

## Volkswagen Eos

## Philosophy of the Eos.

*E-os (éds') n. Greek Mythology. Meaning: The goddess of the dawn.*

Welcome to the dawn of a new driving experience, one that invites you to enjoy the freedom and luxury of a cabriolet with the comfort and performance of a coupe. An experience that means you never have to choose between your wilder, windswept side and your desire to

travel in stylish safety. Welcome to the Eos, a car that says 'you can have it all' from the exhilaration of driving a sporty open top, to the comfort of being behind the wheel of a saloon. When your mood, or the weather, changes, so will the Eos and, thanks to its innovative five-section folding roof system, it will do it in just 25 seconds...

## **Philosophy of the Eos.**

From its Le Mans alloy wheels to its five-piece Convertible, Sliding and Coupe roof (CSC roof), the Eos is a car that doesn't ask you to compromise on luxury to have the essentials. It doesn't because it is the perfect fusion of outstanding technology and irresistible sophistication.

That means a 6-disc, dash-mounted MP3 compatible CD changer with eight speakers, a three spoke multi-function leather steering wheel, cruise control, front cloth sports seats and dual zone climate control air conditioning

– developed especially for the Eos – come as standard. Then again, as you can see when you take a look at the Eos' chic body design, this is a car that is setting new standards on every front.

6

## Engines.

While her external beauty is undeniable, like any Goddess, the Eos has plenty of power beating beneath the bonnet. It's up to you how exhilarating you'd like your new Eos to be with a choice of two engines to meet the most demanding driver. For a start the 2.0 litre TDI turbo diesel engine offers

- 01** The slick six speed manual gearbox transmits power through precisely defined short shift action
- 02** The 2.0 litre turbocharged FSI engine delivers an amazing 147kW of power and 280Nm of torque

equal smoothness, pulling power and economy, generating 103kW of power and 320Nm of torque from only 1,750 rpm. The 2.0 litre turbo-charged FSI is an awesome performer with 147kW of power and 280Nm of torque. This engine with direct petrol injection is exceptionally economical with a dynamic

development of thrust resulting in terrific acceleration (0 to 100km/h in 7.8 seconds). For added performance and in keeping with the Eos ethos of making sure you are spoiled for choice, both models are available with 6 speed manual and 6 speed Direct Shift Gearbox (DSG).

8

## The roof system.

Open skies, fresh air and the warmth of the Australian sun can all be part of your driving pleasure at the press of a button with the unique Eos five piece roof system – designed to bring together the characteristics of a coupe, a sliding sunroof and convertible hood under one highly versatile roof. In fact, the Eos is the only cabriolet to incorporate an electric glass sunroof, so even when it is in coupe mode, you can still enjoy the freedom and fun that comes with a car which brings together two different concepts and makes them a whole.

- 01** Unique: the large electric sliding/tilting glass sunroof is integrated in the innovative, fully automatic CSC roof system and can be opened separately at any time.
- 02** User friendly switches to control the fully automated CSC roof system and the sliding/tilting glass roof are integrated in the centre console.

The CSC (Convertible, Sliding, Coupe) roof system is made up of five sections which fold and lower automatically in a mere 25 seconds – transforming your cozy coupe in to a sporty cabriolet with ease. The control switches for both the roof system and the sliding/

tilting glass sunroof sit on one panel, making operation effortless and convenient. Smart features include a windscreen mounted wind deflector and parking sensors which take the rear lid into account, preventing the roof from opening when there is an obstacle behind.

## Interior.

If there is one thing that isn't optional in the Eos, it's elegance. The plush, ultra-comfortable interior exudes style and first-class workmanship from the easily adjustable, ergonomic front sports seats to the electric front and rear windows. With the leather trim on the handbrake grip, gear knob, three-spoke steering wheel and brushed aluminum trim throughout the cabin blending perfectly with the interior's fine tailoring, the marks of class and style are, quite literally, evident in every detail.

