Trademark and Disclaimer Information Inside back cover

IT ALL ADDS UP

Managing fuel costs and lowering expenses are of great importance to every fleet buyer. We know you're also concerned with the environmental impact of your fleets. With more than 90 car and truck models to choose from, GM will work with you to find the right vehicle to meet your needs and your budget. With so many capable vehicles and support services, the advantages of working with GM Fleet and Commercial really do add up.

GM'S BROAD VEHICLE LINEUP goes from Chevrolet Aveo to Cadillac DTS in passenger vehicles; Saturn VUE to Buick Enclave in SUVs; the top-selling lineup of full-size pickups; hardworking vans, chassis cabs and cutaways; and the medium duty models. GM offers a range that can't be matched by any other manufacturer. And that means one-stop shopping for all your vehicle needs.

HYBRID VEHICLES are an important part of this year's Guide. The Chevrolet Malibu, Saturn AURA and Saturn VUE (very limited availability) are all offered with the available GM Hybrid System. The VUE, Tahoe, Yukon, Escalade, Silverado and Sierra Hybrids use a new 2-mode full hybrid system (limited availability).

COST SAVINGS for our commercial customer come in the form of specialized programs like OnStar's Business Vehicle Manager to help manage your fleet; and longer service intervals through GM's Oil Life Monitoring System that tells your drivers when to change the vehicle's oil. This is all a part of the General Motors total value proposition for our fleet customers.

TECHNOLOGY on the vehicle and in our operations provides safe vehicles with advancements in air bags and StabiliTrak; greater fuel efficiency through passenger car and truck hybrid engines and Active Fuel Management™; FlexFuel vehicles that can run on E85 ethanol or gasoline; and on the Internet with gmfleet.com and the Online Order Guide providing a wealth of information.

PROFESSIONALS within General Motors and its dealerships are able to meet all of your business transportation needs. The many members of GM Fleet and Commercial are listed on the following pages, but it's important to know the depth of our professional staffs:

- Fleet Account Executives work with our larger fleet accounts and are always ready to answer your questions
- GM Fleet Service Contact Group personnel are dedicated to resolving all vehicle service issues quickly and efficiently
- Fleet Action Center staff offer managers of smaller fleets reliable information and answers
- More than 7,000 GM Dealerships across the country are staffed by salespeople and service technicians ready to assist you with your vehicle purchase, financing and service

All of these groups work together to support all of your vehicle sales and service needs.

And finally, GM celebrates its 100th anniversary this year. We're making it a point to include you in determining how we can both succeed in the next 100 years. Please take a look at the GMnext information on the following page – and give us your thoughts.

Thank you for your business. It's appreciated by every member of the GM team, and we will go out of our way every day of 2009 – and beyond – to exceed your expectations and continue to earn your loyalty.

Brian McVeigh
General Manager

GM ASKS YOU: “WHAT’S NEXT?”

What should power the world’s vehicles in 20 years? How can fleet and commercial transportation become more sustainable in an age of increasing global competition for resources? What role will the automotive industry play in developing markets?

Design

Tech

Green

Ideas

Reach

Decisions on issues like these will largely shape transportation in the 21st century. To speed the process, GM will mark its 100th anniversary by launching a global dialogue through an initiative called GMnext.

“We’re starting our second century at a time of fundamental change in the auto industry,” said GM Chairman and CEO Rick Wagoner. “We’ll use GMnext to introduce some of our ideas for addressing critical issues concerning energy, the environment and globalization. In the process, we also hope to spark a broader, global discussion on these important topics.”

To initiate that dialogue, GMnext will spotlight GM’s introduction of next-generation vehicles and technologies, including new applications of the E-Flex drive system and continued work on GM’s line of Plug-In and Two-Mode hybrids.

The medium for the dialogue will be a dedicated website, GMnext.com. The site is designed to encourage feedback and interaction among participants. In addition to GM news, positions and commentary, it will feature opinions and insights from the general public, from industry observers outside GM, and from the global media – both traditional and social.

A series of GMnext-themed activities started in January, will be capped by GMnext Days, a week-long global celebration in September of 2008 that will reflect on the company’s first century and highlight plans and products that will begin to define its second century. Plans for GMnext Days will be announced in the near future.

MEET YOUR NEW BUSINESS PARTNER

To get started, visit gmfleet.com.

Small Business

We're here to help you make the best business decisions without wasting time or resources.

- Search our comprehensive Vehicle Showroom
- Find current offers
- Locate a dealer and learn what our dedicated Business Central dealers can do for you

Fleet

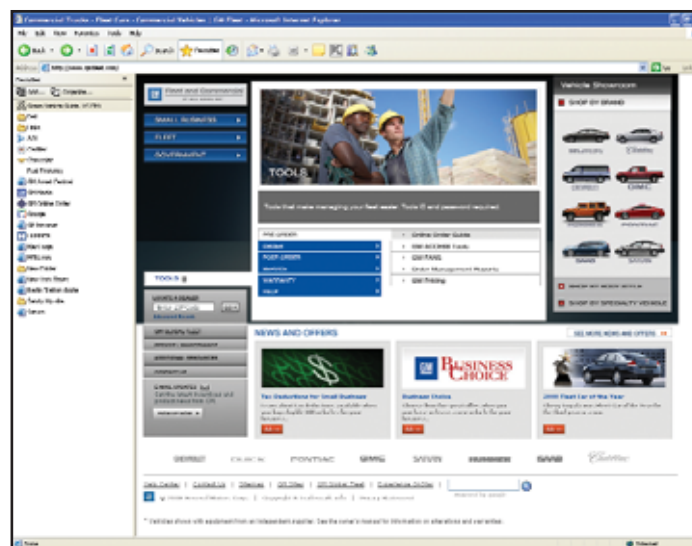

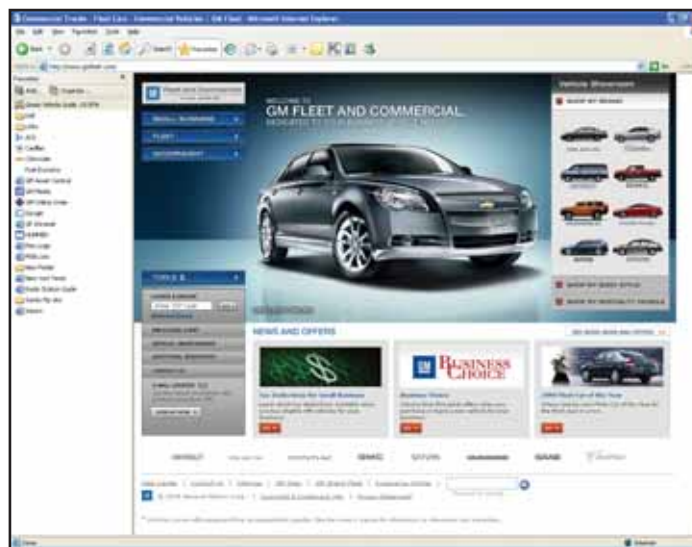

Simplify your vehicle management decisions throughout the year.

- Streamline your fleet vehicle research with the Vehicle Showroom and Online Order Guide
- Get details on GM's industry-leading vehicle technologies like StabiliTrak® and OnStar®
- Find a Fleet Account Executive (FAE) to assist you with purchasing and management
- Access fleet ordering, service, and warranty tools

Government

Get specific information and tools to meet the needs of federal, state and municipal government fleets.

- Research police, alternative fuel, and commercial application vehicles
- Find a Municipal FAE to help you through the bid process
- Locate GSA catalogs, GSA Auto Choice, and vehicle standards

TAKE YOUR BUSINESS TO THE NEXT LEVEL

A Comprehensive Vehicle Showroom

More than 90 car and truck models make up GM's broad lineup. Find the models that best meet your business needs with the Vehicle Showroom, which includes standard and optional equipment, detailed specs, photo galleries and more.

Tools

Access ordering, maintenance and account tools – resources that can help take your business to the next level.

- Fleet Order Status
- Product Availability
- Online Order Guide and more

Service and Maintenance

We offer a wide variety of helpful service and warranty tools, including:

- Service Bulletins and Manuals
- Vehicle Warranty Information
- Fleet Service Programs
- Service and Technical Training

Visit gmfleet.com

DEALERS DEDICATED TO YOUR BUSINESS

Chevrolet and GMC Business Central dealers across the country feature knowledgeable, professionally trained staff committed to helping businesses like yours identify the vehicles you need to operate your business effectively and efficiently. The right vehicles to get the job done, equipped the way you need them!

At a Business Central dealer, you'll find a wide selection of vehicles designed to tackle even the most demanding job. They stock work-ready vehicles, on-hand and ready to be delivered to you to keep your business moving. But if you're not certain a particular truck or van is right for your business, many Business Central dealers maintain a supply of demonstration vehicles for you to tryout. And if you require a vehicle with special upfits or equipment, your Business Central dealer works closely with specialty vehicle manufacturers to locate what you need.

