

*THIS
RIDE
WAS
MEANT
TO BE
SHARED*

FIAT® 500X WILL UNDOUBTEDLY USE ITS ITALIAN CHARM TO WIN OVER YOUR FRIENDS AND FAMILY ALIKE — AND WITH FOUR DOORS AND PLENTY OF ROOM FOR FIVE, IT HAS THE WHEREWITHAL TO INVITE THEM ALONG. IN ALL, THE 500X WILL GO BEYOND BEING A GREAT VEHICLE TO DRIVE, IT WILL BECOME A TRUSTED COMPANION.

CROSSOVERS DONE RIGHT

THE FIAT® 500X
MODELS CATER
TO EVERY
OF DRIVE

The environments, both inside and outside the FIAT® 500X, are wide and varied. Personal driving style is encouraged with a generous mix of exterior colors, accessories and interiors. An available dual-pane power sunroof with a sliding front panel creates a wide, spacious feeling. This is a vehicle that is meant to transport people — and move them, as well.

*ITS X-FACTOR?
FOUR DOORS
AND INNOVATIVE
ALL-WHEEL DRIVE
(AWD)* FROM FIAT.®*

FIAT 500X Pop shown in Giallo Tristrato. *AWD is an available option on all models.

The FIAT® 500X is well-equipped to impress with a range of standard and optional amenities. The available dual-pane power sunroof with a sliding panoramic panel creates a wide, spacious feeling. Uconnect® systems and the available BeatsAudio™ Premium Sound System make the most of those unique 500X acoustics — and allow for a number of voice-activated multi-tasks like phone calls, messaging, navigation and more.

*PLAY
ROOM*

FIAT 500X Trekking shown in Giallo Tristrato.

Not only is 500X the first FIAT® vehicle to offer the confidence of available All-Wheel Drive (AWD), its drive system brings unique functionality and improvements over conventional AWD systems. While in Auto mode, the 500X features a disconnecting rear axle that helps to improve fuel efficiency by automatically selecting Front-Wheel Drive (FWD) or AWD when necessary. It completely removes power to the rear axle when FWD performance is adequate during regular driving conditions.

This is a system that requires no input from the driver — all actions (including the AWD activation) are intelligently and seamlessly engaged based on conditions and driving style. And while the system boasts leading traction management advances, it also works to improve dynamic handling. This is how 500X turns good drivers into great drivers.

AWD

*THANKS TO ITS
AWD* SKILLS AND
THE EVOLVED
FIAT® DNA, EVERY
500X RIDE IS
SUPER CHILL.*

FIAT 500X Trekking shown in Rosso Passione with optional Mopar® Adventure Package and Mopar Roof-Mount Ski and Snowboard Carrier. *AWD is an available option on all models. Properly secure all cargo.

*WITH FIAT®
MULTIAIR® TURBO
ENGINES AND
500X, IT'S ALL
DOWNHILL — IN
THE VERY BEST
WAY POSSIBLE.*

1.4-LITER MULTIAIR TURBO ENGINE

FIAT 500X offers two extraordinary engine options, starting with the 1.4-liter MultiAir Turbo four-cylinder that comes standard on Pop Front-Wheel Drive (FWD) models. Paired with a six-speed manual transmission, this powerplant generates 160 horsepower and 184 lb-ft of torque — giving Pop a snappy performance true to its name.

2.4-LITER TIGERSHARK® MULTIAIR2 ENGINE

The 2.4-liter Tigershark I-4 engine with MultiAir2 utilizes electrohydraulic Variable Valve Timing and variable valve lift technology, producing 180 horsepower and 175 lb-ft of torque. This sophisticated technology has been widely praised as breakthrough for its segment. Available on Pop FWD and standard on Pop All-Wheel Drive (AWD), Trekking and Lounge models.

THE 500X NINE-SPEED TRANSMISSION

Pairing the Tigershark with a nine-speed transmission creates a dynamic duo that optimizes engine output, so you can look forward to fast, assertive launches and smooth, power-when-you-need-it delivery on the highway.

500X knows the real world doesn't always cooperate in bringing you ideal driving conditions. So, the available All-Wheel Drive includes the FIAT Dynamic Selector, which puts three customized driving modes at your fingertips. The basic **AUTO MODE** is designed for the everyday, routine stuff — it will smooth things out to help optimize fuel efficiency, emissions and comfort.