You won't be the only one enjoying a smooth ride in the new Eos. There are four generous seats to accommodate four adults with ease, with plenty of legroom for those in the back. And thanks to 'easy entry' front seats that slide forwards effortlessly, it couldn't be easier for rear passengers

to get in and out. It means, wherever you're sitting, front or back, you can enjoy the unique experience of the new Eos in total style and comfort. Deep Napa Red leather interior pictured available as an option.

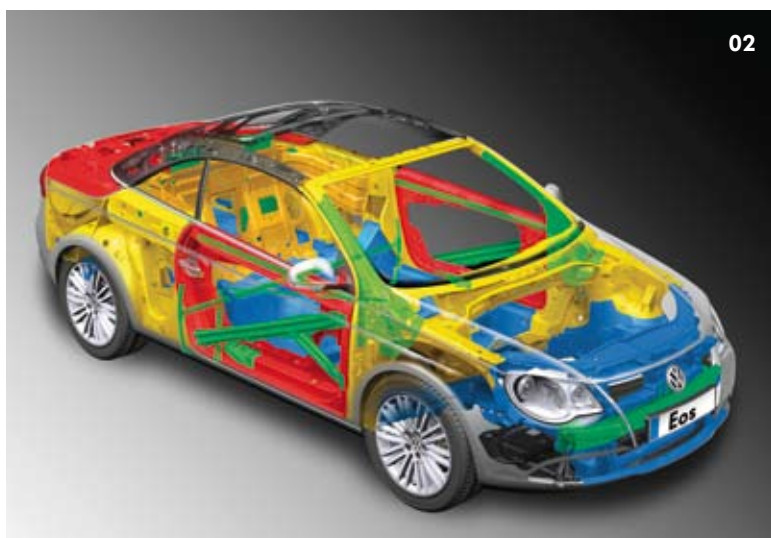

- 01** The Eos comes standard with ergonomic front sports seats giving optimal lateral support, and when cornering fast, ensure maximum driving enjoyment. Image shows standard cloth upholstery in Titanium black.
- 02** Leather trim on the handbrake lever grip, gear lever knob and gaiter, and sports steering wheel provide the finishing touches to the well appointed interior.
- 03** Breathe easy in the comfort of the dual zone climate control air conditioning complete with dust and pollen filter.
- 04** The Eos features a three-spoke leather covered steering wheel with audio and trip computer functions.

- 01** Passengers are protected by the Active rollover bars.
- 02** The Eos passenger safety cell is formed from steel panels with optimized strengths utilizing the most advanced manufacturing techniques and materials.
- 03** The Eos is equipped with a front and side/head airbag system providing optimal protection for front passengers.
- 04** The third brake light with LED technology is harmonically integrated into the boot lid.
- 05** The Electronic Stabilisation Program (ESP) reacts to critical driving situations within milliseconds, helping to maintain control by adjusting the engine's output and controlling the speed of individual wheels.
- 06** The Anti-lock Braking System (ABS) helps prevent the wheels from locking when braking heavily.

## Safety.

Not only does the new Eos promise fun, excitement and adventure, but also the highest levels of safety and protection.

A comprehensive range of intelligent safety features, including an Electronic Stabilisation Program (ESP) help you maintain control in critical driving situations within milliseconds by adjusting the engine's power output and braking individual wheels, giving more control back to the driver. ESP is supported by the Eos' Anti-lock Braking System (ABS) with Brake Assist (BA) that recognises emergency braking situations and helps prevent the wheels

from locking under heavy braking.

The Eos boasts a rigid bodyshell and active rollover bars are extended above the rear seats at the slightest hint of the vehicle rolling, offering exceptional protection. Driver's and front passenger's airbags as well as combined head and side impact airbags for front passengers come as standard to help keep passengers safe.

We cannot dispense with the laws of physics, but we can do everything possible to ensure your safety – leaving you free to enjoy the ride, without a care in the world. What greater freedom could you ask for?

