HIGHLANDER GXL FWD AND AWD IN MOULIN ROUGE

HIGHLANDER LIMITED IN COSMOS BLUE

HIGHLANDER LIMITED AWD IN COSMOS BLUE

HIGHLANDER LIMITED ZR AWD IN CRYSTAL PEARL

# ***HIGHLANDER***

For life's little battles, help has arrived with the Highlander. Offering an exhilarating drive with the ultimate flexibility, comfort and premium features in a mid-size SUV package, the boldly designed Highlander range will get you where you need to go.

Seating 7 comfortably, Highlander has all the bases covered for the best road trip of your life. Choose from the versatile AWD or the practical FWD - generous beverage holders, an entertainment package and a powerful V6 petrol engine turn even the shortest of journeys into an event.

It's the all-round recreational vehicle for any adventure.

It's prepared for anything.

# Performance for all seasons

Highlander has a premium look about it, but it's also designed to take everything the busy Kiwi lifestyle can throw at it. Highlander remains the ultimate recreational vehicle, offering the go-anywhere abilities of All Wheel Drive (or FWD if you prefer) and a spacious, well appointed, 7-seat interior that will carry the whole crew with ease.

The combination of a powerful and fuel efficient 3.5L V6 petrol engine and a sophisticated 6-speed automatic transmission with Artificial Intelligence (AI) allows you to make the most of the performance that Highlander offers. With 201kW of power and 337Nm of torque available, and a comfortable car-like driving experience - the Highlander lets you get on with life wherever it might take you.

HIGHLANDER LIMITED ZR IN SILVER SKY

## Stand out from the crowd

### EXTERIOR - bold and stylish in equal measure

Highlander features a chiselled front grille design, LED Daytime Running Lights (DRL), stylish alloy wheels unique to each grade and rugged black contrasting trim framing each flared wheel arch.

Body coloured door handles, sculpted exterior mirrors with puddle lights and chrome accents around the tinted privacy glass along the sides give the Highlander a premium look, while from behind the sure-footed stance and wide bodywork impart a sense of stability that is unmistakably Highlander. New Highlander looks fit for purpose, whether it's the school run or a trip off the beaten track.

### INTERIOR - comfort, convenience and quality

The Highlander looks well proportioned from the outside and the theme continues within its spacious, premium cabin. With a practical, easily accessed 3rd row of seats offered right across the range, the Highlander remains the perfect mid-size SUV for the New Zealand lifestyle. Not only has the interior of every Highlander been redesigned to offer more flexibility and convenience, it's also a quieter place to be with advanced sound-proofing technology used throughout.

Limited and Limited ZR models add Satellite Navigation and instant hands-on access through advanced steering wheel controls to comfort and drive settings such as air conditioning, audio, cruise control and Multi-Information Display (MID) information. A mix of high quality fabrics and soft-touch trim materials, or genuine leather seat facings for GXL, Limited and Limited ZR models; make for a sumptuous and comfortable cabin. Rear seat passengers in Limited and Limited ZR models can even enjoy a DVD or Blu-ray feature through the rear seat entertainment system with its 9" ceiling-mounted display, or swipe through images from the inbuilt SD card slot.

The large 24L centre console storage box with sliding doors ensures that bulky items such as handbags, notebooks and DVD cases are quickly and easily stowed out of sight.

In sport mode the sequential shift transmission provides you with the freedom to manually move through the gears.

Second row occupants in Limited and Limited ZR grades can chose their preferred air conditioning settings with separate independent controls.

With the split folding 2nd and 3rd row seats lowered there is a total luggage volume of up 1872L.

In the Limited and Limited ZR grades, the tailgate features a separate glass hatch for convenient, quick access to the luggage area. With the new power back door feature on Limited ZR, you can open your boot, safe in the knowledge that it will stop at precisely the height at which you set it.

All Highlander models are conveniently equipped with steering wheel mounted audio controls and Bluetooth hands-free phone capability together with audio streaming and voice recognition.