For those who'd prefer a little more road-feel, a little more control, the FIAT Dynamic Selector has your number with the **SPORT MODE**. With it, the Electronic Stability Control⁷ and steering calibrations are tuned for a sportier feel and faster driving response. Additionally, the **500X SPORT MODE** optimizes the transmission shift points for improved performance and accelerator feel.

Driving outside the lines? The **TRACTION+ MODE** maximizes low-speed traction — the kind you need when things get a little slick or bumpy. It all works by providing additional wheel-slip through specially tuned chassis controls and a more direct engine response.

*THE APTLY NAMED
FIAT® DYNAMIC
SELECTOR ROLLS
WITH ANYTHING
YOUR TRIP
THROWS AT YOU.*

Get More with Mopar®

Let Mopar help you stay organized, even on the most spontaneous adventures. From a comprehensive Cargo Management System to equipment racks and carriers, Mopar has created unique storage solutions and accessories to enhance your lifestyle. See a complete listing of available accessories at Mopar.com

Adventure brings great discovery, and the more you do, the more you'll come to appreciate FIAT® 500X for its versatility and accommodating manner. Go ahead, bring a few more bags — the efficiency and utility of its interior almost magically make room for just about any packing scenario. Its large rear cargo area, available height-adjustable rear cargo floor, 60/40 split-folding rear seats and a fold-forward front-passenger seat welcome all the longer, wider and taller things you once said “forget it” to.

ITS ENDLESS CAPACITY FOR FUN COMES FROM ULTRA-FLEXIBLE SEATING AND STORAGE.

Designers also took into account all the things we need and carry day-to-day, and devised genius storage solutions to keep them stashed and organized. A dual glove box with a lower portion and a center-console storage area that houses a dual-remote USB port (charge only) and 12-volt outlet are just a couple of convenient features.

Vehicle shown with Mopar Bright Black Diamond-Cut Wheels and Roof-Mount Ski and Snowboard Carrier (mounts to the Removable® Crossbars, and Roof Side Rails, sold separately).

SIRIUSXM® SATELLITE RADIO⁵
You get every channel offered on this available satellite radio, including news, commercial-free music, sports, talk and entertainment. Plus listen wherever you go on your portable devices with the SiriusXM app⁵ (one-year trial subscription included).

APPLE CARPLAY™¹
A smarter, safer way to use an iPhone® inside your vehicle and seamlessly integrate it with the Uconnect® touchscreen and Siri®⁹ voice control. You can make calls, access music, send and receive messages,¹⁰ get directions optimized for traffic conditions and more while staying focused on the road.

ANDROID AUTO™²
Automatically provides a safer way to use Android while driving, sharing information while you easily access the best of Google: Maps with voice-guided navigation and Play Music; place phone calls or send and receive messages,¹⁰ and ask Google Search any question by voice command.⁴

FIAT® 500X NOT ONLY TAKES YOU AROUND THE GLOBE, IT BRINGS THE WORLD TO YOU, AS WELL.

Uconnect®

With the next generation of Uconnect® systems, your FIAT 500X becomes more than just a mode of transportation — it's your portal to the world. Large 7-inch touchscreens and intuitive hands-free⁴ technologies deliver essential information and entertainment while keeping you focused on driving. The systems offer a wide range of services: radio, phone, messaging, navigation, Integrated Voice Command⁴ with Bluetooth® and more. Listen to and/or charge media players, iPods®, iPhones® and smartphones.

FIAT knows how to deliver world-class acoustics with the superior sounds generated by the available BeatsAudio™ Premium Sound System by Dr. Dre. Get studio-quality sound, just the way the artist intended. Features eight-channel performance with 506 watts of power, eight speakers and a 6.5-inch subwoofer specifically tuned for the 500X.

Features that foster true peak performance.

FIAT approaches safety and security from every angle. Here are some of the advanced features that will offer peace of mind:

FULL-SPEED FORWARD COLLISION WARNING WITH ACTIVE BRAKING¹⁴ uses a radar sensor to detect when the driver may be approaching another vehicle too rapidly. This active safety feature sends an audible and visual alert to the driver and provides limited braking if the driver does not react in time. Available.

LANESENSE® LANE DEPARTURE WARNING WITH LANE KEEP ASSIST¹⁵ tracks the vehicle's lane position via a mounted camera. If the system detects the driver is drifting outside the lane boundaries, the system can provide a visual warning, as well as a corrective steering input, to encourage the driver to keep within lane boundaries. Available.

BLIND SPOT MONITORING¹³ AND REAR CROSS-PATH DETECTION³ will constantly monitor the space between you and other vehicles. When a side or rear blind spot is encroached, these features notify you via illuminated icons on sideview mirrors and an audible chime. Rear Cross-Path Detection³ is activated any time the vehicle is in Reverse. Available.

