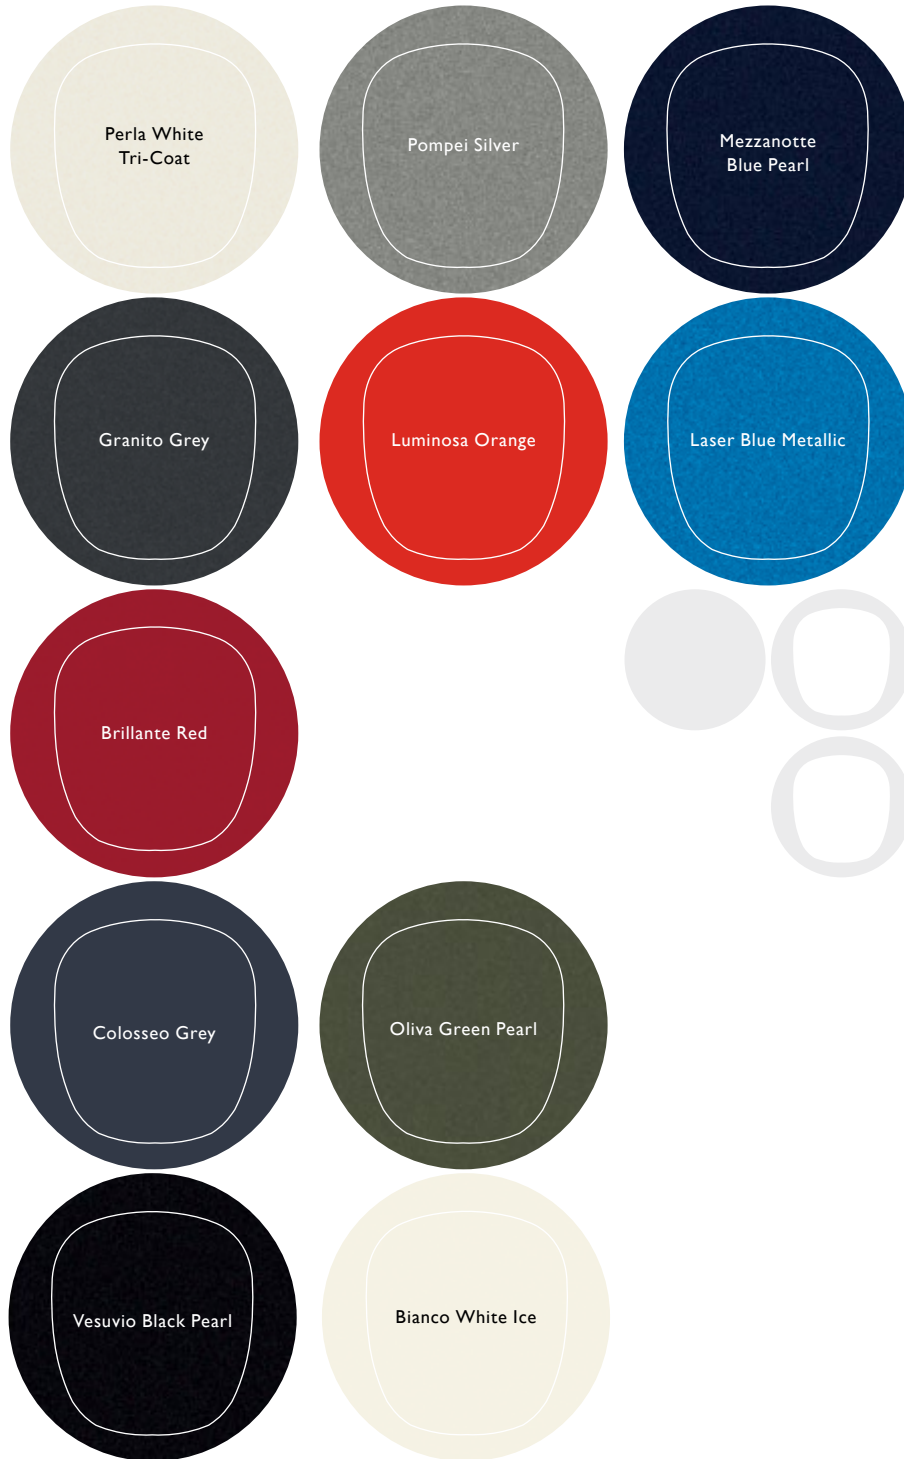

Remote Keyless Entry

Affords easy access by remotely locking and unlocking doors and turning on interior lamps. For vehicles equipped with the optional security alarm, this device also arms and disarms that system. Standard.

