

Movement that inspires.

At Kia, we believe movement inspires ideas. Great ideas come to you when you're on the move. Whether you're walking, traveling on a train or driving. It's why we create the spaces and the time you need to bring ideas to life.

The all-new Carnival

The family will love it too.

Is it a sculpted, luxurious object of desire? A solid, practical family vehicle?
A showcase for the latest in simple, yet thorough, driver assistance technology?
Or a remarkably roomy and relaxing space for up to eight people?
The all-new Kia Carnival is all of these things, and more.

With an infinitely adaptable interior and easy access from every angle, the Carnival puts you in total control. It can take a large group of family or friends as far as the roads can reach, with ample space to accommodate the gear for adventurers, the tools of artisans or furniture to bring home from the store.

From the futuristic headlamps embedded into the tiger-nose grille, to the broad, dramatic stripe of the rear tail lamps, fresh details establish a luxurious new design vernacular among people movers. Sleek body lines serve an aerodynamic purpose, while the expansive windows and dual sunroof complement the cabin's feeling of openness.

Graceful, sophisticated lines bring a touch of charm to any driveway. But everything about the Carnival is engineered with flexibility in mind. Power sliding rear doors can be activated with the touch of a button and, if your arms are full, the rear hatch automatically closes and locks just by walking away with the remote in your possession.

A blue KIA Niro EV SUV is parked in a parking space marked with yellow lines. The car is positioned in the lower-left to center of the frame, facing right. The background features a modern building with a facade of vertical white slats and large glass windows. The scene is lit with warm, low-angle light, suggesting dusk or dawn. The license plate on the car reads 'KKA 0812'.

A bright spot in the heart of the city.

Venture in and out of cities in a spacious bubble of calm. Sliding doors make for quick entries and exits, and a puddle lamp shows you where you're stepping after dark. The same technological advances that keep the interior so quiet on the highway also help shut out city noises to create a calming oasis of comfort.

7 Seats

Individual comfort for every single seat.

With firm, welcoming seats, enviable headroom, and tasteful materials, the Carnival comfortably accommodates every individual occupant. From the ways the doors slide to how the seats can be adjusted and moved, the interior is engineered to make the ride a joy for everyone inside.

Interior is only available in black + grey for the Singapore market.

8 Seats

12.3-inch Touchscreen infotainment system with Apple CarPlay and Android Auto Connectivity

View and select audio functions on the 8-inch display audio. Choose audio sources, tune in to radio stations, and adjust audio quality to taste by using convenient controls mounted on the steering wheel. With Android Auto & Apple Carplay, the display of a compatible phone can be viewed on the center touchscreen.

Surrounded by screens that say just enough.

Information technology has changed driving forever. But rather than being bombarded by a seemingly infinite amount of data, the Carnival presents everything on a need-to-know basis, filtering out what's not absolutely necessary.

The cockpit is designed and engineered to help you focus on the key information while your mind stays on the road and what's around you.

4.2-inch TFT LCD supervision cluster

The supervision cluster helps you stay focused and informed, with data like remaining distance to empty and fuel consumption, navigation cues, and outside temperature.

Wireless smartphone charger

Now with up to 15W of electric power, the charging pad in the Wireless Charging Tray bin lets you charge compatible mobile phones wirelessly. The indicator shows orange while charging and turns green when charging is complete.

VIP lounge seats (7-seater only)

Second-row VIP lounge seats give passengers a first-class experience, with exceptional flexibility and simple-to-operate power-adjustment.

Where first-class is in the 2nd row.

While the Carnival is notably roomy, the second-row VIP lounge seats, part of a 7-seat layout, may just offer the most indulgent rear-passenger space on the roads today. With soft, high-quality materials and executive-class treatment, the seats also feature heating and ventilation.

Interior is only available in black and grey for the Singapore market.

VIP lounge seat switches (7-seater only)

Separate buttons adjust recline, seat base, and extendable leg rest. A central button engages relaxation features, while one-touch relaxation and return buttons are located at the top for instant comfort at your fingers.

One-touch premium relaxation mode (7-Seater only)

In Relaxation mode, the seatback reclines, the front of the seat base tilts upward, and the leg support lifts and extends. All to help you stretch out and relax.

The versatility to handle whatever the future brings.

It's hard to think of a more accommodating and flexible interior than this. Seating options let you fit up to eleven people, while some or most seats can be removed to make way for cargo. You can even turn the walk-in (non-reclining) 2nd row seat to face backward, so occupants can see each other while they talk, limousine-style.

Child Care mode (8-seater only)

2nd row seats can be removed and turned to face the 3rd row seats to secure your car seat for your child conveniently.

Remote one-touch power doors & liftgate

Power sliding rear doors offer easy entry and exit for rear occupants. Along with the power tailgate, all doors can be closed and locked with one smart-key button as you walk away.

Smart power sliding doors

Power tailgate auto-close

Table mode (8-seater only)

With the multi-function free mode seat, you can also turn and fold the centre seat only to create a shared table.

Luggage mode

For 7- or 8-seater models, a lever lets you fold down the 3rd row seat to accommodate more boot space. Expand your luggage space from 627ℓ to 2,905ℓ with only the first row of seats in use.

Less vibration, less fuel and all the power you need.

The quieter diesel engine of the new Carnival offer significant fuel savings through improved cooling and reduced friction. The 8-speed automatic transmission offers smooth gear changes, with more gear ranges to achieve the perfect balance of economy and power.

