

1970 Plymouth Station Wagons

The wagon lover's wagons

Plymouth
makes it 

Fury Wagons
The wagon that can take you on a camping trip or to a command performance.

There are differences of opinion about our new Sport Suburban station wagon.

Some call it the station wagon's station wagon.

Others think of it as a true luxury car.

The utility lovers begin their case with the standard 318 regular gas V-8. More than enough power to pull most boats and trailers. Fully loaded. Or choose an optional V-8 ranging from

a 383 2-barrel, 383 4-barrel up to a whopping 440 4-barrel. And big brakes, with deeply finned front drums and flared rears, are standard.

Next comes torsion-bar suspension, a wider stance and extra large, fiberglass-belted tires. And extra acoustical padding for quiet rides.

In back, there's 104.2 cubic feet of space. The two-way tailgate makes loading a lark.

Up top, a Rear Integral Wind Deflector keeps the standard power tailgate window clean.

Up front, an articulated wiper on the driver's side clears a wider arc of glass.

And easy-to-read gauges for fuel, temperature, alternator. Warning lights for oil pressure

and brakes. And a new anti-theft column-mounted ignition switch locks the wheel when you remove the key.

But man does not live by function alone. Just take a look.

A new grille with wraparound loop bumper. Hidden headlights and windshield wipers. Bold wood-grain vinyl paneling on sides and rear deck.

Inside, plush interior appointments with a practical side. A bench seat with center armrest is standard. Or order the optional all-vinyl (or cloth-and-vinyl) comfort bench seat with individual armrests, adjustment, and reclining passenger seat. In addition, the floor is deep-loop nylon carpeting.

Finally the lights. A floodlit instrument panel for maximum visibility at night. Lights for the

Top to bottom: Rear Integral Wind Deflector helps keep the rear window clean. All-vinyl interior with center armrest. Anti-theft ignition lock on the steering column.

