# FEATURES & OPTIONS

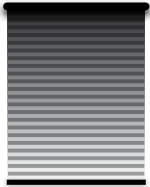

## STANDARD SHADE

- Aluminum rail & cord-operated
- Color-coordinated components

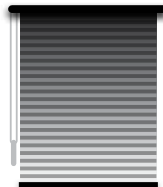

## 2-ON-1 HEADRAIL

- Perfect for larger windows
- Allows two shades to mount on one rail
- Each shade is adjusted independently

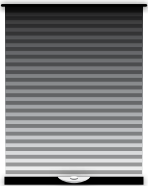

## PREMIUM CORDLESS

- **Enhanced Safety** design eliminates cords
- Superior performance
- Also available in Top-Down/Bottom-Up

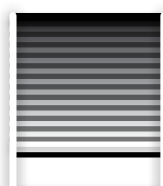

## CONTINUOUS CORD

- Perfect for larger windows
- Smooth lift-assisted movement
- Eliminates dangling cords

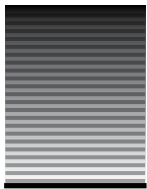

## LIFT & LOCK™ CORDLESS

- **Enhanced Safety** design eliminates cords
- Handle to control operation by locking shade in desired location
- Also available in Top-Down/Bottom-Up

## SKYLIGHT SHADE

- Perfect application for hard to reach skylights
- Available in AMP™ Motorized system option

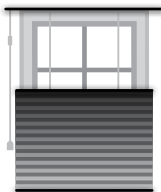

## AMP™ MOTORIZED SHADE

- Perfect for hard-to-reach windows
- Programmable remote control
- **Enhanced Safety** design eliminates cords
- Compatible with smart phone or tablet app

## DAY/NIGHT

- Provides privacy & controls light with two fabrics
- Translucent fabric on top to enhance light
- Blackout fabric on bottom to eliminate light
- Middle rail connects & adjusts both fabrics
- Also available in **Lift & Lock™ Cordless & Premium Cordless**

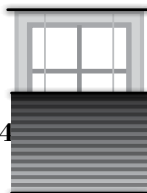

## TOP-DOWN

- Provides privacy & enhances light flow and view
- Stacks neatly at bottom of window

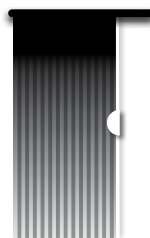

## SPECIALTY ARCHES

- Fan-style arches & quarter circles
- Moveable or stationary systems

## TOP-DOWN/BOTTOM-UP

- Maximum privacy & light control
- Middle rail & bottomrail adjust to desired locations
- Raise shade up from bottom to maximize light
- Available in **Premium Cordless, Lift & Lock™ Cordless, Continuous Cord and Motorized options**

## VERTICAL HONEYCOMB

- Side-to-side operation
- Accommodates sliding doors
- Perfect for room dividers & rectangular windows
- Grand Pleat size available
- **Enhanced Safety** design eliminates cords

## ENHANCED SAFETY DESIGN

Cordless, Motorized and Vertical Honeycomb operating systems utilize enhanced safety cordless design to offer a safer alternative for children and pets.

Refer to pages 20 - 23 for fabric specifications and limitations. Some systems have limited rail color coordination available.

# VERTICAL HONEYCOMB SPECIFICATIONS

## VERTICAL HONEYCOMB SHADES

Vertical Honeycomb shades fit rectangular windows, sliding glass doors, and door openings. Vertical Honeycomb shades open and close from side-to-side to accommodate sliding glass doors and are perfectly suited for use as room dividers. Vertical Honeycomb shades operate without dangling cords, hanging chains, or wands making them a safer choice for children and pets.

Available in 3/4" Single Cell Blackout, 3/4" Single Cell Translucent and Grand Pleat fabrics.

Color coordinated components.

## VERTICAL HONEYCOMB SHADE SURCHARGES

<b>Center Stack</b> .....	Price as Standard + 195
<b>Split Stack/Center Opening</b> .....	Price as Standard + 195
<b>Dual Panel</b> .....	Price as two separate units and add together

## SIZE SPECIFICATIONS

<b>Minimum Width:</b> .....	12"
<b>Minimum Height:</b> .....	24"
<b>Maximum Width:</b> .....	168"
<b>Maximum Height:</b> .....	120"

**NOTE:**  
For Center Opening or Dual Panels, specifications are per fabric panel.

**NOTE:**  
Center Opening shades are available in widths up to 336".  
If width is greater than 168", it will be fabricated as two shades with a single valance piece to create the illusion of a single shade.