# HIGHLANDER GX

ALL WHEEL

3.5L V6 PETROL  
6-SPEED  
AUTOMATIC  
TRANSMISSION

You'll find all the style you'd expect along with specification highlights including 18" Alloy wheels, LED Daytime Running Lights (DRL), a reversing monitor and rear parking sensors, as well as air conditioning for the rear passengers.

HIGHLANDER GX IN CHAMPAGNE

The interior features high quality black trim, with lighter grey roof lining and black fabric seat facings. The soft-touch instrument panel with brown accents and complementary stitching adds a touch of class.

Like all Highlander models, the GX boasts revised 'walk-in' accessibility to the 3rd-row seating. Once inside, the Highlander's 3rd-row seats also benefit from a recline function for greater individual comfort.

The centre console is organised around a richly detailed display screen for the 6-speaker audio system. Highlander features an accessory power outlet, USB and 3.5mm AUX ports. These are linked to the Bluetooth system for hands-free calling and audio - also accessible from the multi-function steering wheel.

All Highlander models feature side and rear tinted privacy glass. The Highlander GX has its own unique alloy wheels but shares the same strong chiselled front, Daytime Running Lights (DRL) and front fog lights.

The Highlander is the perfect size for your lifestyle, and the GXL is no exception. Available in both FWD and AWD variants, the GXL combines dependable V6 power with touches of luxury like sumptuous black leather, tinted privacy glass, dual zone air conditioning and soft-touch premium trim surfaces that add a new level of sophistication.

All Highlander models feature a power adjustable driver's seat and manual slide passenger seat for achieving the perfect driving position. Of course the driver's seat is still the best seat in the house, offering a touch of luxury with 12-way power adjustable drivers seat - a feature of the GXL, Limited and Limited ZR grades. The GXL adds front seat heaters, while both the Limited and Limited ZR models have cool-air ventilated front seats as well.

Soft-touch trim materials, genuine leather seat facings, silver painted accents and high quality instruments give the cockpit of the Highlander GXL a premium, contemporary look.

The Highlander GXL's 6.1" colour display provides access to the Bluetooth audio system, including radio, CD, AUX and USB functionality. It also acts as a reversing monitor with static backing guide lines.

Standard for all Highlanders is a 6-speed automatic gearbox featuring Artificial Intelligence (AI) shift control, which intuitively shifts ratios in response to road conditions and driver intentions. It can even tell if you're travelling uphill or down and eliminates unnecessary upshifts by optimising gears according to the conditions.

The Highlander GXL has a smart key system. With the smart key in your pocket, the vehicle detects when you're close, unlocking the doors when you touch the inside of the front door or boot handle.

HIGHLANDER GXL IN MOULIN ROUGE

Highlander GXL is available as a FWD model that is suited perfectly to urban duties and long distance travel. With an intelligent and capable drive system, the AWD Highlander GXL is at home in town or the country; wherever you choose to take it.

TRANSMISSION

The Highlander Limited demonstrates truly premium levels of specification. This impressive all-rounder includes high contrast gauges, a 4.2" full colour Multi-Information Display (MID), a tinted sunroof, Blind-Spot Monitoring system (BSM) and proven all wheel drive ability.

HIGHLANDER LIMITED IN COSMOS BLUE

In all Highlander models a hidden storage compartment can be found under the luggage floor - perfect for storing the emergency kit or tonneau cover.

Genuine leather seat facings add a touch of luxury to the Highlander Limited. The driver's seat power adjustments include slide, recline, height, lumbar and memory functions.

Highlander has a space dedicated for phones and other small devices. The handy cable access hatch for auxiliary and USB cables makes connection or charging an easy and clutter free experience.

The satellite navigation system featured in both Limited models has a SUNA traffic avoidance system that can provide alternative route information to keep you moving during peak commuting times (traffic information not available for all regions).

The 2nd and 3rd row seats have been designed with plenty of head, shoulder and leg room to keep everyone in the back comfortable even on longer journeys. The 2nd row seats fold forward individually allowing plenty of room to get in and out of the 3rd row.

A clever addition to Limited and Limited ZR are sunshades, which have been snugly incorporated into the rear passenger doors, allowing near invisible stowage, and instant access when you need them.

