

Cadillac

THE UNCOMMON CAR FOR THE UNCOMPROMISING FEW.

At the highest levels, a car is about much more than simple transportation. It's about projecting a unique sense of style. Reinvigorating yourself in an environment of exceptional quality. Revelling in a torrent of power. Perhaps most of all, a fine car is about celebrating high achievement. The rarest and most exclusive of all modern Cadillacs, XLR Platinum and XLR-V are just such cars – dramatically styled two-seat roadsters endowed with heroic performance and a kind of luxury that goes far, far beyond the ordinary. XLR Platinum and XLR-V for 2009. Let the celebration begin.

Cadillac

THE ATTRACTION IS IRRESISTIBLE.

Cadillac

EXCELLENCE RUNS IN THE FAMILY.

XLR is more than just a high-performance luxury roadster. It's a Cadillac, and as such it shares a lineage with some of the most respected, innovative and influential vehicles of the past century. Excellence is in its DNA. Here are some of the characteristics that distinguish the 2009 XLR Platinum and XLR-V as genuine Cadillacs.

XLR's styling is bold, distinctive – and unmistakably Cadillac. Great design is an essential part of the Cadillac heritage. In fact, Cadillac has been an international design leader since 1927, when the company became one of the first automotive manufacturers in the world to hire a stylist to design its vehicles.

Head-Up Display (HUD) instrumentation. Keyless access and push-button start. Bluetooth® cell phone connectivity. Radar-based Adaptive Cruise Control. Adaptive forward lighting that helps you see around corners. They're just a few of the technical innovations that give XLR owners bragging rights.

Cadillac's unique take on luxury is built on generous interior appointments, supportive, comfortable seats, a quiet, controlled ride and a long list of intelligent amenities. XLR Platinum and XLR-V deliver on all counts.

Cadillac and performance have gone hand in hand since the company premiered the original Cadillac V16 engine in 1930. XLR Platinum carries on that great tradition with an athletic 320 horsepower Northstar V8 engine. The ultra high-performance XLR-V goes even further, adding a host of upgrades, including a 443 horsepower supercharged version of the Northstar V8.

Cadillac has long been known for an obsession with safety and a dedication to customer satisfaction. That's why every XLR comes with a comprehensive array of safety features and exclusive Cadillac Owner Privileges, including 4-year/80,000 km No-Charge Scheduled Maintenance*. It's also why XLR owners enjoy a rare kind of peace of mind.

*Program in effect for the first 4 years or 80,000 km (whichever comes first) of ownership. Conditions and limitations apply.

Cadillac

Restyled for 2009, XLR Platinum has an edgy, contemporary look reminiscent of the best of modern art. It's also a design that seduces the wind as it does the eye. Thanks to countless hours spent refining its every exterior detail in the wind tunnel, XLR Platinum splits the air with a drag coefficient of just .31. As to where you keep it when you're not driving, that's strictly up to you.

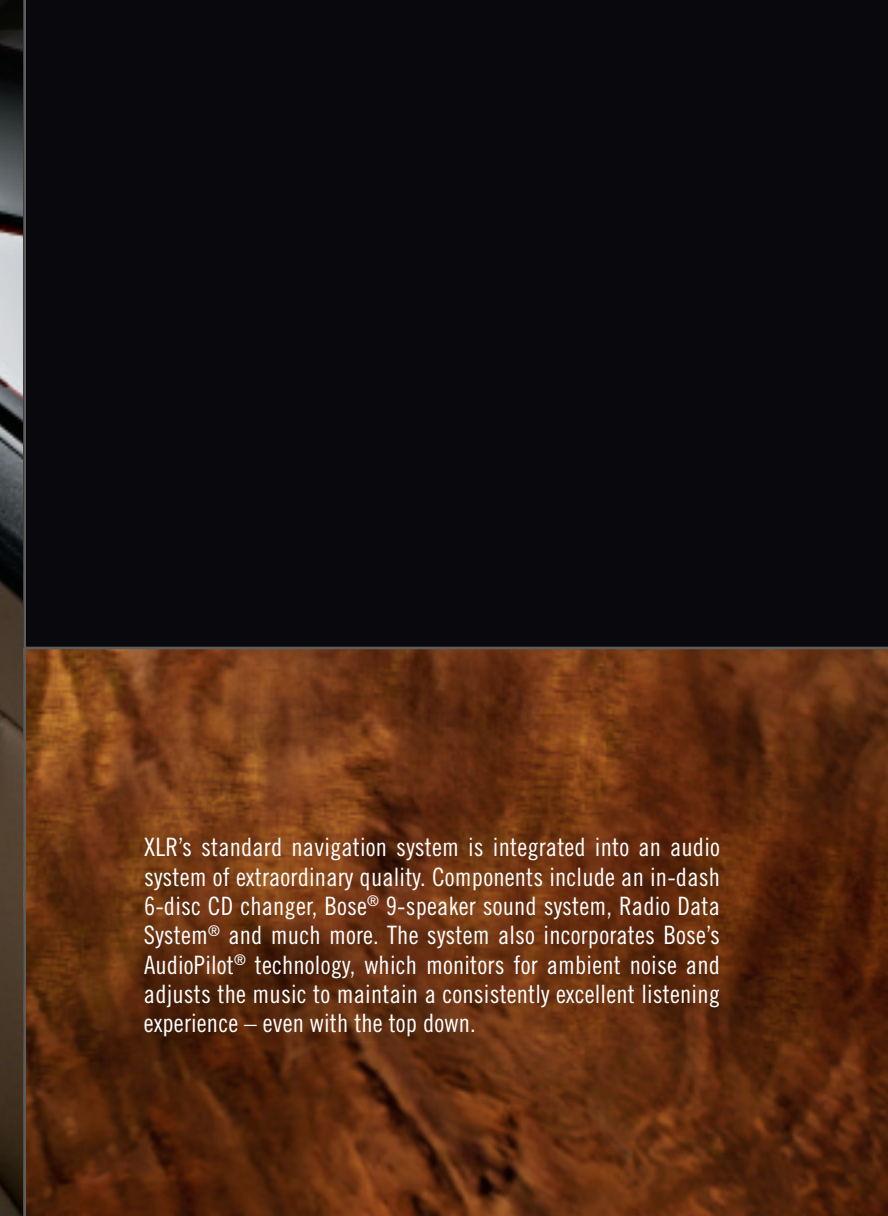

GARAGE? OR GALLERY?