- 01** The Eos range offers an optional leather upholstery package with individually heated front seats
- 02** The optional DYNAUDIO premium audio system has a total output of 600 watts from 10 loudspeakers and offers top-level, brilliant, distortion-free sound
- 03** Optional 12-way electric seat adjustment ensures the highest level of driver comfort.
- 04** Volkswagen Individual offers the attractively styled 18" Samarkand alloy wheels to add your personal touch to your new Eos
- 05** Alternatively you may choose the 18" Chicago alloy wheels
- 06** Optional Bi-xenon headlights produce a much clearer, brighter light, giving you a better view of the road ahead and helping you drive more safely
- 07** Optional satellite navigation system

## Optional extras.

The Eos is all about having choices, so you can imagine that we don't skimp on the optional extras. Inside, you can opt for Vienna or Napa leather seats in colours ranging from Titanium Black and Cornsilk Beige to Deep Red. The front seats can be fitted with an electric 12-way adjustment, including lumbar support, so a pleasurable drive even on the longest of journeys is guaranteed. On the exterior, the optional 18" alloy wheels come complete with a sports suspension package and Bi-Xenon headlights with cornering lights. Additionally you can choose from a range of unique metallic and pearl effect paint finishes. If great sound is what you are after, you can opt for the DYNAUDIO 600 watt premium audio system with 10 loudspeakers. You'll find yourself driving for the sheer joy of it, but should you have a destination in mind the Eos includes the option of a comprehensive satellite navigation system.

## Eos Individual.

Eos individuality is comprised of pure aesthetics and artisan perfection and with the Eos Individual package you can possess the ultimate in comfort and style. The seats of the Eos Individual are upholstered with dual tone Napa leather. A contrast to the base colour Black, also selected for the entire trim, the middle panels are upholstered in either Corn Silk Beige or Cinnamon and sport a light piping. You'll find this color combination and intricate contrast stitching throughout the entire vehicle.

The sport steering wheel as well as the gear shift cuff and hand brake have light colored decorative seams as well. The edgings of the textile foot mats are also held in contrasting Corn Silk Beige or Cinnamon. An optical highlight is set by the décor inlays that are covered with black piano lacquer. Combining style and agility the sleek silhouette of the Eos Individual is accentuated by 18 inch "Veracruz" alloy wheels in Titan Silver with sports suspension, aluminum door sill inlays, a chrome radiator grille and badging on the front guards.

- 01 Dual tone napa leather in Black and Corn Silk Beige combination
- 02 The Volkswagen Eos complete with Eos Individual package
- 03 Stylish interior with Individual contrast stitching and black piano lacquer accents
- 04 18" Veracruz alloy wheels

## Accessories

The following range of Volkswagen Genuine Accessories has been designed and engineered to the same exacting standards of quality as the Eos itself. With this in mind, you can be assured that every accessory in the comprehensive range will be a safe, reliable and functional enhancement to your Eos.

### Rubber Mats Front (Black)

The fitted footmats with Eos logo are secured with the fastening system in the footwell to stop them from slipping. Dirt and moisture are trapped and removed again by simply rinsing away.

### Mud Flaps

The shaped-to-fit mud flaps are extremely hard-wearing and durable. They protect the underbody, bumpers and rear end of the vehicle from excessive dirt. Damage from road chippings is reduced and spray is minimised.

### Door Sill Scuff Plates

To protect the sill area from scratches and damage, scuff plate foils are styled to fit. Foils are easy to stick on. In black with silver stripes

### Loading Sill Protection Foil

Genuine transparent foil for protecting the loading sill, affixed to the rear bumper.

### Rear Strip (Chrome Finish)

Genuine chrome rear strip for sticking to the lower edge of the boot lid

### Boot Inlay

The light, flexible inlay is cut to fit exactly the shape of the Eos. The approx. 5cm high edges provide full protection against dirt and moisture. The diamond shaped pattern prevents the load from slipping. If the luggage compartment inlay is not required it can be simply rolled up.

### Boot Liner

The practical luggage compartment protection with Eos logo is custom made. Washable, non-slip, acid resistant. The edge stands approx. 5cm high all round, preventing liquids from running onto the vehicle floor, keeps your luggage compartment spotlessly clean and prevents loads from slipping.

