

SIMPLY CLEVER

# The new Škoda Fabia

Cars have a language. When they talk, we listen. They tell us where they are going and where they came from. They whisper clues about the people they carry. Revealing their lives, lifestyles, habits and habitats. Every Škoda Fabia tells such a story. Listen to the one that is telling yours.

The **new Škoda Fabia and Fabia Combi** come with several distinctive exterior changes giving them an entirely new expression. The **front** has undergone the biggest facelift, lending the car a more self-confident and dynamic look. Both models have a newly designed **front bumper, front grille** and **headlamps**. The newly shaped **front fog lamps** are now available with **daytime running lights**.

One of the innovations of the new Fabia is a **longitudinal roof railing** in black or black/silver colour combination. Passengers in the rear seats will enjoy higher comfort provided by **SunSet**, a high-performance tinted glass.

**Rear combined lights**, with their characteristic C-shaped translucence, communicate a message of belonging to the Škoda brand.

The city is your first love. You flirt with its streets and embrace its neighbourhoods. Life is young and so is the lifestyle. There is always enough time for work, play, parties and groceries. All you need is a companion who is as street smart as you are. Like the new Škoda Fabia.

There are loved ones waiting for you to come home every evening. A home which is big enough for children and their childhood, life and its responsibilities. You don't know what tomorrow may bring. But you know there'll always be space for it. In the back of your new Škoda Fabia Combi.

The essential feature of the new Fabia models is **practicality**. It offers **extraordinary space** for both the crew and luggage. In addition, we offer you a whole range of **practical accessories**, which help you maximise the utilisation of the luggage compartment and keep the car tidy.

The **2-position luggage compartment cover** in Fabia allows, when fixed in the lower position, the transport of objects that would otherwise impede the driver's view.

The **interior bicycle holder** will allow you to comfortably transport 2 bicycles inside the Fabia Combi.

With the **Net Programme** for Fabia Combi, consisting of 3 nets, your luggage will stay safely in place while you are driving.

You may hang your shopping bags on **folding hooks** available on both sides of the luggage compartment.

The **flexible storage compartment** may be used to fix smaller objects.

Family comes first. Even as you juggle between roles, you always find time to be there for those who love you most. Your life is more fun because you get to share it. And with all that space in your new Škoda Fabia Combi, there are even more memories waiting to be stored.

The **new Škoda Fabia Combi** is a pleasant family vehicle, which satisfies even the highest requirements for space and storage options. Thanks to its variability it's a great choice for families with small children as well as owners of four-legged passengers. The **luggage compartment** capacity is 505 litres, which can be expanded to **1,485 litres** after tilting the rear seats.

The **mid-level luggage compartment floor** for the Fabia Combi model places the bottom of the luggage compartment on the level of the loading edge, facilitating easier luggage handling. In addition, it provides a suitable storage place to keep things that you don't want to unload every day.

We deliver the **roof railing** in an exclusive black/silver design or in elegant black.

A look at the **dashboard** reveals not only design changes but also innovations to the offered steering wheels and comfort features, such as a **navigation system, radios** and **MDI** (Mobile Device Interface). The new **multifunctional 4-spoke leather steering wheel**, which enables you to control the radio and phone, is also available in a 3-spoke sports design. All instrument panel versions feature new functionality, one of which is the **recommended gear shift** function, depending on the engine version.

The **MDI** (Mobile Device Interface) enables (by means of interconnecting cables with terminals for the iPod, Aux-in or USB, available from Skoda Genuine Accessories) control of a connected external device through the radio or navigation system.

The **Climatronic air conditioning** with electronic regulation comes with a new control panel.

In addition to maintaining the preselected speed, **cruise control** enables you to increase or reduce speed without using the pedals. This function is controlled by a button on the side of the cruise control.

The **Swing radio** is furnished with a dual antenna and music CD, CD-MP3 and CD-WMA player.

**Recommended gear shift** function is displayed in the top right corner of Maxi DOT or on the on-board computer display.

You control the **Amundsen navigation system** with a 5" colour touch-screen.

**Comfort** is a matter of personal feeling as each of us has different expectations and requirements. For all of those who associate comfort with sufficient storage options we have a simple solution.

The **storage compartments in the dashboard** are available in two versions, either open or closed. The lower compartment may be illuminated and, in combination with the Climatronic air conditioning, cooled.

The **adjustable armrest** between the front seats houses an unexpectedly spacious storage compartment of 1.2 litres. The driver and passenger's comfort is further increased by the **heated front seats**.

