Clarence Gagnon was born in Montreal. He studied both at home and abroad. His paintings evoke a timelessness of the Quebec rural lifestyle.

Commitment

Like each brush-stroke the artist applies to a canvas, every part of a Toyota is created to function in perfect harmony with every other part. So you can count on superb Quality, Dependability and Reliability - or QDR, the foundation of our reputation. Rather than simply meeting your expectations, we strive to exceed them through our commitment to constant improvement. This means innovations such as more fuel efficient engines with increased power, traction control systems and enhanced occupant safety. And it means addressing environmental and safety concerns by developing alternative powered vehicles and vehicle stability control systems. Above all, it means creating a level of quality that, like fine art, can be relied upon to endure.

1999 Tercel

THE MODELS

OUTSTANDING VALUE

The clean, aerodynamic design gives Tercel CE a distinctive, sporty presence and an exciting sense of motion and speed. Comfortable five-passenger seating and a quiet, roomy interior. A fun-to-drive feeling comes from a responsive 1.5 Litre DOHC 16-valve 4-cylinder engine that produces 93 horsepower with outstanding fuel economy. The user-friendly instrument panel places all gauges and controls in an open design that's easy to see and use. The 1999 Tercel is our most affordable sedan and its performance and practicality make this Toyota an exceptional value. But you can expect and deserve a lot for your money.

TERCEL 4-DOOR CE

Tercel delivers all the power you want, protects you with advanced safety features and offers enough space in its roomy interior to seat five in comfort.

TERCEL 2-DOOR CE

There's no compromise with Tercel 2-Door. Step inside and you'll find the same features and specifications built into the 4-Door model.

1999 Tercel

PRACTICALITY

To meet Toyota's high standards of quality, reliability and safety, Tercel includes power-assisted brakes, front and rear crumple zones, sturdy side impact door beams and an energy absorbing body structure. Rear-seat headrests complement the outboard 3-point lap and shoulder belts. A driver airbag Supplemental Restraint System (SRS) is standard for '99. Finally, the interior options which include remote trunk and fuel door releases, 60/40 split and fold-down rear seat, driver and passenger side remote control mirrors custom tailor Tercel to meet your requirements. Tercel - making the most of your money.

PEACE OF MIND

4-Door CE interior shown in Grey (optional equipment shown)

The driver front seatbelt is equipped with a pretensioner that includes a force limiter. In a frontal collision, the pretensioner immediately reduces slack in the seatbelt, helping reduce

the risk of injury. The force limiter then allows the shoulder belt to “give” gradually to help minimize further injury. For your driving safety, Tercel has a standard driver side airbag

Supplemental Restraint System (SRS), anchor points for child restraint seats and outboard 3-point lap and shoulder belts.

AIRBAG NOTICE: The 1999 Tercel features a driver airbag Supplemental Restraint System (SRS) which activates only in a front-end collision of sufficient magnitude to inflate the airbag. In moderate frontal collisions, the airbag may not inflate, in a rear or side collision the airbag is designed not to inflate, so the primary protection is provided by the lap and shoulder belt system. *Seat belts must be worn at all times by all occupants.*