## NO SURCHARGE OPTIONS

- Extension brackets
- Spacer blocks

**Note on order any options required**

## FINISHED DIMENSIONS

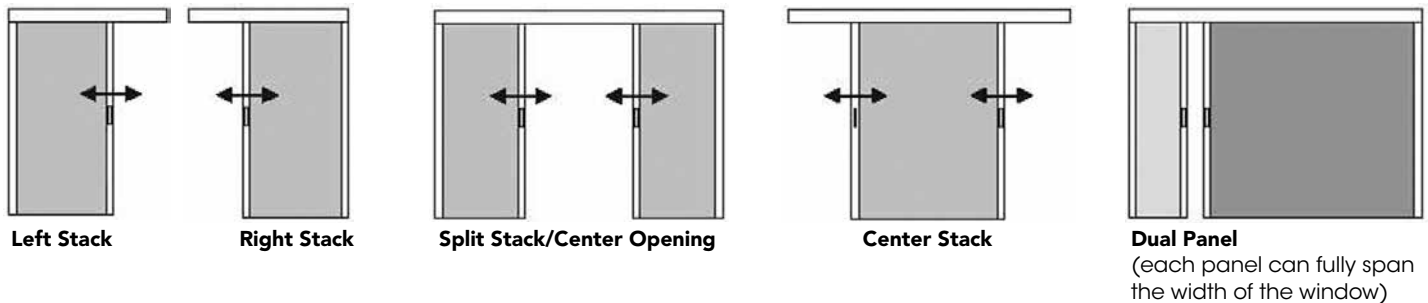

<b>Inside Mount:</b>	
<b>Headrail Unit:</b> .....	less 3/16"
<b>Shade Height:</b> .....	less 1/2"
<b>Valance Width (non-flush):</b> .....	plus 1 1/4"
<b>Valance Width (flush):</b> .....	less 3/16"

## Outside Mount:

<b>Headrail Unit:</b> .....	ordered width
<b>Shade Height:</b> .....	ordered height
<b>Valance Width:</b> .....	plus 1 1/4"

Width and height measurements may vary +/- 1/8".

## VERTICAL HONEYCOMB SHADE STACKING CONFIGURATIONS

Refer to pages 16 - 17 for Summerfield™ Vertical Retail Price Grids  
Refer to pages 20 -21 for Shade Specifications by Fabric

# VERTICAL HONEYCOMB SPECIFICATIONS

## ALUMINUM VALANCE

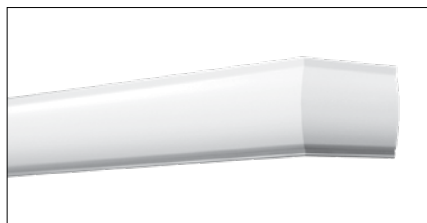

An Aluminum valance comes standard with Pinnacle® Summerfield Honeycomb Vertical shade order.

Aluminum Valance Height: 2 3/4"

Color coordinated components.

**NOTE:**

Vertical Honeycomb shade widths over 190" may require the valance to be spliced.

## MOUNTING REQUIREMENTS

### Inside Mount:

Minimum Mounting Depth: ..... 3/4"

### Flush Mount:

Minimum Mounting Depth for Aluminum Valance ..... 3 5/8"

Minimum Mounting Depth for Alternative Wood Valance ..... 4"

### Outside Mount:

Minimum flat vertical surface ..... 5/8"

### Fabric Stacking:

Stack determined by hardware, not ordered width ..... 6 1/2"

## CHECKLIST FOR ORDERING

- Specify inside flush, inside non-flush, or outside mount. If inside non-flush mount, either the inside mounting depth or the exact valance return length (minimum 1 1/2") must be specified.
- With outside mounts, allow 3" to 6" overlap on each side to minimize light gap, and account for minimum vertical mounting surface and desired floor clearance when specifying height.
- Specify stacking configuration.
- On split stack shades, both panels will be of equal width, unless otherwise specified.
- On dual panel shades, specify which fabric stacks to the left and which fabric stacks to the right. Note: Different pleat sizes cannot be combined on the same shade.
- Standard handle height ranges from 40" to 50" from bottom of moving rail; specify any non-standard handle height.
- An aluminum valance is included in the price of each shade.
- Specify spacer blocks or extension brackets, if desired.