Your time is valuable – when one of your vehicles needs maintenance, you're not able to take care of your customers. Business Central dealers understand this and have service facilities geared to keeping your vehicles on the road and operating at peak efficiency. They have equipment and expertise to conduct routine maintenance and make necessary repairs to keep you on the road and contributing to your bottom line.

Let a Business Central dealer be your one-stop vehicle shopping resource – where all of your business vehicle needs can be found in one place. Many Business Central dealers will even send a salesperson to you to help you get the vehicles you need. You'll save time, get the right vehicle and the service you need without running all over town.

Chevrolet and GMC Business Central Dealers:

- Committed to businesses like yours
- Dedicated, knowledgeable, trained staff
- Commercially-oriented demonstrator vehicles
- Inventory of work-ready commercial trucks and vans available for quick delivery
- Access to Special Vehicle Manufacturers to help you get special upfits and equipment you need to get work done
- Service facilities staffed and equipped to cater to business customers

For full information and the location of Chevrolet and GMC Business Central dealers, visit our websites:

chevybusinesscentral.com

gmcbusinesscentral.com

GM Business Choice is a valuable offer designed specifically for business owners who use vehicles in the day-to-day operation of their business and not solely for transportation purposes.

This offer is available with eligible Chevrolet and GMC vehicles and provides a variety of upfit or card option choices.

UPFITS		CARDS	
 	 <p>Upfit Cash</p>	 	
OPTION A ¹	OPTION B ²	OPTION C ³	OPTION D ⁴
Van or truck upfit packages to meet your business needs	Flexible \$500 or \$1,000 upfit cash options for vans and trucks	\$500 Lowe's Gift Card with your eligible purchase or lease	\$500 statement credit on the GM Business World Card

The GM Business Choice Program runs from October 1, 2008 through September 30, 2009. You must purchase or lease your vehicle during the program period.

2009 GM BUSINESS CHOICE PROGRAM REQUIREMENTS

The 2009 GM Business Choice program runs from October 1, 2008 through September 30, 2009. To qualify for the GM Business Choice program, your vehicles must be part of the day-to-day operations of your business and not solely for transportation purposes. You must provide proof of your business. Visit gmbusinesschoice.com or see your Chevrolet or GMC dealer for complete program details. This program may not be compatible with other offers or incentive programs. Consult with your Chevrolet or GMC dealer for program compatibility and other restrictions. For complete program requirements, consult your Chevrolet or GMC dealer or gmbusinesschoice.com.

1 Depending on package chosen from Chevrolet or GMC Accessories or Adrian Steel®. Please refer to the vehicle eligibility chart at gmbusinesschoice.com or see dealer for details.

2 Visit gmbusinesschoice.com for a complete list of eligible upfit equipment. General Motors reserves the right, via Program Headquarters, to make final decisions regarding eligibility of equipment.

3 The entire gift card may be used for future purchases only. No cash back is given on any unused amount. Lowe's and the Gable Mansard Design are registered trademarks of LF, LLC.

4 The 2009 GM Business Choice program runs from October 1, 2008 through September 30, 2009. Only GM Business Card World MasterCard® applicants not meeting credit requirements will receive a GM Business Choice MasterCard® Stored Value Card. Earnings may only be earned on transaction amounts up to a Cardmember's available credit line. Please see the GM Business Card World MasterCard® Program Rules that are applicable to your account. Earnings are administered by Chase. GM World MasterCard® for Business Cards are issued by Chase Bank USA, N.A. and may be serviced by its affiliates. Some services may be provided by MasterCard® or other providers. Certain restrictions and limitations may apply. Complete details will be provided upon establishing an account. MasterCard® is a registered trademark of MasterCard International.

The GMAC Commercial Services Group, located in Dallas, Texas, serves business accounts for the entire United States. We have the knowledge and special programs to fit most business transactions that you, as a business customer, depend on to meet your day-to-day requirements. Please contact your local General Motors dealer to inquire about the various plans and programs we offer.

GMAC Commercial SmartLease

(Closed-End Lease Plan) — SmartLease is an affordable way for qualified commercial customers to obtain the new vehicles they need. Terms can be up to 48 months and the residuals can be enhanced for special incentives. With SmartLease, customers pay for the portion of the vehicle they expect to use during the lease term, plus a rental charge, taxes and fees. As a result, SmartLease offers a number of distinct advantages over traditional financing, including potentially lower monthly payments, no resale or trade-in worries, and possible tax benefits. This option also allows customers to lease vehicles with certain specialized upfits. Contact your local GM dealership for additional information.

GMAC ComTRAC Lease

(Open-End Lease Plan) — ComTRAC Lease is an open-end lease plan designed as an alternative to our closed-end Commercial SmartLease. ComTRAC Lease allows customers to take advantage of leasing benefits without the typical security deposit, mileage restrictions and wear-and-tear issues associated with a closed-end lease. In addition, most specialized equipment (upfits) can be financed in the ComTRAC Lease program. Think of ComTRAC as leasing to own; the customer is responsible for the residual value. ComTRAC Lease is available to qualified commercial customers who use their vehicles more than 50% of the time for business purposes. With terms up to 60 months and residuals possibly as low as 0%, the plan is flexible. GMAC owns the vehicle during the lease term, which could give customers potential tax and accounting benefits. If there is a residual balance due to GMAC at the end of the lease term, the customer can purchase the vehicle, trade the vehicle, or sell the vehicle by paying GMAC the residual value plus any unpaid payments and charges. Also, the customer can return the vehicle to

GMAC for remarketing for a fee of \$250 for light duty vehicles and \$500 for medium duty vehicles. If the net sale proceeds are less than the residual value plus unpaid payments and charges, the customer is responsible for the difference. Contact your local GM dealership for additional information.

GMAC Municipal Lease-Purchase Plan

The Municipal Lease is a retail financing program for use by eligible municipalities or political subdivisions for their essential-use vehicles at favorable tax-exempt interest rates. Essential-use vehicles are those vehicles required for the proper functioning of the municipality. Specifically, this plan is designed for municipalities that intend to own their vehicles. The agreement offered to the municipality is highly specialized and includes requisite clauses that allow municipalities to enter into this type of transaction. Eligible vehicles include any new or used passenger car or light- or medium-duty truck up to one model-year old acquired from a dealership with a GM franchise. Upfitted vehicles are also eligible. Municipalities may choose monthly, quarterly, semiannual, or annual payment options. Contact your local GM dealership for additional information.

GMAC Commercial Line of Credit

The Commercial Line of Credit is designed for commercial applications of financing or leasing and is a quick and convenient way for companies to build their commercial fleets. It is flexible enough to meet the individual needs of almost any business. GMAC's Commercial Line of Credit can provide businesses with an additional source of capital designed specifically for the purchase or lease of commercial

vehicles. By using the Commercial Line of Credit, the bank credit lines can be preserved for other business needs. Our goal is to provide quick, easy and flexible service. Once the Credit Line is established with GMAC, a business can build its commercial fleet quickly and easily. Credit Lines remain in effect for a full year. Talk to your local GM dealership about a Line of Credit now in order to make the buying process more efficient. GMAC's Commercial Line of Credit can be a great tool for your business. A Credit Line can be established at your local GM dealership.

GMAC Third Party Guaranty

The Third Party Guaranty program is an exceptional selling point for some customers who require a Co-Applicant. The program offers a method to keep the Co-Applicant's name off the title (e.g., for insurance purposes) by executing a Third Party Guaranty form. The Third Party Guarantor is not an owner of the vehicle and is not named on the contract or title. The Third Party Guarantor is only responsible should the owner default. The Third Party Guaranty provides an alternative for some customers in an effort to meet a wider variety of customer needs.

For more information on our plans and products, please visit our website at www.gmacfs.com and click on GMAC Automotive Financing under Business Customers.

The logo features the word "GMAC" in a bold, blue, sans-serif font. Below it is a horizontal bar with a blue segment on the left and an orange segment on the right. Underneath the bar, the words "Commercial Services" are written in a larger, bold, blue, sans-serif font.

FLEET ACCOUNT NUMBERS

Fleet Account Numbers (FANs) are assigned to qualified fleet users upon application to General Motors Fleet and Commercial through the GM Fleet Account Number System (GMFANS) website. All marketing divisions of General Motors utilize a Common FAN when ordering vehicles for fleets. Qualified fleet users may be eligible for fleet incentives, fleet programs and/or other incentives in conjunction with the purchase or lease of new cars and trucks. Dealers' orders for qualified fleet users may be eligible for fleet allocation, fleet programs and/or other incentives in conjunction with the sale or lease of new cars and trucks.