BRILLIANCE IS IN ITS NATURE.

In XLR Platinum's intimate yet spacious cockpit, fine natural materials surround you. The doors, console and upper instrument panel are hand-wrapped in supple leather by master craftsmen, and leather adorns the heated and cooled seats as well. Accenting these leathers are Quartz-finished metal trim and lustrous natural Olive Ash burlwood in the doors and console and on the heated steering wheel. It all contributes to a driving experience of exceptional refinement.

The warmth and unique character of natural Olive Ash burlwood provides the perfect counterpoint to XLR's bold, technical lines. It's complemented by glare-resistant metal trim accents and supple natural leathers on the seats, doors, console and steering wheel.

XLR's standard navigation system is integrated into an audio system of extraordinary quality. Components include an in-dash 6-disc CD changer, Bose® 9-speaker sound system, Radio Data System® and much more. The system also incorporates Bose's AudioPilot® technology, which monitors for ambient noise and adjusts the music to maintain a consistently excellent listening experience – even with the top down.

TECHNOLOGY AT ITS MOST ADVANCED.

In XLR, cutting-edge technologies elevate your control and confidence to a higher level. Take the standard DVD navigation system, for example. With its 165 mm high-resolution touch screen, it can guide you to destinations throughout Canada and the United States.* You may never have to stop and ask for directions again. Or consider the aircraft-inspired Head-Up Display (HUD), also standard equipment. It projects key driving data, like your current speed and prompts from the DVD navigation system, right onto your windshield. You get the essential information you need without ever taking your eyes off the road. For yet another example, take the Bluetooth cell phone connectivity system that's integral to every 2009 XLR. It allows you to place and receive phone calls hands-free, using just a button on the steering wheel and voice commands.

*At time of printing, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.

XLR-V will forever change your impression of what luxury driving can be. With a 443 horsepower supercharged Northstar V8 engine, a six-speed automatic transmission with Driver Shift Control and a long list of premium brake and suspension components, the XLR-V offers an astounding level of performance. Imagine accelerating from a standing start to 96 km/h in a blistering 4.6 seconds* and you'll begin to understand the feats this exceptional machine is capable of. Yet the XLR-V remains a superbly luxurious, supremely elegant automobile, free from technical compromises and styling gimmicks. The result: an ultra high-performance roadster of extraordinary sophistication and poise.

*Based on GM testing.

THE OUT-PERFORMER.

LUXURY TAKEN TO EXTREMES.

XLR-V ups the ante on luxury just as it does on performance. The car's performance-oriented nature is complemented beautifully by dramatic black Olive Ash wood set off by Bermuda aluminum accents on the steering wheel and instrument panel. The seats are finished with soft, supple leathers and perforated sueded-fabric inserts designed to hold you firmly in place during aggressive cornering. The final touch is interior panels wrapped in natural leather and finished with precision-crafted French seams. The end product: elegance that's almost as thrilling as XLR-V's astounding acceleration.

THE ONLY THING THAT COULD TOP AN XLR.

On a crisp spring afternoon or a soft summer's evening, XLR Platinum and XLR-V offer the joy of pure top-down motoring. But should the skies turn stormy, they can metamorphose from wind-in-your-hair roadsters into weathertight coupes in under 30 seconds. The hydraulic system that makes this transformation possible is so well engineered, it functioned perfectly 22,800 times in a row in testing in some of the harshest conditions imaginable. That's the equivalent of raising and lowering the top twice a day for more than three decades. The Alcantara®-lined roof has also been proven to withstand a 13,600 L torrent of water without admitting a single drop to the interior. That's weather protection that nothing can top.