# DIMENSIONS & MOUNTING SPECS

## FINISHED DIMENSIONS

### Inside Mount:

Headrail\* will measure ordered width less 3/8"

### Outside Mount (End Cap to End Cap):

Headrail\* will measure ordered width.

\*Headrail Measurements include end caps.

Width and Height Measurements may vary +/- 1/8".

## NO CHARGE OPTIONS:

- Special Cord Lengths
- Hold Down Brackets
- Spacer Blocks
- Extension Brackets
- Cord Cleats
- Side Mount

Note on order any options required.

## WIDTH LIMIT - SIDE MOUNT BRACKETS

Recommended 48" width limit on shades installed with side mount brackets.

## MOUNTING:

### Standard Rail & Lift & Lock™ Standard Rail:

Minimum Shallow Mounting Surface:	1/2"
Minimum Flush Inside Mounting Surface:	2"
Minimum Outside Mounting Surface:	3/4"

### Deluxe Rail\* & Lift & Lock™ Deluxe Rail:

Minimum Shallow Mounting Surface:	1/2"
Minimum Flush Inside Mounting Surface:	2 1/2"
Minimum Outside Mounting Surface:	3/4"

### Continuous Cord System:

Minimum Shallow Mounting Surface:	1"
Minimum Flush Inside Mounting Surface:	2"
Minimum Outside Mounting Surface:	1"

### Premium Cordless System\*:

Minimum Shallow Mounting Surface:	1"
Minimum Flush Inside Mounting Surface:	2"
Minimum Outside Mounting Surface:	1"

### AMP™ Motorization:

Minimum Shallow Mounting Surface:	1 1/2"
Minimum Flush Inside Mounting Surface:	3 3/8"
Minimum Outside Mounting Surface:	1 1/4"

Deluxe rail is used for fabrics with larger pleat size.

## RAIL MEASUREMENTS

When measuring and installing, please keep in mind the following rail measurements:

### Standard Rail & Lift & Lock™ Standard Rail:

Depth:	1 7/16"
Height:	1/2"

### Deluxe Rail & Lift & Lock™ Deluxe Rail:

Depth:	1 7/8"
Height:	1/2"

### Deluxe Continuous Cord System:

Depth:	2"
Height:	2"

### Premium Cordless System:

Depth:	1 11/16"
Height:	1 5/16"

### AMP™ Motorization System:

Depth:	1 11/16"
Height:	1 5/16"

# SUMMERFIELD SKYLIGHT SPECS

## APPLICATIONS

- Fits rectangular window openings
- Operates manually (with handle) on any slope or orientation; ideal for skylights (extension pole available)
- AMP™ motorization available
- Ends of headrail, moving rail, and anchor rail are enclosed by side tracks
- Can be ordered to have the fabric stack at the top or bottom

## STANDARD SIZES

Minimum Width:.....	18"
Maximum Width:.....	60"
Minimum Height:.....	6"
Maximum Height:.....	72"
Maximum Square Feet:.....	25

## MOUNTING REQUIREMENTS

### Inside Mount 3/8" Single Cell:

Minimum Mounting Depth:.....	1"
Minimum Mounting Depth Flush Mount:.....	1 11/16"

### Outside Mount 3/8" Single Cell:

Minimum flat vertical surface.....	5/8"
------------------------------------	------

### Inside Mount 3/4" Single Cell:

- Minimum Mounting Depth:..... 1 1/4"
- Minimum Mounting Depth Flush Mount:..... 2 1/2"

### Outside Mount 3/4" Single Cell:

- Minimum flat vertical surface..... 1"

## HOW TO PRICE

### Add Skylight surcharge of \$100 to standard base price

- All base prices are predicated on Ordered Dimensions not Finished Dimensions
- Optional extension pole available with a surcharge
- AMP™ Motorization available

## CHECKLIST FOR ORDERING

- Specify inside (IB) or outside (OB) mount
- Specify shade orientation - vertical, sloped, or horizontal
- Specify fabric stacking - stack top, stack bottom, or stack side
- For stack side applications, use width specification for height and use height specifications for width
- Specify optional extension pole, if desired

## FINISHED DIMENSIONS

All allowances are taken from ordered dimensions and may vary  $\pm 1/8"$  from those shown below.

