Roadside Assistance

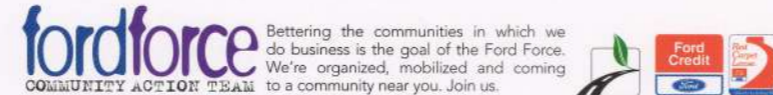

Every new Ford includes the assurance of a 24-hour emergency Roadside Assistance Program provided during the 3-year/36,000-mile limited warranty period. Ask your Ford Dealer for complete details on this program which includes such services as fuel delivery, tire change, jump start, or even help when you're locked out of your vehicle.

New Vehicle Limited Warranty

Under the New Vehicle Limited Warranty, you receive bumper-to-bumper coverage for 3 years/36,000 miles with no deductible. You also receive corrosion perforation coverage for five years with unlimited mileage and no deductible. Ask your Ford Dealer for a copy of the warranty.

Quality Care

The people who know your vehicle best. The parts designed for it. A service department that understands your needs and respects your time. That's what Quality Care is all about.

2000 E-SERIES

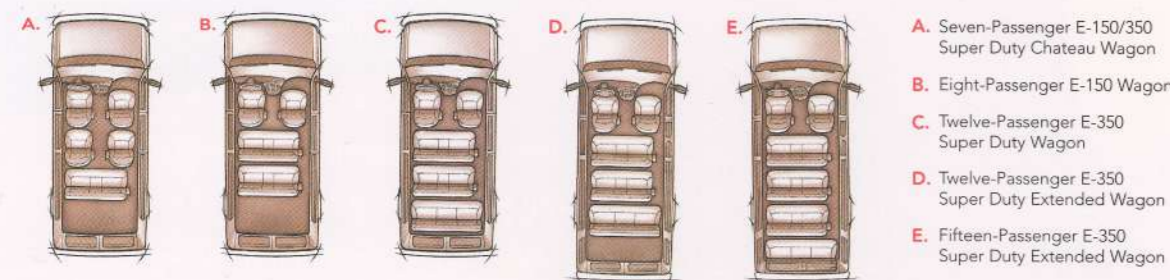

You know you'll never see it all, but that's not going to stop you from trying. And 35,000 feet high in a sealed tube doesn't get it. Mountains are for seeing from the bottom up. Orchards of blossoming cherry trees are for driving through with the windows down.

It isn't just the seeing, either. It's the doing. It's a family thing, which makes the distance largely irrelevant. It could be 3,000 miles. Could be 30. You could be headed for the Grand Canyon. Or for your favorite campsite in the next county. But you're really headed for America. To enjoy it together.

Econoline is the covered wagon that's been taking folks to America for nearly 40 years. A modern, dependable kind of covered wagon to be sure. But still...

The best leg of the trip is always the next one. The best memory is always what you did a couple of hours ago. And the significance of the journey can't be put into words.

By going far from home, you're actually getting closer.

- A. Seven-Passenger E-150/350 Super Duty Chateau Wagon
- B. Eight-Passenger E-150 Wagon
- C. Twelve-Passenger E-350 Super Duty Wagon
- D. Twelve-Passenger E-350 Super Duty Extended Wagon
- E. Fifteen-Passenger E-350 Super Duty Extended Wagon

Optional Chateau

7-passenger seating

with quad captain's chairs and 3-passenger rear bench seat shown in Medium Graphite.

Econoline is the only full-size wagon to offer this unique seating configuration.

The restyled deluxe engine cover console includes two storage areas, four cupholders, a juice box holder/ashtray, coin slots, and a bin designed to accommodate a cellular phone.

A properly equipped E-350 Super Duty Wagon with the standard 5.4L Triton™ V8 can tow up to 7,000 pounds. (Up to 10,000 lbs. may be towed with the available 6.8L V10.)

For active lifestyles, Econoline luxury vans can be a big part of the outdoor fun. They let you take all the comforts of home along with you.

Built Ford Tough

Whether you choose a well-appointed E-150 Wagon or a more elaborate recreational luxury van, you'll be riding on a tough Ford truck chassis known for its strength and durability. It's been the solid starting point for many a family outing. After nearly 40 years of van making, we know the kind of engineering people want and expect in a vehicle that will be doing everything from taking a load of kids to the shopping center to acting as a home away from home for many, many miles.

A wide range of power

All the way from leisurely touring to heavy-duty towing, you're sure to find the right level of power to fit your situation. All Econoline engines, including the standard 4.2L V6, are capable of traveling 100,000 miles without a first scheduled tune-up (under normal driving conditions with routine fluid and filter changes). And each Econoline gasoline engine is equipped with a fail-safe cooling system to help protect itself from damage due to coolant loss.

