EQS

PINNACLE OF SUSTAINABLE LUXURY MOBILITY

Photo may vary from actual unit.

A new form for a new time.

The EQS.

In the all-electric EQS, the pioneering synthesis of luxury and a holistic approach becomes a reality. As the first premium saloon from Mercedes-EQ intended to be electric right from scratch, the EQS impresses with the sensual clarity of its puristically elegant one-bow design and coupé-like silhouette.

Electrifying aesthetics.

The EQS also remains consistently visionary in terms of its interior design. The aim: a completely new way of digitalising the interior. The decisive element here is the MBUX Hyperscreen. A new feature made up of three displays behind a curved surface of real glass – and the digital heart in the high-quality interior of the EQS.