FLEET ENROLLMENT FORMS

Fleet customers should complete the Fleet Enrollment Screen on the GMFANS website at their GM dealer to be submitted to GM for approval. A qualified fleet user is defined as any company that has purchased and registered or leased five or more new cars and/or trucks (any combination of manufacturers) solely for use in its operation during the current or preceding calendar or model year or preceding 12-month period, or that owns or leases 15 or more cars and/or trucks. Political Subdivisions and Public Utilities are qualified fleet users — registration and ownership certifications are not required. All required fields on the enrollment screen must be completed prior to submission to GM for processing. Failure to complete required fields will result in immediate rejection of the application back to the dealer for completion. Qualified fleet users and/or GM dealers who do not comply with the Fleet Program requirements may have the Fleet Account Number canceled and may be charged back the amount of incentives or allowances. See the GMFANS website for retention rules and other stipulations.

FLEET ENROLLMENT APPLICATION PROCESSING

General Motors Fleet and Commercial Operations receives electronic applications for processing from the website. Each enrollment screen is reviewed prior to issuing new Fleet Account Numbers. The dealer will be informed of the results of this review via electronic mail. If the dealer or the fleet customer needs further clarification concerning a Fleet Account Number, a call should be placed to the Fleet Action Center at 1-800-FLEETOP (1-800-353-3867).

GENERAL MOTORS DUAL FAN (FLEET ACCOUNT NUMBERS) PROCESS

To process orders and deliveries for passenger cars and light duty trucks for Fleet Leasing and Fleet Management Companies, General Motors requires the use of two (2) Fleet Account Numbers. Orders of this type should be entered to the Order Workbench system using the order type "FLS — Fleet Leasing Company." Deliveries of these types of sales should be reported through the Customer Delivery Reporting system using the delivery type "014 — Fleet Leasing Company." The primary FAN to be entered is that of the Fleet Management or Fleet Leasing Company (lessor). The second FAN is that of the end user customer. This procedure allows both the dealers and GM to accurately track orders for its fleet customers.

WARRANTY AND OTHER PROGRAMS

CHEVROLET, BUICK, GMC, HUMMER, PONTIAC AND SATURN PASSENGER CARS AND LIGHT DUTY TRUCKS

2009 Chevrolet, Buick, GMC, HUMMER, Pontiac and Saturn owners are covered by a New Vehicle Limited Warranty and services that include the following:

Bumper-To-Bumper Coverage

- The 3-year/36,000-mile (whichever comes first) limited warranty covers repairs for all Chevrolet, GMC, Pontiac and Saturn vehicles, including labor and parts, to correct any defect in materials or workmanship occurring during the warranty period⁷
- A 4-year/50,000-mile (whichever comes first) limited warranty covers repairs for HUMMER and Buick vehicles, including labor and parts, to correct any defect in materials or workmanship occurring during the warranty period⁷
- The 6.6L Duramax Diesel engine is covered for 5 years or 100,000 miles, whichever comes first⁷
- Hybrid vehicles have separate component specific coverage⁷

Courtesy Transportation

- If your vehicle requires warranty repairs during the 5-year/100,000-mile coverage period, alternate transportation and/or reimbursement of certain transportation expenses are available under the Courtesy Transportation Program. Several transportation options are available
- Courtesy Transportation is not part of or included in the coverage provided by the New Vehicle Limited Warranty. It excludes vehicles in daily and long-term rental service. General Motors and General Motors of Canada Limited reserve the right to make any changes or discontinue the Courtesy Transportation program at any time without notification

Roadside Assistance

- GM is proud to offer the response, security, and convenience of GM's 24-hour Roadside Assistance Program for a period of 5 years or 100,000 miles, whichever comes first. Consult your dealer or refer to the Owner Manual for details⁹

THE BEST COVERAGE IN AMERICA

100,000 MILE
5-YEAR TRANSFERABLE POWERTRAIN
LIMITED WARRANTY⁷
+
100,000 MILE
5 YEARS OF COURTESY TRANSPORTATION
PROGRAM^{7,8}
+
100,000 MILE
5 YEARS OF ROADSIDE ASSISTANCE
PROGRAM^{7,9}

In addition to the standard 3-year/36,000-mile (whichever comes first) New Vehicle Limited Warranty, all 2009 GM passenger cars, light duty trucks or vans (excluding Saab and Medium Duty) come with a 5-year/100,000-mile (whichever comes first) Powertrain Limited Warranty⁷ that:

- has a \$0 deductible
- is transferable to another owner at no charge

Plus, 5 years/100,000 miles (whichever comes first) of Courtesy Transportation and Roadside Assistance.^{7,8} Excludes Saab and Medium Duty Trucks

CADILLAC OWNER PRIVILEGES

Ownership of a Cadillac encompasses the highest standard of privileges and benefits in addition to the renowned Cadillac Gold Key Delivery System, as listed below.

24-Hour Customer Assistance

- Contact Cadillac by calling the Customer Assistance Center at 1-800-458-8006, or through our website at www.cadillac.com. Our trained professionals are available to assist with any question or concern — 24 hours a day, 365 days a year.

Cadillac Roadside Service

- Cadillac is proud to offer the response, security, and convenience of Cadillac's 24-Hour Roadside Service Program for a period of 5 years or 100,000 miles, whichever comes first^{7,9}

Trip-Interruption Protection

- Trip Interruption Benefits and Assistance: If your trip is interrupted due to a warranty failure, incidental expenses may be reimbursed during the 5 year/100,000 miles (160 000 km) Powertrain warranty period. Items considered are hotel, meals, and rental car⁷. Consult your dealer or refer to the Owner Manual for details

Warranty Protection

- The Cadillac Bumper-To-Bumper new vehicle limited warranty covers the vehicle for 4 years/50,000 miles, whichever comes first, with no deductible
- Sheet metal panels are covered against corrosion and rust-through as follows:
 - Corrosion: Body sheet metal panels are covered against rust for 4 years or 50,000 miles, whichever comes first
 - Rust-Through: Any body sheet metal panel that rusts through, an actual hole in the sheet metal, is covered for up to 6 years, unlimited mileage
- Important: Cosmetic or surface corrosion, resulting from stone chips or scratches in the paint, for example, is not included in sheet metal coverage
- Consult your dealer or refer to the warranty manual for details

Gold Key Delivery

- The Sales Consultant will conduct a thorough inspection, then provide a complete tour of the new Cadillac and present a package of ownership materials.

THE SAAB OWNERSHIP EXPERIENCE WARRANTY PROTECTION

- The Saab new vehicle limited warranty includes bumper-to-bumper coverage for 4 years/50,000 miles, whichever comes first. Safety belt and supplemental restraint coverage is 5 years/unlimited mileage. The perforation limited warranty coverage is 6 years/unlimited mileage for 9-7X and 9-5 and 10 years for 9-3⁷

Around-the-Clock Emergency Assistance

- Saab owners can call Saab Roadside Assistance toll-free for emergency assistance 24 hours a day, 365 days a year, anywhere in the United States, for the duration of the bumper-to-bumper limited warranty (4 years/50,000 miles)⁹

Saab Dedicated Delivery Program

- The Saab retailer will conduct a thorough inspection of the new Saab prior to delivery. At the time of delivery, the Saab Sales Consultant will present a complete tour of the vehicle and a package of ownership materials

MEDIUM DUTY TRUCK VEHICLE AND CHASSIS

Please note: The following warranty information is intended as an overview only for on-highway truck applications. Warranties are valid on original equipment only; upfitted components are not covered. For complete detailed warranty coverage and eligibilities, refer to your GM Warranty Booklet and individual component supplier warranty information.

Warranty Coverage at a Glance

Warranty coverage applies up to the time or mileage limitation, whichever comes first. The warranty remains with the vehicle regardless of ownership.

VEHICLE COVERAGE FOR TOPKICK/KODIAK C4500-C8500 AND T-SERIES

	Warranty Limitation (time or mileage, whichever comes first)	
	TIME	VEHICLE MILEAGE
Basic Coverage ¹ (except where specified below)	2 years	Unlimited
Vortec 8.1L Gas Engine	2 years	Unlimited
Duramax 6.6L Diesel Engine	5 years	100,000 (\$100 deductible charge per event after 36,000 miles)
Caterpillar C7 Diesel Engine (Caterpillar Warranty applies) ²	3 years	150,000 ² (or 3,600 hours)
Isuzu 6h Diesel Engine	3 years	Unlimited
Allison 1000, 2200, 2300, 2500 RDS or HS Series	3 years	Unlimited
Allison 1000 PTS Series – Shuttle Bus	3 years ⁵	Unlimited
Allison 2200 PTS – Shuttle Bus	4 years ⁶	Unlimited
Allison 1000, 2200 MH Series	5 years	200,000
Allison 1000, 2200, 3000, 3500 EVS Series	5 years	Unlimited
Allison 3000, 3500 RDS	3 years	Unlimited
Manual Transmission	2 years	Unlimited
Rear Axle	2 years	Unlimited
Frame Rails & Cross Members	5 years	Unlimited
Cab Corrosion – Perforation	5 years	Unlimited
Emissions – Gas Engines	5 years	50,000
Emissions – Diesel Engine	5 years	100,000

Tires: See tire manufacturer's information supplied with vehicle.

