HOW TO FIGURE PARCEL POST

To find your zone, determine the distance you are from Houston, and use the zone covered by this distance.

If you do not know your distance from Houston, phone your local post office to determine the zone in which you are located.

Add up the weights of the articles selected.

Refer to the chart at the left to determine your postage.

Add in the amount of the Insurance Fee as per the chart below.

(Example: If you are in Zone 3 and your purchase totals 15 lbs. in weight, and \$46.50 in amount, the postage is \$1.65 and the insurance fee is 30¢, so the total amount to send is the \$46.50, plus \$1.95, or a total of \$48.45.)

NOTE: THE MINIMUM MAILING FEE IS 75c FOR HANDLING, MAILING AND INSURANCE.

ITEMS ILLUSTRATED THAT DO NOT SHOW SHIPPING WEIGHT, WEIGH LESS THAN ONE (1) POUND. USE MINIMUM MAILING FEE OF 75c FOR THESE ITEMS.

You may order as many items as you desire for only one 75c mailing charge in the following classifications only:

Rings	Pens and Pencils
Watches	Lighters
All Ladies' and Men's Jewelry	Billfolds

INSURANCE FEE

All parcel post shipments are insured. Determine your fee as follows:

Value up to \$15.00	20c
Value \$15.01 to \$50.00	30c
Value \$50.01 to \$100.00	40c
Value \$100.01 to \$150.00	50c
Value \$150.01 to \$200.00	60c

The MAXIMUM WEIGHT of parcel post packages to first class offices in Zones 1 thru 7 is 40 pounds, and the maximum size is 84 inches in length and girth combined.

For second, third, or fourth class post offices, a parcel may weigh 70 pounds, with the maximum size not to exceed 100 inches in length and girth combined.

PARCEL POST C.O.D. FEE

Where you desire to have shipment made to you on C.O.D. basis, the following C.O.D. fees in addition to the shipping charges will be added to your shipment:

Up to \$10.00	70c
From \$10.01 to \$25.00	80c
From \$25.01 to \$50.00	90c
From \$50.01 to \$100.00	\$1.00
From \$100.01 to \$200.00	\$1.10

An additional money order fee is collected upon delivery.

RAILWAY EXPRESS INFORMATION

Certain items in this catalog are indicated to be shipped via Railway Express only. Express is the fastest way to ship merchandise, where it cannot be shipped via Parcel Post.

EXPRESS CHARGES — It is easy to estimate express charges. Find your zone, determine the distance you are from Houston, and refer to the Express Chart at the left.

(Example: If you are 280 miles (Zone 3) from Houston, and the merchandise you are ordering weighs 25 lbs., the approximate express charge would be \$8.05.)

Railway Express charges include insurance up to \$50.00. There is a charge of 30¢ for each additional \$100.00 valuation over the first \$50.00.

EXPRESS COLLECT — All express orders will be shipped "express charges collect," unless you specify "prepaid" and include the charges with your remittance.

EXPRESS SERVICE — Make sure your town is served by a Railway Express Agency before requesting express shipment of your orders. Be sure to include complete street address and number. Railway Express cannot deliver to a Post Office Box Number.

Whenever possible to make shipments to you for less than the amount you send with your order, due to our being able to ship heavy items by motor freight, or for any other reason, the difference will be refunded to you.

This catalogue is our earnest endeavor to show a representative assortment of merchandise. Obviously, it is impossible to illustrate all of the many and varied items in our extensive stock. We suggest that you visit our showrooms or contact us regarding any of your needs which do not appear in the limited space of this catalogue.

Diamond Classifications

Our Diamonds are carefully selected and much time and care put into the examination of these gems before purchasing. Our large diamond business is the result of the confidence of thousands of satisfied customers. Remember, weight only does not determine values. Each of the following factors — cutting, color, perfection — has an equal effect on the value of a diamond. Deviation from the finest in any category will create a significant decrease in value, regardless of size or weight.