ELECTRONIC STABILITY CONTROL (ESC)⁷ is designed to assist drivers in maintaining control of their vehicles during extreme steering maneuvers. ESC⁷ senses when a vehicle is starting to spin (oversteer) or plow (understeer) and attempts to correct the vehicle's course by automatically controlling the throttle and applying the brakes to individual wheels. Standard.

PARKVIEW® REAR BACK-UP CAMERA³ provides a wide-angle view of the area immediately behind the vehicle, giving the driver greater peace of mind before moving backwards at low speeds. It displays dynamic grid lines on a color touchscreen to aid the driver when the vehicle is in Reverse. Standard.

PARKSENSE® REAR PARK ASSIST SYSTEM³ can help you park and back out with grace. When the vehicle is in Reverse, available sensors detect objects in the rear back-up pathway and also provide an audible and visual warning so you have time to react. Available.

SEVEN STANDARD AIR BAGS¹² are in every 500X model, surrounding you with a comprehensive air bag¹² system. It features full-length front and rear side-curtain, driver's inflatable knee blocker, seat-mounted side for front occupants, and advanced multistage driver and front-passenger air bags;¹² all working together to help provide encompassing protection. Standard.

ELECTRONIC ROLL MITIGATION (ERM) employs ESC⁷ sensors to anticipate potential risk situations and takes immediate action to help you maintain stability and remain under control. Standard.

HILL START ASSIST maintains brake pressure during the moments the driver lifts the foot off the brake and engages the clutch or gas pedal to gain forward momentum — for a smooth start every time. Standard.

CORNERING FOG LAMPS are activated on the appropriate side of the car with a turn signal or steering-wheel turn — to help drivers spot potentially hazardous objects sooner than with conventional lights. It's how to shed a little more light on some very important subjects. Available.

TIRE PRESSURE MONITORING SYSTEM This feature takes the guesswork out of deciding if your tires are at optimum fill level. It provides crucial, pinpointed information on your Electronic Vehicle Information Center (EVIC) at the moment any tire pressure falls below the safe driving level. Standard.

KEYLESS ENTER 'N GO™ This feature allows you to lock and unlock the vehicle's door(s) and liftgate without having to push the Key Fob LOCK or UNLOCK buttons — the fob simply needs to be within five feet of the door. Also, start and stop the vehicle with a push of the dedicated button on the dash. Available.

REMOTE START SYSTEM⁶ conveniently starts the engine from outside the vehicle (with a range of at least 300 feet) while maintaining security. The system also activates the Climate Control and (if equipped) the optional heated seats and heated steering wheel depending on temperatures outside and inside the car. Available.

ELECTRONIC PARK BRAKE puts a parking brake switch in the center console and offers five modes of operation: static apply and release, dynamic apply, drive away release, auto apply, and safe hold. Standard.

HOW TO LIVE LARGE IN A CROWDED WORLD

THE NEWLY REDESIGNED FIAT® 500L KNOWS HOW TO MAKE THE MOST OF THE MOMENT — ITS ACCOMMODATING FOUR DOORS, FLEXIBLE SEATING DESIGN AND ROOMY INTERIOR ARE NOW EVEN MORE INVITING FOR FAMILY AND FRIENDS. THE 500L MAGICALLY MIXES THIS SPACIOUSNESS WITH EXCEPTIONAL PEP AND AGILITY, THANKS TO ITS UNIQUE, URBAN-FRIENDLY PROPORTIONS.

The image shows the interior of a Fiat 500L Trekking. The view is from the driver's side looking towards the passenger side. The car has a light-colored interior with black leather seats. The seats have the '500' logo embroidered on the headrests. A large sunroof is visible on the roof. The text 'SPACIOUSLY NIMBLE' is written in a large, white, serif font in the upper right corner.

SPACIOUSLY NIMBLE

FIAT® 500L offers up 68 cubic feet of maximum cargo volume (with the rear seats tumbled forward) and 98.8 cubic feet of total interior volume – so you can bring everything and everyone you want on your latest adventure. Its super-versatile “floating” roof design helps create its signature spacious feeling, and is available in body-color, Black, or White color options. Let the sky in on your trip with the available dual-pane power sunroof with sunshade.

FIAT® 500L Trekking shown with Black premium leather seats.