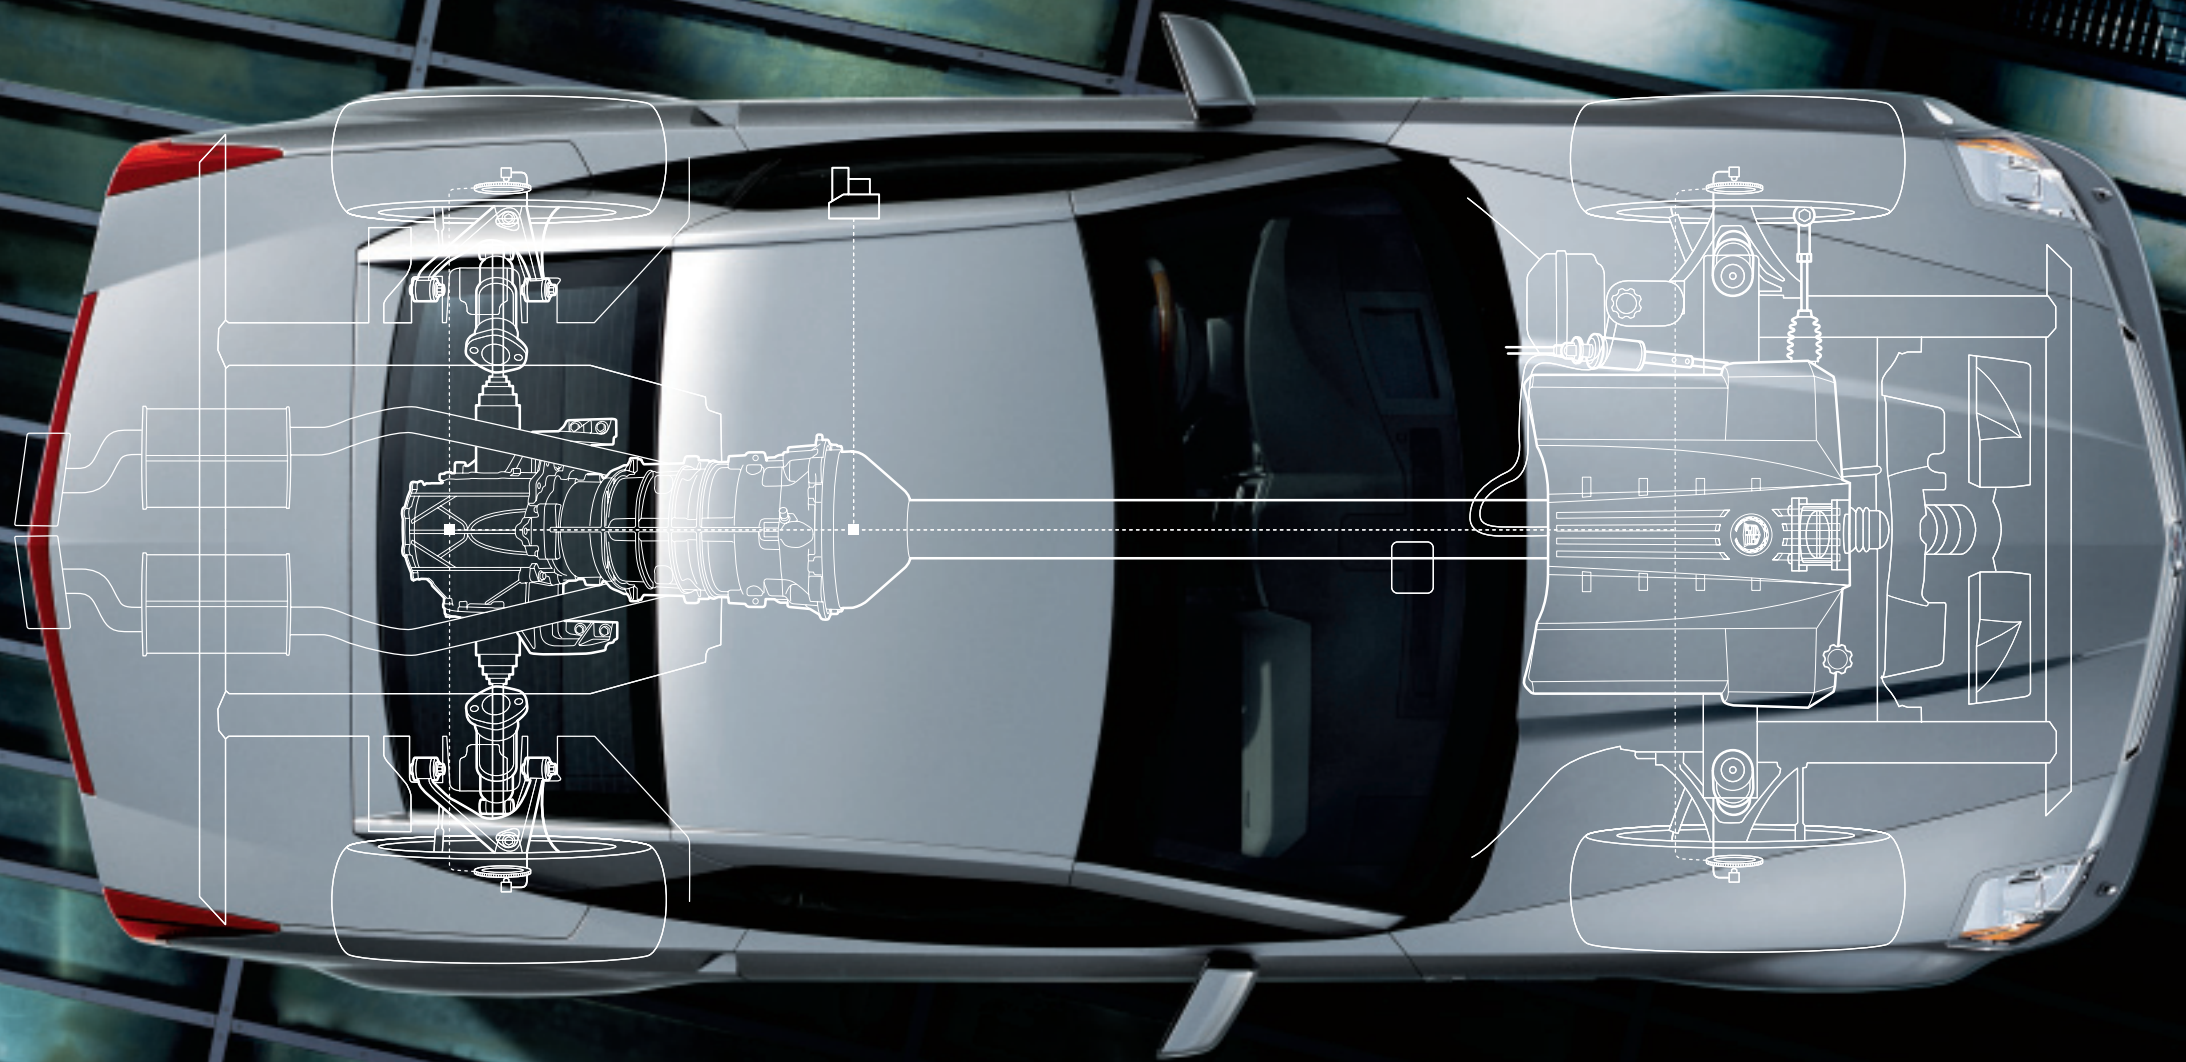

KEEP YOUR DISTANCE — EFFORTLESSLY.