The **storage compartments in both the driver and front passenger's door panelling** provide a 1.5l bottle holder and a practical rubber band to hold a map or magazines.

The **central console drinks holder** is a welcome addition, especially for the rear seat passengers, but is easily accessible from the front seats as well. Other storage options are provided by the **pockets on the front seat backrests** and **storage compartments in the rear door panelling**.

A hidden storage space for various small objects can be found in the **drawers with tilting lids** situated under the front seats.

The Škoda GreenLine vehicles reflect outstanding concern for the environment. They clearly demonstrate that ride comfort and an enjoyable drive can be combined with economical operation and low CO<sub>2</sub> emission levels.

The **Fabia and Fabia Combi GreenLine**, with an original badge marking the model on the front grille as well as on the 5th door, owes for its extraordinarily low fuel consumption and CO<sub>2</sub> emission reduction to specific modifications, such as a lower chassis and aerodynamic adjustments to the lower part of the vehicle. With the **1.2 TDI CR DPF/55kW** diesel engine the GreenLine version achieves a combined consumption of **3.4 l/100 km** at a CO<sub>2</sub> emission level of a mere **89 g/km**. Both models are offered with the **Domino interior** in black or grey design as standard (see equipment versions).

The improvement of the aerodynamic parameters of the Fabia GreenLine model is largely aided by the original **spoiler on the 5th door**.

The 6.0J x 15" **Antares alloy wheels** come with 185/60 R15 tyres with low rolling resistance.

The **Start-Stop system** automatically switches off the engine, for example while waiting at the traffic lights or when moving slowly in a queue of cars. By pressing the clutch pedal the engine automatically restarts. The driver can deactivate the Start-Stop system with a button located on the central console. Engine load reduction and more economical running are further assisted by the **energy recovery functionality**, which enables an effective use of the car's kinetic energy for battery recharging.

Freedom is a place where you chase sunsets and not deadlines. Where nature becomes a welcome escape and a healthy addiction. But being free doesn't mean being alone. Thankfully there is enough room in your new Škoda Fabia Combi Scout for your family and their own adventures.

You know life isn't always a smooth journey. It can be a bumpy ride full of big and small challenges. Especially when you seek adventure by going off the beaten path. Thankfully the new Škoda Fabia Scout Combi comes with the space and the performance to enjoy each one of those challenges.

The **new Škoda Fabia Scout** is ready to offer you an unusual riding experience. Both the exterior and the interior will attract you with their distinctive equipment, including, among others, a **rear bumper** with a **diffuser**. The **Fabia Combi Scout** is also available.

The unique design of the Scout model is distinctively represented by the newly shaped **front bumper**.

The **Scout interior** is designed in a grey/black colour with an Onyx/Silvergrey or Onyx/Onyx dashboard. Options also include the **Floss** interior (leather/artificial leather/fabric) or the **Pulse** interior with sports front seats.

The **noble steel foot pedal covers** as well as **removable woven carpets** with grey stitching give the interior a sporty and elegant style and enhance the feeling of comfort.

A brown Škoda Fabia Scout is shown driving on a rocky riverbank in a lush forest. The car is positioned on the left side of the frame, moving towards the right. The background features a waterfall cascading into a river, surrounded by dense green foliage and tall trees. The scene is captured with a slight motion blur, suggesting the car is in motion. The license plate of the car reads "9S9 2812".

You never live someone else's life. You don't blend in but stand out. The day may come with daily chores but you are always dressed to be different. And when the city becomes predictable, you set off for an adventure that's as unique as your escape pod. The new Škoda Fabia Scout.

You love exploring your surroundings. But you also know how to respect them. You visit nature in its own home. And quite often you invite it to yours too. In your new Škoda Fabia Scout, you never seek to tame the environment, but to treasure it as your friendly neighbour.

With its design the **new Škoda Fabia Sportline** provokes directly to the active lifestyle. Its interior is dominated by a **3-spoke steering wheel** in black perforated leather which is very pleasant to touch.

The **noble steel foot pedal covers** and **removable woven carpets** with coloured stitching have significant merit for both a sporty and comfortable interior appearance.

The **Pulse interior** with sports front seats is available for the Sportline version in a dark blue or red design.

Sweat is your secret fuel. Life is a game where friends and fun are always on your team. You thrive in places that have become your playgrounds. Being active means being alive. And when you need a player as dapper and daring as you are, you can count on your new Škoda Fabia Sportline.