Get More with Mopar®

With the authentic accessories offered by Mopar, you can personalize your FIAT® 500L even more. Choose from bodyside, hood and roof graphics, equipment carriers, protective covers, storage systems and more. Each accessory has been created to make your ride work better for you. See a complete listing of available accessories at Mopar.com

*FIAT® 500L
GIVES YOU THE
POWER TO
GO WITH
YOUR IMPULSES.*

FIAT 500L keeps everyone entertained with innovative amenities and a peppy driving style, powered by the award-winning and innovative 1.4L I6V MultiAir® Turbo engine that delivers 160 horsepower and 184 lb-ft of torque. Its 6-speed automatic transmission with AutoStick delivers fast upshifts and corner-conquering downshifts. With its unique, effortless Italian style and hundreds of available options, the 500L will not only fit your day-to-day cargo — it will accommodate your spontaneous side, too.

FIAT® 500L Trekking shown in Giallo with Roof-Mount and Surf and Paddle Board Carrier (mounts to the Removable® Cross Bars, sold separately). Properly secure all cargo.

Super-flexible seating configurations mean your passengers get as much consideration as your belongings. Packing is practically effortless and incredibly efficient with 60/40 split-folding seats and the Tilt, Tumble & Slide function. Of course, your companions will be the ones to rave about the room.

Paying homage to a long history of FIAT® innovation and original solutions to spatial design, the 500L builds on traditional FIAT cues with its small-wide architecture. This is the foundation for the vehicle's open, loft-like interior featuring glass-framed A- and D-pillars that support one of the largest sunroofs around — a “floating” roof that provides spectacular 360-degree views.

FIAT 500L Trekking shown in Blue Tornado.

SIRIUSXM® SATELLITE RADIO⁵

You get every channel offered on this available satellite radio, including news, commercial-free music, sports, talk and entertainment. Plus listen wherever you go on your portable devices with the SiriusXM app⁵ (one-year trial subscription included). Enrich your travel experience with available SiriusXM Travel Link⁵ and SiriusXM Traffic Plus⁵ (5-year plans included): hear about the latest weather, gas prices, movie listings and detailed traffic stats.

APPLE CARPLAY™¹

A smarter, safer way to use an iPhone® inside your vehicle and seamlessly integrate it with the Uconnect® touchscreen and Siri®⁹ voice control. You can make calls, access music, send and receive messages,¹⁰ get directions optimized for traffic conditions and more while staying focused on the road.

ANDROID AUTO™¹²

Automatically provides a safer way to use Android while driving, sharing information while you easily access the best of Google: Maps with voice-guided navigation and Play Music; place phone calls or send and receive messages,¹⁰ and ask Google Search any question by voice command.⁴

*ITS INTERIOR
OFFERS 360°
VIEWS WHILE
TECH-Y FEATURES
GIVE YOU EVEN
MORE INSIGHT.*

Uconnect®

FIAT® 500L features the next-generation Uconnect® 4 along with the available Uconnect 4 NAV, both with a 7-inch touchscreen display and the Integrated Voice Command⁴ with Bluetooth® Plus, Android Auto™¹² smartphone capability and Apple CarPlay™¹ integration offer seamless connectivity with your personal device. The Uconnect 4 NAV features GPS navigation with intuitive map graphics, a 5-year subscription to SiriusXM® Traffic Plus⁵ and SiriusXM Travel Link⁵ and a 1-year subscription to SiriusXM Satellite Radio⁵. Enjoy hands-free⁴ calling with your Bluetooth-enabled phone, streaming audio and text message delivery.¹⁰ They all work to enhance awareness of what's going on inside and out. For tunes, the available BeatsAudio™ Premium Sound System brings its audio expertise to enhance the 500L experience. All because FIAT 500L knows the little things really are a big deal after all.

FIAT® 500L Exterior and Roof Colors*

Hues that say “arrivederci” to boring.

*Not all exterior colors are available on all trim levels — please consult with a representative at your local FIAT dealer for complete details.
 †Packaged with Urbana Appearance Package on Trekking models.

PARKVIEW® REAR BACK-UP CAMERA³

PARKSENSE® REAR PARK ASSIST SYSTEM³

ELECTRONIC STABILITY CONTROL (ESC)⁷

ON GUARD

- Seven Standard Air Bags¹²
- Electronic Roll Mitigation
 - Hill Start Assist
 - Remote Keyless Entry

Here are just some of the advanced features that will offer peace of mind:

PARKVIEW® REAR BACK-UP CAMERA³ provides a wide-angle view of the area immediately behind the vehicle, giving the driver greater peace of mind before moving backwards at low speeds. It displays dynamic grid lines on a color touchscreen to aid the driver when the vehicle is in Reverse. Standard.