When the road is clear, XLR Platinum's standard Adaptive Cruise Control* functions like a normal cruise control system and maintains your pre-set speed. But any time you encounter slower-moving traffic ahead, your XLR Platinum's radar-based Adaptive Cruise Control automatically eases the throttle and applies the brakes, if necessary, to maintain a safe following distance. When the traffic in front clears, or when you change to a more open lane, your XLR Platinum will automatically accelerate back up to your pre-set cruising speed. Think of it as the high-tech way to put the stress of highway driving behind you.

*Not available on XLR-V. Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle.

ELITE ATHLETE.

XLR Platinum's 4.6L Northstar V8 engine is replete with some of today's most advanced technologies. The result is a smooth, sophisticated 320-horsepower powerplant that will move you in more ways than one.

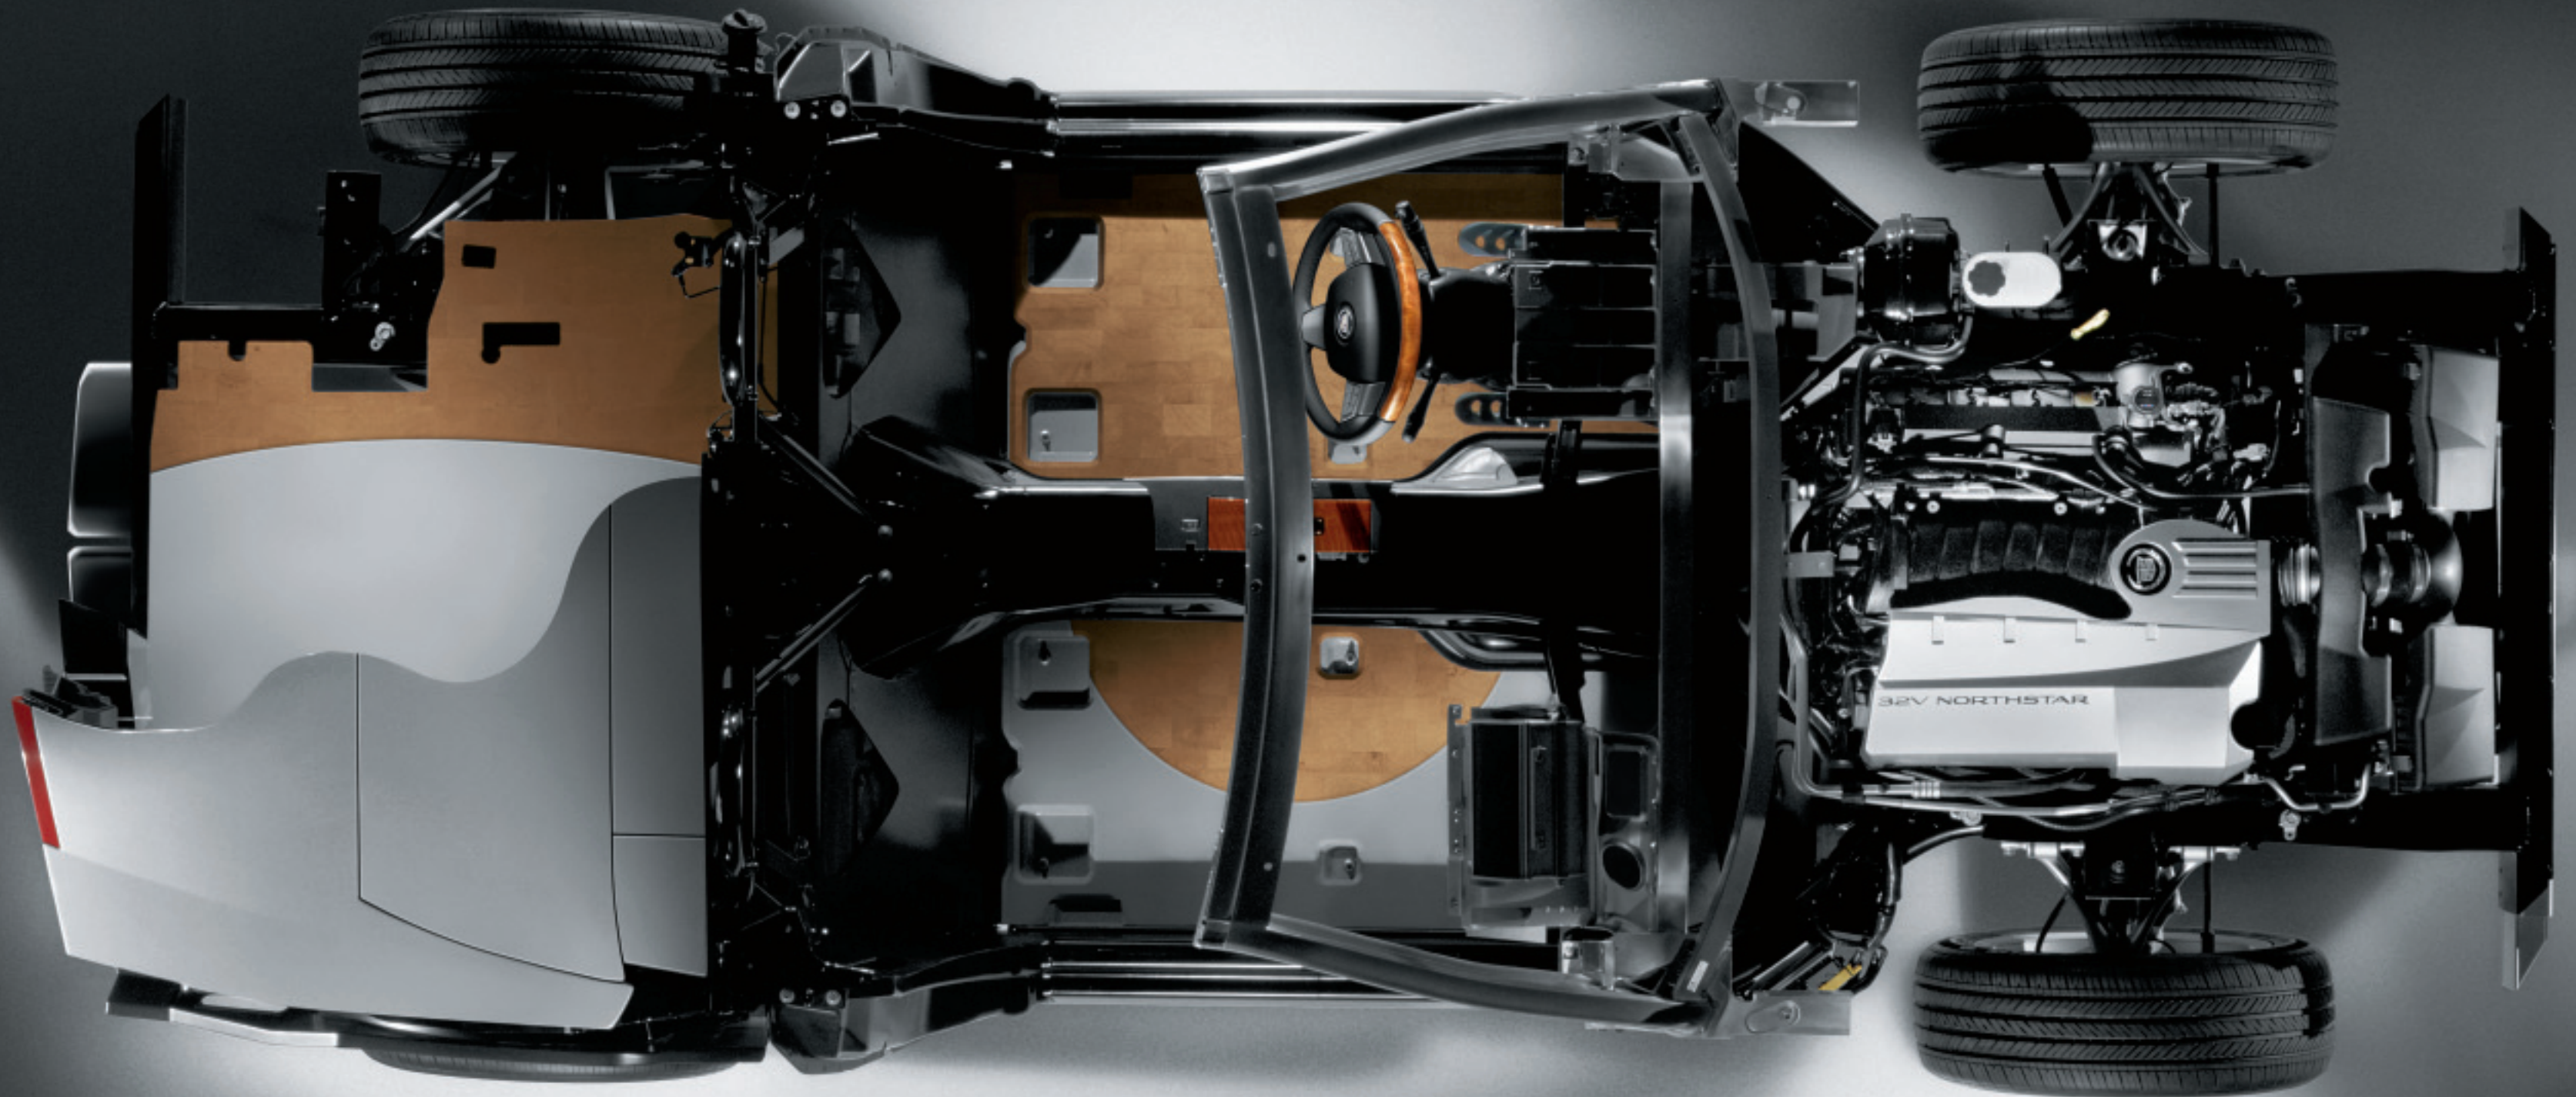

The precision-engineered 6-speed automatic transmission is assembled in an environmentally controlled "clean-room" environment. Positive air pressure is maintained to help keep out dust and other contaminants that could compromise the transmission's performance or durability.

Brilliant performance is an essential part of XLR Platinum's charismatic character. Lift the hood and you'll come face to face with one of the world's most advanced luxury-car engines – the 4.6L Northstar V8. Among its many leading-edge features is Variable Valve Timing (VVT), which automatically adjusts the opening and closing times of the intake and exhaust valves as operating speeds change, to maintain optimal efficiency. The results? Outputs of 320 horsepower and 310 pounds-feet of torque. Channelled through a precise rear-mounted six-speed automatic transmission with Driver Shift Control, all that power translates into thrilling acceleration, including 0-96 km/h in just 5.8 seconds.* Athletic, indeed.