Sky-high possibilities

The original FIAT 124 Spider, with its Pininfarina design, was an immediate sensation as the 1967 European Car of the Year — and remains as fresh and relevant as it was over 50 years ago. Its advanced coil spring rear suspension, disc brakes and agile performance are partly why it remains a favourite among collectors.

Aggressively breezy

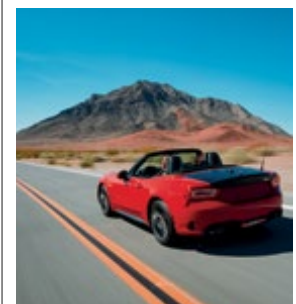

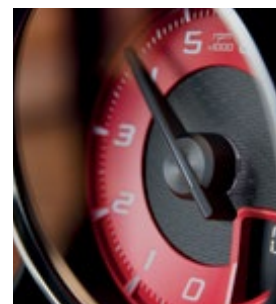

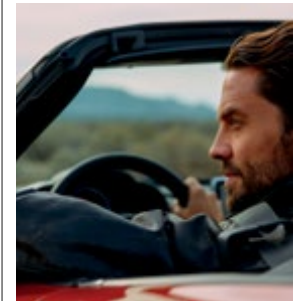

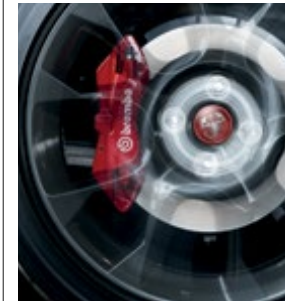

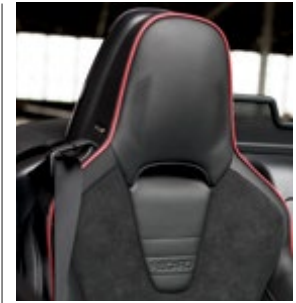

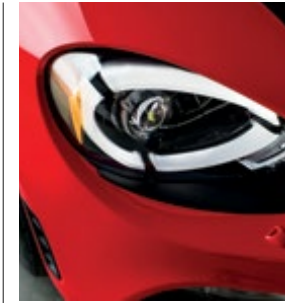

EXHILARATING
DÉJÀ VU

It's clear the latest FIAT® I24 Spider was created with the same passion for exquisite design as its popular predecessors. Abarth®-tuned performance features move the needle into thrilling territory, while a number of original I24 Spider design cues remind you this nimble roadster is truly a natural-born Spider.

I24 Spider Abarth shown in Chiaro Silver Metallic with optional Hand-Painted Heritage Racing Stripe by Mopar®

ABARTH REVEALS THE WILD SIDE
The FIAT I24 Spider is the ultimate model for true enthusiasts.

Whatever the demands of the day's course, FIAT Abarth amps things up with a mechanical limited-slip differential, Sport Mode Selector, available leather-faced RECARO® and Alcantara® seats, available Brembo® brakes, and Bilstein® selective damping shock absorbers. Finishing touches include a bright-tip quad exhaust, 17-inch Gun Metal aluminum wheels, Gun Metal roll bar covers, windshield surround and Matte Grey interior accents.

124 Spider Lusso shown with Saddle leather-faced seats

FIAT® 124 Spider manages to create what other roadsters can't: space to store things. In addition to generous trunk space, the meticulously designed interior offers refined materials, quality, available leather and Italian-inspired design.

124 Spider Lusso shown with Saddle leather-faced seats

Driving beats music

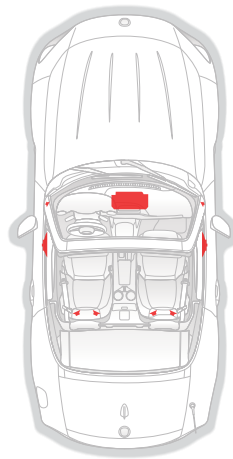

The available Bose® Audio System delivers premium audio clarity with nine speakers — including two Bluetooth® speakers located in each headrest. They work to deliver clear, detailed sound to both driver and passenger, while Bluetooth with Hands-free Communication lets you take phone calls and stream music so you can keep your hands on the wheel.²

With the FIAT Connect 7.0, you'll enjoy full access to the world at large via an advanced multimedia centre with a 7-inch full-colour display, multimedia control knob and MP3 player. The available SiriusXM satellite radio³ comes with a one-year subscription.