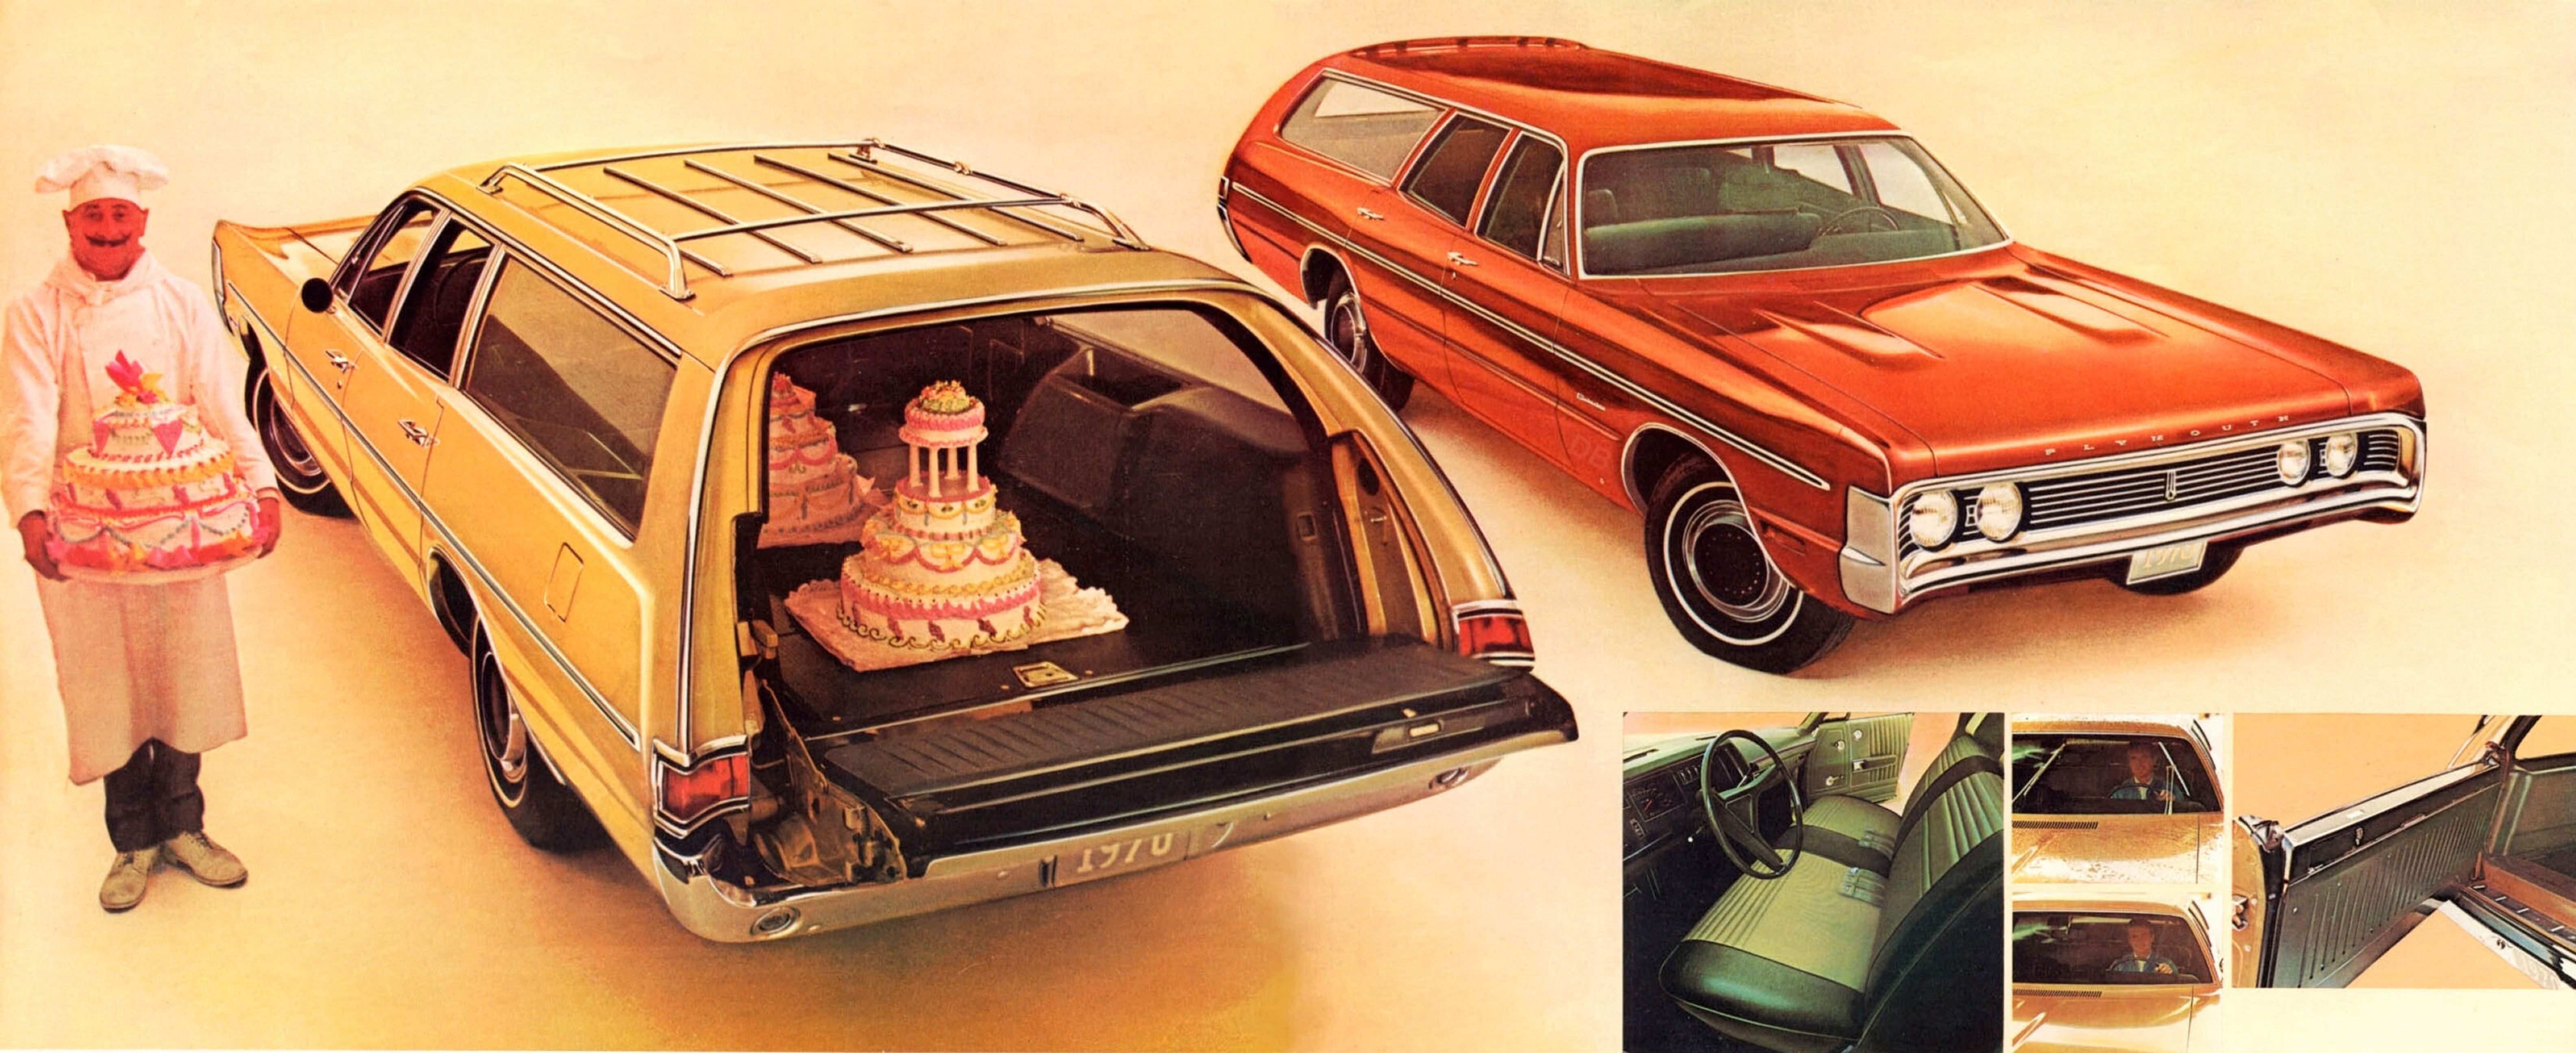

glove box and ashtray. A lane changer turn signal. Just touch it, and it signals your next lane change on the highway.

Optionally, the Sport Suburban also offers such features as AM/FM stereo radio, Chrysler Airtemp's exclusive dual air conditioning. Tilt steering wheel. TorqueFlite automatic transmission. And more.

Plymouth wagons feature two points of view. The main point is, you get all the benefits.

Sport Suburban (also shown on cover)

Fury Wagons
If you want a wagon
that takes the cake.

Matter of fact, the Plymouth Suburban and Custom Suburban station wagons could probably haul away the whole bakery.

There's more than enough room in back to carry your cakes and other goodies, more than four feet across. By eight feet long.

Loading poses no problem either. The two-way tailgate opens down for baked goods.

And aside for good bakers. And if anything should tip or spill? No problem again. The rear cargo floor is covered with stain-resistant vinoleum.

But these 2- and 3-seat model Suburbans have more unusual wagon features than an unusual amount of loading space.

Custom Suburban and Suburban

The Rear Integral Wind Deflector for example. Keeps dirt off the rear window. Open the window, and it keeps dirt and fumes outside as well.

Standard body side molding with color-keyed vinyl inserts on the Custom Suburban protects against bumps and scratches. Standard interior features include vinyl-covered bench seats. Available in four color styles for Custom Suburban.

Left to right. Cloth-and-vinyl interior. An articulated wiper on the driver's side sweeps more glass—both wipers are hidden. The two-way tailgate swings down for loads . . . wide for lads.

Or you can order the optional Custom bench seat with fold-down center armrest for Custom Suburban.

Our other interior features include the floodlit instrument panel. With gauges for fuel, temperature and alternator. Warning lights for oil pressure and dual braking system. The lane changer turn signal. And

the anti-theft ignition lock on the steering column. Everything within easy reach.

Standard engines are the 318 V-8 for Custom Suburban, and a choice of the 318 V-8 or the 225 cubic inch six-cylinder for Suburban. Optional engines include two versions of the 383 V-8 and a 440 V-8.