*Based on GM testing.

GO DEEP.

XLR's hydroformed steel side rails – weld-free, extraordinarily strong and a technical achievement in their own right – do a job that was once handled by an assembly of dozens of components.

The deeper you delve into XLR's technology, the clearer it becomes why this is such a rewarding car to drive. The story starts with a dedicated, high-tech rear-wheel-drive performance architecture featuring hydroformed side rails and floor panels made from layers of composite material sandwiched around a balsa wood core – a technology borrowed from the aerospace industry. To this rigid yet lightweight platform, Cadillac's engineers fitted a four-wheel double-wishbone suspension inspired by some of the world's most successful race cars. Then, in a stroke of brilliance, they added Magnetic Ride Control®, an amazing technology that's exclusive to XLR in the luxury roadster class. This suspension system constantly reads the road and can adjust damping at each wheel accordingly up to 1000 times every second, thanks to a unique magneto-rheological fluid in each shock absorber. The results? Excellent body control and an extremely comfortable ride, combined with handling agility that leaves many pure sports cars in your dust.

PREMIUM PROTECTION.

With OnStar* and 1 year of the Directions & Connections Plan including Turn-by-Turn Navigation[†], XLR links you directly to the world's most comprehensive in-vehicle security, communications and diagnostics system.

* OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.ca for OnStar's Terms and Conditions, Privacy Statement and details and system limitations.

[†] Turn-by-Turn Navigation not available in certain areas. Availability impacted by some geographical/cellular limitations, advisor-assisted routing available. Visit onstar.ca for coverage map.

It's reassuring to know that where safety is concerned, XLR Platinum and XLR-V have all the angles covered. They're equipped with a variety of features that help you stay out of danger by enhancing your vision, including adaptive headlights that literally help you see around corners. Should a dangerous situation arise, they excel at collision avoidance thanks to their athletic performance, braking and handling characteristics supplemented by systems like StabiliTrak™, traction control and ultrasonic rear parking assist. They also provide outstanding protection if a crash can't be avoided, thanks to front and rear crush zones, a rigid chassis and four standard air bags. Your XLR will even continue to assist you after the fact if a significant collision involving air bag deployment has taken place, by automatically alerting OnStar® advisors* who can then dispatch emergency services to your precise location.

XLR Platinum and XLR-V feature dual-stage frontal air bags and seat-mounted head and thorax air bags engineered to provide protection in a side impact. A standard passenger-sensing system automatically disables the passenger-side air bags if it detects that the seat is empty or that the occupant is a child or small adult.**

**A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even in vehicles with air bags.

Every XLR features low-profile "zero-pressure" tires. If one should deflate, you can continue to drive at 90 kilometres per hour for up to 200 kilometres – further, if you stop to allow the tire to cool – to find a service station.

CADILLAC OWNER PRIVILEGES

It might be said that driving a Cadillac is by itself a privilege. The greater truth, though, is that by choosing Cadillac ownership, you become part of an entire world of extraordinary privileges, ones that enhance your safety and convenience and reduce your overall cost of ownership. For the first 4 years or 80,000 km of ownership,* No-Charge Scheduled Maintenance will cover all regularly scheduled maintenance required by your Cadillac. During the same period, the New Vehicle Limited Warranty will cover all parts and labour costs* that may be incurred to correct defects in material or workmanship. You are also covered by GM's Powertrain Component Limited Warranty, which is in effect for the first 5 years or 160,000 km of ownership.** While the Powertrain Component Limited Warranty is in effect, you enjoy the support of Cadillac Roadside Assistance* throughout Canada and the United States should you require towing, fuel delivery, a jump start or help with a flat tire or lock-out situation. In addition, Courtesy Transportation* provides you with shuttle transportation for daily service and an alternate car (or reimbursement for rental or other transportation expenses) for overnight service, whenever your Cadillac requires scheduled maintenance or repairs covered under the New Vehicle Limited Warranty. Other Cadillac owner privileges include Trip Planning* assistance and Trip Interruption Protection,* and you may be reimbursed by General Motors of Canada for reasonable hotel, meal and alternative transportation expenses incurred should your trip be interrupted by a repair covered under the New Vehicle Limited Warranty. See your Cadillac dealer for complete details on all Cadillac Owner Privileges.

*Program in effect for the first 4 years or 80,000 km (whichever comes first) of ownership. Conditions and limitations apply.

**Whichever comes first, conditions and limitations apply.

ACQUISITION OPTIONS

In addition to the many exclusive privileges of Cadillac ownership, General Motors of Canada have created a range of supplementary support programs to enhance your ownership experience. Some of these programs assist you in purchasing the Cadillac of your choice. Others help protect you and your new Cadillac over the long term.

Purchasing:

- **GMAC Express Credit Application** – a convenient way to get pre-approved credit towards the purchase of your next GM vehicle
- **GMAC Purchase Financing** – on-the-spot financing at your GM dealership[†]
- **The GM Card** – eligible cardholders may be able to redeem up to \$3500 in GM Card® Earnings toward the Total Purchase Price on selected vehicles.^{††} For more information on The GM Card please call 1-800-461-3279.

Additional Ownership Programs:

- **GM Protection Plan (GMPP)** – the only extended service plan backed by the resources and commitment of General Motors, GMPP may be purchased at the time of sale or subsequently during the New Vehicle Limited Warranty period.^{††}

[†]Subject to eligibility. ^{††}Conditions and limitations apply.

