

The 2006 Saturn VUE

The world is filled with places to go.
So we created an SUV that gives you a reason to explore them.
The world is filled with bikes and kayaks and snowboards
and a thousand other toys.
So we created an SUV that lets you bring them.
And the world is filled with the unexpected.
Which is why we created an SUV that helps you prepare for it.
The 2006 VUE.

The VUE AWD V6 shown in Chili Pepper Red with retailer-installed roof rack cross bars, side step bars and available Chrome Package featuring foglamps and front and rear chrome skid plates.

The VUE AWD V6 shown with Grey Leather Appointments and other available features.

Discover wide open spaces, inside and out. Start by choosing your travel style. Do you prefer an engine that's powerfully efficient or efficiently powerful? The 143-horsepower 2.2-liter engine is specially tuned for the stop-and-start driving you experience around town. For something with more brawn behind its brains, our class-leading¹ 250-horsepower V-6 offers confidence in the passing lane, a 3,500-pound towing capacity² and, in the front-wheel-drive VUE, the segment's best overall gas mileage.³ Both engines come with front-wheel drive, and the V-6 is also available with all-wheel drive. Inside, the 70/30-split rear seats make room for items up to eight feet long once you've folded down the front passenger seat.⁴ Smaller stuff is no less important — so there's hidden console storage, handy cargo bins and a rear cargo organizer that keeps bags and their contents in place, instead of all over the place.

¹Based on 2005 GM Small Utility segment and latest available competitive data. ²Maximum trailer ratings are calculated assuming a properly equipped base vehicle plus driver. Towing capacity is not applicable to VUE Red Line models. See specifications page for details. ³Est. mpg 20 city/28 hwy. Based on GM testing. EPA estimates not yet available. ⁴Cargo and load capacity limited by weight and distribution.

The VUE AWD V6 shown in Cypress Green with just a few of nearly 40 accessories available from your Saturn retailer.

The VUE AWD V6 with CD player and steering wheel audio controls, standard.

Shown with available features.

If you drive too fast, they'll only see a blur. If the VUE is about taking it anywhere, the VUE Red Line is about taking it further. Big 18-inch alloy wheels on wide, low-profile tires keep you in touch with the street. Front and side ground effects lower the VUE's look and streamline its aerodynamics. And with 250 horsepower, the engine delivers performance that puts the sport back in sport utility vehicle. Inside, the contact points of the driving experience have earned long overdue respect: the floor pedals feature gleaming chrome accents that reflect footwell lighting in warm amber or cool blue. The seats get special treatment, too. They're wrapped in sueded fabric trimmed in black leather, with front sport seat bolsters that help your body corner right along with the VUE Red Line. For complete Red Line specs, visit saturn.com/vue.

The VUE Red Line shown in Black Onyx with lowered sport-tuned suspension, 18-inch wheels and modified front grille.

It may become a destination in itself. If time flies when you're having fun, long boring drives are behind you. Right in front of you, notice the steering wheel audio controls for the CD player and radio, standard on all models. Choose the available Saturn Advanced Audio System, and every note is powered by a 180-watt external amplifier pumping six premium speakers. Or enjoy your own playlists by plugging your MP3 player into the built-in auxiliary jack. Because the VUE is about expanding possibilities, XM Satellite Radio² is also available. It brings you more than 150 channels, including news, sports, talk, comedy, traffic, weather and commercial-free music—all broadcasting coast-to-coast. And to keep your back seat passengers from becoming back seat drivers, the available DVD player¹ is just the thing to keep their eyes off the road.

The VUE is available with a DVD entertainment system¹ and XM Satellite Radio². Visit saturn.com/vue for all your audio options. VUE Red Line shown.

¹Available early 2006. ²Available only in the 48 contiguous United States. Service fees extra. Visit gm.xmradio.com for system details. Simulated DVD picture.