Power can simply mean knowing it's there when you need it. Like the 180 horses waiting at the command of your right foot. Welcome to a world of power and performance where a healthy dose of adrenaline is served with an equal measure of comfort and control, the world of the new Škoda Fabia RS.

The **new Škoda Fabia RS** is characterised by a **robust front bumper**. The front grille bears the **RS badge**. For an even more sporty appearance of the car, you may equip it with **LED daytime running lights** instead of standard circular fog lamps (see photo). We offer the RS models both in the Fabia and Fabia Combi versions always with the **1.4 TSI/132kW engine** and the **7-speed DSG transmission**.

The **Tempo interior**, with specially modelled sports front seats for the driver and passenger, is offered in a grey or red design.

A number of elements, such as the **5th door spoiler**, the **diffuser**, the **double exhaust tailpipe** and the **RS badge**, give the car rear a really sporty look. The 7.0J x 17" **Gigaro** alloy wheels with 205/40 R17 tyres were specially developed for the RS model. You may select from 4 colour variants: silver, anthracite, white and black.

The **3-spoke sports leather steering wheel** multiplies the driving pleasure. The car may also be furnished with the **multifunctional leather steering wheel** allowing comfortable control of the DSG automatic transmission, the radio and the phone.

Some have the power within. Others are merely dressed for it. But when true performance comes with the looks to match, it's a pleasure to watch and a thrill to experience. Like the potent 1.4 TSI/132kW engine wrapped in the sporty contours of the new Škoda Fabia RS.

It's good to know you have the performance. But it's even better to know you have it in control. Witness raw force being tamed by pinpoint precision, thanks to the 7-speed DSG. You can enjoy this perfect balance of power and a lot more in the new Škoda Fabia RS.

Power is something that needs to be enjoyed. Pure performance can only be appreciated in pure comfort. It's when a thrilling ride can be stretched into a relaxing journey. After all, even adrenaline needs to calm down in the comfortable sports seats of the new Škoda Fabia Combi RS.

The **technology innovations** brought by the new Škoda Fabia are mainly represented by the engines, which offer **excellent performance** resulting in your driving pleasure. Technical development has led to a further **reduction of CO<sub>2</sub> emissions**, representing a responsible approach to the environment. The **1.2 TSI petrol engines** excel with their flexibility, low noise and economy. **Diesel engines**, supplied with the **common-rail fuel injection system**, are noted for their quiet and refined operation and extraordinarily low consumption. All offered engines comply with the EU5 emissions standard.

The new **automatic 7-speed DSG transmission** (Direct Shift Gearbox), designed exclusively for the 1.2 TSI/77kW engine (Fabia, Fabia Combi) and 1.4 TSI/132kW engine (Fabia RS), guarantees comfortable yet dynamic drive with economic fuel consumption.

You may order additional features, such as **TPM** (Tyre Pressure Monitoring) and **start-up assistant**, supplementing the **ESP** (Electronic Stability Programme), which always includes **ASR** (Anti-Slip Regulation; deactivation button shown on the photo).

Driving dynamics and low fuel consumption, along with low CO<sub>2</sub> emissions, are the strengths of the **1.2 TSI/77kW** turbocharged petrol engine.

The highest performance diesel engine developed for the new Fabia is the **1.6 TDI CR DPF/77kW** turbocharged 4-cylinder engine.

Your driving **safety** is determined by a variety of factors. As a car manufacturer we are able to positively influence some of them and so of course we haven't left anything to chance. In addition to the essential prerequisites of safety, such as the exceptionally **strong body** and **excellent driving characteristics** of the vehicle, we bring you a range of products for the protection of the whole crew. Since the feeling of safety is an individual matter and depends on, for example, whether you transport children in the car, you may select additional safety features that fit your specific requirements. In all Fabia models you may be protected by up to 6 airbags: **driver and front passenger airbags, front side airbags** and **head airbags**.

The vehicle may also be equipped with **tilting halogen projector headlamps** for increased safety while cornering.

The **fog lamps** with the **daytime running lights** are also available with the optional **Corner function**. This feature automatically switches on either the right or the left fog lamp, depending on the angle of the steering wheel and the activation of the turn indicators, at a maximum speed of 40 km/h.

The car may be equipped with an **alarm** with interior monitoring, a horn with back-up power and an inclination sensor. Optional **deactivation of interior monitoring** (see photo) will especially be welcomed by dog owners.

The **sun shields** will prevent unpleasant sun glare.

The rear seat passengers' safety is enhanced by three **height-adjustable headrests**.