Information Resources:

You can obtain more information about Cadillac vehicles and programs from your Cadillac dealer, or at these information centres:

- The GM website at gm.ca
- The Cadillac Contact Centre at 1-888-446-2000 or (1-800-263-3830 for TDD users)
- For more information about GMAC visit gmac.ca or call 1-800-616-4622.

A word about this brochure

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your Cadillac dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A word about assembly

Cadillac vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in Cadillac vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

A word about corrosion

Cadillacs are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for six years. There is no deductible for rust-through repairs. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended.

Note: Instrumentation shown in this brochure will be Metric in Canada.

Trademarks

The marks appearing in this Cadillac brochure including, but not limited to: General Motors, GM, the GM Canada emblem, the GM Canada website address, Cadillac, the Cadillac badge, Cadillac Owner Privileges, Cadillac Roadside Service, XLR, V-Series emblem and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Magnetic Ride Control, Northstar, Rainsense, Solar-Ray, StabiliTrak and Twilight Sentinel are trademarks of General Motors Corporation and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.

GMAC is a registered trademark of the General Motors Acceptance Corporation of Canada, Limited.

OnStar and the OnStar emblem are registered trademarks of OnStar Corporation.

Magnasteer and TheftLock are registered trademarks of Delphi Automotive Systems.

Bose, Bose Studio Surround and AudioPilot are trademarks or registered trademarks of the Bose Corporation.

Radio Data System (RDS) is a registered trademark of the U.S. National Association of Broadcasters.

The XM name and related logos are trademarks of XM Canada, Canadian Satellite Radio, Inc.

Bluetooth is a registered trademark of Bluetooth SIG Inc.

Alcantara is a registered trademark of Alcantara S.p.A., Italy.

2009 XLR FEATURES & OPTIONS

SAFETY AND SECURITY

	XLR PLATINUM
AIR BAGS	
Driver and passenger, dual-stage, frontal with Passenger Sensing System	S
Driver and passenger, seat-mounted side-impact with head and thorax protection	S
Dynamic passenger air bag sensing system with passenger air bag suppression, manual on/off switch in glovebox, LED illumination/indicator in console	S
DOOR LOCKS	
Automatic power, programmable with lock-out protection	S
HEADLIGHTS	
Bi-functional Xenon High-Intensity Discharge (HID), high and low beam	S
Daytime Running Lights, automatic light control with Twilight Sentinel®	S
Adaptive forward system, steerable	S
Headlight washer system	S
Windsheild wiper activated	S
KEYLESS ACCESS SYSTEM	
Remote includes push-button start ignition, lock/unlock passive entry, personalization and activation notification and Panic feature, 2 remote fobs	S
ONSTAR SYSTEM	
OnStar In-Vehicle Communications and Assistance Service, includes 1 year of the Directions & Connections Plan* with Turn-by-Turn Navigation**	S
SAFETY RESTRAINTS	
3-point safety belts with lap belt pre-tensioners, shoulder-belt retractors and child restraint provisions	S
STABILITRAK	
StabiliTrak electronic stability control system	S
THEFT-DETERRENT SYSTEM	
Electronic immobilizer	S
Tamper alarm for doors and trunk, audible/visible alarm	S
TRACTION CONTROL	
Electronic, full-function, all-speed with on/off switch	S
ULTRASONIC REAR PARKING ASSIST	
Rear obstacle detection system with audible/visible warning	S
MECHANICAL	
AXLE RATIO	
Final drive ratio – 2.73.1	S
BRAKES	
Power, 4-wheel vented discs	S
4-wheel, 4-channel anti-lock braking system (ABS) with Panic Brake Assist and Dynamic Rear Brake Proportioning	S
DRIVE	
Rear-wheel drive	S
ENGINE	
4.6L Northstar V8 VVT with 320 horsepower @ 6400 rpm and 310 lb.-ft. of torque @ 4400 rpm	S
EXHAUST SYSTEM	
Dual chrome-plated tips	S
STEERING	
Magnasteer®, speed-sensitive, power variable-assist, rack and pinion	S
SUSPENSION	
4-wheel independent	S
Magnetic Ride Control – computer-controlled suspension system with adjustable shock absorbers	S
TRANSMISSION	
6-speed automatic with Driver Shift Control	S
INTERIOR	
ACCENTS	
Aluminum accents on centre console, bezels (air vents, climate control, and radio) outboard armrests, door switch bezels and steering wheel	S
Natural Olive Ash Burlwood and quartz-finished metal trim on door handles, shift knob, centre console and instrument panel	S
Premium hand-wrapped leather components along upper portion of interior, including instrument panel, door trim and centre console	S
Headliner Alcantara® microfibre	S
AUDIO SYSTEM	
AM/FM stereo with in-dash 6-disc CD changer, Radio Data System (RDS), digital clock and TheftLock®, DVD navigation, single DVD for map coverage in Canada† and USA, GPS based, 165 mm (6.5 in.) touch screen, multi-language, voice recognition, Bose 9-speaker sound system with AudioPilot noise compensation technology	S
XM Satellite Radio™††	S

INTERIOR (Continued)