19" alloy wheels featuring a 12-spoke 'swirl' design are standard on the Highlander Limited. All models come with a full size spare wheel and a rugged black contrasting trim framing each flared wheel arch.

The Limited models bring added light into the cabin with a tilt and slide sunroof.

HIGHLANDER

# LIMITED ZR

ALL WHEEL DRIVE  
3.5L V6 PETROL  
6-SPEED AUTOMATIC TRANSMISSION

The pinnacle in mid-size SUV comfort, specification and versatility come in the form of the Highlander Limited ZR. With premium additions on board such as 19" Chrometec Iridium Chrome-plated Alloy wheels, 9" ceiling mounted rear entertainment, Dynamic Radar Cruise Control (DRCC), independent air conditioning and a leather interior - this is the ultimate Highlander.

HIGHLANDER LIMITED ZR IN CRYSTAL PEARL

Both Limited's feature Blind Spot Monitor (BSM) technology, which uses sensors to detect other road users that may be in your blind spot. A warning light appears in the mirror closest to the object

Leather seat facings and high grade interior accents add to the luxury in Highlander Limited ZR.

In darkness a luxurious blue ambient light system highlights key decorative detailing on the Limited ZR door trims and the open shelf in the dashboard.

In both Limited grades, those seated in the 2nd and 3rd rows enjoy a rear entertainment system, which is perfect for entertaining younger members of the family on longer trips. Incorporating a ceiling mounted 9" high resolution LCD display, the system has a remote control and plays both DVD and Blu-ray format discs, as well as boasting an SD card slot for image and AVCHD format video playback.

Lane Departure Alert (LDA) is an advanced safety feature. If the vehicle unintentionally leaves its lane, LDA will beep and alert the driver.

Both front seats in Limited ZR add extra luxury with heaters for winter months and coolers for summertime comfort.

Limited ZR features Dynamic Radar Cruise Control (DRCC). Using advanced radar technology, sensors allow the driver to pre-set speed and maintain a safe distance from the vehicle in front.

The Limited models feature steering wheel controls with instant hands-on access to audio, Multi-Information Display, cruise control and air conditioning; they're all there to add to your driving pleasure. Limited ZR adds a control for Dynamic Radar Cruise Control.

# Safe and secure

Safety is optimised for the 2WD GXL with Vehicle Stability Control (VSC) and Traction Control (TRC), while AWD models receive an advanced active safety system incorporating Vehicle Stability Control Plus (VSC+), Traction Control (TRC) and Downhill-Assist Control (DAC) which improves directional control by braking the vehicle for the driver when negotiating steep or slippery descents, leaving the driver to concentrate on steering.

All Highlander models now feature a reversing monitor to ensure you can see behind you before reversing along with Anti-lock Braking Systems (ABS), Electronic Brake-force Distribution (EBD), Brake Assist (BA) and Hill-start Assist Control (HAC) to help control the vehicle when starting off on a steep gradient. The Highlander Limited ZR also features an exclusive Pre-Crash Safety System, which includes Pre-Crash Brake and Brake Assist (BA).

Every Highlander also has 7 airbags fitted, including front airbags for the driver and front passenger seats, along with a knee airbag for the driver. In addition, the driver and front passenger seats have side airbags, and curtain shield airbags provide side protection throughout the cabin, including the 3rd row of seats. With all this safety technology on board, it's no wonder the Highlander achieved a 5-star ANCAP safety rating.

Highlander has achieved 5-stars in the ANCAP safety test.

Front seat pre-tensioners instantly tighten the seat belts at the time of a collision to help enhance occupant restraint performance. The force limiter function loosens the seat belts while maintaining the load to help mitigate the impact to the chest regions of the front seat occupants.

Be seen sooner. Highly visible LED Daytime Running Lights (DRL) are standard on all models.

Rear parking sensors on all Highlanders make parking a breeze with the help of a reversing camera display on the touchscreen that also shows static backing guide lines.

You can rest assured that the entire Highlander range offers a comprehensive suite of safety features.