### Inside Mount:

Headrail Unit:.....	less 3/16"
Shade Height:.....	ordered height
Fabric Width:.....	less 3/4"

### Outside Mount:

Headrail Unit:.....	plus 3/4"
Shade Height:.....	ordered height
Fabric Width:.....	ordered width

*Note: All finished dimensions include side tracks.*

## HARDWARE

- 785 Aspen White only
- Installation brackets included
- Extension pole available (surcharge applies - specify on order)

## NOTES

- Support cord is required when shade is over 36" wide in sloped or skylight applications
- Rail stiffener required with shades over 42" wide

## SKYLIGHT WITH AMP MOTORIZATION SPECS

Maximum Width:.....	48"
Maximum Height:.....	72"
Maximum Square Feet:.....	24

## FABRICS AVAILABLE

<b>Essence D8/D9</b>	3/4" Single Cell Sheer
<b>Allure D6</b>	3/4" Single Cell Sheer

# AMP™ MOTORIZED LIFT SYSTEM

## AMP™ MOTORIZATION DETAILS:

Summerfield Honeycomb shades can be motorized with the AMP Motor powered by a rechargeable Li-ion battery. Shades can be controlled with AMP Remote via AMP App using USB Bridge. AMP App allows voice command and other home integration devices.

## APPLICATIONS:

- Fits rectangular window opening
- Standard Shades in Select Summerfield Fabrics
- Skylight AMP Motorization Available

## AMP™ Remote

- Up to 15 channel remote with 3V (CRV2450) battery
- Standard Remote available in black or white
- TD/BU Remote available in white
- Magnetic holder included
- Channel 0 (zero) controls all shades assigned to remote
- Ability to hide extra channels
- Locking feature prevents unwanted configuration changes

## AMP™ Bridge

- USB Bridge enable App control from iOS and Android devices
- Radio frequency 433Mhz with 2.4 Ghz Wifi built-in
- Bi-directional RF communication allows shade position and battery level status to be seen on the APP
- Integrated with Amazon Alexa, Google Assistant, Apple Shortcuts, and IFTTT

## SPECIFICATIONS

- Wire-free motor powered by rechargeable Li-ion battery
- 500 cycles per charge; 500 recharges per motor
- Variable speed control
- Shades can be controlled via Remote or AMP™ App using USB Bridge
- AMP™ USB Bridge allows bi-directional communication with shade position reporting & battery level status

## AMP™ Charger

- 5V/2A charger for DC battery motors
- Fully charges in approximately 4-6 hours
- Has LED indicator
- Micro USB wire cable included (6 feet)

## AMP™ APP

- IOS / Android compatible
- Voice control - Google Home / Amazon Alexa / Siri integrated
- Rooms / Scenes / Timer features
- Live feedback
- Monitor battery level status
- Easy shade scheduling

# AMP™ MOTORIZATION

**HOW TO PRICE** - Price shade as Continuous Cord Loop and add for motorization

## Standard Motorized

Motorized Standard with Battery Pack.....	<b>\$490</b>
AMP Remote Control for Standard .....	<b>\$150</b>
AMP Charger .....	<b>\$85</b>

\* Add surcharge for at least one Remote Control per order.

## Top Down / Bottom Up Motorized

Motorized TDBU with Battery Pack.....	<b>\$650</b>
AMP Remote Control for TDBU .....	<b>\$185</b>
AMP Charger.....	<b>\$85</b>

\* Add surcharge for at least one Remote Control per order.

## ADDITIONAL AMP™ MOTORIZED OPTIONS AVAILABLE

See Reference Guide AMP Motorization for breakdown including item numbers (chart below).