	XLR PLATINUM
BLUETOOTH	
In-vehicle system allows Bluetooth-enabled cell phones to utilize vehicle's audio system, microphone, voice recognition and steering wheel controls	S
CLIMATE CONTROL	
Automatic, dual-zone electronic climate control with automatic recall	S
Air filtration system, pollen filter	S
CONSOLE	
Centre console with shifter, storage, auxiliary power outlet, dual covered cupholders, coin holder and ashtray with cigar lighter	S
CRUISE CONTROL	
Adaptive Cruise Control, RADAR transceiver automatically adjusts speed to maintain pre-set following distance – includes reconfigurable 4-colour Head-Up Display with readouts for vehicle speed, selected gear, Adaptive Cruise Control, audio system, navigation turn prompts, high beam indicator and fuel level information	S
INSTRUMENTATION	
Analogue cluster with Driver Information Centre (5-language capability)	S
Tire pressure monitoring system	S
KEYLESS IGNITION	
Push-button start	S
LIGHTING	
Illuminated entry/exit, map and door puddle lighting	S
MEMORY PACKAGE	
Automatically recalls settings for 2 drivers based on their individual remote access key fob, the recall function remembers the position of the driver's seat, exit seating position, exterior rear-view mirror preferences, passenger tilt-down parallel park feature, power tilt/telescoping steering wheel and climate control settings	S
MIRRORS	
Electrochromatic, auto-dimming rear-view mirror with 3-button OnStar controls and map lights	S
Illuminated driver and passenger visor vanity mirrors	S
SEATING	
Front buckets with power 8-way driver and passenger seat adjusters and integrated Bose audio speakers	S
Perforated Nuance leather seating surfaces	S
Heated seating surfaces and ventilated seat cushions and backs	S
Adjustable upper and lower lumbar support	S
STEERING WHEEL	
Leather-wrapped, heated with Quartz aluminum accents and wood trim	S
Controls for voice recognition, audio system and cruise control	S
Power tilt and telescopic adjustable column	S
TRUNK	
Power remote release with closing system	S
Convenience net	S
UNIVERSAL HOME REMOTE	
3-channel programmable remote transmitter	S
WINDOWS	
Power with express-up and down feature and automatic indexing sealing system	S
EXTERIOR	
GLASS	
Solar-Ray®, tinted	S
GRILLE	
Chrome finish	S
LIGHTS	
Fog lights	S
Tail lights, LED	S
MIRRORS	
Foldaway, heated, power remote control with driver-side electrochromic auto-dimming feature	S
Passenger-side with tilt-down parallel park feature	S
ROOF	
Hardtop, power retractable roof-operated via console control	S

EXTERIOR (Continued)

	XLR PLATINUM
TIRES	
P235/50R18 Michelin ZP W-rated, extended mobility	S
WHEELS	
18" x 8" 9-spoke sterling silver painted aluminum wheels	S
18" x 8" 9-spoke chrome aluminum wheels	0
WIPER/WASHER SYSTEM	
Rainsense™ with automatic variable delay	S
XLR-V SELECTED ADDITIONAL FEATURES	
Features listed below for XLR-V or in lieu of or in addition to the features listed for the XLR Platinum	
ENGINE	
4.4L Northstar V8 WT supercharged	
443 horsepower @ 6400 rpm	
414 lb.-ft. of torque @ 3900 rpm	
EXHAUST SYSTEM	
Polished stainless steel tips	
TRANSMISSION	
6-speed automatic with Driver Shift Control	
AXLE RATIO	
Final drive ratio – 2.56.1	
SUSPENSION	
Performance-tuned Magnetic Ride Control – computer-controlled suspension system with adjustable shock absorbers	
BRAKES	
Performance, 4-wheel vented discs	
4-wheel, 4-channel anti-lock braking system (ABS) with Panic Brake Assist and Dynamic Rear Brake Proportioning	
Front 340 mm (13.4 in.) cross-drilled rotors	
Rear 330 mm (13.0 in.) cross-drilled rotors	
TIRES	
Front, P235/45R19 Pirelli W-rated, extended mobility	
Rear, P255/40R19 Pirelli W-rated, extended mobility	
WHEELS	
19" x 8.5" 10-spoke painted aluminum wheels	
19" x 8.5" 10-spoke chrome aluminum wheels – available	
GRILLE	
Stainless steel wire mesh upper and lower grilles	
ACCENTS	
Black Olive Ash appointments with Bermuda metal accents	
CRUISE CONTROL	
Electronic, includes tell-tale in Head-Up Display (replaces Adaptive Cruise Control)	
SEATS	
Nuance leather seating surfaces with perforated suede-fabric inserts	
STEERING WHEEL	
Leather-wrapped, heated with Bermuda aluminum accents	
Controls for voice recognition and audio system	

S – Standard. 0 – Optional.
 * OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.ca for OnStar's Terms and Conditions, Privacy Statement and details and system limitations.
 ** Turn-by-Turn Navigation not available in certain areas. Availability impacted by some geographical/cellular limitations, advisor-assisted routing available. Visit onstar.ca for coverage map.
 † At time of print, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.

D – Available on XLR-V, 19" 10-spoke chrome aluminum wheel with Pirelli extended mobility P235/45R 19-front and P255/40R 19-rear W-speed rated tires

FORWARD THINKING.

Canada 

General Motors continues to invest in technologies that reduce greenhouse gas emissions and lessen the dependence on petroleum. Beyond today's hybrids and alternative fuel solutions, GM is developing game-changing technology with the upcoming Volt plug-in electric car and a test fleet of zero-emissions Hydrogen Fuel Cell Vehicles already on the road.

GM also demonstrates its commitment to environmental sustainability by the way it produces this brochure. Research has told us that people like you continue to value printed brochures. So GM prints them on Forest Stewardship Council-certified paper. The goal is to protect wildlife habitat, ensure clean water and to keep forests healthy.

It's just one more way that GM integrates green thinking into every aspect of its activities. Just like you.

For more information about the scope of GM's green initiatives, visit greenbydesign.gm.ca