### Eos Roller Case

The roller case designed specifically for the Eos makes optimum use of its luggage compartment space. It is particularly hard wearing and tear resistant. The fully retractable telescopic handle and smooth running skate castors make the case easy to handle. Dimensionally designed just for the Eos, two roller cases will easily fit into the luggage compartment when the roof is closed.

### Eos Roller Cases (Set)

Comprising two equally sized cases, this roller case set designed specifically for the Eos makes optimum use of its luggage compartment space. It is particularly hard wearing and tear resistant. The fully retractable telescopic handle and smooth running skate castors make the case easy to handle. Dimensionally designed just for the Eos, two roller cases will easily fit into the luggage compartment when the roof is closed.

### iPod Adapter

The Volkswagen iPod in car adapter is a great way to take all your music on the road. Once fitted, your iPod will sit neatly inside the glove box of your new Eos.

### Ski Bag

The useful ski bag provides transport for up to four pairs of skis including ski poles, and protects the skis against damage by other items of luggage in the vehicle. The integrated belt can be slotted into the seatbelt socket. A full-length zip and comfy handles make the bag a pleasure to use. Length: approx. 200 cm, for skis up to 190 cm long.

### Windbreak

The windbreak reduces buffeting for front passengers when driving with the roof down. Attaching it is foolproof. When not needed, it can neatly be folded up to a handy size and stored in the luggage compartment.

## Alloy Wheels

Volkswagen has developed a choice of five attractively styled alloy wheels that compliment the unique styling of the Eos. They are pure in design, beautifully engineered and technically compatible with the Eos design for safe driving performance.

Alloy Wheel Akiros  
17 x 7½"

Alloy Wheel Azuro (Brilliant Silver)

# Owning a Volkswagen

## Volkswagen New Vehicle Warranty

Every new Volkswagen passenger vehicle is covered by a 3-year/100,000km (whichever occurs first) manufacturer's warranty, which includes Volkswagen Assist (24hr roadside assistance). Every new Volkswagen passenger vehicle is also covered by a 3-year paintwork and 12 year anti-corrosion perforation warranty.

## Volkswagen Assist – Premium

As a customer you can be assured that wherever you travel in Australia you will have access to roadside assistance 24 hours a day, 365 days a year. You will receive help in the event of a breakdown or accident and if required, your vehicle will be mobilised or transported to a Volkswagen authorised workshop. As a Volkswagen owner you will also have access to the additional benefits of accommodation and car rental if your vehicle cannot be mobilised within 24 hours when you are travelling away from home. Furthermore, you can enjoy the benefits of Volkswagen Assist's concierge service for Australia-wide travel booking.

## Volkswagen Extended Warranty

Why not continue the confidence of a Volkswagen Warranty by purchasing Volkswagen Confidence Plus – an Insurance Policy designed to provide cover for the repair or replacement of a failed mechanical or electrical part, after the expiration of the Volkswagen standard new vehicle warranty. Volkswagen Confidence Plus is available for an additional period of 12 or 24 months unlimited kms. In addition, Volkswagen Confidence Plus includes the continuation of your Volkswagen Assist, our 24-hour roadside assistance program. You can purchase Volkswagen Confidence Plus at any time within your Volkswagen standard new vehicle warranty (3-year/100,000km). For more information contact your participating local dealer or visit [volkswagen.com.au](http://volkswagen.com.au)

## Volkswagen Service

Your Authorised Volkswagen Service Centre is part of Volkswagen's global Quality Management System, ensuring all dealers are certified to ISO 9001:2000 – an internationally recognised Quality Standard. Authorised Volkswagen Service Centres have factory trained Technicians equipped with the very latest diagnostic equipment, specialist tooling and Volkswagen Genuine Parts. An Authorised Volkswagen Service Centre undertakes work in accordance to factory specified guidelines and maintenance schedules.