Smartstream 2.2L Diesel

202 Max. Power
ps @ 3,800 rpm

440 Max. Torque
Nm @ 1,750 - 2,750 rpm

Drive Mode Select (4 modes)

The Carnival adapts to the way you want to drive. Push the Drive Mode button beside the shifter to cycle between the fuel-conserving Eco mode, the responsiveness of Normal mode, the exhilaration of Sport mode, or the adaptability of Smart mode, which adjusts according to how your driving style varies over the course of a normal day.

Split-second assistance.

Safety | Efficiency | Convenience

Using the latest sensing and processing technology, DRIVE WiSE helps you stay aware of your position on the road and the movement of the vehicle, pedestrian, and cyclist. It can even step in and prevent collisions. Working behind the scenes, it helps you get there and back with true peace of mind.

Forward Collision-Avoidance Assist (FCA)

As you turn left at an intersection, FCA uses a front view camera and a front radar to detect oncoming vehicle, pedestrian, or cyclist ahead. By warning the driver and automatically applying the brakes, FCA helps to avoid or reduce the severity of an accident.

Blind-spot Collision Warning (BCW)

BCW alerts you when a vehicle is detected in your blind spot during a lane change. It also alerts you to approaching vehicles when exiting a parallel parking space.

Safe Exit Assist (SEA) with Power Sliding Door

If you attempt to open the power sliding door as a vehicle approaches from the rear, SEA will keep the door locked and sound a buzzer for one second, so you can check for traffic and try opening it again once it is safe.

Smart Cruise Control (SCC)

With a simple touch of a button, SCC will maintain the driver's selected speed. Using the front view camera and front radar, the system allows the vehicle to automatically maintain a safe following distance, reduce speed, and even come to a complete stop and start again, if necessary.

Lane Following Assist (LFA)

To help you stay in the center of your lane, LFA identifies the lane's boundaries using the front view camera. If it senses that you're drifting out of the lane, it automatically steers the vehicle to keep it centered between the lines.

Rear Cross-Traffic Collision-Avoidance Assist (RCCA)

Rear corner radars detect the presence of cross traffic, from the right or left, in the lane the Carnival is backing into. If a vehicle is detected, and audible and visual warnings go unheeded, emergency braking is applied automatically.

Rear View Monitor (RVM)

Rear View Monitor with Parking Guidance gives you a live view of what's behind you. Lines superimposed on the image help you know how much space you have.

Parking Distance Warning (PDW)

For utmost confidence and peace of mind when maneuvering into and out of tight spaces, PDW uses ultrasonic sensors mounted on the front and rear bumpers to warn you of any nearby obstacles.

We've thought of everything to keep you ready for anything.

Building on an ingeniously integrated new platform, the Carnival uses technological advances, some incremental and others substantial, to better protect you in a collision, and to help you avoid situations that can lead to collisions in the first place. In short, it's always on the lookout for the safety of you and your occupants.

3rd generation platform

The new 3rd generation platform standardizes the arrangement of steering, chassis, powertrain, and cabin floor, resulting in a more spacious cabin and improved aerodynamics, handling, stability and collision safety performance. The Carnival benefits from advances made across the entire range of Kia vehicles.

Smarter body and chassis materials

New applications of stronger, more formable steel in crucial areas helps the body and chassis better disperse collision forces to improve occupant protection. Higher torsional rigidity delivers an impressive level of handling responsiveness and ride smoothness.

Advanced 7-airbag system

To help protect occupants and potentially reduce injuries in the event of a collision, seven airbags are offered (driver, driver's knee, front passenger, two front-side, and two side-curtain).

Vehicle Stability Management (VSM)

For enhance safety, VSM continuously monitors road conditions and automatically controls the steering and brakes when the road gets bumpy.

Hill-Start Assist Control (HAC)

When you're at a standstill on an incline, HAC prevents you from rolling backward by gently applying the brakes for up to two seconds while you move your foot from the brake pedal to the accelerator.

Sometimes the best destination is the journey itself.

Group travel can be an adventure all in itself.

The new Carnival applies decades of technological know-how and advancements to improve the ride for everyone, including those who need help getting in and out, kids with short attention spans, and people who just need a chance to unwind and recharge. In a world of all for one, the Carnival is one for all.

The power of personalization.

Your vehicle is your family's home away from home and your pride and joy. So you decide what needs to be on board. The Carnival offers a wide range of features, from elementary to high-tech, and colors and finishes for a comfortable ride in style, so that you feel at home while exploring the world that awaits you.

Cycle & Carriage Aftersales Service keeps your car in its prime.

We care for you the same way we care for our family. Experience the Cycle & Carriage Kia Service spirit as we welcome you at our Kia Authorised Service Centres.

With more than a century in the automotive industry, we can assure you that you will enjoy the most comprehensive customer support and exceptional service experience by well-trained professionals, using state-of-the-art technologies, diagnostic tools and genuine parts to keep your Kia vehicle running in peak condition. All Kia genuine parts come with 2 years or 40,000km (whichever comes first) warranty.

This is our commitment to you.

Industry-leading warranty.

We are confident of the quality and durability of every Kia vehicle, having undergone stringent pre-delivery processes and checks before being delivered in pristine condition. We are so confident that your new Kia car will enjoy a 5-year unlimited mileage warranty and a 10-year engine warranty.

From the date of registration, your new Kia car is covered against defects in materials and workmanship for a period of 5 years of factory unlimited mileage.

On top of that, starting from 1 June 2014, your Kia car will come with a 10-year engine warranty, subject to a maximum mileage of 200,000km or 10 years, whichever is earlier. This engine warranty from Cycle & Carriage will take effect immediately after the expiry of the manufacturer's.
