CSX

ADVANCE.

2009

CSX

SEDAN EXHILARATION EVOLVED.

The new 2009 Acura CSX. An exceptionally modern interpretation of classic, heart-pounding performance is here. From its race-inspired roots and track-tuned engineering to its advanced driver technology and amenities, the new CSX is driving excitement in its most athletic form.

A serious dash of style.

STYLING

Beyond its bold new look, the CSX is also a textbook study in aerodynamics. From its aggressive, new, front styling and sculpted lines to its fluid, one-motion profile and sleek body paneling, suddenly everything else on the road seems quite square.

17-INCH WHEELS

Reinforce your feel for the open road with 17-inch, aluminum-alloy wheels. Augmented by a small wheel gap and a short fender overhang, the wheels enhance the vehicle's wide stance and uncompromising urban style.

SIDE MIRROR INTEGRATED TURN INDICATORS

Eye-catching side turn indicators are integrated into the body-coloured power heated folding side mirrors. Offering function in its sleekest form, the CSX's side mirror integrated turn indicators increase your visibility on the street and indicate your turning intentions to other motorists and pedestrians.

It looks as sharp
as it handles.

AVAILABLE PADDLE SHIFTERS

Experience the thrill of Formula One™-inspired performance and control with the touch of your finger. Mounted just behind the spokes of the sporty, leather-wrapped steering wheel, you'll find available paddle-shifting transmission control designed to add that extra boost of excitement to an already exhilarating 5-speed automatic.

ELECTRIC POWER STEERING

Where some stop, the CSX is constantly pushing forward. More than just power steering, the CSX has adopted an innovative approach that eliminates the need for a hydraulic pump, providing you with quicker steering response and increased efficiency. Because the steering relies entirely on the electrical system, engine power drain is eliminated, as is the additional weight associated with conventional power steering systems, making the CSX more agile in corners.

STEERING WHEEL-MOUNTED CONTROLS

The CSX features illuminated, steering wheel-mounted audio and cruise controls to enhance the safety, convenience and exhilaration of your driving experience. These, in tandem with a tilt and telescoping steering column, help ensure your optimal driving position and comfort, so you can focus on the road ahead, carving every corner of it.

VEHICLE STABILITY ASSIST WITH TRACTION CONTROL

For enhanced handling and remarkable control, the CSX now features Vehicle Stability Assist (VSA®) to automatically correct oversteer and understeer cornering scenarios. And if that's not enough, Traction Control helps you get off the mark quickly and confidently on loose or slippery surfaces.

It makes every move a bold one.

2.0-LITRE, 16 VALVE, DOHC, i-VTEC® ENGINE

Race-inspired to its aluminum core, the CSX is propelled by a high-performance, 2.0-litre, DOHC, i-VTEC, 4-cylinder engine. This lightweight and highly efficient engine boasts an aluminum block and head with DOHC, 16-valve design. The driving result is a balance of sporty performance, exceptional fuel efficiency and low emissions.

HORSEPOWER AND TORQUE

Producing 155 horsepower and 139 lb.-ft. of torque, the CSX's 2.0-litre, i-VTEC engine enables you to rule the road with high-torque output at low speeds and an exhilarating boost of acceleration at a range of higher speeds. And for smoother, on-demand acceleration, there's a Drive-by-Wire Throttle System™ that utilizes advanced electronics to help deliver maximum engine response and efficiency. All in all it adds up to the incredibly sporty, responsive experience you've been longing for.

INTELLIGENT VARIABLE VALVE TIMING AND LIFT ELECTRONIC CONTROL (i-VTEC)

The dual camshaft profiles of the compact, race-inspired, i-VTEC engine deliver greater power across the entire rpm range. It offers a boost of low-end torque for faster off-the-line speed and high-end rpm power for passing on highways. Plus, with the added efficiency of Variable Timing Control (VTC), the i-VTEC engine possesses an abundance of force.

SPORT SUSPENSION

The Type-S sport-tuned, control-link MacPherson strut front and reactive-link double-wishbone rear suspensions provide superb control and precision handling. But perhaps what you'll notice most is how the tighter spring coils and dampers, together with larger front and rear stabilizer bars, create an exceptional feeling of harmony with the road.

HELICAL LIMITED-SLIP DIFFERENTIAL

Once found only in high-performance race cars, the helical limited-slip differential is yours to discover on the CSX Type-S. Experience greater steering control and faster response as the limited-slip differential optimizes the distribution of torque from one wheel to the other, giving you the confidence to accelerate through turns to carve the perfect corner.

