2006 EPICA

THE PREMIUM EXPERIENCE THAT REQUIRES NO PREMIUM.

It is easy to provide quality – if price is no object. When quality and value are inserted into the same equation – that's the real test. And that is where Epica leaves the others behind: by exceeding expectations, by delivering more of the features and qualities you look for in a mid-size car. At a price that is far less than you'd expect. With a mechanical package that features a smooth, in-line six-cylinder engine and four-wheel disc brakes with ABS. Interior amenities that include heated front bucket seats with leather seating surfaces, as well as an automatic climate control system. With the backing of a no-deductible Extended Powertrain Warranty for five years or 100,000 km.* The premium car, without the premium sticker price. Epica. For All Life's Roads.

Epica FEATURES

THE WORD "OPTIONAL" DOESN'T APPLY HERE.

You arrive at a time and place in life where you feel you deserve some of the "extras" that make your daily existence that much more satisfying. You want a six-cylinder engine that delivers its power quietly and efficiently. And you feel entitled to helpful convenience features like power windows, door locks and exterior mirrors – to say nothing of a remote keyless entry system. That's why all those features – as well as a power sunroof – are standard on every Epica.

KEY FEATURES:

- 2.5L in-line six-cylinder engine
- 4-speed automatic transmission
- Heavy-duty exhaust system
- Four-wheel disc brakes with ABS
- 16-in. alloy wheels
- Safety cage construction
- Dual-stage frontal air bags*
- Automatic front Passenger Sensing System.*

Epica's 155 hp 2.5L in-line six-cylinder engine delivers spirited acceleration. The dual overhead camshaft design provides excellent engine breathing, optimizing both output and efficiency.

There are very few options available for Epica. That's because almost everything you want is standard, including a power sunroof with a sliding glass panel.

***A NOTE ON CHILD SAFETY:** Always use safety belts and proper child restraints, even in vehicles equipped with air bags. Even with the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. Refer to the vehicle Owner's Manual and child safety seat instructions for more information.