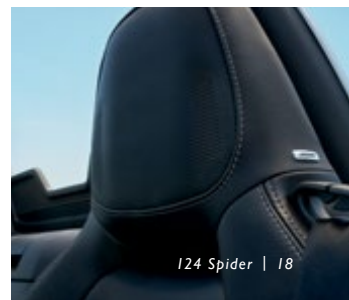

Stay fully plugged in and connected with two USB ports, an auxiliary input and the multimedia control knob.

The available GPS Navigation⁵ and standard ParkView® Rear Back-Up Camera⁴ help you keep your bearings straight.

Dual headrest speakers deliver music to both the driver and the passenger with headphone-style clarity and are available with the Bose Audio System.

turbo

Intelligently honed

Your reputation behind the wheel gets a boost — the short-throw shifting of the 6-speed manual transmission, Sport Mode Selector (only on Abarth), electric power steering system, electronic traction control and Electronic Stability Control¹ all make for tighter corners and thrilling straightaways.

Near-perfect 50/50 weight distribution, lines that compel your eyes to follow along, exquisite materials and fine finishes all contribute to the extraordinary, captivating appeal of the FIAT 124 Spider.

Get up and really go

The FIAT® 124 Spider is powered by a Class-Exclusive⁹ 1.4L MultiAir® Turbo four-cylinder engine with twin intercoolers that delivers up to 164 horsepower* and 184 lb-ft of torque. Bring out this engine's best performance with either the standard 6-speed manual transmission with short-throw shifting or the available 6-speed AISIN® automatic transmission.

Either way, the innovative 1.4L MultiAir Turbo engine serves up great mid-range torque for easy passing when you need it most — so you can enjoy a great ride no matter what lies ahead. For those times when the road isn't exactly smooth-sailing, the FIAT 124 Spider is equipped with a double-wishbone front and a multilink rear suspension that enhances steering response and handling.

*160 hp on FIAT 124 Spider Classica and Lusso models; 164 hp on Abarth® model.

Thoroughly reassured

Best route there

Special Edition
FIAT® 500X Urbana

Made in the shade

Throwing off an extra degree of cool, the FIAT 500X Urbana Edition sets itself apart with eye-catching accents and colours. Look for distinctive interior and exterior touches in Miron (Metallic Iron) Black and Copper, along with a choice of four dedicated colours — Grigio Moda (Graphite Grey), Vibrante Green Metallic, Bianco Gelato (White) and Nero Cinema (Black). Urbana returns the gaze with a wink from distinctive, automatic bi-function LED projector headlamps.

Control matters

The FIAT® Dynamic Selector puts three customized driving modes at your fingertips:

AUTO MODE is designed for the everyday, routine stuff — it will smooth things out to help optimize fuel efficiency, emissions and comfort.

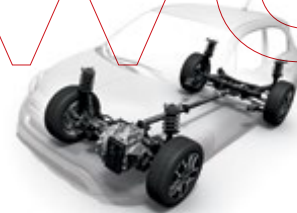

For those who'd prefer a little more road feel, a little more control, there's **SPORT MODE**. With it, the Electronic Stability Control (ESC)¹ and steering calibrations are tuned for a sportier feel and faster driving response. Additionally, SPORT MODE optimizes the transmission shift points for improved performance and accelerator feedback.

TRACTION+ MODE maximizes low-speed traction — the kind you need when things get a little slick or bumpy. It all works by providing additional wheel-slip through specially tuned chassis controls and a more direct engine response.

500X Trekking shown in Blue Sky Metallic
Properly secure all cargo.

awd

Confidence abounds

Every FIAT 500X comes equipped with the don't-think-twice-about-it confidence of All-Wheel Drive (AWD). This technologically advanced standard feature arms 500X drivers with an innovative drive system that brings unique functionality and improvements over conventional AWD systems. It works through a variable wet clutch located in the rear drive module. This clutch supplies the right amount of torque for whatever the weather, road or driver throws at it ... be it slippery conditions or an aggressive launch.

You could say it's a no-brainer; this is a system that requires no input from the driver when in Auto mode — all actions (including the AWD activation) are intelligently and seamlessly engaged based on conditions and driving style. While the system boasts leading traction management advances, it also works with the Electronic Stability Control (ESC)¹ system to improve dynamic handling.