TYPE-S PERFORMANCE

In the Type-S lives the power of a compact, 2.0-litre, i-VTEC, 4-cylinder engine. With many advanced components and drive-enhancing systems, the i-VTEC engine's all-aluminum block and head with DOHC, 16-valve design provides an intelligent answer to the question of power – in a Type-S that adds up to 197 horsepower – an extra 45 horsepower as a result of higher compression and a 8000 rpm redline. Plus, the smooth, efficient acceleration of the Drive-by-Wire Throttle System proves that awe-inspiring power and fuel efficiency are never mutually exclusive.

INTERIOR STYLE

Stylish, leather-trimmed seats with high-contrast tailored stitching and Type-S embossing complete the cabin's interior. Plus, for that extra finishing touch, the leather-wrapped steering wheel and shift knob quickly confirm this is a car with a high-performance character.

The Acura CSX Type-S. From its 197-horsepower engine, 350-watt Premium audio system and satellite-linked Navigation System to its quick-shifting close-ratio 6-speed manual transmission and sport-tuned suspension, the CSX Type-S is pure attitude with an exhilarating twist

CLOSE-RATIO 6-SPEED MANUAL TRANSMISSION

For driving enthusiasts who demand the control of smooth, quick gear shifting, the Type-S features a close-ratio 6-speed manual transmission. Perfectly spaced gear ratios offer you a race-inspired link to the 197 horsepower lurking under your foot.

Very user-friendly features.

AVAILABLE HANDSFREELINK™ CONNECTIVITY*

Program and link your Bluetooth-enabled wireless device to the HandsFreeLink interface to make, receive and transfer calls from your mobile phone without interruption. Provided your mobile phone is located inside the cabin, calling numbers will be displayed, your phone will respond to voice activation and you will hear the caller's voice over the vehicle's audio system. Plus, the system operates in English or French and is capable of integrating up to six different compatible mobile phones, turning your CSX into a hub of connectivity.

ACURA NAVIGATION SYSTEM*

The CSX's available satellite-linked Navigation System with bilingual Voice Recognition can pinpoint your location almost anywhere in North America or access its search directory to help you find directions. The system is equipped with bilingual voice recognition software that recognizes up to 600 verbal commands in either English or French and can provide you with real-time directions by voice or moving-map display. Simply ask the system to show you the most direct route to your destination, or offer an alternate route, and you're on your way.

ACURA PREMIUM AUDIO SYSTEM**

Tune in to this – 7-speaker acoustics, including subwoofer and a 350-watt AM/FM head unit with an in-dash CD player, handle the musical accompaniment in the CSX. Plus, for a more personalized listening experience, there's a standard MP3/auxiliary input jack, an available digital audio card reader with MP3/WMA compatibility and a standard USB port, so feel free to bring your favourite tunes along for the ride. Plus, speed sensitive volume compensation (SVC) makes for smooth, perfect pitch listening at any speed.

* Available with the CSX Technology and Type-S Packages. ** Available with the CSX Type-S Package. CSX Technology Package shown.

Bold on the outside.
Beautiful on the inside.

HEATED, LEATHER-TRIMMED SEATS

Tightly bolstered leather seating provides a sporty look and feel inside the CSX cabin, while aluminum accent trim and ambient cabin lighting create a modern air of cool sophistication. Both front seats are ergonomically sculpted and heated for extra comfort, and the driver's seat is height adjustable for maximum comfort and positioning.

**AVAILABLE 5-SPEED AUTOMATIC TRANSMISSION
WITH PADDLE SHIFTING**

Experience a veritable feast for your driving senses from the 5-speed automatic. Leave it in drive and let the automatic transmission take over, or move it into "S" mode and enjoy all the thrilling, tactile response F1[®]-inspired paddle shifting has to offer. Plus, for the driving purist, an equally exciting experience awaits with the standard 5-speed manual transmission.

POWER MOONROOF

Add a breath of fresh air whenever you feel like it with a standard power sliding glass moonroof that features a tilt setting, privacy glass, retractable sunshade and one-touch auto-open.

AUTOMATIC CLIMATE CONTROL

The perfect cabin temperature comes standard when you use the automatic climate control with air-filtration system. Select the desired temperature, and the system will adjust under changing weather conditions.

AIRBAGS

Maximum safety is achieved with six airbags designed to protect all occupants inside the cabin. Depending on the point and force of impact, the CSX will deploy dual-stage, dual-threshold front airbags that activate at one of two rates depending on the severity of the impact; front side airbags with the innovative passenger-side Occupant Position Detection System (OPDS) that will not release if the system detects a small-size or improperly positioned passenger; and side curtain airbags with state-of-the-art rollover sensors.

