830 LE*

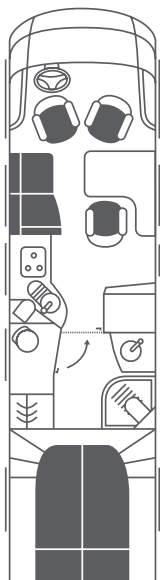

880 LE*

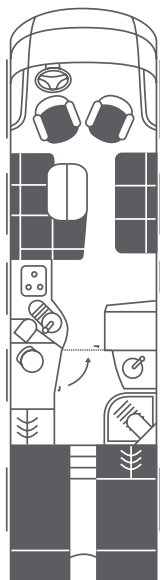

880 BE

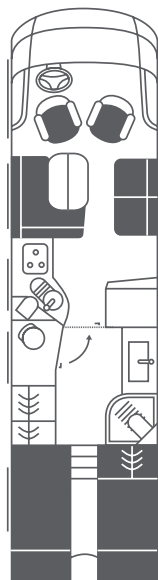

920 LF*

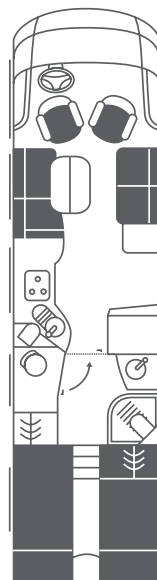

920 BF

920 LE*

920 LW*

920 EK

*The models 830 LE, 880 LE, 920 LF / LE / LW are also available with shortened seat couch on drivers side (see code 79306 on page 27)

Standard Equipment Flair

Chassis

- Iveco Daily with a total weight of 7,2 t
- Turbo diesel engine with electronically controlled Common Rail Direct Injection
- Emission class **Euro VI d with** exhaust gas recirculation
- 3.0 l engine displacement, 132 kW / 180 HP, at 2990 – 3500 U/min, engine torque 430 Nm
- Insulated, silenced engine bonnet
- Manual 6-speed transmission
- New e-VHT turbo charger
- Electrical parking brake
- Luxury dashboard decoration with 3,5" high resolution color display
- Airbag for driver and passenger
- ESC
- Seatbelt tensioner for driver and passenger
- Pedal release system (brake pedal folds backwards in an front accident)
- Rear drive with traction control system (TCS)
- Disc brakes on front and rear axle
- Electronically controlled anti-lock braking system (ABS)
- Cruise control
- Vehicle battery 12 V / 110 Ah
- Smart Generator 220 Ah with motorhome programming
- Section switch for the vehicle battery
- Service compartment on driver's side for comfortable access to the starter battery and diesel fuel filler neck
- Fuel tank 90 l + 20 l AdBlue tank
- Tyres with steel wheel rims 225 / 75 R 16 and stainless steel hub caps
- Tyres front and rear axle with traction profile (mud and snow identification)
- LED day driving lights and LED rear lights
- Halogen main headlights with optical lens, fog lamps
- Integrated contour light with LED technology
- Trailer socket, 13 poles, 12 V
- Spare tyre
- Hill holder
- Rear axle with leaf suspension, transmission 4,56
- Cup holder at the dashboard

Driver's Cab

- Bus windscreen wiper system
- Panoramic flush-sealed windscreen made of laminated safety glass, tinted, with sun shield
- Laterally suspended exterior rear-view mirrors
- Engine bonnet with large opening angle and gas damper
- High-mount and front-placed original IVECO dashboard for optimum all-round vision
- Completely insulated driver's cab
- Heating convector over the entire width behind the windscreen
- Air flow optimised front blower
- Electronic steering system
- Steering wheel adjustable in height and tilt
- Belt-integrated driver and passenger seat, rotatable by 180°, armrests and lateral parts in real leather
- Deposit shelves for driver and passenger, cover with leather surface

Bodyshell

- Side panels including garage doors and upper floor panel made of torsion-resistant 2-sided-aluminium sandwich construction (42 mm) with styrofoam insulation (RTM)
- 48 mm underbody made of 2-sided-aluminium sandwich construction with styrofoam insulation
- Roof in sandwich construction (42 mm), torsion-resistant with styrofoam insulation (RTM), inside aluminium, outside with corrosion-free GRP coating, high strength X-treme, incl. gel coat sealing
- Ceiling-to-wall connections without cold bridges, by means of highly compressed PU hard profiles
- Box structure completely without wood
- Lighting protection because of Faraday cage
- Entire roof safe to walk on
- Aluminium roof profiles with rain water channel for reducing side panel soiling
- Connection of roof plate and front mask free of displacements prevents accumulation of rain water on the roof
- Outer plate smooth, stove-enamelled white
- Front mask and fenders made of highly stable and corrosion-free glass fibre composite material