There are three powerful Triton™ engine options to choose from when the trip calls for extra muscle: the 4.6L and 5.4L V8s, and the 6.8L V10 (a 5.4L natural-gas version is also available). They feature high-torque capability at low rpm for tenacious towing power and big payloads. These rugged Triton engines are the only overhead-cam engines available in a full-size van.

You may also choose the available 7.3L V8 Power Stroke® turbo diesel, the most powerful engine of its kind ever put into a full-size van. There aren't many things you'd want to bring along that it can't handle.

Comfortable cruising

Econoline is designed for taking to the road in comfort, with conveniences like a 12-volt powerpoint, interval wipers and a selection of audio systems. The instrument panel is ergonomically designed for easy location of instruments and controls. Front safety belts are individually height-adjustable. Front air conditioning is standard. And Econoline can be outfitted with a variety of seating arrangements to suit the needs of your family.

Safety on the road

Because every day isn't sunny and every road isn't smooth, Econoline is designed to help you deal with the unexpected. An excellent view of the road is the result of the high, "command" seating position. Driver and passenger airbags and side door intrusion beams are standard occupant protection features. To help drivers avoid accidents, a four-wheel anti-lock braking system is standard on wagons and luxury vans. It provides greater steering control while braking under most conditions, even on wet or slippery surfaces. In addition, four-wheel disc brakes are standard on E-350 Super Duty Wagons to help handle extra loads like trailers. And for an extra measure of security, the available Remote Keyless Entry System includes a remote transmitter that locks and unlocks doors and turns on interior lights from a safe distance.

Luxury vans

As spacious and comfortable as the E-150 Wagon is, Econoline is also a popular choice for conversion to plush, yet practical, recreation luxury vans. Your Ford Dealer probably has a number of these specialized

Second Generation airbags are designed to further enhance protection for driver and passenger while also reducing the risk from potential airbag inflation injury.

Side door intrusion beams are integral components of Econoline's strong occupant protection system.

Robust body-on-frame construction contributes to Econoline's proven strength and durability.

vehicles on hand. If not, he can help you locate a Ford authorized converter who can custom build your van.

Potential converters are carefully screened to make certain they can meet our high engineering standards. Once they're certified, these builders, like Ford Dealers themselves, are kept informed of the latest product specifications and improvements. Experienced craftsmen, they're equipped to deliver a personalized vehicle that can provide years of family enjoyment.

Typically, luxury vans can be equipped with amenities that simply can't be found on other vehicles. Customized seating offers plenty of leg room. Usually, a rear bench seat folds down into a convenient bed. And the rear compartment normally includes its own speakers or sound system, a television (suitable for tapes and video games), and its own air-conditioning system. However it's outfitted, a luxury van makes traveling special, whether you're going across town or across the country.

The 5.4L V8 is one of three powerful Triton™ engines available with Econoline. Optional on E-150 and standard with the E-350 Super Duty model, its single-overhead-cam design is equipped with a maintenance-free silent chain drive which eliminates push rods and allows design flexibility for improved horsepower and torque.

15" wheel cover (E-150 XLT Wagon, RV Van)

15" bright cast aluminum wheel (optional on E-150 Wagon, RV Van and included on the optional E-150 XLT Chateau Wagon)

16" sport wheel cover (E-350 Super Duty Wagon, Van)

16" forged aluminum wheel (optional on E-250/350 Super Duty RV Van)

For the ultimate in enjoyable motoring, Econoline luxury vans offer versatile, individualized seating and electronic family entertainment.