Note: Courtesy transportation is not available for Medium Duty.

1. An optional limited warranty of 3 years/36,000 miles is available through GM dealers for C4500/C5500 models. See GM dealer.
2. Limited warranty administered by Caterpillar. Towing is covered for 12 months only and labor is not covered in the third year. See Caterpillar Owner's Manual for details.
3. Allison Edge Standard Transmission Coverage administered by Allison. See Allison Owner's Manual for details.
4. W-Series coverage administered by Isuzu. See Owner Manual for details.
5. 4 years for School Bus.
6. 5 years for School Bus.
7. Consult your dealer or refer to the Owner Manual for details. Excludes Saab and Medium Duty Trucks.
8. Courtesy Transportation is not part of or included in the coverage provided by the New Vehicle Limited Warranty. General Motors and General Motors of Canada Limited reserve the right to make any changes or discontinue the Courtesy Transportation program at any time without notification. (Excludes vehicles in daily and long-term rental service)
9. Roadside Assistance is not part of or included in the coverage provided by the New Vehicle Limited Warranty. General Motors and General Motors of Canada Limited reserve the right to make any changes or discontinue the Roadside Assistance program at any time without notification.

* The warranty coverages are determined by the mileage of the vehicle and the number of months from the delivery date. The warranty coverages are limited by whichever occurs first.

STABILITRAK®

Electronic Stability Control systems, such as GM's StabiliTrak, are becoming increasingly important on today's vehicles. StabiliTrak not only helps to enhance vehicle safety but also increases driver confidence and control.

Electronic Stability Control goes by many names. It's called Active Handling on Corvette; Electronic Stability Program (ESP) on Saab; and StabiliTrak on most other GM vehicles. In all cases it provides the same benefits.

Key benefits include:

- Helps the driver maintain control of the vehicle during certain low traction driving conditions such as ice, snow, gravel, wet pavement and uneven road surfaces
- Helps the driver maintain control of the vehicle in emergency lane changes or avoidance maneuvers
- Helps the driver avoid collisions
- Helps automatically — no driver action to activate the system is required

The StabiliTrak system works by recognizing the start of an understeer or oversteer condition. Sensors detect the difference between the direction the driver is actually turning and the vehicle's response by "reading" the steering wheel position, the amount of sideways force in place, vehicle speed, and how the vehicle is turning.

When necessary, the system automatically applies precise amounts of brake pressure at individual wheels and reduces the engine torque to help the driver keep the vehicle on track. These brake and engine interventions help realign the vehicle's path with that being steered by the driver.

RESEARCH & DEVELOPMENT

GM Research & Development (R&D) was the world's first automotive research center. It was organized in 1920 by inventor Charles F. Kettering.

Headquartered in Warren, Michigan, the GM Research Lab is a network of seven laboratories, eight science offices and collaborative relationships in more than 12 countries including working relationships with universities, government groups, suppliers and other partners from across the globe.

In 2003, GM R&D began an expansion of its global research network. The goal? To transform the GM Research Labs into a world benchmark research organization acting as one organic, agile and efficient business unit. The motivation for this was a desire to gain access to diverse scientific skills and expertise globally, and to leverage global research resources to move quickly into new technical areas. This network expands GM's technical capabilities and reach to speed development of strategic technologies. Today, the R&D network is comprised of eight science offices and collaborative relationships in more than 12 countries.

ADVANCED ENGINE TECHNOLOGY

Good fuel economy comes from GM advanced engine technology. GM Powertrain's current lineup reinforces GM's commitment to reduce emissions and improve the efficiency and performance of its internal combustion engines, automatic transmissions and hybrid systems.

Fuel-saving engine technology features include diesel power, E85 ethanol, innovative direct injection, Active Fuel Management™, Variable Valve Actuation and Variable Valve Timing (VVT).

In addition to improving engine efficiency, GM is launching a broad portfolio of advanced six-speed automatic transmissions to increase overall powertrain performance. GM six-speed automatic transmissions use a wide gear ratio spread to improve both performance and fuel economy over traditional four-speed automatics.

Duramax Diesel 6.6L V8 Turbo (LMM)

DAYTIME RUNNING LAMPS

With DRLs, low-wattage frontal lamps on your vehicle are activated when the ignition is turned on to make your vehicle more visible to other drivers, as well as pedestrians and bicyclists, during the day. DRLs are standard on virtually all GM vehicles, and they have helped GM drivers avoid more than 85,000 vehicle crashes since 1995.

EYE CUE HEAD-UP DISPLAY

By projecting critical information such as speed, high-beam status, turn signal status, and "check gauges," onto the windshield, Eye Cue helps you keep your eyes where they belong: on the road ahead.

GENERAL MOTORS — DRIVING CHANGE WITH ADVANCED TECHNOLOGIES AND ALTERNATIVE FUELS

As you consider the possibility of adding alternative fuel vehicles to your fleet, consider GM's leadership role in developing vehicles capable of using alternative fuel sources.

Consider these GM facts:

- First original equipment manufacturer (OEM) to offer hybrid full-size pickups beginning in 2005
- Chevrolet Malibu and Saturn VUE and AURA Hybrids available for the 2009 model year (very limited availability)
- Full-size SUV and Pickup Hybrids are available in 2009 model year (limited availability)
- Expanded availability of E85 capabilities for 2009
- Leadership role in developing fuel cell vehicles (vehicle not yet available for sale)

GM is a leader in producing a complete range of FlexFuel vehicles that can run on either E85 or gasoline. General Motors is now building 400,000 new FlexFuel vehicles a year.

E85 Ethanol

E85

What it is

E85 ethanol is a blend of 85% ethanol and 15% gasoline. It's a renewable fuel made mostly from corn and several other plants, such as switchgrass and willow.

Because it produces less greenhouse gas emissions than gasoline, E85 ethanol is an exciting new energy resource. That's why GM already has over 3 million FlexFuel vehicles, capable of running on E85 ethanol, gasoline, or a combination of both, on the road today in all 50 states. And GM is building 400,000 new FlexFuel vehicles a year.

2009 GM VEHICLES OFFERING FLEXFUEL CAPABILITY

Buick	Lucerne 3.9L V6
Cadillac	Escalade 6.2L V8 Escalade ESV 6.2L V8 Escalade EXT 6.2L V8
Chevrolet	Avalanche 5.3L V8 Express 5.3L V8 HHR 2.2L L4 & 2.4L L4 Impala 3.5L V6 & 3.9L V6 Malibu 3.5L V6 Silverado 5.3L V8 & 6.2L V8 Suburban 5.3L V8 Tahoe 5.3L V8 & 6.2L V8 Police Impala 3.9L V6 Police Tahoe 5.3L V8
GMC	Savana 5.3L V8 Sierra 5.3L V8 & 6.2L V8 Yukon 5.3L V8 Yukon Denali 6.2L V8 Yukon XL 5.3L V8 Yukon XL Denali 6.2L V8
HUMMER	H2 6.2L V8
Pontiac	G6 3.5L V6

Where it is

Because GM FlexFuel vehicles can run on E85 ethanol or gasoline, you can choose the fuel that's best for you at more than 1,400 E85 service stations nationwide. That number is growing. Go to www.gm.com/E85 see if there is a station near you.

Why it's great

GM keeps offering E85 capability because, compared to gasoline, it helps:

- Reduce greenhouse gas emissions
- Reduce dependence on petroleum
- Reduce smog-forming emissions
- Support the domestic agriculture industry in the U.S.

For more information, please visit our website at www.gm.com/E85.

HYBRID VEHICLES

Hybrid Vehicles Help GM Improve Fuel Economy, Reduce Emissions

Producing hybrid vehicles is only one piece of GM's strategy to improve fuel economy and reduce vehicle emissions, along with improving the efficiency of the traditional internal combustion engine and developing hydrogen fuel cell vehicles.

VUE, AURA and Malibu

Hybrid-powered powertrains are offered in the Saturn VUE, Saturn AURA and Malibu Hybrids.

These vehicles use GM's hybrid system. The Ecotec 4-cylinder engine works with the sophisticated electric motor/generator to shut off the engine at stops, restart the engine when the brake pedal is released, charge the advanced nickel metal hydride battery through regenerative braking, and perform intelligent battery charging when it is most efficient.

For details on these vehicles, please see the Hybrid section of this Guide.

Tahoe, Yukon, Escalade, VUE, Silverado and Sierra

These full-size Hybrid models, use a two-mode patented full hybrid technology optimized for both city and highway driving. VUE V6 Hybrid also uses this system.

At low speed and light loads, the first mode operates by electric power or engine power or any combination.

The second mode is primarily for highway speeds providing electric assist and full V8 power when needed. It integrates sophisticated electronic controls, Active Fuel Management™, cam phasing and late-intake valve closure for efficient engine operation.

