Policy No. 2.2 (BP- BC Hydro Payments in Lieu of Taxes)

BC Hydro Payments in Lieu of Taxes

Policy Statement

BC Hydro is a Crown corporation that is exempt from all property taxes other than those levied to schools. To compensate for the loss of this taxation revenue, BC Hydro pays payments in lieu of taxes (PILT), also referred to as grants in lieu of taxes, to regional districts and municipalities when there are generating facilities located within their boundaries. The formula for determining the amount that regional districts and municipalities receive in PILT funding is established by Orders in Council, under the authority of the *Hydro and Power Authority Act*.

The purpose of this policy is to establish a policy regarding the usage of BC Hydro PILT monies received.

Application

This policy applies to the annual BC Hydro PILT monies received.

Allocation of BC Hydro PILT

- The allocation of BC Hydro PILT be on a percentage of overall PILT funds received formula basis.
- In accordance with the methodology in Schedule "A" attached hereto, beginning January 1, 2014, annual incremental increases to the Northern Areas PILT Funding from the Province to the SLRD (Bridge River 1, Bridge River 2, La Joie), up to a maximum of 4% per year, shall be allocated as follows:
 - To Electoral Area A 40%
 - To Electoral Area B 40%
 - To District of Lillooet 20%

until such time as the following annual amounts of the total Northern Areas PILT Funding have been reached (37.5% in total of the total Northern Areas PILT Funding):

- Area A 15%
- Area B 15%
- District of Lillooet 7.5%

and upon reaching the above annual amounts, no further annual increase increments will be allocated to Area A, Area B and the District of Lillooet and the annual allocations under SLRD

^^ Allocations are based on the amounts generated by the North and South, respectively. 40/40/20 allocation of the Northern to Area A, Area B and District of Lillooet, respectively. Any annual increase > 4% is allocated to General Govern ## Once the allocations noted in the above line to the Northern & Southern areas have been reached, this is the new formula. The presumption is that once the appropriate allocation of the current year has been reached, the allocation will change and the new allocation will be used for future years.