### AMP Motorization Options

AMP Bridge .....	<b>\$440</b>
AMP 10' Cable Only (for charger).....	<b>\$20</b>
AMP Motor Extension Cable Only - 4' .....	<b>\$10</b>

### Motorization Details:

- Minimum Width for Standard Motorization - 18"
- Minimum Width for TDBU Motorization - 27"
- Minimum Width for Skylight Motorization - 18"
- Maximum width and height will vary by fabric.
- See Shade Specifications by Fabric pages 20 - 21

### Mounting Requirements:

#### Inside Mount:

Minimum Mounting Depth.....	1 1/2"
Minimum Mounting Depth for Flush Mount .....	3 3/8"

#### Outside Mount:

Minimum Flat Vertical Surface .....	1 1/4"
-------------------------------------	--------

### Ordering Considerations

- Order shade size and specify inside or outside mount
- Price all applicable surcharges
- Specify right or left side for motor
- Specify number of remotes and chargers
- Specify programming on order form
- Initial charge of battery - 6 hours

### AMP™ Motorization - 5 Year Warranty

## Reference Guide - AMP™ Motorization for Summerfield™

	<i>Retail</i>
<b>Summerfield AMP Motor - Standard with Battery</b>	<b>\$490</b>
<i>includes:</i>	
62006000 AMP Motor	\$300
62203100 AMP External Battery Pack (fits inside headrail)	\$190
<i>At least one remote and charger required per order</i>	
<b>Summerfield AMP Motor - Standard with Plug In Transformer</b>	<b>\$390</b>
<i>Includes:</i>	
62006000 AMP Motor	\$300
62209000 AMP Plug In Transformer (AC Adapter) with 60" Cord	\$90
<i>At least one remote required per order</i>	
<b>Summerfield AMP Standard Remote</b>	<b>\$150</b>
<i>Specify by Color. At least one remote required per order</i>	
62101000 AMP 15 Channel Remote White	\$150
62101010 AMP 15 Channel Remote Black	\$150
<b>Optional Extension Cable</b>	<b>\$10</b>
<i>Extension available for alternate battery placement away from shade</i>	
62207000 AMP 4' (48") Standard Motor Extension Cable	\$10
<b>Summerfield AMP TDBU Motor</b>	<b>\$650</b>
<i>includes:</i>	
62009000 AMP TDBU Motor	\$290
62009100 AMP TDBU End Cap Receiver	\$145
AMP Cable TDBU Motor to End Cap	\$25
62203100 AMP External Battery Pack (fits inside headrail)	\$190
<i>At least one remote and charger required per order</i>	
<b>Summerfield AMP TDBU Remote</b>	<b>\$185</b>
<i>At least one remote required per order</i>	
62101100 AMP TDBU Remote 15 Channel (White Only)	\$185
<b>AMP Charger</b>	<b>\$85</b>
62205000 AMP Charger includes 3' USB Cable *	\$85
<i>* Motor may be charged with cell phone charger</i>	
<b>Optional USB Cable for purchase</b>	<b>\$20</b>
<i>USB Cable Only - For charger to replace 3' cable</i>	
62206000 AMP 10' (120") USB	\$20
<b>AMP Bridge</b>	<b>\$440</b>
62102000 AMP Bridge	\$440

# MEASURING INSTRUCTIONS

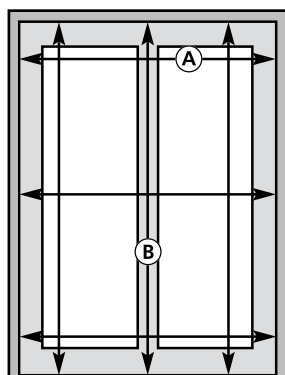

Accurate measurements are essential, for both correct pricing and proper fit. Use only a hard-edged ruler or steel tape, never a cloth tape. For inside mounts, width measurements (A) should be rounded down to the nearest 1/8" to prevent shade or vertical honeycomb from binding against the window casing.

## INSIDE MOUNT (IB)

Use a steel tape to measure the opening width (A) at three different places, and use the narrowest dimension when ordering. Be exact! The factory will make the fabric 3/8" narrower so it will not rub against the window casing and the headrail 1/16" narrower. Measure the height (B) of the window from the top (Soffit) down to the sill.