The genius within

FIAT 500X knows when to fully engage its AWD; its secret is a disconnecting rear axle that automatically selects Front-Wheel Drive (FWD) or AWD based on various input when in Auto mode. It completely removes power to the rear axle when FWD performance is adequate during regular driving conditions.

In every FIAT® 500X, drivers will discover what is conspicuously missing: noise. Engineers have delivered superior torsional rigidity with advanced applications of Noise, Vibration and Harshness (NVH) controls to create the exceptionally quiet 500X cabin.

Designers took into account all the things we need and carry day-to-day and devised genius storage solutions to keep them stashed and organized. Case in point? A dual-portion glove box, a centre-console storage area, dual USB ports (charge- and data-capable) for front and back passengers, along with a 12-volt outlet.

SIRIUSXM SATELLITE RADIO³ Access to 150 channels offered on this available satellite radio, including news, commercial-free music, sports, talk and entertainment (one-year subscription included).

The ultimate concert hall: the FIAT 500X Trekking Plus, shown with premium leather-faced seats, is surrounded with a specially tuned, available BeatsAudioTM speaker configuration.

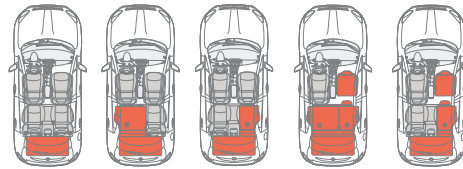

The available BeatsAudio Premium Sound System creates studio-quality sound just the way the artist intended. It features 8-channel performance with 506 watts of power, 8 speakers and a 6.5-inch subwoofer specifically tuned for the FIAT 500X.

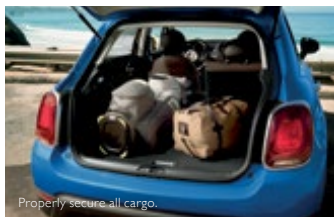

Configure it out

CAPACITY FOR FUN Super-flexible seating configurations mean your passengers get as much consideration as your belongings. Packing is practically effortless and incredibly efficient with 60/40 split-folding rear seats that welcome all the longer, wider and taller things you used to rule out.

NEW PERSPECTIVES An available dual-pane power sunroof broadens the view with a sliding panoramic panel. These glass panels match seamlessly with the body and work to create a wide, spacious feeling.

Stress-free zone

Electronic Stability Control (ESC)¹
This feature assists drivers in maintaining control of their vehicles during extreme steering manoeuvres. Standard.

Park-Sense[®] Rear Park Assist⁴
When the vehicle is in Reverse, these sensors help detect objects in the rear pathway, providing an audible and visual warning. Available.

Park-Sense Front Park Assist⁴
This system alerts the driver when objects come in close proximity in front of the vehicle. Available.

7 Air Bags⁶
Front-seat-mounted side, front and rear side, knee and advanced multistage front air bags⁶ all work together, providing protection. Standard.

Hill Start Assist
Maintains brake pressure during uphill stop/start moments to help prevent rollback — for a smooth start every time. Standard.

High-strength Steel
This innovative safety-cage body structure is made with high-strength steel to create energy-absorbing crumple zones. Standard.

Blind-Spot Monitoring⁴ with Rear Cross-Path Detection⁴
This feature will constantly monitor the space between you and other vehicles. When a side or rear blind-spot is encroached, this feature notifies you via illuminated icons on sideview mirrors. Available.

Lane Departure Warning with Lane Keep Assist⁴
Tracks the vehicle's lane position via mounted cameras. The system provides a visual warning and corrective steering input. Available.

Full-Speed Forward Collision Warning with Active Braking⁴
Uses radar sensors to help detect when you may be approaching another vehicle too rapidly. Sends audible and visual alerts and provides limited braking. Available.

ParkView[®] Rear Back-Up Camera⁴
Provides a wide-angle view with dynamic grid lines on a colour touchscreen, aiding the driver when the vehicle is in Reverse. Standard.

Adaptive Cruise Control⁴
This system automatically adjusts highway cruising speed to help maintain a preset distance between you and the vehicle ahead. Available.

- Black-painted instrument panel
- Exterior colour choice of Verde Bosca Perla (Forest Green Pearl), Bronzo Metallizzato (Bronze Metallic), Bianco (White), Grigio Scuro (Grey Metallic) and Nero (Black).