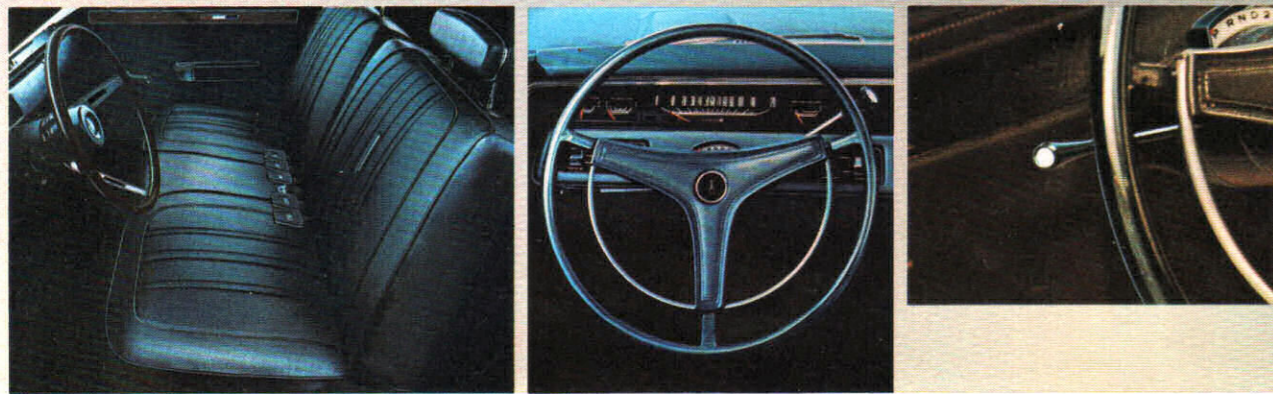

The Suburban and Custom Suburban can be ordered with

such station wagon options as roof top luggage rack, tailgate washer/wiper, rear door assist handles, cargo compartment carpeting and a tailgate scuff/step plate.

Or choose from less "wagon-like" options such as Chrysler Airtemp's exclusive dual air conditioning system, tinted glass, power steering, power brakes.

Who says you can't have your cake and eat it too?

Sport Satellite

Belvedere Wagons

A wagon that has sport written all over it, makes it.

Our Plymouth Sport Satellite is the perfect companion for the sportsman. Be he golfer, fisherman, camper, what-have-you. In addition, its sporty styling makes it perfect as a wagon-about-town that dresses and behaves very much like a sedan.

A Deluxe vinyl bench seat is standard. In six colors. Optional seats include cloth-and-vinyl divided bench seats with folding armrest or all-vinyl bucket seats.

All with deep-loop carpeting. Including the rear passenger area for the 3-seat model.

Overhead, sectional acoustic panels absorb noise. Beautifully. Quietly. Sport Satellite also offers such features as front door courtesy lights, ashtrays and armrests front and rear, glove box lock, cigar lighter. And there's a special turn signal device for

indicating lane changes on the open highway.

The simulated wood-grain instrument panel has gauges for fuel, temperature, alternator. Warning lights for oil pressure and brakes. And an ignition switch on the steering column that locks the wheel when you remove the key.

Underneath all this is a 100% full-blooded station wagon. Wood-grain vinyl body side

appliqué and the dual-action tailgate are standard. The rear cargo will hold 84 cubic feet of golf clubs, fishing gear, or anything else you want. And the cargo area is finished in scuff-resistant vinoleum. There's a power rear window on 3-seat models; optional 2-seat models. Torsion-bar suspension combines with fiberglass-belted

tires for steady handling with heavy loads.

And the unibody construction is still the strongest way to build a wagon.

Standard engine is the 318 V-8, with 3-speed fully synchronized manual transmission. Optional engines available are the 383 2-barrel, and high-performance 383 4-barrel V-8s. All can be ordered with the optional

three-speed TorqueFlite automatic transmission. A 4-speed manual is also available with the 383 4-barrel V-8.

