Gentlemen:

SUBJECT: EXAMINATION REPORT Nos. 50-272/90-21 and 50-311/90-21 (OL)

On August 13, 1990, the NRC administered a simulator retake examination to an employee of your company who is seeking a license to operate the Salem Generating Stations Unit 1 and 2. At the conclusion of the examination, observations relative to exam administration were discussed with those members of your staff identified in the enclosed report.

The reactor operator who was examined passed the simulator portion of the examination. He had previously passed the written and walk-through portions of the examination and will be issued a license.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter and the enclosure will be placed in the NRC Public Document Room.

Should you have any questions regarding this examination, please contact me at 215-337-5291.

Sincerely,
