Everywhere you look, extras are designed to please demanding drivers, like an optional premium audio system that pumps out saturating sound. Now you're ready to rock and roll.

THE LATEST AUDIO TECHNOLOGY

The Monte Carlo Radio Data System (RDS) is capable of supplying information like song titles, radio call letters and automatic traffic bulletins. Using the latest tuner technology, you can even search for radio stations by format like Rock, News or Jazz. In addition, RDS automatically interrupts the radio, cassette or CD to warn you of national or local emergencies.

RDS functions only where stations broadcast RDS information.

DRIVER SIDE-IMPACT AIR BAG

A side-impact air bag for the driver (standard in SS; available in LS) helps reduce the risk of certain injuries to the driver in a side impact.

Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. See the Owner's Manual for more safety information.

SEPARATE TEMPERATURE CONTROLS

Now standard on both LS and SS, separate front temperature controls let the driver and front passenger adjust temperatures to their own preferences.

HELPFUL MESSAGE CENTER

You're always connected with your vehicle and can keep it in top shape with an instrument panel Message Center that displays up to 17 messages, including LOW TIRE PRESSURE or CHANGE ENGINE OIL SOON.

A PERSONALIZED ENVIRONMENT

Using the audio system, you may customize various interior elements, like setting the delayed headlamp illumination or when to automatically lock and unlock the doors.

ELECTRONIC TRACTION CONTROL

All-speed Electronic Traction Control helps maintain traction on most slippery surfaces by reducing wheel spin via reduced engine power and automatically modulating the front brakes as necessary.

Visit chevy.com/montecarlobrochure for a demonstration of the Radio Data System.

THE HEART AND SOUL OF A CHAMPION

MAGBEAM STRUCTURE

A magnesium instrument panel beam spans the width of Monte Carlo. The cast beam is precisely shaped to package smaller components, helping reduce squeaks and rattles that can occur over time, especially in the heating, air conditioning and audio systems. It also provides a sturdy foundation for the steering wheel column, reducing vibration.

STRUT TOWER-TO-TOWER BRACE

A racetrack-inspired steel brace connects the front strut towers and enhances Monte Carlo's precise driving response.

STATE-OF-THE-ART ELECTRICAL SYSTEM

Monte Carlo features a bussed electrical center at each end of the instrument panel, which houses all fuses, relays and splices for a given zone, making the electrical system easier to service.

MONITORING SYSTEMS FOR OIL REPLACEMENT AND TIRE INFLATION

A special monitoring system for oil quality lets you know when the engine oil needs replacing, based on your driving conditions. The Tire Inflation Monitor signals if there is a significant air pressure difference in any of the tires.

A RUST-FIGHTING BODY

Two-sided galvanized steel on all exterior body panels, except the roof where it's not needed, resists corrosion. And the exhaust system is made of long-lasting stainless steel with an aluminized stainless-steel muffler and tailpipe.

ALUMINUM ENGINE CRADLE ENHANCES RIDE AND RESPONSE

Monte Carlo has agile responsiveness thanks to the exclusive engine cradle made of lightweight, but stiff, extruded aluminum. It reduces vibration and noise.

SAFETY-CAGE CONSTRUCTION

A reinforced steel cage surrounds the entire passenger compartment, while its unique headliner is backed with corrugated material. The steel cage design and energy-absorbing materials in the roof header and front pillars helped make Monte Carlo one of the first cars to meet 2003 federal standards for head-impact protection.

TUNED FOUR-WHEEL INDEPENDENT SUSPENSION

A precisely tuned four-wheel independent suspension with coil springs and dual stabilizer bars, plus wide wheels, provide a superb blend of confident control and driving comfort.

STRONG, BUT LIGHTWEIGHT, BUMPERS

Front and rear bumpers utilize foam energy absorbers that are lighter and more effective than traditional steel absorbers.

DURABLE WET-PAINT LOOK

Monte Carlo features four different layers of paint for a finish designed to look beautiful for years.

ENHANCED FLOOR PAN STRUCTURE

Three cross members tie into the rocker panels to provide excellent support and structural rigidity. And that helps Monte Carlo occupants enjoy a solid, comfortable ride.

STANDARD FOUR-WHEEL DISC BRAKES

Four-wheel disc brakes are maximized to fit Monte Carlo wheels. This outstanding system is further enhanced by a sophisticated antilock brake system (ABS).

ONE-PIECE SIDE STRUCTURE QUALITY

A one-piece door "ring" provides structural rigidity and uniform build quality. It's a key reason why Monte Carlo has such a quiet ride and solid feel.