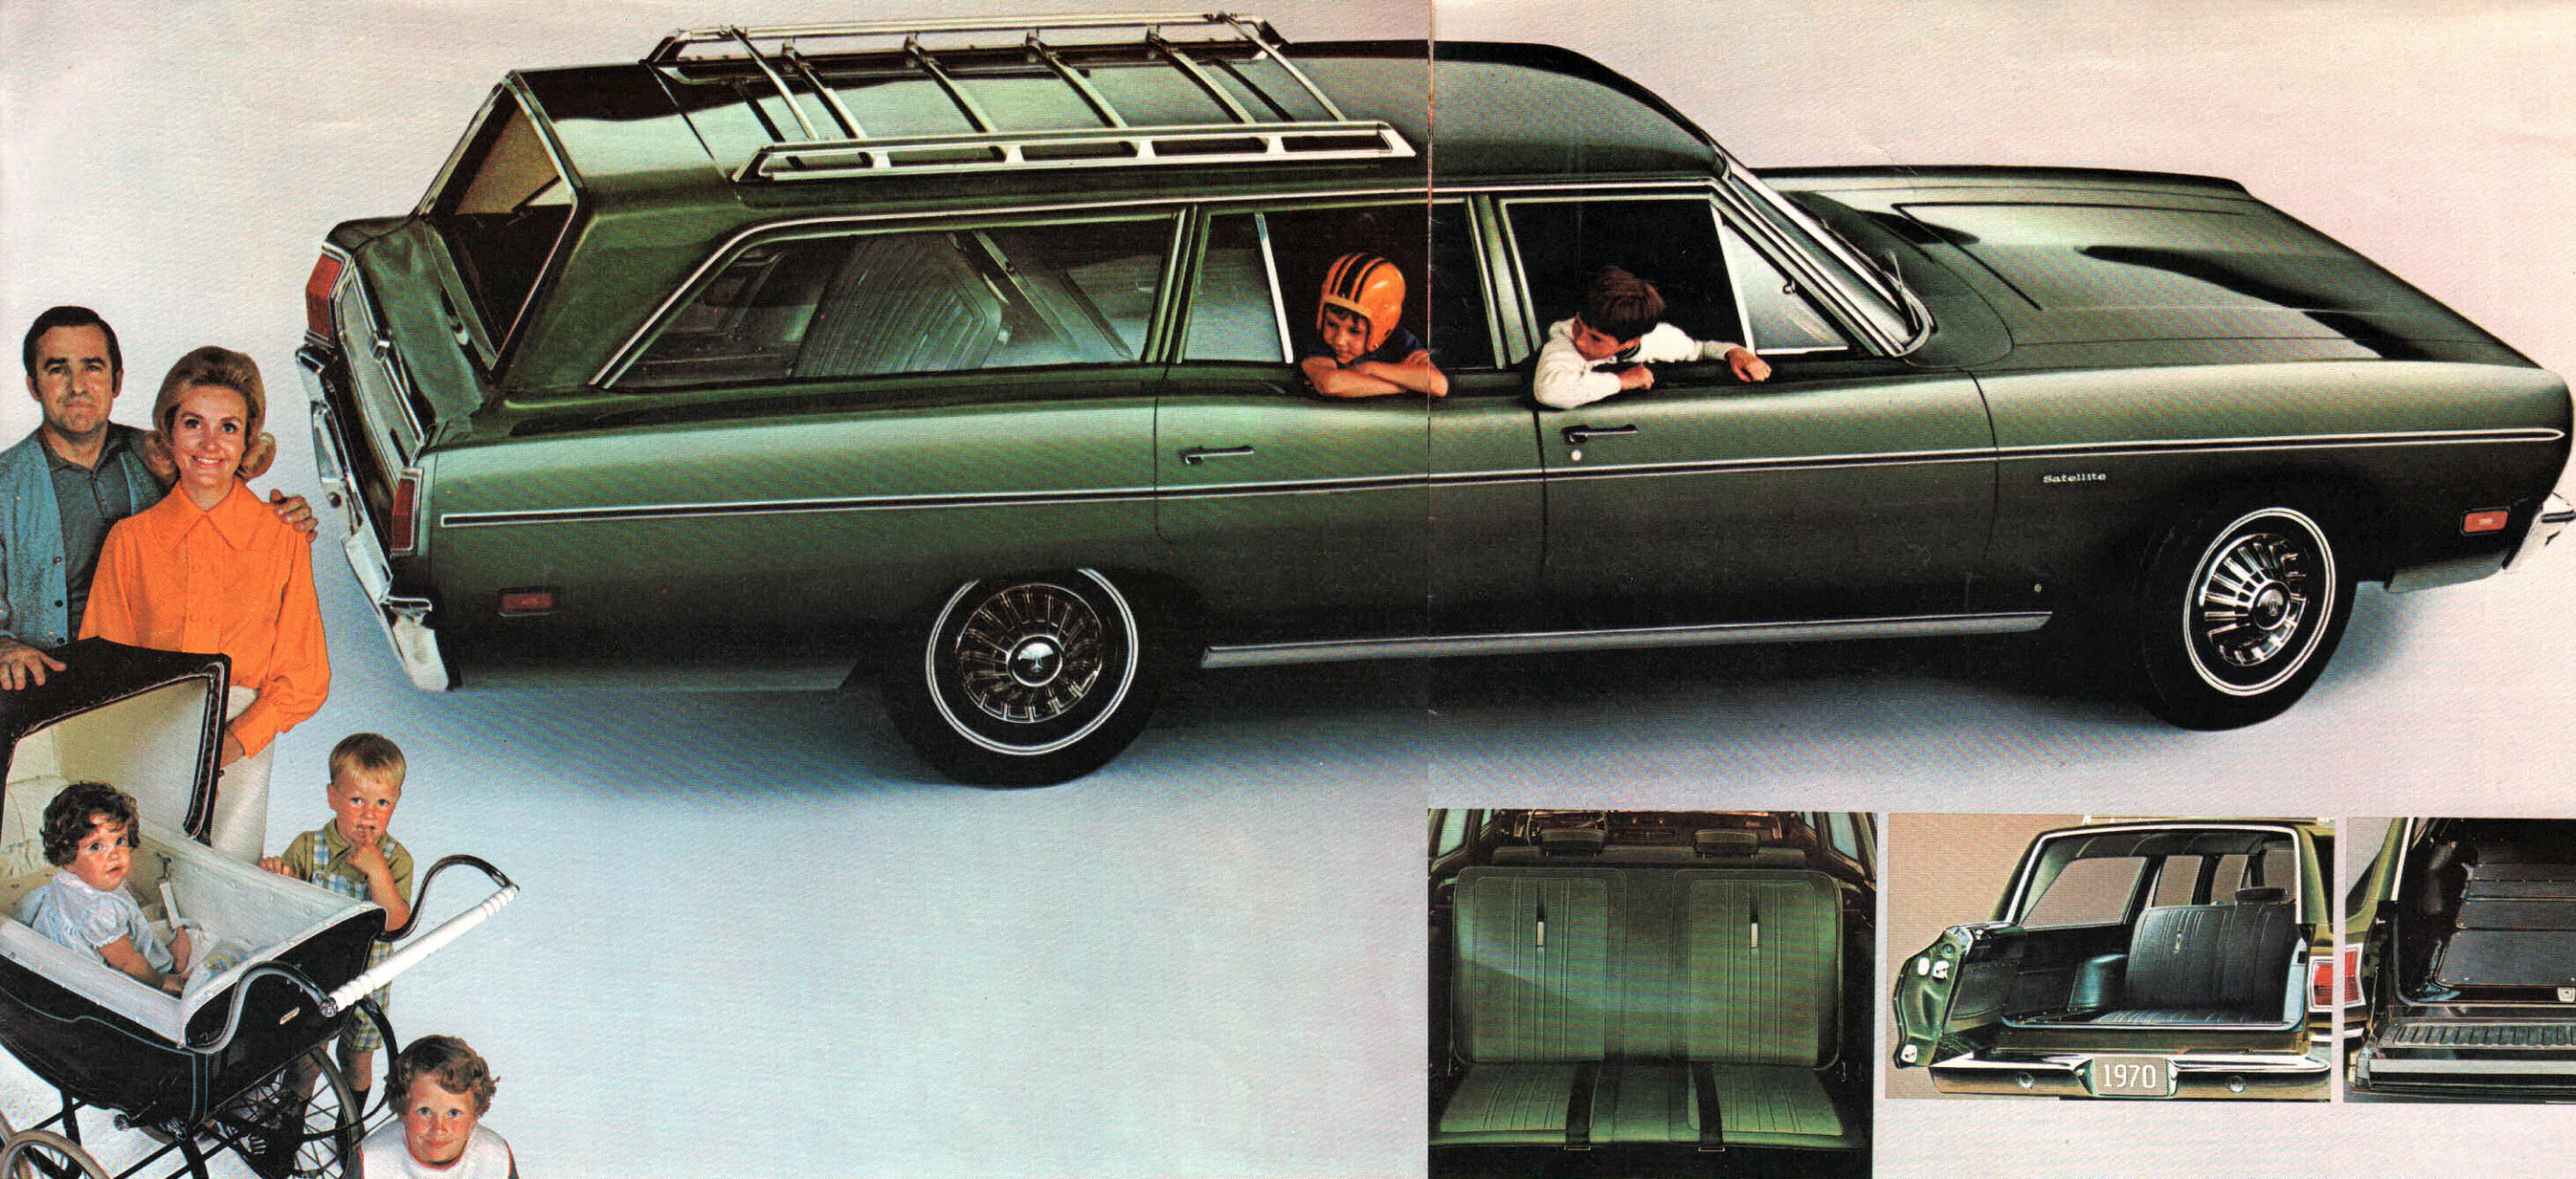

Other options include Auto-Speed Control, power brakes, electric clock, rear window washer/wiper, roof top luggage rack, and locking hidden rear storage compartment on 2-seat models.