- Insulated GRP rear panel in front of 2-sided-aluminium sandwich panel
- High side skirts with insulated bus flaps in a sandwich construction (aluminium – styrofoam – GRP)
- Rear axle wheel cases insulated with expanded polypropylen
- Heated and insulated double floor
- Load-through possibility in the double floor, accessible through fully insulated bus flaps on both sides
- Water and waste water tank as well as batteries integrated frost-proof in the double floor, easy to access
- Garage door on passenger side with hinges of die-cast aluminium and needle felting lining, with electrical closing aid
- Spacious rear garage (approx. 4,500 l) with inside lighting, heating convector and 230 V/12 V socket
- Rear garage door on driver's side with low loading height
- Rear garage floor coated with highly wear-resistant dimpled membrane
- Solid bodyshell door with two-point electrical locking, window and fly screen door
- Fly screen door for entrance door
- Exterior, electrically operated double entrance step (with extra wide steps) hidden behind a cover plate when closed
- Entrance step inside, illuminated and heated
- Insulated bodyshell windows, double-glazed plastic window in outer aluminium frame with thermal separation, with pleated darkening blind and insect protection
- High-tensile upper floor in 2-sided-aluminium sandwich construction with 42 mm thickness for a maximum torsional stiffness, thermal and acoustic insulation
- Tie system in the garage

Living and Sleeping

- Wear-resistant floor covering in stone tiles look incl. footfall sound insulation
- Continuously level floor from the driver's cab through the lounge area up to the rear bed
- High quality wear-resistant upholstery in 144 different combinations (plus leather for an additional charge)
- Seat cushions with high comfort thanks to the 3-layer foam concept
- Lounge table with multi-directional displacement (except bar versions) and pull-out mechanism
- Retractable belt block with two three-point safety belts integrated into the lounge seating unit (except bar versions)
- Media-tower and compartment shoe in the entrance area
- Solid handle covered with leather for easy entry
- Gathered roller blinds on the windows of the seating and sleeping area
- Spacious overhead cupboards with push-to-open system (gas pressure buffers) for maximum comfort in use
- High-quality flat handles
- Indirect accentuated lighting with LED-technology for lounge area (dimnable) and rear bed(s)
- Rear bed with lath frame and comfortable cold foam mattress
- Bed access with night lighting
- Reading spot-lights with LED-technology for front overhead, rear bed and lounge area
- Roof-light over lounge area, skylight with fly screen and pleated darkening blind over the rear and optional front bed
- Foldable step with storage space function at bed access
- Large wardrobe with partitions

Kitchen

- Embedded three-flame gas cooker including a 2.4 kw burner and electric ignition, divided glass cover, cast-iron pan carrier and stationary mounted glass splashguard
- Switch-off function for gas supply when closing the gas hob cover
- Single-lever mixer tap with pull-out function
- Central locking of the lower kitchen cabinets also operable from driver's seat
- Kitchen drawers with pull-in mechanism
- Wide drawer handles can also be used as tea towel holder
- Slide out compartment for coffee machine, with lighting and 230 V socket
- 2 waste bin compartments in the lower kitchen cabinet
- Extendable kitchen plate to generate additional work space in [Flair 920 EK](#)

Bathroom and Toilet

- Generously dimensioned open bathroom
- XXL wash basin with extended mirror cabinet and drawers in model 920 LW
- Separation between spacious bathroom and rear bed with solid sliding door
- Separation between spacious bathroom and lounge area with high-quality door with stainless steel door handle set
- Toilet room with window, can be separated from the rest of the bathroom with a solid door
- Shower with level-access, real glass door and handles with locking mechanism
- Rain shower head with additional hand shower
- Shower grate
- Shower tub made of wear-resistant GRP
- Generously sized mirror cabinet with shelf
- Single-lever mixer tap made of metal
- Windows with blackout roller blind and fly screen in toilet room
- Cassette toilet with trolley system and ceramic bowl
- Bathroom fitted with towel rack and hook as well as toilet paper holder
- Roof-light with insect screen roller blind and pleated darkening blind

Heating and Water

- Centralised, heatable water supply and disposal compartment on driver's side
- Discharge cocks for waste water / fresh water tank with large diameter (1 1/4") for comfortable discharge
- Water connection for easy filling of the fresh water tank (connection with Gardena plug-in system)
- 370 l fresh water tank and 250 l waste water tank integrated in heated double floor
- Openings for cleaning on top for both tanks, accessible from the lounge area
- 8.5 l integrated warm-water heater for the supply of all consuming points
- Centralised boosted water supply including filter system
- Gas bottle space for 2 × 11 kg gas bottles and Euro gas bottles up to 14 l
- Warm water heating (Alde 3020) for operation with gas and electricity with touch screen panel in colours
- Heating circuit for rear bed area can be separately set with a thermostat
- Screwable connection for pump and filter
- Mono control crash sensor in gas pressure regulator