A 300-volt battery pack is larger than a typical battery, but fits in without compromising passenger space. No plug-in is required.

ADDITIONAL TECHNOLOGY

More Efficient Powertrains

Gasoline-powered engines and transmissions are improving in fuel economy and performance, and reduce exhaust emissions. Technologies available include cam phasing, direct injection and 6-speed automatic transmissions. GM offers many vehicles with Active Fuel Management™, a cylinder-deactivation system that allows engines to operate on only half their cylinders under certain low-load conditions.

Cleaner Diesel Engines

GM Heavy-Duty Pickups and full-size vans with the Duramax 6.6L Turbo Diesel V8 comply with regulations that require the reduction of nitrogen oxide and hydrocarbons by more than 50%, and particulate matter by 90%. New technology and the use of Ultra-Low Sulfur Diesel fuel are combined with the new engine to deliver the power and torque demanded by commercial customers.

Additionally, the Duramax engine is bio-diesel compatible. That means fuel-grade bio-diesel (B5 or up to 5% bio-diesel) — produced to strict industry standards — can be used.

Malibu Hybrid

Very limited availability

VUE Hybrid

Very limited availability

Silverado Hybrid

Limited availability beginning fall 2008

AURA Hybrid

Very limited availability

Escalade Hybrid

Limited availability beginning fall 2008

Sierra Hybrid

Limited availability beginning fall 2008

2009 FUEL ECONOMY

Life happens while your drivers are on the road.

That's why there's OnStar.

Help your drivers can count on — that's OnStar.

Life can surprise you, even when you're driving. That's why OnStar* is there: to offer your drivers help when they need it. With OnStar, they'll have access to a knowledgeable Advisor who knows their names and locations, as well as nearby service providers available to them.

If it happens on the road, OnStar Advisors are there.

Having OnStar is like traveling with a trusted companion, ready to help with virtually any situation. OnStar includes safety features that can help drivers with everything from door unlock assistance to calling for emergency help. In fact, OnStar has answered nearly 100 million calls for help since its inception in 1996.

The choice is easy.

With availability on over 50 GM cars, trucks, and SUVs, OnStar can fit into almost any price range — helping you save money and allowing your entire fleet to drive with the enhanced peace of mind OnStar offers. A GM vehicle equipped with one year of OnStar is a better choice to help keep your drivers — and your investment — protected while on the road.

**GM vehicles offer OnStar. Not Honda,
not Toyota, not Ford, not Chrysler,
not Nissan, not Dodge.**

Safety and convenience just took a new turn! With available OnStar Turn-by-Turn¹ Navigation, getting to your destination has never been quicker or easier. Customers who require an upgrade to receive the added benefits of OnStar Turn-by-Turn Navigation can do so during their initial year of service for only \$100.² Ask your dealer or press your blue OnStar button for more details!

OnStar is available factory-installed on these 2009 models:

 Cadillac CTS CTS-V DTS Escalade Escalade ESV Escalade EXT SRX Crossover STS STS-V XLR XLR-V	 Buick Enclave LaCrosse Lucerne	 PONTIAC G5 G6 G8 Solstice Torrent Vibe	 CHEVY Avalanche Aveo Cobalt Colorado Corvette Equinox HHR Impala Malibu Silverado Suburban Tahoe TrailBlazer Traverse
 GMC Acadia Canyon Envoy Envoy Denali Sierra Sierra Denali Yukon Yukon Denali Yukon XL Yukon XL Denali	 SATURN ASTRA AURA OUTLOOK SKY VUE	 HUMMER H2 SUT H2 SUV H3	

Visit onstar.com/fleet for details.

OnStar is available on over 50 GM models.

The first year of OnStar service is included on all new OnStar-equipped GM models.
After the first year, the Safe & Sound Plan® costs just \$16.95 a month²

OnStar Services

After the first year, you can renew your OnStar service for as low as \$16.95/month²

Safe & Sound®

Directions & Connections®

Automatic Crash Response An Advisor can call for help if the vehicle is involved in frontal-, rear-, or side-impact crashes — regardless of air bag deployment. (Available on most 2007 and newer GM vehicles.)

OnStar Turn-by-Turn Navigation¹ Simple, audio-based directions to help get you to your destination safely.

OnStar Vehicle Diagnostics³ Automatic diagnostic check of certain key vehicle operating systems with monthly e-mail reports.

Emergency Services If you ever need help, OnStar is your link to emergency services.

Roadside Assistance If you run out of gas or get a flat tire, we can send assistance to your exact location.

Stolen Vehicle Location Assistance⁴ If your vehicle is stolen, an Advisor can help authorities attempt to locate it.

Crisis Assist Rely on OnStar for assistance during times of severe weather, natural disasters, or other crisis events.

Remote Door Unlock⁴ An Advisor can send a signal to unlock your doors in most cases.

Hands-Free Calling⁵ Allows you to make and receive voice-activated calls in your vehicle.

*OnStar services require vehicle electrical system (including battery), wireless service, and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1.888.4.ONSTAR (1.888.466.7827) or visit onstar.com for OnStar's terms and conditions, privacy policy, system details and limitations. ¹Requires ABS and Directions & Connections Plan. Not available in certain areas. Visit onstar.com for coverage map. Not available on Pontiac Vibe, Saab 9-3 and 9-5, and the following 2007 model year vehicles: Cadillac STS, Saturn ION and VUE, Chevy Silverado Classic, GMC Sierra Classic, and HUMMER H2 and H2 SUT. ²Plus tax. Credit card payment required for monthly subscription. ³Diagnostics not available on Cadillac Catera, Pontiac Vibe, Saab 9-3 and 9-5, and 2008 Saturn ASTRA. Diagnostic services vary on Cadillac SRX V8; Saturn VUE, ION, and L-Series; Chevy Silverado Diesel; and GMC Sierra Diesel. Visit onstar.com for details. ⁴Ability to locate stolen vehicles and Remote Door Unlock success vary with conditions. Remote Door Unlock not available in Saab 9-5 and 2000–2006 Saab 9-3 models. ⁵OnStar Hands-Free Calling requires a Hands-Free Calling-enabled vehicle, existing OnStar service contract, and prepaid minutes or enrollment in a shared minutes plan. Not available in certain markets. Calls may be made to the U.S. and Canada only. ©2008 OnStar Corp. All rights reserved. OnStar Business Vehicle Manager

Your fleet management solution.

Each month, vehicles enrolled in OnStar Business Vehicle Manager (BVM) automatically send OnStar the current odometer reading, oil life, and any open recalls. Two consolidated reports (summary, detail by VIN) are sent to participating fleets each month. To receive BVM, fleets must order code **RFA**. RFA is a **no additional charge option** and matches the length of OnStar multi-year service.

The benefits of BVM include:

- Timely and optimal maintenance
- Reduction of unnecessary maintenance costs
- Accurate vehicle mileage logs

OnStar factory option packages for fleet			
Package Description	Option Code	Vehicles with Safe & Sound Standard**	Vehicles with D & C Standard**
One additional year of Safe & Sound (24-month total)	R8G	\$199	\$199
Two additional years of Safe & Sound (36-month total)	R8P	\$379	\$379
First year upgrade to Directions & Connections or Turn-by-Turn	R8W	\$100	N/A
Two years of Directions & Connections (24-month total)	R8Y	\$399	\$299
Three years of Directions & Connections (36-month total)	R8Z	\$679	\$579
Three additional years of Safe & Sound (48-month total)	RFG	\$539	\$539
Four additional years of Safe & Sound (60-month total)	RFH	\$679	\$679
OnStar Business Vehicle Manager factory options			
Package Description	Option Code	Vehicles with Safe & Sound Standard**	Vehicles with D & C Standard**
OnStar Business Vehicle Manager requires: (A) Multi-year OnStar order (length of BVM service mirrors length of multi-year service); (B) Signed Fleet Master Agreement; and (C) CODE MUST BE ORDERED TO RECEIVE SERVICE.	RFA <small>(Requires UEI)</small>	N/C	N/C
** Plus tax. Prices/packages subject to change.			

ON WHEREVER YOUR FLEET GOES

Purchase GM fleet vehicles with factory-installed XM*, and give your drivers the programming variety that will keep them productive and entertained:

- Instant Traffic & Weather channels in 21 major metropolitan areas, helping your fleet avoid slowdowns and prepare for bad weather
- The biggest names in news (CNN, FOX News, CNBC), keeping your fleet informed around the clock
- 69 channels of commercial-free music, from old favorites to new discoveries
- The most sports coverage — Major League Baseball®, NHL hockey games, the PGA TOUR®, ESPN Radio and more, so your drivers can hear the big games and events while they're on the road
- XM NavTraffic® powers up your GPS system with real-time traffic data. Map your drive around construction, closures and accidents. Get the average traffic speed and estimated travel time along your chosen route in select markets. Learn more at xmnavtraffic.com

OVERVIEW

The new Aveo5 has a redesigned sporty exterior with contemporary details. The interior, with the cargo flexibility of a hatchback, includes up to 42 cubic feet of cargo space⁴. The new, fuel-efficient Ecotec 1.6L DOHC engine delivers EPA-estimated miles per gallon of 27 city and 35 highway with the manual transmission. Includes standard OnStar 1-year Safe & Sound Plan² and available XM Radio³, features that are usually expected in larger, more expensive cars.