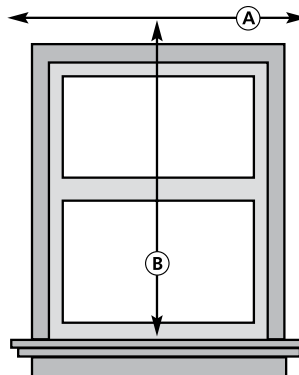

**INSIDE MOUNT (IB)**  
Honeycomb Shade

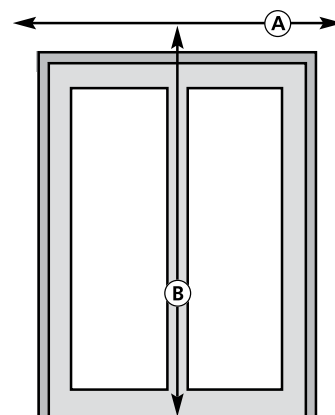

**INSIDE MOUNT (IB)**  
Vertical Honeycomb

## OUTSIDE MOUNT (OB)

Use a steel tape to measure the exact width (A) and height (B) of the area to be covered. It is recommended that the shades overlap the window by at least 1 1/2" on each side. When installation has no sill, allow the shade to overlap the bottom of the window casing by at least 1 1/2". Shade or vertical honeycomb will measure width indicated on the order form.

**OUTSIDE MOUNT (OB)**  
Honeycomb Shade

**OUTSIDE MOUNT (OB)**  
Vertical Honeycomb

## 5 STEPS TO AN ACCURATE TEMPLATE

1. Tape butcher paper or heavy wrapping paper over the window opening, allowing plenty of overlap. Do not use paper that has ever been folded; a template can have no folds or creases.
2. Draw an exact outline of the window opening. Do this by carefully tracing over the inside edge of the window frame.
3. Remove the paper from the window opening. If the shade is an outside mount, add the desired amount of overlap to the window outline and draw a second outline around it to match the shape of the finished shade.
4. Mark the shade dimensions on the template. Check that the template dimensions match the measurements of the actual window opening.
5. Identify the template and its orientation. Write the customer's name and PO# on the template, and mark the ROOM SIDE and TOP. Roll up the template and place it in a mailing/shipping tube.

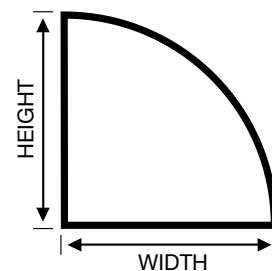

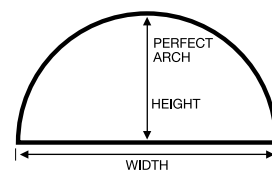

### DO NOT FOLD TEMPLATE

#### IMPORTANT:

*Template must be cut out in the exact shape of the window opening and tested in window for correct fit.*

## ARCHES & QUARTER CIRCLES

- For inside mounts, measure the exact width and height inside the window opening.
- For outside mounts, measure the desired width and height.
- Measure the height at its tallest point.
- All arch shades can only be made for perfect arches. For perfect arches height will equal one-half the width.
- For quarter circles, height must equal width.

### TEMPLATE REQUIRED FOR ALL ARCHES AND QUARTER CIRCLES

# SUMMERFIELD™ Ordering Reference Steps and Tips

## How To Order

The total retail price for a Summerfield™ Honeycomb Shade is determined by the following information:

1. Fabric selection
2. The size of the shade ordered
3. Options requested

---

### 1. FABRIC SELECTION

Each fabric uses a separate price chart located in the pricing section, pages 6 - 17 for Summerfield™ Honeycomb grids. Take note of size limitations. Some options are only available in restricted sizes.

---

### 2. SIZE OF SHADE

**On the appropriate price chart, the shade's base price is determined by the size of the shade.**

- Round up the shade's measured width and height to the nearest width and height dimensions on the chart.
- Locate the shade's base price - follow down the column under the shade's rounded-up width until it crosses the line of prices for the shade's rounded-up height. Where the two intersect is the shade's correct base price.

---

### 3. OPTIONS REQUESTED

Below each price chart is information for that fabric's available options. Add the appropriate surcharges to the shade's base price to arrive at the shade's total price.