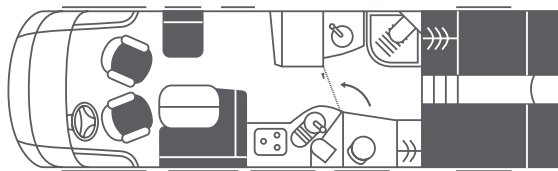

Electronics

- AGM battery 150 Ah in the double floor
- Easy to service access to the electronic system with perforated metal plate cladding in the garage
- Charging set 40 A with electronic control and battery temperature sensor
- Battery control system with protection against overload and complete discharge
- Power-down of the 12-volt electrics in case of under-voltage or overheat
- Section switch for leisure and vehicle battery
- 230 V CEE connection in the supply and disposal compartment with cable duct through the vehicle floor
- Automatic fault current circuit breaker
- Centralised control panel with digital display
- 5 × 230-V sockets, 1 × 12-V socket and 2 × USB plugs for loading (depends on model)
- Lights (roof spots, spots under ceiling cupboards and reading spots) in Power-LED-Technology

Technical Data

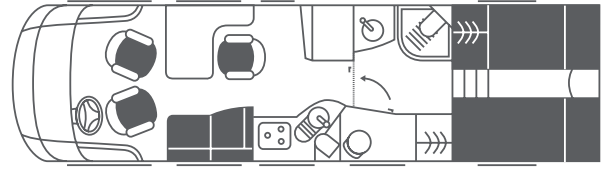

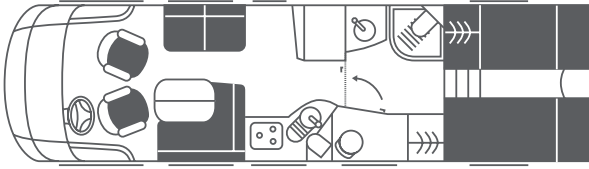

Flair 830 LE *

Base vehicle	Iveco Daily 70 C 18 H-CCS Euro VI d
Engine	
Type	4-cylinders TD Common Rail Direct
Engine displacement in cm ³	2,998
Output in kW/HP	132/180 (opt.: 154/210)
Maximum torque in Nm	430 (470)
Chassis/Tyres	
Wheel base in mm	4,550
Number of axles	2
Dimensions and weights (without accessories)	
Overall length in mm	8,296
Overall width in mm	2,395
Overall height in mm	3,340
Technically permissible laden mass in kg	7,200 (opt.: 7,490)
Mass in running order in kg approx. ^{1/4)}	5,400

Important Information

Technical data Flair

- 1) The “mass in running order” according to EU directive accepted in VO (EU) no. 1230 / 2012 includes: the empty mass with standard equipment, driver (75 kg), filling quantities for fuel (90%), **fresh water (100%)**, 100% filled gas bottle, tool kit, spare tyre and connecting cables. Differences as part of the manufacturer tolerance are possible and allowed.
- 2) The payload is the difference between the technically permissible laden mass and the total effective vehicle mass. Weights of the optional equipment have to be added to the “Mass in running order”.
- 3) The permissible total towing weight must not exceed 10,500 kg.

- 4) Further persons are allowed to ride along as far as the technically permissible laden mass is not exceeded and respective seats with safety belts are present.

Due to the different materials, manufacturing procedures and light conditions, colour deviations can occur on body-work and attachment parts. Colour deviations do not authorise complaints or warranty claims.

All the dimensions and weights are rounded figures and can vary according to the different homologation directives!

Important information

This brochure is subject to change without notice. After the copy deadline of this price list (8/2020) changes as to models and products, floor plans, technical data, equipments, etc. may have occurred. The illustrations also contain optional features, and/or accessories which are not included in the standard equipment and decoration respectively which is not included in Niesmann+Bischoff's range of supply. Descriptions may have been garbled due to graphic conversion, photographic processing or technical reasons. All data on range of supply, appearance, performance, weights and measures, as well as fuel consumption of the vehicles are in compliance with the knowledge existing at

the time of the copy deadline and are valid for all purchase and licensing in the Federal Republic of Germany. Deviations of the values within a range of $\pm 10\%$ are possible. The measures of the mattress may slightly vary from the given bed measures. E. g. data on the capacity of the refrigerators refer to producer information. Prices for optional features are only valid when installed during production. In case of subsequent installation additional installation and servicing expenditures are accrued at cost. We reserve the right to change prices, construction and equipment without notice. With the issue of this brochure all previously issued information and price lists become void.