The standard safety equipment of new Fabia cars includes a **mount preparation for two child seats with the Isofix system** including special safety belt anchoring, which is an essential part of the **Top Tether child seat**. Child safety seats for children of all age groups can be found in the **Škoda Genuine Accessories** range.

If you wish to place the child seat on the front passenger seat, you will need to equip your car with the optional **deactivation of a passenger airbag**. Once installed, you can turn off the airbag with a key.

When manoeuvring the vehicle in a tight space, you will appreciate the **parking sensors**, which monitor the distance of the rear bumper from a potential barrier.

**Fabia Elegance** represents the most attractive equipment version of the model. It comes with the Chess interior in black with the Onyx/Onyx dashboard or, at request (without extra charge), in beige with the Onyx/Ivory dashboard. The interior is decorated with a number of chrome details. The standard equipment of the Elegance version further includes an on-board computer, Climatic air conditioning, height-adjustable front seats, electrically adjustable heated external mirrors, rear reading lamps and removable woven carpets.

**Fabia Active** is, as the name indicates, intended for active lifestyle. It's offered with the Domino interior in black or grey with the Onyx/Onyx dashboard and with 3-spoke sports steering wheel. The chrome details are also included. The standard equipment of the Active version further includes an on-board computer, small leather package, height-adjustable driver seat, closed illuminated front passenger glove compartment, sunglasses compartment and tinted windows.

**Fabia Ambiente** is an excellent version combining comfort with practicality. It's available with the Domino interior in grey or black with the Onyx/Silvergrey or Onyx/Onyx dashboard and with chrome details. The standard equipment of the Ambiente version further includes an on-board computer, radio preparation, electric front windows, central locking, closed illuminated front passenger glove compartment and split rear seats.

**Fabia Classic** is the basic equipment version and it's equipped with the nice Stone interior in blue or grey with the Onyx/Silvergrey or Onyx/Onyx dashboard.

**Pulse interior** in grey/black with sports seats and Onyx/Onyx or Onyx/Silvergrey dashboard (top left photo).

**Floss interior** in black in fabric/leather/artificial leather with Onyx/Silvergrey or Onyx/Onyx dashboard (top right photo).

**Drops Blue interior** with Onyx/Onyx or Onyx/Silvergrey dashboard (bottom left photo).

The interiors shown above are available as extra equipment, from which you can select other attractive products, such as the small leather package (steering wheel, handbrake handle and gear stick knob), Climatronic air conditioning with electronic regulation, Swing and Blues radios, Amundsen navigation system, roof racks, 14"-17" alloy wheels and so on. For up-to-date information on the wide range of extra equipment for the Fabia model versions contact your authorised Škoda partner.

## Škoda Genuine Accessories

The Škoda Fabia and Fabia Combi cars are driven by people with various professions and hobbies – young couples, families with children, active sports-oriented people as well as those who value comfort above all. Naturally, each of them has different needs and specific requirements for their car. This is where the Škoda Genuine Accessories offer a solution. In our range, which is essentially an extended range of the extra equipment, you will find various products including spoilers, alloy wheels, radios, navigation systems, roof racks and so on. You can also choose from a wide palette of safety child seats for children of all age groups. To get a full overview of our range of products, ask any Škoda authorised partner for our special accessories catalogue.

The **thermo-electric cooling box** with 15-litre capacity will enable you to keep food and drinks fresh and refreshing in any weather.

The **decorative door sill covers** enhance the attractiveness of the car and at the same time protect the sills against mechanical damage.

The **roof transportation systems** will especially be appreciated when carrying various sports equipment. A genuine Škoda box with 380-litre capacity, which successfully passed the City Crash test, is also available.

## Merchandise

Shoulder bag made of tarpaulin in black/silver colour design.

Slap-on watch with an analogue or digital display in gift packaging.

Neoprene pouch for a mobile phone fixable to a belt.

Ballpen in green with "ice" effect.

Small sports bag in black/green colour design.

## General information

### ŠKODA SERVICE

Put your car in good hands. We give you good reasons to choose an authorised Škoda service partner.

#### We offer you first-class quality

Your car requires advanced technology. For this reason, all the Škoda authorised service partners have special tools and quality diagnostic systems at their disposal which in combination with the technological procedures prescribed by the manufacturer ensure the perfect functionality and reliability of your car.

#### Professionally trained staff by the manufacturer

The ever-rising standard of the technology used in the car requires corresponding professional qualifications on the part of the staff. To meet this requirement, the manufacturer organises regular training for the staff of the authorised service partners in order to provide them with up-to-date information important for their activities.