If your Sport Satellite confuses you as to whether it's a

sports wagon or a station wagon, don't be alarmed.

We planned it that way.

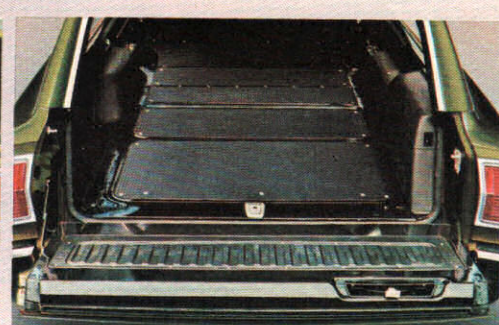

Belvedere Wagons
If you want a wagon
that takes all of you.

The intermediate-size wagon you don't have to baby. The Plymouth Satellite. It's as tough and durable a wagon as any family could take on. Start with unibody construction. The strongest basic car unit going. Then add a 7-step dip-and-spray anti-rust paint treatment for extra protection. Torsion-bar suspension and fiberglass-belted tires for firm, steady handling.

Satellite's standard engine is the super economical 225 cubic inch Six. Or you can order the standard 318 V-8. Optional engines include the regular gas and high-performance version of the 383 cubic inch V-8. They can be teamed to a variety of transmissions: 3-speed

or 4-speed fully synchronized manual or TorqueFlite automatic, as described on the preceding pages. Inside, durable combines with good-looking. Deluxe bench seats are padded with foam. Covered with ice cream/soda pop/child-resistant vinyl. Your choice of six different colors. The matching wall-to-wall carpeting is just as handsome. Just as long-lasting.

Left to right: The rear-facing third seat is a big family pleaser. Our two-way tailgate swings wide for people . . . down for packages.

Seating lets a family of six stretch to their legs' content. Choose the rear-facing third-seat version and you can add a set of twins. With room to spare.

Both Belvedere and Satellite wagons are efficient as well as comfortable. The instrument

panel contains gauges for fuel level, temperature, and alternator. Lets you know exactly what's happening to your car. When it happens.

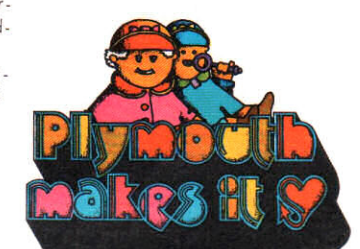

And there are warning lights for oil pressure, brakes, and parking brake.