## Ordering Tips

**Use Standard Order Form on page 31 when ordering Summerfield™ Honeycomb Shades.**

**Use Motorized Order Form on page 32 when ordering Summerfield™ Motorized Shades.**

**Use Vertical Order Form on page 33 when ordering Summerfield™ Vertical Shades.**

- Size Limitations: Some options are only available in restricted sizes. See pages 20 - 21 for Shade Specification by Fabric.
- Day-Night Shade Fabric Restrictions: Fabric combinations are limited to two fabric groups. Refer to the appropriate specifications page for details.
- Continuous Cord Recommendations: Large shades, within the boxed area of the price charts, are easier to operate using a Continuous Cord system.
- Be sure to use exact width and height dimensions when ordering.

*In addition to the correct price, all orders must include the following information:*

- Fabric selection
- Color name & color number
- All options requested
- Position of controls, left or right side
- Accurate measurements for the shade's width and height
- Type of mounting required:
  - Inside Mount (IB)
  - Outside Mount (OB)
- Desired window/wall clearance
- Other options such as hold-down brackets

# CARE, SAFETY & WARRANTY INFORMATION

## CARING FOR SHADES

While beautiful and pleasing to the eye, all products are designed to be durable, easily cared for, and easily cleaned. Non-woven fabrics are inherently anti-static and repel dust, but occasional feather dusting or vacuuming may be necessary to keep the fabrics clean and bright.

Spills and stains can be lightly blotted with a cloth or damp sponge. More difficult stains may require soaking in water with mild soap. To clean shades, remove them from the window and submerge in soapy

water, soak, and rub lightly. Lay flat to dry or place back in window and raise tightly to re-crisp pleats. Be sure to test any stronger cleaners on an unobtrusive portion of the shade before use. **DO NOT** submerge the Cordless headrail or Soft Double Cell fabric in water.

Summerfield Honeycomb shades should be raised and lowered monthly for pleat retention. Particularly important with Premium Cordless operating system.

## LIMITED LIFETIME WARRANTY

United Supply Company offers a limited lifetime warranty for Pinnacle Summerfield Honeycomb Shades. Summerfield Honeycomb Shades will be free from defects in materials and workmanship, under normal conditions of use and treatment, provided that the products were properly installed, and the products were made or assembled exclusively from United Supply Company materials and components. The obligations of United Supply Company, its fabricators, and distributors are limited to the repair or replacement of the shade or components found to be defective. This excludes shipping charges and labor costs for measuring, fabricating, and installation. United Supply Company will not be held responsible for any trip charges.

This warranty does not include any conditions or damages resulting from accidents, alterations, misuse, abuse, or failure to follow printed instructions on care and cleaning, installation, or repairs. This warranty also does not apply to conditions resulting from normal wear and tear. Please keep in mind that cords and like materials will wear over time and will have to be replaced. Cords are under warranty for 3 years.

Before using Summerfield Honeycomb Shades, the buyer should determine the suitability of the product for its intended use. United Supply Company shall not be held liable for any injury, loss, or damage resulting from the use of the shades.

This warranty does not cover damage to shade fabrics from using window cleaners or any similar substances. Please follow the printed instructions on **Care and Cleaning for Shades**. This warranty does not cover any damages incurred from removal or relocation of the shades.

**THIS WARRANTY IS EXCLUSIVE AND IN LIEU OF ALL OTHER OBLIGATIONS, LIABILITIES, OR WARRANTIES.**

In no event shall United Supply Company, its licensed fabricators, or distributors be liable or responsible for INCIDENTAL OR CONSEQUENTIAL DAMAGES or any other loss, cost, or fee associated with such damage. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation may not apply. AMP Motorization system motors and components hold a five-year warranty.

## CHILD SAFETY

Summerfield Honeycomb Shades are designed with child safety as a top priority. To reduce the risk of strangulation, fabrication methods incorporate features that comply with the current ANSI cord safety standards.

For Summerfield Honeycomb shades made with a clutch operating system, a tension device is provided by United Supply Company as a

safety measure. The tension device can help prevent children and pets from pulling cords around their necks. If the tension device is tampered with or modified, it will not work properly. Please take the necessary measures to ensure that the tension device has been properly installed to prevent accidental strangulation.