#### Our motto: be fair and open with our customers

Careful, professional and friendly counselling for the customers upon acceptance of orders is of great importance to us in the same manner as diligence and completeness with respect to repairs and maintenance work. All this is continuously monitored by internal quality control of the provided services.

#### Comprehensive range of services:

##### • Service inspections

For your car to remain in top condition and functional for a long time and, optionally, not to forfeit warranty, it is essential for your Škoda authorised service partner to perform regular service inspections. The service schedule informs you when the service inspection must be done.

##### • Body and paintwork service

Damage to the body and painted areas following an accident will be fixed by your authorised Škoda service partner in an expert manner, in accordance with information from the manufacturer, using Škoda genuine parts. This is important not only for your safety, but also for functionality and maintaining your car's value.

##### • Courtesy car

The authorised Škoda service partner can provide you with a courtesy car for the period of repair or service inspection.

##### • Pick-up and delivery service

If you are unable to take your vehicle to a Škoda service, an authorised Škoda service partner will arrange a date with you to pick up the car. The car will be delivered back after the service work has been completed.

The listed services represent only a part of the wide range of Škoda service offers, which may vary from country to country. Please contact your authorised Škoda service partner for further details and information on the range and specific conditions of services they offer.

### ŠKODA GENUINE ACCESSORIES

Škoda Genuine Accessories offer you child safety seats, roof rails, alloy wheels, sunblinds and more. For more detailed information on the complete Škoda Genuine Accessories range see the individual Škoda model catalogues.

### ŠKODA GENUINE PARTS

#### Safety

Škoda genuine parts are identical to those used during the assembly of Škoda vehicles. The use of first-class materials and technologies guarantees safe and worry-free driving.

#### Availability

Škoda Auto offers a comprehensive range of parts and equipment items that are used in the vehicle's batch production and does not merely focus on high-turnover parts. Škoda ensures the provision of genuine parts even after the relevant model is discontinued.

#### Long service life

The use of first-rate materials and production technologies in the manufacture of Škoda genuine parts ensure their maximum reliability and long life.

#### Environment protection

The Škoda Genuine Parts range includes exchange parts whose production has a low environmental impact in terms of waste, excess heat and water pollution.

### INFORMATION ON THE INTERNET

Information is available at [www.skoda-auto.com](http://www.skoda-auto.com) to assist you in deciding which vehicle suits your needs, thanks to the detailed descriptions and photographs of all our models.

### ŠKODA FINANCE

ŠkoFIN offers solutions for both individuals and businesses. You can learn about the current offer through any authorised Škoda partner. The credit or lease contract can also be concluded online directly with the car dealer.

### GLOBAL FLEET

The Škoda Auto Global Fleet Services offer B2B fleet solutions to customers with all kinds of requirements. A fleet made up of Škoda cars offers unmatched roominess, long-lasting quality, safety, low total costs of ownership and, as a result, excellent value for money. You can find more information about our products and services at [www.skoda-auto.com/fleet](http://www.skoda-auto.com/fleet).

One of the most important goals of Škoda Auto is the development and production of products that are as environmentally friendly as possible throughout their life cycle phases, placing principal emphasis on the selection of recyclable materials. Our Škoda cars are manufactured using progressive types of technology in modern production facilities that meet the strictest criteria. Anticorrosive protection of the cars' painted parts is based exclusively on lead-free cataphoresis (KTL) and water-soluble paints.

Our company strategy includes limiting fuel consumption and emissions. As a result, the engines of Škoda Auto meet the current emission regulations. We also offer diesel engines with Diesel Particulate Filters (DPF). All products made by Škoda Auto adhere to the laws and regulations concerning the protection of soil and water. As a result of these activities, Škoda cars meet technical, safety, quality and environmental requirements. Škoda Auto contributes to the preservation of a clean environment and provides mobility and comfort to its customers.

The environmental logo expresses Škoda Auto's awareness of, responsibility for and attempts at the sustainable development of the company and a friendly approach to life and nature.

Some models in this catalogue are shown fitted with extra equipment not necessarily included in the standard equipment. All details of technical specifications, design, equipment, materials, guarantees and appearance were accurate at the time of going to print. However, the manufacturer reserves the right to make any changes (including changes of technical parameters or individual model equipment). Please consult your authorised Škoda partner for further details on standard and extra equipment, current prices and delivery terms and conditions. This catalogue was printed on cellulose paper which was bleached without using chlorine. The paper is 100% recyclable.
