## On The Road and P11D pricing - continued

Company car tax is based on the vehicle's carbon dioxide (CO<sub>2</sub>) emissions. The higher the emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes. To help you calculate your tax liability, please see the table below.

### P11D (expenses and benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

### BiK (Benefit in Kind)

The BiK percentage value is based on the CO<sub>2</sub> emissions of the vehicle for the current tax year 2018/2019.

<b>BiK calculation example</b> KAROQ SE 1.0 TSI 115PS		
<b>P11D value</b>		<b>£21,720.00</b>
<b>Company car BiK tax based on CO<sub>2</sub> emission level</b>		<b>25%</b>
<b>Taxable BiK (for 2018/2019 tax year):</b>	25% of £21,720.00	<b>£5,430.00</b>
<b>Annual company car tax (2018/19)</b>		
<b>20% income tax</b>	20% of £5,430.00	<b>£1,086.00</b>
<b>40% income tax</b>	40% of £5,430.00	<b>£2,172.00</b>
<b>Monthly company car tax (2018/19)</b>		
<b>20% income tax</b>	£1,086.00 divided by 12 months	<b>£90.50</b>
<b>40% income tax</b>	£2,172.00 divided by 12 months	<b>£181.00</b>

### ŠKODA Financial Services

ŠKODA Financial Services offer a wide range of finance, insurance and servicing packages designed to fit your needs.

We specialise in providing simple and convenient funding options for drivers. The Solutions Personal Contract Plan offers a flexible, fixed-rate plan designed around your budget, by deferring a proportion of the car's value until the end of the agreement. This means a significantly lower monthly repayment compared to a loan or hire purchase agreement, so you can have more car for your money or just reduce the size of your repayments.

You choose the size of your deposit, from as little as one monthly payment, and a repayment period that suits you. At the end of the term, there are three options:

1. Part exchange your car for a new ŠKODA on a Solutions contract.
2. Pay the optional final payment to own the car.
3. Return the car (subject to terms and conditions).

ŠKODA Financial Services also offers hire purchase, contract hire and service and maintenance plans. Speak to your ŠKODA Retailer for your personalised quotation today.

### Service intervals

When you order your KAROQ, you can choose whether your car is on a fixed or a flexible service regime. Your ŠKODA retailer will help you decide which regime suits how your car will be driven, enabling your car to stay in the best possible shape.

Fixed regime: service every 10,000 miles or one year (whichever comes first).

This is recommended if the vehicle is likely to be used in the following way:

- > Driven fewer than 10,000 miles per annum.
- > Mainly short journeys, driven mostly in towns or cities.
- > High vehicle loading/towing and frequent hill climbs.
- > Heavy accelerating and braking, using high revs.

Flexible regime: Sensors in the engine detect when a service is needed. A service light will show between 9,000 and 20,000 miles or up to 24 months (whichever comes first).

The flexible service regime is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly and mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner.

### OTR (On The Road)

Recommended 'On The Road' prices include delivery, 12 months Road Fund Licence, DVLA First Registration Fee and apply to the UK only.

### VED (Vehicle Excise Duty)

All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO<sub>2</sub>) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO<sub>2</sub> figures may differ on these vehicles if taken from current ŠKODA UK stock.

Figures shown in this document are for comparability purposes; only compare fuel consumption and CO<sub>2</sub> figures with other vehicles tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. There is a new test used for fuel consumption and CO<sub>2</sub> figures (known as WLTP). The CO<sub>2</sub> figures shown however, are based on a calculation designed to be equivalent to the outgoing (NEDC) test cycle and will be used to calculate vehicle tax on first registration. Choice of wheels and other options may affect fuel consumption and emissions data. For more information, please see <http://www.skoda.co.uk/owners/wltp-info> or consult your retailer.

For fuel consumption data based on the outgoing test cycle (NEDC equivalent data), which is the 'official' UK fuel consumption data until 31.12.18, please consult your retailer.

ŠKODA UK may change RRP's at any time (this includes where there are government changes in regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen ŠKODA Retailer.