Cutting

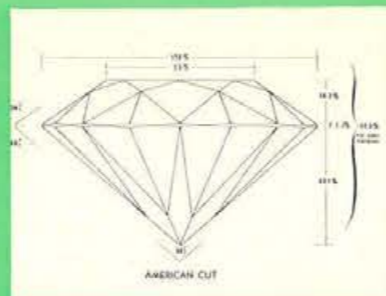

The degree of brilliance of a diamond is determined by the excellence of its proportions and the quality of cutting. A correctly proportioned diamond should have 2/5ths of its weight above the girdle and 3/5ths below. A properly proportioned diamond has maximum brilliance over its entire surface.

Color

There is a wide range of color from finest colorless to fine white, white, yellow, and brown.

Perfection

The degree of perfection is a major factor in determining the value of a diamond. Some imperfections in diamonds can be seen by the naked eye; others can be seen only under strong magnification. A flawless diamond (often referred to and described by most jewelers as "perfect") is one without any imperfections whatsoever; that is, none that can be seen by a trained expert using a powerful magnifying glass (10X magnification).

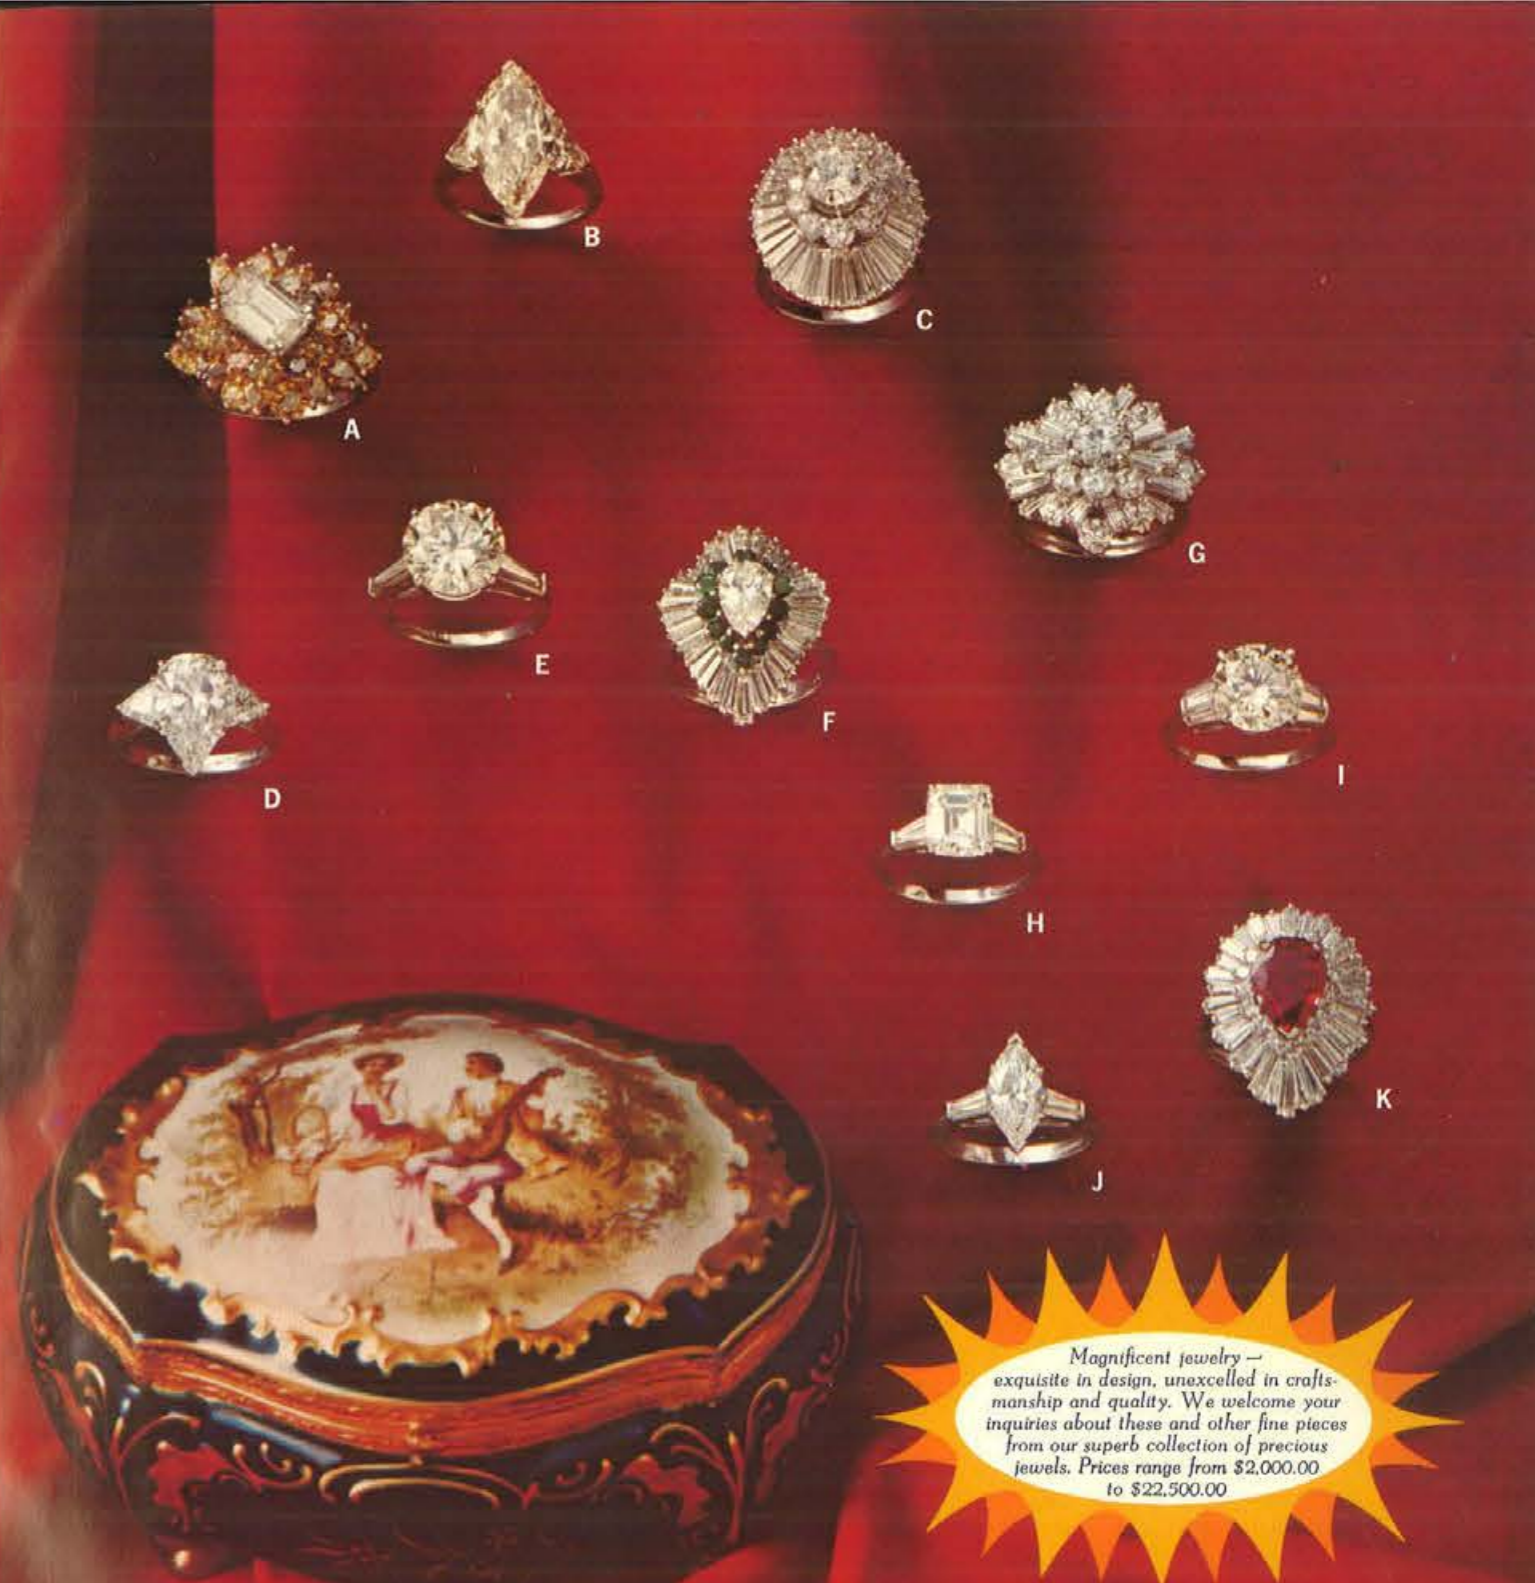

Grading of Diamonds Illustrated in Catalog	
AAA-1	<p>Identifies extra fine quality and colorless. This grade is so fine that even under ten-power magnification it is very difficult for anyone except a diamond expert to detect the faintest type of imperfection. Proportions and quality of cutting are exceptional . . . resulting in the greatest beauty and brilliance possible. This grade is often sold for perfect or flawless.</p>
AAA	<p>Identifies extra fine quality and color . . . equal to the AAA-1 Grade in every respect except in a slight degree of color. This grade under ten-power magnification reveals the faintest of flaws if critically examined. In appearance it is the equal of the finest diamond.</p>