Nothing we put into it is as important as what you put into it. In a split second that feels like an eternity, you can forget all about the CD player and think only of your family's safety. Rest assured, we've spent more than a split second thinking about your safety—just ask the National Highway Traffic Safety Administration. The VUE received their top rating of five stars for front- and side-impact tests¹, thanks in no small part to our dual-stage front air bags² and our steel spaceframe's crumple zones, which absorb collision energy that would otherwise affect the passenger compartment. That compartment now features OnStar[®], standard on every VUE, including a one-year subscription to the Safe & Sound Service Plan. OnStar can save time by unlocking locked doors; more importantly, it can help save lives by automatically sending for assistance if your air bags deploy.³ New with our available Head Curtain Side Air Bags² is a rollover sensing system, designed to provide greater protection in case of rollover. For more on VUE safety, visit saturn.com/vue.

¹See inside back cover for important information about the VUE's safety rating. ²Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. See inside back cover for important information about air bags, including a note about child safety. ³See inside back cover for important information about OnStar.

• = standard ◦ = available — = not available

¹Limited availability. ²Available early 2006. ³Cargo and load capacity limited by weight and distribution. ⁴With a properly equipped vehicle and appropriate trailer hitch. Maximum trailer ratings are calculated assuming a base vehicle, except for any options necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your Saturn retailer for details. ⁵Based on GM testing. EPA estimates not yet available. ⁶Not available with Red Line package. ⁷Chrome skid plates available as single option on FWD 4. ⁸See inside back cover for important information about air bags, including a note about child safety. ⁹See inside back cover for important information about OnStar. ¹⁰Available only in the 48 contiguous United States. Service fees extra. Visit gm.xradio.com for system details.

Featured Standard Equipment

Center console. Handy hidden storage for CDs and cell phones that also includes a 12-volt power outlet for concealed phone charging. For easy cleaning, the cupholders are removable.

Steering wheel audio controls. This second set of controls complements those on the dashboard for stretch-free stereo adjustments while driving. Conveniently, you'll find the cruise control buttons on the wheel, too.

Auto-dimming interior rearview mirror. In addition to dimming for better nighttime visibility, this electrochromatic mirror displays temperature and compass direction.

Fold-flat front passenger seatback. Fold down this scuff-resistant seatback, and you've got a handy table-like surface. And with the rear seat folded down too, there's room for items up to eight feet long.¹

Power outlets. Charge up your MP3 player, laptop or phone with any of three easy-access 12-volt outlets, front and rear.

Power windows. The driver express-down feature allows one-touch ease, while the rear window lock helps control access from the back seat.

Available Equipment

Roof rails. Strong, so they support up to 100 pounds; chrome, so they support the need for style.²

Heated seats. Two settings, for cold or ice-cold days. Part of the Comfort Package, which features a six-way power driver's seat with adjustable lumbar support.²

Power sunroof. For sunny days, starry nights or fresh air anytime. Available alone or as part of the Sun & Sound Package, which includes XM Satellite Radio³ and the Advanced Audio System.

Red Line. This high-performance design package includes 18-inch alloy wheels, ground effects, chrome-accented pedals, ambient footwell lighting and leather-trimmed sport seats.

Six-disc, in-dash CD/MP3 player. Load up to six CDs for hours of uninterrupted music sent through six coaxial speakers. For more audio options, visit saturn.com/vue.

Foglamps. When visibility is low, these projector-beam lights help you see and be seen. Available alone or as part of the Chrome Package; V-6 models only.

Retailer-installed Accessories

Brush guard. With this addition, you'll acknowledge the more rugged nature of the path less traveled, on road or off.²

Painted running boards. Add a more finished look and a little extra reach when washing the car or grabbing equipment off the roof rack.²

Roof rack with attachments. Keep wet, muddy gear out of your interior cargo areas. Attachments are available for most outdoor equipment. Visit saturn.com/vue for details.

Interior bike rack. Keeps bikes safe, secure, and protected from the indignities of road-blown debris.

Rear spoiler. Matched to body color to keep the visual flow as smooth as the wind.

Trailer hitch. For gear that's too big for the cargo area or roof rack.²

What makes a Saturn a Saturn?

It's more than you can see in a picture or read on a page.
What makes Saturn different can only be experienced.
It's being with you today, tomorrow and the next 200,000 miles.
It's about a no-hassle experience and no-haggle prices.
It's about giving you thirty days to change your mind.¹
It's about making sure you love what you drive.
In other words, it's about you.