Fitting praise

FLEXIBLE PLANS

Multiple seating configurations — 54 in all — allow 500L to accommodate whatever you have in store for the day. With up to 2,775 L (98 cu ft) total interior volume, packing is practically effortless and incredibly efficient thanks to 60/40 split-folding rear seats with the Tilt, Tumble & Slide function. You can recline seatbacks to the preferred angle, create legroom by sliding seats and add cargo space with the tumbling action.

FLOATING ROOF DESIGN

The 500L owes much of its roomy, open entertaining space to its unique roof design. The roof is available in body-colour, Black or White colour options.

500L Trekking shown in Giallo

500L Trekking shown in Blue Tornado

A SUPERIOR OUTLOOK WITH 360° VIEWS

FIAT® 500L builds on traditional FIAT cues with a small-wide architecture that is the foundation for the vehicle's open, loft-like interior. It features glass-framed pillars that support its expansive dual-pane power sunroof — a "floating" roof that provides spectacular 360-degree views.

REFLECTING INWARD

500L creates a soothing atmosphere by offering up luxurious amenities, as demonstrated by the Lounge model interior (right), with premium leather-faced seats shown in Carrera Grey.

TECHNOLOGY THAT'S BEYOND

SAFETY AND SECURITY

Focus:

Safety

Security

Electronic Stability Control (ESC)¹

This feature assists drivers in maintaining control of their vehicles during extreme steering manoeuvres. Standard.

Park-Sense[®] Rear Park Assist⁴

When the vehicle is in Reverse, these sensors help detect objects in the rear pathway, providing an audible and visual warning. Available.

7 Air Bags⁶

Front-seat-mounted side, front and rear side, knee and advanced multistage front air bags⁶ all work together, providing protection. Standard.

Hill Start Assist

Maintains brake pressure during uphill stop/start moments to help prevent rollback — for a smooth start every time. Standard.

High-strength Steel

This innovative safety-cage body structure is made with high-strength steel to create energy-absorbing crumple zones. Standard.

ParkView[®] Rear Back-Up Camera⁴

Provides a wide-angle view with dynamic grid lines on a colour touchscreen, aiding the driver when the vehicle is in Reverse. Standard.

Bi-function Halogen Projector Headlamps

Provide more controlled illumination for increased visibility. Standard.

Front-seat Active Head Restraints⁸

In the event of a rear collision, these restraints⁸ activate to help reduce injuries by minimizing the gap between the driver and front-passenger head restraints⁸ and the occupants' heads. Standard.

Tire Pressure Monitoring System

Gives crucial, pinpointed information in the Electronic Vehicle Information Centre (EVIC) at the moment any tire pressure falls below safe driving criteria. Standard.

Remote Keyless Entry

Affords easy access by remotely locking and unlocking doors and turning on interior lamps. For vehicles equipped with the standard security alarm, this device also arms and disarms that system. Standard.

*Selections may not be available on all trim levels/models and may be limited/restricted based on availability.

(1) No system can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behaviour to prevailing road conditions. (2) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Voice commands of phone require a Bluetooth-compatible phone. (3) Requires SiriusXM radio subscriptions governed by SIRIUS terms and conditions available at siriusxm.ca. (4) This is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of his/her surroundings and be prepared to take corrective action to avoid collisions. (5) Never program while driving. GPS mapping and available 3D navigation may not be detailed or available in all areas or reflect current road regulations. (6) The Advanced Front Air Bags in this vehicle are certified to the federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (7) Based on *EnerGuide* highway fuel consumption ratings and fuel tank options. Government of Canada test methods used. Your actual fuel consumption will vary based on driving habits and other factors. Ask your retailer for *EnerGuide* information. 7.0 L/100 km (40 mpg) highway and 8.4 L/100 km (34 mpg) city on FIAT 500 models equipped with the 1.4L Turbo engine and 5-speed manual transmission. Miles per gallon (mpg) ratings based on imperial gallon. (8) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. (9) Based on two-seat roadsters in *WardsAuto* Small Specialty segmentation (Nissan 370Z and Mazda MX-5). (10) Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice controls, when it is safe to do so. Apple CarPlay requires a compatible iPhone connected via USB cable to the Uconnect system. Android Auto requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 (Lollipop) or higher. Data plan rates may apply. (11) Only available with automatic transmissions. (12) Not compatible with all garage door openers.