AA	<p>Identifies fine color diamonds of slightly less perfection than Grade AAA. The two, or three, very small flaws in most cases can be seen only under a jeweler's magnifying glass. This grade of diamonds is especially appealing to those desiring a larger stone with very little sacrifice in beauty and brilliancy.</p>
A	<p>Identifies diamonds of fairly nice quality and color. This grade has flaws, visible to the naked eye if closely examined. The quality of cutting and brilliancy is of a slight degree under AA grade.</p>

BEWARE OF MISREPRESENTATION The term "perfectly cut" does not apply to the perfection of a diamond. It describes the cutting only, and is therefore misleading if used to infer quality. Do not be misled.

The 'Linde' Star has essentially the same chemical and physical properties of the natural gem and practically the same degree of beauty, at a fraction of the price of the natural stone. It is as hard and timeless as its natural counterpart and possesses a beauty unlike anything you have ever owned. Its six white sharp rays are visible from both top and sides.
We use only genuine 'Linde' Stars, unconditionally guaranteed.

Fabulous Replica Gems

From industry's space-age laboratories has come "YAG" (Yttrium-Aluminum Garnet). The most advanced synthetic material now used in fine jewelry. A by-product of laser-beam research, YAG has the hardness — the brilliance — the beauty of precious gems — at a price everyone can afford. These stones are of the finest cut and make which gives them maximum brilliancy and they more realistically resemble a genuine diamond.