MODEL AVAILABILITY

	Hatchback
Aveo5 LS	1TD48
Aveo5 1LT	1TD48
Aveo5 2LT	1TG48

SPECIFICATIONS (inches unless otherwise stated)

Wheelbase	97.6
Length	155.0
Width	66.1
Height	59.3
Seating f/r	2/3
Head room f/r	39.3/37.6
Shoulder room f/r	53.6/52.8
Leg room f/r	41.3/35.4
Max. cargo vol. ⁴ (cubic feet)	42.0
Approx. fuel capacity (gallons)	12

Redesigned, body-color fascias and bright accents suggest a more expensive car, along with available features – such as its large power sunroof – that are unexpected in the segment.

Shown with optional equipment

- Spare tire and wheel
- Rear spoiler

OVERVIEW

Chevrolet Cobalt offers both coupes and sedans in three different models. Its comfortable ride and long list of standard and available features make it particularly well suited to a wide variety of fleet customers.

NEW FOR 2009

- Models now include LS, LT and SS Turbocharged
- Bluetooth[®] connectivity for cell phones available
- Reconfigurable performance display available on SS Turbocharged Coupe
- Tire inflator kit standard, with spare tire available¹⁶

OVERVIEW

Expanding its portfolio in the rapidly growing small car segment, Pontiac will bring the sporty, five-door hatchback G3 to U.S. showrooms in early 2009. When it arrives, the G3 will provide Pontiac with a total of four vehicles capable of more than 30 miles per gallon on the highway.

The G3 offers an EPA estimated 27 mpg in the city and 34 mpg on the highway while providing the best shoulder and hip room in the segment for seating five adults.

MODEL AVAILABILITY

	5-Door Hatchback
G3	2TD48

SPECIFICATIONS (inches unless otherwise stated)

Wheelbase	97.6
Length	155.0
Width	66.1
Height	59.3

Hip room f/r	51.6/52.8
Leg room f/r	41.3/35.4
Max. cargo vol. ⁴ (cubic feet)	42.0
Approx. fuel capacity (gallons)	12

G3 features an unusually rich mix of standard features for an entry-level car, along with available features – such as its large power sunroof – that are unexpected in the segment.

SELECTED STANDARD FEATURES

Safety and Security

- Advanced dual-stage front air bags with Passenger Sensing System¹
- Side-impact air bags¹ for driver and front passenger
- 3-point safety belts, all positions, with front seat height adjustment
- Child security rear door locks
- LATCH (Lower Anchors and Top tethers for CHildren) system
- Daytime Running Lamps
- OnStar 1-year Safe & Sound Plan² (fleet delete available)
- Tire Pressure Monitoring System⁹

Interior

- Reclining cloth front bucket seats with driver height and lumbar adjustment
- 60/40 split-flip-and-fold rear seat
- Floor console
- Full instrumentation including tachometer
- Tilt adjustable steering column
- Padded visors with vanity mirrors
- 12-volt power outlet
- Air conditioning
- Rear-window defogger

- AM/FM stereo with CD player, MP3 playback, 6 speakers, auxiliary input jack and digital clock
- Carpeted floor mats
- Rear cargo shade

Mechanical

- Front-wheel drive
- Ecotec 1.6L DOHC 16-valve 4-cylinder engine with 106 hp and 105 lb.-ft. of torque
- Oil Life Monitoring System
- Electronic throttle control
- 5-speed manual transmission
- Power front disc/rear drum brakes
- Independent front/semi-independent rear suspension
- Power rack-and-pinion steering
- Stainless steel exhaust system

Exterior

- Intermittent front windshield wipers
- Front fog lamps
- Rear wiper with washer
- Fold-away rearview mirrors
- P185/60R14 all-season tires
- Full bolt-on wheelcovers
- Rear spoiler

SELECTED OPTIONAL FEATURES

- Antilock brake system
- Leatherette seating surfaces
- Leather-wrapped steering wheel and shift knob
- Cruise control
- Preferred Package includes power windows, Remote Keyless Entry, power door locks and power heated outside mirrors
- Power sunroof
- Audio: XM Radio,³ steering wheel-mounted controls
- Oil pan heater
- 4-speed automatic transmission with hold control mode
- 15-inch aluminum wheels
- P185/55R15 all-season tires

Interior space is optimized to comfortably seat five adults, including “theater”-style seating for rear seat passengers. The rear seats also feature a 60/40 split back, providing great flexibility between carrying people and carrying cargo. When the rear seats are folded and flipped, the G3 provides up to 42 cubic feet of cargo space.

OVERVIEW

The all-new version of the Vibe returns in three models – Vibe, Vibe AWD and Vibe GT. 1.8L and 2.4L 4-cylinder engines produce more power and torque than previous models. The revised exterior and interior designs also reflect vehicle functionality. Enhanced standard safety features are included.

MODEL AVAILABILITY

	Compact Crossover
Vibe	2SL26
Vibe AWD	2SM26
Vibe GT	2SN26

SPECIFICATIONS (inches unless otherwise stated)

Wheelbase	102.4
Length	172
Width	69.5
Height	61.0
Seating f/r	2/3
Head room f/r	40.5/39.4

- Floor console
- Full instrumentation including tachometer and outside temperature display
- Tilt and telescoping adjustable steering column

- Storage compartments and rear cargo tie-downs
- 115-volt, 3-prong power outlet
- AM/FM stereo with CD player and XM Radio³ with 3-month trial
- Electric rear window defogger

Mechanical

- Front-wheel drive
- 1.8L VVT-i L4 engine with 132 hp
- 5-speed manual transmission
- Power 4-wheel disc antilock brake system
- Front independent suspension with stabilizer bar
- Rear suspension is torsion beam (Vibe) or double wishbone suspension (AWD, GT); rear stabilizer bar
- Power rack-and-pinion steering

Exterior

- Power adjustable mirrors
- P205/55R16 all-season tires
- Full bolt-on wheelcovers
- Rear liftgate with glass
- Intermittent front and rear wipers

SELECTED OPTIONAL FEATURES

- Fold-flat front passenger seat, with table surface
- Air conditioning with air filtration system
- Rear cargo cover
- Integrated rear cargo storage system
- Theft-deterrent alarm system
- Preferred Package including Remote Keyless Entry, power door locks, power windows, cruise control, rear variable intermittent wipers
- Power sunroof
- Audio: MP3 player, Monsoon premium sound, steering wheel audio controls
- 2.4L VVT-i L4 engine with 158 hp
- 4-speed or 5-speed automatic transmission
- Fog lamps
- 17- and 18-inch aluminum wheels
- Luggage rack with center rails

Vibe's roomy interior provides generous storage space with a 60/40-split rear seat that folds flat to create a 49.4-cubic-foot cargo area⁴. Rubberized cargo floor strips help prevent items from sliding. An integrated rear cargo compartment storage organizer is standard on all models equipped with a 2.4L engine (optional with the 1.8L engine) and provides an almost unlimited number of cargo solutions, thanks to a multitude of hooks and net-divided compartments.

- Fog lamps
- Heated outside rearview mirrors
- 16-, 17- and 18-inch aluminum wheels
- Remote Vehicle Starter System

Impala's standard V6 engines have E85 FlexFuel capability that allows the vehicle to run on either gasoline or E85 — a blend of 85% ethanol and 15% gasoline or a combination of both. E85 is a cleaner-burning, mostly renewable fuel source that can be made from U.S.-grown organic materials. It helps reduce greenhouse gases and can enhance the nation's economy and energy independence. Visit gm.com/e85 to see if there is an E85 station near you.

- 6-speed automatic transmission with manual mode
- Limited slip differential
- 19-inch aluminum wheels (optional on GT only)
- 18-inch all-season tires
- Power, tilt/sliding sunroof

OVERVIEW

The G8 is the first North American application of GM's global rear-wheel-drive architecture developed by Holden, GM's Australian subsidiary. It has progressive styling highlighted by strong Pontiac design cues, such as a dual-port grille; fog lamps; bold wheels; and a confident, wheels-at-the-corners stance. A GXP model, available later in the model year, will deliver a preliminary 0-to-60 mph in just 4.7 seconds.

NEW FOR 2009

- Bluetooth connectivity for cell phones available (late availability)
- XM Radio³ standard with a 3-month trial
- GXP V8 model available mid-2009 model year

The ZR1 has an aluminum structure for optimum stiffness and low mass. The chassis is constructed with perimeter rails made of strong, single-piece hydroformed aluminum member featuring cast suspension nodes. Advanced structural composites featuring carbon fiber are bonded to the aluminum structure. The passenger compartment floors combine carbon-fiber skins with an ultra-lightweight balsa wood core.