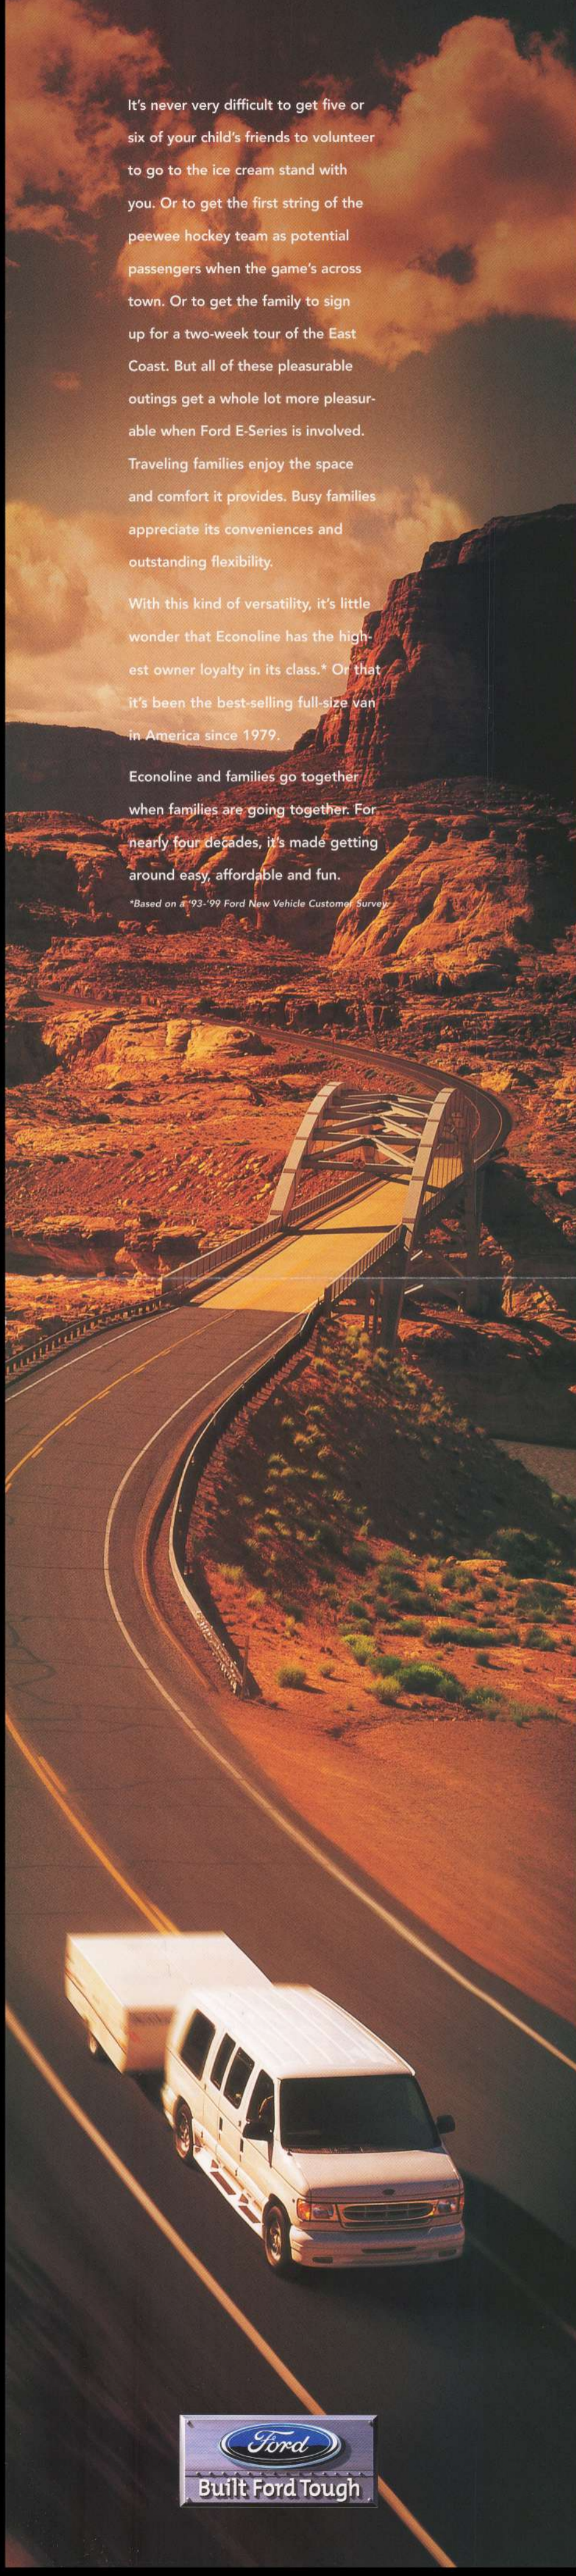

This is a typical package available from one of the Ford authorized converters.

It's never very difficult to get five or six of your child's friends to volunteer to go to the ice cream stand with you. Or to get the first string of the pee-wee hockey team as potential passengers when the game's across town. Or to get the family to sign up for a two-week tour of the East Coast. But all of these pleasurable outings get a whole lot more pleasurable when Ford E-Series is involved. Traveling families enjoy the space and comfort it provides. Busy families appreciate its conveniences and outstanding flexibility.

With this kind of versatility, it's little wonder that Econoline has the highest owner loyalty in its class.* Or that it's been the best-selling full-size van in America since 1979.

Econoline and families go together when families are going together. For nearly four decades, it's made getting around easy, affordable and fun.