Prices are subject to slight variation depending on weight.

Due to the heavy weight of YAG; in appearance, any YAG stone weighs approximately 30% more than a diamond of the same dimension. Example — 2.00 carat YAG has the appearance in size of an approximate 1.40 carat diamond.

SQUARE SHOOTER 2

THE GOOD TIME CAMERA

- Lowest-priced, all purpose color camera ever offered by Polaroid
- Electric eye, electronic shutter
- Uses Polaroid's Inexpensive Color Film

POLAROID'S NEW SQUARE SHOOTER 2. Valued-priced 60-second color only camera brings everyone the good times. Gives instant color pictures for about the same cost as pictures you wait days to see from the film factory. That's because it takes Polaroid's square 3 1/4" x 3 3/8" pictures which cost up to 25% less than Polaroid's big rectangular ones. Fine quality features include electric eye and electronic shutter for automatic exposure control, triplet lens for sharp pictures, easy-to-use rangefinder to determine distance for most shots. Built in flash. Easy loading. With carrying strap.

SS2P \$1890 Wt. 4 lbs. \$24.95

*Based on suggested list prices for Type 88 and Type 108 Land film and conventional film with processing at the film factory.

POLAROID'S GOOD TIME CAMERAS

POLAROID MODEL 420. Remarkable value! Low priced camera with deluxe features.