SELECTED STANDARD FEATURES
Safety and Security

- Dual-stage front and side-impact air bags with Passenger Sensing System¹
- Head curtain side-impact air bags¹ for all 3 rows with roll-over sensing
- Rear door child security locks
- OnStar 1-year Safe & Sound Plan²
- StabiliTrak[®] stability enhancement system with enhanced rollover protection
- PASS-Key III theft-deterrent system
- Daytime Running Lamps and automatic lamp control
- Tire Pressure Monitoring System⁹

Remote Keyless Entry

- Tilt/telescoping adjustable steering column
- AM/FM stereo with CD/MP3, XM Radio³ with a 3-month trial
- Rear-window defogger
- Cargo area under-floor storage

Mechanical

- Front- or all-wheel drive
- 3.6L V6 SIDI VVT with single exhaust
- 6-speed automatic transmission
- 4-wheel disc antilock brake system with panic brake assist
- Traction control
- Independent front and rear suspension
- Power steering

Interior

- 8-passenger seating with 2nd-row 60/40 split-bench and 3rd-row 60/40 split-bench seat
- Floor console with sliding armrest
- Driver Information Center
- Front and rear climate control
- Cruise control
- Power windows

Exterior

- Intermittent front windshield wipers
- Halogen projector beam headlamps
- P255/65R18 all-season tires
- Aluminum wheels
- Rear liftgate with wiper/washer

SELECTED OPTIONAL FEATURES

- Seating options: 7-passenger seating with 2nd-row captain's chairs, 6- or 8-way power driver seat, leather seating surfaces, heated front seats, memory driver seat, 2nd-row console
- Tri-zone automatic climate control
- Household-style, 3-prong 115-volt power outlet
- Dual SkyScape 2-panel power sunroof
- Audio options: Rear seat DVD entertainment system, rear audio controls, steering wheel-mounted controls, touch-screen navigation system,¹¹ Bose Audio Package
- XM NavTraffic
- 3.6L V6 SIDI VVT with dual exhausts
- Trailing Package
- Spare tire and jack (XE)
- HID headlamps
- Luggage rack roof rails
- Power liftgate
- Rearview camera system
- Remote Vehicle Starter System
- Ultrasonic Rear Parking Assist

OVERVIEW

The OUTLOOK allows Saturn enthusiasts the opportunity to enter the GM medium utility crossover segment. It's a sleek, stylish crossover that can easily accommodate eight passengers. Body-frame integral construction provides a rigid foundation for an impressively smooth ride.

NEW FOR 2009

- Bluetooth[®] connectivity for cell phones available
- 3.6L V6 SIDI VVT engine with 281 (est.) hp and 253 (est.) lb.-ft. of torque (single exhaust) and 286 (est.) hp and 255 (est.) lb.-ft. of torque (dual exhaust)
- XM NavTraffic, for real-time traffic data, available
- Back-up camera display in inside rearview mirror
- Tire inflator kit¹⁶ replaces compact spare tire and jack on XE; compact spare tire and jack on XR

	Full Size SUV
Escalade 2WD Hybrid	6C10706
Escalade AWD Hybrid	6K10706

SPECIFICATIONS (inches unless otherwise stated)

Wheelbase	116.0
Length	202.5
Width	79.0
Height	74.3
Seating (maximum)	2/3/3
Head room f/m/r	41.1/39.2/37.9
Shoulder room f/m/r	65.3/65.2/61.7
Leg room f/m/r	41.3/39.0/25.6
Max. cargo vol. ⁴ (cubic feet)	108.9
Approx. fuel capacity (gallons)	26
Max. towing capacity ⁷ (pounds)	8000

Hybrid status information is displayed in the instrument panel screen that is also used for the audio system and navigation.¹¹

SELECTED STANDARD FEATURES

Safety and Security

- Dual-stage front air bags with Passenger Sensing System¹
- Head curtain side-impact air bags¹ with rollover sensor
- StabiliTrak[®] stability enhancement system with Rollover Mitigation
- OnStar 1-year Directions & Connections Plan² with Turn-by-Turn Navigation³ and Destination Download
- Daytime Running Lamps and Twilight Sentinel[®]

Interior

- Front bucket seats with 14-way power, heated, leather seating surfaces and memory
- 2nd-row 60/40 split-folding seat
- 50/50 removable 3rd-row seat
- Floor console with rear seat audio and climate controls
- Auto-dimming mirror with outside temperature
- Driver Information Center
- Tri-zone automatic climate control
- Remote Vehicle Starter System

- Rearview camera system
- Power adjustable pedals
- AM/FM stereo with CD/DVD/MP3, 6-disc CD changer, navigation radio,¹¹ Bose 5.1 Studio Surround, rear audio controls, XM Radio³ with a 3-month trial

Mechanical

- Vortec 6.0L with 332 hp (Hybrid)
- Strong hybrid automatic transmission
- 4-wheel disc antilock brake system
- Automatic rear locking differential
- Magnetic Ride Control suspension
- Full-function traction control
- Trailering equipment

Exterior

- Xenon HID headlamps
- Rainsense[™] windshield wipers
- P285/45R22 all-season tires
- 22-inch aluminum wheels¹⁴
- Power folding rearview mirrors with ground illumination, turn signals, curb-tilt, driver auto-dimming
- Ultrasonic Rear Parking Assist
- Rear power liftgate with liftglass

2-MODE HYBRID FEATURES

The 2-Mode is a patented hybrid technology with two modes optimized for city and highway driving.

- First mode: At low speed and light loads, the vehicle can operate by electric power or engine power or any combination.
- Second mode: Primarily for highway speeds providing electric assist and full V8 power when needed. It integrates sophisticated electronic controls, Active Fuel Management[™], cam phasing and late-intake valve closure for efficient engine operation
- 2-Mode system allows for more compact packaging because powerful electric motors are designed to fit within the space of a conventional automatic transmission
- 300-volt battery pack is larger than typical battery, but fits in without compromising passenger space. No plug-in is required

Specific aerodynamic features on the exterior including front and rear fascias and lightweight wheels – plus hybrid badges – distinguish the Escalade Hybrid from other Escalade models.

AVAILABLE EXTERIOR COLORS¹⁵

- 50U Summit White
- 59U Silver Birch Metallic
- 66U Deep Ruby Metallic

OVERVIEW

The Chevrolet Silverado Hybrid (limited availability) uses GM's patented 2-Mode Hybrid system and a powerful 6.0L gas V8 engine. The Silverado Hybrid delivers highly efficient performance while maintaining full-size pickup capability.

FOR OTHER SILVERADO MODELS, SEE FULL-SIZE PICKUP SECTION

MODEL AVAILABILITY

	Full Size Pickup
Silverado Hybrid 2WD	CC10543
Silverado Hybrid 4WD	CK10543

SPECIFICATIONS (inches unless otherwise stated)

Wheelbase	143.5
Length	229.9
Width	79.9
Height	73.7
Seating f/r (maximim)	3/3
Head room f/r	41.5/40.6
Shoulder room f/r	65.2/65.2
Leg room f/r	41.3/38.7
Box length (feet)	5.7
Approx. fuel capacity (gallons)	26
GVWR ⁵ (pounds)	7100 (2WD)/7300 (4WD)
Payload ⁶ (pounds)	1459 (2WD)/1418 (4WD)
Max. towing capacity ⁷ (pounds)	6100 (2WD)/5900 (4WD)

Fuel-saving performance is aided by GM's advanced Electrically Variable Transmission (EVT) and 300-volt nickel-metal hydride Energy Storage System, which work in concert with the 6.0L V8 gas engine with Active Fuel Management™ and late intake valve closing (LIVC) technology.