¹See inside back cover for details about Saturn's 30-day Vehicle Exchange Program.

The ever-expanding Saturn family: the ION[®] sedan, seven-passenger RELAY[™], VUE[®], and ION Red Line.
For more information, visit saturn.com.

It all started with the very first Saturn. How do you design a car people will dream about? How do you build a car people will love? Finding the answer, year after year, is what keeps us going. And this year, we've been especially busy designing a whole new generation of vehicles that will re-establish what it means to own, love and drive a Saturn. In 2006, you'll meet the SKY™ roadster and AURA™ sedan, followed by a continuing stream of surprises. In every vehicle, you'll see even more sculptural lines, glowing interiors, advanced features, and soulful expressions of Saturn's philosophy of putting people first. In other words, the next few years are going to be big. And, as always, it's going to be a fun ride.

The vehicle shown is a pre-production model; the actual production model may vary.

Important words about this catalog

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the retailer or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Saturn retailer for complete details. Saturn reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

A note about air bags and child safety

Always use safety belts and proper child restraints. Even in vehicles equipped with air bags and the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. Air bag inflation can cause severe injury or death to anyone too close to the bag when it deploys. Be sure every occupant is properly restrained. See your vehicle Owner's Handbook and child-safety seat instructions for more information.

OnStar information

OnStar services require vehicle electrical system and analog wireless service to be available and operating for features to function properly. OnStar uses existing emergency service providers as well as analog wireless and satellite technologies and is subject to their limitations. The U.S. Federal Communications Commission (FCC) ruled that wireless carriers will no longer be required to support the analog wireless network after February 16, 2008. As of January 1, 2008, OnStar plans to offer service only through equipment that operates on the digital network, which may require the purchase of a system upgrade. Call 1-888-4ONSTAR (1-888-466-7827), see your OnStar Owner's Guide, or visit onstar.com for system information and details. OnStar voice recognition system may not work with some voices. Remote door unlock success varies with conditions.

Important information about the VUE's safety rating

Test based on 2005 Saturn VUE results. The 5-star rating is for frontal crash test and side-impact crash test. Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (NCAP). Visit safercar.gov for details.

Saturn's Vehicle Exchange Program

Within the first 30 days or 1,500 miles of delivery, whichever comes first, the original purchaser may exchange his or her Saturn vehicle if not completely satisfied. In the event that an owner returns his or her vehicle, he or she will exchange it for another 2006 Saturn vehicle. See retailer for limitations and restrictions. All the same factory-supported initiatives will be included on the exchange vehicle that were on the original vehicle. The vehicle must be returned in the condition in which it was delivered, without damage or excessive wear and tear. If non-warranty repairs equal to or greater than \$300 have been performed or are necessary, the vehicle is not eligible to be returned. If less than \$300, the damage must be repaired or the estimate deducted from the credit toward the exchange vehicle.

New Vehicle Limited Warranty

This warranty is for GM vehicles registered in the USA. See your Saturn retailer for terms and conditions. Covered for 3 years/36,000 miles (whichever comes first): the complete vehicle, tires, towing to your nearest Saturn retailer, cosmetic corrosion resulting from defects, repairs made to correct any vehicle defect, with no charge for most warranty repairs. Covered for 6 years/100,000 miles (whichever comes first): rust-through corrosion.

Corrosion protection

Saturn vehicles are designed and built to resist corrosion. All body and sheet metal components are warranted against rust-through corrosion for 6 years or 100,000 miles, whichever comes first. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended. See your Saturn retailer for terms of this limited warranty.

An important note about alterations and warranties

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials, or workmanship of any alterations by such suppliers.

Assembly

Saturn vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Saturn vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

Engines

Saturn products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Saturn products may also be used in other GM makes and models.

Updated service information

Saturn retailers receive useful service bulletins about Saturn products. See your retailer for more information.

There's something we'd like to say. And that is: Yes.
Yes to horsepower and acceleration, dirt roads and scenic routes. Yes to designs that turn heads and features that embrace technology. Yes to loading up the bikes and skis and kayaks. Yes to getting out there. Yes to making memories and swapping stories. Yes to feeling protected. Yes to everything we love about driving. Yes to the 2006 Saturn VUE.