SOLID STRUCTURE

The Advanced Compatibility Engineering™ (ACE™) body structure utilizes a high-tensile, high-efficiency steel body frame to provide enhanced protection from a multidirectional collision. ACE reduces the concentrated force of a frontal impact by absorbing energy over a large area and dispersing it away from the vehicle's interior. Additionally, ACE is designed to help reduce occupant injuries caused by misalignment in collisions between vehicles of different sizes.

ACTIVE FRONT HEAD RESTRAINTS

In the event of a rear impact, the CSX's active front seat head restraints offer the driver and front passenger excellent neck protection.

TIRE PRESSURE MONITORING SYSTEM

Correct tire pressure is critical to safety, performance and fuel efficiency. Enter the CSX's Tire Pressure Monitoring System (TPMS) which continually monitors the air pressure in each tire. If pressure drops in any of your tires, a transponder attached to the wheel's valve stem transmits the information to a receiver, and a warning appears on your instrument panel.

PEDESTRIAN SAFETY

Acura's Safety Through Innovation goes one step beyond with a revolutionary approach to pedestrian safety. The CSX exterior design incorporates energy-absorbing hood and front fenders and breakaway wiper pivots to mitigate pedestrian injury.

ABS

The 4-wheel Anti-lock Braking System (ABS) helps maintain steering control when braking hard on wet, slippery or loose surfaces, while Electronic Brake Distribution (EBD) balances braking forces at each wheel to help compensate for passenger weight distribution inside the cabin. Plus, there's an available Brake Assist feature on the CSX Type-S that senses a panic stop and applies maximum braking power to help you stop quickly and safely.

AVAILABLE HIGH-INTENSITY DISCHARGE (HID) HEADLIGHTS

The best way to avoid incidents is to be able to spot potential hazards beforehand and take appropriate action. That's where the CSX's HID headlights enter the picture. Producing an intensely brilliant beam of focused light, the High-Intensity Discharge headlights enhance your ability to identify what's ahead and what to avoid.

At Acura, Safety Through Innovation is based on the idea that an advanced driving experience starts with advanced safety features. This guiding principle is reinforced through the extensive number of standard safety features and use of innovative technologies you'll find in all Acura vehicles.

SPECIFICATIONS

ENGINE

Engine	2.0-litre, 16-valve, DOHC, i-VTEC® 4-cylinder
Horsepower	155 hp @ 6000 rpm
Torque	139 lb.-ft. @ 4500 rpm
Displacement	1998 cc
Redline	6800 rpm
Emissions	Tier 2 Bin 5

† Use kilometrage for comparison purposes only. Your kilometrage may vary. * Includes a no-charge trial of 3 months, beyond which service fees apply. Available in 10 Canadian provinces and 48 contiguous U.S. states. See terms and conditions at www.xmradio.ca.

2009 marks Acura's continued participation in the American Le Mans Series. This highly competitive endurance series offers the perfect proving ground for Acura's automotive technology, from electronics and aerodynamics to fuel efficiency and engineering. It's true track-tested performance, advanced.

Driving a luxury vehicle should go beyond engineering and amenities. That's why Acura is committed to ensuring your ownership experience is equally luxurious. New Acura owners benefit from four-year 24-hour Roadside Assistance, which includes Dispatch Emergency Roadside Service, Emergency Lockout Service and Traffic Accident Services. See your Acura Retailer for details.

WARRANTY

Your new Acura vehicle comes with the following warranties: • Major Component (Powertrain) – 5-year/100,000-km limited warranty • Vehicle – 4-year/80,000-km Distributor's limited warranty • Rust Perforation – 5-year unlimited-distance warranty • Surface Corrosion – 4-year/unlimited distance • Accessories – 4-year/80,000-km limited warranty (when installed by an authorized Acura Retailer at time of new vehicle delivery). Regular maintenance items and parts are subject to normal wear and replacement, and are not covered by warranty. Certain other items are excluded and certain conditions apply. See your Acura Retailer for details.

ACURA PLUS

Extend your worry-free ownership experience by purchasing additional coverage. Choose from Acura's flexible selection of Mechanical Coverage that extends up to 7-years or 160,000 km, whichever comes first. See your Acura Retailer for details.

LEASING AND FINANCING

Owning your Acura is easy. See your Acura Retailer for complete details on: Acura Leadership Leasing*, Acura Future Value Financing* and Conventional Financing*.

*A genuine service of Honda Financial Services. Conditions, restrictions and prepayment requirements might apply O.A.C. Acura Future Value Financing does not apply in the province of Quebec.