SELECTED STANDARD FEATURES

Safety and Security

- Frontal air bags with Passenger Sensing System¹
- Head curtain side-impact air bags¹
- Daytime Running Lamps and automatic lamp control
- StabiliTrak[®] stability enhancement system
- OnStar 1-year Safe & Sound Plan²

Interior

- Reclining front split-bench seat
- Rear bench fold-up seat
- Tilt adjustable steering column
- Cruise control
- Dual-zone climate control
- AM/FM stereo with CD/MP3, XM Radio³ with a 3-month trial
- Driver Information Center
- Power door locks and windows

Mechanical

- Electrically variable transmission
- 4-wheel disc antilock brake system with regenerative braking
- Locking rear axle differential

- Z85 independent front and multileaf rear suspension
- Electric power steering
- Trailering Package

Exterior

- Intermittent windshield wipers
- Foldaway rearview mirrors
- EZ-Lift Tailgate Package
- P265/65R18 quiet-tuned tires
- 18-in. polished aluminum wheels

SELECTED OPTIONAL FEATURES

- Seating options: power, bucket seats, leather seating surfaces, heated
- Power adjustable pedals
- Audio options: Power flow/navigation system,¹¹ Bose audio
- XM NavTraffic
- Bluetooth[®] connectivity
- Autotrac 4WD
- Remote Vehicle Starter System (dealer installed)
- Rearview camera system
- Ultrasonic Rear Parking Assist
- Fog lamps

2-MODE HYBRID FEATURES

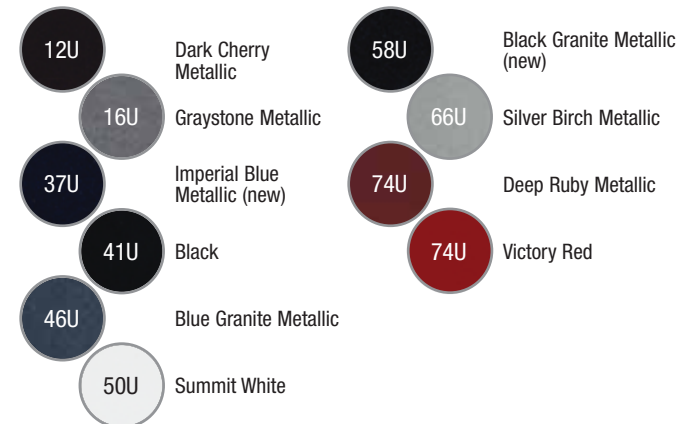

The 2-Mode is a patented hybrid technology with two modes optimized for city and highway driving.

- First mode: At low speed and light loads, the vehicle can operate by electric power or engine power or any combination
- Second mode: Primarily for highway speeds providing electric assist and full V8 power when needed. It integrates sophisticated electronic controls, Active Fuel Management[™], cam phasing and late-intake valve closure for efficient engine operation
- 2-Mode system allows for more compact packaging because powerful electric motors are designed to fit within the space of a conventional automatic transmission
- 300-volt battery pack is larger than typical battery, but fits without compromising passenger space. No plug-in is required

Integration of the hybrid system is seamless – the battery pack is located in the chassis, beneath the rear seat – and perceptible only in what it lacks: noise.

Additional details specific to the Silverado Hybrid include aerodynamic aids: slightly deeper front air dam and a tonneau cover for the bed to reduce air drag.

AVAILABLE EXTERIOR COLORS¹⁵

GMC SIERRA HYBRID

OVERVIEW

The GMC Sierra Hybrid (limited availability) uses GM's patented 2-Mode Hybrid system and a powerful 6.0L gas V8 engine. The Sierra Hybrid delivers highly efficient performance while maintaining full-size pickup capability.

HUMMER® H3T

Shown with optional equipment

OVERVIEW

HUMMER is bringing its unmistakable style and unmatched capability to the truck market with the 2009 H3T. It is based on the architecture of the popular H3, but features a five-passenger Crew Cab and a separate 5-foot-long cargo bed.

The H3T is bigger than a midsize truck and smaller than a full-size truck, creating its own niche in the market. It also is infused with the attributes expected of a HUMMER, including exceptional off-road capability and a premium interior that is as functional as it is comfortable.

FOR THE OTHER H3 MODELS, SEE THE SPORT UTILITY/CROSSOVER SECTION

MODEL AVAILABILITY

	Midsize Pickup
H3T 4WD	RN15543

Vehicles shown have been altered or upfitted with equipment supplied by independent suppliers. See Owner Manual for information on alterations and warranties.

SELECTED OPTIONAL FEATURES

- Seating options: 15-passenger seating, cloth seats, driver and front passenger power seat adjustment
- Power windows, door locks
- Trailing equipment
- Sliding passenger-side door
- Outside heated, power, folding mirrors with turn signals

AVAILABLE EXTERIOR COLORS¹⁵

**AMBULANCE PACKAGE**

The YF2 Ambulance Package is offered on Chevrolet Silverado and GMC Sierra 3500HD Regular Cab Chassis Cab models. When lives are on the line, a robust equipment combination is key — and that's what GM provides.

Features include:

- CC31403 or TC31403 models (2WD) with 11,400-pound GVWR⁵
- CK31403 or TK31403 models (4WD) with 12,000-pound GVWR⁵
- Front bucket seats with 6-way power driver and passenger adjusters, passenger seat recline and manual lumbar control
- Duramax 6.6L Turbo Diesel V8 engine
- Allison 1000 6-speed automatic transmission (no PTO provisions)
- Heavy-duty dual 730 cold-cranking amp batteries
- Dual 125-amp alternators
- Engine block heater
- Requires single-zone manual air conditioning
- Requires Ebony Premium Cloth or Ebony Custom Leather Appointed trim

BOX DELETE WITH BODY

A Box Delete configuration is also available on Silverado and Sierra 2500HD and long box 3500HD. Regular, Extended or Crew Cabs are offered and provide 55.9-inch cab-to-axle dimension that allows buyers to add almost any of a variety of bodies to meet their specific needs.

APPLICATIONS

Here are some applications perfectly suited for the 3500HD Chassis Cab:

- Van body — if cargo needs weather protection, this is the answer
- Platform/stake body — for carrying anything from livestock to lumber and scrap metal
- Dump body — these durable vehicles can handle the severe service, on- and off-road ability and heavy loads
- Snow plow/spreader applications are easy to configure with the Snow Plow Prep Package available
- Utility/service body — providing for compartment storage and additional duties such as cherry-picker buckets and rescue equipment
- Catering body — perfect for meals-on-wheels applications for visiting factories, construction sites or events

VOCATIONAL BODY APPLICATIONS

Chevrolet Silverado and GMC Sierra offer 3500HD Chassis Cab configurations with either Regular or Extended Cabs. These offer unique qualities for those who need a chassis cab available in two- or four-wheel drive with a choice of gasoline or diesel engine.

Vehicles shown have been altered or upfitted with equipment supplied by independent suppliers. See Owner Manual for information on alteration and warranties.

SELECTED STANDARD FEATURES
Safety and Security

- Frontal air bags with passenger-side deactivation switch¹ (passenger-side delete on Cargo Y3G)

A WORD ABOUT THIS GUIDE

This material is not legally approved for use in any advertising.

We have tried to make this guide comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this guide and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of release, please check with your GM dealer for complete details. Competitive comparison claims are based on most current competitive information. GM reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

The vehicles described in this Guide are equipped with engine and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers, and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly. Some of the equipment shown or described throughout this Guide may be available at extra cost, and/or is supplied by an independent supplier.

See your local General Motors Fleet Account Executive or Dealer Fleet/Commercial Sales Manager for up-to-date information, or see the GM Online Order Guide at gmfleet.com.

An important note about alterations and warranties

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials, or workmanship of any alterations by such suppliers.

Detailed Notes, as applicable to references on individual vehicle pages

1. Always use safety belts and the correct child restraint for your child's age and size, even in vehicles equipped with air bags. Even in vehicles equipped with Passenger Sensing System, children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See your vehicle Owner Manual and child safety seat instructions for more information.
2. Call 1-888-4-ONSTAR (466-7827) or visit OnStar.com for system limitations and details.
3. XM Satellite Radio is available only in the 48 contiguous United States. Service fees extra. Visit gm.xmradio.com for more details.
4. When properly equipped, cargo and load capacity limited by weight and distribution.
5. Maximum Gross Vehicle Weight Rating (GVWR). When properly equipped, includes vehicle, passengers, cargo and equipment.
6. Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo. Cargo and load capacity limited by weight and distribution.

7. Maximum Trailer Weight ratings are calculated assuming a base vehicle, except for options necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See Order Guide for additional information.
8. For Turn-by-Turn Navigation, antilock braking system and Directions & Connections Plan required. Turn-by-Turn Navigation not available in certain areas. Visit OnStar.com for coverage map.
9. Tire Pressure Monitoring System does not apply to spare tire.
10. Premium paint — available at extra cost.
11. Navigation Systems — map coverage includes only the 48 contiguous United States and portions of Hawaii and Canada. Not available in Alaska, Puerto Rico and the Virgin Islands.
12. RDS functions only where stations broadcast RDS information.
13. 2007 Frontal Safety Rating — U.S. Government safety rating for both the driver and front seat passenger in the frontal crash test. Side Impact Safety Rating — U.S. Government safety rating for both the front and rear seats in the side-impact crash test. Government star ratings are part of the National Highway Traffic Safety Administration (NHTSA) New Car Assessment Program (www.safercar.gov).
14. Use only GM-approved wheel/tire combinations. See your GM dealer for more details.
15. Actual colors may vary.
16. Unless you option into a spare tire, there is no jack or spare tire in this vehicle. If you do not option into the spare tire, your vehicle has a tire sealant and compressor kit that uses a liquid tire sealant to temporarily seal up to a 1/4-inch puncture in the tread area of the tire. After using the inflator kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than 1/4-inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire one time before its expiration date.