PARKSENSE® REAR PARK ASSIST SYSTEM³ can help you park and back out with grace. When the vehicle is in Reverse, these sensors detect objects in the rear back-up pathway and also provide an audible and visual warning so you have time to react. Available.

SEVEN STANDARD AIR BAGS¹² surround you with a comprehensive air bag¹² system. It features full-length front and rear side-curtain, driver's inflatable knee blocker, seat-mounted side for front occupants, and advanced multistage driver and front-passenger air bags,¹² all working together to help provide encompassing protection. Standard.

ACTIVE HEAD RESTRAINTS¹¹ Head restraints are standard features designed to reduce the risk of injury by restricting head movement in the event of a rear impact. Head restraints should be adjusted so that the top of the head restraint is located above the top of your ear. Standard.

ELECTRONIC STABILITY CONTROL (ESC)⁷ is designed to assist drivers in maintaining control of their vehicles during extreme steering maneuvers. ESC⁷ senses when a vehicle is starting to spin (oversteer) or plow (understeer) and attempts to correct the vehicle's course by automatically controlling the throttle and applying the brakes to individual wheels. Standard.

ELECTRONIC ROLL MITIGATION (ERM) employs ESC⁷ sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help you maintain stability and remain under control. Standard.

HILL START ASSIST Especially helpful when the grades are steep, this feature maintains brake pressure during the moments the driver lifts the foot off the brake and engages the gas pedal to gain forward momentum — for a smooth start every time. Standard.

REMOTE KEYLESS ENTRY This feature allows you to lock and unlock the vehicle's door(s) and liftgate by pressing and releasing the Remote Keyless Entry transmitter fob LOCK or UNLOCK buttons — from distances of up to 66 feet. The turn signal lights will flash to acknowledge the unlock, the horn will chirp when locked. Standard.

TIRE PRESSURE MONITORING SYSTEM This feature takes the guesswork out of deciding if your tires are at optimum fill level. It provides crucial, pinpointed information on your Electronic Vehicle Information Center (EVIC) at the moment tire pressure falls below the safe driving level on any tire. Standard.

(1) Apple CarPlay uses your smartphone's data plan. Additional charges may apply. To use Apple CarPlay, you must be in an area with cellular coverage. (2) Android Auto uses your smartphone's data plan. Additional charges may apply. To use Android Auto, you must be in an area with cellular coverage. Requires the Android Auto app on Google Play and an Android-compatible smartphone running Android 5.0 Lollipop or higher. (3) Always look before proceeding. An electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. (4) Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit UconnectPhone.com for system and device compatibility. (5) SiriusXM audio and data services each require a subscription sold separately or as a package by SiriusXM Radio Inc. Your SiriusXM service will automatically stop at the end of your trial unless you decide to subscribe. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Not all vehicles or devices are capable of receiving all services offered by SiriusXM. Current information and features may not be available in all locations or on all receivers. (6) Remote Vehicle Start not available on all vehicles. You are responsible for using remote features in accordance with any laws, rules or ordinances in effect wherever you operate your vehicle. (7) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (8) Be sure to follow all instructions in Owner's Manual for removal of top and doors, and lowering of windshield. Driving with doors off and windshield down is for off-road use only. (9) Siri Eyes Free requires an iPhone equipped with Siri. Certain features not available while the vehicle is in motion. iPhone must be within active cellular range. Customer's existing iPhone data rates apply to Internet-supported features. (10) Voice Text Reply and Voice Texting features require a compatible mobile device enabled with Bluetooth Message Access Profile (MAP). iPhone and some other smartphones do not currently support Bluetooth MAP. Visit www.UconnectPhone.com for system and device compatibility. Ensure MAP is ON and incoming message notification is enabled. Vehicle must be registered for Uconnect Access and you must fulfill minimum subscription requirements. Also requires the use of a compatible smartphone that supports text messaging and Bluetooth. Check UconnectPhone.com for device compatibility. (11) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint. (12) The Advanced Front Air Bags in this vehicle are certified to the new U.S. Federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (13) Always check visually for vehicles prior to changing lanes. (14) This system is not intended to avoid collisions on its own, nor can FCW detect every type of potential crash. The driver must remain aware of traffic conditions and be prepared to brake and steer to avoid potential collisions at all times. (15) This system is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and maintain control of the vehicle. (16) Transferable. See dealer for details and a copy of the limited warranty. Includes towing to an authorized dealer.