## Volkswagen Genuine Parts®

Volkswagen Genuine Parts® are designed for your vehicle and approved by Volkswagen, with particular regard to safety. The workmanship, dimensional accuracy and materials used in these parts comply with factory specifications. To ensure safety and reliability, Volkswagen recommends the use of Volkswagen Genuine Parts®. Volkswagen Authorised Dealers offer a 2-year warranty on Genuine Parts from the date of purchase.

## Volkswagen Finance

Buying, Borrowing or Leasing, Volkswagen Finance will certainly make you think differently about financing and insuring your new Volkswagen. Committed to meeting the needs of Volkswagen drivers, across Australia, we offer a range of leasing, financing and insurance products, each with distinct advantages depending on your specific circumstances. Our packages are personalised to suit your individual requirements. You design your plan so that it meets your budgeting needs and can rest assured that there will be no surprises along the way. Speak to your local participating Volkswagen Dealer today to put together a financial solution that best suits your lifestyle.

# Glossary

## Anti-lock Braking System (ABS)

When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the ABS system reduces brake pressure to that wheel. This prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable.

## Anti-Slip Regulation (ASR)

ASR improves driving and steering characteristics by preventing the front wheels from spinning under acceleration. When a difference in driving wheel speed is detected (i.e. when one wheel starts to spin due to differences in road surfaces, e.g. due to water or dirt) the system automatically reduces engine torque. ASR is a switchable traction control system.

## Brake Assist

During emergency braking, Brake Assist aids the driver by increasing the brake pressure automatically to a level exceeding the locking limit. The ABS is thus quickly brought into the operating range, which enables maximum vehicle deceleration to be achieved.

## Direct Shift Gearbox (DSG)

DSG is a manual gearbox in which the gearshifts are controlled electronically. What makes the DSG unique is that it has 2 separate gear sets operated by 2 wet multi-plate clutches. The benefit of 2 gear sets and 2 multi-plate wet clutches is that one gear set and clutch is engaged driving the vehicle with the second clutch having already pre-selected the next gear awaiting for power to be transferred. As the next gear has already been pre-selected prior to power being applied, the gear change only takes 3-4 100ths of a second. There is virtually no interruption to power, traction or acceleration. The DSG also offers Tiptronic gear selection and sports mode.

## Electronic Brake-pressure Distribution (EBD)

Electronic, more sophisticated means of regulating the ratio of front/rear brake pressure. Settings are varied according to driving and load conditions to ensure each wheel is braked to the optimum extent.

## Electronic Stabilisation Program (ESP)

ABS and ASR traction control systems are integrated into the Electronic Stabilisation Program (ESP). In short, ESP helps ensure that the vehicle goes where you steer it even in extreme driving conditions. The ESP system constantly compares the actual movement of the vehicle with pre-determined values and should a situation arise where the vehicle starts to skid, ESP will apply the brakes to individual wheels and automatically adjust the engine's power output to correct the problem. ESP prevents the vehicle from losing control when trying to avoid an accident, for example. It also prevents spinning off on a curve due to either understeer or oversteer.

Volkswagen is distributed by Volkswagen Group Australia Pty Ltd, The Lakes Business Park, 6 Lord St, Botany, NSW 2019. ABN 14 093 117 876. Specifications are as planned at August 2007 for model year 2008 and are subject to change without notice or obligation. Cars and accessories are shown for illustrative purposes only and may not depict Australian specifications. All Volkswagen approved parts and accessories are warranted for 2 years/unlimited kilometres. All warranties implied by legislation or otherwise, are excluded to the maximum extent permitted by law. The liability of Volkswagen shall, subject to the law, be limited at Volkswagen's discretion: 1. In the case of the goods, the repair or the cost of repair, or the replacement or the cost of replacement; and 2. In the case of services, the re-supply of the services or the cost of re-supply of the services. All information in this brochure is correct at time of publication, however variations may occur from time to time and Volkswagen, in so far as it is permitted by law to do so, shall not be liable in any way as a result of any reliance by any person on anything contained in this brochure. The colours shown in the brochure are indicative only and may vary from actual items owing to the printing process. Authorised Volkswagen dealers will provide up-to-date information on model application, design feature, prices and availability on request.