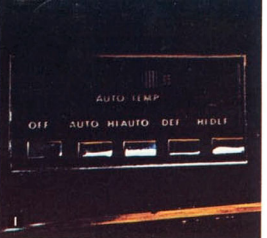

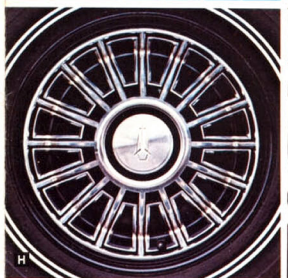

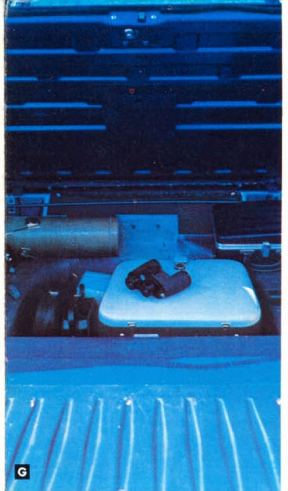

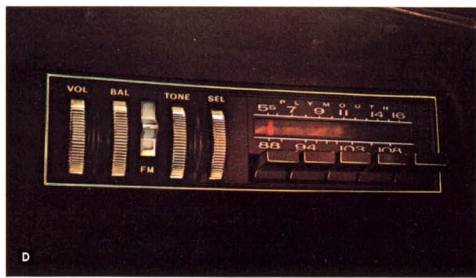

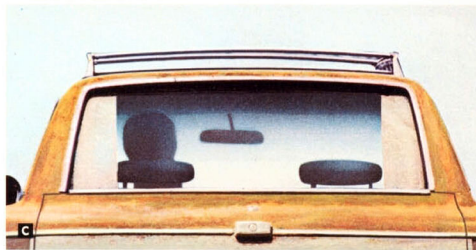

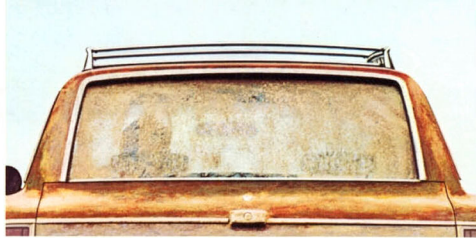

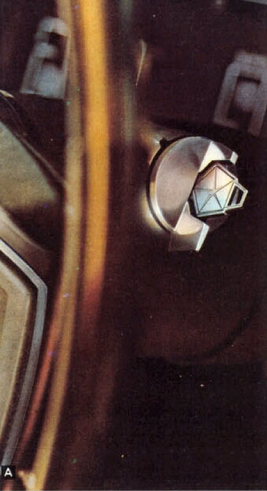

Satellite and Belvedere optional features include power steering and brakes; electric clock; AM/FM radio; Chrysler

Airtemp air conditioning. The light package which includes such items as map, glove box, and rear door courtesy lights; roof top luggage rack; remote-control outside rearview mirror; special chrome trim moldings and more.

When we build station wagons for families with kids, we don't kid around.

Belvedere or Satellite. You name it. Plymouth makes it.

Any option you want, to make any type of driving easier...

A. Time-Delay Ignition Switch Light. A beam directed at the column-mounted ignition switch comes on when you open the door and remains on after the door is closed, then shuts itself off. Ends nighttime hit-and-miss hunting for the ignition. (Part of light package.)

B. Power Steering. Simulated Wood-Grain Steering Wheel. For ease in maneuvering and parking ask for power steering. And the optional steering wheel has all the advantages in looks and feel of real wood; and none of the disadvantages like splitting or color change.

C. Rear Window Washer. Just lower the rear window, press the washer button, raise the window, and it's clean. Makes driving easier on you, and your Plymouth. (Available only with power rear window.)

D. AM/FM Stereo Radio.* Whatever type of music you like, tune it in with an AM/FM stereo radio. True stereophonic sound with unequalled tone and sound quality. With any wagon ask for the 8-track stereo tape deck. Available with AM radio only.

E. Auto-Speed Control. Accelerate to the speed you choose, then press the button on the end of the turn signal lever, automatically that speed is maintained. A touch on the brake disengages the speed control, and the car returns to the speed previously set. Makes long-term highway driving a breeze.

F. Electric Door Lock.* Press the power lock button and lock, or unlock, all the doors automatically. Increased safety when you're driving with the entire family or alone.

G. Locked Hidden Compartment. Carry whatever you want, and do it with maximum security. Plenty of room and protection for clothes, cameras, and other valuables.

H. Deluxe Wheel Covers. Great looks and a great choice. All this style is yours for the asking on our Satellite and Belvedere Wagons.

I. Chrysler Airtemp Air Conditioning. Chrysler Airtemp air conditioning cleans, dehumidifies, and cools the air quietly and efficiently. Ask for the dual system* and you get a special rear unit with four more vents. With Auto-Temp control,* you can set it at any temperature between 65 and 85 and forget it. Its total temperature control means total comfort, winter or summer.

J. Power Front Disc Brakes. Big self-adjusting brakes mean safer stops. Especially good if you plan on towing a boat or trailer.

K. Fury Deluxe Wheel Covers. Add this touch of glamour to your wagon.

Additional Options: Electric clock • Tilt steering wheel* • Three-speed windshield wipers • TorqueFlite automatic transmission • Power windows* • Power six-way seat adjuster* • "Headlights-on" warning buzzer • Tinted windows • Tailgate assist handles* • Cargo compartment carpeting* • Tailgate scuff step plate • AM push-button radio • Headlight switch time-delay unit • Remote control outside mirror • Fender-mounted or hood-mounted turn signals • Roof luggage rack • Heavy-duty suspension • 70 amp hour battery • Heavy-duty shocks • Deluxe seat belt package.

Trailer-towing Package. This is no "glorified" trailer hitch. It's a complete package engineered to improve performance and make towing your boat or trailer easier and safer.

It includes heavy-duty brakes and suspension, wider wheel rims and tires, maximum cooling system, a high capacity radiator and more.

Ask for the catalog that describes the specific package for your model. *Available Fury only.

Plymouth station wagon colors make it. Acrylic enamel finish looks good, lasts long.

*Fury Only. †Belvedere Only. **Extra cost, Belvedere only.
